# **PRESIDENTS' MESSAGE**

We would like to welcome you to Everest University, whose locations provide a friendly, small-campus atmosphere where our dedicated staff can take a personal interest in the progress of each student. This caring attitude, combined with progressive curricula from diplomas to Associate's degrees to graduate-level programs, affords our students a meaningful higher education experience, as well as effective preparation for a wide variety of careers.

Obtaining a college education gives our graduates a competitive edge in their career field and will make the difference when they are considered for professional advancement. Our programs are designed for employment in the state of Florida as well as other progressive areas throughout the country.

Our goal is to provide our students with quality instruction, a sense of professional responsibility, a desire for lifelong learning, and the essential skills and abilities to qualify them for their chosen career.

Building on the traditions of Tampa College (the oldest business college in Florida, founded in 1890), we have made every effort to fulfill our obligations to those who have entrusted their educational and career goals to Everest University. Therefore, we invite all interested parties to visit our campuses and review our wide variety of programs. Our experienced admissions officers will assist in the important process of identifying the program best suited for the candidate's special interests, talents, and goals.

Benjamin Franklin once said, "If a man empties his purse into his head, no man can take it away from him." An investment in knowledge always pays the best interest.

David Splitstone, Brandon Campus

Jerry Causey, Jacksonville Campus

Michael Beaty, North Orlando Campus

Bruce Jones, Orange Park Campus

John Buck, South Orlando Campus

# ABOUT EVEREST UNIVERSITY

#### **MISSION**

The mission of Everest University is the education of qualified undergraduate and graduate students through the delivery of career-oriented Associate's, Bachelor's, and Master's degree programs as well as diploma programs in a personalized teaching and learning environment designed to support students' personal and professional career development.

#### **INSTITUTIONAL GOALS**

In support of its mission, the University has adopted the following goals:

- Academics To provide challenging and relevant accredited undergraduate and graduate programs in a variety of career-oriented disciplines, incorporating effective educational methodologies, modern technology, and traditional and alternative instructional delivery systems, and characterized by effective teaching and a student-centered atmosphere.
- **Educational Support Services -** To provide a variety of programs and services that support its educational goals and purpose, are consistent with student needs, encourage student success, enhance diversity, and improve the quality of life for students.
- **Enrollment** To manage the controlled growth of a diverse student body through the use of effective and ethical recruitment and retention methods and initiatives, and to support the quality of educational opportunities for all students, while meeting the University's fiscal needs.
- **Business and Finance** To manage and increase the University's resources in accordance with sound business practices, regulatory standards, and applicable laws.
- **Physical Resources** To ensure that the physical resources, including buildings and equipment, are adequate to serve the needs of the institution, support its purpose, and contribute to an atmosphere for effective learning.
- **Continuous Improvement** To continuously improve the quality of the University's programs and services to meet the needs of its students, communities, and other key stakeholders.

#### HISTORY

Everest University, hereinafter referred to in this publication as the "University," is a private proprietary university composed of numerous campuses in Florida, which are owned and operated by Florida Metropolitan University, Inc., located in Tampa, Florida.

Most Everest University campuses have a long, rich history of service to residents of the state of Florida. On October 17, 1996, Florida Metropolitan University, Inc., acquired Tampa College (locations in Tampa, Brandon, Lakeland, and Clearwater), Orlando College (locations in North Orlando, South Orlando, and Melbourne), and Ft. Lauderdale College. Tampa College was founded in 1890, making it the oldest business college in the state. Orlando College was established in 1953 as Jones College, Orlando; and in 1981, the name was changed to Orlando College. The South Orlando campus was created in May of 1987. The Melbourne campus was created in June of 1995. Ft. Lauderdale College can trace its roots back to 1940 with the founding of the Walsh School of Business. The College has operated under the name of Broward College and Drake College and in 1976 changed its name to Ft. Lauderdale College. The Jacksonville campus started its first class in July of 2000. The newest campus, Orange Park, started its first class in March of 2004. In November of 2007 the name of all FMU campuses was changed to Everest University

Olympia College, Merrionette Park, is a branch of the Pompano Beach campus of Everest University.

#### **INSTITUTIONAL ACCREDITATION**

Accredited by the Accrediting Council for Independent Colleges and Schools to award diplomas, Associate's degrees, Bachelor's degrees, and Master's degrees. The Accrediting Council for Independent Colleges and Schools is listed as a nationally recognized accrediting agency by the United States Department of Education and is recognized by the Council for Higher Education Accreditation. The Accrediting Council for Independent Colleges and Schools (ACICS) is located at 750 First Street, NE, Suite 980, Washington, D.C. 20002-4241; (202) 336-6780.

For programmatic accreditation, please see the sections of this catalog containing program-specific information.

#### **PROGRAMMATIC ACCREDITATION**

The Medical Assisting programs at Everest University Brandon, Everest University Lakeland, Everest University Melbourne, Everest University North Orlando, Everest University Largo, Everest University South Orlando, and Everest University Tampa are accredited by the Commission on Accreditation of Allied Health Education Programs upon the recommendation of the Medical Assisting Education Review Board (MAERB). Further information can be obtained by contacting the Commission on Accreditation of Allied Health Education Programs, 1361 Park Street, Clearwater, FL 33756, 727-210-2350, 727-210-2354 (fax), www.caahep.org.

The Pharmacy Technician program at the Melbourne campus is accredited by the American Society of Health-System Pharmacists, 7272 Wisconsin Avenue, Bethesda, Maryland, 20814, (301)657-3000, www.ashp.org.

The Surgical Technology programs of the Brandon campus is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon the recommendation of the Accreditation Review Committee on Education in Surgical Technology (ARC-ST), Allied Health Education Programs, CAAHEP, 1361 Park Street, Clearwater, FL 33756, Phone: 727-210-2350.

#### **LICENSURE**

Each location of the University is listed as an institution of higher education in the Directory of Higher Education.

The University is a non-sectarian, coeducational institution with authority to confer Associate's, Bachelor's, and Master's degrees and diplomas. The University is licensed by means of accreditation by the Florida Commission for Independent Education. License numbers are as below:

Pompano Beach (main)	2574	Largo (main)	2626	Orlando North (main) 2594
Tampa (main)	2627	Lakeland (branch)	2602	Orlando South (branch) 2609
Brandon (branch)	2603	Jacksonville (branch)	2966	Melbourne (branch) 2612
Orange Park (branch)	3132			

Further information may be obtained by contacting the Florida Commission for Independent Education, Department of Education, 325 West Gaines Street, Suite 1414, Tallahassee, Florida 32399, (850) 245-3200

#### **APPROVALS**

The dental assisting programs of Everest University are approved by the Florida Board of Dentistry. The massage therapy programs of Everest University's are approved by the Florida Board of Massage Therapy. The Associate Degree nursing program at the Brandon campus of Everest University is approved by the Florida Board of Nursing.

Undergraduate and graduate programs are approved by the Department of Homeland Security and by the Florida State Approving Agency for Veterans Training. All campuses are members of the Career College Association.

The Jacksonville, Lakeland, North Orlando, Largo, Pompano Beach and Tampa campuses are authorized under federal law to enroll nonimmigrant alien students.

#### STATEMENT OF NON-DISCRIMINATION

Everest University does not discriminate on the basis of race, color, religion, age, disability, sex, sexual orientation, national origin, citizenship status, gender identity or status, or marital status in the administration of its educational and admissions policies, scholarship and loan programs, or other University-administered programs.

The Americans with Disabilities Act of 1990, as amended, protects qualified applicants, students, and employees with disabilities from discrimination in hiring, promotion, discharge, pay, job training, fringe benefits, classification, referral, and other aspects of employment on the basis of disability. The law also requires that covered entities provide qualified applicants, students, and employees who have disabilities with reasonable accommodations that do not impose undue hardship.

#### LIBRARY

The University libraries support the curriculum and provide information for students, faculty, and staff through on-site circulation and reference materials and through electronic access with the Central Florida Library Consortium, the Tampa Bay Library Consortium, Lexis, and WestLaw. Each location houses a collection of books and journals. In addition, students have access to the Internet and other media reference sources. Professional librarians are available at all locations to help students.

The University Online Library supports the curriculum and provides information for online students, faculty, and staff through information and reference materials and through electronic access with the Central Florida Library Consortium, the Tampa Bay Library Consortium, and the Library and Information Resources Network (LIRN).

#### PHYSICAL FACILITIES

The combined campus facilities of the University total over 400,000 square feet and are designed to provide an excellent learning environment, comfortable atmosphere, convenience, and accessibility. Facilities are accessible to and usable by disabled persons. Forms of special assistance available include ground-level entry to the building, access ramps, elevators, telephones, reserved parking, tutors, and counseling.

Each campus houses space for support staff, administrative and faculty offices, comfortable classrooms, libraries, and labs specifically equipped to support each location's programs of study. Since the University spans the state, it is convenient to literally every major thoroughfare and to several of the most modern airports in the nation.

Everest University, Inc. houses administrative offices that provide campus support. These are located at 3012 U.S. Highway 301 North, Suite 1000, Tampa, Florida 33619.

#### Brandon

The Brandon campus is located at 3924 Coconut Palm Drive in Tampa, Florida. The 49,000 square foot building houses 22 classrooms, two medical labs, a surgical tech lab, a massage therapy lab, a Nursing Skills lab, and five computer labs. In addition, there is a learning resource center with Internet access to a variety of online educational resource services, and sufficient hard bound research and subject specific publications to meet the specific needs of the students. There are administrative offices for the academic program chairs, the dean and associate dean, financial and business offices, admissions department and other administrative staff personnel. There is a student lounge and a staff lounge and large outdoor courtyard for students and staff.

#### Jacksonville

The Jacksonville campus is located at 8226 Philips Highway in Jacksonville, Florida. The physical facility incorporates two buildings. The main building has 21,000 square feet of classrooms, laboratories, library, staff and faculty offices, testing room, student and employee lounges, storage areas, restrooms and lobby. Building B has 8,000 square feet of classrooms, laboratories, restrooms and faculty offices. The parking lot is equipped with exterior lighting during evening hours. On-site security personnel are available during the evening hours from 6 pm to 11 pm. An alarm system provides security when the campus is closed.

#### Lakeland

The Lakeland campus is located at 995 E. Memorial Blvd., Suite 110, in Lakeland, Florida. This facility encompasses 30,428 square feet and includes a library, a lobby, classrooms, medical and computer laboratories, staff and faculty offices, storage areas, and lounges for both students and employees.

#### Largo

The Largo campus is located at 2471 McMullen Booth Road, Clearwater, Florida. The physical facility incorporates 30,734 square feet of classrooms, laboratories, library, staff and faculty offices, tutor room, student and employee lounges, storage areas, and lobby. The parking lot is equipped with exterior lighting during evening hours. An alarm system provides security when the campus is closed.

#### Melbourne

The Melbourne campus is located at 2401 North Harbor City Blvd in Melbourne, Florida, across from the Intracoastal Waterway and ten minutes from the Atlantic Ocean. This facility, combined with the Sarno Learning Site, comprises more than 25,000 square feet and contains modern classrooms, computer labs, medical labs, video editing suites, a library, and student lounge areas, as well as administrative offices.

#### North Orlando

The North Orlando campus is located at 5421 Diplomat Circle in Orlando, Florida. Two buildings totaling approximately 46,000 square provide space for administrative and faculty offices, 24 classrooms, 12 labs, library, student and employee lounges, and lobby. A security guard and alarm system provide security during evening and closed hours. All parking areas are lighted and patrolled by the security guard.

#### **Orange Park**

The Orange Park campus is located at 805 Wells Road in Orange Park, Florida. The physical facility incorporates 28,000 sq. ft. of classrooms, laboratories, library, staff and faculty offices, testing room, student and employee lounges, storage areas, and lobby. The parking lot is equipped with exterior lighting during evening hours. An alarm system provides security when the campus is closed.

#### **Pompano Beach**

The Pompano Beach campus is located at 225 North Federal Highway in Pompano Beach, FL. The physical facility is an attractive eight-story building and incorporates close to 55,000 square feet including twenty-one classrooms, four computer laboratories, 4 medical laboratories, 1 massage therapy lab, bookstore, library, staff and faculty offices, testing room, one student lounges, staff lounge, conference rooms, restrooms, lobby and storage areas. The four-level, elevator equipped, parking garage is lighted and patrolled by security personnel. An alarm system provides security when campus is closed.

#### South Orlando

The Orlando South campus is located at 9200 Southpark Center Loop in Orlando, Florida. The physical facility is a large one story building and incorporates close to 70,000 square feet including 21 classrooms, six computer laboratories, two medical laboratories, a pharmacy tech laboratory, massage therapy laboratory, bookstore, library, staff and faculty offices, testing room, two student lounges, staff lounge, conference rooms, restrooms, lobby and storage areas. The parking lot is equipped with exterior lighting during evening hours. An alarm system provides security when campus is closed.

#### Tampa

The Tampa campus, known as the West Building, is located at 3319 W. Hillsborough Ave, Tampa, Florida, and across the street is its learning site, known as the East Building, located at 3251 W. Hillsborough Ave., Tampa. The two-story Hillsborough campus is about 30,000 square feet, and the one-story learning site is about 30,000 square feet. In those facilities, there are a total of 17 classrooms, 17 labs, a library, a career services suite, a bookstore, two student lounges, two reception area, administrative offices and works spaces, and storage areas. Both locations are on major thoroughfares and are easily accessed by bus or car.

# ADMISSIONS

#### UNDERGRADUATE ADMISSIONS

Applicants to the University are encouraged to visit an Everest University campus whenever possible. Applicants who determine that they would like to apply for admission will complete an enrollment agreement. Applicants will also be required to sign an Attestation Regarding High School Graduation or Equivalency indicating they meet the University's requirements for admission unless they provide a copy of their transcript, diploma, or GED.

If other documents are required for enrollment and are not available at the time of application, students may be accepted for a limited period to allow time for receipt of official transcripts for colleges attended, CLEP scores, certificates of completion from military schools, and other required documents. Course work completed satisfactorily during this period will count toward graduation.

#### **GENERAL ADMISSIONS REQUIREMENTS**

The University admits students with high school diplomas or a recognized equivalent (such as the GED) or students beyond the age of compulsory school attendance. Students who are beyond the age of compulsory school attendance who do not have a high school diploma or its recognized equivalent are required to apply for admission to the College under the Ability to Benefit Provision (see below). All applicants are required to successfully complete a standardized, assessment examination. The Career Programs Assessment test (CPAt) is administered by the University and is designed to further ensure that the applicant has the skills necessary to successfully pursue a college-level program. Except as noted below, all undergraduate applicants are required to successfully complete the CPAt with a score of 120. Students who do not achieve a score of 120 on the CPAt may retake the test in accordance with the Retesting Requirements described below.

The CPAt is not required of 100% online students or nursing students. Students who wish to attend totally online should refer to the Online Programs section of this catalog.

Transfer students who are high school graduates or GED holders (or other recognized equivalency) and who can submit proof of successfully completing a minimum of 36 quarter hours or 24 semester hours of earned college credit at an accredited

post-secondary institution will not be required to complete the above-referenced test unless required for admission into a specific program. Applicants who have completed the ACT with a score of at least 15 or the SAT with a combined score of at least 700 on the critical reading and math portions of the exam will not be required to complete the above-referenced test.

Certain programs have additional admission requirements. Some programs may require certification or require that the student be 18 years of age to sit for the certification or to complete an externship. These requirements are described in the program specific requirements below

Applicants are informed of their acceptance status shortly after all required information is received and the student's qualifications are reviewed. Students may apply for entry at any time. Students are responsible for meeting the requirements of the University catalog in effect at the time of enrollment. Students may elect to change to the requirements of a new catalog and must then meet all the requirements of the new edition. Students automatically come under the current catalog at reentrance after not attending for a full academic term.

#### **Early Admission Requirements for High School Graduates**

Applicants will be considered for conditional acceptance prior to secondary school graduation. High school seniors who are accepted on a conditional basis must sign an "Attestation Regarding High School Graduation or Equivalency" following graduation and prior to starting classes.

#### PROGRAM SPECIFIC ADMISSIONS REQUIREMENTS

#### Allied Health Student Disclosure - Criminal Background Check

Allied health and nursing programs that use Joint Commission on Accreditation of Health Organizations (JCAHO) accredited facilities for student clinical experience/externships are required to comply with JCAHO standard H.R. 1.2 #5, which states: "The hospital verifies information on criminal background check if required by law and regulation or hospital policy. Rationale: This requirement pertains to staff and students as well as volunteers who work in the same capacity as staff when providing care, treatment and services" (CAMH Update 3 August, 2004).

Students enrolling in certain allied health programs will be subjected to a criminal background check which will include:

- 3 countywide criminal court searches (counties of residence or contiguous counties)
- 2 name searches (up to two married names)
- 1 social security trace address trace report
- 1 statewide sex offender search
- 1 OIG search (Medicare/Medicaid related fraud)

The fee for this background check will be covered by financial aid for those who qualify.

Clearance for students will not be obtained where the background check identifies a conviction, pending case, or uncompleted deferral/diversion for any crime related to the following offenses within the past seven years:

Abuse of any form	Burglary	Medicare or Medical related offenses
All drug and alcohol related offenses	Concealed weapons	Possession of stolen property
Any crime against person or property	Drug paraphernalia	Sexual crimes
Assault	Fraud	Robbery
Battery	Harassment	Theft/shoplifting/extortion - including convictions for bad check charges

If an applicant has an open warrant for a crime that would otherwise be given clearance, IntelliSense will contact the person authorized to make a decision.

A student's inability to obtain criminal background clearance per the requirements outlined above will prohibit clinical site placement and program completion. It is the student's responsibility to contact Inteliusense to verify conditions. The University cannot contact Inteliusense.

#### Associate of Science, Applied Management Program

The Associate of Applied Management programs are offered for those students who have completed a diploma from an accredited post-secondary institution and whose career goals require a broad knowledge of the functional areas of business. All students will take coursework in the areas of accounting, general business, management, marketing, computer applications, and business law. The program prepares students for a variety of entry-level positions in areas such as sales, office supervision, and small business management. Refer to the Transfer Students section for more information regarding acceptance of prior college credits.

#### **Bachelor of Science, Applied Management Program**

The Bachelor of Applied Management program integrates the technical knowledge gained through a diploma program or applied science degree with coursework designed to prepare the student for leadership roles in their chosen field. Students may be admitted into this program who have completed an approved certificate, diploma, AS, or AAS degree in a field of applied science. Refer to the Transfer Students section for more information regarding acceptance of prior post-secondary credits.

#### **Bachelor of Science, Criminal Justice Program**

Students may be admitted into this program that have previously completed 36 or more quarter (24 semester) transferable college credits. Students who do not have the requisite number of credits for direct admission into the Bachelors

program will be admitted into the Criminal Justice Associates program. Students who have earned an approved Associate of Arts degree may be enrolled with junior standing. Refer to the Transfer Students section for more information regarding acceptance of prior college credits.

#### **Massage Therapy Program**

In order to be admitted into the Massage Therapy Program, applicants must reach 18 years of age on or prior to their expected date of graduation. Students enrolling in Massage Therapy must also provide a completed and cleared criminal background check application and student disclosure form

#### ASSOCIATE DEGREE NURSING PROGRAM

All prospective students MUST submit ONE of the following:

- 1. Official high school transcript that reflects graduation from a US high school
  - 2. Transcript from a foreign high school which has been translated, evaluated and notarized
  - 3. Official GED

#### **Additional Requirements**

- 1. A personal interview with the Nursing Director is also part of the admission process. It is important that all documents be placed in the applicant's file prior to this interview. The applicant will need to make an appointment with the nursing department assistant to write an essay. Two, 100 words, doubled spaced typed essays are required and will be graded. The essay topics will be given to the student at the time of the writing appointment. Points will be awarded for the essays according to the grading rubric. The applicant may request a copy of the rubric prior to the writing appointment.
- 2. A personal interview with the Campus Nursing (CND) is also part of the admission process. The interview will be graded on a scale of 1-5. The interview with the CND is scheduled and takes place after the essay is written and graded. All documents must be placed in the applicant's file prior to the interview with the CND.
- 3. Ranking for admission is based on the point system (see point weight in the following table).
- 4. Candidates may achieve a maximum of 50 points
- 5. Candidates will be ranked by the number of points received.
- 6. Students will be selected from ranked list until approved class size is achieved.
- 7. A candidate who scores between 38-50 points will be eligible for an interview with the Campus Nursing Director.

Criteria	1	2	3	4	5
Previous Education High School GPA	2.0 - 2.3	2.4 - 2.7	2.8-3.0	3.1 - 3.5	3.6 – 4
College units	6-12 units	13-18 units	19-40 units	41-60 units	A.A./B.A.

**Entrance Examination PSB	50- 55%tile 1 X 2 = 2	56-60%tile 2 X 2 = 4	61-70%tile 3 X 2 = 6	71 – 80%tile 4 X 2 =8	Above 80%tile 5 X 2 =10
*** Basic Skills Test – COMPASS	RS 75 - 80 WS 40 - 52	RS 81 - 85 WS 53 - 65	RS 86 - 90 WS 66 - 78	RS 91 - 95 WS 79 - 90	RS 96 – 100 WS 91 – 100
Remed RS 58-75 WS: 30-39 PreAl: 30-38	Pre-Alg 39–52 1 x 2 = 2	Pre-Alg 53-65 2 x 2 = 4	Pre-Alg 66-78 3 x 2 = 6	Pre-Alg 79-90 4 x 2 = 8	Pre-Alg 91–100 5 x 2 = 10
Admission Essay	Weak Essay per Grading Rubric	Basic Essay per Grading Rubric	Proficient Essay per Grading Rubric	Advanced Essay per Grading Rubric	Outstanding Essay in both form & content per Grading Rubric
Former or Continuing students of CCI program in good standing*	Enrolled but completed less than 50%	Completed 50% of the modules	Completed everything except externship	Will complete program prior to admission	Successfully completed program

\* In good standing = Attendance is within class requirements; teacher recommendation; no outstanding financial aid obligations

\*\* A 25% tile minimum average in Parts I, II, III and IV of the PSB, is required for consideration for the nursing program

**COMPASS** - The COMPASS testing is a series of basic skills assessments completed on a computer. Developed by American College Testing (ACT), COMPASS stands for Computer-adapted Placement Assessment and Support Services.

\*\*\* A combined minimum score of 48 on the COMPASS basic skills test is required for an applicant to progress further in the nursing program admission process. Candidates who fail to meet the minimum score on each test will be referred for remedial courses (The minimum scores for each category are: (RS) Boading Skills 75; (WS) Writing Skills 40; Mathematica (Pro algebra 90)

(RS) Reading Skills 75; (WS) Writing Skills 40; Mathematics / Pre algebra 39).

Opportunities exist for Licensed Practical Nurses (LPNs) with current unencumbered licenses to enter the ADN Program.

#### **Point Ranking:**

A candidate who has between 38-50 points, at the time of the interview, will be admitted to the program. A prospective student who has less than 38 points will be placed on the waiting list. The class should be selected a minimum of 4 weeks prior to the scheduled class start. The class will consist of the students with the highest points on the list; the number of students selected will depend on the number of students approved by the board of nursing in Florida.

#### Psychological Services Bureau (PSB) Information

Everest University nursing program uses the PSB examination– Registered Nursing School Aptitude Examination. This test is a product of Psychological Services Bureau, Inc. Charlottesville, VA.

The PSB – Registered Nursing School Aptitude Examination is comprised of 5 tests and three subtests. These are as follows:

- Academic Aptitude Part I
- Verbal
- Arithmetic
- Nonverbal
- Spelling Part II
- Reading Comprehension Part III
- Information in the Natural Sciences Part IV
- Vocational Adjustment Index Part V

The scores are reported in two ways as a raw score (number correct) and a percentile rank.

The percentile scores will be used in the admission process. The percentile scores will be weighted as indicated below: For example

Part I	$60\% \times 4 = 240$
Part II	75% x 1 = 75
Part III	$80\% \ge 2 = 160$
Part IV	70% x 2.5= 175
Part V	50% x .5= 25
675/100	67.5 % tile = the students
score	

Students are given points on the admission criteria

Percentile	Points
50 - 55%	2 [1 x 2] points
56 – 60%	4 [2 x 2] points
61 – 70%	6 [3 x 2] points
71 – 80%	8 [4 x 2] points
Above 80%	10 [5 x2] points

Points given for admission tests are weighted.

#### Alternate students:

Alternate students may be admitted to the program if a seat becomes available by the end of the first week of class. The alternate list will consist of 10 percent of the class size or what is allowed by the state Board of Nursing (ex. The class has 30 students so the alternate list will have 3). The alternates will be chosen from the admission criteria according to the ranking list. Students who are alternate students must be notified that they are being admitted as alternate students. By the first scheduled clinical course, the class size must be no larger than the approved number.

#### **Student Requirements**

Prior to the start of the program, students are required to have a physical examination along with additional requirements and documentation. These requirements may change or differ per individual facility requirements. Students are required to provide:

- Current CPR card (AHA Health Care Provider –is the recommended course)
- Completed and approved Physical Examination and Medical History Form
- Documentation of current immunizations or titers documenting immunity including Hepatitis B
- Negative TB skin test or negative chest x-ray
- Completed uniform order
- Completed and cleared criminal background check application and student disclosure form
- Completed and cleared drug testing

#### **Bachelor of Science Degree Nursing Program**

Admission to the RN-BSN program requires successful completion of a Regional or Nationally Accredited Associate Degree Nursing program. Acceptance and placement in the program are dependent upon the individual's academic record and upon the number of spaces available in the program. The student must have an unrestricted license as a Registered Nurse in the state of Florida prior to enrolling in any nursing courses (quarter 2) and no grade below a "C" (2.0) on all college work attempted. Students with an active RN license must show evidence of practice as a Registered Nurse within the past 10 years.

Progression will vary depending on the amount of non-nursing courses that must be completed.

Associate degree graduates can transfer up to 60 nursing quarter hours of credit. Transfer of credit policy outlined in the Everest University Catalog will be maintained.

Diploma school graduates will be evaluated by the Campus Nursing Director on an individual basis.

#### Pharmacy Technician Program (Melbourne)

In order to be admitted into the Pharmacy Technician program, applicants must:

- 1. Be a high school graduate or have a GED
- 2. Pass the CPAt entrance examination
- 3. Complete an interview with the Program Director
- 4. Be in good health

Students must meet with the Pharmacy Program Chair (Director) in their first term. Students admitted to the Pharmacy Technician program at Melbourne must be high school graduates or its recognized equivalent and reach 18 years of age on or prior to their expected date of graduation.

#### Pharmacy Technician Program (All campuses except Melbourne)

In order to be admitted into the Pharmacy Technician program, applicants must:

- 1. Pass the CPAt entrance examination
- 2. Be in good health

Students must meet with the Pharmacy Program Chair (Director) in their first term.

Note: A high school diploma or GED is required to sit for the PTCB (Pharmacy Technician Certification Board). Although the PTCB is required in many states, it is currently not a requirement in Florida.

#### Radiologic Technology Program (Brandon)

In order to be admitted into the Radiologic Technology program, applicants must:

- Have completed a High School education or GED
- Have passing scores on the Radiology Entrance Examinations
- Satisfactorily pass a medical physical examination
- Clear a background screening prior to program enrollment
- Pass of a drug screen prior to program enrollment
- Have proof of Right to Work in the United States

Documentation of eligibility is required in all cases, and it is the responsibility of the student to provide this

documentation. Every student must complete all of the general education requirements with a 70% or better prior to entering quarter six of the program. In order to progress in the Radiologic Technology program, a student must have a 75% or better in all Radiologic Technology Courses.

A background check is a requirement of the facility where the student will rotate through their clinical practice. Also, BLS certification, a medical physical examination, and proof of eligibility to work in the United States are requirements for the clinical facility.

A one to two page typed essay on a relevant Radiologic topic chosen, monitored and scored by the Radiologic Faculty according to an essay rubric and an interview with the Radiologic Faculty are also part of the admissions process.

#### Surgical Technologist Program

In order to be admitted into the Surgical Technologist program, applicants must:

- Be a high school graduate or have a GED
- Pass the CPAt entrance examination
- Complete a personal interview with the Surgical Technologist Program Director
- Pass a physical examination

Before students can begin their clinical rotation in the Surgical Technologist Program, students must:

- Have a physical examination clearance by a physician
- Provide proof of immunizations as required by clinical agencies (TB, measles, rubella, chicken pox)
- Pass a mandatory criminal background check and drug screen

A Hepatitis B Virus (HBV) vaccination is highly recommended for the student's safety. If the student refuses the vaccine, a waiver must be signed by the student.

# **ABILITY TO BENEFIT POLICY**

Students who do not have a high school diploma or its recognized equivalent may still be admitted into certain diploma and associate degree programs at the school. However, before the school can accept a prospective student who is seeking federal financial aid and who does not have a high school diploma or its recognized equivalent and is beyond the age of compulsory school attendance, federal law requires the school to determine whether the student has the ability to benefit (ATB) from training at the institution. Federal law requires that the school make the ability to benefit determination on the basis of the applicant's score on an ATB exam. Although students may be admitted under the ATB provision, the school recognizes the additional benefits of a high school diploma or its recognized equivalent to the student. For this reason the school shall make available to all ATB students the opportunity to complete their GED and encourages their utilization of a GED completion program.

#### **GED Preparatory Program**

The University provides to all students admitted under the ATB provision information on preparatory programs convenient to students for completion of their GED, local testing sites and schedules, and tutorial opportunities. The University takes reasonable steps, such as scheduling, to make the program available to its ATB students.

#### **ATB Testing**

Forms B and C of the Careers Program Assessment Test (CPAt) by ACT have been approved by the U. S. Department of Education for the assessment of ATB students. Either the CPAt or COMPASS/ESL test may be used.

Passing scores on the CPAt are: Language Usage 42 Reading 43, and Numerical 41.

Student must achieve a passing score in all three skill assessments in a single testing session to be considered passing.

#### **ATB Advising**

By choosing to admit ATB students, the University has an obligation to provide the academic support services necessary for the success of each student in the program and to ensure that following completion of the program the student is ready for placement. Such support can best be provided through structured academic and career advising.

#### Pre-Enrollment

Prior to enrollment, all ATB students shall:

- Be provided with information on GED preparatory and completion programs
- Be advised regarding what steps the school is taking to make preparatory programs available
- Be encourage to obtain a GED prior to completion of their program
- Receive career advising to be documented using the ATB Disclosure Form

#### **Post-Enrollment**

All ATB students shall receive academic and career advising during their first and third evaluation periods (i.e., term, module, phase, level, or quarter). Thereafter, ATB students shall receive academic advising at least every other evaluation period unless the student has a CGPA of 2.5 in associate degree programs or 80% in diploma programs. These advising sessions shall be documented using the ATB advising form.

#### **Retesting Requirements**

An applicant who has not received the required score for entrance on the CPAt under the general admissions requirement or ATB requirement, as applicable, may be offered a chance to retest when one of the following conditions is met:

- 1. The applicant's performance was influenced by factors other than ability, such as illness, cheating, interruption or improper administration of the exam, failure to time the exam correctly, or other factors that may have affected the applicant's performance; or
- 2. A significant change in the applicant's ability has occurred, such as the student has taken instruction to improve skills, or has participated in tutorial sessions on test taking and basic mathematical and language skills.

A student may not retest, unless the factor that affected performance has been resolved, or the action taken to improve the applicant's ability has been completed.

#### **Retaking the CPAt**

Students who do not achieve the required score on the first administration of this exam and qualify for a retest as outlined above may retake the exam using the alternative form of the exam with no waiting period. If the retest occurs before a full thirty (30) days have passed since the previous testing, an alternate form (i.e., a form on the approved ATB test list other than the one most recently administered) must be used for the retest. If a minimum of thirty (30) days have passed since the administration of a particular form, the examinee may be retested using the same form. However, no form may be administered to a student more than twice in a ninety (90) day period. A student may retake the exam up to three (3) times (a total of 4 times) before being denied admission.

#### **Denial of Admission**

A student who has been denied admission after four attempts at taking the admission or ATB test, whichever applies, must wait six months from the date the student first took the exam, or 90 days from the date the student was denied admission, whichever is later, before the student is eligible to reapply for admission.

#### **Delayed Admission**

Students who do not enter school following passing the exam, will not be required to retake and pass the exam prior to a delayed entry, so long as the passing test result is on file at the institution. Similarly, students who have enrolled and then withdrawn and wish to re-enter will not be required to retake and pass the exam prior to re-entry, if the original passing test result is in the student's academic file or if the student has earned a high school diploma or the equivalent.

#### APPLICATION PROCEDURES FOR INTERNATIONAL STUDENTS

The Brandon, Jacksonville, Lakeland, Largo, North Orlando, Pompano Beach, and Tampa campuses of Everest University are authorized by the Department of Homeland Security to issue the I-20 form. International students must meet the same programmatic entrance requirements as domestic students for approved Department of Homeland Security educational programs. When students apply to Everest Institute from outside the United States, they must, in addition to submitting a School Application, submit the following material before an I-20 form can be issued. A Form I-20 (Immigration Certificate of Acceptance) will be sent to the applicant upon acceptance, receipt of evidence of financial support, and payment of appropriate tuition deposits and/or fees.

#### Requirements for Admission to Undergraduate Programs as an International Student

- 1. Evidence of High School diploma or recognized equivalent.
- 2. Evidence of Financial Support The international student is required by the U.S. Citizenship & Immigration Services to satisfy the local U.S. Consulate that he or she will not need to seek employment while attending school in the United States. The student must submit a current bank statement (within the past six months) or government sponsorship letter guaranteeing payment for tuition, fees, books, housing, personal expenses, and, where appropriate, medical expenses. If the applicant is not considered financially independent, he or she is required to have a financially independent individual fill out an Affidavit of Support Form. This form is included with the international enrollment application and can be obtained at the local immigration office or local consulate.
- 3. Evidence of English Proficiency Everest University requires satisfactory evidence of mastery and command of the English language from all international students whose native language is not English. Such evidence may be one of the following:
  - a) TOEFL score of 450 (paper-based) or 133 (computer-based) or 45-46 (Internet-based);
  - b) Completion of Level 107 from a designated English Language School Center (ELS);
  - c) Score of 5.0 on the International English Language Testing System exam (IELTS);
  - d) Score of 60 on Michigan English Language Assessment Battery (MELAB);
  - e) A certificate of completion of Intensive English 4 at Everest University;
  - f) Graduation from high school in the United States or an official copy of a GED;
  - g) Graduation from an American high school abroad where curriculum is delivered in English.

In addition to the criteria above, all undergraduate applicants are required to successfully complete the CPAt, a standardized, national assessment examination, with a score of 120 (general admission) or higher if required for admission to a specific program.

#### **Requirements for Admission to Intensive English**

- 1. Evidence of High School diploma or recognized equivalent.
- 2. Evidence of Financial Support The international student is required by the U.S. Citizenship & Immigration Services to satisfy the local U.S. Consulate that he or she will not need to seek employment while attending school in the United States. The student must submit a current bank statement (within the past six months) or government sponsorship letter guaranteeing payment for tuition, fees, books, housing, personal expenses, and, where appropriate, medical expenses. If the applicant is not considered financially independent, he or she is required to have a financially independent individual fill out an Affidavit of Support Form. This form is included with the international enrollment application and can be obtained at the local immigration office or local consulate.

# IMPORTANT STUDENT VISA INFORMATION FOR ALL INTERNATIONAL STUDENTS

- International applicants are required to comply with all admissions requirements as stated in the catalog before they will be admitted to Everest University.
- Admitted students should arrive in the United States approximately two weeks prior to the first term of enrollment. An academic calendar gives specific dates and activities. Early arrival is necessary so that the student may locate housing, provide a local address to the Institute, participate in a new student orientation, seek advisement, and register into a program.
- The University does not provide housing; however, assistance is available to guide the students' efforts. Two to three months' rent in advance may be required for housing in the community. Students must have sufficient funds to cover all expenses while in the United States.
- Students without sufficient funds will not be permitted to register for a program until the required funds are available.
- International students on visas are normally admitted to the United States for the entire time estimated by the University for the student to complete his or her approved program of study. International visa students must fulfill the following conditions:
  - Pursue a full course of study at the educational institution they are authorized to attend and carry a full-time course load. All diploma program students are considered to be enrolled full-time. For quarter-based programs full-time is defined as taking 12 or more credits. For Graduate students, full-time is defined as taking 8 or more credits. For Intensive English students, full-time is defined as 18 or more class hours per week.
  - Take no more than one online course per term.
  - File an alien address report with the USCIS and each January and immediately whenever the student changes his or her address.
  - Report all changes of address within 10 days of the change to the University registrar.
  - Not transfer schools or work off campus without USCIS permission.
  - Maintain a current passport or visa.
- All Everest University students are required to abide by the policies, regulations, and rules of the University and the United States Citizenship and Immigration Service.

NOTE: All international students must meet immunization requirements as specified by USCIS. Contact your International Admissions Representative for additional information.

# **GRADUATE ADMISSIONS REQUIREMENTS**

Graduation from an accredited college or university with a Bachelor's degree is a prerequisite for admission to a graduate program. International students desiring admittance must have graduated with a Bachelor's degree from a college or university approved and evaluated based on United States Department of Education guidelines.

Certain prerequisite courses are necessary for the pursuit of many of the courses offered at the graduate level. Such prerequisites must have been completed before entrance into a specific course is permitted. In addition to the requirement of a Bachelor's degree, admissions requirements for the student wishing to enroll in a graduate program are listed below:

- 1. Provide official transcripts of all colleges or universities attended, both undergraduate and graduate.
- 2. Provide completed admissions forms.
- 3. All international students from non-English-speaking countries who are entering must present a TOEFL score of not less than 550 (213 TOEFL computer-based), or 6.0 IELTS, or equivalent, as evidence of their proficiency in reading, writing, and speaking the English language. Students who have not achieved the minimum TOEFL or IELTS score may be evaluated for equivalent English proficiency by the Graduate Academic Committee. Those students who successfully pass the evaluation may be granted Provisional Student admissions status. (See "International Students" section of this catalog for further information on proof of English language proficiency.)

#### Requirements for Admission to Graduate Programs as an International Student

- 1. Graduation from a college or university approved and evaluated based on United States Department of Education guidelines with a Bachelor's degree.
- 2. Evidence of Financial Support The international student is required by the U.S. Citizenship & Immigration Services to satisfy the local U.S. Consulate that he or she will not need to seek employment while attending school in the United States. The student must submit a current bank statement (within the past six months) or government sponsorship letter guaranteeing payment for tuition, fees, books, housing, personal expenses, and, where appropriate, medical expenses. If the applicant is not considered financially independent, he or she is required to have a financially independent individual fill out an Affidavit of Support Form. This form is included with the international enrollment application and can be obtained at the local immigration office or local consulate.
- 3. Evidence of English Proficiency Everest University requires satisfactory evidence of mastery and command of the English language from all international students whose native language is not English. Such evidence may be one of the following:
  - a. TOEFL score of 550 (paper-based) or 213 (computer-based) or 79-80 (Internet-based);
  - b. Score of 6.0 on the International English Language Testing System exam (IELTS);
  - c. Score of 78 on Michigan English Language Assessment Battery (MELAB);
  - d. A certificate of completion of Intensive English 5 at Everest University;
  - e. Earned Bachelor's degree from an accredited American post-secondary institution.
  - f. Provide sufficient evidence of proficiency in reading, writing, and speaking the English language to the Graduate Academic Committee. See "Graduate Admissions Requirements."

Graduate international students are expected to meet the requirements of the Important International Student Visa Requirements given above in the section for undergraduate international students.

# ACADEMIC INFORMATION FOR ALL STUDENTS

#### **DEFINITION OF CREDIT**

The University awards credit in the form of quarter credits. One quarter credit is equivalent to a minimum of 10 class hours of theory or lecture instruction, a minimum of 20 hours of supervised laboratory instruction, or a minimum of 30 hours of externship practice. For online learning purposes, one quarter credit is equivalent to a minimum of 10 hours of online learning.

#### STUDENT CLASSIFICATIONS

- Students will be classified on the basis of quarter credit hours satisfactorily earned and by the degree level of enrollment:
- Freshman A student who has earned 0 through 48 quarter hours.
- Sophomore A student who has earned 49-96 quarter hours.
- Junior A student who has earned 97-144 quarter hours.
- Senior A student who has earned 145-192 quarter hours.
- Undergraduate Any student enrolled in an Associate's or Bachelor's degree program.
- Graduate Any student enrolled in graduate courses and has been admitted to the graduate program.
- **Provisional Student** A student enrolled in the graduate program who has not met the regular status student enrollment requirements of the graduate program. During provisional status, the student must complete 16 credits of graduate work at the minimum standards of progress of the graduate program.
- **Regular Status Student** A diploma- or degree-seeking undergraduate or graduate student who is determined to be making satisfactory academic progress toward his/her degree objective.
- Non-Regular Status Student (Extended Enrollment Status) A student who is allowed to continue for a period of time after he/she has been determined not to be making satisfactory academic progress. During this period, the student is not eligible for federal financial aid and will be charged tuition and fees. Students who have entered non-regular status (Extended Enrollment Status) are not eligible for graduation (cannot receive a degree) for their programs unless they satisfy <u>all graduation requirements</u> within the Maximum Timeframe for Completion of the program of study. Otherwise they can receive a letter of completion for the courses they have satisfactorily completed.
- **Single Subject Student** A student who has not enrolled in a specific degree program of study but who is taking courses at the University on a course-by-course basis. These students are not eligible to participate in Federal Title IV financial assistance programs.
- Audit Student A student who is enrolled in courses for which he/she will earn no credit.

# TRANSFER OF CREDIT-INTO AND OUT OF EVEREST UNIVERSITY

#### **Transfer of Credit to Everest**

Following admission to the University, a student with earned college credits from another accredited institution may apply for credit transfer to the University. Apart from other criteria it may apply, the University will not accept credit for any course incompatible with the student's program of study at the University or for any course in which the student received a grade lower than a C. Undergraduate credit will be accepted only for courses that are compatible with the student's program of study at the University and for courses in which a grade of C or higher was earned. Acceptable credits earned more than 10 years ago may only be used to fulfill general education and college core requirements. Core courses program of study and medical courses have a five-year time limit for transfer. The compatibility and transferability is at the sole discretion and approval of the university's education department. No more than 50% of the total credits in a program of study may be transferred in.

#### **Residency Requirement**

Undergraduate students must complete at least 25% of all program hours in residence. Students wishing to transfer credits must have the transferor institution mail an official transcript directly to the University's Office of the Registrar. The student must insure that the University receives the transcripts prior to the end of the first term of enrollment.

#### **Course Work Taken At Foreign Institutions**

Course work taken at a foreign institution (excluding secondary school documents that are in English or Canadian or Philippines post-secondary credentials that are in English) must be evaluated for equivalence to coursework taken at a United States institution. Everest University accepts the evaluations of foreign course work from the following services:

- World Education Services, Inc., Bowling Green Station, P.O. Box 5087, New York, New York 10274-5087, (305) 358-6688, www.wes.org.
- Josef Silny & Associates, Inc., International Educational Consultants, 7101 S.W. 102 Ave., Miami, FL 33173, 305-273-1616, www.jsilny.com
- Educational Credential Evaluators, Inc., P.O. Box 514070, Milwaukee, Wisconsin 53202-3470, (414) 289-3400, www.ece.org
- A member of the National Association of Credential Evaluation Services. See www.naces.org for a complete list.

#### Veterans and Transfer Credit

The Veteran's Administration requires any student receiving veteran's benefits to provide the University with a transcript of credit from all schools previously attended. Transferring students receiving veterans benefits must submit to the University all prior education and training for evaluation. Credit will be awarded where applicable. The University will notify both the student and the Veteran's Administration/Department of Veteran Affairs regarding its evaluation.

#### **Transfer of Old Course Credit**

The University will not accept for transfer any course completed more than 10 years, or for a medical course, five years, prior to the date of the application for transfer, except at the University's sole discretion, as may be applicable to fulfill a general education or college core requirement.

#### **Transfer of General Education Credits**

Subject to certain limitations and program requirements, coursework in general education subject areas (i.e., humanities, social sciences, mathematics, and science) may be transferred at the University's discretion to fulfill the equivalent subject area general education requirements of the student's program of study. Details on this policy may be obtained in the Academic Dean's office.

#### **Transfer Credit for Military Training**

The University may award credit for occupational experience and training courses completed while serving in the Armed Services of the United States as recommended by the American Council on Education. Veterans or active duty service members may submit the ACE military transcript applicable to their branch of service to the Office of the Registrar for evaluation.

#### **Transfer Credit for Learning Assessment**

The University accepts appropriate credits transferred from the College Level Examination Program (CLEP), DANTES subject testing, and certain other professional certification examination programs. Contact the campus Academic Dean for the current list of approved exams and minimum scores required for transfer. Official test scores must be sent to the Office of the Registrar.

#### **Transfer Credit for Professional Certifications**

The University may award some credits toward undergraduate, associate, and diploma level courses for achievement of professional certifications e.g. CMA, CNE, MCSE etc.

#### **Credit Transfer and Satisfactory Academic Progress**

Courses for which a student receives transfer credit are counted as attempted and successfully completed for purposes of satisfactory academic progress. As a result, courses for which a student receives transfer credit provide the student with advanced standing, which is applied to the student's progress in calculation of the percentage of maximum time frame for the program that the student has completed. For instance if a student enrolled in a 96 quarter credit program (with a maximum time frame of 144 quarter credits) receives 12 quarter credits of transfer credit and completes 12 quarter credits in the first term of enrollment, the student will be evaluated as a student who has reached the 25% point of the program (24/96 = 25%) at the end of the first term. However, if a student receives 24 quarter credits of transfer credit and will complete 12 quarter

credits at the end of the first term, the student will be evaluated as a student who past the 25% point) of the program (36/96 = 37.5%).

When a student transfers from or completes one program at the school and enrolls in another program, and all courses completed in the original program are acceptable for credit in the new program, all courses attempted and grades received in the original program are counted in the new program for calculation of the student's satisfactory academic progress in the new program. When a student transfers from or completes one program at the school and enrolls in another program at the school and all courses completed in the original program are NOT accepted for credit in the new program, all attempts of courses taken in the original program that are part of the new program will be counted in the calculation of the student's satisfactory academic progress upon entry into the new program, and the grades for the courses that are a part of the new program that were taken at the same institution will be used in the student's CGPA calculation.

# **EXPERIENTIAL LEARNING PORTFOLIO**

Undergraduate and graduate students may earn credit for life experience through the Prior Learning Assessment program. This program is designed to translate personal and professional experiences into academic credit. Procedures for applying for credit through experiential learning are available in the Academic Dean's office. The procedures identify the courses for which credit may be earned, the application process, and the associated fees. Undergraduate credit earned through the Prior Learning Assessment program in conjunction with successful completion of Proficiency Examinations may be used to satisfy up to 50% of the credits required for program completion. Graduate students may earn up to 25% of their program through Prior Learning Assessment. A reduced credit fee is charged for life experience credit. See "Tuition and Fees" in Appendix B for details.

#### **PROFICIENCY EXAMINATION**

Undergraduate students may attempt to challenge the requirement to certain selected courses by demonstrating a proficiency level based on special qualifications, skills, or knowledge obtained through work or other experience that is sufficient to warrant the granting of academic credit for a course through a Proficiency Examination. All requests for Proficiency Examinations must be approved by the appropriate Program Director and the Academic Dean. Proficiency Examinations are not available for all courses, nor will they be approved for courses in which the student has previously been or is currently enrolled after the drop/add period. Students are afforded one Proficiency Examination attempt per course. Administrative and credit fees for Proficiency Examinations in conjunction with the Prior Learning Assessment Program may be used to satisfy up to 50% of the credits required for program completion. Successful completion of a Proficiency Examination with a grade of C or better will be posted to the academic transcript as PE (see "Tuition & Fees" in Appendix B).

# **TRANSFER OF CREDIT – PROGRAM SPECIFIC REQUIREMENTS**

#### **Medical Assisting Program**

#### Academic Credit Transfer Policy for Commission on Accreditation of Allied Health Education Programs (CAAHEP) accredited Medical Assisting Programs

Advanced Placement, via transfer of credit, experiential learning and/or other methods, used toward completion of the Medical Assisting program must be consistent with institutional accrediting agency's relevant policy. Transfer of credit, credit for prior learning and credit by assessment must be documented in an official transcript. The Medical Assisting programs offered at the following campuses are CAAHEP approved: Brandon, Jacksonville, Lakeland, Largo, Melbourne, North Orlando, Orange Park, South Orlando and Tampa.

#### **Nursing Programs**

In order for nursing students to transfer a natural science course, the course must have been taken within the past five years. Transfer of nursing courses will be evaluated on an individual basis by the Campus Nursing Director and the Admission Committee.

Opportunities exist for Licensed Practical Nurses (LPN's) with current unencumbered licenses to enter the Associate Degree in Nursing program with advanced standing. Contact the Campus Nursing Director for additional information.

#### EVEREST UNIVERSITY CONSORTIUM AGREEMENT

The Everest University Consortium Agreement provides greater scheduling flexibility by enabling students to attend a limited number of classes at an Everest University campus location other than their home campus. In addition, students nearing completion of their program of study may finish their degree at another Everest University campus location through the Consortium Agreement. All attendance and grades earned for coursework taken through the Consortium Agreement will be applied to the student's academic record at the home campus. Prior to registering for classes at another Everest University location, students must receive written approval from the Academic Deans at both campuses. Complete details on the Everest University Consortium Agreement are available in the Academic Dean's office.

#### TRANSFER FROM EVEREST UNIVERSITY

The University neither implies nor guarantees that credits completed at the University will be accepted by other institutions. Since rules and grade requirements vary, each institution has policies that govern the acceptance of credit from other institutions. Transfer of credit is a privilege granted by the institution to which a student may seek admission. Therefore, if the student anticipates a transfer of credits earned at Everest or enrollment in advanced studies, the student must have already inquired with those institutions from which recognition of academic work at the University will be sought. The student must independently determine whether or not the program, course, or courses of study will be accepted by those other institutions into which future enrollment is intended.

# TRANSFERS TO OTHER EVEREST UNIVERSITY LOCATIONS

Students in good standing may transfer to another Everest campus location. Transfer students are advised that they will be subject to the minimum residency requirements at the new campus for the degree program in which they are enrolled. Students may transfer applicable credits from Everest coursework in which a C or higher was earned; however, those credits will be treated as transfer credits and will not count toward fulfilling residency requirements at the new location. Students wishing to change campus locations must have official transcripts mailed directly to the Office of the Registrar.

# TRANSFER TO PARTICIPATING INSTITUTIONS IN FLORIDA'S STATEWIDE COURSE NUMBERING SYSTEM (SCNS)

Pursuant to SCNS requirements, the University informs the student of the following:

Courses in this catalog are identified by prefixes and numbers, many of which were assigned by Florida's SCNS. This numbering system is used by all public postsecondary institutions in Florida and 31 participating non-public institutions. The major purpose of this system is to facilitate the transfer of courses between participating institutions.

Each participating institution controls the title, credit, and content of its own courses and recommends the first digit of the course number to indicate the level at which a student normally take the course. Course prefixes and the last three digits of the course numbers are assigned by members of faculty discipline committees appointed for that purpose by the Florida Department of Education in Tallahassee. Individuals nominated to serve on these committees are selected to maintain a representative balance as to type of institution and discipline field or specialization.

The course prefix and each digit in the course number have a meaning in SCNS. The list of course prefixes and numbers, along with their generic titles, is referred to as the "SCNS taxonomy." Descriptions of the content of courses are referred to as "course equivalency profiles."

Prefix	Level Code	Century Digit	Decade Digit	Unit Digit	Lab Code
	(first digit)	(second digit)	(third digit)	(fourth digit)	
SYG	1	0	1	0	
Sociology, General	Freshman Level at this institution	Entry-level General Sociology	Survey Course	Social Problems	No Laboratory component in this course

#### **Example of Course Identifier**

#### **General Rule for Course Equivalencies**

Equivalent courses at different institutions are identified by the same prefixes and same last three digits of the course number and are guaranteed to be transferable between participating institutions that offer the course, with a few exceptions. (Exceptions are listed below.)

For example, a survey course in social problems is offered by 35 different postsecondary institutions. Each institution uses "SYG\_010" to identify its social problems course. The level code is the first digit and represents the year in which students normally take the course at a specific institution. In the SCNS taxonomy, "SYG" means "Sociology, General," the century digit "0" represents "Entry-level General Sociology," the decade digit "1" represents "Survey Course," and the unit digit "0" represents "Social Problems."

In science and other areas, a "C" or "L" after the course number is known as a lab indicator. The "C" represents a combined lecture and laboratory course that meets in the same place at the same time. The "L" represents a laboratory course or the laboratory part of a course, having the same prefix and course number without a lab indicator, which meets at a different time or place.

Transfer of any successfully completed course from one participating institution to another is guaranteed in cases where the course to be transferred is equivalent to one offered by the receiving institution. Equivalencies are established by the same prefix and last three digits and comparable faculty credentials at both institutions. For example, SYG 1010 is offered at a community college. The same course is offered at a state university as SYG 2010. A student who has successfully complete SYG 1010 at the community college is guaranteed to receive transfer credit for SYG 2010 at the state university if the student transfers. The student cannot be required to take SYG 2010 again since SYG 1010 is equivalent to SYG 2010. Transfer credit must be awarded for successfully completed equivalent courses and used by the receiving institution to determine satisfaction of requirements by transfer students on the same basis as credit awarded to the native students. It is the prerogative of the receiving institution, however, to offer transfer credit for courses successfully completed that have not been designated as equivalent.

#### **The Course Prefix**

The course prefix is a three-letter designator for a major division of an academic discipline, subject matter area, or subcategory of knowledge. The prefix is not intended to identify the department in which a course is offered. Rather, the content of a course determines the assigned prefix to identify the course.

Authority for Acceptance of Equivalent Courses Section 1007.24(7), Florida Statutes, states:

Any student who transfers among postsecondary institutions that are fully accredited by a regional or national accrediting agency recognized by the United States Department of Education and that participate in the statewide course numbering system shall be awarded credit by the receiving institution for courses satisfactorily completed by the student at the previous institutions. Credit shall be awarded if the courses are judged by the appropriate statewide course numbering system faculty committees representing school districts, public postsecondary educational institutions, and participating nonpublic postsecondary educational institutions to be academically equivalent to courses offered at the receiving

institution, including equivalency of faculty credentials, regardless of the public or nonpublic control of the previous institution. The Department of Education shall ensure that credits to be accepted by a receiving institution are generated in courses for which the faculty possess credentials that are comparable to those required by the accrediting association of the receiving institution. The award of credit may be limited to courses that are entered in the statewide course numbering system. Credits awarded pursuant to this subsection shall satisfy institutional requirements on the same basis as credits awarded to native students.

# **Exceptions to the General Rule for Equivalency**

The following courses are exceptions to the general rule for course equivalencies and may not transfer. Transferability is at the discretion of the receiving institution

- A. Courses not offered by the receiving institution
- B. Courses with the last three digits ranging from 900-999 (e.g., ART 2905)
- C. College preparatory and vocational preparatory courses
- D. Internships, practica, clinical experiences, and study abroad courses with numbers other than those ranging from 900-999
- E. Applied performance or studio courses in Art, Dance, Interior Design, Music and Theatre
- F. Skills courses in Criminal Justice
- G. Graduate courses
- H. For courses at non-regionally accredited institutions, courses offered prior to the established transfer date of the course

#### **Transfer Center Assistance**

Any questions regarding the transfer of credit into or from Everest University should be directed to the Transfer Center, Toll Free: 877-727-0058 in the Campus Support Center.

#### Assistance for SCNS Course Transfer

Questions about the Statewide Course Numbering System, appeals regarding course credit transfer decisions and assistance regarding course credit transfer should be directed to the Transfer Center, 813-635-1910 or Toll Free: 877-727-0058 in the Campus Support Center or the Florida Department of Education, Office of Articulation, 1401 Turlington Building, Tallahassee, Florida 32399-0400. Special reports (such as approved courses for various institutions and a list of participating institutions) and technical information may be requested by calling the Statewide Course Numbering System office at (850) 245-0427, SunCom 205-0427 or via the Internet at http://scns.fldoe.org.

#### **DIRECTED STUDY**

There may be times during the student's course of study when the student is unable to take a specific required course due to work schedule conflicts, emergency situations, or course scheduling conflicts. Should such an instance arise, the student may request permission from the Program Director and Academic Dean to complete a course through directed study. If approved and scheduled for a directed study course, the student will be assigned to a faculty advisor who will provide the student with a syllabus, assignments, and directions for course completion. The student will meet with the faculty advisor on a weekly basis, complete all reading and writing assignments and examinations, and submit any required research or term papers, all of which will be used to determine the final course grade as defined in the syllabus. Associate's degree students may apply a maximum of eight (8) quarter credit hours earned through directed study to the major core of study. Bachelor's degree students may apply a maximum of sixteen (16) quarter credits of directed study to the major core of study. Graduate students may complete a maximum of one course (4 quarter credits) of directed study. Students may not take more than one directed study course in a single academic term.

# STUDENT ACADEMIC APPEALS POLICY

Academic appeals include those appeals related to final grades, attendance violations, and academic or financial aid eligibility. In all instances, the University expects that initially every attempt will be made to resolve such disputes informally through discussions by all relevant parties prior to initiating formal appeals.

All formal academic appeals must be submitted in writing on an Academic Appeal Form to the Academic Dean/Director of Education within five (5) calendar days of the date the student has notice of the adverse academic decision:

- Notice of final grades:
  - Modular -The date the grade(s) are mailed from the school
  - o Linear First day of the subsequent term
- Notice of Attendance violation is the date of the violation
- Notice of SAP violation is the date of the suspension/dismissal letter

The appeal must include:

- The specific academic decision at issue
- The date of the decision
- The reason(s) the student believes the decision was incorrect
- The informal steps taken to resolve the disagreement over the decision
- The resolution sought

The written appeal may be accompanied by any additional documentation (e.g., papers, doctor notes, tests, syllabi) the student believes supports the conclusion that the academic decision was incorrect.

Note: Once a formal appeal is filed, no action based on the adverse academic decision may be taken until the appeal process is complete. However, in cases involving financial aid eligibility, all financial aid disbursements shall be suspended until the matter is resolved.

Upon receipt of the Academic Appeal Form, the Academic Dean shall convene an Appeal Committee, which should normally include the Department Chair, a member of the Student Services Staff, and a faculty member from another program. The Appeal Committee shall investigate the facts of the matter to the extent deemed appropriate under the circumstances. The Appeal Committee shall render a written decision within five (5) calendar days of the date the appeal was received by the Academic Dean/Director of Education, and shall forward the decision to the student and the instructor within five (5) calendar days thereafter. Copies of all documents relating to the appeal shall be placed in the student's academic file, and the decision of the Appeal Committee shall be noted in the official student information system within one (1) calendar day of the date of the decision. The decision of the Appeal Committee is final, and no further appeals are permitted.

Note: When an appeal is denied, the date of any suspension of financial aid or dismissal from the program shall be the date of the adverse academic decision. The student will not be charged for any attendance after the date of the adverse academic decision.

#### **Assignment/Test Grades**

Students who disagree with an assignment/test grade should discuss it with the instructor upon receipt of the grade. Assignments/test grades are reviewed at the instructor's discretion. If the instructor is not available, the matter should be discussed with the Program Director/Department Chair. Only final course grades are eligible for appeal.

#### **Final Course Grades**

In modular programs, appeals of final course grades must be made by the fifth (5th) calendar day after the date the grades are mailed from the school. After that date the grade becomes final. In linear programs, appeals of final course grades must be made by the fifth (5<sup>th</sup>) calendar day of the subsequent term. The Academic Dean/Director of Education may direct a grade to be changed when it is determined by an Appeal Committee that a final grade was influenced by any of the following:

- 1. A personal bias or arbitrary rationale
- 2. Standards unreasonably different from those that were applied to other students
- 3. A substantial, unreasonable, or unannounced departure from previously articulated standards
- 4. The result of a clear and material mistake in calculating or recording grades or academic progress

#### **Attendance Violations**

Appeals of attendance violations must be made within five (5) calendar days of the violation. In order for an attendance appeal to be considered, the student must:

- 1. Attend school:
  - The next scheduled class period (Consecutive Absence Rule violations)
  - Within five (5) calendar days of the violation (Percentage Absence Rule violations)
- 2. Have perfect attendance while the appeal is pending
- 3. Submit a written plan to improve attendance with the Appeal Form

Provided that no applicable state requirement would be violated by doing so, an attendance appeal may be granted if the student demonstrates that the absence was caused by:

- 1. The death of a family member
- 2. An illness or injury suffered by the student
- 3. Special circumstances of an unusual nature which are not likely to recur

The Appeal Committee may, as a condition of granting the appeal, require the student to make up missed class time or assignments, place the student on probation and require the student to develop an Academic Advising Plan in conjunction with their advisor.

# Satisfactory Academic Progress (SAP) Appeals

SAP appeals must be made within five (5) calendar days of the date the student was notified of the violation. The student is deemed to have notice of the pending suspension/dismissal as of the date of the suspension/dismissal letter. Provided that the student can complete their program within the maximum time frame with the required minimum CGPA, a SAP appeal may be granted if the student demonstrates that s/he is sincerely committed to taking the steps required to succeed in their program and that their failure to maintain the required CGPA or ROP was caused by any of the following mitigating circumstances:

- 1. The death of a family member
- 2. An illness or injury suffered by the student
- 3. Special circumstances of an unusual nature which are not likely to recur

The Appeal Committee shall, as a condition of granting the appeal, require the student to develop an Academic Advising Plan in conjunction with their advisor and place the student on probation.

#### **GRADING SYSTEM AND PROGRESS REPORTS**

Final grades are reported at the completion of each grading term and are provided to each student. If mailed, they are sent to the student's home address. Everest University is in the process of converting to a new student information system called CampusVue. The CampusVue grading scale has some differences, which are indicated in the table below. As of the date of the printing of this catalog, the Melbourne campus has been converted to the CampusVue system. As campuses are converted, they will be announced in an addendum to this catalog. At schools that have not been converted to CampusVue, students

enrolled in modular allied health programs (with the exception of Massage Therapy and MIBC) receive percentage rather than letter grades.

The grading scale for the nursing program requires higher percentages in order to earn a letter grade. See the Nursing scale column in the table below.

NOTE: The D grade is not used for any modules or courses that are a part of an allied health program, including all "core" courses offered in medical programs. A grade of 70% or higher is required to pass these courses (75% for Dental Assisting). However elimination of the D grade does not apply to general education and college core courses. Scores 69% or less (74% or less for Dental Assisting) in modular and Allied Health programs are considered failing grades. Courses that have been failed must be retaken. Failed courses must be repeated and are calculated as an attempt in SAP calculations.

Grade	Point Value	Meaning	Nursing Scale	Percentage Scale			
A	4.0	Excellent	100-92	100-90			
В	3.0	Very Good	91-84	89-80			
C*	2.0	Good	83-76	79-70*			
D**	1.0	Poor	N/A	69-60**			
F*** or Fail†	0.0	Failing	75-0	59-0***			
P or Pass†	Not Calculated	Pass (for externship or thesis classes only)					
PF	Not Calculated	Preparatory Class Failed					
PP	Not Calculated	Preparatory Class Passed					
Ι	Not Calculated	Incomplete					
IP	Not Calculated	In Progress (for externship or thesis courses only)					
L	Not Calculated	Leave of Absence (allowed in modular programs only)					
EL	Not Calculated	Experiential Learning Credit					
PE	Not Calculated	Pass by Proficiency Exam					
W	Not Calculated	Withdrawal					
WD	Not Calculated	Withdrawal during add/drop period (quarter-based programs only – not used at Melbourne)					
WZ	Not Calculated	Withdrawal for those students called to immediate active mili					
		This grade indicates that the course will not be calculated for purposes					
		of determining rate of progress					
CR	Not Calculated	Credit for Advanced Placement					
TR	Not Calculated	Transfer (Modular Programs and Campus Vue)					
Т	Not Calculated	Transfer (Quarter-based Programs at non-Campus Vue locations only)					

\* The Nursing Board requires a score of 76% to pass with a C. The Dental Board requires a score of 75% to pass with a C.

\*\* Not used in Allied Health Programs.

\*\*\* Due to Florida Board and programmatic accrediting agency requirements, students in Allied Health programs require a higher percentage grade to pass. For Nursing programs below 76% is an F (failing). For Dental Assisting programs below 75% is an F (failing). For all other Allied Health Programs, F (failing) is 69-0%.

#### **GPA and CGPA Calculations**

The Grade Point Average (GPA) is calculated only for students receiving letter grades. The GPA for each term and Cumulative Grade Point Average (CGPA) are calculated on courses taken in residence at the University. The GPA for each term is calculated by dividing the quality points earned that term by the total cumulative credits attempted for the GPA. The CGPA is calculated by dividing the total cumulative quality points earned by the total cumulative credits attempted for the GPA.

The number of quality points awarded for each course is determined by multiplying the points listed for each letter grade by the number of credits of the course. For example, a grade of A in a four-credit course earns 4 (credits) X 4.0 (quality points) for a total of 16.0 quality points, and a grade of C in a three-credit course earns 3 (credits) X 2.0 (quality points) for a total of 6.0 quality points.

A grade average percentage is calculated for students receiving percentage grades. The GPA equivalent of the calculated average is given in the table above.

#### President's And Academic Dean's List

To recognize and encourage outstanding scholastic performance, an Academic Dean's List is published at the end of each quarter or semester. To be eligible for this honor, an undergraduate student must have earned a grade point average of at least 3.50 and must have been a full-time student during the quarter or semester. The President's List recognizes all full-time undergraduate students who have maintained a 4.0 grade point average during the term.

#### **Incomplete Grades**

A student who receives an Incomplete (I) grade may be granted up to 10 calendar days following the end of the academic term to complete the course work, at which point the final grade will be determined and will replace the incomplete grade. If the coursework is not completed within allotted number of days, the final grade will be changed to the grade that was earned.

#### **Online Learning**

The College may choose to offer certain courses online. Online courses are offered using the eCollege platform via the Internet, and interaction between the students and faculty occur using an online environment that encourages participation. Courses will generally be similar in content to the in-class mode, although more individual effort and initiative will be required to successfully master the material. Online courses will be designated on the class schedule so students may register during the normal registration period. For further information see the Online Programs section of this catalog.

#### **Auditing Courses**

Auditing of courses may be approved in advance on a space-available basis. Approval by the instructor and the Academic Dean is required. In addition, payment of normal course tuition and fees and purchasing of textbooks is required. Procedures for auditing courses are available in the Academic Dean's office. No academic credit or grades are given for audited courses.

#### "Who's Who Among Students in American Universities and Colleges"

The University annually submits the names of outstanding students to the annual publication "Who's Who Among Students in American Universities and Colleges." This national publication recognizes students of exceptional merit in leadership, scholarship, and extracurricular activities. Selection for membership is made by a committee of faculty and administration.

#### **Externship Training**

Upon successful completion of all classroom requirements, students are expected to begin the externship portion of their program. The required number of externship contact hours/quarter credit units must be successfully completed within three months from the date students begin their externship. Students must complete at least 15 clock hours per week, but no more than 40 clock hours per week, at an approved externship site. This campus recommends that students complete at least 20 clock hours per week. Students must make up absences that occur during the externship to ensure that the required extern hours are completed prior to graduation. All students must be available for externship assignment during daytime hours.

Students who do not start their externship for more than 14 calendar days will be dropped from the program by the school. Externship training will be scheduled for 3, 4 or 5 days per week. Students waiting for externship placement will be considered scheduled for a 3 day per week externship.

If a student has been officially dropped by the school and permitted to re-enter the program, the time elapsed is not included in the calculation of the student's maximum program completion time.

Students who will not complete their externship training within the required three-month completion time will also be dropped from the program by the school. Students who have been dropped may appeal their termination if extenuating circumstances have occurred near the end of the externship that make it impractical to complete the training within the required completion time. Extenuating circumstances include prolonged illness or accident, death in the family, or other events that make it impractical to complete the externship within the required completion time. Student appeals must include written documentation of the extenuating circumstances, submitted to the education director and approved by the School President. Students may only be reinstated once due to extenuating circumstances.

#### Graduation

Commencement exercises are held at least once a year. All students completing their course work are included in the graduating class of that year. All students upon whom degrees are to be conferred are encouraged to participate in the commencement exercises.

Graduates must be current on all financial obligations, including tuition charges, fees, and other expenses, before the degree is granted. Degrees may be awarded in absentia only after Commencement Exercises are held.

All requirements for undergraduate degrees must be completed within eight (8) calendar years from the start of the initial term of enrollment. All requirements for graduate degrees must be completed within five (5) calendar years from the start of the initial term of enrollment.

#### **Graduation with Honors**

Students who have earned the requisite credits for graduation with the following grade point averages are entitled to the appropriate honors: 3.50-3.75, cum laude; 3.76-3.89, magna cum laude; 3.90 and above, summa cum laude. For percentage grades honors are earned as follows: 92.5% - 94.9%, cum laude, 95.0% - 97.5%, magna cum laude; 97.6% - 100%, summa cum laude

#### **PROGRAM REQUIREMENTS**

All students must abide by all University rules and regulations. The student is responsible for meeting the requirements of the University catalog in effect at admittance or re-admittance. The student may elect to change to the requirements of a new catalog and must then meet all the requirements of the new edition. The student automatically comes under the current catalog at re-admittance after not attending for a full academic quarter.

#### ADD/DROP PERIOD (QUARTER-BASED PROGRAMS ONLY)

The first 14 calendar days of each academic quarter are designated as the drop/add period for students in quarter-based programs. This period allows for adjustments to student schedules that may be necessary. This is the period when students may add or delete courses in order to finalize their schedules. Holidays that fall during this timeframe are not counted as part of the drop/add period. Students who wish to make course changes must request approval from the Academic Dean and the Financial Aid Office.

The student charges for the term will be determined by the classes the student has attended by the end of the third week of the term. There are no charges for classes dropped during the drop/add period. A student who attends a class beyond the drop/add period or who attends a class and does not drop it within the drop/add period will be charged for the class. For this reason it is important that students drop classes in a timely manner.

For students enrolling in school during the mini-term, the first seven days of the mini-term are considered the drop/add period. Holidays that fall during this timeframe are not counted as part of the drop/add period.

There is no drop/add period for modular programs or micro-terms.

#### WITHDRAWAL PROCEDURES

Students who must withdraw from the University are requested to notify the Academic Dean's office by telephone, in person, or in writing to provide official notification of their intent to withdraw. Students will be asked to provide the official date of withdrawal. At the time of official notification, when the student begins the process of withdrawal, the student or the Academic Dean's office will complete the necessary form(s).

Timely notification by the student will result in the student being charged tuition and fees for only the portion of the payment period or period of enrollment that he/she attended as well as ensuring a timely return of federal funds and any other refunds that may be due. Failure of students to provide official notification to the University of the intent to withdraw will delay the return of federal funds to the appropriate programs and will delay returning any other refunds that may be due.

When a student withdraws from the University, the institution will calculate for Title IV recipients how much of the federal grants and loans the student has earned for the payment period or period of enrollment. The University will also calculate the amount of tuition and fees for which the student is obligated, based on its refund policy. Depending on when the student withdraws, the tuition and fee charges may either exceed the amount of Title IV grants and loans received or be less than the amount of Title IV grants and loans received. If the amount of tuition and fee charges exceeds the amount of Title IV funds earned, the student, or parent in the case of dependent students, may owe the institution additional money for the remaining balance. The student or parent may owe back Title IV funds if the student has not earned 100% of the Title IV funds based on his or her attendance in the quarter. Further, depending on when a student withdraws, the student may owe 50% of his or her grant funds to the Title IV program.

Therefore, it is extremely important that the student understand the implications of withdrawing before completing the coursework in the quarter because it may impact the student's finances. Financial Aid Office personnel are available to provide assistance to students to determine the exact impact of early withdrawal on their repayment obligations.

If a student would like to rescind his/her official notification of withdrawal, the student needs to provide a statement in writing that he/she is continuing to participate in academically related activities and intends to complete the payment period or period of enrollment. The statement should be completed in the Academic Dean's office. If the student subsequently ceases

to attend prior to the end of the quarter, then the rescission will be cancelled, and the original date of official notification will be used unless the University can document a later date of the student's attendance at an academically related activity.

If the student is unable to begin the institution's withdrawal process or otherwise provide official notification of his/her intent to withdraw because of illness, accident, grievous personal loss, or other such circumstances beyond the student's control, a secondary party may provide notice to the Academic Dean's office. The date of withdrawal will be the date that most accurately reflects when the student ceased academic attendance due to the circumstances beyond the student's control.

#### **READMISSION OF WITHDRAWN STUDENTS**

Information concerning the readmission procedure may be obtained by calling the Academic Dean's office. If a student is permitted reentry, the student must normally meet all conditions of the catalog at the time of reentry.

#### ATTENDANCE POLICY

#### **Quarter-Based Programs**

Each course within the programs offered will have regularly scheduled academic activities that occur throughout the term. These academic activities are integral to ensure that course outcomes are met and that specific learning objectives are achieved within individual courses. Academic activities provide the faculty with specifics that aid in the assessment of student performance and the eventual awarding of a final course grade. The importance of student participation in these activities is key to the mastery of material within the course of study.

Academic activities are defined as, but not specifically limited to:

An examination/quiz	A tutorial session
Computer-assisted instruction	Academic advising with course instructor
Completing a course assignment, including research projects and	Attending a study group
journalizing	Instructor lecture or demonstration
Participating in a field trip	Attending a guest lecture
Simulations	Participating in role play activities
Viewing instructional media	Library research
A survey evaluating the course material, text, and instructor	Mid-term assessment performed by faculty to
performance	evaluate student progress
Presenting material (oral or written)	

Student success relies heavily on consistent and meaningful participation in the above-defined class-related/academic activities. Collaborative learning within the curriculum prepares the student to be comfortable with the learning team concept that is prevalent in today's workplace.

#### **Modular Programs**

Attendance in class is critical to student academic success. This policy sets standards that provide for the withdrawal and dismissal of students whose absences exceed a set rate. Normally, a student is considered present if s/he is in the assigned classroom for the scheduled amount of time, i.e., neither late for class (tardy) nor leaving before the end of class (leave early). However, an instructor may consider a student present who does not attend the entire class session if (a) the criteria used to make the determination are stated in the course syllabus **and** (b) the amount of time missed does not exceed 50% of the class session. A lack of student attendance is a basis for student academic advising.

#### **Monitoring Student Attendance**

Faculty monitor student attendance on the basis of both consecutive absences (the "Consecutive Absence Rule") and absences as a percentage of the hours in the term/module (the "Percentage Absence Rule"). A student may appeal an attendance dismissal pursuant to the Student Academic Appeals Policy.

Should an appeal be granted, the student is not dismissed, but shall be placed on probation and monitored with an advising plan. Should an appeal not be granted, the student shall be withdrawn from all courses and dismissed from school, and shall not be charged for attending while the appeal was pending. Students dismissed due to an attendance violation must reapply for admission to the school.

#### **Consecutive Absence Rule (Modular Programs Only)**

When a student is absent from school for fourteen (14) consecutive calendar days excluding holidays and scheduled breaks the faculty shall notify the Academic Dean/Director of Education, who shall be ultimately responsible for determining whether the student plans to return to school or has withdrawn. The following guidelines shall be followed:

- All students who state they will not return to school shall be promptly withdrawn
- All students who state they will return must:
  - Attend their next scheduled class session
  - File an appeal within five (5) calendar days of the violation
  - Have perfect attendance while the appeal is pending
- Any student who has promised to return to school, but does not attend the next scheduled class session shall be withdrawn from all courses and dismissed from school

#### Percentage Absence Rule (Modular Programs Only)

For students who have not previously violated the attendance policy, the following rule shall apply:

#### Percentage

#### **Action Taken**

15% of the total classroom hours missed	Attendance warning letter sent
20% of the total classroom hours missed	Withdrawn from the module and dismissed from school

For students who have been dismissed for violating the attendance policy, or would have been dismissed but for a successful appeal, the following rule shall apply:

#### Percentage

#### **Action Taken**

15% of the remaining classroom hours missedAttendance warning letter sent20% of the remaining classroom hours missedWithdrawn from the module and dismissed from school

Should a student violate the applicable Percentage Absence Rule, the following guidelines shall be followed:

• All students who state they will not return to school shall be promptly withdrawn

- All students who state they will return must:
  - Attend class within five (5) calendar days of the violation
  - File an appeal within five (5) calendar days of the violation
  - Have perfect attendance while the appeal is pending
- Any student who has promised to return to school, but who does not return within five (5) calendar days of the violation shall be withdrawn from all courses and dismissed from school

#### Attendance Requirements for Veteran Students

The Veterans Administration (VA) requires that students receiving funds based on their enrollment in school complete their course of studies in the standard length of the program. In order to meet this requirement, students must attend class on a regular basis. The VA requires that it be notified when a veteran student receives any type of probation or warning related to failure to attend. Such notification may result in the termination of veteran benefits. All attendance warnings or dismissals of students funded through the VA shall be reported to the VA by the certifying official for the school.

#### **Make up Sessions**

If there is a holiday during a term, the missed class will be made up on an unscheduled day and time.

#### Leave of Absence Policy (Modular Programs Only)

The institution permits students to request a leave of absence (LOA) as long as the leaves do not exceed a total of 180 days during any 12-month period, starting from the first day of the first leave, and as long as there are documented, legitimate extenuating circumstances that require the students to interrupt their education. Extenuating circumstances include, but are not limited to, jury duty, military obligations, birth or adoption of a child, or serious health condition of the student or a spouse, child or parent. In order for a student to be granted an LOA, the student must submit a completed, signed and dated Leave of Absence Request Form to the Academic Dean.

#### **Re-admission Following a Leave of Absence**

Upon return from leave, the student will be required to repeat the module and receive final grades for the courses from which the student took leave when the courses are next offered in the normal sequence for students in the class into which the student has re-entered. The student will not be charged any fee for the repeat of courses from which the student took leave or for re-entry from the leave of absence. Normally, the student is scheduled to return to class at the beginning of a module. When a student is enrolled in a modular program, the student may return at any appropriate module, not only the module from which the student withdrew.

#### **Extension of LOA**

A student on an approved LOA may submit a request to extend the LOA without returning to class. Such a request may be approved by the Director of Education provided:

- The student submits a completed LOA Extension Request Form before the end date of the current leave
- There is a reasonable expectation the student will return
- The number of days in the leave as extended, when added to all other approved leaves, does not exceed 180 calendar days in any twelve (12) month period calculated from the first day of the student's first leave

• Appropriate modules required for completion of the program will be available to the student on the date of return If the extension request is approved, the end date of the student's current leave will be changed in the official student

information system to reflect the new end date. If the request is denied, the student will be withdrawn and the withdrawal date will be the student's last date of attendance (LDA).

#### Failure to Return from a Leave of Absence

A student who fails to return from an LOA on or before the date indicated in the written request will be terminated from the program, and the institution will invoke the cancellation/refund policy.

As required by federal statute and regulations, the student's last date of attendance prior to the approved LOA will be used in order to determine the amount of funds the institution earned and make any refunds that may be required under federal, state, or institutional policy (see "Cancellation/Refund Policy").

Students who have received federal student loans must be made aware that failure to return from an approved LOA, depending on the length of the LOA, may have an adverse effect on the students' loan repayment schedules.

Federal loan programs provide students with a "grace period" that delays the students' obligation to begin repaying their loan debt for six months (180 days) from the last date of attendance. If a student takes a lengthy LOA and fails to return to school after its conclusion, some or all of the grace period may be exhausted—forcing the borrower to begin making repayments immediately.

#### Effects of Leave of Absence on Satisfactory Academic Progress

Students who are contemplating a leave of absence should be cautioned that one or more of the following factors may affect their eligibility to graduate within the maximum program completion time:

- Students returning from a leave of absence are not guaranteed that the module required to maintain the normal progress in their training program will be available at the time of reentry;
- They may have to wait for the appropriate module to be offered;
- They may be required to repeat the entire module from which they elected to withdraw prior to receiving a final grade;
- Financial aid may be affected.

When a student returns from a leave of absence and completes the course from which the student withdrew, the hours for which the student receives a passing grade are counted as earned; the grade, hours, and attendance for the original attempt prior to the official leave of absence are not counted for purpose of the rate of progress toward completion calculation, and the original grade is not counted in the CGPA calculation.

#### Veterans: Leave of Absence

Leave of absence is granted to students who wish to temporarily interrupt their training for personal reasons. A student will be granted no more than one leave of absence for a maximum period of 60 days. A written request must be made in advance or the absence will be considered unexcused. The Veteran's Administration will be notified immediately when a veteran student is granted leave.

The University does not permit leaves of absence for students enrolled in quarter-based programs. Students experiencing circumstances that may make it necessary to interrupt their attendance temporarily or briefly should see the Academic Dean.

# UNDERGRADUATE ACADEMIC INFORMATION

#### ACADEMIC LOAD

Full time: A student taking 12 or more quarter hours toward Associate's or Bachelor's degrees will be classified as a full-time student for that term.

Three-Quarter time: A student taking 9 or more quarter hours toward Associate's or Bachelor's degrees will be classified as a three quarter-time student for that term.

Half- time: A student taking 6 or more quarter hours toward Associate's or Bachelor's degrees will be classified as a half-time student for that term.

Less than half-time: A student taking less than 6 quarter hours toward Associate's or Bachelor's degrees will be classified as a less than half-time student for that term.

# **REPEATING COURSES**

An undergraduate student may repeat a course taken at the University in order to improve the cumulative grade point average. The credit is given for the better of the two grades earned when repeating a course. Repeated courses will appear on the student's transcript. The first attempt will also be shown; however, the cumulative grade point average will be recomputed to count only the better of the two. All repeats will be charged at the current tuition rate.

#### STANDARDS OF SATISFACTORY ACADEMIC PROGRESS (SAP)

Students must maintain satisfactory academic progress in order to remain eligible to continue as regularly enrolled students of the School. Additionally, satisfactory academic progress must be maintained in order to remain eligible to continue receiving federal financial assistance.

The accreditor and federal regulations require that all students progress at a reasonable rate (i.e. make satisfactory academic progress) toward the completion of their academic program. Satisfactory academic progress is measured by:

- 1) The student's cumulative grade point average (CGPA)
- 2) The student's rate of progress toward completion (ROP)
- 3) The maximum time frame allowed to complete that is 150% of total number of credits in the program of study (MTF)

#### **Evaluation Periods for Satisfactory Academic Progress**

For the purpose of Accreditations and Regulatory Agencies, the evaluation points and Satisfactory Academic Progress is determined according to the following guidelines.

Satisfactory academic progress is measured at the end of each academic term, which includes the 25% point, the midpoint, the end of each academic year, and the end of the program. Should the 25% point or the midpoint occur within a term, the evaluation will occur at the end of the preceding academic term.

The academic year is three academic quarter or semester in length (usually for full time students with normal course load is the completion of 36 quarter or 24 semester credits without using any transfers). Institutions may use stricter guidelines to ensure student success and early intervention when students are in jeopardy of not making SAP. Tables below are used as a guideline for this purpose. Students in jeopardy of not making SAP may be advised at any point and be placed on probation to be monitored closely.

#### **GPA and CGPA Calculations**

At the end of each academic term, the student's cumulative grade point average (CGPA) is reviewed to determine the student's qualitative progress. When a student repeats a course, the student's CGPA will be recalculated based on the higher of the two grades earned. Grades for withdrawals, transfer credits, incompletes, non-punitive (Pass), and non-credit remedial courses have no effect on the student's CGPA.

Students must attain a minimum CGPA of 1.0 at the end of the first 25% of the program and a 1.5 CGPA at the midpoint of the program.

#### Rate of Progress toward Completion (ROP) Requirements

The school catalog contains a schedule designating the minimum percentage or amount of work that a student must successfully complete at the end of each evaluation period to complete their educational program within the maximum time

frame (150%). ROP is determined by dividing the number of credit hours earned by the total number of credit hours in courses attempted. Credit hours attempted include completed hours, transfer credits, withdrawals, and repeated courses. Non-credit remedial courses have no effect on the student's ROP.

Example:

ROP =	<u> 12 credit hours earned</u> =	50%
	24 credit hours attempted	

#### Maximum Time Frame to Complete (MTF)

The maximum time frame for completion of any program is limited by federal regulation to 150% of the published length of the program. The school calculates the maximum time frame using credit hours for courses attempted. The total scheduled credit hours for all courses attempted, which include completed courses, transfer courses, withdrawals, and repeated classes, count toward the maximum number of credit hours allowed to complete the program. Non-credit remedial courses have no effect on the student's ROP. A student is not allowed to attempt more than 1.5 times, or 150% of the credit hours in the standard length of the program in order to complete the requirements for graduation.

The requirements for rate of progress are to assure that students are progressing at a rate at which they will be able to complete their programs within the maximum time frame. The maximum allowable attempted clock hours are noted in the following tables.

#### **Satisfactory Academic Progress Tables for Modular Programs**

#### **Application of Grades and Credits**

- Grades A through D are included in the calculation of CGPA and are included in the Total Number of Credit Hours Attempted.
- Transfer credits (T) are not included in the calculation of CGPA but are included in the Total Number of Credit Hours Attempted (see below) in order to determine the required levels for CGPA and rate of progress. Transfer credits are included as credit hours attempted and successfully completed in calculating the rate of progress.
- Developmental courses, non-credit and remedial courses (PF, PP, CR, NC) are graded on a pass/fail basis and are not included in the calculation of progress toward completion or the student's CGAP.
- For calculating rate of progress, F grades and W (withdrawn WI, WD, WZ) grades are counted as hours attempted but are not counted as hours successfully completed. Grades of I (Incomplete, In Progress) will also be counted as hours attempted but not as hours successfully completed; however, when the I is replaced with a grade, the CGPA and satisfactory academic progress determination will be recalculated based on that grade and the credit hours earned.

When a course is repeated, the higher of the two grades is used in the calculation of CGPA, and the total clock hours for the original course and the repeated course are included in the Total Clock Hours Attempted (in the charts above) in order to determine the required progress level. The clock hours for the original attempt are considered as not successfully completed.

#### **ACADEMIC DEFICIENCIES**

Following the conclusion of each grading period, the grades of each student will be audited by the Academic Dean. As a result of this audit, it may be necessary to reschedule the student or to place the student on a status of academic probation, academic suspension, or academic dismissal.

#### **Academic Probation**

Probation is the period of time during which a student's progress is monitored under an advising plan. During the period of probation, students are considered to be making Satisfactory Academic Progress both for academic and financial aid eligibility. Students on probation must participate in academic advising as deemed necessary by the school as a condition of their probation. Academic advising shall be documented on an Academic Advising Plan and shall be kept in the student's academic file. The Academic Advising Plan may be updated at the end of each evaluation period that the student is on probation.

If, at the end of any evaluation period, a student falls below the required academic progress standards (CGPA, ROP, or other standards) for his/her program as stated in the school catalog, the student shall receive a written warning and be placed on probation. Probation will begin at the start of the next module. The student will remain on academic probation as long as his or her CGPA or ROP remains in the probation ranges specified in the school catalog. When both the CGPA and ROP are

above the probation ranges, the student is removed from probation. In addition, students whose probation status extends over multiple academic terms may be directed to participate in additional tutorial sessions or developmental and remedial classes.

#### Suspension

If, at the end of any evaluation period, a student's CGPA or ROP falls into the suspension ranges specified in the school catalog, the student is considered not to be making SAP. Students not making SAP must be placed on suspension and withdrawn from the program.

# SATISFACTORY ACADEMIC PROGRESS APPEALS

Any student may submit an appeal of a decision of suspension or dismissal in accordance with the Satisfactory Academic Progress Appeals Policy given under the Student Academic Appeals Policy above.

#### **Reinstatement Following Suspension**

Students who successfully appeal a suspension are considered to be making SAP and may remain in school under the following conditions:

- It is mathematically possible for the student to complete the program within the maximum time frame with the required CGPA
- The student must be placed on probation and monitored under an Academic Advising Plan
- The student must demonstrate improvement in their CGPA and/or ROP at the end of each subsequent evaluation period

Students who successfully appeal a suspension but whose CGPA and/or ROP is in the suspension range at the end of any subsequent evaluation period must file a new academic appeal.

Students who have been dismissed from a program are not eligible for readmission to that program.

#### Dismissal

Students who have been readmitted following academic suspension who fail to improve their CGPA and/or ROP into the applicable probation range by the end of the first evaluation period after readmission must be dismissed from the program unless it is determined that it would take more than one period to meet SAP and the student has made the necessary progress toward achieving the requirements. Students who have been dismissed from a program are not eligible for readmission.

# SATISFACTORY ACADEMIC PROGRESS FOR STUDENTS RECEIVING VETERANS ADMINISTRATION BENEFITS

#### **Previous Credit for Veterans Affairs Beneficiaries**

All Veterans Affairs beneficiaries are required to disclose prior postsecondary school attendance and provide copies of transcripts for all postsecondary education and training. Upon enrollment, the University will request and obtain official written records of all previous education and experience, grant credit where appropriate, and advise the Veterans Affairs claimant and the Department of Veterans Affairs in accordance with VA regulations.

#### **Make-Up Assignments**

Make up work and assignments may not be certified for veteran students for Veterans Administration pay purposes.

#### **Maximum Time Frame for Veteran Students**

The maximum time frame for veteran students to receive veteran benefits is the standard length of the program, not time and a half. Students funded by the Veterans Administration must complete their programs within the program's standard time frame in order to receive veteran benefits. A veteran student may not be funded for benefits following the standard program length.

#### **Veterans Academic Probation**

A veteran student who fails to meet the minimum standards of satisfactory academic progress as stated in the institutional policy is automatically placed on academic probation for one grading period. Any change in enrollment status, including when a veteran is placed on academic probation, changes schedules, or terminates or is dismissed from training, will be reported to the Veterans Administration. The University retains documentation of probation in a student's file. Students on academic probation may be required to participate in tutoring sessions outside class hours as a condition to continued enrollment. At the end of a probationary period, a student's progress is re-evaluated. If the student has met minimum standards for satisfactory academic progress and any written conditions of probation that may have been required, the student is removed from probation and returned to regular student status. A veteran who fails to regain satisfactory academic progress status after one grading period will be treated as all other students under the institutional policy described above, with one exception. A veteran who fails to meet satisfactory academic progress status following one grading period on probation will be reported to the Veterans Administration, and their benefits will be terminated.

#### Veterans Reinstatement after Successful Appeal of Termination

A student who successfully appeals termination from the University due to failure to maintain satisfactory academic progress may be reinstated. A reinstated student enters under an extended probationary period. This probationary period will extend for one grading period, after which a student must meet minimum standards of satisfactory progress to remain in school. The Department of Veterans Administration will determine whether or not to resume payments of Veterans Administration benefits to a reinstated student.

# **REQUIREMENTS FOR GRADUATION**

# ALL PROGRAMS

A student must:

- 1. Successfully complete all courses in the program with a 2.0 (70%) grade point average within the maximum time frame for completion as stated in the school catalog.
- 2. Successfully complete all externship hours (if applicable).
- 3. Meet any additional program specific requirements as stated in The University catalog.

#### **Associate's Degrees**

To qualify for the Associate in Science degree, students are required to accomplish the following:

- 1. Complete the specified requirements for the program of study, to include a minimum of 24 quarter credit hours in general education and a minimum of 45 quarter credit hours in the major core.
- 2. Complete all coursework with a minimum grade point average of 2.0 or higher. A minimum of 25% of the program's total required credit hours must be completed in residence at the University.
- 3. Abide by all University rules and regulations.

#### **Bachelor's Degrees**

To qualify for a Bachelor of Science degree, students are required to accomplish the following:

- 1. Satisfy the specified requirements for the program of study, to include a minimum of 54 quarter credit hours in general education and a minimum of 90 quarter credit hours in major core coursework.
- 2. Complete all coursework with a minimum grade point average of 2.0. A minimum of 25% of the program's total required credit hours must be completed in residence at the University.
- 3. Abide by all University rules and regulations

#### **TWO DEGREES**

Two Bachelor's degrees may be awarded simultaneously under the following conditions:

- 1. Course requirements for two majors have been completed as certified by the appropriate academic credits.
- 2. A minimum of 48 appropriate quarter hours in residence in addition to the requirements of the first degree have been earned.

Care must be taken in scheduling for a second degree. Veteran's educational benefits, under certain circumstances, may not be available for subjects other than those specifically required for the second degree.

# **GRADUATE PROGRAMS ACADEMIC INFORMATION**

The graduate programs were developed to enhance an individual's effectiveness. They concentrate on the development and mastery of advanced critical reasoning and analytical skills and effective written and oral communication skills for successful application in a dynamic business and administrative environment.

In addition, the graduate programs emphasize professional ethics, use of technology, and information networking and provide exposure to the international marketplace.

#### **GRADUATE ACADEMIC LOAD**

A student taking the required eight or more quarter hours in the graduate program is defined as a full-time student for that term.

# **GRADUATE DEGREES OFFERED**

The University awards the Master of Business Administration degree with several areas of concentration and the Master of Science in Criminal Justice. Not all programs are offered at all campus locations.

- To qualify for a graduate degree, students are required to accomplish the following:
- 1. Satisfy the prerequisite course requirements.
- 2. Complete all required courses with an average grade of B (grade point average of 3.0) or higher. All course work must be in the 5000 series or higher.
- 3. Abide by all University rules and regulations.
- 4. Settle all financial obligations to the University.

Students are responsible for meeting the requirements of the University catalog in effect at the time of enrollment. Students may elect to change to the requirements of a new catalog and must then meet all the requirements of the new edition. Students automatically come under the current catalog at reentrance after not attending for a full academic term.

# **GRADUATE CATEGORIES OF ENROLLMENT**

A student applying to the graduate program may be classified in one of two categories: degree-seeking Regular Student or Provisional Student.

#### **Regular Graduate Students**

A degree-seeking applicant certifies his or her intention of applying for admission to a degree program at the time of making his or her initial application or upon acceptance. To qualify upon admission as a Regular Student seeking a graduate degree, the applicant must have achieved a cumulative grade point average of not less than 3.00 for all undergraduate upper-level division work; or must score not less than 470 on the Graduate Management Admission Test (GMAT); or must achieve a comparable score on the Graduate Record Examination (GRE) in order to become a candidate for a master's degree.

#### **Provisional Graduate Students**

Any student wishing to become a candidate for a Master's degree who does not meet the requirements to be classified as a Regular Student may enroll and matriculate as a Provisional Student by having achieved a grade point average of not less than 2.0 for all undergraduate upper division work. The provisional status will remain in effect until the student has earned a score of not less than 470 on the GMAT, a comparable score on the GRE, or has satisfactorily completed 16 credits of graduate course work at the University with a grade point average that meets the minimum standards of progress for the graduate program. For international students admitted with Provisional Student status by the Graduate Academic Committee (see "Graduate Admissions Requirements"), the status will remain in effect until the student has earned a TOEFL score of not less than 550, a 6.0 on the IELTS, or has satisfactorily completed 16 credits of graduate work at the University with a minimum GPA of 3.0. Failure to reach Regular Student status within 16 credits of graduate work at the University will result in the student being dismissed from the University. Students admitted on a provisional basis will be admitted as Regular Student status only upon evaluation and favorable action by the Committee on Admissions for the graduate program.

#### **Transfer Credit for Graduate-Level Courses**

A student attempting to transfer a graduate-level course from another accredited institution must provide evidence that the course is related in content to the program of study at the University. The University will accept no more than 24 graduatelevel hours in transfer, and no graduate-level course may be transferred in which the student receive a grade below a B. Graduate students should see additional information in the "Graduate Programs Academic Information" section. Graduate students must complete at least 50% of program hours in residence.

#### PREREQUISITE REQUIREMENTS FOR GRADUATE PROGRAMS

While it is desirable that the student have a Bachelor's degree in the same field or one closely related to the field in which the Master's degree is sought, it is not mandatory.

Applicants whose undergraduate degrees are in fields outside the program area are invited to apply, but foundation work will be required before certain higher level courses may be taken. All graduate students must meet certain prerequisite requirements prior to enrolling in Managerial Economics, International Economic Systems, Quantitative Methods, Financial Management, and certain graduate-level accounting courses.

#### STANDARDS OF SATISFACTORY ACADEMIC PROGRESS FOR GRADUATE STUDENTS

A student pursuing a Master's degree must maintain a minimum cumulative grade point average of 3.0. Graduate students who fail to meet the minimum grade point requirement will be placed on Academic Probation for the subsequent quarter of enrollment. If otherwise eligible, a student may receive financial assistance during the Academic Probation grading period. Failure to raise the grade point average above the minimum specified within the subsequent quarter will result in Academic Dismissal. Regardless of the grade point average minimum, two or more grades of F will also result in the Academic Dismissal of the student.

GRADUATE DEGREES - QUARTER CREDITS							
Total Credits Attempted*	Probation if CGPA is below	Suspension if CGPA is below	Probation if rate of progress is below	Suspension if rate of progress is below			
0 - 16	3.00	N/A	66%	N/A			
17 – 27	3.00	2.75	66%	50%			
28 - 39	3.00	2.90	66%	60%			
40 - 84	3.00	3.00	66%	65%			

A student will be permitted to attempt 15 quarter hours of graduate work before the application of the following standards.

\*The maximum number of credits that may be attempted for a 54-credit graduate program is 81 (150% of 54). The maximum number of credits that may be attempted for a 56-credit graduate program is 84 (150% of 54).

All other elements of satisfactory academic progress as outlined in the section on satisfactory academic progress are applicable to graduate programs.

In all cases of academic dismissal, the student will be notified by the Director of the Graduate School or the Academic Dean.

When the presence of mitigating circumstances causes the student's grade point average to fall below the minimum standards, a letter from the student requesting reinstatement may be submitted to the Graduate Academic Committee for review. The Committee will determine whether a probationary reinstatement is necessary or if the decision for dismissal is warranted.

#### STANDARDS OF SATISFACTORY ACADEMIC PROGRESS FOR GRADUATE STUDENTS RECEIVING VETERNS ADMINISTRATION BENEFITS

Students must maintain a cumulative grade point average of B (3.0) each term to remain eligible for VA benefits. A veteran student failing to achieve a B (3.0) cumulative grade point average for any term will be placed on probation for the next academic term.

Failure to achieve a B (3.0) cumulative grade point during the next two consecutive terms will result in the veteran student being terminated from veteran benefits and the VA so notified.

A veteran student terminated for unsatisfactory academic progress at the graduate level may be certified to the VA to receive veteran's benefits after attaining the 3.0 cumulative GPA required for satisfactory academic progress.

These standards are applicable only for the determination that veteran students remain eligible to receive VA benefits. The University's regular academic standards apply for all students in determining academic suspension.

# **ADMINISTRATIVE POLICIES**

# UNIVERSITY REGULATIONS

Each student is given the University catalog, which sets forth the policies and regulations under which the institution operates. It is the responsibility of the student to become familiar with these policies and regulations and to comply accordingly. Ignorance of or lack of familiarity with this information does not serve as an excuse for noncompliance or infractions.

# STUDENT CODE OF CONDUCT

#### Background

The College maintains professional-level standards for conduct and behavior for all students. The standards of conduct for students are patterned after those of professional employees in the workplace. Students are expected to observe campus policies and behave in a manner that is a credit to the campus and to themselves. Certain violations of the student conduct code, as outlined in this policy, shall result in immediate dismissal. Other violations are subject to a progressive disciplinary action, where the student is advised and given every opportunity to change his or her behavior to meet the expectations of the College and to prepare for what the student might later expect to find in a professional-level work environment. The College maintains the right to discipline students found in violation of College policies.

- The College maintains the right to discipline students found in violation of College policies in accordance with the procedures below.
- The student conduct code applies to all students, including students taking online courses or a combination of online and campus courses. College Work Study students who violate the student code of conduct in the performance of their college work study duties are subject to disciplinary action/procedures.
- The Campus President or designee (typically the Director of Education/Academic Dean or, in the case of online students, the Online Coordinator) has the authority to make decisions about student disciplinary action.
- Students are subject to the student conduct code while participating in any program externship, clinical rotation, or other College-related activity.
- All student conduct code violations shall be documented in the student's academic record.
- Students dismissed for violations of the student conduct code shall remain responsible for any financial obligations to the College.
- Students dismissed from one Corinthian Colleges, Inc. college for violation of the student conduct code shall not be eligible for admittance to another CCi college.

#### Applicability

This Code of Student Conduct (Code) applies at all times to all students. As used in this Code, a student is any individual who has been accepted or is enrolled in school. Student status lasts until an individual graduates, is withdrawn, or is otherwise not in attendance for more than 180 consecutive calendar days.

#### Generally

CCi seeks to create an environment that promotes integrity, academic achievement, and personal responsibility. All CCi schools should be free from violence, threats and intimidation, and the rights, opportunities, and welfare of students, faculty, staff, and guests must be protected at all times.

To this end, this Code sets forth the standards of behavior expected of students as well as the process that must be followed when a student is accused of violating those standards. Reasonable deviations from the procedures contained herein will not invalidate a decision or proceeding unless, in the sole discretion of the school, the deviation(s) significantly prejudice the student. The School President (or designee) is responsible for appropriately recording and enforcing the outcome of all disciplinary matters.

#### Conduct Affecting the Safety of the Campus Community

CCi reserves the right to take all necessary and appropriate action to protect the safety and well-being of the campus community. The School President (or designee) may immediately suspend any student whose conduct threatens the health and/or safety of any person(s) or property. The suspension shall remain in effect until the matter is resolved through the disciplinary process. Such conduct includes, but is not limited to:

- Possessing alcohol or other intoxicants, drugs, firearms, explosives, weapons, dangerous devices, or dangerous chemicals on school premises
- Theft
- Vandalism or misuse of school or another's property
- Harassment or intimidation of others
- Endangerment, assault, or infliction of physical harm

#### **Other Prohibited Conduct**

Additionally, disciplinary action may be initiated against any student(s) based upon reasonable suspicion of attempting to commit, or assisting in the commission of any of the following prohibited forms of conduct:

- Cheating, plagiarism, or other forms of academic dishonesty
- Forgery, falsification, alteration or misuse of documents, funds, or property
- Any disruptive or obstructive actions, including:
  - The use of cell phones or other electronic devices for voice or text communication in the classroom, unless permitted by the instructor
    - The inappropriate use of electronic or other devices to make an audio, video, or photographic record of any person while on school premises without his/her prior knowledge or effective consent

- Failure to comply with school policies or directives
- Any other action(s) that interfere with the learning environment or the rights of others
- Violations of local, state, provincial, or federal law (see below)

Note: This list is not exhaustive, but rather offers examples of unacceptable behavior which may result in disciplinary action.

#### Violations of Local, State, Provincial, or Federal Law

CCi students are expected to comply with all local, state, provincial, and federal laws and violations of those laws may also constitute a violation of this Code. While a criminal charge does not mean that the student is guilty of an offense, such a charge does mean that civil authorities have determined that there is at least probable cause to believe that an offense was committed, and that the student committed it. In such instances, the School President (or designee) may conduct an inquiry and/or proceed with disciplinary action under this Code independent of any criminal proceeding.

#### Limitations on Students with Pending Disciplinary Matters

Any student with a pending disciplinary matter shall not be allowed to:

- Enroll or attend classes at another CCi location (including Online)
- Graduate or participate in graduation ceremonies
- Engage in any other activities proscribed by the School President

Additionally, if a student withdraws from school at any point during the disciplinary process, the student is not eligible for readmission to any CCi school (including Online) prior to resolving the outstanding disciplinary issue.

#### Inquiry by the School President

If the School President (or designee), in his or her sole discretion, has reason to believe that a student has violated the Code of Student Conduct, the School President (or designee) shall conduct a reasonable inquiry and determine an appropriate course of action. If the School President (or designee) determines that a violation has not occurred, no further action shall be taken.

#### Conduct Which Does Not Warrant a Suspension or Dismissal

If the School President (or designee), in his or her sole discretion, determines that the student's behavior may have violated this Code but does not warrant a suspension or dismissal, the School President (or designee) shall promptly provide the student with a written warning. Multiple written warnings may result in a suspension or dismissal.

#### **Conduct Which Warrants a Suspension or Dismissal**

If the School President (or designee), in his or her sole discretion, determines that the student's behavior warrants a suspension or dismissal, the School President (or designee) shall promptly provide the student with a written notice of the following:

- The conduct for which the sanction is being imposed
- The specific sanction being imposed
- The right to appeal if a written request is filed by the student within (5) calendar days of the date of the written notice **Sanctions**

Sanctions should be commensurate with the nature of the student's conduct. All sanctions imposed should be designed to discourage the student from engaging in future misconduct and whenever possible should draw upon educational resources to bring about a lasting and reasoned change in behavior.

**Suspension** – A sanction by which the student is not allowed to attend class for a specific period of time. Satisfactory completion of certain conditions may be required prior to the student's return at the end of the suspension period. During a period of suspension, a student shall not be admitted to any other CCi school.

Note: Student absences resulting from a suspension shall remain in the attendance record regardless of the outcome of any disciplinary investigation or the decision of the Student Conduct Committee.

**Dismissal** – A sanction by which the student is withdrawn from school. Such students may only reapply for admission with the approval of the School President.

Note: Students dismissed for violations of this Code remain responsible for any outstanding balance owed to the school.

- Examples of conditions the school may require a student to complete prior to returning from a suspension or dismissal are:
  - Community Service and/or participation in educational programs
  - Research assignments or special projects
- Behavioral contracts
- The loss of specific privileges (e.g., loss of automobile privileges on school premises, restricted access to computer lab or automotive machinery)
- Reimbursement or restitution for property damage
- Referral to receive outside counseling services
- Removal from school sponsored housing

#### Academic Dishonesty

Any form of deception in the completion of assigned work is considered a form of academic dishonesty. This includes, but is not limited to:

- Copying another's work from any source
- Allowing another to copy one's own work whether during a test or on an assignment
- Any attempt to pass off the work, data, or creative efforts of another as one's own
- Knowingly furnishing false information about one's academic performance to the school
- One or more of the sanctions listed below may be imposed for academic dishonesty:
- A reduction in grade on the assignment on which the violation occurred
- No credit on the assignment, paper, test, or exam on which the violation occurred
- A failing grade for the course/module
- Suspension or Dismissal from the school

#### **Appeal Process**

Students are entitled to appeal any sanction which results in suspension or dismissal. The appeal must be in writing and filed within five (5) calendar days of the date of the written notice. If the student files a timely appeal, the School President (or designee) shall convene a Student Conduct Committee to conduct the hearing. The Committee shall generally include the School President, the Academic Dean/Director of Education, a Program or Department Chair, the Student Services Coordinator, or a faculty member. The members of the Committee shall select a Chair. If the alleged violation involves allegations of sexual misconduct committee against faculty or staff, the Committee must include a representative from Corporate or Division Human Resources.

The Committee Chair shall timely schedule a hearing date, and provide written notice to the student. The notice must be mailed or otherwise delivered to the student at least two (2) calendar days prior to the scheduled hearing date, and include notice that the student may:

- Appear in person, but is not required to appear
- Submit a written statement
- Respond to evidence and question the statements of others
- Invite relevant witnesses to testify on his/her behalf
- Submit written statements signed by relevant witnesses

Attendance at the hearing is limited to those directly involved or those requested to appear. Hearings are not open to the public and are not recorded.

The Student Conduct Committee shall:

- Provide the student a full and reasonable opportunity to explain his/her conduct
- Invite relevant witnesses to testify or submit signed statements
- Reach a decision based upon the information submitted prior to the hearing and the testimony and information of the student and witnesses at the hearing
- If the student does not appear, or elects not to appear, the Committee may proceed in the student's absence and the decision will have the same force and effect as if the student had been present

The Student Conduct Committee shall issue a written decision to the student within five (5) calendar days of the date of the hearing which may:

- Affirm the finding and sanction imposed by the School President (or designee)
- Affirm the finding and modify the sanction
  - Sanctions may only be reduced if found to be grossly disproportionate to the offense
- Disagree with the previous finding and sanction and dismiss the matter
- A matter may be dismissed only if the original finding is found to be arbitrary and capricious

The decision of the Student Conduct Committee is final, and no further appeal is permitted.

#### **Record of Disciplinary Matter**

All disciplinary files shall be kept separate from the student academic files until resolved.

Disciplinary files for students who have violated the Code of Student Conduct shall be retained as part of the student's academic file and considered "education records" as appropriate, pursuant to the Family Educational Rights and Privacy Act (FERPA) and PIPEDA. Disciplinary records shall be retained in the student's academic file permanently and a note shall be included in the official student information system indicating the date of the disciplinary decision and the sanction imposed.

When circumstances warrant, disciplinary matters shall be referred to the appropriate law enforcement authorities for investigation and prosecution. Additionally, disciplinary records shall be reported to third parties as applicable (e.g. Veteran's Administration).

#### **Alcohol and Substance Abuse Statement**

The University does not permit or condone the use or possession of marijuana, alcohol, or any other illegal drug, narcotic, or controlled substance by students or employees. Possession of these substances on campus is cause for dismissal.

#### Student Conduct Code Violations/Formal Disciplinary Procedure

If the University has reason to believe that a student has violated the student conduct code, the University shall conduct an investigation and follow up with the student in the appropriate manner.

Violations that threaten the health and safety of campus employees, other students, or visitors shall result in immediate dismissal from the University.

Other student conduct code violations shall be governed by a *progressive disciplinary procedure*. For isolated, minor student conduct code violations, the University may decide to conduct academic advising and issue a verbal reminder of the student conduct code, or to provide the student with written notice, as the University deems appropriate. The University may also decide to suspend or place a student on probation for a specified period of time, pending a full investigation of student conduct code violations or as a form of corrective action short of dismissal from the University.

**First Offense** - A written warning. The student shall receive a letter that describes the specific examples of the student's misconduct and the consequences if further violations occur.

**Second Offense -** Student dismissal. Each student dismissed shall receive a dismissal letter from the campus, stating the reasons for dismissal and any applicable appeals procedures.

**Threats to Health/Safety -** Immediate dismissal. Dismissal letter within a reasonable period of time; student not allowed back on campus property without President's or designee's approval.

#### Appeals

A student dismissed for violations of the student conduct code may appeal the dismissal by submitting a letter to the University President for consideration. The appeal letter should include the reasons why the decision should be changed and the student allowed to return to school. The student must appeal the decision within 10 days after the student receives notice

from the University that he/she has been dismissed. Students should refer to the "Campus Grievance Procedures" in the University catalog. The student who appeals a dismissal shall receive written notice of the decision. The University President's decision on an appeal shall be considered final.

#### **Academic Integrity**

- Any form of deception in the completion of assigned work is considered a form of academic dishonesty. This includes, but is not limited to: copying another's work from any source; allowing another to copy one's own work whether during a test or in the submittal of an assignment; any attempt to pass off the work, data, or creative efforts of another, as one's own; knowingly furnishing false information about one's academic performance to the University.
- If a student is found to have committed one or more of the acts listed above, the student may, at the Academic Dean's discretion, receive an F grade for the assignment or exam. If repeated offenses occur, the student may be dismissed from the University as per the disciplinary procedures outlined above.
- All violations of academic policy are documented and made part of the student's academic record.

#### WEAPONS POLICY

No weapons of any type are allowed on campus. This includes, but is not limited to: hand guns, rifles, knives, and any other devices used to harm or intimidate staff or students. This institution maintains a threat-free learning environment. Violation of this policy may result in immediate dismissal from the institution and a complaint with local law enforcement.

#### SEXUAL HARASSMENT POLICY

The University will strive to provide and maintain an environment free of all forms of harassment. The following guidelines are issued that legally define sexual harassment as unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature when:

- Submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment;
- Submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting such individual; or
- Such conduct has the purpose or effect of unreasonably interfering with an individual's work performance or creating an intimidating, hostile, or offensive working environment.

The University will not tolerate sexual harassment. Behavior toward any employee or student by a member of the staff, faculty, or student body that constitutes unwelcome sexual advances, including comments of a sexual nature, or inappropriate conduct, including the display of derogatory drawings, cartoons, or posters, will be dealt with quickly and vigorously and will result in disciplinary action up to and including termination or dismissal.

Any student or employee who believes that he or she is a victim of sexual harassment should immediately notify the office of the Campus President. The Campus President will conduct an investigation of all allegations. Information surrounding all complaints will be documented and kept strictly confidential. Please be reminded that this policy applies to students as well as employees.

#### **DRESS CODE**

Students are expected to dress in a manner that would not be construed as detrimental to the student body and the educational process at the Institute. Students are reminded that the Institute promotes a business atmosphere where instructors and guests are professionals and potential employers. Students should always be cognizant of the first impression of proper dress and grooming. The Institution does not permit any clothing which has expressed or implied offensive symbols or language.

Students in Allied Health programs may be required to wear uniforms that present a professional appearance. A professional appearance puts patients at ease, inspires confidence, and makes a good impression. The Professional Appearance standards included, but not limited to, are:

	AREA	WHAT TO DO	REASONS
PERSONAL HYGIENE	Body	Bathe or shower daily Use deodorant	Removes bacteria that could be harmful to patients Helps keep you healthy Removes odors that can make others uncomfortable
	Teeth	Brush and floss teeth and use mouthwash	Helps keep you healthy Removes odors that can make others uncomfortable
GROOMING	Hair	Away from face and off the shoulders or collar Clean No extreme colors No ornaments or decorations	Keeps hair from blocking your vision or falling on patients Does not distract co-workers or patients
	Fingernails	Clean Clear nail polish Practical length (just over top of fingers)	Long fingernails can harbor bacteria Colored nail polish is inappropriate Long or sharp fingernails can injure patients
	Makeup	Minimal	Does not distract co-workers or patients
	Perfume and Aftershave	Very little, if any	Many people are allergic to these fragrances

	AREA	WHAT TO DO	REASONS
	Jewelry	As little as possible Rings: wedding ring only Wrists: simple wristwatch only Earrings: one pair only; lower lobe of ears; small studs—no dangle earrings	Can injure patients Can harbor bacteria
DRESS	Uniform	Clean and pressed Fits properly In good condition – no tears or stains Stain-resistant material Neat, with shirt tucked in Meets office dress code Worn with undergarments (should not be visible beneath uniform)	Dirty uniform can harbor bacteria Improper fit or an untucked shirt can interfere with your work
	Stockings	Clean No holes or tears White socks acceptable	Stockings or white socks help to present a professional image
	Shoes	Comfortable and supportive Fit properly Clean and polished Laces clean No open-toe shoes or sandals No canvas shoes	Supportive shoes keep your feet comfortable when standing and walking all day Exposed feet or toes can become injured or contaminated by splashes or spills and can spread bacteria Canvas shoes stain easily, can harbor bacteria, and are not supportive
OTHER	Posture	Maintain good posture	Good posture helps you avoid injury and strain
	Miscellaneous	No gum or candy No tobacco odors Cover visible tattoos	Anything that can distract patients or co-workers should be avoided

#### **TELEPHONES**

No student will be excused from class for a telephone call, except in case of an emergency. It is suggested that family and friends be informed of this rule. Cellular phones should be turned off or placed in silent mode during class. Coin-operated telephones, including telephones equipped for the hearing impaired, are available for student use on most campuses.

#### **CHILDREN ON CAMPUS**

Children are always welcome at special events of the University whenever accompanied by their parents. However, because an atmosphere conducive to learning must be maintained throughout, without disruption to the teaching and work environment, it is the policy of the University that children shall not be brought to classrooms or labs or left in lounges or offices.

#### **IMMUNIZATION**

It is recommended that all students under the age of 40 obtain MMR and meningitis vaccinations and that all medical/allied health students receive the full sequence of hepatitis B vaccinations. Medical/allied health students must show proof of a negative tuberculosis test or negative chest x-ray if the student has had a positive tuberculosis test in the past. Although not currently a requirement, students are encouraged to obtain these immunizations and/or tests prior to entering the University.

#### TRANSCRIPTS

All student academic records are retained, secured, and disposed of in accordance with local, state, and federal regulations. All student record information is maintained on the University computer system. Permanent records are kept in paper form, microfiche, or microfilm and backed up on disc and tape. The University maintains complete records for each student, including grades, attendance, prior education and training, and awards received.

Student academic transcripts, which include grades, are available upon written request by the student. Student records may be released only to the student or his/her designee as directed by the Family Educational Rights and Privacy Act of 1974.

Transcript and diploma requests must be made in writing to the Office of the Registrar. Official transcripts will be released to students who are current with their financial obligation (i.e., tuition and fees due to the University are paid current per the student's financial agreement). Diplomas will be released to students who are current with their financial obligation upon completion of their school program.

Students are provided an official transcript free of charge upon completing graduation requirements as stated in the previous paragraph. Normal processing time for transcript preparation is approximately three to five days.

#### FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT OF 1974

The Family Educational Rights and Privacy Act (FERPA) grants students certain rights with respect to their educational records. They are:

1. The right to inspect and review the student's education records within 45 days of the day the institution receives a request for access. Students should submit to the institution president written requests that identify the record(s) they wish to inspect. The institution official will make arrangements for access and notify the student of the time and place where the records may

be inspected. If the records are not maintained by the institution official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

- 2. The right to request the amendment of the student's educational records that the student believes are inaccurate or misleading. Students may ask the institution to amend a record that they believe is inaccurate or misleading. They should write the institution official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the institution decides not to amend the record as requested by the student, the institution will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
- 3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. Generally, schools must have written permission for the parents of minor students or eligible students in order to release any information from a student's educational record. However, FERPA allows schools to disclose those records, without consent, to the following parties or under the following conditions (34 CFR § 99.31):
  - School officials with legitimate educational interest;
  - Other schools to which a student is transferring;
  - Specified officials for audit or evaluation purposes;
  - Appropriate parties in connection with financial aid to a student;
  - Organizations conducting certain studies for or on behalf of the school;
  - Accrediting organizations;
  - To comply with a judicial order or lawfully issued subpoena;
  - Appropriate officials in cases of health and safety emergencies; and
  - State and local authorities, within a juvenile justice system, pursuant to specific State Law.

Schools may disclose, without consent, "directory" information such as a student's name, address, telephone number, date and place of birth, honors and awards, and dates of attendance. However, schools must tell parents and eligible students about directory information and allow parents and eligible students a reasonable amount of time to request that the school not disclose directory information about them. Schools must notify parents and eligible students annually of their rights under FERPA. The actual means of notification (special letter, inclusion in a PTA bulletin, student handbook, or newspaper article) is left to the discretion of each school.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the institution to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is the Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, DC 20202-5920.

Additional FERPA information is available from the institution's Business Office.

#### **Directory Information**

The institution has designated certain information contained in the education records of its students as Directory Information for purposes of FERPA. Directory Information at this institution includes:

- Name
- Address
- Telephone numbers
- Major and/or minor fields of study
- Diploma/Degree sought
- Expected date of program completion
- Expected date of graduation
- Diplomas/Degrees conferred
- Awards and Honors
- Dates of attendance
- Previous institutions attended
- Participation in officially recognized activities
- Photograph

Directory information may be disclosed by this institution for any purpose, without the prior consent of a student, unless the student has forbidden disclosure of such information in writing. Students wishing to prevent disclosure of the designated directory information must file written notification to this effect with the Registrar's Office. In the event that such written notification is not filed, the institution assumes that the student does not object to the release of the directory information.

Additional FERPA information is available from the institution's Business Office.

#### STUDENT GRIEVANCE PROCEDURES

Persons seeking to resolve classroom problems or complaints should first contact their instructor and if the problem persists, the Program Director. Unresolved complaints should be made to the Academic Dean. For other types of grievances, the student should contact the person in charge of the appropriate department. Students who feel that the complaint has not been adequately addressed should contact the Campus President. Written responses will be given to the student within seven working days. If the problem remains unresolved, students may contact the Student Help Line at (800) 874-0255 or by email at studentservices@cci.edu.

If a student feels that the University has not adequately addressed a complaint or concern, the student may consider contacting the Accrediting Council or the Commission for Independent Education:

Accrediting Council for Independent Colleges and Schools	Florida Commission for Independent Education
750 First Street, N.E., Suite 980	Department of Education
Washington, DC 20002-4241	325 West Gaines Street, Suite 1414
(202) 336-6780	Tallahassee, FL 32399
	(800) 224-6684

#### **REVISIONS TO PROGRAMS AND CHARGES**

The University reserves the right to modify its tuition and fees; to add to or withdraw members from its faculty and staff; to revise its academic programs; and to withdraw subjects, courses, and programs if registration falls below the required number. The total hours specified in each area of the degree or the program total is the minimum requirements for completion.

NOTE: Not all programs of study and/or courses are offered at all locations. Some programs may have limited enrollment.

#### INFORMATION TECHNOLOGY PROGRAM STUDENT DISCLOSURE

Due to the rapidly changing nature of the information technology industry, curriculum and program changes may occur from time to time during the course of a student's enrollment in the program. These changes reflect industry trends, and curriculum revisions will be made as expeditiously as possible.

Enrollment in an information technology program offers the knowledge and skills to enter the workforce in information technology or a related field. The program is an educational program, and upon successful completion, students will earn a credential. Program completion does not necessarily lead to or guarantee any form of vendor certification.

#### **CAMPUS SECURITY AND CRIME AWARENESS POLICIES**

As required by Public Law 101-542, as amended by Public Law 102-325, Title II, Crime Awareness and Campus Security Act of 1990, Section 294, Policy and Statistical Disclosures, Everest University has established policies regarding campus security.

The University strives to provide its students with a secure and safe environment. Classrooms and laboratories comply with the requirements of the various federal, state and local building codes, with the Board of Health and Fire Marshal regulations. Most campuses are equipped with alarm systems to prevent unauthorized entry. Facilities are opened each morning and closed each evening by administrative personnel.

The University encourages all students and employees to report criminal incidents or other emergencies, which occur on the campus directly to the Campus President, student advisor or instructor. It is important that school personnel are aware of any such problems on school campuses. The Campus President is responsible for investigating such reports and taking legal or other action deemed necessary by the situation. In extreme emergencies, the Campus President may immediately contact law enforcement officers or other agency personnel, such as paramedics. The University will work with local and state law enforcement personnel if such involvement is necessary. A copy of the student's report and any resultant police report will be maintained by the school for a minimum of three years after the incident.

Students are responsible for their own security and safety both on-campus and off-campus and must be considerate of the security and safety of others. The school has no responsibility or obligation for any personal belongings that are lost, stolen or damaged, whether on or off school premises or during any school activities.

On May 17, 1996, the President of the United States signed Megan's Law into federal law. As a result, local law enforcement agencies in all 50 states must notify schools, day care centers, and parents about the presence of dangerous offenders in their area. Students and staff are advised that the best source of information on the registered sex offenders in the community is the local sheriff's office or police department. The following link will provide you with a list of the most recent updated online information regarding registered sex offenders by state and county: <u>http://www.fbi.gov/hq/cid/cac/registry.htm</u>.

#### STATISTICAL INFORMATION

The school is required to report to students and employees the occurrence of various criminal offenses on an annual basis. Prior to October 1<sup>st</sup> of each year, the school will distribute a security report to students and staff containing the required statistical information on any campus crimes committed during the previous three years. A copy of this report is available to students, employees, and prospective students and employees upon request.

#### **DRUG AWARENESS**

The Drug-Free Schools and Communities Act of 1989, Public Law 101-226, requires institutions receiving financial assistance to implement and enforce drug prevention programs and policies. The information and referral line that directs callers to treatment centers in the local community is available through Student Services.

This institution prohibits the manufacture and unlawful possession, use or distribution of illicit drugs or alcohol by students on its property and at any University activity. If a student suspects someone to be under the influence of any drug or alcohol, they should immediately bring this concern to the attention of the Academic Dean or Campus President. Violation of the institution's anti-drug policy will result in appropriate disciplinary actions and may include expulsion of the student. The appropriate law enforcement authorities may also be notified.

In certain cases, students may be referred to counseling sources or substance abuse centers. If such a referral is made, continued enrollment or employment is subject to successful completion of any prescribed counseling or treatment program.

#### **CAMPUS COMPLETION RATE REPORTS**

Under the Student Right to Know Act (20 U.S.C. § 1092(a)), an institution is required to annually prepare completion or graduation rate data respecting the institution's first-time, full-time undergraduate students (34 CFR 668.45(a)(1)). Institutions are required to make this completion or graduation rate data readily available to students approximately 12 months after the 150% point for program completion or graduation for a particular cohort of students. This completion rate

report is available to students and prospective students upon request. Notice of the right to request this information is distributed annually.

#### FINANCIAL INFORMATION

#### STATEMENT OF FINANCIAL OBLIGATION

A student who has applied, is accepted, and has begun classes at the University assumes a definite financial obligation. Each student is legally responsible for his or her own educational expenses for the period of enrollment. A student who is enrolled and has made payments in full or completed other financial arrangements is entitled to all the privileges of attending classes, taking examinations, receiving grade reports, securing course credit, being graduated, and using the Career Services Office.

Any student who is delinquent in a financial obligation to the University, including damage to University property, library fines, and payment of tuition and fees, is subject to exclusion from any or all of the usual privileges of the University.

#### **PAYMENT POLICY**

The University requires that arrangements for payment of tuition for all courses be completed in full at the time of registration. Students may choose to pay tuition and fees by check, cash, and, at certain locations, by credit card.

The University offers the services of several private companies that offer alternative methods of paying for educational costs. The Student Finance Office personnel will assist students in budgeting a monthly payment plan using a wide range of financing alternatives. Students eligible for employer-sponsored tuition reimbursement benefits may request a deferred payment plan.

Further questions regarding these payment plans should be directed to a student accounts representative in the Student Accounts Office.

Students qualifying for state or federal financial assistance programs are allowed to use certain types of loans and/or grants to satisfy their financial obligations at the time of registration, even though the aid may not have been physically disbursed to them or posted to their accounts. Students seeking to meet their financial obligations in this manner must understand that it is their responsibility to provide all information and documentation necessary to obtain all forms of financial aid by the deadlines imposed by the University. Failure to do so may result in the student having to provide immediate payment of all applicable tuition and fees.

#### **TUITION AND FEES**

Tuition and fee information for each campus can be found in Appendix B: Tuition and Fees in this catalog

#### **Quarter-Based Programs**

The tuition and fees listed on the enrollment agreement will be charged for the student's first quarter (or mid-term quarter start) in attendance. Tuition and fees for subsequent quarters will be charged at the published rate in effect at the beginning of that quarter. These tuitions and fees are for on-ground students and blended on-ground/online students. Students who are completing their program of study completely on line will find tuition information in the "Online Program Tuition and Fees" section of this catalog.

The minimum full-time course load is 12 credits per quarter for undergraduate programs and 8 credits per quarter for graduate programs. Non-credit-bearing coursework will be charged at the same rate as credit-bearing coursework. Textbook costs per quarter are dependent upon the classes for which the student is registered. All credits for which a student is registered are charged at the current rates, including any courses being repeated. Arrangements for payment of tuition and book charges (if applicable) must be made in advance of the first day of classes for which the student is enrolled. The University charges the student's account for tuition at the beginning of each term for which the student is enrolled.

The student's total tuition for a given quarter is determined by multiplying the number of credit hours for which the student is registered at the end of the drop/add period by the then current tuition rate for that number of credit hours.

#### **Modular Programs**

Modular programs are offered throughout the year on a schedule independent of the standard quarter calendar. When a student begins enrollment in a modular program, the student is charged for tuition by academic year, instead of by quarter.

#### Textbooks

Textbooks and workbooks are sold through the bookstore in accordance with official University policies. At the time of issuance, textbooks become the responsibility of the students. The University is not responsible for replacing lost textbooks; however, students may purchase replacements from the campus bookstore. Students are responsible for the cost of their textbooks and the cost of any shipping charges.

In certain programs requiring specialized equipment, that equipment may be loaned to students for use during their enrollment. Students failing to return loaned equipment will be charged for its replacement. Official transcripts will be withheld from any student who has not returned University property or who has not made restitution.

#### **BUYER'S RIGHT TO CANCEL – CANCELLATION**

The applicant's signature on the Enrollment Agreement does not constitute admission into The University until the student has been accepted for admission by an official of The University. If the applicant is not accepted by The University, all monies paid will be refunded. The applicant may also request cancellation in writing after signing the agreement and receive a full refund of all monies paid, if the written request is made by midnight of the fourteenth (14<sup>th</sup>) day following the signing of the enrollment agreement or within the cancellation period specified in the state refund policy (if applicable), whichever is longer. Applicants who have not visited The University prior to enrollment will have the opportunity to withdraw without penalty within three business days following either the regularly scheduled orientation procedures or following a tour of The

University facilities and inspection of equipment where training and services are provided. The refund will be made within 30 days of receipt of such notice.

Cancellation will occur when the student gives a signed and dated written notice of cancellation to the Director of Admissions or President at the address shown on the front of this agreement. The written notice of cancellation need not take any particular form, and, however expressed, is effective if signed and dated by the student and if it states that the student no longer wishes to be bound by the Enrollment Agreement. A notice of cancellation may be given by mail, hand delivery or telegram. The notice of cancellation, if sent by mail, is effective when deposited in the mail, properly addressed, with postage prepaid.

#### **OFFICIAL WITHDRAWALS**

An official withdrawal must be documented in writing. An official withdrawal is considered to have occurred on the earlier of a) the date that the student provides to The University official notification of his or her intent to withdraw or b) the date that the student begins the withdrawal process. Students who must withdraw from The University are requested to notify the office of the Academic Dean/Director of Education by telephone, in person, or in writing, to provide official notification of their intent to withdraw. Students will be asked to provide the official date of withdrawal and the reason for withdrawal in writing at the time of official notification. When the student begins the process of withdrawal, the student or the office of the Academic Dean/Director of Education will complete the necessary form(s).

**Quarter-based Programs:** After the cancellation period, students in quarter-based programs who officially withdraw from The University prior to the end of The University's official add/drop period will be dropped from enrollment, and all monies paid will be refunded less the cost of any items purchased from the University bookstore.

**Modular Programs:** Although there is no add/drop period in modular programs, for students who officially withdraw within the first five class days (or for weekend classes within seven calendar days from the date they started class, including the day they started class), all monies paid will be refunded.

**Micro-Terms:** Refunds for students who withdraw from one of the 3 week micro-terms will receive refunds based on the following calculation.

- 1. Micro Terms have no add/drop period.
- 2. Students withdrawing before the first week or failing to attend the first week receive a 100% refund.
- 3. Students who attend the first week and then drop receive a 50% refund.
- Students who attend the second week and then drop receive no refund.

#### **REFUND POLICIES**

This University is certified by the U.S. Department of Education as an eligible participant in the Federal Student Financial Aid (SFA) programs established under the Higher Education Act of 1965 (HEA), as amended (Title IV programs).

When a student withdraws, the University must complete both a "Return to Title IV" and a tuition refund calculation which are described by the following:

- First, if the student is a recipient of Title IV funds, the University must determine, based on the student's withdrawal date, how much federal grant and loan assistance the student has earned under the Federal Return of Title IV Funds Policy. If the student (or parent, in the case of a PLUS Loan) is eligible for additional funds at the time of withdrawal, the student may receive additional SFA funds. If the student received more SFA funds than he or she earned under the Federal Return of Title IV Funds policy, The University, and in some cases the student, is required to return the unearned portion of the funds to the Federal program(s) or lender, as applicable. The federal Return to Title IV policy is explained below.
- Second, the University must determine how much of the tuition the student is responsible for using the applicable tuition refund policy. A tuition refund will be calculated based on the student's withdrawal date and the institutional refund policy along with any applicable state refund policies. If a state or accrediting agency refund policy applies, it will be included on this agreement.

The student will be given the benefit of the refund policy that results in the largest refund to the student.

Any unpaid balance of tuition and fees that remains after calculating the tuition refund and applying the amount of SFA funds earned based on the Federal Return of Title IV Funds policy must be paid by the student to the University. Monthly payment plans can be set up if the student cannot pay the entire balance in one lump sum.

The tuition refund calculation is based on the date of withdrawal. Any monies due the applicant or student will be refunded within 30 days of the date of cancellation, termination, or determination of withdrawal. If a student received a loan for tuition, a refund will be made to the lender to reduce the student's loan debt. If the amount of the tuition refund exceeds the unpaid balance of the loan, the balance of funds will then be applied in the following order:

- 1. To pay authorized charges at the institution.
- 2. With the student's permission, applied to reduce the student's Title IV loan debt not limited to the student's loan debt for the period of enrollment).
- 3. Returned to the student.

In cases of prolonged illness or accident, death in the family, or other circumstances that make it impractical to complete the program, the University will make a settlement that is reasonable and fair to both parties providing the student notifies the University in writing explaining the circumstances of the withdrawal.

#### Date of Withdrawal versus Date of Determination (DOD)

The date of withdrawal for students who officially withdraw is the same date as determined under official withdrawals above. If the student officially rescinds his or her official notification of withdrawal and then withdraws within the same quarter, the withdrawal date is the student's original withdrawal date from the previous official notification.

If the student ceases attendance without providing official notification due to circumstances beyond the student's control, the withdrawal date is as follows. If the withdrawal is due to circumstances beyond the student's control, the date of

withdrawal is the date the school determines is related to the circumstance beyond the student's control. Otherwise, the withdrawal date is the mid-point of the quarter or the last documented date of attendance at an academic activity, whichever is later.

For a student who officially withdraws, the DOD is the student's withdrawal date, or date of notification, whichever is later. For a student who withdraws without notification, the DOD is the date that the school becomes aware that the student has ceased attendance. For a student who withdraws after rescinding an official withdrawal, the DOD is the date the school becomes aware that the student did not, or will not, complete the period of enrollment.

For a student who withdraws without providing notification from a school that is not required to take attendance, the school must determine the withdrawal date no later than thirty (30) days after the end of the earlier of (1) the payment period or the period of enrollment (as applicable), (2) the academic year, or (3) the student's educational program.

#### Effect of Leaves of Absence on Refunds

If a student does not return from an approved leave of absence (where applicable) on the date indicated on the written request, the refund will be made within thirty (30) days from the date the student was scheduled to return (DOD), but the refund calculation will be based on the student's last date of attendance.

#### **Textbook and Equipment Return/Refund Policy**

If a student who was charged for and paid for textbooks, uniforms, or equipment, returns unmarked textbooks, unworn uniforms, or new equipment within 30 days following the date of the student's cancellation, termination, or withdrawal, the institution shall refund the charge for the textbooks, uniforms, or equipment paid by the student. Uniforms that have been worn cannot be returned because of health and sanitary reasons. If the student fails to return unmarked textbooks, unworn uniforms or new equipment within thirty (30) days following the date of the student's cancellation, termination, or withdrawal, the institution may retain the cost of the items that has been paid by the student. The student may then retain the equipment without further financial obligation to The School.

#### **Federal Return of Title IV Funds Policy**

The Financial Aid Office is required by federal statute to determine how much financial aid was earned by students who withdraw, drop out, are dismissed, or take a leave of absence prior to completing 60% of a payment period or term.

For a student who withdraws after the 60% point-in-time, there are no unearned funds. However, a school must still complete a Return calculation in order to determine whether the student is eligible for a post-withdrawal disbursement.

The calculation is based on the percentage of earned aid using the following Federal Return of Title IV funds formula: Percentage of payment period or term completed = the number of days completed up to the withdrawal date divided by

the total days in the payment period or term. (Any break of five days or more is not counted as part of the days in the term.) This percentage is also the percentage of earned aid.

Funds are returned to the appropriate federal program based on the percentage of unearned aid using the following formula:

Aid to be returned = (100% of the aid that could be disbursed minus the percentage of earned aid) multiplied by the total amount of aid that could have been disbursed during the payment period or term.

If a student earned less aid than was disbursed, the institution would be required to return a portion of the funds and the student would be required to return a portion of the funds. Keep in mind that when Title IV funds are returned, the student borrower may owe a debit balance to the institution.

If a student earned more aid than was disbursed to him/her, the institution would owe the student a post-withdrawal disbursement which must be paid within 180 days of the student's withdrawal.

The University must return the amount of Title IV funds for which it is responsible no later than 45 days after the date of the determination of the date of the student's withdrawal unless state policy indicates a shorter time frame (see state refund policy, if applicable).

Refunds are allocated in the following order:

- 1. Unsubsidized Federal Stafford Loans
- 2. Subsidized Federal Stafford Loans
- 3. Unsubsidized Direct Stafford Loans (other than PLUS loans)
- 4. Subsidized Direct Stafford Loans
- 5. Federal Perkins Loans
- 6. Federal Parent (PLUS) Loans
- 7. Direct PLUS Loans
- 8. Federal Pell Grants for which a Return of Funds is required
- 9. Academic Competetiveness Grants for which a Return of Funds is required
- 10. National Smart Grants for which a return of funds is required
- 11. Federal Supplemental Educational Opportunity Grants (FSEOG) for which a return of funds is required

#### **Return of Unearned SFA Program Funds**

The School must return the lesser of:

- The amount of SFA program funds that the student did not earn; or
- The amount of institutional costs that the student incurred for the payment period or period of enrollment multiplied by the percentage of funds that were not earned.

The student (or parent, if a Federal PLUS loan) must return or repay, as appropriate, the amount by which the original overpayment amount exceeds 50% of the total grant funds received by the student for the payment period or period of enrollment, if the grant overpayment is greater than \$50.

(Note: If the student cannot repay the grant overpayment in full, the student must make satisfactory arrangements with the U.S. Department of Education to repay any outstanding grant balances. The Student Finance Office will be available to

advise the student in the event that a student repayment obligation exists. The individual will be ineligible to receive additional student financial assistance in the future if the financial obligation(s) are not satisfied.)

#### Institutional Refund Calculation for First-Time Students

The School will perform a pro-rata refund calculation for first-time students who terminate their training after the Add/Drop period but before completing more than 60 percent of the period of enrollment. Under a pro-rata refund calculation, The School is entitled to retain only the percentage of charges (tuition, fees, room, board, etc.) proportional to the period of enrollment completed by the student. The period of enrollment completed by the student is calculated by dividing the total number of weeks in the period of enrollment into the number of weeks completed in that period (as of the withdrawal date). The percentage of weeks attended is rounded up to the nearest 10 percent and multiplied by the school charges for the period of enrollment. A reasonable administrative fee not to exceed \$100 or 5% of the total institutional charges, whichever is less, will be excluded from total charges used to calculate the pro-rata refund. The School may retain the entire contract price for the period of enrollment--including tuition, fees, and other charges--if the student terminates the training after completing more than 60 percent of the period of enrollment. Students who terminate their training during the Institutional Add/Drop Period will receive a 100% refund.

Modular Students Please Note: Since students enrolled in modular programs are charged tuition by academic year, the charges earned and amount due under the institutional refund policy is based on the charges for the portion of the academic year completed, rather than on the portion of the quarter completed.

#### Institutional Refund Policy for Continuing Students in Quarter-based Programs

The refund policy is used to determine how much of the tuition and fees the institution has earned after a student withdraws. The institution will make refund determinations for all tuition and fees in accordance with the following schedule:

For Withdrawal During	Refunded to the Student	Amount Retained by the School
Institutional Drop/Add Period	100%	0
After Institutional Drop/Add Period up to and including 25% of the	25%	75%
Quarter		
After 25% of the Quarter	0	100%

#### STUDENTS CALLED TO ACTIVE MILITARY DUTY

#### **Newly Admitted Students**

Students who are newly admitted to the school and are called to active military duty prior to the first day of class in their first term/module shall receive a full refund of all tuition and fees paid. Textbook and equipment charges shall be refunded to the student upon return of the textbooks/unused equipment to the school.

#### **Continuing Students**

Continuing students called to active military duty are entitled to the following:

• If tuition and fees are collected in advance of the withdrawal, a strict pro rata refund of any tuition, fees, or other charges paid by the student for the program and a cancellation of any unpaid tuition, fees, or other charges owed by the student for the program the student does not complete following withdrawal for active military service ("WZ")

Note: The pro rata refund will be calculated as follows:

The total number of scheduled classroom hours up to and including the student's LDA divided by the total number of classroom hours in the program.

#### **Continuing Modular Diploma Students**

Continuing modular diploma students who have completed 50% or less of their program are entitled to a full refund of tuition, fees, and other charges paid. Such students who have completed more than 50% of their program are entitled to a strict pro rata refund.

#### STUDENT FINANCING OPTIONS

The school offers a variety of student financing options to help students finance their educational costs. Detailed information regarding financing options available and the Financial Aid process can be obtained from the school's Student Financial Planning Brochure. Information regarding other sources of financial assistance such as benefits available through the Bureau of Indian Affairs, Division of Vocational Rehabilitation, Veterans Assistance and State Programs can be obtained through those agencies.

#### FINANCIAL ASSISTANCE

Financial assistance (aid) in the form of grants and loans is available to eligible applicants who have the ability and desire to benefit from the specialized program/training offered at the school.

#### STUDENT ELIGIBILITY

To receive financial assistance you must:

- 1. usually, have financial need;
- 2. be a U.S. citizen or eligible noncitizen;
- 3. have a social security number;
- 4. if male, be registered with the Selective Service;
- 5. if currently attending school, be making satisfactory academic progress;

- 6. be enrolled as a regular student in any of the school's eligible programs;
- 7. not be in default on any federally-guaranteed loan.

#### FEDERAL FINANCIAL AID PROGRAMS

The following is a description of the Federal Financial Aid Programs available at the school. Additional information regarding these programs, eligibility requirements, the financial aid process and disbursement of aid can be obtained through the school's Student Financial Planning Brochure, the school's Student Finance Office, and the U.S. Department of Education's Guide to Federal Student Aid, which provides a detailed description of these programs. The guide is available online at:

http://studentaid.ed.gov/students/publications/student\_guide/index.html

#### **Federal Pell Grant**

The Federal Pell Grant Program is the largest federal student aid program. For many students, these grants provide a foundation of financial assistance that may be supplemented by other resources. Student eligibility for the Federal Pell Grant Program is determined by a standard formula that is revised and approved every year by the federal government. Unlike loans, grants do not have to be repaid.

#### Federal Supplemental Educational Opportunity Grant (FSEOG)

Undergraduate students who are unable to continue their education without additional assistance may qualify for this program. Grants are based on funds available and do not have to be repaid. Need is determined by the financial resources of the student and parents, and the cost of attending school.

#### **Federal Perkins Loan**

This low-interest loan is available to qualified students who need financial assistance to pay educational expenses. Repayment of the loan begins nine months after the student graduates, leaves school or drops below half-time status.

#### Federal Work Study (FWS)

The need-based program provides part-time employment to students who need income to help meet their costs for postsecondary education. Funds under this program are limited.

#### Federal Stafford Loans (FSL)

Formerly the Guaranteed Student Loan (GSL), this low-interest loan is available to qualified students through the lending institutions or agencies participating in the program and is guaranteed by the U.S. government. Repayment begins six months after the student graduates, leaves school or drops below half-time status. There are two types of Federal Stafford Loans available: Subsidized Loans and Unsubsidized Loans.

Federal Subsidized Stafford Loan is a low-interest loan issued by a lender (bank, credit union, or savings and loan association). Student eligibility for a Subsidized Stafford Loan is based on "financial need." The Federal government pays the interest while the student is in school at least half time, during the grace period and during periods of deferment.

Federal Unsubsidized Stafford Loan is a low-interest loan issued by a lender (bank, credit union, or savings and loan association). Students do not have to demonstrate "need" in order to obtain this loan. Interest accrues on this loan while a student attends school.

#### Federal Parent Loan for Undergraduate Students (PLUS)

The Federal Parent Loan for Undergraduate Students (PLUS) provides additional funds to help parents pay for educational expenses. Parents may borrower up to the cost of their dependent student's education minus any other aid the student is eligible for. The interest rate fixed and interest accrues at the time of disbursement. Repayment typically begins within 60 days after the loan has been fully disbursed.

Note: Federal student loans are insured by state and private non-profit guarantee agencies.

Loan origination fees may be deducted from the loan by the institution making the loan as set forth by federal regulations.

#### ALTERNATIVE FINANCING OPTIONS

If your primary financing option does not fully cover your program costs, alternative financing options can help bridge that financial gap. Private loan programs are convenient, affordable and easy to use.

- There are alternative loans provided by private lenders.
- The interest rate is variable and the loan approved and origination fees are based on credit.
- Repayment begins six months after graduation, leaving school or dropping below half-time status.
- Student may apply on their own or with a co-borrower.

Please refer to Student Financial Planning brochure and for further information or please see one of the Student Finance Planners.

#### **GRANTS AND SCHOLARSHIPS**

#### Florida Student Assistance Grant (FSAG)

The Florida Student Assistance Grant (FSAG) is available only to Florida residents demonstrating financial need and meeting certain academic requirements. The FSAG has an early application deadline and is not readily available to all. Students are advised when applications may be submitted. It is not available to any student who has received a Bachelor's degree.

#### Florida Bright Futures Scholarship Program

The Florida Bright Futures Scholarship Program establishes a lottery-funded scholarship to reward any Florida high school graduate who merits recognition of high academic achievement and who enrolls in an eligible Florida public or private

post-secondary educational institution within three years of high school graduation. The program affects high school graduates as well as current award recipients who are now attending a post-secondary institution in Florida.

The Bright Futures Scholarship Program is the umbrella program for all state-funded scholarships based on academic achievement in high school. This program restructures the two existing programs--the Florida Undergraduate Scholars' Program (now the Florida Academic Scholars Award) and the Gold Seal Vocational Endorsement Scholarship Program (now the Florida Gold Seal Vocational Scholars Award)--and adds a third award--the Florida Merit Scholars Award. For graduates, the law does not change eligibility criteria currently in place for the Undergraduate Scholars' Program or the Gold Seal Vocational Endorsement Scholarship Program.

Eligibility criteria for the scholarship awards vary based on cumulative high school grade point average and SAT or ACT scores and are available at all local high schools or through the University Financial Aid Office. Applications are distributed to potential applicants by high school guidance counselors or by contacting the Technical Assistance Unit of the Florida Department of Education at 1-888-827-2004.

The award levels for the three types of scholarships are as follows:

- Florida Academic Scholars Award an award equal to the amount required to pay tuition, fees, and \$600 annually (prorated if part time) for college-related expenses. A student who is enrolled in a non-public post-secondary institution is eligible for an award equal to the amount that would be required to pay for the average tuition and fees of a public post-secondary education institution at the comparable level, plus the annual \$600. The award may cover up to 45 semester or 67 quarter credit hours per academic year. A 3.0 cumulative GPA is required for renewal of the award each year. If a student receiving the award fails to achieve a 3.0 GPA in college but makes a 2.75 or higher, he or she will automatically be transferred to the Florida Merit Scholars Award level for the remainder of the college career.
- Florida Merit Scholars Award an award equal to the amount required to pay 75% of tuition and fees for up to 45 semester or 67 quarter credit hours per year. A student enrolled in a non-public post-secondary education institution is eligible for an award equal to the amount that would be required to pay 75% of the average tuition and fees of a public post-secondary education institution at the comparable level. A 2.75 cumulative GPA is required for renewal of the award each year.
- Florida Gold Seal Vocational Scholars Award an award equal to the amount required to pay 75% of tuition and fees. A student who is enrolled in a non-public post-secondary institution is eligible for an award equal to the amount that would be required to pay 75% of the average tuition and fees of a public post-secondary education institution at the comparable level. Awards are for up to 45 semester or 67 quarter credit hours per academic year. This is a two-year scholarship. A student may use the scholarship for up to 90 semester or 135 quarter credit hours. However, a recipient may become eligible to continue to a four-year degree by transferring to a Merit Scholars award upon being accepted into an upper division program and having maintained a 2.75 or higher GPA. A Gold Seal Vocational Scholar may not transfer to an Academic Scholars award. A 2.75 cumulative GPA is also required for renewal of the Gold Seal award each year.

#### **Dream Award Program and Scholarships**

Graduates of any Corinthian Colleges, Inc. (CCi) school may be nominated for the CCi-sponsored Dream Award program. This award is given to recognize a graduate, for whom the decision to attend a CCi school was a turning point in the graduate's life.

The Dream Award program is divided into two tiers – the **Campus Dream Award** which is managed by each campus and recognizes one graduate from each campus; and the **Corinthian Dream Award**, which is selected by Corinthian's executive team and recognizes one "ultimate" winner from the pool of Campus Dream Award winners. Eligible graduates must have graduated from a Corinthian Colleges, Inc. school within the three years prior to the nomination period and be nominated by their campus. Dream Award program scholarships will be awarded annually. They are not transferable nor can they be exchanged for cash. Nominations and awards are determined by an independent panel. Scholarship awards must be used within two years of the award.

**Campus Dream Award:** Each campus will nominate one recent graduate from the campus to represent the campus in the award competition. Nominations are accepted from April 1 to August 1 each year. Selection of the nominee is based on a review of recent graduates within the past three years by the Campus Selection Committee. The selected nominee should be a graduate whose life story could have gone in any direction, but whose decision to attend a CCi school was a turning point for them. The selected nominee should be an inspiration and motivation to other students. Each Campus Dream Award recipient will receive:

- 1. A scholarship worth \$2,500 that may be used at any CCi campus for training that is more advanced than the one from which the nominee has graduated, and
- 2. A trophy.

**Corinthian Dream Award:** Following the close of the nomination period for the Campus Dream Award, the Corinthian Dream Award recipient will be selected from the campus nominees by the Corinthian Colleges Selection Committee, composed of the Executive Management Team of CCi. The award will be given to the nominee with the most compelling story and highest level of achievement. The award will be announced to the winner by the end of August and will be presented at the October CCi Presidents Meeting. The award will include:

- 1. A full scholarship that may be used at any CCi campus for training that is more advanced than the program from which the recipient has graduated,
- 2. An all expenses paid trip to the October Presidents Meeting,
- 3. A trophy,
- 4. A letter of recognition from the CCi CEO and COO, and
- 5. A nomination to the Career College Association (CCA) Great Award.

Additional information regarding this award and scholarship program may be requested from the Campus President.

#### **Project Working Mom Scholarship**

Scholarship recipients must maintain satisfactory academic progress at all times while they are participating in the Project Working Mom scholarship program.

Benefits shall not be duplicated for classes that are repeated. Benefits will not exceed 96 attempted quarter credit hours. All classed failed or withdrawn from after drop/ add are considered an attempted hours.

Fees for labs, exemption exams, experiential learning credits, graduation and any other fees are not covered by the scholarship.

Should a scholarship recipient demonstrate unprofessional conduct while taking a class under the provisions of this program, the financial responsibility for the courses taken at the time becomes the financial responsibility of the scholarship recipient.

Continued attendance in the scholarship program is dependent upon successfully meeting all academic, attendance and all other requirements of the institution.

#### Two Plus Two Scholarship (Jacksonville Campus Only)

- Award: Recipients may receive up to \$600 per academic award year (3 quarters) up to a maximum of \$1,200 for two years.
- Eligibility: Applicants must be graduates of a Florida community college with an Associate in Science in a program that articulates with Everest University-Jacksonville baccalaureate degrees: Business, Computer Information Science, Accounting, and Criminal Justice. Applicants must have a cumulative grade point average of 2.5 or higher and must be recommended by their Program Director or faculty of their degree program.

Applicants must be citizens of the United States of America and must complete an application, which includes an essay on why they deserve this scholarship. The application must be received by Everest University-Jacksonville no later than 30 days prior to the start of any term. Official transcripts must be received no less than 20 days prior to start of any term. Applicants must agree to enroll for no less than 12 credit hours during a 12-week term and no less than 6 credit hours during a 6-week term. Recipients must maintain a 2.5 grade point average while enrolled at Everest University-Jacksonville. Representatives of Everest University-Jacksonville and Florida Community College at Jacksonville will review applications. For more information, contact the Director of Admissions, Everest University-Jacksonville.

#### **High School Scholarships**

Everest University will make a total of 216 high school scholarships available to graduating seniors. Scholarships will be awarded annually. They are not transferable nor can they be exchanged for cash. Awards are determined by an independent panel. The application deadline for high school scholarships is no later than 30 days prior to the day that the student plans to commence his/her education. In addition, the student must apply within six months of graduation from high school to be eligible. Please review the current Everest University Scholarship Guidelines for further details (including application and testing deadlines) and conditions of this program. Scholarships will be awarded in the following circumstances:

#### Florida High School Principal Scholarships

Everest University recognizes that high school principals are better qualified to recommend those seniors whose aspirations and abilities qualify them for scholarship funds. Each of the campus locations of Everest University will award three High School Principal Scholarships of \$2000 each. The principals of participating Florida high schools are invited to recommend a senior whose academic achievements and personal career goals have been recognized and would be enhanced by scholarship assistance. Recommended seniors must complete application procedures, provide letters of recommendation, and take the CPAt, which measures competency in reading, language, and mathematics. Those who receive the top scores at each Everest University campus will be invited to submit an essay.

#### **Other High School Scholarships**

Each of the campus locations of Everest University will award 24 high school scholarships to graduating seniors, as follows:

- Eight scholarships valued at \$2000 each, and
- Sixteen scholarships valued at \$500 each.

High school seniors may obtain scholarship applications and guidelines from a participating high school guidance department, or they may call Everest University for an application. Students must fill out the application completely and provide acceptable letters of recommendation. All applicants must take the CPAt, which measures competency in reading, language, and mathematics. Those who receive the top scores will be invited to submit an essay.

If a recipient chooses not to accept the award, the next qualified student, as determined by an independent panel, will receive the scholarship.

#### **Everest University Annual Scholarships**

Each University campus annually awards honor scholarships at the end of each fall term. These honor scholarships consist of a \$750 and a \$500 tuition credit for two sophomores, two juniors, and two seniors (annual scholarship awards total \$1,250 per category). To be eligible for one of the scholarships, the student must:

- 1. Be a full-time student (minimum 36.0 credit hours per academic year),
- 2. Have earned a cumulative grade point average of 3.5 or better at the end of the summer term,
- 3. Have completed an application for scholarship,
- 4. Have been in attendance at the awarding campus for a minimum of two successive terms,
- 5. Provide two letters of recommendation from faculty (one of the letters must be from a faculty member within the program of study),
- 6. Write an essay of 100 words minimum on why the applicant is deserving of the scholarship, and
- 7. Be enrolled in the subsequent winter quarter to qualify for the scholarship to be awarded.

Applications are available in the Dean's Office. Application deadline is December 15.

#### Sophomore Honor Scholarship

(Must have completed 48 credit hours)

- 1. A tuition credit of \$750 is awarded to the highest qualified full-time sophomore student who has been selected based on meeting the described eligibility requirements during the freshman year at the University.
- 2. A tuition credit of \$500 is awarded to the second highest qualified full-time sophomore student who has been selected based on meeting the described eligibility requirements during the freshman year at the University.

#### Junior Honor Scholarship

(Must have completed 96 credit hours)

- 1. A tuition credit of \$750 is awarded to the highest qualified full-time junior student who has been selected based on meeting the described eligibility requirements during the sophomore year at the University.
- 2. A tuition credit of \$500 is awarded to the second highest qualified full-time junior student who has been selected based on meeting the described eligibility requirements during the sophomore year at the University.

#### Senior Honor Scholarship

(Must have completed 144 credit hours)

- 1. A tuition credit of \$750 is awarded to the highest qualified full-time senior student who has been selected based on meeting the described eligibility requirements during the junior year at the University.
- 2. A tuition credit of \$500 is awarded to the second highest qualified full-time senior student who has been selected based on meeting the described eligibility requirements during the junior year at the University.

#### Florida Association of Proprietary Schools and Colleges (FAPSC) Scholarship

Scholarships are available for graduating high school seniors and GED recipients. Applicants must complete an application, maintain a cumulative GPA of 2.0 or higher, and submit a 300-word essay answering three specific question pertaining to the career field and institution they have chosen. Applicants may apply for no more than three scholarships at any single institution. Awarding of the scholarships is done through an evaluation committee assembled by FAPSC. Please contact the campus Financial Aid Office for further details.

#### Active Duty Military Scholarships (Everest University Online Only)

Active duty military personnel serving in components of the Armed Forces, which include the US Army, Navy, Marines, Air Force, Active Guard/Reserve and US Coast Guard, and their dependent spouse and children are eligible to apply for an Active Duty Military scholarship. The scholarship includes a quarterly tuition stipend for active duty personnel and their dependent spouse and children. Scholarship funds are set at the beginning of each fiscal year and are awarded on a continuing basis until funds for the fiscal year are depleted. Scholarship awards may not exceed 15% of tuition charged for the term. Applications may be requested from the Admissions Office.

Eligibility: Applicants must meet entrance requirements for program of study. Applicants must be on active duty (or be a spouse or dependent child) and provide proof by submitting a copy of official military documentation prior to the start of the term. The scholarship may be renewed from quarter to quarter so long as the recipient maintains active duty military status, remains enrolled, maintains satisfactory academic progress, and maintains a 2.50 cumulative grade point average.

#### **Continuing Education Scholarships (Everest University Online only)**

Applicants must be graduates of a Corinthian Colleges Inc. School System (other than employees) with a degree that matriculate into a Everest University Online undergraduate or graduate level program. Applicants must have achieved a cumulative grade point average of 2.5 or higher, meet eligibility requirements for program of study, submit application for scholarship which may be obtained from the admissions office; and provide proof of degree completion (official transcripts, diploma, letter from registrar) prior to the start of the term. The scholarship will include a quarterly tuition stipend from funds set at the beginning of each fiscal year. Scholarship funds are awarded on a continuing basis until funds for the fiscal year are depleted. Scholarship awards may not exceed 15% of the tuition charged for the term. The scholarship may be renewed and awarded from quarter to quarter so long as the recipient remains enrolled, maintains satisfactory academic progress, and maintains a 2.50 cumulative grade point average. Additionally, dependent spouse, children, and siblings of graduates from a Corinthian Colleges, Inc. School System (other than employees) may also apply for scholarship funds not to exceed 15% of the term, providing entrance and eligibility requirements are met for program of study. Proof of dependent status required prior to the initial term; must meet provisions above for renewal award of quarterly scholarship.

### Veteran's Assistance Programs

#### Montgomery GI Bill

If you are a veteran, service person, reservist or otherwise eligible, you may qualify for various veteran educational benefit programs. Eligibility criteria for military educational assistance and benefits available vary by state and school, so check with the Veteran's Administration (VA) to see whether you qualify.

If you are receiving VA benefits, you are still required to select one of the school's primary financing options (e.g. Financial Aid, Cash) to cover your educational costs and related expenses. All payments must be made in accordance with the school's financial policies and procedures.

The Veterans Administration offers several education assistance programs to veterans or service persons on active duty:

- Montgomery G.I. Bill
- Montgomery G.I. Bill Selected Reserve (MGIB-SR)
- Veteran's Educational Assistance Program (VEAP)
- Survivors' and Dependents" Educational Assistance Program (DEA)
- Vocational Rehabilitation (Chapter 31)

If you have questions about these benefits, visit <u>www.gibill.va.gov</u> or call 1-888-GIBILL-1 (1-888-442-45551) **War Orphan Educational Assistance** 

This program provides financial assistance for the education of sons and daughters of veterans who died or were permanently and totally disabled in or as a result of service in the Armed Forces of the United States. Benefits are similar to those of the G.I. Bill. Widows and wives of disabled veterans may also be eligible for this program. The University will assist in preparing and submitting applications.

#### Vocational Rehabilitation for Veterans

Veterans disabled during war time and under certain peace time service may be eligible for educational benefits and training under this program. Applications must be filed directly with the Veterans Administration.

### **STUDENT SERVICES**

#### STUDENT ADVISING

Advising encompasses several important areas of student life. Academic advising is coordinated by the Academic Dean and includes satisfactory academic progress, attendance, and personal matters. The Registrar and Academic Program Directors serve as advisors and assist students in course selection and registration, dropping and adding courses, change of major, and meeting graduation requirements.

The Career Services Office provides a wide range of services to students to assist them in preparing for their career choices. Students can schedule individual appointments with the Director of Career Services and are encouraged to avail themselves of the self-assessment process and job search.

#### PLACEMENT ASSISTANCE

The University maintains an active Career Services Office to assist graduates in locating entry-level, educationally related career opportunities. The Career Services Office works directly with business, industry, and advisory board members to assist all students with access to the marketplace. This placement assistance is accomplished not only by presentation of graduates as potential career professionals to industry but also through aiding in the graduates' development of a positive self-image and in assessing competencies, strengths, and career expectations.

Although the University does not, in any way, guarantee employment, it is the goal of the Career Services Office to help all students realize a high degree of personal and professional development and successful employment.

Specific information on job opportunities and basic criteria applicable to all students and graduates utilizing placement services is available in the Career Services Offices.

#### ORIENTATION

New students participate in an orientation program prior to beginning classes. This program is designed to acquaint students with the policies of the University and introduce them to those staff and faculty members who will play an important part in the students' academic progress toward a degree goal.

#### **HEALTH SERVICES**

The University does not provide health services.

#### HOUSING

The University does not provide on-campus housing; however, it does assist students in locating suitable housing off campus. For a list of available housing, students should contact the Admissions Office.

#### **Dental Assisting**

*Diploma Program* Jacksonville and Largo campuses 8 months – 720 hours – 47 credit units

 $V_1$ Dental assistants have become indispensable to the dental care field, and dentists have become more reliant upon the dental assistant to perform a wide range of patient procedures. And, as the need for their services continue to grow, the role and responsibilities of the dental assistant also continue to expand.

The goal of the Dental Assisting Program is to provide graduates with the skills and knowledge that will enable them to qualify for entry-level positions as dental assistants. Since they are trained in clinical and radiographic procedures, their services are also sought by general dentists and dental offices and facilities specializing in pediatrics, orthodontics, endodontics and other specialties, dental schools, dental supply manufacturers, hospital dental departments, dental laboratories, and insurance companies

The objective of the Dental Assistant program is to provide the student with the appropriate didactic theory and hands-on skills required and necessary to prepare them for entry-level positions as dental assistants in today's modern health and dental care offices, dental clinics, and facilities. Students will study diagnostic and procedural terminology as it relates to the accurate completion of dental examinations, procedures, and daily tasks.

The combination of introduced skills taught in this program will prepare students for the ever-changing field of dentistry and orthodontics. Students study dental radiography, dental sciences, operatory dentistry, laboratory procedures, dental anatomy and orthodontics, and dental health.

Completion of the Dental Assisting Program, including the classroom training and externship, is acknowledged by the awarding of a diploma.

Module	Module Title	Total Contact Hours	Quarter Credit Units
MODULE A	Dental Office Emergencies and Compliance	80	6.0
MODULE B	Dental Radiography	80	6.0
MODULE C	Dental Specialties	80	6.0
MODULE D	Operatory Dentistry	80	6.0
MODULE E	Laboratory Procedures	80	6.0
MODULE F	Dental Anatomy and Orthodontics	80	6.0
MODULE G	Dental Health	80	6.0
MODULE X	Dental Assisting Externship	160	5.0
	Program Totals:	720	47.0

#### **Major Equipment:**

Amalgamators	Model Vibrators	Autoclave	Oral Evacuation Equipment
Automatic and Manual	Oxygen Tank	Dental Unit and Chairs	Personal Computers
Processing Equipment			
DXTTR and Typodont	Ultrasonic Units	Handpieces	X-Ray Units
Manikins			
Model Trimmers			

#### Module A - Dental Office Emergencies and Compliance

6.0 Quarter Credit Hours

In this module, students are introduced to Occupational Safety and Health Administration (OSHA) Standards for infection control and hazard communication. Topics include microbiology, contagious diseases concerning the dental team, universal precautions, barrier techniques and handling hazardous chemicals. Students practice step-by-step instrument decontamination using approved sterilization agents and methods. Students learn operatory disinfection using approved agents and methods. Methods for taking and recording vital signs and blood pressure are introduced. Students also learn about CPR for the Healthcare Provider and how to manage emergencies that may occur in the dental office. Related dental terminology is studied. Basic concepts of psychology and communication are discussed with emphasis on helping dental patients overcome anxieties related to dental treatment. Special considerations for the medically and physically compromised patients are presented. Career development skills are also taught. Prerequisite: None. Lecture Hours: 40.0 Lab Hours: 40.0 Other Hours: 0.0.

#### Module B – Dental Radiography

6.0 Quarter Credit Hours

Module B introduces students to the basic anatomy of the head and teeth in order to familiarize students with the anatomical structures involved in dental radiographs. Radiation protection and the hazards of X-ray radiation are studied. Emphasis is placed on maintaining radiation safety while obtaining the best possible diagnostic quality on dental radiographs. Students are also introduced to digital radiography. Theory, laboratory skills and clinical practice meet state guidelines for a Radiation Safety Certificate and comply with federal regulations for certifying radiographic operators. Students practice techniques of film exposure and mounting in equipped dental operatories with industry-approved structural and monitoring devices. Exposure techniques include bitewing, bisecting and parallel techniques and are performed on a patient simulator manikin. Upon successful completion of practice, students produce radiographs on site for clinical patients as prescribed by a licensed dentist. Students process film using a fully equipped darkroom or automatic processor. Students are also required to mount processed radiographs and to evaluate the diagnostic quality according to established criteria. Students retake non-diagnostic films. Professional responsibilities regarding the state radiation safety certificate are introduced as well as quality assurance and infection control. Related dental terminology is also taught. Prerequisite: None. Lecture Hours: 40.0 Lab Hours: 40.0 Other Hours: 0.0.

#### Module C - Dental Specialties

#### 6.0 Ouarter Credit Hours

In this module, students study cranial anatomy as it relates to anesthesia administration and pain control. Methods for taking and recording vital signs and blood pressure are introduced. Skills performed by the dental assistant in the specialty areas of Oral Surgery and Endodontics (root canals) are presented, including procedures for the administration of topical and local anesthetics. Students practice acquired skills on training manikins (Typodonts), placing instruments and materials. Children's dentistry (Pediatric Dentistry) as a specialty is presented. Related dental terminology is studied. Prerequisite: None. Lecture Hours: 40.0 Lab Hours: 40.0 Other Hours: 0.0.

#### Module D – Operatory Dentistry

#### 6.0 Quarter Credit Hours

This module introduces students to chair-side assisting duties and techniques practiced in general dentistry with emphasis on sitdown, four-handed dentistry. Students learn how to handle and transfer dental instruments and place materials on models. Properties and manipulation of common dental materials, including amalgam, composites, glass ionomers and sealants, are presented. Students practice required RDA procedures such as placement, wedging and removal of matrices, placement of cement bases and liners, and placement of temporary sedative dressing on Typodont manikins. Basic concepts of psychology and communication are discussed with emphasis on helping dental patients overcome anxieties related to dental treatment. Students also study related dental terminology. Prerequisite: None. Lecture Hours: 40.0 Lab Hours: 40.0 Other Hours: 0.0.

#### Module E - Laboratory Procedures

In this module, students receive hands-on training in taking impressions and constructing study and master casts. Students are exposed to a variety of impression and gypsum materials and procedures for their use. The casts are then used to practice dental procedures such as the fabrication of custom trays and temporary crowns. Prosthodontics as a specialty is presented with instruction in crown and bridge procedures and full and partial dentures. Students are introduced to dental implants and the various types of mouth guards such as night-guards, sports guards and bleaching trays. Laboratory safety and infection control are presented. Related dental terminology is studied. Prerequisite: None. Lecture Hours: 40.0 Lab Hours: 40.0 Other Hours: 0.0.

#### Module F - Dental Anatomy and Orthodontics

6.0 Quarter Credit Hours This module focuses on orthodontics as a specialty. Students receive hands-on training in practicing orthodontic measurements, placement of separators, sizing bands and placement and ligation of arch wires. Theory on orthodontic assistant duties, office routine and malocclusion classifications are presented. In addition, students learn to chart the oral conditions of patients in compliance with state guidelines for mouth mirror inspection. Introduction of tooth morphology, oral structures, and oral pathology are presented. Related spelling and terminology are studied throughout the module. Prerequisite: None. Lecture Hours: 40.0 Lab Hours: 40.0 Other Hours: 0.0.

#### Module G - Dental Health

6.0 Quarter Credit Hours Specialty areas of oral pathology and periodontics are studied. Placement of periodontal surgical dressings is demonstrated and practiced on manikins according to RDA criteria. Preventive dentistry is emphasized. Related areas of nutrition and fluorides are presented. Students also study related dental terminology. Coronal polish theory and procedures are taught and practiced on manikins and then on clinical patients under the direct supervision of a licensed dentist. Completion of coronal polish requirements will permit the assistant to perform the procedure after obtaining the Registered Dental Assistant license (California programs only). Prerequisite: None. Lecture Hours: 40.0 Lab Hours: 40.0 Other Hours: 0.0.

#### Module X – Dental Assisting Externship

This module is 160 hours of unpaid, supervised, practical in-service in a dental office or clinic in which the student practices direct application of all clinical functions of dental assisting, Prerequisite: Completion of Modules A-G. Lecture Hours: 0.0 Lab Hours: 0.0 Other Hours: 160.0.

# 5.0 Quarter Credit Hours

#### 6.0 Quarter Credit Hours

#### **ON-GROUND UNDERGRADUATE PROGRAMS**

Electrician Diploma Proaram Orange Park and Tampa campuses 9 months – 720 hours – 59 credit units

 $V_1$ 

The commercial and residential electrical industries are constantly evolving as new industry demands require increased skill sets for electricians. Graduates need the necessary core and specialty skills to successfully meet electrician standards and be embraced by the marketplace. The Electrician diploma program teaches these skills by exploring the topics of electrical safety, tools and theory, the National Electrical Code (NEC), conduit bending, residential and commercial wiring, power distribution, advanced code concepts and motors, industrial controls, Programmable Logic Controllers (PLCs), personal development, jobsite management, fire and security alarms, voice, data, TV, signaling systems and fiber optics. Laboratory experience is an integral part of the program.

Graduates of the Electrician diploma program are qualified for entry-level positions such as commercial and residential electrician, preventive maintenance electrician, production electrician, bench electrician, repair electrician, industrial maintenance electrician, programming electrician and maintenance technician. They are also qualified for positions as field service electricians and installation electricians in any manufacturing industry and market sector that has a need for electricians.

Upon successful completion of all program modules, students will be awarded a diploma.

Course Number	Course Title	Clock Hours (Lec/Lab/Ext/Total)	Credit Hours

Diploma To	tal	460/260/00/720	59.0

#### **EEVN030 Electrical Theory and Algebra for Trades**

This course introduces students to fundamentals of algebra, electrical theory, Ohm's Law, magnetism, voltage, resistance, inductance, capacitance, units of electrical measurement and basic electrical math. Students will study concepts of energy, Kirchoff's law, Norton's and Thevenin's theorems, basic trigonometry, inductance, capacitance, series and parallel circuits, power and power factor, electrical efficiency, direct current (DC) and alternating current (AC) circuits, and personal development topics. Students will also learn techniques for studying and test-taking. Prerequisite: None. Lecture hours: 80. Lab hours: 0.

#### EEVN176 NEC/Safety/Hand Tools and Conduit Bending

This course introduces students to definitions, terms and organization of the National Electrical Code (NEC), and conduit bending by calculation. Students will study NEC requirements for residential, raceway types, boxes and fittings, commercial, industrial installations, materials, motorized tools, digging techniques, Material Safety Data Sheets (MSDS) and first aid. Students will develop math and layout techniques required to accurately and efficiently bend conduit. Students will also be introduced to the importance of safety, and common hand and power tools. Prerequisite: None. Lecture hours: 40. Lab hours: 40.

#### EEVN174 Residential/Commercial and NEC Requirements

This course introduces students to wiring and protection methods, conductor installation, raceway fill, ambient temperature, voltage drops, blueprint reading, electrical installation, connections, markings, enclosures, boxes and fittings, junction boxes, gutters, flexible cord, underground feeder and branch circuits, cables, supported and open wiring, residential/commercial wiring, signaling circuits, smoke detectors, ground fault circuit interrupters (GFCIs), doorbells, and service changes. Prerequisite: None. Lecture hours: 40. Lab hours: 40.

#### EEVN271 Transformer Principles and Test Equipment

6.0 Quarter Credit Hours This course introduces students to meters, test equipment, harmonics, grounding, single-phase, three-phase, auto and specialty transformer principles, cable and generator testing, measuring devices, high-voltage cables, insulators and test equipment. Prerequisite: None. Lecture hours: 40. Lab hours: 40

## 8.0 Quarter Credit Hours

6.0 Quarter Credit Hours

# 6.0 Quarter Credit Hours

#### **EELN208 Hazardous Locations and Power Distribution**

This course introduces students to hazardous locations, health care facilities, intermediate and advanced grounding, overcurrent protection, load calculations, balancing phases and neutrals, surge arrestors, transient voltage surge suppression (TVSS), color codes, circuit identification, panel rating, phase converters, capacitors, and single-phase and three-phase power distribution concepts. Prerequisite: EEV1271. Lecture hours: 60. Lab hours: 20.

#### **EEVN192 Power Distribution and Emergency Systems**

This course introduces students to power conditioning and emergency systems, generators, battery systems, fan controllers, lighting concepts, uninterruptible power supply (UPS), transfer switches, dimmer systems, voice-data-TV, computer cabling, structured wiring, fiber optics, special equipment, fire alarms, security alarms, signaling, and rigging. Prerequisite: None. Lecture hours: 60. Lab hours: 20.

EEVN033 Motor Concepts and Jobsite Management 7.0 Quarter Credit Hours This course introduces students to National Electrical Code (NEC) motor concepts, construction, rotor windings, starting configuration, megohmmeter, insulation testing, squirrel cage motor, single-phase and three-phase motors, AC/DC motor concepts, applications, mechanical clutches, magnetic drives, pulleys, direct drives, offset drives, and jobsite management. Prerequisite: None. Lecture hours: 60. Lab hours: 20.

#### **EEVN038 Advanced Industrial Controls**

This course introduces students to solid state relays, timing relays, variable frequency drives, programmable solid state relays, pneumatic timers, solid state motor control, dynamic braking, NFPA 79, control transformers, HVAC controls, and starting methods. Prerequisite: None. Lecture hours: 40. Lab hours: 40.

#### EEVN039 Solid State Controls and Industrial Automation

This course introduces students to solid state devices, semiconductors, digital logic, industrial automation, programmable logic controller (PLC), hardware, applications, HMI, binary, octal, hexadecimal, grey code and PLC operation. Prerequisite: None. Lecture hours: 40. Lab hours: 40.

6.0 Ouarter Credit Hours

Massage Therapy Diploma Proaram Brandon, Jacksonville, Lakeland, North Orlando, Largo, Pompano Beach, South Orlando, and Tampa campuses 9 months – 750 hours – 55 credit units

V3

The Massage Therapy program is designed to provide the student with the necessary tools required to successfully enter the massage industry. Whether it is a day spa, physician's office, health club, or resort, graduates of this program will have acquired all the tools needed to thrive in this exciting new career.

This 750-hour program consists of one pre-requisite course, eight self-contained units of learning called modules, and a 30-hour clinic, which the student must complete before they graduate. Each student must successfully complete the prerequisite course before moving on to any one of the remaining modules in the program. Included in this program are 225 hours of Anatomy and Physiology, as well as introduction to principles and practices of massage therapy, massage fundamentals, massage and bodywork, pathology, business and success skills, and health and wellness. Upon the successful completion of this program, graduates will have received the education necessary to attain a career in one of the most engaging and exciting fields today. The graduate may work in an entry-level position as a massage therapist in a variety of health care facilities, including, but not limited to, a massage clinic, hospital, chiropractic office, nursing home, health club, spa, resort, or in private practice. Massage therapists may be employed in urban, suburban, and rural areas.

In order to practice massage therapy in the state of Florida, students must pass the National Certification Exam for Therapeutic Massage and Bodywork. In addition, students must apply for licensing through the state of Florida, which includes passing a criminal background check.

MTD278	Massage Therapy Clinic	30	1.0
PROGRAM	TOTAL:	750	55.0

\* Massage Therapy Clinic hours are to be scheduled throughout the last three modules of training. Course Content Compliance Requirements with the Florida Board of Massage Therapy:

#### MTD100 – Introduction to Massage Therapy

6.0 Quarter Credit Hours

This module is designed to provide the student with the theory & hands-on skills involved in practicing a form of massage known as Swedish massage. Also covered in this module are joint classification, range of motion for shoulder, and Western theory & history. A study of the structure and function of the human body and its systems, emphasis is placed on the functional relationships of the skeletal and muscular system. Also covered are muscles of the shoulder joint. Prerequisite: None. Lecture Hours: 40.0 Lab Hours: 40.0 Other Hours: 0.0

#### MTD201 – Business and Ethics

6.0 Ouarter Credit Hours

This module is designed to provide students with an understanding of the job opportunities in the massage industry while building core computer and business skills. Professionalism, ethical practice, the law as it relates to massage and communication are discussed. Clinical practice in Swedish massage, chair massage and integrated techniques continue to build the massage therapists practical skills. This module introduces students to basic anatomy and physiology and a discussion of the components of the skeletal system, identification of bones, bony landmarks, and the muscular system. This module provides the student with the study of and an understanding of Florida massage law, including an examination of the regulatory requirements of the Florida Massage Practice Act (Chapter 480 of the Florida Statutes). Included in this module is a discussion on medical errors, their consequences, cost and prevention. Prerequisite: MTD100. Lecture Hours: 40.0 Lab Hours: 40.0 Other Hours: 0.0

#### MTD237 - Swedish Massage, Pre-Natal, Post-Natal and Infant, & Elder/Geriatric Massage 6.0 Quarter Credit Hours

This module is designed to provide the student with the theory & hands-on skills involved in practicing a form of massage known as Swedish Massage. Also covered in this module are range of motion for hips, pre-natal, post-natal, infant & elder/geriatric massage and an understanding of the anatomy and physiology of the reproductive system. Prerequisite: MTD100. Lecture Hours: 40.0 Lab Hours: 40.0 Other Hours: 0.0

#### MTD263 - Eastern Theory and Practice

#### 6.0 Quarter Credit Hours

This module is designed to provide the student with the understanding and knowledge of Eastern theory and practice as used within different styles of Asian bodywork. The student will also learn the immune and lymphatic systems. Students will learn and understand the theory and principle between Eastern and Western paradigms. Included is Yin and Yang theory, Qi, and other applications of Asian bodywork. Prerequisite: MTD100. Lecture Hours: 40.0 Lab Hours: 40.0 Other Hours: 0.0

#### MTD220 - Energy & Non-Traditional Therapies, Wellness & CPR 6.0 Quarter Credit Hours This module is designed to provide the student with the theory and hands-on skills involved in introducing fundamental energy based modalities including polarity beginning Reiki hand-placements. The student will be introduced to basic health and wellness concepts including CPR. This module will also provide the student with the understanding of the integumentary system and musculature of the forearms and hands. Prerequisite: MTD100. Lecture Hours: 40.0 Lab Hours: 40.0 Other Hours: 0.0 6.0 Quarter Credit Hours MTD282 - Deep Tissue, Myofascial Release & Pin and Stretch This module is designed to provide students with an understanding of myofascial, deep tissue and pin and stretch techniques. These techniques will be incorporated into a Swedish massage to better address individual client needs. Students will use basic assessment skills to identify muscular holding patterns and develop treatment plans. The indications and contraindications of these techniques will be discussed as will specific sights of caution for deep tissue. In addition students will develop an understanding of the digestive system, urinary system and the muscles of the anterior neck. Also covered are joints of the Spine and Thorax. Prerequisite: MTD100. Lecture Hours: 40.0 Lab Hours: 40.0 Other Hours: 0.0 MTD214 - Neuromuscular/Trigger Point and Muscle Energy Techniques 6.0 Ouarter Credit Hours This module is designed to provide the student with the understanding and knowledge of neuromuscular techniques (NMT), muscle energy techniques (MET) and trigger point therapy and the assessment skills necessary for these modalities. The student will also learn the nervous system and the musculature of the deep posterior spinal muscles. Prerequisite: MTD100. Lecture Hours: 40.0 Lab Hours: 40.0 Other Hours: 0.0 MTD246 - Clinical and Sports Massage 6.0 Quarter Credit Hours This module is designed to provide the student with the understanding and knowledge of clinical and sports massage techniques and the assessment skills necessary for these modalities. The student will also learn the assessment skills, charting/documentation, clinical applications and focus within the endocrine system with a review or the nervous system (CNS/PNS). For specific musculature covered for this module please refer to the anatomy and physiology outline. Covered in this module are the endocrine and peripheral nervous systems, and muscles of the leg and foot. Prerequisite: MTD100, Lecture Hours: 40.0 Lab Hours: 40.0 Other Hours: 0.0 MTD295 - Health and Wellness 6.0 Ouarter Credit Hours This module is designed to provide the student with an overall understanding of the skills involved in working in spa services and in working with specific strategies to enhance good health and wellness. This module presents the students with information about HIV and AIDS in accordance with the content guidelines prepared by the U.S. Center for Disease Control (CDC) and the Federal Occupation Safety and Health Administration (OSHA), HIV/AIDS and other common blood-borne pathogens and communicable diseases are studied with emphasis on the modes of transmission prevention, universal precautions and engineering/work practice controls. In addition, the student will become familiar with the use of various means of hydrotherapy. Also covered are the circulatory and respiratory systems. Prerequisite: MTD100. Lecture Hours: 40.0 Lab Hours: 40.0 Other Hours: 0.0

#### MTD278 - Massage Therapy Clinic

1.0 Quarter Credit Hour

This course is designed to provide the student with a realistic hands-on view and experience of working in the field by participating in a real massage therapy clinic or 'mock' clinic environment. The clinic provides the students an opportunity to enhance skills learned and practiced from instruction. This course is a continuation of supervised clinical practice integrating the principles of Swedish massage, chair massage and adjunctive therapeutic modalities. Students are afforded the opportunity to practice their massage and evaluation skills on a diverse group of subjects. Prerequisite: Successful completion of 6 of the 9 modules and Instructor approval. Students may be able to start the clinic prior to the 6<sup>th</sup> module with instructor approval. Lecture Hours: 00.0 Lab Hours: 00.0 Other Hours: 30.0.

#### Medical Administrative Assistant

Diploma Program Jacksonville, Lakeland, Largo, North Orlando, Orange Park, and South Orlando campuses 8 months – 720 hours – 47 credit units

The objective of the Medical Administrative Assistant Program is to prepare students for entry-level positions as medical administrative assistants in a variety of health care settings. Students study various administrative procedures related to the medical office. Students will learn accounting functions essential to a medical environment, set up patient records and maintain all filing and record keeping, basics of coding with CPT and ICD-9 codes, preparation and processing insurance claims, dictation and transcription, correspondence and mail processing and computerized practice management.

The Medical Administrative Assistant Program is designed to prepare students for entry-level positions as medical administrative assistants in a variety of health care settings. Students study various administrative procedures related to the medical office, including patient processing and assessment, processing medical insurance claims, bill collections, and general office procedures utilized in various medical offices. In addition to acquiring manual and hands-on administrative skills, the program is designed to teach students computer and keyboarding skills which enables them to become familiar with the computerized technology that is becoming more visible in the twenty-first century medical office environment.

Module	Module Title	Total Clock Hours	Quarter Credit Units
Module A	Office Finance	80	6.0
Module B	Patient Processing and Assisting	80	6.0
Module C	Medical Insurance	80	6.0
Module D	Insurance Plans and Collections	80	6.0
Module E	Office Procedures	80	6.0
Module F	Patient Care and Computerized Practice Management	80	6.0
Module G	Dental Administrative Procedures	80	6.0
Module X	Medical Administrative Assistant Externship	160	5.0
	TOTAL	720	47.0

Major Equipment: Autoclave, Calculators, Personal Computers, Patient Examination Table, Stethoscopes, Sphygmomanometer, Transcription Machine

#### Module A: Office Finance

#### 6.0 Quarter Credit Hour

Module A introduces accounting functions essential to a medical environment. Students learn basic bookkeeping procedures and apply them to a bookkeeping project and accounting system. Students will also complete assignments writing payroll checks and keeping check registers. Patient billing is an integral portion of the module, including tracing delinquent claims and insurance problem solving. Students study essential medical terminology, build on keyboarding and word processing skills, and become familiar with the self-directed job search process by learning how to cultivate the right on-the-job attitude, assembling a working wardrobe and identifying the strategies it takes to become the best in your new job so that you can advance in your career. They also become familiar with essential medical terminology. Lecture Hours: 40.0 Computer/Keyboarding Hours: 20.0 Spelling/Skillbuilding Hours: 20.0

#### Module B: Patient Processing and Assisting

6.0 Quarter Credit Hour In Module B, students learn to set up patient records and maintain and organize them manually and electronically. Students become familiar with records management systems and develop skills in alphabetic filing and indexing, and appointment scheduling. The basics of health insurance are introduced, as well the basic of coding with CPT and ICD-9 codes. Students are trained in vital signs, and a cardiopulmonary resuscitation (CPR) course is taught. Students study essential medical terminology, build on keyboarding and word processing skills, and become familiar with the self-directed job search process by identifying their personal career objective. Lecture Hours: 40.0 Computer/Keyboarding Hours: 20.0 Spelling/Skillbuilding Hours: 20.0

#### **Module C: Medical Insurance**

6.0 Quarter Credit Hour

Module C develops student proficiency in preparing and processing insurance claims. Students study insurance programs, including HMOs, PPOs, and worker's compensation plans. National coding systems used for claims processing are studied. Students learn to obtain information from patient charts and ledgers to complete insurance forms accurately. Students are given hypothetical insurance billing situations and select appropriate forms, codes, and procedures to process insurance claims for optimal reimbursement. Office & insurance collection strategies are also included. Students study essential medical terminology, build on keyboarding and word processing skills, and become familiar with the self-directed job search process by developing career networking techniques that will assist you in being successful in the medical field. Lecture Hours: 40.0 Computer/Keyboarding Hours: 20.0 Spelling/Skillbuilding Hours: 20.0

#### **Module D: Insurance Plans and Collections**

### 6.0 Quarter Credit Hour

Module D develops student proficiency in preparing and processing insurance claims. The Medicaid, Medicare, TRICARE, and CHAMPVA programs are discussed. Students learn to obtain information from patient charts and ledgers to complete insurance forms accurately. They also focus on important aspects of the collection process including collection letters, telephone calls, and collection servicing agencies. They will also learn about Occupational Safety and Health Administration (OSHA) standards and the use of universal precautions in the medical office. Medical ethics and law are also included. Students study essential medical terminology, build on keyboarding and word processing skills, and become familiar with the self-directed job search process by identifying and demonstrating what a successful job interview contains and how to answer common interview questions accurately. Lecture Hours: 40.0 Computer/Key-boarding Hours: 20.0 Spelling/Skillbuilding Hours: 20.0

#### **Module E: Office Procedures**

6.0 Quarter Credit Hour In Module E, students are introduced to dictation and transcription. Emphasis is also placed on correspondence and mail processing, health information management and the medical facility environment. Students will also become familiar with disability income insurance and legal issues affecting insurance claims. In addition, students learn about the Health Insurance Accountability and Portability Act (HIPAA). Students study essential medical terminology, build on keyboarding and word processing skills, and become familiar with the self-directed job search by learning how to set their own career goals. Lecture Hours: 40.0 Computer/Keyboarding Hours: 20.0 Spelling/Skillbuilding Hours: 20.0

#### **Module F: Patient Care and Computerized Practice Management**

Module F emphasizes computerized practice management, including file maintenance, patient records, bookkeeping and insurance. Students will learn the health insurance claim form and managed care systems. Hospital billing is introduced this module. Students will also learn about the history of the healthcare industry and the Medical Assisting Profession. In addition, students learn basic techniques for taking patients vital signs. They learn OSHA standards and the use of universal precautions in the medical office. Students study essential medical terminology, build on keyboarding and word processing skills, and become familiar with the selfdirected job search process by learning all about how to become and learn from mentoring. Lecture Hours: 40.0 Computer/Keyboarding Hours: 20.0 Spelling/Skillbuilding Hours: 20.0

#### Module G: Dental Administrative Procedures

Module G focuses on basic administrative procedures performed in the dental office. Students are introduced to the dental health team with emphasis on the tasks performed by the administrative support staff. Specialized procedures including appointment scheduling, bookkeeping, dental charting, processing patients, insurance billing and coding, and law and ethics are presented. Students are also given an introduction to radiography and radiation safety. Students will do vital signs. They discuss interpersonal skills and human relations, telephone techniques, and patient reception techniques. Students build on keyboarding and word processing skills, become familiar with essential dental terminology, and become familiar with the self-directed job search process by learning how to dress for success. Lecture Hours: 40.0 Computer/Keyboarding Hours: 20.0 Spelling/Skillbuilding Hours: 20.0

#### Module X - Medical Administrative Assistant Externship

5.0 Quarter Credit Hour Upon successful completion of modules A through G, students participate in a 160-hour externship at an approved facility. This course is 160 hours of supervised, practical, in-service experience in a medical office or clinic in which the student practices direct application of all administrative functions of the medical administrative assistant. Lecture Hours: 0.0 Computer/Keyboarding Hours: 0.0 Spelling/Skillbuilding Hours: 0.0 Other Hours: 160

### 6.0 Quarter Credit Hour

# 6.0 Ouarter Credit Hour

#### 53

#### **Medical Assisting**

Diploma Program Brandon, Jacksonville, Largo, Lakeland, Melbourne, North Orlando, Orange Park, Pompano Beach, South Orlando, and Tampa campuses 8 month – 720 hours – 47 credit units

V1

The Medical Assisting Program (diploma) is designed to prepare students for entry-level positions as medical assistants in a variety of health care settings. Students study the structure and function of the major body systems in conjunction with medical terminology, diagnostic and therapeutic procedures, computer skills, administrative processes, bookkeeping and accounting practices, and the processing of medical insurance forms and claims.

Students learn the structure and function of the major body systems in conjunction with medical terminology, diagnostic and therapeutic procedures, computer skills, administrative processes, bookkeeping and accounting practices, and the processing of medical insurance forms and claims.

In recent years, the medical assisting profession has become indispensable to the health care field. Physicians have become more reliant on medical assistants for their front and back office skills, and their services are being sought by medical offices, and ambulatory care providers, clinics, hospitals, urgent care centers, nursing homes, medical supply businesses, home health agencies, insurance providers, and pharmaceutical companies. This diploma program prepares graduates to fill entrylevel positions such as clinical or administrative assistant, medical receptionist, and medical insurance biller.

This program is divided into eight learning units called modules. The first seven modules, A through G, are classroom modules. Each stands alone as a unit of study and is not dependent upon the completion of any previous or subsequent module. If students do not complete any portion of a module, the entire module must be repeated. Students may enter the program in any of the seven modules and continue through these modules until all have been completed. Following the successful completion of the first seven modules, A through G, students participate in a 160-hour externship.

Completion of the Medical Assisting Diploma Program is acknowledged by the awarding of a diploma. The goal of the Medical Assisting Diploma Program is to prepare competent entry-level medical assistants in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains required and necessary to prepare them for entry level positions such as clinical or administrative assistant, medical receptionist, and medical insurance biller. Students study the structure and function of the major body systems in conjunction with medical terminology, diagnostic and therapeutic procedures, computer skills, administrative processes, bookkeeping and accounting practices, and the processing of medical insurance forms and claims.

Upon successful completion of this program, the graduate will be able to:

- Demonstrate professionalism and ethical behavior.
- Discuss the history of medical assisting as it relates to medical practice and professional organizations.
- Recognize and respond to verbal and non-verbal communication, and use appropriate communication techniques.
- Demonstrate knowledge of and use appropriate terminology for the different body systems, illnesses and injuries associated with those systems, and diagnostic and therapeutic procedures.
- Apply principles of infection control and use appropriate aseptic technique.
- Perform clinical responsibilities, including preparing patients for examination and procedures, preparing and administering medications as directed, collecting and processing specimens, recognizing emergencies, and performing CPR and first aid.
- Identify minor surgical procedures and demonstrate the ability to assist with those procedures.
- Instruct and teach patients methods of health promotion and disease prevention.
- Maintain accurate patient records.
- Perform administrative procedures that include telephone techniques, appointment scheduling, record management, and insurance billing procedures.
- Demonstrate skills related to word processing, medical transcription, the processing of insurance claims, and simulated computerized medical office applications.
- Implement current procedural and diagnostic coding.
- Accurately complete bookkeeping, banking, and financial procedures.
- Demonstrate acceptable speed and accuracy in computer keyboarding.
- Develop a resume and identify a career plan that includes potential job leads, networking contacts, a job search schedule, and five year goals.

Module	Module Title	Total Clock Hours	Quarter Credit Units
Module A	Patient Care and Communication	80	6.0
Module B	Clinical Assisting and Pharmacology	80	6.0
Module C	Medical Insurance, Bookkeeping and Health Sciences	80	6.0
Module D	Cardiopulmonary and Electrocardiography	80	6.0
Module E	Laboratory Procedures	80	6.0
Module F	Endocrinology and Reproduction	80	6.0
Module G	Medical Law, Ethics, and Psychology	80	6.0

#### **ON-GROUND UNDERGRADUATE PROGRAMS**

Module X	Externship	160	5.0
	Program Total	720	47.0

#### **Module A: Patient Care and Communication** 6 quarter credit hours Module A emphasizes patient care, including examinations and procedures related to the eyes and ears, the nervous system, and the integumentary system. Students will have an opportunity to work with and review patient charts and perform front office skills related to records management, appointment scheduling, and bookkeeping. Students gain an understanding of the importance of communication (verbal and nonverbal) when working with patients both on the phone and in person. Students develop an understanding of basic anatomy and physiology of the special senses (eyes and ears), nervous and integumentary system, common diseases and disorders, and medical terminology related to these systems. Students study essential medical terminology, build on keyboarding and word processing skills, and become familiar with the self-directed job search process by learning how to cultivate the right on-the-job attitude, assembling a working wardrobe and identifying the strategies it takes to become the best in their new job so that they can advance in their career. Prerequisites: None. Lec Hrs: 040, Lab Hrs: 040, Other Hrs: 000 Module B: Clinical Assisting and Pharmacology 6 quarter credit hours Module B stresses the importance of asepsis and sterile technique in today's health care environment. Students learn about basic bacteriology and its relationship to infection and disease control. Students identify the purpose and expectations of the Occupational Health and Safety Administration (OSHA) and the Clinical Laboratory Improvement Amendments (CLIA) regarding disease transmission in the medical facility. Students become familiar with the principles and various methods of administering medication. Basic pharmacology, therapeutic drugs, their uses, inventory, and classification and effects on the body are included. Students participate in positioning and draping of patients for various examinations and prepare for and assist with minor office surgical procedures. Students gain an understanding of basic anatomy and physiology of the muscular system, common diseases and disorders, and medical terminology related to this system. Students study essential medical terminology, build on their keyboarding and word processing skills, and become familiar with the self-directed job search process by identifying their personal career objective, create a neat, accurate, well organized cover letter, resume, and job application. Prerequisites: None. Lec Hrs: 040, Lab Hrs: 040, Other Hrs: 000 Module C: Medical Insurance, Bookkeeping and Health Sciences 6 quarter credit hours Module C introduces students to the health care environment and office emergencies and first aid, with an emphasis on bandaging techniques for wounds and injuries. Students study medical insurance, billing and coding, bookkeeping procedures, accounts payable and receivable, financial management, banking, and check writing procedures that are essential to the successful operation of the medical office. Students develop an understanding of good health nutrition and weight control and strategies in promoting good health in patients. Students gain an understanding of basic anatomy and physiology of the digestive system, common diseases and disorders, and medical terminology related to this system. Students study essential medical terminology, build on their keyboarding and word processing skills, and become familiar with the self-directed job search process by developing career networking techniques that will assist them in being successful in the medical field. Prerequisites: None. Lec Hrs: 040, Lab Hrs: 040, Other Hrs: 000 Module D: Cardiopulmonary and Electrocardiography 6 quarter credit hours Module D examines the circulatory and respiratory systems, including the structure and function of the heart and lungs, and diseases, disorders, and diagnostic tests associated with these systems. Students learn about the electrical pathways of the heart muscle in preparation for applying electrocardiography (ECG or EKG) leads and recording a 12-lead electrocardiogram. A cardiopulmonary resuscitation (CPR) course is taught with enables students to respond to cardiac emergencies. Students check vital signs and differentiate between normal values for pediatric and adult patients. They obtain blood samples and prepare syringes and medications for administration. Students study essential medical terminology, build on their keyboarding and word processing skills, and become familiar with the self-directed job search process by identifying and demonstrating what a successful job interview contains and how to answer common interview questions accurately. **Module E: Laboratory Procedures** 6 quarter credit hours Module E introduces microbiology and laboratory procedures commonly performed in a physician's office or medical clinic. Students

Module E introduces microbiology and laboratory procedures commonly performed in a physician's office or medical clinic. Students learn specimen identification, collection, handling and transportation procedures, and practice venipuncture and routine diagnostic hematology. Maintenance and care of laboratory equipment and supplies are discussed. Students gain knowledge in radiology and nuclear medicine and become familiar with various radiological examinations and the patient preparation for these exams. Anatomy and physiology of the urinary system, and the body's immunity, including the structure and functions, as well as common diagnostic exams and disorders related to these systems. Students perform common laboratory tests, check vital signs, and perform selected invasive procedures. Students study essential medical terminology, build on their keyboarding and word processing skills, and become familiar with the self-directed job search by learning how to set their own career goals. Prerequisites: None. Lec Hrs: 040, Lab Hrs: 040, Other Hrs: 040

# Module F: Endocrinology and Reproduction credit hours

6 quarter

5 quarter

Module F covers general anatomy and physiology, including an overview of the study of biology and the various body structures and systems. This module also identifies and examines the basic structural components and functions of the skeletal, endocrine, and reproductive systems. Students learn about child growth and development, and how hereditary, cultural, and environmental aspects affect behavior. Students gain an understanding about assisting in a pediatrician's office and learn the important differences that are specific to the pediatric field. Some of the skills students learn in this area are height, weight, measurements and restraining techniques used for infants and children. They check vital signs, assist with diagnostic examinations and laboratory tests, instruct patients regarding health promotion practices, and perform certain invasive procedures. Students study essential medical terminology, build on their keyboarding and word processing skills, and become familiar with the self-directed job search process by learning all about how to become a mentor and learn from mentoring. Prerequisites: None. Lec Hrs: 040, Lab Hrs: 040, Other Hrs: 000

# Module G: Medical Law, Ethics and Psychology credit hours

Module G covers the history and science of the medical field, as well as the medical assisting profession and how it fits into the big picture. Students gain an understanding of concepts related to patient reception in the medical office and preparing for the day. Students become familiar with that it takes to become an office manager and the responsibilities an office manager has to the office, the staff, and the physician. Students are introduced to medical office safety, security, and emergency provisions, and how they can best be dealt with. Students learn how to maintain equipment and inventory. Computers in the medical office are discussed and how ergonomics plays an important role in the health of the staff and patients. Students learn how to provide mobility assistance and support to patients with special physical and emotional needs. Basic principles of psychology are discussed, as well as psychological disorders and diseases and treatments available. Medical law and ethics and various physical therapy modalities are discussed. Students check vital signs, obtain blood samples, and prepare and administer intramuscular injections. Students study essential medical terminology, build on their keyboarding and word processing skills, and become familiar with the self-directed job search process by leaning how to dress for success. Prerequisites: None. Lec Hrs: 040, Lab Hrs: 040, Other Hrs: 040

# Module X: Medical Assisting Externship credit hours

Upon successful completion of Modules A through G, Medical Assisting students participate in a 160 hour externship at an approved facility. The externship provides the student an opportunity to apply principles and practices learned in the program and utilize entry level Medical Assisting skills in working with patients. Medical assisting externs work under the direct supervision of qualified personnel at the participating externship sites, and under general supervision of the school staff. Externs are evaluated by supervisory personnel at the site at 80- and 160-hour intervals. Completed evaluation forms are placed in the students' permanent records. Students must successfully complete their externship experience in order to fulfill requirements for graduation. Prerequisites: Completion of Modules A-G. Lec Hrs: 000 Lab Hrs: 000 Other Hrs: 160

56

V2

#### Medical Insurance Billing and Coding Divloma Program

Jacksonville and Pompano Beach campuses 8 months – 720 hours – 47 credit units

Medical Insurance Billing and Coding professionals perform a variety of administrative health information functions, including those associated with organizing, analyzing, and technically evaluating health insurance claim forms and coding diseases, surgeries, medical procedures, and other therapies for billing and collection.

The objective of the Medical Billing and Coding Program is to provide the student with the appropriate didactic theory and hands-on skills necessary to prepare them for entry-level positions as medical insurance billers and coders in today's health care offices, clinics, and facilities. Students will study diagnostic and procedural terminology as it relates to the accurate completion of medical insurance claims. Utilizing a format of medical specialties, relevant terms will also be introduced and studied.

The Medical Insurance Billing and Coding Program is a 720 clock hour/47.0 credit unit course of study, consisting of seven individual learning units, called modules. Students are required to complete all modules, starting with Module MEDINTRO and continuing in any sequence until all seven modules have been completed. After the MEDINTRO Introductory Module is completed, the remaining six modules stand alone as units of study. If students do not complete any portion of one of these modules, the entire module must be repeated. Upon successful completion all modules, students participate in an externship. This consists of 160 clock hours of hands-on experience working either in a tutorial classroom setting called a practicum or in an outside facility in the field of medical insurance billing and coding.

Course Number	Course Title	Clock Hours	Credit Units
MEDINTRO	Introduction to Medical Terminology, Keyboarding, Word Processing, Basic Math, Insurance Coding, and Administrative Duties of Medical Personnel	80	6.0
MIBCL	Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding of the Cardiovascular and Lymphatic Systems	80	6.0
MIBGU	Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding of the Genitorurinary System	80	6.0
MIBIE	Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding of the Integumentary and Endocrine Systems, and Pathology	80	6.0
MIBMS	Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding of the Musculoskeletal System	80	6.0
MIBRG	Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding of the Respiratory and Gastrointestinal Systems	80	6.0
MIBSN	Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding of the Sensory and Nervous Systems, and Psychology	80	6.0
MIBP	Practicum –OR–	160	5.0
MIBE	Externship	100	5.0
PROGRAM TOTAL		720	47.0

# Module MEDINTRO - Introduction to Medical Terminology, Keyboarding, Word Processing, 6.0 Quarter Credit Hours

#### Basic Math, Insurance Coding, and Administrative Duties of Medical Personnel

This module presents basic prefixes, suffixes, word roots, combining forms, special endings, plural forms, abbreviations, and symbols. Also covered is medical jurisprudence and medical ethics. Legal aspects of office procedure are covered, including a discussion of various medical/ethical issues in today's medical environment. Students will learn basic computer skills and acquire knowledge of basic medical insurance billing and coding. Students are provided exposure to computer software applications used in the health care environment including basic keyboarding, Word and Excel. In addition, basic guidelines and coding conventions in ICD-9 and CPT are covered with focus on the professional (outpatient) guidelines, as well as an introduction to the use of the coding reference books. Basic math is introduced. Career skills and development of proper study and homework habits are introduced as well as professionalism needed in the healthcare environment. Prerequisite: None. Lec Hrs: 40 Lab Hrs: 40 Other Hrs: 0

#### Module MIBCL – Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural 6.0 Quarter Credit Hours

#### Coding of the Cardiovascular and Lymphatic Systems

This module presents a study of basic medical terminology focused on the cardiovascular system and the lymphatic system. A word-building systems approach is used to learn word parts for constructing or analyzing new terms. Emphasis is placed on spelling, definition, usage, and pronunciation. Abbreviations are introduced as related terms are presented within the module. A study of the human body's diseases and disorders, including signs, symptoms, etiology, diagnosis, and treatment, is accomplished following the modular subject areas. Students are provided exposure to computer software applications used in the health care environment, including medical billing software. Word and Excel. The major medical insurances and claims form processing is presented in an ongoing approach to build this skill set. It will include information on national and other common insurance plans as well as claim form completion and ICD and CPT coding. Problem solving and managed care systems will also be discussed. Daily financial practices to include patient fee determining, credit arrangements and bookkeeping and bank-keeping procedures will be discussed. Computer use in the ambulatory environment will also be taught. Basic and advanced guidelines and coding conventions in CPT will be taught with focus on the professional (outpatient) guidelines. The evaluation and management documentation guidelines will be discussed, as well as the proper use of modifiers. Basic guidelines and coding conventions in ICD-9-CM diagnosis coding and medical necessity with CPT pairing will be stressed, as well as the use of a natural language encoder program. Various aspects of pharmacology will be discussed including a study of the medications prescribed for the treatment of illnesses and diseases within the modular subject area. Included in this are drug actions and medication uses in relation to body systems and medical terminology. To prepare the student to comprehend the complexity of the health care system and the life cycle of a medical practice, areas that will be discussed include personnel management, compliance, technology, and the many roles of office management. Prerequisite: MEDINTRO Lec Hrs: 40 Lab Hrs: 40 Other Hrs: 0

#### Module MIBGU – Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural 6.0 Quarter Credit Hours

#### Coding of the Genitorurinary System

This module presents a study of basic medical terminology focused on the genitourinary system. A word-building systems approach is used to learn word parts for constructing or analyzing new terms. Emphasis is placed on spelling, definition, usage, and pronunciation. Abbreviations are introduced as related terms are presented within the module. A study of the human body's diseases and disorders, including signs, symptoms, etiology, diagnosis, and treatment, is accomplished following the modular subject areas. Students are provided exposure to computer software applications used in the health care environment, including medical billing software, Word and Excel. The major medical insurances and claims form processing is presented in an ongoing approach to build this skill set. It will include information on national and other common insurance plans as well as claim form completion and ICD and CPT coding. Problem solving and managed care systems will also be discussed. Daily financial practices to include patient fee determining, credit arrangements and bookkeeping and bank-keeping procedures will be discussed. Computer use in the ambulatory environment will also be taught. Basic and advanced guidelines and coding conventions in CPT will be taught with focus on the professional (outpatient) guidelines. The evaluation and management documentation guidelines will be discussed, as well as the proper use of modifiers. Basic guidelines and coding conventions in ICD-9-CM diagnosis coding and medical necessity with CPT pairing will be stressed, as well as the use of a natural language encoder program. Various aspects of pharmacology will be discussed including a study of the medications prescribed for the treatment of illnesses and diseases within the modular subject area. Included in this are drug actions and medication uses in relation to body systems and medical terminology. To prepare the student to comprehend the complexity of the health care system and the life cycle of a medical practice, areas that will be discussed include personnel management, compliance, technology, and the many roles of office management. Prerequisite: MEDINTRO Lec Hrs: 40 Lab Hrs: 40 Other Hrs: 0

#### Module MIBIE – Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural 6.0 Quarter Credit Hours

#### Coding of the Integumentary and Endocrine Systems, and Pathology

This module presents a study of basic medical terminology focused on the integumentary system, the endocrine system, and pathology. A word-building systems approach is used to learn word parts for constructing or analyzing new terms. Emphasis is placed on spelling, definition, usage, and pronunciation. Abbreviations are introduced as related terms are presented within the module. A study of the human body's diseases and disorders, including signs, symptoms, etiology, diagnosis, and treatment, is accomplished following the modular subject areas. Students are provided exposure to computer software applications used in the health care environment, including medical billing software, Word and Excel. The major medical insurances and claims form processing is presented in an ongoing approach to build this skill set. It will include information on national and other common insurance plans as well as claim form completion and ICD and CPT coding. Problem solving and managed care systems will also be discussed. Daily financial practices to include patient fee determining, credit arrangements and bookkeeping and bank-keeping procedures will be discussed. Computer use in the ambulatory environment will also be taught. Basic and advanced guidelines and coding conventions in CPT will be taught with focus on the professional (outpatient) guidelines. The evaluation and management documentation guidelines will be discussed, as well as the proper use of modifiers. Basic guidelines and coding conventions in ICD-9-CM diagnosis coding and medical necessity with CPT pairing will be stressed, as well as the use of a natural language encoder program. Various aspects of pharmacology will be discussed including a study of the medications prescribed for the treatment of illnesses and diseases within the modular subject area. Included in this are drug actions and medication uses in relation to body systems and medical terminology. To prepare the student to comprehend the complexity of the health care system and the life cycle of a medical practice, areas that will be discussed include personnel management, compliance, technology, and the many roles of office management. Prerequisite: MEDINTRO Lec Hrs: 40 Lab Hrs: 40 Other Hrs: 0

#### Module MIBMS – Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural 6.0 Quarter Credit Hours

#### Coding of the Musculoskeletal System

This module presents a study of basic medical terminology focused on the musculoskeletal system. A word-building systems approach is used to learn word parts for constructing or analyzing new terms. Emphasis is placed on spelling, definition, usage, and pronunciation. Abbreviations are introduced as related terms are presented within the module. A study of the human body's diseases and disorders, including signs, symptoms, etiology, diagnosis, and treatment, is accomplished following the modular subject areas. Students are provided exposure to computer software applications used in the health care environment, including medical billing software, Word and Excel. The major medical insurances and claims form processing is presented in an ongoing approach to build this skill set. It will include information on national and other common insurance plans as well as claim form completion and ICD and CPT coding. Problem solving and managed care systems will also be discussed. Daily financial practices to include patient fee determining, credit arrangements and bookkeeping and bank-keeping procedures will be discussed. Computer use in the ambulatory environment will also be taught. Basic and advanced guidelines and coding conventions in CPT will be taught with focus on the professional (outpatient) guidelines. The evaluation and management documentation guidelines will be discussed, as well as the proper use of modifiers. Basic guidelines and coding conventions in ICD-9-CM diagnosis coding and medical necessity with CPT pairing will be stressed, as well as the use of a natural language encoder program. Various aspects of pharmacology will be discussed including a study of the medications prescribed for the treatment of illnesses and diseases within the modular subject area. Included in this are drug actions and medication uses in relation to body systems and medical terminology. To prepare the student to comprehend the complexity of the health care system and the life cycle of a medical practice, areas that will be discussed include personnel management, compliance, technology, and the many roles of office management. Prerequisite: MEDINTRO Lec Hrs: 40 Lab Hrs: 40 Other Hrs: 0

#### Module MIBRG – Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural 6.0 Quarter Credit Hours

#### Coding of the Respiratory and Gastrointestinal Systems

This module presents a study of basic medical terminology focused on the respiratory system and the gastrointestinal system. A word-building systems approach is used to learn word parts for constructing or analyzing new terms. Emphasis is placed on spelling, definition, usage, and pronunciation. Abbreviations are introduced as related terms are presented within the module. A study of the human body's diseases and disorders, including signs, symptoms, etiology, diagnosis, and treatment, is accomplished following the modular subject areas. Students are provided exposure to computer software applications used in the health care environment, including medical billing software, Word and Excel. The major medical insurances and claims form processing is presented in an ongoing approach to build this skill set. It will include information on national and other common insurance plans as well as claim form completion and ICD and CPT coding. Problem solving and managed care systems will also be discussed. Daily financial practices to include patient fee determining, credit arrangements and bookkeeping and bank-keeping procedures will be discussed. Computer use in the ambulatory environment will also be taught. Basic and advanced guidelines and coding conventions in CPT will be taught with focus on the professional (outpatient) guidelines. The evaluation and management documentation guidelines will be discussed, as well as the proper use of modifiers. Basic guidelines and coding conventions in ICD-9-CM diagnosis coding and medical necessity with CPT pairing will be stressed, as well as the use of a natural language encoder program. Various aspects of pharmacology will be discussed including a study of the medications prescribed for the treatment of illnesses and diseases within the modular subject area. Included in this are drug actions and medication uses in relation to body systems and medical terminology. To prepare the student to comprehend the complexity of the health care system and the life cycle of a medical practice, areas that will be discussed include personnel management, compliance, technology, and the many roles of office management. Prerequisite: MEDINTRO Lec Hrs: 40 Lab Hrs: 40 Other Hrs: 0

#### Module MIBSN – Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural 6.0 Quarter Credit Hours

#### Coding of the Sensory and Nervous Systems, and Psychology

This module presents a study of basic medical terminology focused on the sensory system, the nervous system, and psychology. A word-building systems approach is used to learn word parts for constructing or analyzing new terms. Emphasis is placed on spelling, definition, usage, and pronunciation. Abbreviations are introduced as related terms are presented within the module. A study of the human body's diseases and disorders, including signs, symptoms, etiology, diagnosis, and treatment, is accomplished following the modular subject areas. Students are provided exposure to computer software applications used in the health care environment, including medical billing software, Word and Excel. The major medical insurances and claims form processing is presented in an ongoing approach to build this skill set. It will include information on national and other common insurance plans as well as claim form completion and ICD and CPT coding. Problem solving and managed care systems will also be discussed. Daily financial practices to include patient fee determining, credit arrangements and bookkeeping and bank-keeping procedures will be discussed. Computer use in the ambulatory environment will also be taught. Basic and advanced guidelines and coding conventions in CPT will be taught with focus on the professional (outpatient) guidelines. The evaluation and management documentation guidelines will be discussed, as well as the proper use of modifiers. Basic guidelines and coding conventions in ICD-9-CM diagnosis coding and medical necessity with CPT pairing will be stressed, as well as the use of a natural language encoder program. Various aspects of pharmacology will be discussed including a study of the medications prescribed for the treatment of illnesses and diseases within the modular subject area. Included in this are drug actions and medication uses in relation to body systems and medical terminology. To prepare the student to comprehend the complexity of the health care system and the life cycle of a medical practice, areas that will be discussed include personnel management, compliance, technology, and the many roles of office management. Prerequisite: MEDINTRO Lec Hrs: 40 Lab Hrs: 40 Other Hrs: 0

Once a student has completed all modules, he or she will be placed in his or her final module of training, as chosen by the school administration, in an on-campus practicum experience or out in the field in an approved externship facility.

#### Module MIBP – Practicum

#### 5.0 Quarter Credit Hours

Upon successful completion of Modules MIBINTRO. MIBCL, MIBGU, MIBIE, MIBMS, MIBRG, and MIBSN, Medical Insurance Billing and Coding students participate in a 160 hour practicum on-campus. The practicum provides the student an opportunity to apply principles and practices learned in the program and utilize entry-level skills in working with insurance companies and processing claims. Medical insurance billing and coding students work under the direct supervision of the school staff. Students are evaluated by an instructor or Department Chair at 80 and 160 hour intervals. Completed evaluation forms are placed in the students permanent records. Students must successfully complete their practicum experience in order to fulfill requirements for graduation. Prerequisite: Successful completion of Modules MIBINTRO, MIBCL, MIBGU, MIBIE, MIBMS, MIBRG, and MIBSN. Lec Hrs: O Lab Hrs: O Other Hrs; 160

#### Module MIBE – Externship

#### 5.0 Quarter Credit Hours

Upon successful completion of Modules MIBINTRO. MIBCL, MIBGU, MIBIE, MIBMS, MIBRG, and MIBSN, medical insurance billing/coding students participate in a 160-hour externship. Students are expected to work a full-time (40 hours per week) schedule if possible. Serving in an externship at an approved facility gives externs an opportunity to work with the principles and practices learned in the classroom. Externs work under the direct supervision of qualified personnel in participating institutions and under general supervision of the school staff. Supervisory personnel will evaluate externs at 80 and 160-hour intervals. Completed evaluation forms are placed in the students' permanent records. Students must successfully complete their externship training in order to fulfill requirements for graduation. Prerequisite: Successful completion of Modules MIBINTRO, MIBCL, MIBGU, MIBIE, MIBMS, MIBRG, and MIBSN. Lec Hrs: 0 Lab Hrs: 0 Other Hrs; 160

#### **Patient Care Technician**

*Diploma Program* Pompano Beach campuses 8 months – 720 hours – 51 credit units

The Patient Care Technician Program is designed to train students to function safely and effectively as integral members of the health care delivery team. The program combines basic knowledge with applied skills mastered in both the classroom and the laboratory. In this multi- occupational program, students are cross-trained to perform any number of clinical skills from performing basic patient care skills, to performing electrocardiograms, as an EKG Technician, to collecting laboratory specimens as a Phlebotomist, or to assisting a patient to walk for the first time, as a physical therapy aide.

The Patient Care Technician can expect to find employment opportunities in hospitals, rehabilitation centers, specialty and urgent care centers, long-term and skilled nursing facilities, and staffing agencies. In addition to being qualified to work as a Patient Care Technician and Home Health Aide, graduates of this program are also qualified to work as Physical Therapy and Occupational Therapy Aides, and EKG Technician.

The program is comprised of seven modular units of learning which are made up of 80 hours of combined theory and laboratory time and one module which is referred to "clinical rotation," for a total 160 hours. During this rotation, which is completed after all theory modules, students are given the opportunity to observe and become part of the health care team as they gain hands-on experience working side-by-side with other health care practitioners.

The Patient Care Technician program provides the student with the theory and hands-on applications required to perform the following tasks:

- Demonstrate the basic principles and practices of basic patient care and safety, home health care, physical therapy and occupational therapy, phlebotomy, electrocardiography, healthcare law and ethics, communications and interpersonal skills, clerical skills, and safety.
- Recognize, spell, define, and use appropriate medical terminology, words, and abbreviations as part of the study of anatomy and physiology, microbiology, and infection control.
- Use appropriate medical and surgical asepsis and patient care skills, including those required in infection control, including universal precautions, pre- and post-operative care, scrubbing, gowning, and gloving, body mechanics, personal care, bed-making, positioning, observational and charting skills, and basic laboratory, cardiology, physical therapy, and occupational therapy skills.
- Demonstrate skills to obtain CPR certification.

MODULE	MODULE TITLE	CLOCK HOURS	CREDIT UNITS
Module A	Basic Healthcare Concepts & Clerical Skills I	80	7.0
Module B	Anatomy & Physiology and Medical Terminology	80	8.0
Module C	Patient Care Skills I	80	6.0
Module D	Patient Care Skills II	80	6.0
Module E	Electrocardiography and CPR	80	6.0
Module F	Phlebotomy and Basic Laboratory Skills	80	6.0
Module G	Physical and Occupational Therapy and Clerical Skills II	80	7.0
Module X	Externship	160	5.0
PROGRAM '	TOTAL	720	51.0

#### Module A - Basic Healthcare Concepts and Clerical Skills I

Module A provides the student with an overall understanding to the field of healthcare, particularly as it relates to the "multi-skilled" Patient Care Technician. At the end of the module, students will be able to discuss the various fields of healthcare, infection control, legal and ethical responsibilities, communication and interpersonal skills. Students will be able to identify and explain safety procedures, and skills involved in observations, recording and reporting. In this module, students will be given the opportunity to learn some of the basic clerical and administrative procedures required of the patient care technician in the hospital and health care environment. Prerequisite: None. Lec Hrs: 60 Lab Hrs: 20 Other Hrs: 0

#### Module B - Anatomy & Physiology and Medical Terminology

Module B focuses on the study of anatomy and physiology and its associated terminology. At the end of the module, students will be able to identify the various body systems and through discussions, use the terminology associated with these systems. Students will be able to identify and discuss common disorders and diseases affecting each system. HIV/AIDS is also covered. Prerequisite: None. Lec Hrs: 80 Lab Hrs: 0 Other Hrs 0

#### Module C – Patient Care Skills I

Module C provides the student with the theory and hands-on application involved in providing basic patient care as is required as a patient care technician. In some states, the training in this program readies the student for duties of a nursing assistant. Students will take and record vital signs, demonstrate skills for appropriate personal patient care, simulate procedures for admitting, transferring and discharging patients, and discuss restorative care and meeting the patients' physical and psycho-social needs. Prerequisite: None. Lec Hrs: 40 Lab Hrs: 40 Other Hrs: 0

#### 7.0 Quarter Credit Hours

8.0 Ouarter Credit Hours

6.0 Quarter Credit Hours

V2

61

#### Module D - Patient Care Skills II

6.0 Quarter Credit Hours

Module D provides the student with the theory and hands-on skills involved in providing advanced patient and home health care (Home Health Aide). Students will acquire the skills to determine and discuss therapeutic diets, examine various methods to control infections, identify the components and functions of body mechanics, and simulate caring for the client/patient in the home care setting. Prerequisite: None. Lec Hrs: 40 Lab Hrs: 40 Other Hrs: 0

#### Module E - Electrocardiography and CPR

#### 6.0 Ouarter Credit Hours

6.0 Ouarter Credit Hours

This module will provide the student with the theory and hands-on skills involved in electrocardiography and explore the profession. Students will perform the procedures and record electrocardiographs and demonstrate how to interpret basic EKG's for possible abnormalities. CPR CERTIFICATION IS PART OF THIS MODULE. Prerequisite: None. Lec Hrs: 40 Lab Hrs: 40 Other Hrs: 0

#### Module F - Phlebotomy and Electrocardiography

Module F will provide the student with the theory and hands-on skills involved in phlebotomy and basic lab procedures. Students will explore the profession and perform basic laboratory skills. Students will draw blood samples, collect specimen samples and perform simple laboratory procedures. Prerequisite: None. Lec Hrs: 40 Lab Hrs: 40 Other Hrs: 0

#### Module G - Physical and Occupational Therapy and Clerical Skills II

7.0 Quarter Credit Hours Module G will provide the student with the basic theory and hands-on applications involved in the field of physical therapy and occupational therapy as performed by the patient care technician, the physical therapy aide, and the occupational therapy aide. Students will identify various therapeutic modalities used in both physical therapy and occupational therapy. Students will use various types of communication devices, prepare medical bills, transcribe physician orders and perform computer-based advanced clerical skills. Prerequisite: None. Lec Hrs: 60 Lab Hrs: 20 Other Hrs 0

#### Module X – Externship

#### 5.0 Quarter Credit Hours

After the completion of Modules A-G, students will complete their clinical rotation. The student will apply what has been learned in the classroom and laboratory to "real-life" clinical facility tasks. Students may rotate through various departments within the clinical facility to perform tasks and observe, as appropriate. These experiences will include patient care units, physical therapy, cardiology, laboratory, central service, admitting and the business office areas. Students will work under the direct supervision of qualified personnel in participating institutions and under the general supervision of the PCT program staff. All students will be evaluated at the half-way point and the conclusion of the clinical experience. Patient care technician students must complete the clinical rotation in order to fulfill their requirements for graduation. Prerequisite: Modules A – G. Lec Hrs: O Lab Hrs: O Other Hrs: 160

**Pharmacy Technician** 

*Diploma Program* Brandon, Jacksonville, Lakeland, Largo, Pompano Beach, South Orlando, and Tampa campuses 8 months – 720 hours – 47 credit units

V1

The Pharmacy Technician diploma program provides both technical and practical training that will enable the technician, upon certification, licensure or registration, to function as a competent entry-level pharmacy technician to the licensed pharmacist. The program provides the student with the basic knowledge of and practice in pharmacy calculations, drug distribution systems, and preparation of sterile dosage forms. Computer skills necessary in pharmacy practice will be utilized, and both pharmaceutical and medical terminology and anatomy and physiology are also covered. The program emphasizes theory, as well as hands-on practice, followed by an externship that prepares the student for the actual work setting. Upon completion of this program, the graduate will be fully prepared to take the national pharmacy technician certification exam offered by the Pharmacy Technician Certification Board (PTCB).

Pharmacy services have expanded and grown at an accelerated rate. Pharmacy Technicians play a major role in pharmacy operations and in the overall healthcare work force. As pharmacy services continue to grow, with new services being offered, new drugs entering the market, and as comprehensive drug information becomes a necessity, the need for highly trained pharmacy technicians increases.

Many of the traditional pharmacy functions, once performed by pharmacists, are now being performed by pharmacy technicians. Today's pharmacy technician has assumed a position which supports and enhances the progressive direction taken by pharmacy. The technician has also become the key person in assuring the smooth uninterrupted functioning of traditional pharmacy services.

Pharmacy is a dynamic field requiring an ongoing learning process. Graduates from this training program will become active participants in this growing field by exhibiting competence through knowledge and skills learned through the college.

Module Code	Module Title	Contact Hours	Quarter Credit Hours
MODULE A	Administration of Medications and Pharmacology of the Endocrine/Lymphatic Systems	80	6.0
MODULE B	Aspects of Retail Pharmacy and Pharmacology of the Nervous System	80	6.0
MODULE C	History and Ethics of Pharmacy and Pharmacology of the Respiratory System & Nuclear and Oncology Pharmacy Practice	80	6.0
MODULE D	Infection Control, Medication Errors and Alternative Medicine and Pharmacology of the Integumentary System and Senses	80	6.0
MODULE E	Administrative Aspects of the Pharmacy Technician & Pharmacology of the G.I. and Muscular System	80	6.0
MODULE F	Aspects of Hospital Pharmacy and Pharmacology of the Urinary and Reproductive System	80	6.0
MODULE G	Home Health Care, Pharmacy Operations and Pharmacology of the Cardiovascular, Circulatory and Skeletal System	80	6.0
MODULE X	Clinical Externship	160	5.0
PROGRAM T	OTAL:	720	47.0

 
 Module A
 Administration of Medications and Pharmacology of the Endocrine and Lymphatic Systems

6.0 Quarter Credit Hours

This module is designed to provide the student with an overall understanding of medication administration, safety and quality assurance. Included in this course is an overview and historical development of pharmacy. Body systems are covered in this module which includes the Endocrine and Lymphatic systems, and medications used to treat conditions of the endocrine system. Repackaging and compounding will be discussed and performed. Included in this course is use of policy and procedure manuals, materials management of pharmaceuticals, the pharmacy formulary system, computer applications in drug-use control, receiving and processing medication orders. Preparation and utilization of patient profiles, handling medications, storage and delivery of drug products, records management and inventory control, and compensation and methods of payment for pharmacy services are discussed. Conversions and calculations used by pharmacy technicians will be discussed along with drug dosages in units and working with compounds, admixtures, and parenteral and IV medications. Hands-on skills in the laboratory practice setting are performed. Prerequisite: None. Lecture Hours: 40.0 Lab Hours: 40.0 Other Hours: 0.0

Module BAspects of Retail Pharmacy and Pharmacology of the Nervous System6.0 Quarter Credit HoursThis module is designed to provide the student with responsibilities of a technician filling prescriptions, including the information<br/>required to fill prescriptions and typing the prescription label. This module also covers how to read a drug label. Medications for the<br/>Respiratory and Nervous system are covered including a study of medications for neurological conditions, mental disorders and a<br/>discussion of muscle relaxants. This module will include C.P.R. certification. Hands-on skills in the laboratory practice setting are<br/>performed. Prerequisite: None. Lecture Hours: 40.0 Lab Hours: 40.0 Other Hours: 0.0

#### **ON-GROUND UNDERGRADUATE PROGRAMS**

Module XClinical Externship5.0 Quarter Credit HoursThis 160-hour module is designed to provide the student with supervised, practical hands-on and observational experiences in the working pharmacy. Students will be expected to gain experiences in either a hospital pharmacy or a community (retail) pharmacy. Students will gain exposure to "on-the-job" experiences and training in the pharmacy setting and practice of skills, gaining experiences in all aspects of drug preparation, and distribution utilized by participating sites. Prerequisite: Completion of the Didactic Program. Lecture Hours: 0.0 Lab Hours: 0.0 Other Hours: 160.0.

#### **Residential Heating, Ventilation and Air Conditioning (RHVAC)** Diploma Program Orange Park and Tampa campuses

9 months – 720 hours – 55 credit units

V3

The Residential Heating, Ventilation and Air Conditioning (RHVAC) program provides students the skills required to specialize in the field of residential heating and air conditioning service and repair. Most areas of the world require some residential climate control, therefore basic construction, basic electricity, air conditioning, fuel-heating systems, heat pumps, air distribution, system application and design, system controls, and RHVAC diagnostics are taught in the program.

The RHVAC program consists of nine modules. Upon successful completion of all modules of the program, students will be awarded a diploma.

Graduates of the program can seek employment as entry-level technicians in the residential heating, ventilation and air conditioning field, including Sheet Metal Fabrication Apprentice, Furnace Install and Repair Apprentice, Furnace Cleaner, A/C Mechanic Apprentice, and A/C Install/Service Apprentice. Intermediate and advanced positions include Electrical Heat Assembler, Heating & Air Conditioning Installation/Service, Gas Furnace Installation and Repair, Sheet Metal Mechanic, Sheet Metal Lay-Out, Sheet Metal Machine Operator, Sheet Metal Fabricator, Sheet Metal Installer, A/C Unit Tester, A/C Technician, and A/C Mechanic.

Course Number	Course Title	Clock Hours (Lec/Lab/Ext/Total)	Credit Hours

ACR 216N	RHVAC Diagnostics	40/40/00/80	6.0
	Diploma Total	380/340/00/720	55.0

# **CON 101N Basic Construction**

7 Credit Hours

This course introduces students to the construction field. The course of instruction will cover basic job safety concepts and regulatory requirements; basic math used in the construction trades; the use of common hand and power tools; an introduction to blueprint reading; basic rigging; communication and employability skills. Students will also learn techniques for studying and test-taking. Prerequisite: None. Lecture hours: 60. Lab hours: 20.

# ACR 101N Basic Electricity

6 Credit Hours

This course of instruction will cover basic job safety concepts, history of electricity, electrical theory, electrical power, electrical measuring, applications and electrical components. Power sources, component operation and circuit diagrams are studied. Students use this theory, integrated with objective specific hands-on lab exercises to practice typical equipment manufacturer's diagnostic techniques. Testing instruments and wiring diagrams are used for systems problem-solving projects. Prerequisite: None. Lecture hours: 40.

## ACR 106N Air Conditioning

6 Credit Hours

This course of instruction will cover basic laws of physics and cooling theory, terms, definitions, air conditioning cycles, component operations, mechanical and electrical diagrams, standard and high efficiency Air Conditioning systems are explored. Pressure/ Temperature charts, refrigerant piping specifications and installation. Usages of various tools are covered. Structured lab projects allow students to learn industry-approved diagnostics, service and repair procedures. Prerequisite: None. Lecture hours: 40. Lab hours: 40.

#### **ACR 111N Fuel Heating Systems**

6 Credit Hours

This course of instruction will cover combustion and various hydrocarbon fuels. Appliance heaters and warm air furnaces will be covered. Operation of controls, testing and servicing equipment, installation and operation is also covered. Fuel heating system diagnosis and wiring diagrams are explored. Structured lab projects allow students to learn industry-approved diagnostics, service and repair procedures. Prerequisite: None. Lecture hours: 40. Lab hours: 40.

## ACR 116N Air Distribution

## **6 Credit Hours**

Students in this course of study will learn to read blue prints, use shop math, perform load calculations, indoor air quality, and system air balancing and apply the fundamentals of air distribution to system design. In structured lab projects, students will use the tools and equipment necessary to layout and fabricate HVAC air distribution systems. Prerequisite: CON 101N. Lecture hours: 40. Lab hours: 40.

# ACR 201N Systems Controls

#### **6 Credit Hours**

This course presents electrical and electronics theory, terms, definitions, symbols, circuits, laws and formulas. Power sources, component operation and circuit diagrams are studied. Students use this theory, integrated with objective specific hands-on lab exercises to practice typical equipment manufacturer's diagnostic techniques. Testing instruments and wiring diagrams are used for systems problem-solving projects. Prerequisites: CON 101N and ACR 101N. Lecture hours: 40. Lab hours: 40.

## ACR 206N Heat Pumps

6 Credit Hours

Air properties related to HVAC and heat pump systems design are studied in this course. Component operation, systems diagrams and industry approved troubleshooting are discussed and reinforced with structured lab exercises. Prerequisites: CON 101N, ACR 101N and ACR 106N. Lecture hours: 40. Lab hours: 40

# ACR 211N System Application and Design

## **6 Credit Hours**

This course introduces students to various HVAC system applications. Various HVAC designs, joining and sizing of various types of piping and tubing, system charging, load calculations, wiring, safety and proper diagnostics procedures, EPA Section 608, Refrigerant handling and containment (recovery, recycling and reclaiming) and certification requirements are discussed in this course. Students will participate in structured lab exercises including inspection, diagnostics, service, troubleshooting and repair of residential gas heating systems. Prerequisites: CON 101N, ACR 101N and ACR 106N. Lecture hours: 40. Lab hours: 40.

# **ACR 216N RHVAC Diagnostics**

6 Credit Hours This course introduces students to RHVAC diagnostic fundamentals. Emphasis is placed on testing equipment, gas identifiers, wiring diagrams, refrigerant schematics, systems testing, load distribution and controls operation. Mechanical components, gas pipe sizing, wiring, safety and proper diagnostic procedures are taught. Students will participate in structured lab exercises including inspection, diagnostics, service, troubleshooting and repair of RHVAC systems. Prerequisite: CON 101N, ACR 101N, ACR 106N, ACR 111N and ACR 116N. Lecture hours: 40. Lab hours: 40.

# UNDERGRADUATE CURRICULAR OFFERINGS

# Accounting

Associate in Science Degree 24 months – 96 credit units Bachelor of Science Degree 48 months – 192 credit units Brandon, Jacksonville, Lakeland, Largo, Melbourne, North Orlando, Pompano Beach, South Orlando, and Tampa campuses

V1

Accounting is the language of business, and accounting procedures and records are the basic ingredients that provide students with a broad and diverse background in professional accounting, making a variety of entry-level positions in business, industry, and governmental accounting fields available to graduates of this program.

The Bachelor of Science in Accounting program prepares students to measure and communicate the financial position of an enterprise and provide advice on taxation, management services, and the analysis of information systems.

## Applied Management

Associate of Applied Management Degree

Brandon, Jacksonville, Lakeland, Largo, Melbourne, North Orlando, Orange Park, Pompano Beach, South Orlando, and Tampa campuses 24 months – 970 hours – 96 credit units

*V1* The **Associate of Applied Management** programs are offered for those students who have completed a diploma from an accredited post-secondary institution and whose career goals require a broad knowledge of the functional areas of business. All students will take coursework in the areas of accounting, general business, management, marketing, computer applications, and business law. The program prepares students for a variety of entry-level positions in areas such as sales, office supervision, and small business management.

#### **Applied Management** Bachelor of Science Degree

Brandon, Jacksonville, Lakeland, Largo, Melbourne, North Orlando, Orange Park, Pompano Beach, South Orlando, and Tampa campuses 48 months – 192 credit units

 $V_1$ 

The Bachelor of Applied Management integrates the technical knowledge gained through a diploma program or applied science degree with coursework designed to prepare the student for leadership roles in their chosen field. The curriculum emphasizes the critical thinking and analytical skills necessary to solve problems in today's complex work environment. The program is open to those who have earned an approved certificate, diploma, AS, or AAS degree in a field of applied science.

ELECTIVE RE	EQUIREMENT**	40.0	40.0
TOTAL OUAR	TER CREDIT HOURS REQUIRED FOR GRADUATION:	·	192.0

General Education Requirements: In addition to the courses specified in the General Education section of the program outline, students must complete a total of 24 credits from the following subject areas, with a minimum of 4 credits taken from each area:

- Communications/Humanities
  - o may include ENC 3211, AML 2000
- Social Sciences

•

- o may include SYG 2000, SOP 4005, CPO 4004, AMH 2030, POS 2041,
- ECO 3007, ECO 3028
- Mathematics and Science
- may include: STA 2014

\*Online students will replace this course with an additional General Education Elective course.

\*\*Additional Major Core: Credit will be applied from the student's previously completed certificate, diploma, or associates program. Students who have fewer than 40 transferable major core credits will be required to select additional courses from the business and management areas.

In the event that a student transfers more than 40 major core credits, the Elective requirement may be reduced by an equivalent number of major core credits above the 40 credit requirement. For example, a student who transfers 50 major core credits may have his/her Elective requirement reduced by 10 credits.

**Upper Division Requirement:** Students must complete a minimum of 60 quarter credit hours in upper division coursework. The major core requires 36 credits of upper division, thus the remainder may come from the General Education and Elective areas. Upon admittance to the program, the student will work with an Academic Advisor to develop an approved plan to complete all requirements for the degree within the required time limits. This plan will be periodically evaluated and updated by the student and Academic Advisor.

**Assisted Living Administrator** 

Associate in Science Degree Melbourne campus 24 months – 96 credit units

The Associate in Science degree provides the graduate with comprehensive knowledge of the assisted living industry and also an administrative foundation to become an active participant in this rapidly developing field. The program provides foundational knowledge in health science and aging to prepare graduates to function as managers and advocates for the elderly. Graduates will synthesize health science knowledge with gerontological knowledge and skills and apply it to the population of elderly to improve quality of life. The program also develops the leadership and management skills of the graduates in marketing, resident care, hospitality services, and operations to be effective in the rapidly growing industry. Assisted living is a dynamic field requiring an ongoing learning process. Graduates from this program will become active participants in this expanding field by demonstrating competence through knowledge and skills learned.

 $V_1$ 

This program prepares the student to function with both administrative and operational skills in a position within the assisted living industry. The program consists of 96 units of learning with an externship of 360 hours in an appropriate setting. Students utilize organizational information to examine organizational structure, roles, and functions within the community.

This program provides the 40 hour initial certification instruction required for the RCFE (Residential Care Facilities for the Elderly) administrator that may be required in some states.

## **Business**

Associate in Science Dearee 24 months - 96 credit units Bachelor of Science Degree 48 months – 192 credit units Brandon campus

The Bachelor and Associate in Science in Business programs are offered for those students whose career goals require a broad knowledge of the functional areas of business. All students will take coursework in the areas of accounting, general business, management, marketing, human resources, computer applications, and business law. In addition, students will choose an area of concentration that will comprise the balance of the courses in the major. The following describes each area of concentration.

 $V_1$ 

# **Business Administration**

The Business Administration concentration focuses on the structure, function, and procedures of standard business operations. The program prepares students for a variety of entry-level positions in areas such as sales, office supervision, and small business management. The Bachelor of Science in Business with Business Administration concentration offers additional coursework in finance and investments, management, strategic planning, and other advanced topics that will prepare the graduate of this program for entry- to mid-level positions in business, industry, and government. Management

The Management concentration focuses on the fundamental business management principles utilized by today's businesses. The graduate of this program will be prepared for entry-level positions in supervisory roles in business, industry, and government. The Bachelor of Science in Business with Management concentration offers advanced coursework in management and related topics, helping to develop the diversity of knowledge and skills necessary to attain success in the business management field. Graduates of this program will be prepared for entry to mid-level supervisory and management positions in business, industry, and government.

### Marketing

The concentration in Marketing is designed to provide students with a basic marketing background to prepare for entrylevel positions in business, industry, and government. The Bachelor of Science in Business with Marketing concentration offers additional studies in such areas as marketing research, consumer behavior, promotional strategies, and international marketing. The graduate of this program will be prepared for entry- to mid-level marketing positions in business, industry, and government.

## **International Business**

International business is an important aspect of the business world today. This concentration equips graduates for employment in entry-level positions with companies engaged in international commerce. The Bachelor of Science degree in Business with concentration in International Business provides students with business tools for understanding and dealing in foreign markets. The graduate of this program will be prepared for entry-level and middle-management positions in companies involved in international business.

\*Totally Online students take SPCP2300 Fundamentals of Interpersonal Communication

\*\* Students with less than 36 credits upon admission to the BS program are required to take SLS1105 Strategies for Success, as an elective in the first term of enrollment.

**General Education Requirements:** In addition to the courses specified in the General Education section of the program outline, students must complete a total of 24 credits from the following subject areas, with a minimum of 4 credits taken from each area:

- Communications/Humanities
  - o may include ENC 3211, AML 2000
- Social Sciences
  - o may include SYG 2000, SOP 4005, CPO 4004, AMH 2030, POS 2041
  - Mathematics and Science
    - may include: STA 2014

#### **Computer Information Science**

*Associate in Science Degree* Brandon, Lakeland, Largo, Melbourne, North Orlando, Pompano Beach, South Orlando, Tampa campuses 24 months – 96 credit units

V2

The Associate in Science Degree in Computer Information Science is designed to provide the student with hands-on training in the latest data communications and computer operations technologies. AS Degree students must complete the required coursework in the major core from one of the listed areas of concentration. The following describes each area of concentration. [NOTE: Available concentrations may vary by campus. Please contact the Academic Dean at a specific campus for further information.]

### **Programming:**

This concentration provides coursework in computer programming and systems development, computer hardware and operating systems, as well as accounting and business courses that complement the business-oriented applications graduates will encounter in the work place. The graduate will be familiar with microcomputer applications, programming applications, and design in a programming language. This concentration prepares an individual to enter the information technology industry in a variety of job roles, including entry-level programmer.

#### **Network Administration:**

The Network Administration concentration enables students to build a solid foundation in the key technologies that drive many of today's corporate networks. Students in this concentration will gain hands-on experience with the hardware and software used in personal computers, learn to manage and direct network traffic, and will develop system support skills that focus on installing, administering, and troubleshooting commonly used network hardware and software. This concentration helps prepare graduates for careers as Network Administrators, Network Security Administrators, Database Administrators, Network Technicians, Help Desk Technicians, PC Support Specialists, Database Support Specialists, Technical Support Representatives, and more.

#### Web Design:

The Web Design concentration covers the essential topics necessary to gain a complete understanding of the latest Internet and web site development technologies. Students learn all aspects of implementing an Internet and/or Intranet web site, including site planning and design, and will practice programming interactive web sites using the latest scripting languages and editing software. Graduates will develop a portfolio of their work and will have the opportunity to enter the job market as entry level web designers in a variety of related positions and job titles.

# **Computer Information Science** Bachelor of Science Degree

Brandon, Lakeland, Largo, Melbourne, North Orlando, Pompano Beach, South Orlando, Tampa campuses 48 months – 192 credit units

V2

The Bachelor of Science Degree offers graduates special training in the analysis, design, implementation, maintenance, and use of computer information systems and data base systems. The program focuses on the concepts, principles, goals, functions, and management of information-driven organizations, stressing the development of computer-based applications through the use of programming languages. To ensure graduation with the minimum number of courses, students should choose the CIS Programming concentration for their lower division studies.

# Criminal Justice

Bachelor of Science Degree

Brandon, Jacksonville, Lakeland, Melbourne, North Orlando, Orange Park, Largo, Pompano Beach, South Orlando, and Tampa campuses 48 months – 192 credit units

V2

The Criminal Justice program provides a broad understanding of the criminal justice system and prepares graduates for entry-level and middle management positions in probation, corrections, immigration, law enforcement, and/or security. The program is offered for students who have 36 or more transferable quarter (24 semester) credits. Students who have earned an approved Associate of Arts degree may be enrolled with junior standing and can complete the Bachelors with an additional 96 credits. Students also have the option to pursue a concentration in Criminal Investigations or Homeland Security. See next section for details. The Criminal Justice program is not a training program for law enforcement officers.

### Master of Science in Criminal Justice Bridge Program

The Criminal Justice Department offers eligible students the opportunity to accelerate the completion of both a Bachelor of Science in Criminal Justice and a Masters of Science in Criminal Justice. The Bridge Program is designed to improve access to graduate education and is intended to decrease the repetition of material learned in the undergraduate program. It provides students the opportunity to take graduate level coursework while pursuing the baccalaureate degree. Up to twelve graduate credits may be used toward the completion of the undergraduate degree.

Students with a CGPA of 3.0 or better are eligible to apply to this program in their junior year. Qualified students in the program may take Masters-level courses during their senior undergraduate year. Students may apply by submitting a written request to their Department Chair. The approval of the campus Dean is required.

An articulation of course equivalents ensures that prerequisite requirements are met. Students are assigned faculty advisors to facilitate entrance into the program. Upon completion of the baccalaureate degree and successful completion of the Bridge Program, students will be granted advanced placement within the Masters of Science Program.

#### Health Care Administration

Bachelor of Science Degree Largo, Melbourne, North Orlando, South Orlando, and Tampa campuses 48 months – 192 credit units

Vo

The program in Health Care Administration is designed to provide educational opportunities for students interested in gaining a knowledge base for positions in health care not requiring specialized clinical preparation and for individuals who have completed a health professions program who desire to broaden their education in health services. The major aim of this program is to provide a knowledge base which will prepare the graduate for entry into or advancement in the health care field. Completion of the requirements results in the awarding of the Bachelor of Science degree in Health Care Administration.

The Bachelor of Science in health care administration degree program provides a broad-based background in health care, including management and finance courses. Graduates are prepared for staff support and entry-level management positions in various aspects of health systems including hospitals, nursing homes, alternative care delivery systems, insurance, and medical supply firms. Dependent on the individual's interests, skills, abilities, and/or prior experience, graduates may seek positions in managed care, extended care, home care, out-patient facilities, medical office practices, drug or medical product companies, or acute care facilities. The program is also appropriate preparation for graduate level programs such as medical library science and hospital administration.

# Homeland Security

Associate in Science Degree 24 months – 96 credit units Bachelor of Science Degree 48 months – 192 credit units Pompano Beach campus

The Homeland Security program focuses on the issues of security, intelligence operations, emergency services and crisis management. The Homeland Security program is designed to serve three types of students:

 $V_1$ 

- Students wishing to continue their education and pursue an upper level degree in an area of homeland security studies.
- Students wishing to secure employment in the field of corporate or government security.
- Professionals who need to increase their skills for their present duties.

The Homeland Security program provides a broad understanding of the intelligence cycle, business continuity cycle and security. The degree programs prepare graduates for entry-level career opportunities in corporate or government security operations.

The Associate in Applied Science degree offers a broad range of skills training. The student is offered an interdisciplinary approach to the understanding of the mechanisms of intelligence, business continuity, crisis management, threat assessments and emergency services.

The Bachelor of Science degree in Homeland Security enhances the study of homeland security and expands into areas such as crisis management planning, contingency planning, and directing emergency response operations. Graduates are prepared for entry-level and middle management positions in government or corporate security.

# **Medical Insurance Billing and Coding**

Associate in Science Degree

Brandon, Lakeland, Largo, Melbourne, North Orlando, Orange Park, South Orlando, and Tampa campuses 24 months – 96 credit units

V2

This program is designed to provide comprehensive skills in the administrative, insurance billing, and coding area of study. The program will take the student beyond the basic information adding depth in the many specialty areas of the Medical Insurance Billing industry. The hands on practical approach will give the student the experience and confidence needed to succeed in this highly specialized field. The degree prepares the graduate to be an entry-level professional in medical offices, clinics, hospitals, and associated medical facilities.

This program consists of 96 quarter credit hours including college core requirements, major core requirements, and general education requirements. In addition to completion of all didactic and hands-on courses, students are also required to participate in a 120-hour externship prior to graduation from the program.

Completion of the Medical Insurance Billing and Coding Program is acknowledged by the awarding of an A.S. Degree

Nursing

Associate in Science Degree Brandon campus 24 months – 108 credit units

Philosophy/Purpose: The Nursing Faculty of the Associate Degree Nursing Program believes that individuals are holistic beings who possess unique physiological, psychological, socio-cultural, and spiritual qualities. Individuals continually interact with the environment, thereby learning and adapting to achieve optimum health.

V 1

Health is a dynamic state of wellness or system stability in which individuals adapt to changes in the internal and external environments to maintain harmony between their physiological, psychological, social-cultural, and spiritual states. Responsibility for health/illness care is shared mutually by providers and individuals receiving care. Health attainment, maintenance, restoration, and quality care are rights of each individual regardless of race, religious beliefs, nationality, social, or financial status.

Society has the responsibility to its members both individually and collectively to provide an environment that fosters health promotion, attainment, maintenance, and restoration. Society must strive to achieve optimal care within a legal and ethical framework while managing economic restraints and technological advances in health care. Environment is viewed as an open system within which the individual interacts continuously. It has both internal and external components, which are affected by changes within the physical, emotional, spiritual, economic, and cultural state of the individual.

Nursing is both an art and science and nurses provide nursing care within their scope of practice. It is a unique profession that deals with all of the dynamics affecting individuals and views the individual as a holistic being (Bio-psycho-social-spiritual). Nurses collaborate with other members of the health care team to encourage individuals to participate in their care. The foundation of nursing practice is the nursing process, which the nurse uses to assist individuals and families to attain mutually agreed upon goals.

Associate Degree nurses provide care within their scope of practice. The nursing process is used for the assessing, diagnosing, planning, implementing, and evaluating of health care services and care of the individual. Since the delivery of health care is dynamic, the registered nurse evaluates individuals based on their goal achievement, need for reassessment and refocus of priorities with the ultimate end of setting new goals. Care is given within a sound legal and ethical framework.

The associate degree nurse is expected to develop necessary skills for collaboration with members of the health care team including the client, family and/or significant others.

Teaching-Learning Process: Learning is a continuous, active lifelong process. Learning progresses sequentially from simple to complex and results in behavioral changes in cognitive, psychomotor, and affective domains. Nurses seek educational resources that provide opportunities for learning experiences that maintain and enhance knowledge and skills, as well as those that foster continued competence, nursing practice and increased professional growth.

The teaching-learning process is at its best when students actively participate in their learning experiences and take responsibility for achieving programmatic competencies. In this process the teacher is a facilitator, coach, counselor, and resource person. Furthermore, the teacher and student share the responsibility of building an atmosphere that fosters a learning community that promotes intellectual curiosity, critical and analytical thought, and individual creativity. To that end, nursing faculty uses a variety of teaching techniques to accommodate students from diverse backgrounds and experiences.

Hence, nursing education is both a system and a process. Students bring with them a broad range of experiences as well as their ability to respond to and adapt to ongoing inputs and expected behavioral changes. These inputs awaken students to their ability to deliver nursing care. The Nursing Faculty are committed to facilitating this process through their monitoring the teaching-learning environment to ensure optimal experiences and evaluating the students and program to achieve the outcome of safe and effective practitioners of nursing.

Conceptual Framework: Based on the philosophy the Nursing Faculty has selected the following concepts in which the nursing program is structured.

- Therapeutic Nursing Interventions -- The process in which nurses use their skills to assist a diverse population of clients across the lifespan with health promotion and disease prevention. These nursing actions are performed independently and collaboratively.
- Critical Thinking -- The process which employs (or utilizes) reasoning and creativity in the assessment, interpretation, analysis, synthesis, evaluation, and inference as a basis for professional nursing practice.
- <u>Communication</u> -- The medium by which information is received, interpreted, and transmitted as written, verbal and non-verbal interactions.
- Health promotion -- Activity by the learner that facilitates optimal health states for individuals, families and communities that sustain or increase wellness.
- Professional Role -- The developmental process by which the student learns about the standards and rules of the nursing profession established by the code of ethics, professional organizations and state regulatory agencies.

In this Associate Degree Nursing program, utilizing the conceptual framework which is based on the 5 concepts the student is introduced to the care of individuals with special and more complex needs throughout the life span. This program will prepare the nursing student to assume the role of the registered nurse in the ever-evolving health care field. The program includes a focus on theories, concepts, and principles of nursing. It also delves into the important area of leading and managing as well as pertinent legal issues faced by nursing leaders and managers. Emphasis will be on the methods to become an effective leader/manager including interpersonal skills needed for effective leadership and management of the different types of organizations delivering health care and outcomes management. A graduate of this nursing program will be prepared to assume the role of health provider in a global society. He or she will be able to deliver culturally proficient care while meeting the physical, spiritual and psychosocial needs of clients. At the completion of this program, the nursing student will

be prepared to take the NCLEX-RN exam for registered nursing licensure. Once licensed, the individual may use the title of Registered Nurse.

Program Outcomes: Upon graduation the student is prepared to:

- Integrate principles from natural sciences, humanities, social sciences and nursing when providing care to clients 1. throughout the lifespan with diverse needs in a variety of health care settings.
- Apply the nursing process to provide safe and competent nursing care for culturally diverse clients throughout the 2. lifespan.
- Implement professional communication principles with diverse client populations and the healthcare team. 3.
- Utilize therapeutic nursing interventions that promote wellness and assist in the prevention of illness across the 4. lifespan.
- Display accountability and professional values by practicing within the prescribed ethical and legal standards. 5. 6.
- Demonstrate critical thinking in providing care for culturally diverse clients throughout the lifespan.

Nursing

Bachelor of Science Degree Brandon campus 18 months – 96 credit units

V 1 This program will prepare the Registered Nurse with an Associate Degree in Nursing to earn a Bachelor's of Science Degree in Nursing. This program will continue to build upon the existing Associate Degree Nursing conceptual framework. Through critical thinking the RN/BSN student will enhance systematic interventions through research and statistical methods. The student will be prepared for an expanded role as caregiver, change agent and educator. The program integrates wholistic care in a diverse population through community and public health.

# Paralegal

Associate in Science Degree

Brandon, Jacksonville, Lakeland, Largo, Melbourne, North Orlando, Pompano Beach, South Orlando, and Tampa campuses

24 months – 96 credit units

V 1

Graduates of the Paralegal program are prepared, under the direction of an attorney, to interview, gather, review, and analyze factual situations; research the law; prepare and interpret legal documents; and conduct day-to-day operations of a legal office. Graduates of the program may find employment in legal offices, state and federal government agencies, corporate legal departments, consumer groups, insurance companies, banks, title companies, and legal aid societies. The Paralegal program is a terminal degree in that it trains individuals for entry-level positions and is not a preparatory curriculum for law school.

# Paralegal

Bachelor of Science Degree

Brandon, Largo, Melbourne, North Orlando, Pompano Beach, South Orlando, and Tampa campuses 48 months – 192 credit units V 2

Graduates of the Paralegal program are prepared, under the direction of an attorney, to interview, gather, review and analyze factual situations; research the law; prepare and interpret legal documents, and conduct day to day operations of a legal office. Graduates of the program may find employment in legal offices, state and federal government agencies, corporate legal departments, consumer groups, insurance companies, banks, title companies, and legal aid societies.

The Bachelor of Science degree in Paralegal enhances the study of law and legal research to permit graduates to further their legal knowledge while enhancing their opportunity for career advancement. The program is offered for students who have 36 or more transferable quarter (24 semester) credits. Students who have earned an approved Associate of Arts degree may be enrolled with Junior standing and can complete the bachelors with an additional 96 credits.

The Paralegal program is a terminal degree in that it trains individuals for entry-level positions and is not a preparatory curriculum for law school.

\*Not offered online. Online students will replace SPC 2016 with a General Education elective.

**Associate of Arts Transfer Students:** Students who enroll with an approved Associate of Arts degree\* will have 96 transfer credits applied to the overall degree requirement of 192 quarter credits. Approval is based upon the degree being earned at an accredited institution, and includes a minimum of 36 semester or 54 quarter credits of general education coursework. Transfer students in this category have satisfied all elective and general education requirements, with the exception of **SLSP 3130 --Principles and Applications of Adult Learning**. Students successfully completing the remaining 96 credits in the program will fulfill all course requirements for the Bachelors degree.

All other students admitted to program: must complete the degree requirements as described below.

**Credits requirements for degree: s**tudents must complete a minimum of 192 credits in the major core, general education, and elective categories.

**\*\*General Education Requirements:** In addition to the courses specified in the general education section of the program outline, students must complete a total of 24 credits from the following subject areas, with a minimum of 4 credits taken from each area:

- Communications/Humanities
  - may include ENCP 3211, AML 2000
- Social Sciences

•

- may include SYG 2000, SOP 4005, CPO 4004, AMH 2030, POS 2041, ECOP 3013, ECO 3028 Mathematics and Science
- may include: STA 2014

**Elective Requirements:** Students may fulfill the balance of the credit requirements for the degree by taking up to 46 credits in the electives category.

\*\*To include a minimum of 54 quarter credits of general education coursework taken from the Humanities, Social Sciences and Math/Science categories.

#### **Pharmacy Technician** Associate in Science Degree

Brandon, Jacksonville, Melbourne, North Orlando, South Orlando, and Tampa campuses 24 months – 97 credit units

V 1

The Pharmacy Technician program is designed to provide students with a broad academic and clinical background in the field of pharmacy technology, coupled with a solid understanding of basic general education concepts. The degree prepares the graduate for an entry-level position in health care facilities and/or retail establishments (i.e.: hospitals and medical centers, teaching facilities, out-patient clinics, urgent care centers, and retail and wholesale pharmacies).

The Pharmacy Technician program provides both technical and practical training that will enable the technician, upon certification, licensure or registration, to function as a competent entry-level pharmacy technician under the licensed pharmacist. The program provides the student with the basic knowledge of and practice in pharmacy calculations, drug distribution systems, and preparation of sterile dosage forms. The program also provides skills and practice in computer skills; applicable pharmaceutical and medical terminology; and anatomy and physiology. The program emphasizes theory, as well as hands-on practice, followed by an externship that prepares the student for the actual work setting. Upon completion of this program, the graduate will be fully prepared to take the national pharmacy technician certification exam offered by the Pharmacy Technician Certification Board (PTCB).

Pharmacy services have expanded and grown at an accelerated rate. Pharmacy Technicians play a major role in pharmacy operations and in the overall healthcare workforce. The need for highly-trained pharmacy technicians increases as pharmacy services continue to grow with new services being offered, new drugs entering the market, and as comprehensive drug information becomes a necessity.

Many of the traditional pharmacy functions once performed by pharmacists are now being performed by pharmacy technicians. Today's pharmacy technician has assumed a position which supports and enhances the progressive direction taken by pharmacy. The technician has also become the key person in assuring the smooth uninterrupted functioning of traditional pharmacy services.

Pharmacy is a dynamic field requiring an ongoing learning process. Graduates from this training program will become active participants in this growing field by exhibiting competence through knowledge and skills learned in the program.

**Radiologic Technology** 

Associate in Science Degree Brandon campus 27 months – 152.5 credit units

V 1

The Radiologic Technology Program is designed to provide students with a broad academic and clinical background in the field of radiologic technology coupled with a firm foundation in general education. The degree prepares the entry-level graduate for a position in hospitals and medical facilities, out-patient imaging centers and urgent care clinics. The radiologic technology program provides both technical and practical training which will enable the student upon certification to function as a competent entry-level radiologic technologist. Clinical practice provides the student with hands-on training preparing them for their professional role as a radiologic technologist.

The program provides the student with the basic knowledge of and practice in routine radiography, fluoroscopy and special radiographic procedures as well as an introduction to mammography, computerized tomography (CT) and magnetic resonance imaging (MRI). An overview of ultrasound (US), nuclear medicine (NM) and other imaging modalities is provided. The basic mechanics of each modality is emphasized and explored.

The program also provides classroom instruction in Fluoroscopy. The instruction in fluoroscopy will include, but not be limited to, the following:

- 1. Fluoroscopy regulations and radiation safety
- 2. Fluoroscopy equipment
- 3. X-ray intensification
- 4. Television, including closed circuit equipment
- 5. Image recording and image recording equipment
- 6. Special fluoroscopy equipment including Digital fluoroscopy
- 7. Anatomy and physiology of the eye
- 8. Three-dimensional and radiological anatomy

During the clinical fluoroscopy instruction, students will learn and identify the following:

- 1. Methods of reducing dose to patients during fluoroscopic procedures
- 2. Methods of reducing dose to patients during fluoroscopy procedures
- 3. Image recording during the exposure
- 4. Quality control of fluoroscopy equipment

Participation in the Senior Student Presentation process is mandatory. Between quarters 6 to 8, second year students will submit a research paper on any selected modality or current program-related issue and present his/her paper to the class. Interactive class involvement is highly encouraged.

Surgical Technologist Associate in Science Degree Brandon campus 24 months – 98 credit units

Surgical technologists are allied health professionals who are an integral part of the team of medical practitioners providing surgical care to patients in a variety of settings. They work under medical supervision to facilitate the safe and effective conduct of invasive surgical procedures. This individual works under the supervision of a surgeon to ensure that the operating room or environment is safe, that equipment functions appropriately, and that the operative procedure is conducted under conditions that maximize patient safety.

V1

The surgical technologist possesses the appropriate expertise in the theory and application of sterile and aseptic technique and combines the knowledge of human anatomy, surgical procedures, and implementation tools and technologies to facilitate a physician's performance of invasive therapeutic and diagnostic procedures. The goal and objective of this 1390-hour program is preparation of the student to be a competent entry-level surgical technologist by achievement and demonstration of learning within the following three domains; cognitive (knowledge), affective (behavior), and psychomotor (skills).

The program consists of 98 quarter credit hours, including college core requirements, major core requirements, and general education requirements. Two of the courses within the major core involve students going out to the clinical sites and performing hands-on skills which they were taught in the classroom. These are referred to as "clinical rotations." During these rotations, students are given the opportunity to observe and become part of the surgical team, as they gain hands-on practice working side-by-side with surgeons and other operating room personnel. Students must document a total of 125 procedures in the first scrub solo role or with assist. Eighty of these procedures must be in the five core areas of General, Orthopedics, ENT, Gynecology and Genitourinary. The 45 remaining procedures will be in the specialty areas. The clinical case requirements must meet the Core Curriculum for Surgical Technology, 5th Edition.

Student activities associated with the curriculum must be educational. Students will be required to complete 500 hours of clinical rotation for completion of this program. The 500 hours cannot be completed in the work place of the student or in a work setting where the student is being compensated for the hours.

\*Upon successful completion of the entire course of study, students are eligible to take the national certification exam, sponsored by the National Board of Surgical Technology and Surgical Assisting (NBSTSA). The NBSTSA awards certificates to those who demonstrate their theoretical and practical knowledge by passing the National Surgical Technologist Examination. Graduates who pass this exam earn the distinction of being able to work as a Certified Surgical Technologist (CST).

## **GRADUATE CURRICULAR OFFERINGS**

### **GRADUATE STUDIES MISSION**

The basic mission of the graduate programs is acquisition of knowledge and the ever-continuing attainment and refinement of useful skills. The graduate programs emphasize initiative, independence, and critical thinking.

### **Business Administration** *Master of Science Degree*

Brandon, Jacksonville, Largo, Melbourne, North Orlando, Pompano Beach, South Orlando, and Tampa campuses

56 credit units

V1

The Master of Business Administration program enhances the students' effectiveness in business and industry through the continued acquisition and refinement of knowledge and skills. The MBA program emphasizes the development of critical thinking, initiative, independence, and responsibility necessary to achieve the heightened self-discipline, skill, and reasoning to become valued leaders in the business community. In addition, a graduate student may include an area of concentration by completing four (4) courses, from any one concentration category listed: Accounting, Human Resources Management, International Business or General Management.

Applicants whose undergraduate degrees are in a field outside the program areas are encouraged to apply.

NOTE: Prerequisite foundation work may be required before selected higher level coursework may be attempted. All graduate students must meet certain prerequisite requirements prior to enrolling in Managerial Economics, International Economic Systems, Quantitative Methods, Financial Management, and certain graduate-level accounting courses. Previous transcripted coursework in these areas at either the undergraduate or graduate level may be acceptable to suffice the prerequisite requirement.

Course Code		Course	Quarter Credit Hours
PRERI	EQUISIT	ES

## Criminal Justice

*Master of Science Degree* Brandon, Jacksonville, and Pompano Beach campuses 54-56 credit units

 $V_2$ 

The Master of Science in Criminal Justice program is designed to meet the needs of a highly focused but multifaceted institution of American society, the criminal justice system. The program utilizes a multi-discipline approach to serve the variety of agencies/departments within the criminal justice community. The curriculum is designed to offer a balance of theory and application that will prove to be challenging to the student and useful in the field, and focuses on law enforcement administration, corrections, juvenile justice, drug abuse, and abuse counseling.

## **ONLINE PROGRAMS**

The information contained in the "Online Programs" section of the catalog pertains only to online degree programs (those programs available in their entirety for strictly online study) and not to the University's traditional on-ground programs. Students who are enrolled on-ground and take online courses are subject to the same regulations as those students who take all their classes on-ground. Students enrolled in online degree programs may also be subject to the policies outlined in the remainder of this catalog. For online degree students, any discrepancies between information and policies in the online section of the catalog and those in the remainder of the catalog are resolved based on the information and policies in this online section of the catalog.

## **GENERAL ADMISSIONS REQUIREMENTS**

Graduation from high school or its equivalent is a prerequisite for admission to the University. Applicants not completing a secondary program or not having a diploma will be considered for admission on the basis of the General Education Development (GED) test or other equivalency. Prospective students will also complete a distance learning quiz with which students can assess their ability to complete an online course. Applicants are informed of their acceptance status shortly after all required information is received and the student's qualifications reviewed. Students may apply for admission at any time.

The CPAt is not a requirement for 100% on line students. Ability to Benefit students are ineligible to become 100% online students.

## **PROGRAMS AND COURSES**

## Description

Online programs are offered via the Internet, and interaction between the students and faculty occurs using an online environment that encourages participation. Courses will generally be identical in content to the on-ground mode, although more individual effort and initiative will be required to successfully master the material.

### Requirements

Online courses are offered using the eCollege platform via the Internet, and interaction between the students and faculty occur using an online environment that encourages participation. Courses will generally be similar in content to the in-class mode, although more individual effort and initiative will be required to successfully master the material. Online courses will be designated on the class schedule so students may register during the normal registration period.

To maximize success within the online courses, students must:

- Have a computer with a system profile that meets or exceeds the following: Windows Systems Windows 2000, XP, or Vista 64 MB Ram 28.8 kbps modem (56K recommended) Sound Card & Speakers Recommended Browser: Microsoft Internet Explorer 7.0 Recommended Browser: Mozilla Firefox 2.0 Supported Browser: Microsoft Internet Explorer 6.0 Supported Browser: Mozilla Firefox 3.0 or... Mac Systems Mac OS X or higher (in classic mode) 32 MB RAM (64 recommended) 28.8 kbps modem (56K recommended) Sound Card & Speakers Recommended Browser: Safari 3.0 Recommended Browser: Mozilla Firefox 2.0 Supported Browser: Safari 2.0 Supported Browser: Mozilla Firefox 3.0 Complete the application only once but check quarterly to make sure they are maintaining the correct systems profile; Have Internet access and an established email account;
- Verify their email account/address with their Online Coordinator at the time of registration each quarter;
- Commence online course work as soon as you have access to your courses;
- Understand that student participation and class activities occur weekly throughout the course.

Understand that if a student fails to participate in class activities during two consecutive weekly periods of a six-week course or three consecutive periods of a twelve-week course, the student may be withdrawn from the course and may not be allowed to reenter the course during that term.

## **ORIENTATION**

Students enrolling in the online programs will be required to participate in an online orientation course developed by Everest University. The orientation course includes information on Everest University and the online degree programs, how to use the University system to access academic advisors and other services, how to access the course and find the syllabus, and how to use the major platform tools. In addition there is an online orientation course developed by eCollege that further explains the course tools and their use.

### **PARTICIPATION POLICY**

Your education here is designed to prepare you for successful employment in the workplace. Therefore, it is critical that professional behavior be practiced at all times. This includes timely and consistent participation in all classes, meeting assignment deadlines, and meaningful participation in class-related activities.

Each course within the programs offered will have regularly scheduled academic activities that occur throughout the term. These academic activities are integral to ensure that course outcomes are met and that specific learning objectives are achieved within individual courses. Academic activities provide the faculty with specifics that aid in the assessment of student performance and the eventual awarding of a final course grade. The importance of student participation in these activities is key to the mastery of material within the course of study.

Academic activities are defined as, but not specifically limited to:

An examination/quiz	A tutorial session
Computer-assisted instruction	Instructor lecture or demonstration
Presenting material (oral or written)	Attending a guest lecture
Participating in a field trip	Participating in role play activities
Simulations	Library research
Viewing instructional media	Mid-term assessment performed by faculty to evaluate student progress
A survey evaluating the course material, text, and	Completing a course assignment, including research, projects, and
instructor performance	journalizing

Your success relies heavily on consistent and meaningful participation in the above-defined class-related/academic activities. Importance is placed on mirroring the model of the workplace to begin reinforcing the importance of consistent participation in the classroom and the expectation of consistent attendance/participation in the workplace. Collaborative learning within the curriculum prepares you to be comfortable with the learning team concept that is prevalent in today's workplace.

## **ONLINE LIBRARY**

The University Online Library supports the curriculum and provides information for online students, faculty, and staff through information and reference materials and through electronic access with the Central Florida Library Consortium, the Tampa Bay Library Consortium, and the Library and Information Resources Network (LIRN).

## **ONLINE PROGRAM TUITION AND FEES**

Tuition and fees information can be found in Appendix B: Tuition and Fees in this catalog.

The tuition and fees listed in Appendix B will be charged for the student's first quarter (or mid-term quarter start) in attendance. Tuition and fees for subsequent quarters will be charged at the published rate in effect at the beginning of that quarter.

The minimum full-time course load is 12 credits per quarter. Non-credit-bearing coursework will be charged at the same rate as credit-bearing coursework. All credits for which a student is registered are charged at the current rates, including any courses being repeated. Arrangements to cover tuition cost and fees must be completed prior to registration each quarter.

The student's total tuition for a given quarter is determined by multiplying the number of credit hours for which the student is registered at the end of the drop/add period by the then current tuition rate for that number of credit hours.

Tuition will be charged on a quarterly basis. A \$25 down payment will be charged to all students their first quarter. The first quarter fee must be paid by cash, check, or credit card. Additional fees, not included in the above costs, may be assessed. Information concerning additional fees may be found in the Tuition and Fees section of this catalog in Appendix B.

### WITHDRAWAL PROCEDURES

Students finding it necessary to withdraw from the University are requested to notify the University in writing as to why and when the withdrawal is necessary and to complete all necessary paperwork with the University. Failure to do so will delay out-processing and may result in a delay of any refund that may be due the student or the funding source.

Withdrawal from any individual course must be approved by the Student Services Coordinator. Upon withdrawal, grades will be assigned in accordance with the applicable Grading System.

## **READMISSION OF WITHDRAWN STUDENTS**

Withdrawn students requesting reentry must petition the Readmission Committee. Information concerning the readmission procedure may be obtained by calling the Online Student Services Coordinator. If a student is permitted reentry, the student must normally meet all conditions of the catalog and tuition and fee structure in effect at the time of readmission. The reentry student may petition the Online Student Services Coordinator for permission to reenter under his or her prior catalog curriculum. The Online Student Services Coordinator will make the final determination on all such petitions.

### **GRIEVANCE POLICY**

In the event a student feels his/her rights have been violated, the following procedures should be followed:

- 1. The student must first try to resolve the issue with the University staff or faculty member involved.
- 2. If the matter is not resolved, the student should schedule a telephone meeting with the Online Dean of Student Services.
- 3. If the matter is still not resolved, the student should request in writing or via e-mail, through the Campus President, a grievance hearing that will give him/her an opportunity to present his/her position and supporting documentation.

This hearing will be conducted by telephone. A Grievance Committee is selected by the President and is comprised of five (5) disinterested persons from the faculty and administration, plus the President (as a non-voter). The Director of Online Learning may also be a member of the Committee. After the hearing, the Committee shall make a decision by a simple majority vote and communicate, in writing, the decision to the President. The President will notify the student of the resolution of the grievance.

Those individuals other than active students who may wish to lodge a complaint against the University are required to follow the steps below:

- 1. The individual must first try to resolve the issue of concern with the staff or faculty member involved.
- 2. If the matter is not resolved, the individual should schedule a meeting with the Online Dean of Student Services.
- 3. If the matter is still not resolved, the individual should request in writing a telephone meeting with the Campus President in which he/she will be given an opportunity to present his/her position and supporting documentation, if applicable. After review and consideration of the issues, the President will notify the complainant of the decision.

It is the philosophy of the University that all complaints be handled by individual campus management. If the problem remains unresolved, students may contact the Student Help Line at (800) 874-0255 or email studentservices@cci.edu.

If a student feels that the University has not adequately addressed a complaint or concern, the student may consider contacting the Accrediting Council. Please direct all inquiries to:

Accrediting Council for Independent Colleges and Schools 750 First Street, N.E., Suite 980 Washington, DC 20002-4241 (202) 336-6780

### Accounting

Associate in Science Degree 24 months – 96 credit units Bachelor of Science Degree 48 months – 192 credit units Online campus

Accounting is the language of business, and accounting procedures and records are the basic ingredients that provide students with a broad and diverse background in professional accounting, making a variety of entry-level positions in business, industry, and governmental accounting fields available to graduates of this program.

V 1

The Bachelor of Science in Accounting program prepares students to measure and communicate the financial position of an enterprise and provide advice on taxation, management services, and the analysis of information systems.

Applied Management

Bachelor of Applied Management Degree Online campus 24 months – 96 credit units

The Bachelor of Applied Management integrates the technical knowledge gained through a diploma program or applied science degree with coursework designed to prepare the student for leadership roles in their chosen field. The curriculum emphasizes the critical thinking and analytical skills necessary to solve problems in today's complex work environment. The program is open to those who have earned an approved certificate, diploma, AS, or AAS degree in a field of applied science.

	Must include at least one course from each of the following subject		
	areas:		
	Communications/Humanities		
	Math/Science		
	Social Science		
	TOTAL GENERAL EDUCATION CREDIT HOURS:		54.0
	EQUIREMENT**	40.0	40.0
TOTAL QUA	RTER CREDIT HOURS REQUIRED FOR GRADUATION:		192.0

General Education Requirements: In addition to the courses specified in the General Education section of the program outline, students must complete a total of 24 credits from the following subject areas, with a minimum of 4 credits taken from each area:

- Communications/Humanities
  - o may include ENC 3211, AML 2000
- Social Sciences

•

- may include SYG 2000, SOP 4005, CPO 4004, AMH 2030, POS 2041, ECO 3007, ECO 3028
- Mathematics and Science
  - may include: STA 2014

\*Online students will replace this course with an additional General Education Elective course.

\*\*Additional Major Core: Credit will be applied from the student's previously completed certificate, diploma, or associates program. Students who have fewer than 40 transferable major core credits will be required to select additional courses from the business and management areas.

In the event that a student transfers more than 40 major core credits, the Elective requirement may be reduced by an equivalent number of major core credits above the 40 credit requirement. For example, a student who transfers 50 major core credits may have his/her Elective requirement reduced by 10 credits.

**Upper Division Requirement:** Students must complete a minimum of 60 quarter credit hours in upper division coursework. The major core requires 36 credits of upper division, thus the remainder may come from the General Education and Elective areas. Upon admittance to the program, the student will work with an Academic Advisor to develop an approved plan to complete all requirements for the degree within the required time limits. This plan will be periodically evaluated and updated by the student and Academic Advisor.

### **Business**

Associate in Science Degree 24 months – 96 credit units Bachelor of Science Degree 48 months – 192 credit units Online campus

V 1

The Bachelor and Associate in Science in Business programs are offered for those students whose career goals require a broad knowledge of the functional areas of business. All students will take coursework in the areas of accounting, general business, management, marketing, human resources, computer applications, and business law. In addition, students will choose an area of concentration that will comprise the balance of the courses in the major. The following describes each area of concentration.

### **Business Administration**

The Business Administration concentration focuses on the structure, function, and procedures of standard business operations. The program prepares students for a variety of entry-level positions in areas such as sales, office supervision, and small business management. The Bachelor of Science in Business with Business Administration concentration offers additional coursework in finance and investments, management, strategic planning, and other advanced topics that will prepare the graduate of this program for entry- to mid-level positions in business, industry, and government.

### Management

The Management concentration focuses on the fundamental business management principles utilized by today's businesses. The graduate of this program will be prepared for entry-level positions in supervisory roles in business, industry, and government. The Bachelor of Science in Business with Management concentration offers advanced coursework in management and related topics, helping to develop the diversity of knowledge and skills necessary to attain success in the business management field. Graduates of this program will be prepared for entry to mid-level supervisory and management positions in business, industry, and government.

### Marketing

The concentration in Marketing is designed to provide students with a basic marketing background to prepare for entrylevel positions in business, industry, and government. The Bachelor of Science in Business with Marketing concentration offers additional studies in such areas as marketing research, consumer behavior, promotional strategies, and international marketing. The graduate of this program will be prepared for entry- to mid-level marketing positions in business, industry, and government.

### International Business

International business is an important aspect of the business world today. This concentration equips graduates for employment in entry-level positions with companies engaged in international commerce. The Bachelor of Science degree in Business with concentration in International Business provides students with business tools for understanding and dealing in foreign markets. The graduate of this program will be prepared for entry-level and middle-management positions in companies involved in international business.

**Computer Information Science** Associate in Science Degree Online campus

24 months – 96 credit units

V 1

The Associate in Science degree in Computer Information Science is designed to provide the student with hands-on training in the latest data communications and computer operations technologies. AS degree students must complete the required coursework in the major core from one of the listed areas of concentration. The following describes each area of concentration.

### Programming

This concentration provides coursework in computer programming and systems development, computer hardware, and operating systems, as well as accounting and business courses that complement the business-oriented applications graduates will encounter in the work place. The graduate will be familiar with microcomputer applications, programming applications, and design in a programming language. This concentration prepares an individual to enter the information technology industry in a variety of job roles, including entry-level programmer.

### **Network Administration**

The Network Administration concentration enables students to build a solid foundation in the key technologies that drive many of today's corporate networks. Students in this concentration will gain hands-on experience with the hardware and software used in personal computers, learn to manage and direct network traffic, and develop system support skills that focus on installing, administering, and troubleshooting commonly used network hardware and software. This concentration helps prepare graduates for careers as Network Administrators, Network Technicians, Help Desk Technicians, PC Support Specialists, Technical Support Representatives, and more.

### Web Design

The Web Design concentration covers the essential topics necessary to gain a complete understanding of the latest Internet and web site development technologies. Students learn all aspects of implementing an Internet and/or Intranet web site, including site planning and design, and will practice programming interactive web sites using the latest scripting languages and editing software. Graduates will develop a portfolio of their work and will have the opportunity to enter the job market as entry-level web designers in a variety of related positions and job titles.

## **Computer Information Science**

Bachelor of Science Degree Online campus 48 months 192 credit units

V 1

**The Bachelor of Science degree** offers graduates special training in the analysis, design, implementation, maintenance, and use of computer information systems and database systems. The program focuses on the concepts, principles, goals, functions, and management of information-driven organizations, stressing the development of computer-based applications through the use of programming languages. To ensure graduation with the minimum number of courses, students should choose the CIS Programming concentration for their lower division studies.

### **Criminal Justice**

Bachelor of Science Degree (Optional concentration in Criminal Investigations or Homeland Security) Online campus

48 months – 192 credit units

V 2

The Criminal Justice program provides a broad understanding of the criminal justice system and prepares graduates for entry-level and middle management positions in probation, corrections, immigration, law enforcement, and/or security. The program is offered for students who have 36 or more transferable quarter (24 semester) credits. Students who have earned an approved Associate of Arts degree may be enrolled with junior standing and can complete the Bachelors with an additional 96 credits. Students also have the option to pursue a concentration in Criminal Investigations or Homeland Security. See next section for details. The Criminal Justice program is not a training program for law enforcement officers.

Associate of Arts Transfer Students: Students who enroll with an approved Associate of Arts degree\* will have 96 transfer credits applied to the overall degree requirement of 192 quarter credits. Approval is based upon the degree being earned at an accredited institution, and includes a minimum of 36 semester or 54 quarter credits of general education coursework. Transfer students in this category have satisfied all elective and general education requirements, with the exception of SLSP 3130 -- Principles and Applications of Adult Learning. Students successfully completing the remaining 96 credits in the program will fulfill all course requirements for the Bachelors degree.

All other students admitted to program: must complete the degree requirements as described below.

Credits requirements for degree: students must complete a minimum of 192 credits in the major core, general education, and elective categories.

\*General Education Requirements: In addition to the courses specified in the general education section of the program outline, students must complete a total of 28 credits from the following subject areas, with a minimum of 4 credits taken from each area:

Communications/Humanities

- o may include ENC 3211, AML 2000
- Social Sciences
  - o may include SYG 2000, SOP 4005, CPO 4004, AMH 2030, POS 2041, ECO 3007, ECO 3028 Mathematics and Science
- o may include: STA 2014

Elective Requirements: Students may fulfill the balance of the credit requirements for the degree by taking up to 46 credits in the electives category.

\*To include a minimum of 54 quarter credits of general education coursework taken from the Humanities, Social Sciences and Math/Science categories.

### **Concentration in Investigations**

•

Students completing the following courses as part of the degree will receive a concentration in Criminal Investigations. These courses may be taken to fulfill a portion of the elective requirement.

CJE 2678	Crime Scene Dynamics I	4.0
CJE 2679	Crime Scene Dynamics II	4.0
CJE 2673	Graphics and Documentation I	4.0
CJE 2602	Graphics and Documentation II	4.0

CJE 2691	Technology Crimes II	4.0
CJE 2676	Biological Evidence I	4.0
	TOTAL	28.0

### **Concentration in Homeland Security**

Students completing the following courses as part of the degree will receive a concentration in Homeland Security. These courses may be taken to fulfill a portion of the elective requirement.

CJL 1110	Civil & Criminal Justice	4.0
DSC 1030	Tactical Communications	4.0
DSC 1011	Domestic & International Terrorism I	4.0
SCC 1102	Business & Ethics for Security Specialists	4.0
DSC 2210	<b>Emergency Planning &amp; Security Measures I</b>	4.0
DSC 2008	Security: Principles, Planning & Procedures I	4.0
DSC 2812	Information Technology Security I	4.0
	Total	28.0

### Master of Science in Criminal Justice Bridge Program

The Criminal Justice Department offers eligible students the opportunity to accelerate the completion of both a Bachelor of Science in Criminal Justice and a Masters of Science in Criminal Justice. The Bridge Program is designed to improve access to graduate education and is intended to decrease the repetition of material learned in the undergraduate program. It provides students the opportunity to take graduate level coursework while pursuing the baccalaureate degree. Up to twelve graduate credits may be used toward the completion of the undergraduate degree.

Students with a CGPA of 3.0 or better are eligible to apply to this program in their junior year. Qualified students in the program may take Masters-level courses during their senior undergraduate year. Students may apply by submitting a written request to their Department Chair. The approval of the campus Dean is required.

An articulation of course equivalents ensures that prerequisite requirements are met. Students are assigned faculty advisors to facilitate entrance into the program. Upon completion of the baccalaureate degree and successful completion of the Bridge Program, students will be granted advanced placement within the Masters of Science Program.

Bridge Program - Replace following BS coursework with related MS Coursework

CJ BS Core		
CCJ 3666	Victimology	4
CCJ 4054	Criminal Justice Ethics and Liability	4
CCJ 3675	Women, Crime, and Criminal Justice	4
MS Bridge Course	ŝ	
CCJ 5665	Victimology	4
CCJ 5489	Ethics in Criminal Justice	4
CCJ 5672	Women, Crime, and Criminal Justice	4

## **Higher Education Management**

Bachelor of Science Degree Online campus 48 months – 192 credit units

This Bachelor of Science degree program is designed to provide successful graduates with the knowledge and tools needed to assume leadership positions within the private post-secondary school industry. The program combines coverage of general concepts common to the administration of schools in the higher education environment with coursework focusing on the management of a proprietary education college. Students have the opportunity to apply and integrate the knowledge and skills learned in the program through a series of project courses that address the typical challenges facing school managers in key functional areas, including Admissions, Academics, Placement, and Finance. Students who have earned an approved Associate of Arts degree may be enrolled with junior standing and may complete the Bachelors program by earning an additional 96 credits. Note: Enrollment in the program is currently limited to employees of Corinthian Colleges, Inc.

**Elective Requirements:** Students may fulfill the balance of the credit requirements for the degree by taking up to 46 credits in the electives category.

Students may complete the requirements for the degree through a combination of transfer credit, coursework taken through the University, credit earned through the submission of an experiential learning portfolio, and credit by exam. Upon admittance to the program, the student will meet with an Academic Advisor to develop an approved plan to complete all requirements for the degree within the required time limits. This plan will be periodically evaluated and updated by the student and Academic Advisor.

Homeland Security

Associate in Science Degree 24 months – 96 credit units Bachelor of Science Degree 48 months – 192 credit units Online campus

The Homeland Security program focuses on the issues of security, intelligence operations, emergency services and crisis management. The Homeland Security program is designed to serve three types of students:

V 1

- Students wishing to continue their education and pursue an upper level degree in an area of homeland security studies.
- Students wishing to secure employment in the field of corporate or government security.
- Professionals who need to increase their skills for their present duties.

The Homeland Security program provides a broad understanding of the intelligence cycle, business continuity cycle and security. The degree programs prepare graduates for entry-level career opportunities in corporate or government security operations.

The Associate in Applied Science degree offers a broad range of skills training. The student is offered an interdisciplinary approach to the understanding of the mechanisms of intelligence, business continuity, crisis management, threat assessments and emergency services.

The Bachelor of Science degree in Homeland Security enhances the study of homeland security and expands into areas such as crisis management planning, contingency planning, and directing emergency response operations. Graduates are prepared for entry-level and middle management positions in government or corporate security.

**Medical Insurance Billing and Coding** Associate in Science Degree Online campus

24 months – 96 credit units

V 2

This program is designed to provide comprehensive skills in the administrative, insurance billing, and coding area of study. The program will take the student beyond the basic information adding depth in the many specialty areas of the Medical Insurance Billing industry. The hands on practical approach will give the student the experience and confidence needed to succeed in this highly specialized field. The degree prepares the graduate to be an entry-level professional in medical offices, clinics, hospitals, and associated medical facilities.

This program consists of 96 quarter credit hours including college core requirements, major core requirements, and general education requirements. In addition to completion of all didactic and hands-on courses, students are also required to participate in a 120-hour externship prior to graduation from the program.

Completion of the Medical Insurance Billing and Coding Program is acknowledged by the awarding of an A.S. Degree

Paralegal

Associate in Science Degree 24 months – 96 credit units Bachelor of Science Degree 48 months – 192 credit units Online campus

V 1 Graduates of the Paralegal Program are prepared, under the direction of an attorney, to interview, gather, review, and analyze factual situations; research the law; prepare and interpret legal documents; and conduct day-to-day operations of a legal office. Graduates of the program may find employment in legal offices, state and federal government agencies, corporate legal departments, consumer groups, insurance companies, banks, title companies, and legal aid societies. The Legal Assistant/Paralegal Program is a terminal degree in that it trains individuals for entry-level positions and is not a preparatory curriculum for law school.

The Bachelor of Science degree in Paralegal enhances the study of law and legal research to permit the graduate to further their legal knowledge while enhancing their opportunity for career advancement.

**Business Administration** *Master of Science Degree* Online campus 21 months – 56 credit units

V1

The Master of Business Administration program enhances the students' effectiveness in business and industry through the continued acquisition and refinement of knowledge and skills. The MBA program emphasizes the development of critical thinking, initiative, independence, and responsibility necessary to achieve the heightened self-discipline, skill, and reasoning to become valued leaders in the business community. In addition, a graduate student may include an area of concentration by completing four (4) courses, from any one concentration category listed: Accounting, Human Resources Management, International Business or General Management.

Applicants whose undergraduate degrees are in a field outside the program area are encouraged to apply.

NOTE: Prerequisite foundation work may be required before selected higher level coursework may be attempted. All graduate students must meet certain prerequisite requirements prior to enrolling in Managerial Economics, International Economic Systems, Quantitative Methods, Financial Management, and certain graduate-level accounting courses. Previous transcripted coursework in these areas at either the undergraduate or graduate level may be acceptable to suffice the prerequisite requirement.

Course Code		Course	Quarter Credit Hours		
PREREQUISITES					
ACG	5027	Financial Accounting –OR-	4.0		
APA	2111	Principles of Accounting I* -AND-	4.0		
APA	2121	Principles of Accounting II*	4.0		
ECO	5010	Economic Analysis of the Firm –OR-	4.0		
ECO	3028	Microeconomics* -OR-	4.0		
ECO	3007	Macroeconomics *	4.0		
QMB	5305	Statistics for Managers –OR-	4.0		
STA	2014	Statistics*	4.0		

\*In some instances, previous undergraduate coursework, or courses available at an Everest University campus, can suffice for or be taken in lieu of meeting graduate prerequisite course requirements. Undergraduate prerequisites are not considered as credit toward the completion of the fifty-six (56) quarter credit MBA program.

Course Code		Course	Quarter Credit Hour	S	
GRADUATE CORE REQUIREMENTS (to be taken by all majors)					
MAN	5245	Organizational Behavior	4.0

## **Criminal Justice**

Master of Science Degree Online campus 21 months – 54 or 56 credit units

V 2

The Master of Science in Criminal Justice program is designed to meet the needs of a highly focused but multifaceted institution of American society, the criminal justice system. The program utilizes a multi-discipline approach to serve the variety of agencies/departments within the criminal justice community. The curriculum is designed to offer a balance of theory and application that will prove to be challenging to the student and useful in the field and focuses on law enforcement administration, corrections, juvenile justice, drug abuse, and abuse counseling.

## **COURSE OFFERINGS**

### **COURSE NUMBERING SYSTEM**

Everest University uses the following course numbering system:

- oooo-oog9 Preparatory courses
- 1000-2999 Lower division (first and second year) courses
- 3000-4999 Upper division (third and fourth year) courses
- 5000-6999 Graduate-level courses (open to graduate or post-Bachelor students only)

Students enrolled in Associate's degree programs primarily take courses in the lower division, although they are not restricted from taking upper division courses in order to fulfill program course requirements or elective course requirements, provided prerequisites, if any, are satisfied.

## FLORIDA'S STATEWIDE COURSE NUMBERING SYSTEM

Pursuant to SCNS requirements, the University informs the student of the following:

Courses in this catalog are identified by prefixes and numbers, many of which were assigned by Florida's SCNS. This numbering system is used by all public postsecondary institutions in Florida and 31 participating non-public institutions. The major purpose of this system is to facilitate the transfer of courses between participating institutions.

Each participating institution controls the title, credit, and content of its own courses and recommends the first digit of the course number to indicate the level at which a student normally take the course. Course prefixes and the last three digits of the course numbers are assigned by members of faculty discipline committees appointed for that purpose by the Florida Department of Education in Tallahassee. Individuals nominated to serve on these committees are selected to maintain a representative balance as to type of institution and discipline field or specialization.

The course prefix and each digit in the course number have a meaning in the Statewide Course Numbering System (SCNS). The list of course prefixes and numbers, along with their generic titles, is referred to as the "SCNS taxonomy." Descriptions of the content of courses are referred to as "course equivalency profiles."

Prefix	Level Code	Century Digit	Decade Digit	Unit Digit	Lab Code
	(first digit)	(second digit)	(third digit)	(fourth digit)	
SYG	1	0	1	0	
Sociology, General	Freshman Level at this institution	Entry-level General Sociology	Survey Course	Social Problems	No Laboratory component in this course

### **Example of Course Identifier**

### **General Rule for Course Equivalencies**

Equivalent courses at different institutions are identified by the same prefixes and same last three digits of the course number and are guaranteed to be transferable between participating institutions that offer the course, with a few exceptions. (Exceptions are listed below.)

For example, a survey course in social problems is offered by 35 different postsecondary institutions. Each institution uses "SYG\_010" to identify its social problems course. The level code is the first digit and represents the year in which students normally take the course at a specific institution. In the SCNS taxonomy, "SYG" means "Sociology, General," the century digit "0" represents "Entry-level General Sociology," the decade digit "1" represents "Survey Course," and the unit digit "0" represents "Social Problems."

In science and other areas, a "C" or "L" after the course number is known as a lab indicator. The "C" represents a combined lecture and laboratory course that meets in the same place at the same time. The "L" represents a laboratory course or the laboratory part of a course, having the same prefix and course number without a lab indicator, which meets at a different time or place.

Transfer of any successfully completed course from one participating institution to another is guaranteed in cases where the course to be transferred is equivalent to one offered by the receiving institution. Equivalencies are established by the same prefix and last three digits and comparable faculty credentials at both institutions. For example, SYG 1010 is offered at a community college. The same course is offered at a state university as SYG 2010. A student who has successfully complete SYG 1010 at the community college is guaranteed to receive transfer credit for SYG 2010 at the state university if the student transfers. The student cannot be required to take SYG 2010 again since SYG 1010 is equivalent to SYG 2010. Transfer credit must be awarded for successfully completed equivalent courses and used by the receiving institution to determine satisfaction of requirements by transfer students on the same basis as credit awarded to the native students. It is the prerogative of the receiving institution, however, to offer transfer credit for courses successfully completed that have not been designated as equivalent.

### **The Course Prefix**

The course prefix is a three-letter designator for a major division of an academic discipline, subject matter area, or subcategory of knowledge. The prefix is not intended to identify the department in which a course is offered. Rather, the content of a course determines the assigned prefix to identify the course.

### Authority for Acceptance of Equivalent Courses

Section 1007.24(7), Florida Statutes, states:

Any student who transfers among postsecondary institutions that are fully accredited by a regional or national accrediting agency recognized by the United States Department of Education and that participate in the statewide course numbering system shall be awarded credit by the receiving institution for courses satisfactorily completed by the student at the previous institutions. Credit shall be awarded if the courses are judged by the appropriate statewide course numbering system faculty committees representing school districts, public postsecondary educational institutions, and participating nonpublic postsecondary educational institutions to be academically equivalent to courses offered at the receiving institution, including equivalency of faculty credentials, regardless of the public or nonpublic control of the previous institution. The Department of Education shall ensure that credits to be accepted by a receiving institution are generated in courses for which the faculty possess credentials that are comparable to those required by the accrediting association of the receiving institution. The award of credit may be limited to courses that are entered in the statewide course numbering system. Credits awarded pursuant to this subsection shall satisfy institutional requirements on the same basis as credits awarded to native students.

### **Exceptions to the General Rule for Equivalency**

The following courses are exceptions to the general rule for course equivalencies and may not transfer. Transferability is at the discretion of the receiving institution

- A. Courses not offered by the receiving institution
- B. Courses with the last three digits ranging from 900-999 (e.g., ART 2905)
- College preparatory and vocational preparatory courses C.
- Internships, practica, clinical experiences, and study abroad courses with numbers other than those ranging from D. 900-999
- Applied performance or studio courses in Art, Dance, Interior Design, Music and Theatre E.
- Skills courses in Criminal Justice F.
- G. Graduate courses
- H. For courses at non-regionally accredited institutions, courses offered prior to the established transfer date of the course

Questions about the Statewide Course Numbering System and appeals regarding course credit transfer decisions should be directed to the Transfer Center, Toll Free: 877-727-0058 in the Campus Support Center or the Florida Department of Education, Office of Articulation, 1401 Turlington Building, Tallahassee, Florida 32399-0400. Special reports and technical information may be requested by calling the Statewide Course Numbering System office at (850) 245-0427, SunCom 205-0427 or via the Internet at http://scns.fldoe.org.

## **COURSE DESCRIPTIONS** NOT ALL COURSES LISTED ARE AVAILABLE AT ALL LOCATIONS

ACG 2021 Introduction to Corporate Accounting 4.0 Quarter Credit Hrs This course defines financial accounting objectives and their relationship to business. Students are introduced to the fundamental principles of accounting and the accounting cycle as it applies to corporations. Prerequisite APA 2121 Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

### ACG 2178 Financial Statement Analysis

4.0 Quarter Credit Hrs The basics of financial statement analysis in directing a firm's operations are covered in this course. Students will gain an understanding of how funds are acquired in financial markets and the criteria used by investors in deciding where to place their funds. Prerequisite: ACG 2021. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

### ACG 2551 Non-Profit Accounting

4.0 Quarter Credit Hrs In this course the student explores accounting systems unique to non-profit organizations. Accounting principles for hospitals and educational organizations are examined. Prerequisite: ACG 2021. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

### ACG 3073 Accounting for Managers

This course teaches the student how to use and interpret accounting information in day to day management. Emphasis is placed on the general knowledge and decision making practices used by managers when addressing issues in service, financial, not-for-profit and manufacturing companies. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

### ACG 3103 Intermediate Accounting I

This is an upper level course for the serious accounting student. It is a continuation and comprehensive study of financial accounting concepts, applications, and the presentation of information in financial statements. Emphasis is placed on review of the value of money and accounting for cash and receivables. Prerequisite: APA 2161. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

### ACG 3113 Intermediate Accounting II

This is a continuation and comprehensive study of financial accounting theory and applications. Emphasis is placed on accounting for inventories, long-term assets and liabilities, and stockholders' equity. Prerequisite: ACG 3103. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

4.0 Quarter Credit Hrs

ACG 3123 Intermediate Accounting III 4.0 Quarter Credit Hrs This is a continuation and comprehensive study of financial accounting concepts, applications, and the presentation of information in financial statements. Emphasis is placed on special topics in income determination and financial reporting. Concepts of revenue

### costing techniques including job order, process costing, and standard costing with emphasis on managerial application. Prerequisite: APA 2121. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

APA 2161 Introductory Cost/Managerial Accounting

### APAP 3320 Accounting and Control for Hospitality 4.0 Quarter Credit Hrs This course serves as a survey of accounting methods, controls, and practices commonly found in hotels, motels, restaurants, clubs,

software. Students will gain experience in integrated software designed to handle general ledger, accounts payable, accounts receivable, financial statement analysis, fixed assets, sales order processing, inventory, and payroll. Prerequisite: APA 2121. Lec. Hrs.

This course examines the development and operation of cost accounting systems. Topics include basic cost concepts and product

and institutions. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

## **ART 1300C Principles of Drawing I**

**APA 2141 Computerized Accounting** 

030 Lab Hrs. 020 Other Hrs. 000

4.0 Quarter Credit Hrs An introduction to the basic principles, material and techniques necessary to develop skills in drawing. Emphasis is placed on basic shapes, perspective and composition. Descriptive and proportional accuracy as well as development of observational utility is discussed. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

## **ART 1301C Principles of Drawing II**

4.0 Quarter Credit Hrs An amplification of the theories introduced in Principles of Drawing I with the addition of color theory and color techniques, which are explored in practical application. Emphasis is placed on increasing students' knowledge of the visual relationship between object and image. Prerequisite: ART 1300C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# ART 2330C Anatomy and Figure Drawing

4.0 Quarter Credit Hrs An initial study of drawing fundamentals as they apply to the human form and its structure. Students work in various media concentrating on gesture, contour, volume, mass and proportional accuracy. Prerequisite: ART 1301C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

## BSC 1085 Anatomy and Physiology I

This course is a scientific study of the structure of the human body and its parts including relationships and functions of the integumentary, skeletal, muscular, nervous system, special senses and the endocrine systems. Prerequisite: HSC 1531. Lec Hrs: 40.0 Lab Hrs: 0.0 Other Hrs: 0.0.

## BSC 1086 Anatomy and Physiology II

4.0 Ouarter Credit Hrs This course is a study of the structure of the human body and its parts including relationships and functions of the cardiovascular, lymphatic, respiratory, digestive, urinary and reproductive systems. Prerequisites: HSC 1531 and BSC 1085. Lec Hrs: 40.0 Lab Hrs: 0.0 Other Hrs: 0.0.

## BSC 2080 Anatomy and Physiology of Body Systems

4.0 Quarter Credit Hrs This course is the study of basic anatomy and physiology for the student who is preparing for a career in the health sciences. This course will provide the background science information needed for an understanding of anatomy and physiology. The content of this class begins with a description of a single cell and progresses through the various organ systems. Prerequisite: HSC 1524. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

## **BUL 2131 Applied Business Law**

This course is designed to provide students with information on the essentials of the nature of law and the functions of the judicial system in the business environment. An overview of legal characteristics of a sole proprietorship, partnerships and corporations are discussed. Prerequisite: None. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

## **BUL 2261 International Business Law**

4.0 Quarter Credit Hrs This course provides a survey of international laws and regulations affecting the international business arena. A special emphasis will be placed on the evolving changes in international regulation and its impact on multinational companies. Prerequisite: None. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

## BUL 3241 Business Law I

Law is studied in relation to the proper conduct of business, including consideration of the nature and source of law, courts, and courtroom procedure. The course includes a survey of the basic laws concerning contracts, agency, partnerships, and corporations. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

## BUL 3242 Business Law II

A study of the basic laws concerning bailments, sales, credit instruments, negotiable instruments, insurance, and Uniform Commercial Code. Prerequisite: BUL 3241. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

## CAP 2103 Biometrics

This course introduces biometrics, the emerging human recognition technology. Three primary characteristics of biometrics will be explored: security, convenience, and cost. These characteristics will be applied in perspective to human beings and the efficiency of using such systems as authentication mechanisms. Prerequisite: CGS 2167C. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 4.0 Quarter Credit Hrs

### CCJ 1017 Criminology

The study of crime and causes of crime, the types of crime, and crime prevention strategies and society's response to crime. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

## CCJ 1024 Introduction to Criminal Justice

4.0 Quarter Credit Hrs This course provides an overview and introduction to criminal justice. Focus on the nature of crime, law and criminal justice, the Police and Law Enforcement, the makeup of the courts, the adjudication system, the issues facing police, corrections, and a review of the nature and history of the juvenile justice system. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

## **CCJ 1610 Criminal Investigations**

4.0 Quarter Credit Hrs Basic investigative techniques, taking witness statements, interviews and reports are covered. An overview of police procedures is also included. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

### 4.0 Quarter Credit Hrs This course emphasizes the practical application of fundamental accounting principles through the use of automated accounting

CCJ 1910 Career Choices in Criminal Justice	4.0 Quarter Credit Hrs
This course provides an overview of employment in the criminal justice field. Topics include nature of the	
opportunities, median income, training, opportunity for advancement, employment outlook for ten different	ent general classifications.
Prerequisite: CCJ 1024. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000	
CCJ 2250 Constitutional Law for the Criminal Justice Professional	4.0 Quarter Credit Hrs
This course examines the United States Constitution and its implication for criminal justice system policies	s and practices.
Prerequisite: CCJ 1024. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000	
CCJ 2306 Introduction to Corrections	4.0 Quarter Credit Hrs
This course will examine an overview of the history of corrections and punishment in America with a revie process including: probation, intermediate sanctions, restorative justice, imprisonment and the death per	W of the correctional
management and operation of correctional facilities, inmate life and environment will be examined, include	
prisoners' rights. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000	ling the legal foundation of
CCJ 2358 Criminal Justice Communications	4.0 Quarter Credit Hrs
This course will introduce the students to proper communication techniques within the community and the	
environment. Interviewing techniques; written communication, report writing; and testimony will be a pa	
040 Lab Hrs. 000 Other Hrs. 000	
CCJ 2501 Juvenile Justice	4.0 Quarter Credit Hrs
Examination of the historical development of concepts of delinquency and modern juvenile justice system	
juvenile court processes, intake services, remedial procedures and the effects of the system are included ir	this course. Prerequisite:
CCJ 1024. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000	
CCJ 2679 Introduction to Victims Advocacy	4.0 Quarter Credit Hrs
This course examines criminal victimization in the United States. The topics include the historical treatm	
character and extent of modern criminal victimization, the nature of victimization experience, victim treat	
criminal justice system. Prerequisite: CCJ 1024 (None for HS Major). Lec Hrs. 040 Lab Hrs. 000 Other H	
CCJ 2943 Current Issues in Criminal Justice	4.0 Quarter Credit Hrs
This course presents an analysis of significant issues confronting modern day criminal justice practitioner	
of law enforcement, the courts, corrections, and juvenile justice. Prerequisite: CCJ 1024 for Criminal Just	ce majors (none for
Criminal Investigation majors). Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000	
<b>CCJ 3334 Alternatives to Incarceration</b> This course is an overview of contemporary non-institutional methods of correction utilized by the Americ	4.0 Quarter Credit Hrs
Prerequisite: CCJ 1024. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000	an correctional system.
CCJ 3450 Criminal Justice Management	4.0 Quarter Credit Hrs
An examination of front-line supervision, executive development, administrative leadership, and recent the	
criminal justice management. Prerequisite: CCJ 1024. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000	
CCJ 3666 Victimology	4.0 Quarter Credit Hrs
This course examines criminal victimization in the United States. Topics covered include the historical tre	
the character and extent of modern criminal victimization, the nature of the victimization experience, vict	
the justice system, and reforms implemented to enhance the justice-system response to victimization. Pre	
for HS Major). Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000	-
CCJ 3675 Women, Crime, and Criminal Justice	4.0 Quarter Credit Hrs
This course provides an examination of the role women play as perpetrators of crime, crime victims, and p	
criminal justice system. In addition, theories of female criminality and the general social forces influencin	
offenders, victims, and justice system staff will be covered. Prerequisite: CCJ 1024 (DSC 2010 for HS Maje	or) Lec. Hrs. 040 Lab Hrs.
000 Other Hrs. 000	
CCJ 4054 Criminal Justice Ethics and Liability	4.0 Quarter Credit Hrs
The various forms of corruption, misconduct and abuse of authority that exist within the criminal justice s	
analyzed. Areas of negligence, which lead to liability, will be explored. Prerequisite: CCJ 1024 (PLA 1003	for Paralegal major). Lec.
Hrs. 040 Lab Hrs. 000 Other Hrs. 000	to Organtan Croadit Una
CCJ 4127 Criminal Justice in the Community This course explores the interrelationships and role expectations among the various administrations of just	4.0 Quarter Credit Hrs
agencies and the public. Principal emphasis will be placed upon the professional image of the system of ju	
development of positive relationships between members of the system and the public. Prerequisite: CCJ 1	
000 Other Hrs. 000	024. Lee. 1113. 040 Lab 1113.
CCJ 4129 Cultural Diversity for Criminal Justice Professional	4.0 Quarter Credit Hrs
This course focuses on understanding various cultural perspectives and appropriate law enforcement poli	
cultural expectations. Prerequisite: CCJ 1024 (DSC 2010 for HS Major; PLA 1003 for Paralegal major) Le	
Other Hrs. 000	
CCJ 4656 Gang Activity and Drug Operations	4.0 Quarter Credit Hrs
This course focuses on the establishment of gangs, organizational structure, behavior patterns, and recrui	
course also examines the criminal justice response to gang-related problems, including violence and drug	
CCJ 1024. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000	_ •
CCJ 5006 Overview of Criminal Justice	4.0 Quarter Credit Hrs
This course is designed to provide students with a broad overview of criminal justice and to orient them to	
foundations. Focusing on the underpinnings of the administration of justice as well as contemporary issu	
criminal justice system as a whole, its component parts, and its most significant processes. Lec. Hrs. 040	Lab Hrs. 000 Other Hrs.

### CCJ 5019 Crime and Criminology

4.0 Quarter Credit Hrs This course provides an examination of the major theories in criminology and their application to understanding crime and responses to the crime problem. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

### CCJ 5405 Criminal Justice Management

Various concepts and methods of criminal justice management are explored in detail. Using a variety of justice system agencies as examples, the course will view the behavioral and functional aspects of modern supervision and examine contemporary management styles. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

### CCJ 5408 Interpersonal Management Skills

This course is designed to increase knowledge and competence in managing interpersonal interaction in a variety of professional settings. Strategies and styles of conflict resolutions are examined, as well as techniques for motivating colleagues and clients. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

### CCJ 5489 Ethics in Criminal Justice

An overview of ethical theory, doctrines, and controversies in the field of criminal justice. Emphasis will be placed upon the dilemmas faced by criminal justice practitioners seeking to make appropriate ethical judgments and decisions. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

### CCJ 5665 Victimology

Although most criminal justice courses are oriented around issues associated with the offender, this course will examine issues related to victimization. These topics include the historical role of victims in the formal and informal justice process, the nature and extent of modern criminal victimization, the victimization experience, victim participation in the justice system, and recent trends in transforming the role of the victim in the justice process. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

### CCJ 5657 Substance Use, Crime, and Criminal Justice

4.0 Quarter Credit Hrs This course is an examination of the social response to illegal use of mood-altering substances. Major initiation in law enforcement, courts, corrections, and substance abuse therapy will be discussed. In addition, preventive strategies will be described and evaluated, and informal methods of response to substance abuse considered. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

### CCJ 5672 Women, Crime, and Criminal Justice

4.0 Quarter Credit Hrs This course provides an examination of the role women play as perpetrators of crime, crime victims, and professionals working in the criminal justice system. Theories of female criminality and the social forces influencing the treatment of women as offenders and victims will be covered. The continuing emergence of women in justice-related occupations will also be discussed. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

### CCJ 5702 Applied Research Methods

4.0 Quarter Credit Hrs This course provides an in-depth study of research methods designed to prepare students to conduct applied research in their major field of study in preparation for a research practicum, externship, thesis, or capstone. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

### CCJ 5704 Statistics for Criminal Justice

This course examines the major concepts, techniques, applications, and interpretations of statistical methods in criminal justice. Emphasis is placed on understanding when various statistical techniques are appropriate, and interpretation of the results of such techniques. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

### CCJ 5781 Writing for Research at the Graduate Level

This course permits students to begin to develop skills in reading and understanding research, writing research proposals, and writing formal research reports on original research. Emphasis will be placed on two important, yet often neglected, research methodologies. Lec. Hrs. 020 Lab Hrs. 000 Other Hrs. 000

### CCJP 2288 Spanish for the Criminal Justice Professional

This course provides criminal justice professionals with a fundamental communication skill set in the Spanish language. Students will address Spanish phrases and terms that will enhance the ability to respond to emergencies and function in other justice related environments. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

### CCJP 4400 Criminal Justice Senior Capstone Experience

4.0 Quarter Credit Hrs The Senior Capstone course is designed to: (1) help seniors integrate the knowledge gained from their other required criminal justice courses, (2) assist them in developing analytical thinking skills through focusing on selected topics using a seminar approach, and (3) to support them in gaining a better understanding of the criminal justice profession and the role they may play in it. The capstone course will support students in learning to pose significant questions grounded in existing theory and inquiry, select and use methods appropriate to the question and research context, produce appropriate evidence, subject the evidence to analysis, respond to critiques and provide advice and comments for other's research, organize oral and written presentations in response to fair and open critiques. Prerequisite: the student must be in good standing as stated in the Standards of Satisfactory Academic Progress and be in the last 24 credits of their program and/or have approval of the Department Chair. Lec Hrs: 040 Lab Hrs: 000 Other Hrs: 000

### **CCJP 4550 Criminal Justice Externship**

4.0 Quarter Credit Hrs This course provides the student with the opportunity to directly apply the knowledge and skills learned in the program by working in a criminal justice agency or other suitable location for 120 Hrs. Lee Hrs 000 Lab Hrs. Prerequisite: the student must be in good standing as stated in the Standards of Satisfactory Academic Progress and be in the last 24 credits of their program and/or have approval of the Department Chair. Lec Hrs: 000 Lab Hrs: 000 Other Hrs: 120

### **CCJP 5000 Navigating Graduate School in Justice Studies**

2.0 Quarter Credit Hrs This course is designed to provide students with a basic knowledge of what the successful graduate student needs by establishing the transition from passive to active learning strategies and techniques. Transition will be achieved through addressing psychological, philosophical and mechanical processes in graduate studies. Lec. Hrs. 020 Lab Hrs. 000 Other Hrs. 000

### **CCJP 5450 Critical Issues in Criminal Justice**

4.0 Quarter Credit Hrs A course designed to provide students with an opportunity to explore a variety of topics related to the field of Criminal Justice. During the term, the course will contain an overview of the problems associated with business, industry and government crime. The history and antecedent conditions related to white collar crime will be reviewed and specific behaviors will be analyzed in detail. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# **CCJP 6000 Criminal Justice Capstone**

The Criminal Justice Capstone is a comprehensive assessment of knowledge and skills required for successful performance in a variety of related organizations. This course consists of a portfolio development project that encompasses scholastic and personal self assessment, writing, and peer review. This class must be taken during the last two quarters of the program. Lec. Hrs. o6o Lab Hrs. 000 Other Hrs. 000

# **CEN 1056C Project Development**

2.0 Quarter Credit Hrs This course prepares students to administer and participate in effective project development. Emphasis will be on people, planning, processes, and communication. Students will work in teams to define project objectives, schedule, budget, and accomplish project objectives on time and within budget. Prerequisite: None. Lec. Hrs. 020 Lab Hrs. 000 Other Hrs. 000

# CEN 1301C Core Technologies

4.0 Quarter Credit Hrs This course covers both Microsoft Windows NT network administration and technical support. There is an emphasis on terminology, the procedures for installing, configuring, and troubleshooting Microsoft Windows NT Server and Workstation. Students will complete administrative tasks using Microsoft Windows NT. In addition, students will use directory services, implement security procedures such as rights and permissions and audit policies. Prerequisite: CGS 1283C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000 4.0 Quarter Credit Hrs

# **CEN 1509C Computer Networking Fundamentals**

This course provides an overview of the field of local area networking and internetworking. Students are introduced to the terminology, operating systems, hardware, and administration of various components of a computer network, including network topology, TCP/IP, the OSI reference model, and network security, among others. Students also learn and perform basic end-user functions and introductory administration operations of a network. Prerequisite: None. Lec. Hrs 030 Lab Hrs. 020 Other Hrs. 000

# **CEN 1561C Network Operating Systems - Client**

This course covers the essential topics necessary to enable students to set up and support the client side of a network operating system. Students build real world support skills by working via lessons and hands-on labs to gain practical experience with installing, administering, and troubleshooting a network operating system desktop environment. Prerequisite: CEN 1509C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# **CEN 1562C Network Operating Systems - Server**

This course covers the essential topics necessary to enable students to set up and support the server side of a network operating system. Students build real world support skills by working via lessons and hands-on labs to gain practical experience with installing, administering and troubleshooting a network server. Prerequisite: CEN 1509C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# **CEN 2304C Windows NT Enterprise**

This course provides advanced study of local and wide area networks using Microsoft NT networking software. It focuses on installing the Windows NT network server, troubleshooting the network, installation applications, and attaching peripherals. Students learn to optimize local and wide area networks to increase the performance. In addition, the course focuses on features such as trust relationships, authentication, domains, system commands, and performance, handling printing problems, program fixes, backup and recovery, objects, and queues. Students will work with problem determination procedures, system bottlenecks and database measurement. Prerequisite: CEN 1562C Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# CEN 2327C Network Infrastructure

This course covers the topics necessary for students to be able to deliver secure and reliable networking services to organizations utilizing Microsoft network operating systems. Working via lessons and hands on labs, students learn how to install, manage, and troubleshoot the network protocols and services utilized in the network operating system. Prerequisite: CEN 1562C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# **CEN 2328 Internet Information Server**

This course prepares students to implement, administer, and manage Microsoft's Internet Information Server to provide secure, managed access for organizations to the Internet to conduct business. An emphasis of the course will be on internal communications and data access using the Internet. Important topics will be Internet and network security. Prerequisite: CEN 1301C. Lec. Hrs. 010 Lab Hrs. 020 Other Hrs. 000

# **CEN 2506C Multiplatform Networking**

4.0 Quarter Credit Hrs This course prepares students to install, configure, and troubleshoot multiple networks internetworking in a multiplatform environment. Topics such as internetworking multiple vendor network software with associated hardware requirements will be covered. Peripherals such as printers, their diagnostics, and their troubleshooting in a multiplatform environment will be covered. Prerequisites: CEN 2504C and CEN 2304C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# CEN 2507C Installation and Configuration for Networks

4.0 Quarter Credit Hrs This course presents a practical, in-depth study of the techniques for installing, configuring, and troubleshooting hardware and software issues for networks. Students will prepare computers for networks with such activities as: 1) partitioning hard disks, 2) installing hardware such as network interface cards and cables, 3) installing software such as network operating system and drivers, and 4) adding peripherals such as printers to the network. Students will observe symptoms and then isolate problems to discern and correct network failure. Extensive practice in configuring and troubleshooting networks and installing application software. Prerequisite: CEN 1503C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# **CENP 1800 Diagnostics and Troubleshooting**

This course builds on the material covered in the two prerequisites to give students experience in diagnosing, troubleshooting, and repairing PC hardware and operating systems. By the end of the course, students should have the ability to build a fully functional personal computer from scratch, as well as diagnose and repair malfunctions in an existing machine. Prerequisites: CGS 1280C and CGS 1763C. Lec. Hrs. 010 Lab Hrs. 020 Other Hrs. 000

# **CENP 2345**C Network Security

4.0 Quarter Credit Hrs This course covers the fundamentals of security in networks and focuses on the implementation of security strategies and the configuration, maintenance, monitoring and troubleshooting of the available security features. Through a combination of Lecs and hands-on labs, students learn how to plan and deploy secure communications for wireless networks, and remote applications. Prerequisite: CTS 2303C, CTS 2320C and CIS 2354C. Lec. Hrs: 30. Lab Hrs: 20. Other Hrs: 0.

# 2.0 Ouarter Credit Hrs

4.0 Ouarter Credit Hrs

# 6.0 Ouarter Credit Hrs

# 4.0 Quarter Credit Hrs

4.0 Quarter Credit Hrs

# 4.0 Quarter Credit Hrs

# **CENP 2420C Implementing and Administering Databases**

This course covers essential topics necessary to enable students to set up and support a database server. Students build real world support skills by working via lessons and hands-on labs to gain practical experience with installing, administering and troubleshooting a database server. Prerequisite: CEN 1561C and CEN 1562C. Lec Hrs: 30. Lab Hrs: 20. Other Hrs: 0.

# **CENP 2450C Database Design**

This course builds on the fundamentals of database installation and administration and focuses upon the database objects present within a scalable database server. Students will become familiar with the programming objects available within a database and learn how to plan, design, create and manipulate the objects within a database. Prerequisites: CEN 1561C and CEN 1562C. Lec Hrs: 30. Lab Hrs: 20. Other Hrs: 0.

# **CENP 2765 PKI Concepts and Planning**

This course covers one of the most complex and required technologies in creating a trusted network infrastructure, Public Key Infrastructure (PKI) technology. Starting with an introduction to PKI, the course includes a detailed look into Cryptography, both Private and Public Key Exchange systems and into Digital Signatures and Digital Certificates. Prerequisite: CIS 2354C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# **CENP 2770 PKI Implementation**

This course continues the discussion and implementation of Public Key Infrastructure (PKI) technologies to create a trusted network environment. Students will study the creation of a PKI policy and implement a PKI pilot. Prerequisite: CENP 2765. Lec Hrs. 030 Lab hrs 020 Other Hrs. 000 4.0 Quarter Credit Hrs

# **CET 1605C Network Routing I**

This course introduces students to internetworking using software and hardware developed by Cisco Systems Inc. Through a combination of Lecs and hands-on labs, students will learn about a variety of topics related to network computing. Network architecture, network protocols, IP addressing, subnetting, the Cisco Router User Interface, switching technologies and the IP routing process are covered. Prerequisite: CEN 1509C. Lec Hrs. 030 Lab Hrs. 020 Other Hrs 000

# CET 2607C Network Routing II

4.0 Quarter Credit Hrs This course expands upon the topics covered in Network Routing I to enable the student to gain knowledge and experience with the design, installation, and configuration of networks in a business environment. Topics to be covered include Virtual LANs, WAN protocols, and managing a Cisco internetwork. Prerequisite: CET 1605C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

CGS 1006C Essentials of Communications and Document Formatting 2.0 Quarter Credit Hrs This course provides instruction in both the essentials of basic writing strategies and formatting for document production. Tips for the development of correspondence such as letters and memos, electronic documents such as faxes and email, and general documents such as tabular and narrative reports are a focus of the course. Emphasis is placed on proofreading, grammar, punctuation, capitalization style, and number usage. Lec. Hrs. 010 Lab Hrs. 020 Other Hrs. 000

### CGS 1031C Introduction to Macintosh

An introduction to Macintosh computers using a graphics users environment. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

### CGS 1280C Computer Hardware Concepts

4.0 Quarter Credit Hrs Students will be introduced to a variety of hardware components and their related functions in personal computers. Topics included are installing, diagnosing, troubleshooting, and repairing PC hardware. By the end of this course, students should have the ability to build a fully functional personal computer from scratch, as well as diagnose and repair malfunctions in an existing machine. No prerequisite. Lec Hrs: 30. Lab Hrs: 20.

# CGS 1514C Introduction to Spreadsheets

This course provides an introduction to spreadsheets. There is an emphasis on terminology and the creation and editing of simple spreadsheets such as marketing and sales reports, expense reports, invoices and purchase orders, and basic financial statements. Students will create and modify spreadsheets. In addition they will print worksheets, apply basic formatting, and perform file management skills such as saving spreadsheets under the same and different names, locating and opening existing spreadsheets, and creating subdirectories. Lec. Hrs. 010 Lab Hrs. 020 Other Hrs. 000

# CGS 1524C Introduction to Presentations

This course provides an introduction to presentations. There is an emphasis on terminology, and the creation and editing of simple presentations. Students will create, edit, spell check, save, and print a presentation. In addition, they will apply character formatting to a presentation. Students will use templates to create presentations. Students will perform file management skills such as saving a presentation under the same and a different name, locating, opening, and closing existing presentations. Lec. Hrs. 010 Lab Hrs. 020 Other Hrs. 000

# CGS 1546C Introduction to Database

This course provides an introduction to database operations. Emphasis will be placed on terminology, and the creation and editing of simple database forms and reports. Students will create, edit, and print basic database documents. In addition, students will learn to view and locate information from simple queries. Lec. Hrs. 010 Lab Hrs. 020 Other Hrs. 000

### CGS 1700C Introduction to Windows 98

4.0 Quarter Credit Hrs This course provides an introduction to desktop computing. There is an emphasis on learning the software applications and accessories that is a part of the Microsoft Windows 98 operating system. Essential computing skills such as using icons, creating desktop shortcuts, performing system checkups and completing minor system diagnostics will be covered. Other topics that will be discussed include computer system architecture, virus protection software, multimedia software, and the Internet. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# CGS 1763C Computer Operating Systems

This course focuses on the software operating systems that run today's personal computers. Emphasis will be placed on commands, functions, and terminology through practical instruction in the installation, configuration, and upgrade of operating systems. Prerequisite: CGS 2167C. Lec. Hrs: 30. Lab Hrs: 20 Other Hrs. 000.

# CGS 1800C Web Site Design Methodology

4.0 Quarter Credit Hrs This course provides the foundation for Web site design and Web page creation required by today's Web developers to design, implement and manage a Web site. The course includes Web design concepts, site development and management techniques, and basic Web technology concepts. Students will develop basic Web pages containing text, graphics, hyperlinks, tables, and frames using popular software production tools. Prerequisite: CGS 2167C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# CGS 1821C Web Content Development

This course covers the essential topics and tools web designers use to develop Web pages. Using a text editor and a graphical user interface (GUI) editor, students will learn to create web pages containing text, hyperlinks, graphics, tables, forms and frames. Cascading Style Sheets (CSS) and the basics of Extensible Hypertext Markup Language (XHTML) will also be covered. Prerequisite: CGS 1800C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# CGS 1882C Beginning Web Development with FrontPage 2000

This course is designed to cover the major features of FrontPage 2000. Students will create and work with web components, design a navigation structure, implement active components, work with Tasks view, work with links, and format and enhance Web pages. Students will also learn how to work with tables, themes, style sheets, frames, use components and forms, use web creation shortcuts, explore graphics and animation, and finalize and publish their web sites locally or remotely over the Internet. Throughout the course, the concept of automating web creation, and sharing design patterns is heavily discussed and exercised. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# CGS 2167C Computer Applications

4.0 Quarter Credit Hrs This course introduces the essential concepts necessary to make effective use of the computer. Students achieve an understanding of what a computer can do, how it works, and how it can be used to create documents using word processing and spreadsheet applications for personal and business use. Prerequisite: None. Lec Hrs: 30.0 Lab Hrs: 20.0 Other Hrs: 0.0

# CGS 2177C E-Commerce Systems Administration

This course provides an overview of how to conduct business online, as well as understand the technical issues associated with constructing an e-commerce Web site. Student will explore the similarities and differences between traditional commerce and ecommerce, and will identify e-commerce technologies at varying levels of sophistication. Prerequisite: None. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# CGS 2461C Fundamental Programming Techniques

This course provides an introduction to programming using a primary programming language. Through hands-on practice, students will develop simple working programs. The course emphasizes fundamental programming concepts, algorithmic thinking, problemsolving techniques, pseudo code, diagramming algorithms, and introduces students to the object-oriented programming methodology. Prerequisite: COP 2010C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# CGS 2501 Applied Word Processing

This course covers the various techniques used in intermediate to advanced word processing. Emphasis will be placed on using and creating templates, developing multi-page documents, building forms, and working with charts and diagrams. In addition, students will learn document collaboration techniques and customization with macros. Prerequisite: CGS 2167C. Lec Hrs 030 Lab Hrs 020 Other Hrs: 000

# CGS 2510C Applied Spreadsheets

4.0 Quarter Credit Hrs This course covers the various topics in relation to spreadsheet applications. Course topics include creating workbooks, editing and formatting tools, using formulas and functions, employing creative formatting, building charts, working with multiple worksheets and lists, building templates, working with macros, using analysis and auditing tools, using lists, database features and pivot tables. Prerequisite: CGS 2167C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# CGS 2642C Intermediate Database Management

This course concentrates on the enhancement of database documents. Instruction is focused on the use of wizards, and the refining and management of tables, forms, and reports. Emphasis is placed on working with and designing queries. Prerequisite: CGS 1546C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000.

# CGS 2820C Web Authoring

4.0 Quarter Credit Hrs Students explore the use of graphics and multimedia to develop Web-based applications. This course covers techniques for developing rich media using fundamental graphic design concepts and tools, and web page content management techniques utilizing tables, links, and dynamic content. Prerequisite: CGS 1800C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# CGS 2823C Advanced Web Development with FrontPage 2000

This is a follow up for the "Beginning Web Development Using FrontPage 2000" course, and is designed to cover the advanced and professional features of FrontPage 2000. Throughout this intensive course, students will create, and work with web enhancements such as Audio/Video additions, generate graphically rich structures and documents, implement animated components, add HTML and DHTML tables to their web sites, work with advanced features of links, and format and enhance their web pages. Having a more advanced approach now, students will learn how to troubleshoot different web components such as tables, themes, style sheets, frames, and how to use embedded tools in FrontPage 2000. Prerequisite: CGS 1882C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# CGS 2877C Web Animation

4.0 Quarter Credit Hrs This course provides an in-depth survey of the concepts and techniques used to create Web-based multimedia. Students will plan and design sophisticated web sites, adding motion to logos, photographs, and graphics. This course also includes designing, animating and broadcasting on the Web through a variety of animation projects. Prerequisite: CGS 2820C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# CGS 2910C Web Design Portfolio Project

This course is a capstone course for Web design students to combine their skills into a final portfolio project. Students will create a Web site using their Web authoring, design, content generation, animation, graphics, scripting, and e-commerce skills into a functional Web site. Prerequisite: GRA 2225C and CGS 2877C. Lec. Hrs. 010 Lab Hrs. 020 Other Hrs. 000

# 4.0 Quarter Credit Hrs

4.0 Quarter Credit Hrs

4.0 Quarter Credit Hrs

# 4.0 Quarter Credit Hrs

# 4.0 Quarter Credit Hrs

2.0 Quarter Credit Hrs

4.0 Quarter Credit Hrs

# CGS 4702C Operating Systems Programming

This course provides an understanding of contemporary operating system concepts by integrating the principles behind the design of all operating systems with how these are put into practice in the real world. A thorough discussion of operating concepts, using code examples, algorithms, and implementation issues is applied. Prerequisite: COP 2228C or COP 2805C or COP 2171C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

### CGS 4763 Survey of Operating Systems

This course provides a study of operating systems that includes memory management, processor management, disk management, scheduling, and resource retention. It addresses these topics from a workstation, server, and mainframe computer operating systems viewpoint. Prerequisite: CGS 1763C Lec Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# CGSP 1500 Introduction to Business Databases

This course provides an overview of databases and their uses in today's business environments. Topics include fundamentals of the database modeling, design, creation, queries, database reports, and maintenance. Prerequisite: CGS 2167C. Lec Hrs: 30. Lab Hrs: 20. Other Hrs: o.

# CGSP 3200 Project Management

This course provides practical lessons in project management. Bringing together theory and practice, the course provides an understandable, integrated view of many concepts, skills, tools, and techniques involved in project management. Prerequisite: CGS 2167C and junior standing. Lec Hrs: 30. Lab Hrs: 20. OtherHrs: 0.

# CIS 2252 Ethics in Computing

This course investigates the moral, ethical, and legal issues surrounding computer technology. Students will explore privacy, freedom of speech, computer failures, intellectual property, hacking; and current criticisms of technology. Prerequisite: CGS 2167C. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# CIS 2325 Introduction to the Systems Development Life Cycle

This course presents an overview of the System Development Life Cycle (SDLC). It begins with problem identification and proceeds through feasibility analysis, requirements analysis, design, implementation, operation and maintenance. No prerequisite. Lec Hrs: 40. Lab Hrs: 0.

### **CIS 2354C Network Security Fundamentals**

4.0 Quarter Credit Hrs This course is an introduction to the components of network security. It takes a comprehensive look at network security and provides an organized view of the field, including the tools and techniques necessary to safeguard network data. Prerequisite: CEN 1509C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

### CIS 2356C Internet Security and Acceleration (ISA) Server

4.0 Quarter Credit Hrs This course teaches students the basic concepts of proxy servers and firewalls. Students will learn how to install the Microsoft Internet Security and Acceleration (ISA) Server, setup access rules, IP packet filters, create client VPN access points and configure intrusion detection. Prerequisite: CEN 1562C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# CIS 2513C Software Configuration Management

This course provides an overview and understanding of the Software Configuration Management process (SCM) and how it impacts quality software. The students will learn how to create an SCM implementation plan, decide what additional SCM tools are needed. and understand how to evaluate SCM tools currently on the market. Prerequisite: CIS 2325. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs 000

# CIS 2614 Software Quality Assurance

This course provides an overview of the role of SWOA in a software development organization. Basic principles of software quality, standards, and issues related to implementing/maintaining a Software Quality Assurance program are reviewed. An overview of typical tasks performed by SWQA is also presented. Upon completion, the student should have an understanding of the functions typically performed by a Software Quality Assurance program within a software development organization. Prerequisite: CIS 2325. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# CIS 3303C Object-Oriented Analysis and Design

This course analyzes the concepts and methods used in object-oriented system development, which includes object-oriented concepts, tools, the development life cycle, modeling, analysis, design, and problem solving. Students will utilize UML (Unified Modeling Language) for object-oriented modeling. Prerequisite: CIS 2325 and COP 2170C or COP 2224C or COP 2250C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# CIS 3345 Database Concepts I

This course presents the basic information system management concepts needed to design, build, and maintain information delivery systems. Concepts of data modeling, data management, and the role of information technology in the corporation are also addressed. Prerequisite: CIS 2325. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

### CIS 3512 Software Risk Management

This course provides a success formula for managing software risk, allowing companies to more easily deliver high-quality software on time and within budget. Also covered are the six disciplines for managing product development, steps to predictable risk management process results, and how to establish the infrastructure for a risk-aware corporate culture. Prerequisite: CIS 2325 and COP 2228C or COP 2805C or COP 2171C. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# CIS 3615 Designing Secure Software

4.0 Quarter Credit Hrs This course presents perspectives and techniques to help ensure the security of essential software. It emphasizes methodologies and principles that reduce security risk early in the development life cycle. Implementation-level issues are discussed and applied through code samples. Secure software risk assessment, design, coding and testing are covered. Prerequisites: COP 2171C or COP 2228C or COP 2805C. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# CIS 4328C Senior Project: Systems Implementation & Integration

4.0 Quarter Credit Hrs This course is the second of two capstone courses that will involve students in the preparation and application of the systems development process. Through real-world clients or case studies, students will develop a prototype system for delivery and implementation. Higher-level programming languages such as C++, Visual Basic, or Java will be used. Prerequisite: CIS 3303C and Senior Standing. Lec Hrs: 30. Lab Hrs: 20 Other Hrs. 000.

4.0 Quarter Credit Hrs

4.0 Quarter Credit Hrs

### 4.0 Ouarter Credit Hrs

# 4.0 Quarter Credit Hrs

4.0 Quarter Credit Hrs

4.0 Quarter Credit Hrs

4.0 Quarter Credit Hrs

# CIS 4329C Senior Project: Systems Analysis & Design

This course is the first of two capstone courses that will involve students in the preparation and application of the systems development process. Through real-world clients or case studies, students will select, examine, analyze, design and develop a prototype system. Systems concepts of the Systems Development Life Cycle (SDLC) will be applied. The client systems will be developed through application of the methodologies and tools of systems development. Prerequisites: CIS 3303C and Senior Standing. Lec Hrs: 30. Lab Hrs: 20 Other Hrs. 000.

# CISP 1875 Novell Administration

4.0 Quarter Credit Hrs This course provides the information for students to develop the necessary knowledge and skills to perform competently as a network administrator on a Novell network. The emphasis is on fundamental network management tasks as well as the related terminology, hardware, and software features associated with various components of a network. Prerequisite: CEN 1509C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# CISP 2475C Network Security Design

This course builds on the fundamentals of security in networks and focuses on the analysis of network security and the design of security features and strategies. Students learn how to design a secure network infrastructure to meet business requirements via Lecs and hands-on labs. Topics include assembling the design team, modeling threats, and analyzing security risks. Prerequisites: CTS 2303C, CTS 2320C and CIS 2354C. Lec Hrs: 30. Lab Hrs: 20 Other Hrs. 000.

# CISP 3150C Current Information Technology Topics

Designed to provide opportunities through reading, Lecs, discussions, and exercises for students to improve their proficiency as information technology professionals. Course may be repeated, but students may not take the same topic more than once. Prerequisite: Junior standing and approval of instructor. L Lec Hrs: 30. Lab Hrs: 20 Other Hrs. 000.

# **CISP 4020 Database Concepts II**

4.0 Quarter Credit Hrs This course has a strong systems emphasis and covers several advanced concepts in database systems, database analysis and design and database management. A PC-based DBMS package will be used as the basis for projects in which students will implement various parts of a relational DBMS. Key concepts: heap files, buffer manager, B+ trees, hash indexes, various join methods, and class interfaces. Prerequisite: CIS 3345. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

### CISP 4820 Information Systems Management

4.0 Quarter Credit Hrs This course teaches the information systems planning process. The relationship of business goals, policies, plans, management style, and industry conditions are emphasized. Prerequisite: CGS 1763C. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# CJB 1712 Crime Scene Photography I

4.0 Quarter Credit Hrs Upon successful completion of the course, the students will be able to understand the role of a photographer in a crime scene. The students will become familiar with the history of photography and comprehend fundamental concepts of general camera use. The students will also be able to apply photography concepts and practical applications to vehicular accidents, vehicle examinations, and crimes against property. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# CJB 1714 Crime Scene Photography II

Upon successful completion of the course the students will be able to understand the role of a photographer in a crime scene. The students will comprehend fundamental concepts of general camera use and be able to apply photographic concepts and protocols to crimes against persons such as assault and homicide scenes, autopsy, and special issues covering arson, alternative light sources, and SMAT (Scars, Marks, and Tattoos). Prerequisite: CJB 1712. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# CJC 5328 Correctional Systems and Institutions

This course is designed to explore contemporary correctional management and the evolution of management theory in the field. Additionally, the impact of law, the media, and society on correctional administration will be examined. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# CJC 5428 Counseling the Offender

4.0 Quarter Credit Hrs This course is designed to provide an understanding of correctional intervention, assessment and classification. The major systems of therapeutic intervention will be examined, and the impact of the intervention strategies will be examined. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# CJD 2250 Introduction to Interviews and Interrogations

4.0 Quarter Credit Hrs Interviews and interrogation focuses on techniques and philosophies of conducting human communication in a criminal justice or legal environment in which the goal is to obtain accurate information. Students will learn and apply specialized techniques and approaches to interviews and interrogations as well as legal implications based on a variety of situations. Obtaining evewitness information in an investigative environment is also discussed. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# **CJE 1640 Criminalistics I**

This course is designed to introduce the concepts involved in the field of Criminalistics. The students will be introduced to the concepts of "Criminalistics" from the professional and scientific disciplines dedicated to the recognition, collection, identification, and individualization of physical evidence and the application of the natural sciences to the matters of the law will be examined. Lec. Hrs: 040 Lab Hrs. 000 Other Hrs. 000

# **CJE 1641 Criminalistics II**

This course continues the introduction to the concepts involved in the field of Criminalistics. The students will be introduced to the concepts of "Criminalistics" from the professional and scientific disciplines dedicated to the recognition, collection, identification, and individualization of physical evidence and the application of the natural sciences to the matters of the law will be examined. Prerequisite: CJE 1640. Lec. Hrs: 040 Lab Hrs. 000 Other Hrs. 000

# **CJE 2100 Policing in America**

This course provides a solid foundation by tracking the historical development of policing in America from its English roots to the first organized municipal police departments in the 1830s. It describes various federal law enforcement organizations and how they relate to state and local police. There is examination of the police subculture, explanation of the manner in which police agencies are organized and managed, community policing and problem solving, patrol and criminal investigations, impact of technology on police and discussion of the future. Prerequisite: CCJ 1024. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# 4.0 Quarter Credit Hrs

4.0 Quarter Credit Hrs

# 4.0 Quarter Credit Hrs

# 4.0 Quarter Credit Hrs

# 4.0 Quarter Credit Hrs

# 4.0 Quarter Credit Hrs

# **CJE 2602 Graphics & Documentation II**

This course is a continuation of Graphics & Documentation I and will provide the students with a further understanding of the procedures of crime scene observation, note taking and documentation. Students will also be introduced to the preparation of visual exhibits for court presentation. Prerequisite: CJE 2673. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

### CJE 2670 Introduction to Forensics

This course will explore and explain the application of applied science to those criminal and civil matters that are investigated by various agencies. Prerequisite: CCJ 1024. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# CJE 2673 Graphics & Documentation I

4.0 Quarter Credit Hrs This course will provide the students with an understanding of the procedures of crime scene observation, note taking, photography and report writing. Lec. Hrs: 040 Lab Hrs. 000 Other Hrs. 000

# CJE 2676 Biological Evidence I

This introductory course will introduce the students to the types of biological evidence commonly found at crime scenes and how to collect it. Specific biological evidence discussed includes blood, semen, saliva, urine, feces, hair, and fingernails. Additional topics include autopsy, the basic departments of the crime laboratory, toxicology, forensic entomology, and uncollectible biological evidence. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# CJE 2678 Crime Scene Dynamics I

4.0 Quarter Credit Hrs This course is designed to introduce the investigative concepts involved in the "Crime Scene Dynamics" of processing the aftermath of a criminal incident. The students will be exposed to how to respond to crime scenes, and examine the multitude of responsibilities involved, such as: the evidence must be identified and preserved, witnesses must be isolated and interviewed, the scene must be isolated and protected, fingerprints must be developed, and suspects must be identified and located. Lec. Hrs: 040 Lab Hrs. 000 Other Hrs. 000

# CJE 2679 Crime Scene Dynamics II

4.0 Quarter Credit Hrs This course continues the introduction to the investigative concepts involved in the "Crime Scene Dynamics" of processing the aftermath of a criminal incident. The students will be exposed to how to respond to crime scenes, and examine the multitude of responsibilities involved, such as: the evidence must be identified and preserved, witnesses must be isolated and interviewed, the scene must be isolated and protected, fingerprints must be developed, and suspects must be identified and located. Prerequisite: CJE 2678. Lec. Hrs. 040 Lab Hrs 000 Other Hrs. 000

# CJE 2682 Biological Evidence II

This course will continue to discuss the biological evidence commonly found at crime scenes. Packaging, preservation, and care of biological evidence will be discussed. Chain of custody will be explained. Additional topics include DNA, case studies, courtroom testimony, and exhibits for the courtroom. Students will participate in a moot court and a mock crime scene. Prerequisite: CJE 2676. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# CJE 2690 Technology Crimes I

4.0 Quarter Credit Hrs At the conclusion of this course, the students will have an understanding of technology-based crimes as they apply to modern criminal acts such as identity theft, extortion, intellectual property crimes, fraud, Internet pornography, and online gambling. Students will also examine issues of evidence involving crime scene management, chain of custody issues, and accepted investigative practices. Lec. Hrs: 040 Lab Hrs. 000 Other Hrs. 000

# CJE 2691 Technology Crimes II

At the conclusion of this course, the students will have an understanding of procedural law issues, investigative issues and techniques, forensics, and communications skills required to describe technology-based crimes. Students will also be able to compare and contrast the roles and responsibilities of local, state, and federal agencies responsible for investigating technology-based crimes. Prerequisite: CJE 2690. Lec. Hrs: 040 Lab Hrs. 000 Other Hrs. 000

# **CJE 4668 Computer Crime**

This course focuses on the use of the computer in committing crimes, both within organizations and among private entities. It will also examine the justice system's response to this new form of deviance. Prerequisite: CCJ1024 (CGS2110 for HS Major) -or-CGS2167c (for non CJ majors) Lec Hrs: 040 Lec Hrs: 000 Other Hrs: 000

# CJE 5428 Community Oriented Policing

This course provides an analysis of contemporary issues in community policing. This includes an exploration of the dynamics of citizen-police interactions with regard to proactive policing methodologies. Examples of specific community policing programs will be examined through the use of a series of case studies, and the impact of community oriented policing will be discussed. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# CJJ 5028 Juvenile Justice System

This course is designed to provide students with an examination of the historical, cultural and legal foundations of juvenile justice. Current juvenile justice system practices will be discussed, and the effects of these practices analyzed. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# CJJ 5568 Juvenile Correctional Alternative

This course will provide an overview of a broad range of community-based options available for the management and rehabilitation of delinquent youth in contemporary society. In addition, the impact of these options will be examined. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# **CJL 1110 Civil & Criminal Justice**

This course introduces students to the legal and procedural issues involved in safety and security operations which present a new challenge in the field of law. Topics include an introduction to criminal and civil law, constitutional law, search and seizure, and a discussion of employment law and liability. As the ever-growing number of agencies become involved in legal issues, it is important that the student be aware of the basis of the laws and regulations in order to prepare for changes in these areas. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# CJL 2130 Criminal Evidence

4.0 Quarter Credit Hrs This course focuses on the nature of evidence as it relates to the pretrial and trial process, including: witnesses, hearsay, admissions and confessions, and the exclusionary rule. Emphasis is placed on specific types of evidence: circumstantial, documentary, physical, documentary and recorded. Prerequisite: CCJ 1024. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 Lab Hrs. 000 Other Hrs. 000

# 4.0 Quarter Credit Hrs

4.0 Quarter Credit Hrs

### CJL 3215 Concepts of Criminal Law 4.0 Quarter Credit Hrs This course covers the historical development and philosophy of criminal law. Discussion includes definitions, legal classifications of crimes, Constitutional provisions, legal research, study of case law, and significance of law as a social force. Prerequisite: CCJ 1024 (CJL 1110 for HS Major; PLA 1003 for Paralegal major). Lec. Hrs 040 Lab Hrs. 000 Other hrs. 000 CJL 5069 Modern Constitutional Theory 4.0 Quarter Credit Hrs This course provides a survey of major constitutional thought and a review of primary constitutional principles. Particular emphasis is placed on the role of the Constitution in the administration of criminal justice. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 CJL 5528 Law and the Legal System 4.0 Quarter Credit Hrs This course provides an overview of the judicial process in the United States, the structure and function of courts, and the body of law that supports that process. Federal and state courts will be covered, as well as various law-related public policy issues. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 CLP 3005 Marriage and the Family 4.0 Quarter Credit Hrs This course, through reading, discussions, and presentations, explores the institution of marriage and the family as a system. Lec hrs 040 Lab Hrs 000 Other Hrs 000. CLPP 3004 Adult Psychology 4.0 Quarter Credit Hrs This course deals with the human life span as a whole and attempts to acquaint students with the processes of maturation, aging, and death. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 **COEP 2041 Sophomore Parallel Work I** 4.0 Quarter Credit Hrs This course requires students to develop personal responsibility and display initiative beyond what is required in an on-campus classroom setting under the supervision of an instructor. Students, in cooperation with a co-op site supervisor and academic advisor, will develop specific on-the-job objectives to be accomplished at an approved work site. The objectives will relate students' activities on the job to learning activities of the students' major field of study in such a way that specific skills and objectives may be defined and measured. Lec. Hrs. 000 Lab Hrs. 000 Other Hrs. 120 **COEP 2042 Sophomore Parallel Work II** 4.0 Ouarter Credit Hrs A continuation of COEP 2041. Students may complete two cooperative education (parallel work) courses at the sophomore level, which may be applied to their associate degree objectives as major requirements. Prerequisite: COEP 2041. Lec. Hrs. 000 Lab Hrs. 000 Other Hrs. 120 **COEP 3041 Junior Parallel Work I** 4.0 Quarter Credit Hrs A cooperative education course that utilizes the principles described in COEP 2041, Sophomore Parallel Work I, but at a higher level of expectation. Objectives must define a higher degree of responsibility and complexity. Credit earned may be applied to the major or approved elective area of the student's Bachelor degree. Lec. Hrs. 000 Lab Hrs. 000 Other Hrs. 120 **COEP 3042 Junior Parallel Work II** 4.0 Quarter Credit Hrs A continuation of COEP 3041. The student may complete two cooperative education (parallel work) courses at the junior level, which may be applied to the student's Bachelor degree objectives as major or approved elective requirements. No more than 8.0 quarter credit Hrs of parallel work courses may be assigned to the major component. Lec. Hrs. 000 Lab Hrs. 000 Other Hrs. 120 **COEP 4041 Senior Parallel Work I** 4.0 Quarter Credit Hrs A continuation of COEP 4041. The student may complete two cooperative education (parallel work) courses at the senior level, which may be applied to the student's Bachelor degree objectives as major or approved elective requirements. No more than 8.0 quarter credit Hrs pf parallel work courses may be assigned to the major component. Lec. Hrs. 000 Lab Hrs. 000 Other Hrs. 120 **COEP 4042 Senior Parallel Work II** 4.0 Quarter Credit Hrs A continuation of COEP 4041. The student may complete two cooperative education (parallel work) courses at the junior level, which may be applied to the student's Bachelor degree objectives as major or approved elective requirements. No more than 8.0 quarter credit Hrs of parallel work courses may be assigned to the major component. Lec. Hrs. 000 Lab Hrs. 000 Other Hrs. 120 4.0 Quarter Credit Hrs **COP 2010C Programming Concepts** This course provides the student with an introduction to the fundamentals of computer problems solving and programming. Students are introduced to structured and object-oriented programming concepts in a language-independent manner. Basic programming concepts, specific control structures, and object-oriented design are explored. Prerequisite: None. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 4.0 Quarter Credit Hrs COP 2170C Computer Programming - Visual Basic I This course provides an introduction to the Visual Basic programming language. Students develop executable programs that utilize an interactive graphical-user interface in the Windows environment. Prerequisite: CGS 2461C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000 COP 2171C Computer Programming - Visual Basic II 4.0 Quarter Credit Hrs This course is a continuation of COP 2170C. It provides advanced concepts of the Visual Basic programming language, including the Windows API/Messaging System, OLE automation, and Internet-enabled applications. Prerequisite: COP 2170C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000 COP 2224C Computer Programming - C++ I 4.0 Quarter Credit Hrs This course emphasizes programming with C++ functions, arrays, pointers and strings. Students develop substantial applications that process lists and tables of data in arrays—performing tasks such as searching and sorting data, and displaying graphical representations of data. The course presents a thorough discussion of pointers, including pointer-based string processing and passing data between functions using pointers. Prerequisite: CGS 2461C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# CJL 2134 Criminal Procedure and the Constitution

There will be a discussion of the Constitutional aspects of criminal procedure. The student will learn procedural aspects of the criminal system from arrest or summons through pretrial motions, trial, post-conviction and appellate processes. A study of the Constitution at work in the court system with current applications. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

### processing. Prerequisite: COP 2224C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000 COP 2250C Programming Languages- Java I 4.0 Quarter Credit Hrs This course teaches basic computer software development using the Java programming language. It introduces the principles and techniques of object-oriented programming and explains the concepts as they relate to Java. Prerequisite: CGS 2461C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000 COP 2805C Programming Languages - Java II 4.0 Ouarter Credit Hrs This course is a continuation of COP 2250C. It covers advanced Java programming topics and methodologies with an emphasis on the graphical user environment. It also demonstrates how to provide more extensible and portable solutions to Web server-side applications. Prerequisite: COP 2250C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000 COP 2812C Web Development Using XML 4.0 Quarter Credit Hrs Student will study the functions and relationships between XML and other members of the XML family of technologies, including XHTML, XSL, Xpath, Xlink, namespaces, schemas, and Xslt. Students will create and apply styling to XML documents in a series of hands-on labs. Prerequisite: None. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000 4.0 Quarter Credit Hrs **COP 2840C Content Generation - Scripting Languages** This course covers the skills needed to design client-side, platform-independent solutions that greatly increase the value of a Web site. Students will learn how to use the most popular applications of JavaScript, including communicating with users, scripting for the JavaScript object model, controlling program flow, validating forms, animating images, targeting frames, and creating cookies. Prerequisite: CGS 1821C and CGS 2461C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000 COP 3764C Structured Query Language 4.0 Quarter Credit Hrs This course introduces the student to the basic operations of the Structure Query Language (SQL). Database creation, single table queries, multi-table queries, database restrictions, and using SQL with high-level programming languages are discussed. Prerequisite: CIS 3345. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs 000 **COP 4724C Database Application Development** 4.0 Ouarter Credit Hrs This course is an introduction to applications program development in a database environment with emphasis on loading, modifying, and querying the database using a host language. Prerequisites: COP 2228C or COP 2805C or COP 2171C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000 4.0 Quarter Credit Hrs COPP 2123 Computer Programming-COBOL I This course provides an introduction to the COBOL programming language, concepts and syntax. COBOL is used to develop program logic for business applications. Instructor Lec and demonstration provides in-depth coverage of the COBOL language. Prerequisite: CGS 2461C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000 COPP 2127 Computer Programming-COBOL II 4.0 Quarter Credit Hrs This course is a continuation of COPP 2123. It provides advanced COBOL programming concepts to write, compile, correct and test business applications. It also discusses how to create and update indexed files, maintain existing files and use tables. Prerequisite: COPP 2123. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000 **COPP 2164 Computer Programming – RPG** 4.0 Quarter Credit Hrs This course provides the fundamentals of Report Program Generator (RPG). Topics include designing, debugging, and testing programs to include the RPG fixed logic cycle, level breaks, overflow, multiple record processing and file output. Prerequisite: CGS 2461C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000 **COPP 2168 Computer Programming – Advanced RPG** 4.0 Quarter Credit Hrs This course is a continuation of the Computer Programming - RPG course. It provides advanced topics utilizing the Report Program Generator (RPG) programming language. Topics discussed are tables, arrays, file processing and maintenance, and interactive file processing. Prerequisite: COPP 2164. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000 COPP 2273 Computer Programming - Introduction to Visual C++ 4.0 Quarter Credit Hrs This course introduces the students to programming in Microsoft Visual C++ using the Microsoft Foundation Classes (MFC). Application development using Device Context, Event Handling, Message Processing, Menus, Toolbars, Dialogs, Collections, and Serialization using MFC with Microsoft Visual C++ is covered. Prerequisite: COP 2228C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000 COPP 2280C Programming Languages - C# I 4.0 Quarter Credit Hrs This course teaches basic computer software development using the C# programming language. It introduces the principles and techniques of object-oriented programming and explains the concepts as they relate to C#. Prerequisite: CGS 2461C. Lec Hrs: 30. Lab Hrs: 20. Other Hrs: 0. COPP 2281C Programming Languages – C# II 4.0 Quarter Credit Hrs This course is a continuation of COPP 228oC, emphasizing C#'s features and capabilities for object-oriented programming (OOP). Students focus on programming with common library classes and extending the language by creating new classes. Prerequisite: COPP 2280C. Lec Hrs: 30. Lab Hrs: 20 Other Hrs. 000. COPP 3175C Advanced Programming 4.0 Ouarter Credit Hrs This course provides an introduction to basic data structures, and algorithms for manipulating them, using an object-oriented programming language. It covers how to create and maintain various data structures, such as arrays, stacks, queues, linked lists, binary search trees, hash tables. Prerequisite: Two of the following courses: COP 2805C, COP 2228C, COP 2171C, COPP 2281C and junior standing. Lec Hrs: 30. Lab Hrs: 20 Other Hrs. 000.

This course is a continuation of COP 2224C, emphasizing C++'s features and capabilities for object-oriented programming (OOP). Students focus on programming with predefined classes and extending the language by creating new classes. Key topics include classes, objects, encapsulation, inheritance, polymorphism, and using standard library classes to perform file input/output and string

COP 2228C Computer Programming - C++ II

# **COPP 3180C Network Programming**

This course provides the student with a comprehensive guide to creating networks-based applications. Students will focus on highlevel application programming concepts, networking concepts, tools, and techniques to create robust, maintainable and efficient custom client/server applications. Basic programming concepts, networking concepts, TCP/IP, specific control structures, I/O functions, and object-oriented design are explored. Prerequisite: CEN 1509C and one of COP 2171C or COP 2228C or COP 2805C or COPP 2281C. Lec Hrs: 30. Lab Hrs: 20 Other Hrs. 000.

# **CPO 4004 Global Politics**

A study of the classical concepts and dynamic factors of international politics, and their reflection in the structures, institutions, and processes of contemporary international relations. Particular attention is paid to power, national interest, diplomacy, sovereignty, foreign policy formulation, alliances, war and peace, and the importance of ideological and economic factors. Prerequisite: None. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# **CRW 3010 Creative Writing**

4.0 Quarter Credit Hrs The purpose of this course is to develop writing and language skills needed for individual expression in literary forms. Prerequisite: ENC 1102. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# **CTS 2271C Intermediate Spreadsheets**

4.0 Quarter Credit Hrs This intermediate course concentrates on working with and modifying worksheets and workbook structure. Essential skills such as working with formulas and functions that are required to create and modify professional spreadsheets are covered. A large portion of the course is focused on working with files and formatting worksheets. Prerequisite: CGS 1514C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# CTS 2281C Advanced Spreadsheets

4.0 Quarter Credit Hrs This spreadsheet course concentrates on the use and modification of charts, worksheets, and objects. The enhancement and formatting of charts and worksheets is emphasized, while advanced file management skills such as linking multiple workbooks through formulas, will be taught. Prerequisite: CTS 2271C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# CTS 2303C Network Directory Services

This course provides the students with the steps necessary to plan, configure, and administer an Active Directory infrastructure. Topics include management methods for a large-scale network directory, group policies, active directory replication, and database maintenance. Prerequisite: CEN 1562C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# CTS 2304C Network Directory Design

This course discusses the planning, issues, and options available to the network administrator who is designing a Windows Directory Services infrastructure. Key topics include the network's physical topology, security, administration, naming standards, and migration issues. Prerequisite: CEN 1562C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# CTS 2320C Network Management

Students will gain a basic understanding of the steps necessary to implement, manage and troubleshoot existing network and server environments. Students will focus on performing desktop and server installation and configuration tasks, as well as network and operating system management tasks in a Microsoft Windows environment. Prerequisite: CEN 1561C AND CEN 1562C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# CTS 2321C Linux Administration

This course enables students to gain an understanding of the Linux operating system. Based upon the UNIX operating system, Linux has found a place among computer professionals as a stable and flexible platform for a variety of networking applications. Students learn about desktop environments that make it easy for them to configure Linux features and programs. Prerequisite: CGS 2167C Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# CTS 2431C Advanced Database Management

This course provides instruction for the development of expert database management skills. The emphasis of the course is on application development using advanced features such as macros, queries, and replication, building and modifying custom forms. Tables, action queries, producing complex reports, defining relationships, utilizing formatting capabilities, and using custom Access tools will also be addressed. Prerequisite: CGS 2642C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# **CTS 2550C Advanced Presentations**

This course covers the intermediate and advanced functionality of Microsoft PowerPoint. Emphasis is placed on working with text and visual elements, customizing a presentation, creating output, and delivering a presentation. The course focuses on the addition, modification, and formatting of advanced PowerPoint features. Prerequisite: CGS 1524C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# CTS 2761C Implementing and Supporting E-Mail Services

This course provides students the ability to set up and support network e-mail services. Working via lessons and hands-on labs, students gain practical experience installing, administering, and troubleshooting widely-used e-mail server software. Prerequisite: CEN 1562C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# DEP 3305 Adolescent Psychology

This course examines the characteristics, needs, and problems of adolescence. The course also emphasizes the principles of psychology important to those who guide adolescents, and the adjustments necessary during this life stage. Prerequisite: PSY 2012 General Psychology Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 4.0 Quarter Credit Hrs

# **DEP 2053: Human Development**

This course will explore the physical, cognitive and social- emotional processes across the life span. Prerequisites: PSY 2012. Lec Hrs. 40.0 Lab Hrs. 0.0 Other Hrs.0.0

# DSC 1005 Domestic & International Terrorism II

4.0 Quarter Credit Hrs This course, part II, introduces participants to more advanced aspects of domestic and international terrorist organizations. The student will be introduced to federal terrorism laws, prosecution of international terrorists, handling the media, and about groups such as militias, religious extremists, outlaw biker gangs, drug cartels, and extremist groups. The student will learn about the commander's role in a terrorist incident, and about the roles of the command post. Prerequisite: DSC 1011. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# 4.0 Quarter Credit Hrs

# DSC 1011 Domestic & International Terrorism I This course introduces participants to various aspects of domestic and international terrorist organizations in part I. The student will

be introduced to basic principles of terrorist investigations, domestic security threats, and the motivational factors and tactics that drive these organizations. The student will learn techniques for evaluating their own organization's vulnerability against attacks that involve chemical, biological, HazMat, radioactive, or sabotage. Students will learn the roles and responsibilities of state, local and federal agencies in terrorism investigations and responses. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 4.0 Quarter Credit Hrs

# DSC 1030 Tactical Communications

This course is designed to introduce the student to basic communications ranging from a conflict to communication during a catastrophic event. Topics covered include radio and cell phone communications, and planning for communication alternatives when the traditional methods of communication fail. Other face-to-face communication tactics are covered including interview and interrogation, detecting deception, and handling a conflict with confrontation. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 4.0 Quarter Credit Hrs

# **DSC 2002 Introduction to Terrorism**

Students in this course gain a valuable overview of terrorism: its history, current activities, and projected future. Topics include: domestic and international terrorism, terrorist training, weapons of mass destruction, defenses against terrorism, legal aspects, and the impact of the media. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# DSC 2008 Security: Principles, Planning & Procedures I

4.0 Quarter Credit Hrs This course, in part I, introduces participants to a broad, in-depth look at security planning and procedures. Students will learn to develop skills in interviewing and interrogation techniques, intelligence gathering, surveillances, perimeter and crime scene security, criminal evidence preservation and collection, and principles of crowd and riot control. Additional topics include threat assessment and response, and facility security and vulnerabilities. Lec Hrs: 040 Lab Hrs. 000 Other Hrs. 000

# DSC 2010 Security: Principles, Planning & Procedures II

This course continues to introduce participants to a broad, in-depth look at security planning and procedures, building upon the topics learned in Security: Principles, Planning & Procedures I. Students will learn to develop skills in substance abuse recognition, theft, sabotage and espionage. Students will also learn techniques for dealing with computer security, electronic criminal investigations, firewalls and security software as well as crime prevention techniques. Additional topics include crime prevention, security access control, and security force management. Prerequisite: DSC 2008. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# DSC 2210 Emergency Planning & Security Measures I

This course introduces emergency planning and security measures for corporate security. Students will cover emergency planning models, contingency planning exercises, incident command systems, damage assessment and disaster recovery planning, resource accountability, asset security matters, economic responses from attack (FEMA, state and local assistance), employee evacuation planning, and the development of a security plan. Students will learn the skills necessary for developing data survival tactics, best practices for avoiding disasters and safeguarding corporate assets, conducting risk analysis, identifying and prioritizing assets, and will identify general models for facility protection. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# DSC 2211 Emergency Planning & Security Measures II

4.0 Quarter Credit Hrs This course builds on the emergency planning and security measures learned for corporate security in Emergency Planning & Security Measures I. Students will cover emergency planning models, contingency planning exercises, damage assessment and disaster recovery planning, and employee evacuation planning. Students will chose a scenario and location for a disaster drill, create a disaster plan for the site, and will participate in the disaster drill, then review the strengths and weaknesses of the disaster plan, and the incident response during the drill. Prerequisite: DSC 2210. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# DSC 2812 Information Technology Security I

This course introduces students to the components of information security best practices. Topics covered include types of attacks on information, information security services, policy and law with regard to information security, risk assessment, and how to analyze and manage risk. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# DSC 3214 Catastrophic Event Response Planning

4.0 Quarter Credit Hrs This course examines the response protocol, logistics, responsibilities, interagency support, and concepts of front end planning involved in preparation for a catastrophic event. Students will be introduced to the development of an Emergency Response Plan that will include concepts such as lookout; awareness; communications; escape; safety (LACES); training; and various agency relationships. Lec. Hrs: 040 Lab Hrs. 000 Other Hrs. 000

# ECO 3007 Macroeconomics

4.0 Quarter Credit Hrs This course is a study of economics and cultural changes within the economic system, its development by free competition under the capitalistic system, the nature and evolution of money, the banking system, price determination and wages, monopoly, the laws of supply and demand, and production control. Prerequisite: None. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 4.0 Quarter Credit Hrs

# ECO 3028 Microeconomics

This course is the study of economic analysis and includes the market price theory, the theory of the firm, and the theories of production and distribution. Prerequisite: None. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 4.0 Ouarter Credit Hrs

# ECO 3703 Principles of International Economics

A study of the fundamentals of international trade, international monetary policies, theories of foreign exchange, the balance of payments, and the international monetary system. Prerequisite: ECO 3007. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 4.0 Quarter Credit Hrs

# ECO 5010 Economic Analysis of the Firm

A comprehensive examination of economics with emphasis on the economic systems of the firm, its development, market pricing theory, theory of the firm, and theories of production and distribution. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 4.0 Quarter Credit Hrs

# ECO 5709 International Economic Systems

An overview of the major economic systems in the world economy. The course covers first-hand statistical and economic data, including capital, labor and trade; market mechanisms and non-market mechanisms; current economic crises; mixed economic systems; centrally planned economic systems; global economic interdependence, and characteristics of international economic order. Prerequisite: ECO 3007. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

gathering techniques, assimilation of data, and preparation of written reports. Prerequisite: ENC 1102. Lec. Hrs. 040 Lab Hrs	. 000
Other Hrs. 000	1
ENC 4213 Advanced Report Writing 4.0 Quarter Cr	
This course provides a means for continued examination, analysis and preparation of written techniques. Continued emphasis	
research gathering methodology, assimilation of data, and preparation of written reports are also included. Prerequisite: ENC	, 3211
with a grade "C" or better, or course equivalent. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000	

# 

ENGP 0011 Basic English Studies 4.0 Quarter Credit Hrs
A comprehensive review of grammar, spelling, and vocabulary intended to strengthen students' English background and to prepare
students for more advanced studies. This course does not apply toward credits needed to graduate in any program. In determining
student status and tuition charges, this course is considered a 4.0 quarter credit hour class. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs.
000
ENGP 1132 English Usage4.0 Quarter Credit Hrs
This course is designed as a review of parts of speech and sentence structure. Students will develop skills in vocabulary building,
spelling, word division, capitalization, abbreviations and proofreading. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000
ENSP 1101 Conversation I - Level I 0.0 Quarter Credit Hrs
This course is designed to guide native speakers of languages other than English toward appropriate production of the consonant and
vowel sounds, and the stress, intonation, and rhythm patterns of American English as encountered in everyday communicative
situations. This course will not count toward degree completion. Lec. Hrs. 090 Lab Hrs. 042 Other Hrs. 000
ENSP 1102 Conversation II - Level I 0.0 Quarter Credit Hrs
This course is a continuation of ENSP 1101. This course will not count toward degree completion. Lec. Hrs. 090 Lab Hrs. 042 Other
Hrs. 000
ENSP 1111 Comprehension I - Level I   0.0 Quarter Credit Hrs
This course is designed to assist the student in building vocabulary through reading and writing passages, with oral and written
questions following all reading material. This course will not count toward degree completion. Lec. Hrs. 090 Lab Hrs. 042 Other Hrs.
000

Hrs. 000
EVS 1001 Environmental Science 4.0 Quarter Credit Hrs
This non-laboratory course introduces students to environmental issues through an understanding of the interrelationships of
humans and their planet. Attention is focused on ecosystems, pollution, energy, and improvement or prevention of problems.
Environmental concerns are explored through readings, research, and discussion. Prerequisite: None. Lec. Hrs. 040 Lab Hrs. 000
Other Hrs. 000

# **EVSP 3060 Environmental Issues**

This course develops an understanding for the relationship of natural processes at work in the environment. Local, national and global issues will be explored as they apply to understanding their claims on society and the marketplace. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# FIL 1034 History of Motion Pictures

This course outlines the major events, trends, and important filmmakers and their work with an emphasis on American Cinema. Weekly discussions are followed by screenings of films that have shaped the direction of film art. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# FIL 1243C Production Techniques

4.0 Quarter Credit Hrs This is an advanced study of production elements and the application of fundamentals. Students acquire and apply the skills of studio and remote production, post production, and control room operation. Prerequisite: FIL 1244. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# **FIL 1244 Electronic Field Production**

4.0 Quarter Credit Hrs This course emphasizes the principal concepts and techniques needed in production. Students acquire the skills in camera operation, audio, lighting, and other peripheral devices. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# FIL 1390 Special Effects and Makeup I

4.0 Quarter Credit Hrs This course deals with the fundamentals of special effects and makeup. Topics include history and development of various procedures relating to special effects and makeup. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# FIL 1421 Film Production I

This course will cover the principles of the motion picture camera and the entire motion picture process. Formats such as 16mm and 35mm will be covered. Students will acquire a working knowledge of motion picture camera operation, filtration, film stocks, lighting, grip and sound equipment. Current procedures used by professional assistant camera people will be taught. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# FIL 1430 Film Production II

Students will receive training in the operation of film cameras and will learn procedures used by professional camera people in the industry. Prerequisites: FIL 1421 and FIL 1244. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# FIL 1610 Business Management of Film and Video

4.0 Ouarter Credit Hrs Course designed to prepare students in management and business considerations related to the video/film industry. Business aspects, budgeting, script breakdown, financing, distribution, marketing and advertising. Industry leaders in their fields provide insight to breakdown information and contacts regarding subjects emphasized. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# FIL 1801 Film Criticism I

2.0 Ouarter Credit Hrs Films produced (Circa 1980-1989) will be screened weekly, followed by a Lec and discussion analyzing the film's structural elements. Styles of editing, writing, directing, acting, cinematography, and sound will be the many styles explored. Lec. Hrs. 020 Lab Hrs. 000 Other Hrs. 000

# FIL 1802 Film Criticism II

Films produced (Circa 1990 - present) will be screened weekly, followed by a Lec and discussion analyzing the films' structural elements. Styles of editing, writing, directing, acting, cinematography, and sound will be the many styles explored. Lec. Hrs. 020 Lab Hrs. 000 Other Hrs. 000

# FIL 2104 Script Development I

4.0 Quarter Credit Hrs This course will cover the basic concepts and elements of writing for media. From concept and design, through the final shooting script, students will develop a complete understanding of how a script is produced. Practical writing exercises will help students develop a fundamental understanding of writing. Prerequisite: ENC 1101. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# FIL 2105 Script Development II

4.0 Quarter Credit Hrs Students apply the methods and techniques to develop a first draft script. Emphasis will be placed on using the proper script format, developing characters, script analysis, and effective story development. Prerequisite: FIL 2104. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# FIL 2246C Post Production I

4.0 Quarter Credit Hrs This course is designed to introduce students to the post production process. Students learn fundamental editing techniques and aesthetics. Prerequisite: FIL 1244. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

### FIL 2247C Post Production II

4.0 Quarter Credit Hrs This course covers the postproduction process and provides students with the advanced skills of editing. Students learn operations of computer assisted editing. Prerequisite: FIL 2246C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# **FIL 2360 Documentary Production**

4.0 Quarter Credit Hrs This course explores the uses and analysis of the non-fiction film. Prerequisite: FIL 1244. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 4.0 Quarter Credit Hrs

# FIL 2482 Directing and Acting The fundamentals of directing and acting techniques are explored in a variety of methods. Students will work with scripts and scenes

as both actors and directors. Prerequisite: FIL 1244. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 FIL 2530 Sound 4.0 Quarter Credit Hrs This course emphasizes two basic aspects of audio: studio and field recording techniques, and the post production process.

# Prerequisite: FIL 1244. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 4.0 Quarter Credit Hrs

# FIL 2621 Multimedia and Desktop

Course is designed to demonstrate the use of computers in the desktop world of communications. Students analyze various components of desktop solutions and create interactive and multimedia presentations. Prerequisite: FIL 2732C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# FIL 2724C Computer Graphics I

4.0 Quarter Credit Hrs Introduction to computer graphics. Students learn system operations, 2-D graphics, 2-D animation, and multimedia applications. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# 4.0 Quarter Credit Hrs

4.0 Quarter Credit Hrs

# 4.0 Quarter Credit Hrs

4.0 Quarter Credit Hrs

FIL 2732C Computer Graphics II	4.0 Quarter Credit Hrs
Students apply advanced computer techniques in animation. Skills acquired in Computer Graphics I will be computer modeling and animation systems. Prerequisite: FIL 2724C. Lec. Hrs. 030 Lab Hrs. 020 Other H	
FIL 2743C Advanced Video Techniques	4.0 Quarter Credit Hrs
Students incorporate and demonstrate advanced skills in cameras, lighting, and sound. Various programs a	
produced by students. Prerequisite: FIL 1244. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000	1 5
FIL 2942C Film/Video Production Workshop	4.0 Quarter Credit Hrs
Guidance, instruction and evaluation of film/video projects from initial concept through release. Prerequis	ite: FIL 2245C or FIL 1430.
Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000	
FIL 2945 Film/Video Externship	4.0 Quarter Credit Hrs
A practical experience that allows students to apply the knowledge and skills in an actual work environment	
Applications may be submitted after completion of 40 quarter credit Hrs in the major core component and	minimum "C" (GPA) grade.
Lec. Hrs. 000 Lab Hrs. 000 Other Hrs. 120	
FILP 2200 Film Production III	4.0 Quarter Credit Hrs
Practical work in sync-sound film production: creative use of camera, sound, editing and production planni	
production work required in the completion of a sync-sound film. Prerequisites: FIL 1430 and Approval of Academic Dean. Lec. Hrs. 030 Lab Hrs	Academic Advisor or
FIN 1103 Introduction to Finance	4.0 Quarter Credit Hrs
This course is a survey of the financial considerations encountered during life, including purchases, credit, l	
investments, retirement and estate planning. Prerequisite: None. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 06	
FIN 3006 Principles of Finance	4.0 Quarter Credit Hrs
This course examines the financial decisions that impact management and corporate financial officers. It is	
financial theory, principles and terminology. Prerequisites: MAN 2021 or HFT 1211. Lec. Hrs. 040 Lab Hrs.	
FIN 3230 Money and Banking	4.0 Quarter Credit Hrs
A study of the nature and function of money and credit instruments; the Federal Reserve System; monetary	
expansion and stabilization of the money supply. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000	
FIN 3501 Investments	4.0 Quarter Credit Hrs
This course is a study of securities and securities markets; analysis of various categories of corporate securit	ies, public securities, and
other investments; types of risks and taxes that affect investment policy timing, selection and investment va	lues. Prerequisite: FIN
1103. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000	
FIN 4602 International Business and Finance	4.0 Quarter Credit Hrs
This course is a study of financing international trade, the transfer of international payments, trade and pay	
restrictions, foreign exchange rates and investments. A survey of the European Economic Community and	
particular attention to the Caribbean and South America is also included. Prerequisite: FIN 3006. Lec. Hrs Hrs. 000	. 040 Lab Hrs. 000 Other
FIN 5609 International Finance	4.0 Quarter Credit Hrs
A study of the international dimensions of finance on both developed and underdeveloped nations, the role	
corporations, foreign exchange rates and markets, international sources of funds, cost of capital, financial s	
budgeting for foreign projects. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000	indetare, and capital
FIN 6409 Financial Management	4.0 Quarter Credit Hrs
A study of the capital structure, its costs, availability, and selection. Emphasis is placed on all aspects of cas	
management and distribution. Prerequisite: ACG 5027 or accounting principles (equivalent to APA 2111 an	
the undergraduate level. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000	
GEB 2353 International Competitiveness	4.0 Quarter Credit Hrs
A special study of international business with emphasis on cultural diversity and an overview of cultural sin	
among developing and developed countries. Prerequisite: None. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 00	
GEB 4351 Import/Export Management	4.0 Quarter Credit Hrs
This course covers the functions and range of traffic management services performed by freight forwarders;	
restrictions, rules and regulations applicable to different countries, ports, and trade routes; and provides co	
forms to facilitate and coordinate the movement of goods in international trade. Prerequisite: None. Lec. H Other Hrs. 000	rs. 040 Lab Hrs. 000
GEB 4352 International and Comparative Industrial Relations	4 o Quanton Crodit Una
Examines the selected industrial relations systems of Europe, Asia and the Americas with special emphasis	4.0 Quarter Credit Hrs
systems and the reasons such differences exist. The industrial relations significance of the multi-internation	
	nal enterprise and
management problems associated with operations in diverse systems, are analyzed. Prerequisite: None. Le	nal enterprise and

GRA 1122C Digital Applications for Publication Design	
A continuation of desktop publishing, focusing on publications using graphic layout. Prerequisite: CGS 10	4.0 Quarter Credit Hrs
Hrs. 020 Other Hrs. 000	310. Let. 1115. 030 Lab
GRA 1171C Advertising Design I	4 o Quenton Credit Un
GKA II/IC Advertising Design 1	4.0 Quarter Credit Hrs
An introduction to the fundamentals of effective retail advertising. This course develops the design principal sector is the sector of the the sec	les that are necessary for
the artist to produce comprehensive layouts. Prerequisites: GRA 1117C and GRA 1852C. Lec. Hrs. 030 La	
GRA 1172C Advertising Design II	4.0 Quarter Credit Hrs
A continuation of GRA 1171C with specific emphasis on industry standards, requirements and techniques.	Prerequisite: GRA 1171C.
Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000	
GRA 1852C Illustration Design	4.0 Quarter Credit Hrs
Drawing and composition techniques with direct application to marker rendering. Prerequisite: ART 1301	
020 Other Hrs. 000	
GRA 2111C Graphic Design I	4.0 Quarter Credit Hrs
This course acquaints the student with the basic principles of terminology, methods and systems used to so	
problems. A study of production techniques, theories of color separation and printing processes as they ap	
the commercial artist. Prerequisites: GRA 1117C and GRA 1852C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs.	
GRA 2114C Graphic Design II	4.0 Quarter Credit Hrs
An advanced study of design for full color, complex print-media production. Emphasis is placed on creatin	g accurately communicative
concepts for idea-driven design solutions. Includes advanced techniques in generating comprehensives usi	ng the Macintosh computer
Prerequisites: GRA 2111C and CGS 1031C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000	
GRA 2153C Digital Applications for Graphic Illustration	4.0 Quarter Credit Hrs
An introduction to techniques of drawing, illustration and layout design for advertising using digital illustr	
Macintosh computer. Prerequisite: CGS 1031C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000	ating program on the
GRA 2182L Advanced Digital Applications	2.0 Quarter Credit Hr
A continuation of computer techniques to enable the student to produce self promotional pieces for résum	e and portfolio.
Prerequisite: CGS 1031C. Lec. Hrs. 000 Lab Hrs. 040 Other Hrs. 000	
GRA 2225C Graphic Design Using Adobe Photoshop	4.0 Quarter Credit Hrs
This course covers the essentials of creating Web graphics using Adobe Photoshop. Technical fundamental	s, tips and techniques for a
wide range of graphics encountered in a typical Web design project are explored. Photos, line art, logos, ba	nners, text-as-graphic.
mported images, stock photos, and more are utilized. Prerequisite: CGS 1800C. Lec. Hrs. 030 Lab Hrs. 03	
GRA 2940 Commercial Art Externship	2.0 Quarter Credit Hrs
A practical experience allowing the student to apply knowledge and skills in the actual work environment.	Prerequisite: Approval of
Academic Advisor or Academic Dean. Lec. Hrs. 000 Lab Hrs. 000 Other Hrs. 060	
GRA 2952 Portfolio	2.0 Quarter Credit Hrs
This course develops the preparation for entry into the job market including the design and mechanical pro-	
business card, and resume. Instruction is also given in portfolio preparation and presentation as it applies	to job interviewing skills.
Prerequisites: GRA 2114C and student must have completed 40 quarter credit Hrs in the major core requir	ements. Lec. Hrs. 000 Lab
Hrs. 040 Other Hrs. 000	
HFT 1211 Hospitality Management	4.0 Quarter Credit Hrs
An introduction to the hotel and restaurant industry with emphasis on organization and management. This	
analysis of typical internal organizational structures in the industry and the various levels of management	
	roles and function(s). Lec.

# 4.0 Quarter Credit Hrs HIM 2272 Medical Insurance Billing 4.0 Ouarter Credit Hrs This course will train the student in the major medical insurance and claims forms processing. It will include information on national 2.0 Quarter Credit Hrs 4.0 Quarter Credit Hrs 4.0 Quarter Credit Hrs 4.0 Ouarter Credit Hrs health information management technician in this environment. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 5.0 Quarter Credit Hrs 4.0 Quarter Credit Hrs

This course is designed to cover medical jurisprudence and medical ethics. Legal aspects of office procedures are covered, including a discussion of various medical and ethical issues in today's medical environment. Lec. Hrs. 020 Lab Hrs. 000 Other Hrs. 000 HIM 2260C Introduction to Hospital Billing 4.0 Quarter Credit Hrs

hospitality project under investigation. Prerequisite: APA 2121. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

This course will cover the hospital-billing environment, including the completion of the UB-92 claim form using the Medisoft Just Claims software. Case studies will provide the student an opportunity to apply their skills as they complete inpatient and outpatient UB-92 claim forms. The hospital revenue cycle, medical insurance and payment systems will be discussed. ICD-9 procedural coding and prospective payment systems are introduced. Prerequisite: MEA 1301 and HIM 2272. Lec Hrs: 30.0 Lab Hrs: 20.0 Other Hrs: 0.0.

# HIM 2270C Medical Finance and Insurance

This course will train the student in the major medical insurances and claims forms processing. It will include information on national and other common insurance plans, as well as, claim form completion and ICD and CPT coding. Problem solving and managed care systems will also be discussed. Daily financial practices to include patient fee determining, credit arrangements bookkeeping and bank-keeping procedures will be discussed. Additionally the process of purchasing equipment and supplies will be covered. Computer use in the ambulatory environment will also be taught. Prerequisite: HIM 2272. Lec Hrs: 30.0 Lab Hrs: 20.0

# Other Hrs: 0.0.

and other common insurance plans, as well as, claim form completion and ICD and CPT coding. Problem solving and managed care systems will also be discussed. Prerequisite: HSC 1524. Lec. Hrs. 040 Lab Hrs 000 Other Hrs. 000 HIM 2326C Computer Applications for Medical Billing/Coding 4.0 Quarter Credit Hrs

This course is designed to give the student basic computer skills and knowledge in medical insurance billing and coding. Students are provided exposure to computer software applications used in the health care environment. This course will provide students with guidelines for the use of medical office management software. Students will work directly with the software for billing and coding of patient encounters for both ambulatory and inpatient hospital environments. Other medical software may be introduced. Prerequisite: CGS 2167C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# HIM 2346C Medical Computer Applications

Designed to give the student exposure to computer software applications as used in the medical office environment. This will include the use of medical office management software for organizing front office procedures and word processing software for typing medical reports and transcription. Other medical software may also be introduced. Lec. Hrs. 010 Lab Hrs. 020 Other Hrs. 000

# HSA 1102 Ethics of Caring for the Elderly

This course will provide students an overview of the issues related to ethical dilemmas and decision making in assisted living facilities relating to the elderly, their families and the staff. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# HSA 1122 Health Care Delivery System

A survey of the programs, services, and facilities in the continuum of health care. Emphasis is placed on the interrelationships between institutions and agencies and their roles in the prevention, diagnosis and treatment of health problems. Prerequisites: None. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# HSA 1211 Ancillary Health Facilities

The student will study health record systems in non-hospital facilities and the appropriate technical aspects and functions of the

# HSA 1221C Assisted Living Facility Management

This course will teach the Philosophy and Management of a Residential Care Facility for the Elderly. The manager must possess good skills in interpersonal relationships and have a basic understanding of the management of employees. The manager must also have a generalized knowledge of the structure and organization of a Residential Care Facility for the Elderly. Lec. Hrs. 040 Lab Hrs. 020 Other Hrs. 000

# HSA 1250 Administrator Certification Course

The study of the state regulations, which govern the operation of a Residential Care Facility for the Elderly. The manager must have a good understanding of what a Residential Care Facility for the Elderly is, who it serves, and what the role is of the governing regulatory agency. The manager must also have the knowledge required to pass the state licensing requirements necessary to operate this type of facility. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000.

# HFT 3260 Restaurant Management

This course is an analysis of the principal operating problems in the restaurant field. Procedures, approaches and techniques of management are explored ranging from fast food to gourmet. Industry leaders will present successful concepts of restaurant operation. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# HFT 3506 Hospitality Marketing

Hrs. 040 Lab Hrs. 000 Other Hrs. 000

HIM 1553 Medical Law and Ethics

### 4.0 Quarter Credit Hrs A study of sales, promotion and marketing practices of the hospitality industry. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 HFT 3606 Laws Related to the Hospitality Industry 4.0 Quarter Credit Hrs

An overview of laws, rules, and regulations pertaining to the hotel and restaurant industry with specific emphasis on sanitation, environmental health, and government regulatory agencies. The responsibilities of management as established by law are stressed. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# HFT 3806 Food and Beverage Management

HFT 4475 Feasibility Study in the Hospitality Industry

This course is an overall view of the food service industry including purchasing, receiving, and issuing food and other supplies. Lec.

### 4.0 Quarter Credit Hrs A study of the systematic process for evaluating the economic factors of the hospitality project and the likely results of operations

4.0 Quarter Credit Hrs

4.0 Quarter Credit Hrs

# before they are begun. Marketing and financial data are collected and analyzed to determine whether or not to proceed with the

# HSA 1288 Assisted Living Internal Relations

4.0 Quarter Credit Hrs This course will provide students an overview of the issues related to understanding the effect of staff values, culture, and perceptions on the resident population from an internal managerial point of view. In addition, this course will examine the importance of creating an environment that is sensitive to the rights of residents. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000.

# HSA 1300 Assisted Living Marketing & Outreach

4.0 Quarter Credit Hrs This course will provide students an overview of the process of marketing their facility to families, professionals and the community. Since marketing and outreach is an active activity, students will be asked to become involved in the development of strategies and the implementation of a marketing plan. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000.

# HSA 1320 Financial & Computer Software for Assisted Living Administrators

All Administrators must understand the importance of both long- and short-term goals of the organization and how to implement and change plans to meet the needs of the community and/or surrounding areas and the current economy. This course prepares students in basic budgeting and accounting, as well as understanding current computer software and systems. Prerequisite: CGS 2167C. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# HSA 1343C Human Resources for Assisted Living

5.0 Quarter Credit Hrs The study of human resource administration and practice is an integral aspect of effective assisted living management. The managers must possess basic knowledge as a human resource generalist in order to comply with the legal mandates and licensing requirements of the state in which they operate. Lec. Hrs 040 Lab Hrs. 020 Other Hrs. 000

# HSA 1810L Externship I

6.0 Quarter Credit Hrs This 180 hour course is designed to provide the student with an opportunity to observe the operation of an assisted living facility and to identify some of the unique needs of the senior population. The focus of this externship is on the uniqueness of the aging population and the skills required to meet their daily needs. Students will gain experience in applying classroom learning and skills through this exposure to "on the job" training. Prerequisites: HSC 1564, HSC 1565. Lec Hrs. 000 Lab Hrs. 000 Other Hrs. 180

# HSA 1902L Externship II

This 180 hour externship is designed to provide the student with the opportunity to observe and reflect on the classroom learning and its application and appropriateness to the assisted living setting. The focus in this externship is on the whole community and how it operates on a daily basis. The students will utilize journaling to document their experiences and interactions with the personnel at the facility. Prerequisite: HAS 1810L. Lec Hrs. 000 Lab Hrs. 000 Other Hrs. 180

# HSA 2113 Health Care Delivery Systems, Issues and Transitions

This course is designed to provide the student with an overview of current health care professions, including career and labor market information. Additional topics covered include health care delivery systems, health organization structure, patient rights and quality of care, workplace behavior in health care, and decision making in the health care environment. Prerequisite: None Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 4.0 Quarter Credit Hrs

# HSA 2182 Health Care Organization and Administration

Analyzes organizational patterns of various types of health care institutions. Introduces various administrative functions, including medical staff organization, departmental functions, policy formation, internal control systems, planning procedures, fiscal and personnel management, public relations, and the various information needs of administration. Prerequisite: None. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# HSA 2422 Demographic Aspects and Cultural Diversity in Health Care

4.0 Quarter Credit Hrs This course is an introduction and overview of the demographic issues and cultural dimensions of human systems, including worldview, kinship and social organization, healthcare beliefs, and rules of reciprocity. The goal of this course is to prepare health care administrators to deal with the wide variety of culture rules and norms that are often present in providing systems of care for diverse populations. Prerequisite: None. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

### HSA 3140 Health Care Planning/Evaluation

4.0 Quarter Credit Hrs Introduces models for planning and program evaluation in a health care setting including methods for identifying, gathering, and utilizing data as information for decision making. Prerequisite: HSA 2182. Lec. Hrs 040 Lab Hrs. 000 Other Hrs. 000 4.0 Quarter Credit Hrs

# HSA 3222 Long Term Care Administration

Current financing mechanisms and proposed solution, and the impact of government regulation on the operation of long-term care facilities. Concepts and process of patient care planning and management in long-term care facilities. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# HSA 3344 Public Policy in Health Care

Public policy is an integral aspect of the delivery of health care in this nation. This course examines policy formulation at the federal and state levels. Policy trends and regulatory issues are tracked and forecasted from the perspective of the provider and consumer with attention to issues of ethics and equal access. Prerequisite: None. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# HSA 4121 Introduction to Health Statistics

4.0 Quarter Credit Hrs Use of health record database for statistical and reporting purposes. Topics include inputting data and preparing reports as related to health care services. Prerequisites: MAT 1033 and STA 2014. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# HSA 4170 Financial Management in Health Care

Studies accounting and financial management principles and their application to operational problems in the health care environment. Includes budgeting and the purposes and techniques of forecasting financial results for individual projects and the entire institution. Prerequisite: APA 2111. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

HSA 4193C Information Systems and Computer Application in Health Care 4.0 Quarter Credit Hrs Overview of health care information systems with emphasis on computer applications. Discussion of software and hardware requirements. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

HSA 4341 Conflict Management in Health Care

This course focuses upon identifying conditions in the health care field that cause conflict, modifying those conditions that contribute to escalation, and identifying appropriate methods of intervention for effective resolutions. Prerequisite: None. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# HSA 4502 Risk Management

4.0 Quarter Credit Hrs Safety, liability and loss control issues with emphasis on risk retention, risk reduction, and risk transfer in health care. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

HSA 4930 Health Care Management Seminar

2.0 Ouarter Credit Hrs A health care management topic is selected by the instructor based upon its impact in the health care industry. Lec. Hrs. 020 Lab Hrs. 000 Other Hrs. 000

# HSC 1524 Diseases of the Human Body

This course is a scientific study of the human body's diseases and disorders, including signs and symptoms, etiology, diagnosis and treatment. Prerequisites BSC 1085, BSC 1086 (BSC 2080 for MIBC students). Lec Hrs 40.0 Lab Hrs. 0.0 Other Hrs. 0.0

# HSC 1531 Medical Terminology

This course presents a study of basic medical terminology. Prefixes, suffixes, word roots, combining forms, special endings, plural forms, abbreviations, and symbols are included in the content. A word building, systems approach is used to learn word parts for constructing or analyzing new terms. Emphasis is placed on spelling, definition, usage, and pronunciation. Abbreviations are introduced as related terms are presented with each unit. Lec Hrs: 40.0 Lab Hrs: 0.0 Other Hrs: 0.0.

# HSC 1564 Aging Issues I

This course will provide students with an overview of the issues related to aging and some of the unique problems assisted living facilities will be challenged with during the course of providing care and service. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000.

# HSC 1565 Aging Issues II

This course will provide students a further examination of the issues related to aging and some of the unique problems assisted living facility managers will be challenged with during the course of providing care and service. Lec. Hrs. 040 Required externship Hrs: 180 Hrs total upon completion of Aging Issues, Part II. Prerequisite: HSC 1564 (Aging Issues I).

# HSC 3553 Legal Aspects/Legislation in Health Care

Introduces the legislation and various legal issues affecting the health care industry. Includes legal obligations of the administration and medical staff, consent for treatment, patients' rights, admission and discharge of patients, negligence and malpractice, licensure, privacy and confidentiality and decision making. Prerequisite: BUL 2131. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# HSSP 1610 Emergency Medical Services & Fire Operations I

This course introduces students to the knowledge and skills necessary to function as a trained First Responder to respond to patients in the pre-hospital setting. Students are trained in patient assessment and taking vital signs, handling patients' airways, and are trained in Adult and Pediatric CPR. (More advanced skills are taught in Emergency Medical Services & Fire Operations II). Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# HSSP 1620 Emergency Medical Services & Fire Operations II

This course continues to introduce students to the knowledge and skills necessary to function as a trained First Responder and identify and manage the most common types of injuries and illnesses encountered in the pre-hospital setting. This course builds on the knowledge learned in Emergency Medical Services & Fire Operations I. This course also introduces students to the concepts surrounding an organized response to fire, hazmat and evacuation operations as well as an overview of the incident command system.

# HSSP 2820 Information Technology Security II

This course builds on the knowledge learned in Information Technology Security I, and introduces the student to more technical information about information technology security. Topics covered include internet architecture, virtual private networks, ecommerce security, encryption, hacker techniques, and intrusion detection. It also covers the security issues of common operating systems, and compares the security of the 3 most common operating systems in the business and government world: UNIX, Windows NT, and Windows 2000. Prerequisite: DSC 2812. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# **HSSP 3100 Critical Incident Management**

This course examines the concepts of critical incident management, local vs. federal responses, assessments, safety issues and roles of lead agencies. Course content will also include the Incident Management System (IMS), first responders, convergent responders and an overall awareness of the Unified Management Command concept. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# HSSP 3200 Facilitating Psychological Support for Catastrophic Events

This course examines the concepts of psychological support after a critical incident. The relationship between catastrophic events and the interruption of basic needs will be explored. Course content will also include a discussion of causes, symptoms and agency responses to critical incident stress. Prerequisite: PSY 2012. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# HSSP 3301 Case Study 1

This course addresses leadership issues in critical incident management by examination and evaluation of historical critical incident events. The approval of the Program Director is required if the students are not in their final 48 credit Hrs of the program. Lec. Hrs: 010 Lab Hrs. 000 Other Hrs. 000

# HSSP 3302 Case Study 2

This course addresses leadership issues in critical incident management by examination and evaluation of historical critical incident events. The approval of the Program Director is required if the students are not in their final 48 credit Hrs of the program. Lec. Hrs:

# HSSP 3400 Anti-Terrorism Risk Assessment

The students will develop an understanding of the threat of terrorism and will create anti-terror risk assessments by evaluating risk, determining vulnerabilities, and analyzing reasonable processes in order to develop foundations for target protection and defense. Students will explain differences between anti-terrorism and counter-terrorism and compare and contrast how these two fields relate to each other. Exercises include application of assessment processes to terrorist based scenario. Prerequisite: DSC 1005 Lec. Hrs: 040 Lab Hrs. 000 Other Hrs. 000

# 4.0 Quarter Credit Hrs

4.0 Ouarter Credit Hrs

# 4.0 Quarter Credit Hrs

# **HSSP 3600 Homeland Security Retreat Option**

This course provides cutting edge critical issues in Homeland Security presented by subject matter experts in the field. Students will participate in interactive presentation and activities. Students will participate in a role play exercise with private and public special operations personnel. The students must receive permission of the Program Director to enroll in this course. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# HSSP 4100 Post Catastrophic Event Documentation and Reporting

4.0 Quarter Credit Hrs Upon completion of this course, the students will be able to understand, analyze and create components of a post catastrophic incident reporting system in a corporate, government, or international environment. The students will employ objective documentation as well as develop and deliver formal and informal presentations using appropriate media. The students will understand and apply end-user oriented report development concepts. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# HSSP 4200 Critical Issues in Hostage Negotiations

4.0 Quarter Credit Hrs This course provides the student with an understanding of the dynamics of hostage negotiation scenarios and how the act of hostage taking impacts homeland security. The course addresses the psychological implications of hostage taking from the perspective of the victim and the suspect. The procedures for managing a hostage situation are discussed. Prerequisite: PSY 2012. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# HSSP 4300 Current Events in Homeland Security Management

4.0 Quarter Credit Hrs This course examines the importance of current events in the management of the Homeland Security process. Topics covered include threat analysis, intelligence and its uses, immigration, border security, transportation, terrorism, infrastructure, medical and public health issues, cyber and telecommunications security, and training exercises for Homeland Security. The ethical questions about information disbursal are addressed, as well as how current events drive the policy decisions that are made regarding Homeland Security. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# HSSP 4400 Communications and Technology Security

4.0 Quarter Credit Hrs This course introduces the students to the world of high technology security. Topics include risk assessment and vulnerability, planning for attacks, responses to attacks, business continuity planning, recovering from attacks, and the dangers from attacks. Network computer security best practices are also covered. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

### **HSSP 4500 Weapons of Mass Destruction**

This course examines the history, terminology, and types of Weapons of Mass Destruction (WMD). Course content will also include a discussion of causes, symptoms, consequences of and responses to a WMD event. Students will participate in exercises involving the decision making process, identifying WMD threats, pre- and post-attack actions, monitoring for contamination and recovery procedures. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

HSSP 4600 Mass Casualty Management Planning 4.0 Quarter Credit Hrs This course is designed to introduce the concepts involved in planning for and managing a mass casualty and/or a mass fatality incident from the local to regional to national perspectives. Topics include natural, accidental and intentional events, analyzing local resources, and how to request and receive additional resources. Student participation is utilized throughout to share information regarding various sized communities, their resources, and different types of incidents. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 4.0 Quarter Credit Hrs

# HSSP 4700 Capstone Simulation

This course is aimed to help students to focus upon Homeland Security and design and identify research topics. It will enhance students' written and oral communication skills relating to Homeland Security studies. The course includes presentations and discussions by students, possible guest Lecrs and field trips, and a community response reaction project. The course culminates in the presentation of preliminary research findings for the Homeland Security capstone project. The students must take this course in the final two quarters prior to program completion. Lec. Hrs. 020 Lab Hrs. 040 Other Hrs. 000

# HUM 4474 Cultural Diversity and Assimilation

4.0 Quarter Credit Hrs This course explores methodology of cultural assimilation while retaining ethnic values and identity. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# HUN 1001 Basic Nutrition

This course is a study of basic nutrition including a discussion of vitamins and minerals necessary to maintain good health, cultural and religious differences that affect nutrition, and an analysis of medical diets utilized in the treatment of disease and the maintenance of good health. Lec. Hrs. 020 Lab Hrs. 000 Other Hrs. 000

# INVP 2310 Fingerprints Classification & Latents I

Upon successful completion of the course, the students will be able to understand the historical background of the science of fingerprints and legal aspects. The students will learn and be able to classify fingerprint cards using the Henry Classification System, to recognize fingerprint patterns and sections of the hand, terminology, obtain ten prints and major case prints, and to understand the New Automated Fingerprint Identification Systems. The students will also be able to individualize one fingerprint card from another. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# **INVP 2320 Fingerprints Classification & Latents II**

Upon successful completion of the course, the students will be able to understand the historical background of the science of fingerprints. The students will learn and be able to classify fingerprint cards using the Henry Classification System, to recognize fingerprint patterns, terminology, and to understand the New Automated Fingerprint Identification Systems. The students will also be able to individualize one fingerprint card from another and to demonstrate the ability to locate, process, and recover latent prints in the field and lab. Prerequisite: INVP 2310. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# INVP 2600 Collecting and Presenting Audio & Visual Evidence

4.0 Quarter Credit Hrs This course is designed to introduce the concepts involved in collecting and presenting audio and visual evidence. The students will also be introduced to the documentation methods for preserving visual evidence. This course will allow the students to understand the courtroom technology available for presentation methods utilizing audio and visual means. These disciplines will include digital photography, film photography, video, voice and audio recordings. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# MAN 5066 Managerial Ethics

4.0 Quarter Credit Hrs This course is a comprehensive, integrated approach to business ethics which incorporates the principles of critical, ethical thinking and applies them to situations and models for business decision making. The course addresses ethics from the political, social, economical and legal perspectives. A decision-making strategy, RESOLVEDD, is employed to guide students through both the basic and complex elements of an ethical analysis. The course provides a conceptual, systematic and practical study of ethics in business with the goal of developing consistent criteria as applied to changing and emerging values. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# MAN 5140 Managerial Decision Making

A comprehensive overview of decisions and the decision making process used by management in a number of situations. Financial management, personnel management, production, marketing and other aspects of a business environment will be utilized to develop sound decision making practices. The course also uses an integrated approach to study the application of the concepts of management to managerial decision making and the decision making process. Student acquires "hands-on" experience through the use of contemporary case studies. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# MAN 5245 Organizational Behavior

4.0 Quarter Credit Hrs This course covers the concepts relevant to the understanding of organizational behavior theory as applied to business. Concepts such as motivation, group dynamics, leadership, communication, goal setting and organizational culture related to business will be covered. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# MAN 5266 Management of Professionals

4.0 Quarter Credit Hrs Organizational behavior of professional employees is investigated through available theories and concepts. Concentration is placed on the manager's role, especially that of matching organizational demands with individual talents and expectations. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# MAN 5285 Organizational Development and Change

4.0 Quarter Credit Hrs Theory and research related to management efforts to design and implement continual developmental activities to alter climate and improve productivity and effectiveness in organizations. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# MAN 5355 Managerial Assessment and Development

Foundations of measurement of managerial performance and development. Analysis of research in competence, style, ratings, and performance. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# **MAN 5601 International Business**

An analysis of the managerial aspects of business administration from an international perspective, including organization, production, human resources, technology, finance, marketing, accounting, capital markets, and the latest trends and strategies in global operations. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# **MAN 5910 Business Research**

An in-depth study of business research methods and practices vital to the business professional. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 4.0 Quarter Credit Hrs

# MAN 6307 Management of Human Resources

This course explores and analyzes the principles, strategies, and practices of human resources management, including the various functions such as recruitment, planning, supervision, promotion, management, and control of personnel in organizational settings, Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# MAN 6721 Business Policy and Strategy

Business Policy and Strategy is intended to be the capstone course in strategic management for the MBA program. The course is a thorough coverage of the seismic strategy-related changes in the business environment and explores the challenges in business strategies, business organizations, and business practices being altered by globalization, the Internet, and dot-com companies. This course must be taken within the final two quarters prior to program completion. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 4.0 Quarter Credit Hrs

# MANP 2501 Capstone Experience

This course, to be taken within the student's last 24 credits, utilizes a portfolio approach to help document their academic achievements and knowledge acquired from their other business and management courses. This capstone course is a culminating experience in which students, through the development of a professional development portfolio, demonstrate attainment of core business competencies, and connect theory and application in preparation for entry into their chosen career. Lec Hrs: 30. Lab Hrs: 20 Other Hrs. 000 4.0 Quarter Credit Hrs

# MANP 4501 Applied Management Senior Capstone Experience

The Senior Capstone course utilizes a portfolio approach to help seniors integrate the knowledge gained from their other required business and management courses. Students will conduct research on current industry trends in their chosen career field and will apply relevant business concepts to gain a better understanding of the factors that may affect long-term viability and growth. In addition, students will create a professional development plan tailored for their career field. Prerequisite: MAN 2021. Lec Hrs: 040 Lab Hrs: 000 Other Hrs: 000

# MAR 1011 Introduction to Marketing

4.0 Ouarter Credit Hrs The course deals with the distribution of goods from producer to consumer and covers such topics as characteristics of markets for consumer goods, marketing functions and the organizations that perform them, marketing methods and techniques, price policies, and the cost of marketing. Prerequisite: None. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# MAR 2141 Introduction to International Marketing

Examines the basic principles of marketing in an international environment. Major areas of the cultural, political and economic environments affecting multinational marketing management are reviewed for analysis of international marketing problems. Prerequisite: MAR 1011 Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# MAR 2305 Customer Relations and Servicing

4.0 Quarter Credit Hrs This course explores the basic functions relating to customers on a one-on-one basis. It teaches the people skills needed to work with people to enhance the company, its public image, and satisfy the client or customer. Prerequisite: None. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# MEA 1207 Basic Clinical Procedures

4.0 Quarter Credit Hrs This course, which is designed to be taken concurrently with MEA 1207L, focuses on universal precautions in the medical environment, including understanding bloodborne pathogens, HIV/AIDS and hepatitis, infection control, and an introduction to assisting with surgeries. In addition, the student will gain proficiency in medical asepsis in a simulated setting. Also covered will be emergency procedures. Prerequisite: HSC 1524. Corequisite: MEA 1207L. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# MEA 1207L Basic Clinical Procedures Lab

2.0 Quarter Credit Hrs This course is designed for students to practice and acquire the skills learned in MEA 1207, under direct supervision of the clinical instructor. Students will be checked off on new skills as they are mastered. Prerequisite: HSC 1524. Corequisite: MEA 1207. Lec. Hrs. 000 Lab Hrs. 040 Other Hrs. 000

# **MEA 1226C Exams and Specialty Procedures**

MCB 2000 Microbiology and Infection Control

This course will present theories and principles of patient care, including taking medical histories and documentation, the physical examination, rehabilitation medicine, minor surgery, and specialty procedures. Prerequisite: MEA 1207, MEA 1207L. Corequisite: MEA 1226L. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# MEA 1226L Exams and Specialty Procedures Lab

2.0 Quarter Credit Hrs This course is designed for the student to practice and acquire the skills learned in MEA 1226C, under direct supervision of the clinical instructor. Students will be checked off on new skills as they are mastered. Prerequisite: MEA 1207, MEA 1207L. Corequisite: MEA 1226C. Lec. Hrs. 000 Lab Hrs. 040 Other Hrs. 000

# MEA 1235 Anatomy and Pathophysiology of the Integumentary, Urinary and Digestive Systems and Nutrition 4.0 Quarter Credit Hrs

This course is a scientific study of the structure of the human body and its parts including relationships and functions and disease processes of the integumentary, digestive and urinary systems and nutrition and metabolism. Prerequisite: HSC 1524. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# MEA 1243L Pharmacology Lab

In this course, which is designed to be taken concurrently with MEA 2244, various aspects of clinical pharmacology are discussed and practiced, including common abbreviations used in prescription writing, interpretation of prescriptions, and legal aspects of writing prescriptions. In addition, dosage calculations and administration of medication will be taught and practiced. Prerequisite: BSC 1085. BSC 1086, HSC 1524. Corequisite: MEA 2244. Lec. Hrs. 000 Lab Hrs. 040 Other Hrs. 000

# HSC 1524 Diseases of the Human Body

This course is a scientific study of the human body's diseases and disorders, including signs and symptoms, etiology, diagnosis and treatment. Prerequisites BSC 1085, BSC 1086 (BSC 2080 for MIBC students). Lec Hrs 40.0 Lab Hrs. 0.0 Other Hrs. 0.0

# MEA 1304C Medical Office Procedures

4.0 Quarter Credit Hrs This course introduces students to the administrative functions of the medical office or clinic. Emphasizes written and oral communication, scheduling, medical records, documentation and filing. In addition, telephone techniques, etiquette and management/human resource skills will be covered. Prerequisite: HSC 1531, OST 1114L. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# MEA 2244 Pharmacology

4.0 Quarter Credit Hrs Various aspects of clinical pharmacology are discussed including a study of the various medications currently prescribed for the treatment of illnesses and diseases based on a systems method. Prerequisites: BSC 1085, BSC 1086, and MEA1250. Corequisite: MEA1243L (No corequisite for PTN students). Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 2.0 Ouarter Credit Hrs

# MEA 2245L Phlebotomy

This course is a review. It includes the discussion of possible complications of phlebotomy. The student will perform venipuncture and capillary sticks while using proper safety procedures. Prerequisite: MEA 2260, MLS 2260L Lec. Hrs. 010 Lab Hrs. 020 Other Hrs. 000

# MEA 2246 Pharmacology for MIBC

Various aspects of clinical pharmacology are discussed including a study of associated medical terminology, anatomy and physiology and diseases based on a systems method. Various medications currently prescribed for treatment of these will be introduced as they relate to the associated systems and absorption, excretion and distribution of these drugs will be introduced as well. Lec Hrs: 30. Lab Hrs: 20 Other Hrs. 000

# MEA 2257L Introduction to X-ray

### 4.0 Quarter Credit Hrs This course assists the student in preparing to apply to take state licensure examinations at the "basic x-ray machine operator" level. Topics will include the basic concepts of radiation, radiation protection, radiological procedures and patient positioning. Prerequisite: BSC 1085, BSC 1086. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# **MEA 2260 Diagnostic Procedures**

4.0 Quarter Credit Hrs This course will present theories and practices related to the common diagnostic procedures and tests performed in the doctor's office or medical clinic. Venipuncture, hematology, specialty lab tests, electrocardiograms and urinalysis will be covered. Prerequisite: BSC 1085, BSC 1086, HSC 1524, MEA 1207, MEA 1207L. Corequisite: MLS 2260L. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# 4.0 Quarter Credit Hrs

# 4.0 Quarter Credit Hrs

# 4.0 Quarter Credit Hrs

# 2.0 Quarter Credit Hrs

# MEA 2285L EKG Interpretation

This course enables the student to recognize and interpret basic cardiac rhythms along with atrial, junctional, and ventricular arrhythmias. Recognition and identification of the location of various myocardial infarctions is included in the course. Utilizing the skill learned, the student will be able to identify and respond appropriately to life-threatening cardiac arrhythmias and EKG changes. Lec. Hrs. 000 Lab Hrs. 040 Other Hrs. 000

# MEA 2305 Medical Office Management and Compliance

This course covers a broad area of topics that are essential to the Medical Office Manager. This course will prepare the student to comprehend the complexity of the health care system and the life cycle of a medical practice. Areas that will be discussed include; Personnel management, compliance, technology and the many roles of the office manager. Prerequisite: None. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# MEA 2337 Patient and Insurance Collection Strategies

This course will be broken into two segments. First, advanced strategies for dealing with insurance carriers including EOB interpretation, follow-up practices and the appeal process. Second, convincing delinquent patients to remit payments is an art form. Developing an effective collection plan that will include reviewing your entire billing, insurance, managed care and collection process is essential to developing a successful plan. Prerequisite: HIM 2272. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# MEA 2340 Coding Cases I (Physician Professional Services)

This class is a hands-on coding practicum that will allow the student to perform practical application to the coding skills learned in the "Introduction to Coding" class. A review of the basic coding guidelines will be given, however, this class will focus on coding from case studies and operative reports using the ICD-9-CM Volume I and II, CPT-4 and HCPCS code books. Prerequisite: MEA 2355. Lec. Hrs. 000 Lab Hrs 040 Other Hrs. 000

# MEA 2344 Workers' Compensation & Specialties

This course will cover the workers' compensation system and its related terminology. A compensable injury under workers' compensation will be defined, as well as, how to report an injury. The various forms used by workers' compensation will be discussed. The OMFS (Official Medical Fee Schedule) will be covered. Prerequisite: HIM 2272. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 2.0 Quarter Credit Hrs

# MEA 2349L Coding Cases II (Hospital Billing)

Hands on coding from hospital inpatient documentation. The student will be exposed to the coding software tools used by hospital coders. The UB-92 claim form will be utilized for these case study scenarios. Prerequisite: MEA 2355 and HIM 2260C. Lec. Hrs. 000 Lab Hrs. 040 Other Hrs. 000

# **MEA 2355 Introduction to Coding and Documentation**

This course will cover the basic guidelines and coding conventions in ICD-9-CM, CPT-4 and HCPCS. This course will focus on the professional (outpatient) guidelines. The evaluation and management documentation guidelines will be discussed, as well as, the proper use of modifiers. Prerequisite: HSC 1524, MEA 1232. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# **MEA 2388 Government Payers**

This course will cover the billing guidelines from the various government payers that will include: Medicare; Medicaid; and Tricare. Medicaid is a state and federal program and may have different guidelines from state to state. This class will look at the Medi-Cal program model. Prerequisite: HIM 2272. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# **MEA 2561 Professional Procedures**

2.0 Quarter Credit Hrs Designed to assist students as they transition from the classroom into professional medical assisting practice. A comprehensive review of the clinical, administrative and general areas of competence required for entry-level practice will be covered as well as the methods of obtaining professional credentials. Prerequisite: All medical classes. Lec. Hrs. 020 Lab Hrs. 000 Other Hrs. 000

# MEA 2802 Medical Externship

This course is 160 Hrs of unpaid, supervised, practical, in-service in a medical office or clinic in which the student practices direct application of all administrative and clinical functions of the medical assistant. Prerequisite: All classes in the Medical Core must be completed prior to enrollment. Lec. Hrs. 000 Lab Hrs. 000 Other Hrs. 160

# MEAP 1301 ICD-9 Coding

This course will cover the basic guidelines and coding conventions in ICD-9-CM. This course will focus on the professional (outpatient) guidelines. The proper diagnostic assignment based on documentation will be discussed, as well as, the proper use of multiple codes, 3 digit, 4 digit and 5 digit specificity. Prerequisite: HSC 1524 and BSC 2080. May be taken with co-requisite of HSC 1524. Lec Hrs: 30. Lab Hrs: 20 Other Hrs. 000

# MEAP 1305 Introduction to CPT Coding

This course will cover the basic guidelines and coding conventions in CPT. This course will focus on the professional (outpatient) guidelines. The evaluation and management documentation guidelines will be discussed, as well as, the proper use of procedure codes and associated modifiers. Prerequisite: HSC 1524, HSC 1524, and BSC 2080. Lec Hrs: 40. Lab Hrs: 20 Other Hrs. 000

# **MEAP 2345 Third Party Payers**

This course will cover the third party payers (Managed Care, Medicare, Medicaid, Tricare and Worker's Compensation) and its related terminology. This course will give the billing and coding students, an in depth look at how third party payer's bill. It will cover the following information, rule and regulation, submission of the correct claim form, the criteria needed for each payer, the federal laws for each payer, identification of benefits or non-benefits for each third party payer, how to calculate payment, and scenario. Prerequisite: HIM 2272. Lec Hrs: 40. Lab Hrs: 20 Other Hrs. 000

# MEAP 2346 Advanced CPT Coding

4.0 Quarter Credit Hrs This course will cover advanced guidelines and coding conventions in CPT. This course will focus on the professional (outpatient) guidelines. The evaluation and management documentation guidelines will be discussed, as well as, the proper use of modifiers. Prerequisite: MEA 1305. Lec Hrs: 40. Lab Hrs: 20 Other Hrs. 000

# MEAP 2348 Abstract Case Coding

This course will cover the abstracting guidelines and coding conventions in ICD-9-CM, CPT and HCPCS coding. This course will focus on the professional (outpatient) guidelines. The evaluation and management documentation guidelines will be discussed, as well as, the proper use of cross coding diagnoses with procedures. Prerequisite: MEA 2346. Lec Hrs: 40. Lab Hrs: 20 Other Hrs. 000

# MLS 2260L Diagnostic Procedures Lab This course is designed for the student to practice and acquire the skills learned in the Diagnostic Procedures Lec, under direct supervision of the clinical instructor. Students will be checked off on new skills as they are mastered. Prerequisite: BSC 1085, BSC 1086, HSC 1524, MEA 1207, MEA 1207L. Corequisite: MEA 2260. Lec. Hrs. 000 Lab Hrs. 040 Other Hrs. 000 MMC 4602 Mass Media Covers the principles, theories, and ideas of mass media as well as the technology and creative methods used in mass media: past, present, and future. The role of mass media in business, politics, religion, entertainment, and advertising will be discussed. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 MTB 1103 Business Math This course presents a comprehensive review of computational skills as they apply to the business world. Topics include fractions, decimals, banking and credit card transactions, equations, percents, discounting process (trade and cash), markups and markdowns, simple and compound interest, and payroll functions. Prerequisite: None. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 NSGP 2030: Care of the Adult Client II

This course builds on the course content of NSG 1020 and focuses on the nursing care of adults with altered health states. The nursing process is used as a continuing theme to integrate classroom theory with more complex clinical nursing care. Prerequisites: NSG 2010, 2015, 2020, 2025, and SYG 2000. Co-requisites: MEA 1006C, CGS 2167C, and NSGP 2035. Lec Hrs. 40.0 Lab Hrs. 0.0 Other Hrs. 0.0

billing service setting in which the student practices direct application of all administrative and coding functions of the medical biller and coder. Prerequisite: All classes in the MIBC CORE must be completed prior to enrollment. Lec Hrs 0.0 Lab Hrs 0.0 Other Hrs 120

# NSGP 2035: Care of the Adult Client II Clinical

3.0 Quarter Credit Hrs The clinical portion of the course integrates the theory in caring for the adult client in multiple clinical sites. Prerequisites: NSG 2010, 2015, 2020, 2025, and SYG 2000. Co-requisite: NSGP 2030, MEA 1006C, and CGS 2167C. Lec Hrs. 0.0 Lab Hrs. 16.0 Other Hrs. 104.0

# NSGP 2040: Advanced Nursing Care

**MEAP 2808 Externship for MIBC** 

This course builds on the content of the previous nursing courses and continues the focus on nursing care of clients with altered health states of a very complex nature. The nursing process is used as a continuing theme to integrate advanced classroom theory with and clinical practice. Prerequisites: NSG 2030, 2035, and MEA 1006C. Co-requisites: NSGP 2045, 2050, 2055, and 2060. Lec Hrs. 40.0 Lab Hrs. o.o Other Hrs. o.o

# NSGP 2045: Advance Nursing Care Clinical

The clinical portion of the course integrates the theory in by focusing on providing complex care of clients in multiple clinical sites. Prerequisites: NSG 2030, 2035, and MEA 1006C. Co-requisites: NSGP 2040, 2050, 2055, and 2060. Lec Hrs. 0.0 Lab Hrs. 16.0 Other Hrs. 104.0

# NSGP 2050: Nursing Leadership and Management

This course is designed to develop beginning leadership skills for the associate degree nursing students that are necessary to manage clients and health care workers. Prerequisites: NSG 2030, 2035, and MEA 1006C. Co-requisites: NSGP 2040, 2045, 2055 and 2060. Lec Hrs. 30.0 Lab Hrs. 0.0 Other Hrs. 0.0

# NSGP 2055: Nursing Leadership and Management Clinical

The clinical portion of the course integrates the theoretical aspects of nursing leadership and management in a variety of settings. Prerequisites: NSG 2030, 2035, and MEA 1006C. Co-requisites: NSGP 2040, 2045, 2050 and 2060. Lec Hrs. 0.0 Lab Hrs. 8.0 Other Hrs. 82.0

# NSGP 2060: NCLEX Review

1.0 Ouarter Credit Hrs This course provides a systematic review of nursing material that will prepare the student for the NCLEX-RN. Prerequisites: NSG 2030, 2035, and MEA 1006C. Co-requisites: NSGP 2040, 2045, 2050, and 2055. Lec Hrs. 10.0 Lab Hrs. 0.0 Other Hrs. 0.0

# NSGP 3066C Physical Exam and Health Assessment:

This course focuses on techniques of physical examination and client assessment, health Emphasizes the assessment phase of the nursing process using critical thinking to enable the student to perform health evaluations of health status throughout the life span. Prerequisite: RN Licensure Co-requisites: Lec Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# NSGP 3125 Pathophysiology for Nursing Practice:

An in-depth study of cellular alterations in organ systems as they relate to selected disease states that impact the health of individuals. Emphasis is placed on critical thinking and decision making related to these alterations in homodynamic balance, their presentation and implications for nursing practice. Age-related, cultural, and ethnic variations will be explored. Prerequisites: RN Licensure Corequisites: Lec Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# NSGP 3145 Pharmacology in Nursing Practice:

This course enhances the professional nursing student understanding of the principles of pharmacology and drug therapies, pharmacologic-therapeutic classes of drugs, and important drug information resources. Emphasis is placed on nurse's role in drug administration, the nursing process with patient teaching, application in nursing practice, and legal and ethical responsibilities for administering drugs. Prerequisites: RN Licensure Co-requisites: NSGP 3125 Lec Hrs. 040 Lab Hrs. 000 Other hrs. 000

# **NSGP 3805 Professional Role Transition:**

This course focuses on the nonclinical aspects of the professional nursing role. Provide introduction to informatics in relation to healthcare and analyzes various applications of information systems. Key concepts covered include theoretical models, computers in healthcare, information processing, data management, data acquisition and consumer informatics. Prerequisite: RN Licensure Corequisites: Lec Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# NSGP 3826 Ethical Legal Aspects of Nursing and Health Care:

Legal and ethical aspects of the nurse's role in the delivery and management of health care are examined in this course. Focus on ethical decision-making in health care situations will be addressed. The course will explore the impact of health policy changes on nursing practice and the delivery of health care to culturally diverse clients throughout the lifespan. Prerequisite: RN Licensure Co-requisites: NSGP 3805. Lec Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# 4.0 Quarter Credit Hrs This course is 120 Hrs of unpaid, supervised, practical, and in-service in a medical coding position at a medical clinic, medical office or

# NSGP 4165 Nurses As Educators:

This course introduces the student to the theory and principles of nursing education in preparation for the teaching role in healthcare institutions. Emphasis is placed on adult learning theory, role transition of the clinical educator, practical skills, legal and ethical issues, and current trends in nursing education. Prerequisite: RN Licensure Co-requisites: Lec Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# **NSGP 4265 Nursing Informatics:**

Provide introduction to informatics in relation to healthcare and analyzes various applications of information systems. Key concepts covered include theoretical models, computers in healthcare, information processing, data management, data acquisition and consumer informatics. Prerequisite: RN Licensure Co-requisites: Lec Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# NSGP 4310 Community/Public Health Nursing:

This course introduces the concepts and principles basic to the development and maintenance of the community's health and relates them to the practice of the health professional. The epidemiological process guides the survey of current major health issues. The course focuses on the health issues of underserved, vulnerable, or culturally diverse, rural or urban communities and populations at local, state, national, and global levels. Prerequisite: RN Licensure Co-requisites: NSGP 4310L Lec Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# NSGP 4310L Community/Public Health Nursing Clinical:

The clinical portion of the course integrates and applies the theory in a variety of community- and population-based settings with consultation and availability of multiple health care resources and in collaboration with underserved, vulnerable, or culturally diverse, rural or urban communities and populations. The nursing process guides the community/population-based assessment of current major health issues, and the design, implementation, and evaluation of a community/populationappropriate and acceptable, nursing intervention. Prerequisite: RN Licensure Co-requisites: NSGP 4310 Lec Hrs. 000 Lab Hrs. 120 Other Hrs. 000

# NSGP 4365 Nursing Research:

This course is an overview of the role and scope of research as it relates to the formation of nursing knowledge and the application to nursing practice Emphasis is placed on critically evaluating nursing research studies and understanding the importance of utilizing research for evidenced based practice. Prerequisite: RN Licensure, NSGP 4265 & 3826 Co-requisites: Lec Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# NSGP 4410 Nursing Roles: Management and Leadership:

This course introduces the management functions and leadership roles of professional registered nurses within the structure of an organization. Prerequisites: NSGP 3805, 3066C, 3826, 3145, 3125, 4165, 4265, 4265L, 4310, 4310L Co-requisites: NSGP 4365, 4410L Lec Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# NSGP 4410L Nursing Roles: Management and Leadership Clinical:

This course introduces the practicum portion of the management functions and leadership roles of professional registered nurses within the structure of an organization. Prerequisites: NSGP 3805, 3066C, 3826, 3145, 3125, 4165, 4265L, 4310, 4310L Co-requisites: NSGP 4410, 4365 Lec Hrs. 000 Lab Hrs. 120 Other Hrs. 000

# NSGP 4507 Professional Nursing Role Synthesis:

This course provides the opportunity for students to synthesize knowledge from liberal arts and nursing as basis for professional nursing practice. Students recognize the leadership role of the professional nurse in assessing, planning, implementing and evaluation nursing care in a various health care settings. Students will have the opportunity to share experiences and to discuss trends and issues which influence change in professional nursing practice. Prerequisites: NSGP 3805, 3066C, 3826, 3145, 3125, 4165, 4265, 4265L, 4310, 4310L, 4365, 4410, 4410L Co-requisites: NSGP 4510C Lec Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# NSGP 4510C Senior Nurse Practicum:

This course provides the opportunity for students to synthesize knowledge from liberal arts and nursing as basis for professional nursing practice. Students will demonstrate synthesis of knowledge through the implementation of a change project utilizing the nursing process in a selected clinical setting. Prerequisites: NSGP 3805, 3066C, 3826, 3145, 3125, 4165, 4265, 4265L, 4310, 4310L, 4365, 4410, 4410L Co-requisites: NSGP 4507. Lec Hrs. 0000 Lab Hrs. 120 Other Hrs. 000

### NUR 1023: Fundamentals of Nursing **Credit Hrs**

Course Description: This course is designed to introduce the student to the art and science of nursing. The focus will be on the development of a beginning understanding of the nursing process and the development of fundamental nursing skills essential to the provision of professional nursing care. Prerequisite: Admission to the Nursing program and completion of BSC 1085, PSY 2012, MAT 1033 and SLS 1105. Lec Hrs. 30.0 Lab Hrs. 0.0 Other Hrs. 0.0

# NUR 1023L: Fundamentals of Nursing Clinical

3.0 Quarter Credit Hrs The clinical portion of the course integrates the theory in both on-campus labs and practice in various health care agencies. Prerequisites: BSC 1085, PSY 2012, MAT 1033 and SLS 1105. Co-requisites: NUR 1023, BSC 1086, ENC 1101 and HUN 1001. Lec Hrs. 0.0 Lab Hrs. 32.0 Other Hrs. 58.0

# NUR 1140: Nursing Pharmacology

3.0 Quarter Credit Hrs

This course is designed to provide nursing students with a knowledge of biological factors influencing drug actions, predictable effects of drugs on the physiological problem, modifiers of the predictable effects, commonalities and variations between the actions of drugs employed for comparable therapeutic effect, adverse effects of drugs that can and do commonly occur, and application of the nursing process in drug therapy. Prerequisites: NUR 1023, NUR 1023L, BSC 1086, BSC 1085, PSY 2012, MAT 1033, HUN 1001, MCB 2000. Co-requisites: NUR 1210, NUR 1210L and MCB 2000 Lec Hrs. 30.0 Lab Hrs. 0.0 Other Hrs. 0.0

# NUR 1210: Care of the Adult Client I

4.0 Quarter Credit Hrs This course addresses the standards of practice for adults requiring less complex nursing care and focuses on the use of the nursing process in assisting clients to adapt to their ever-changing health needs. Prerequisites: NUR 1023, 1023L, BSC 1085, BSC 1086, PSY 2012, MAT 1033, and HUN 1001. Co-requisites: NUR 1210L, 1140, and MCB 2000. Lec Hrs. 40.0 Lab Hrs. 0.0 Other Hrs. 0.0

3.0 Ouarter

### community health agencies, schools, and in simulated experiences in the nursing computer and skills lab. Prerequisites: NUR 1140, 1210, 1210L, MCB 2000. Co-requisites: NUR 1440, ENC 1102, DEP 2053. Lec Hrs. 0.0 Lab Hrs. 120.0 Other Hrs. 0.0 NUR 2513: Mental Health Nursing This course is a study of the dynamic relationship between adjustment mechanisms, stress, and their effect on the personality with a focus on the role of the nursing in mental health and illness throughout the life span. Prerequisites: NSG 1030, NSG 1035, DEPP 2053. Co-requisites: NUR 2013L, 2611, 2611L and SYG 2000. Lec Hrs. 30.0 Lab Hrs. 0.0 Other Hrs. 0.0 NUR 2513L: Mental Health Nursing Clinical The clinical portion of the course integrates the theory in various community mental health agencies. The focus is on the role of the nurse in mental health and illness through the lifespan utilizing the nursing process. Prerequisite: NSG 1030, 1035 and DEPP 2053. Co-requisites: NUR 2513, 20611, 2611L and SYG 2000. Lec Hrs. 0.0 Lab Hrs. 8.0 Other Hrs. 82.0 NUR 2611: Contemporary Nursing in Community Settings

3.0 Quarter Credit Hrs This course focuses on the nursing role in the community. Emphasis is on concepts and theories related to Community Health Nursing. Special consideration is given to the community as a client with emphasis on health promotion and disease prevention. Prerequisites: DEPP 2053, NSG 1030, and 1035. Co-requisites: NUR 2513, 2013L, 2611L, and SYG 2000. Lec Hrs. 30.0 Lab Hrs. 0.0 Other Hrs. o.o 3.0 Quarter Credit Hrs

# NUR 2611L: Contemporary Nursing in Community Clinical

This clinical portion of the course integrates the theory in various community settings. The focus is on nursing care for clients in alternative settings within the community and throughout the lifespan. Prerequisites: DEPP 2053, NSG 1030, and 1035. Corequisite: NUR 2611, NUR 2513, NUR 2513L, and SYG 2000. Lec Hrs. 0.0 Lab Hrs. 8.0 Other Hrs. 82.0 2.0 Quarter Credit Hrs

# OST 1141L Keyboarding

Designed to familiarize the student with basic keyboarding and develop minimum typing skills. Lec. Hrs. 000 Lab Hrs. 040 Other Hrs. 000

# **OST 1147C Speed-Building Skills**

This course develops keyboarding speed and accuracy through an intense review of letters, numbers, and symbols. Timed drill activities focus on frequently typed letter combinations, difficult reaches, random letter, symbol, and number drills. Focus of the course will be on practices such as punctuation, numbers, symbol, keypad, and word family practice. Lec. Hrs. 010 Lab Hrs. 020 Other Hrs. 000

# **OST 1401C Office Operations**

2.0 Quarter Credit Hrs This course provides students with the essential knowledge and skills to be successful in today's office workplace. Students will learn to be productive team members, process information using different technologies including the Internet, and communicate effectively to both customers and other members of the organization. Topics also to be covered include using the telephone properly, preparing travel arrangements, and assisting in meeting preparation. These skills will be presented from the perspective of increasing office productivity. Lec. Hrs. 010 Lab Hrs. 020 Other Hrs. 000

# **OST 1791C Electronic Communication**

2.0 Quarter Credit Hrs This course provides a complete overview of electronic communication. There is an emphasis on navigation and integration of e-mail software utilizing Microsoft Outlook. Students will become familiarized with electronic documentation, while learning important skills such as opening and Edit E-mail, sending attachments, Create contacts, managing mail, scheduling appointments, scheduling meetings, scheduling events, Create and updating tasks, integrating calendars with other office components, and printing E-mail sent documents. Lec. Hrs. 010 Lab Hrs. 020 Other Hrs. 000 4.0 Quarter Credit Hrs

# **OST 2335 Business Communications**

Practical written communication skills for business are studied in this advanced course. This course includes the mechanics and principles of effective letter writing and methods of researching and compiling reports. Focus is on a better understanding of writing styles appropriate to the business world. Prerequisite: ENC 1102 Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 2.0 Ouarter Credit Hrs

# **OST 2711C Introduction to Word Processing**

This course provides an introduction to word processing. There is an emphasis on terminology, and the creation and editing of simple documents. Students will create, edit, spell check, save, and print a document. In addition, they will apply character formatting to a document. Students will perform file management skills such as saving a document under the same and a different name, locating, opening, and closing an existing document, and creating a subdirectory. Lec. Hrs. 010 Lab Hrs. 020 Other Hrs. 000 4.0 Quarter Credit Hrs

# OST 2712C Intermediate Word Processing

This intermediate course in word processing focuses on enhancing the student's ability to manipulate paragraphs and documents through the use of tabs, margins, spacing, borders, and shadings. Emphasis is placed on creating more informative and organized documents through the use of charts, graphs, tables, headers and footers. Advanced file management skills are discussed as well. Prerequisite: OST 2711C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# OST 2724C Advanced Word Processing

This course provides students with the remaining tools required to perform advanced business word processing. Upon successful completion of the course the student should be familiar with all the Microsoft Word commands and functions. There is a focus on mail merge, while more efficient and professional documents are obtained through the use of templates, wizards, and graphics. The creation and modification of such tools is discussed intensively. Prerequisite: OST 2712C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# NUR 1210L: Care of the Adult Client I Clinical

The clinical portion of the course integrates the theory in a variety of settings with consultation and availability of multiple health care resources. Prerequisites: NUR 1023, 1023L, BSC 1085, BSC 1086, PSY 2012, MAT 1033 and HUN 1001. Co-requisites: NUR 1210, 1140, and MCB 2000. Lec Hrs. 0.0 Lab Hrs. 120.0 Other Hrs. 0.0

4.0 Quarter Credit Hrs NUR 1440: Maternal and Child Nursing This course is designed to present the concepts of health and illness from conception through adolescence. The nursing process, growth and development, and the family are integrated. Prerequisites: NUR 1140, 1210, 1210L, MCB 2000. Co-requisites: NUR 1440L, ENC 1102, DEP 2053. Lec Hrs. 40.0 Lab Hrs. 0.0 Other Hrs. 0.0

# OST 2813C Introduction to Desktop Publishing

2.0 Quarter Credit Hrs This course provides an introduction to desktop publishing. There is an emphasis on terminology, and the creation and editing of simple desktop publishing files. Students will design effective publications by creating, importing, and manipulating graphics Students will also learn to use desktop publishing software tools. Prerequisite: CGS 2167C. Lec. Hrs. 010 Lab Hrs. 020 Other Hrs. 000

# **OST 2821C Desktop Publishing Skills**

This course provides a complete overview of desktop publishing. The emphasis is on modifying and customizing documents through linking and embedding text, working with visual elements, adding color, importing text and graphics, as well as creating and managing libraries. Students will also learn to use desktop publishing software templates, and learn how to refine the printing process and work with scanned images. Prerequisite: OST 2822. Lec. Hrs. 10 Lab Hrs. 20 Other Hrs. 000

# PGY 2890C Digital Image Manipulation

An introduction to the image and color editing capabilities through applications on the Macintosh computer. Emphasis is placed on scanning photographs, artwork and text with discussion on basic photographic systems and techniques. Prerequisite: CGS 1031C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# PHI 3601 Ethics

4.0 Quarter Credit Hrs Critical and constructive study is given to ethical thought and ideals, with emphasis upon the central assumptions of personal and social morality. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# PHIP 2100 Critical Thinking

This course addresses theoretical and practical approaches to understanding human communications and the solving of problems with emphasis on the enhancement of reasoning and argumentation skills. Students will be introduced to the concepts of truth; verification and knowledge; inductive/deductive reasoning; and common errors in informal reasoning. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# PHIP 3131 Logic

4.0 Quarter Credit Hrs A study of effective thinking based on adequate evidence and following approved procedures. Emphasis is placed on the detection of common fallacies and the method of analyzing arguments to determine their validity. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# PLA 1003 Introduction to Paralegal

This course introduces students to the paralegal's role and the nature of a career as a legal assistant. Legal procedures are presented in real-world context with a basic introduction to necessary skills, such as legal research, law office operations, technology in the law, and litigation. Vocabulary is learned in context. In-depth coverage is begun on legal ethics, professional regulation, trends and issues in the field, and the legal system. Career management for paralegal professionals is covered thoroughly. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 0000

# PLA 1105 Legal Research and Writing I

This course covers the basics of legal research, legal writing, and legal analysis for the legal assistant. Students learn to use a law library, perform legal research, analyze legal problems, and write a legal memorandum. Students are taught to locate and use primary, secondary, and CALR legal research sources to solve legal problems. Prerequisite: PLA 1003. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# PLA 1700 Legal Ethics and Social Responsibility

4.0 Quarter Credit Hrs This course concerns the area of ethics as that term is used in the legal office. The course includes a survey of the law relating to the regulation of lawyers and legal assistants, the unauthorized practice of law, confidentiality, conflict of interest, advertising, fees and client funds, competence, special issues in advocacy, and professionalism. Prerequisite: PLA 1003. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# PLA 2106 Legal Research and Writing II

This course covers advanced aspects of legal research, legal writing, and legal analysis for the legal assistant, with an emphasis on legal writing and analysis of complex issues. Students strengthen their legal research skills using a variety of primary and secondary sources, analyze complex legal problems, and write a persuasive memorandum or brief. Students also develop skills in computer assisted legal research and are introduced to fee-based services such as Westlaw, LEXIS as well as free Internet legal sources. Prerequisite: PLA 1105. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# PLA 2201 Civil Litigation I

This course provides the student with an introduction and overview to the civil litigation process, starting from the initial client interview, setting up a client file, overview of the laws governing civil procedure, drafting of pleadings, review of evidence, interviewing and investigation through the initial discovery process. Prerequisite: PLA 1003. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# PLA 2203 Civil Procedure

This course provides the student with an introduction and overview to the procedures applicable to and governing civil matters, including procedures related to pleading, motions, discovery, trial practice, post-trial motions and other issues. Prerequisite: PLA 1003. Lec Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# PLA 2224 Civil Litigation II

4.0 Ouarter Credit Hrs This course follows PLA 2201, providing the student with a more in-depth exploration of the discovery process, including depositions, requests for admissions, request for medical examination, review and selection of expert witnesses, and discovery motions, such as motion to compel. Thus leading into pre-trial preparation, including pre-trial conference, pre-trial motion, jury investigation, trial notebook and exhibit preparation, ending with alternatives to trial, such as settlement, and alternative dispute resolution, and appeal procedures. Prerequisite: PLA 2201. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# PLA 2273 Torts

This course provides an introduction to the substantive law of torts, including elements, defenses, and damages applicable to intentional torts, and to unintentional torts based on negligence, product liability, strict liability, and professional malpractice. The course provides opportunities for students to practice and improve their interviewing, investigation, document drafting, negotiation, and contract interpretation skills. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

4.0 Quarter Credit Hrs

# PLA 2363 Criminal Procedure and the Constitution

There will be a discussion of the Constitutional aspects of criminal procedure. The student will learn procedural aspects of the criminal system from arrest or summons through pretrial motions, trial, post-conviction and appellate processes. A study of the Constitution at work in the court system with current applications. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# PLA 2423 Contract Law

The principles of contract law are addressed and discussed in this course including the major provisions of the Uniform Commercial Code. Basic contract provisions and drafting techniques are explained and practiced through the drafting of various types of contracts. Contract Litigation is also covered. Prerequisite: PLA 1003. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# PLA 2433 Business Organizations

This course covers the principles of Business Organizations, including the formation, operation, and dissolution of various types of business organizations. Topics include sole proprietorships, corporations, partnerships, the law of agency, and employment agreements. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# PLA 2460 Bankruptcy

4.0 Quarter Credit Hrs Bankruptcy law and procedure, including commencement of a case, preparing schedules, operating and liquidating procedures, adversary matters and litigation in bankruptcy court, debtors' and creditors' rights and obligations, technical terminology, and practical direction for paralegals. Forms used in bankruptcy court and proceedings under Chapter 7, Chapter 13, and, to a lesser extent, Chapter 11 and proceedings under Chapters 9 and 12 are also covered. The rights of creditors, including secured transactions, consensual and nonconsensual liens, UCC transactions, and the unique position of real estate, will be reviewed. The course also teaches garnishments and other judicial attachments of property. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 4.0 Quarter Credit Hrs

# PLA 2483 Introduction to Administrative Law

This course examines basic concepts of law and procedure in federal and state administrative agencies, with emphasis on the paralegal's role in the administrative process. Students will learn both formal and informal advocacy techniques, including representing clients before administrative bodies. Substantive topics will include administrative delegation of power, rulemaking, agency discretionary powers, remedies, open government, and judicial review. Procedural topics will include agency operation, adjudication, hearing preparation, and administrative and judicial appeals. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# PLA 2600 Wills, Trusts, and Probate

4.0 Quarter Credit Hrs This course examines legal concepts of wills, trusts, intestacy, guardianships, and conservatorships: analysis of client needs: drafting of simple wills: and study of various types of trusts and their application to particular client needs. Study of probate procedures, the administration of assets, methods of compiling both probate and non-probate estate and simple tax implications. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# PLA 2610 Real Estate Law

This course is an introduction to Real Estate law. Topics include property rights, principles of land ownership, sale, financing and conveyance, contracts, liens, mortgage financing, mortgages or deeds of trust, deeds, recording, settlement concepts, condominiums and cooperatives, leasing and other property concepts. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# PLA 2631 Environmental Law

This course examines the substantive and procedural laws that govern environmental litigation, including the history of environmental law and the procedural and practical skills required of an environmental paralegal. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# PLA 2763 Law Office Management

This course examines the fundamentals of law office management and organization. Subjects covered include basic principles and structure of law practice management, law practice structures, organization, and governance, client systems, timekeeping and accounting systems, human resources, marketing and strategic planning, administrative and substantive systems in the law office, and law practice technology. Prerequisite: PLA 1003. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# PLA 2800 Family Law

4.0 Quarter Credit Hrs Students are instructed in the theory of law governing marriage, divorce, annulment, property settlement agreements, child custody and support obligations, paternity, adoption, alimony, pre-nuptial agreements, name changes, and domestic violence. Students will be introduced to state-specific procedures and prepare various pleadings or documents related to these topics. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# PLA 2930 Contemporary Issues and Law

4.0 Quarter Credit Hrs This course examines contemporary law, including contemporary legal issues as well as practicing law in today's environment. Prerequisite: PLA 1003. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# PLA 3115 Legal Research and Writing III

A study of legal writing techniques and formats is presented in this course. Students practice drafting complex legal memoranda and briefs. Emphasis is placed on developing the student's ability to research federal and state law both manually and using WESTLAW. Prerequisite: PLA 2106. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# PLA 3570 International Law

This course examines the following: International agreements; status of states and individuals; recognition; jurisdiction; international claims; expropriation; human rights' sovereign immunity; war and peace; law of the sea; presidential congressional power. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# PLA 4116 Legal Research and Writing IV

4.0 Quarter Credit Hrs This course provides a comprehensive review of the entire legal researching process. The further development of legal researching and writing skills is fostered with special emphasis on preparing appellate briefs for either the state or federal court system. Prerequisite: PLA 3115. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# PLA 4263 Rules of Evidence

Introduces students to the rules of evidence as they pertain to both civil and criminal proceedings. Students are introduced to procedures for gathering evidence within the realm of legally admissible evidence rules. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# PLA 4274 Advanced Tort Law

A continuation of PLA 2273. This is an advanced course in the complexities of tort law in the area of product liability, professional malpractice law, negligence, invasion of privacy, and business torts. Prerequisite: PLA 2273. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# PLA 4470 Employment Law

4.0 Quarter Credits Hrs State and federal regulation of employment relationships with primary focus upon harassment laws; workers disability, unemployment compensation, wrongful discharge and discrimination. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# PLA 4473 Worker's Compensation and Employment Benefit Law

4.0 Quarter Credit Hrs This course will identify the concepts of workman's compensation and benefit law for the paralegal. The student will compare and contrast concepts including master-servant, principal-agent, and independent contractor relationships. Statutory and regulatory matters will be discussed including Workman's Compensation, Occupational Safety and Health Act, functions of the Occupational Safety and Health Review commission and ERISA. Students will develop and understanding of work related injuries and legal consequences. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 4.0 Quarter Credit Hrs

# PLA 4523 Law and Medicine

This course addresses the ethical and legal issues in medical law for the paralegal professional. Students will address the issues of malpractice and "standard of care." Students will also develop understanding of legal standards of medical issues such as records, including patient charts, the use of records in courts and the rules regarding mandated reporting of maltreatment. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# PLAP 3210 Elder Law

Students will be introduced to topics in the law affecting older persons. Such topics as financial and estate planning, health care, personal planning, and protection, and consumer protection are covered. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# PLAP 4400 Paralegal Senior Capstone Experience

4.0 Quarter Credit Hrs This course is designed to equip students for transition from matriculation to legal employment. Focus is placed on the completion and assembly of court and client documents that will be the basis of a portfolio representing the principle components of a Paralegal's scope of work. Documents are prepared in the various areas of law practice including federal and state civil litigation, discovery, appellate, family law, criminal law, contracts, probate, and business associations. Prerequisite: student must be in final two quarters of the program. Lec Hrs: 40 Lab Hrs: 0 Other: 0.

# PLAP 4450 Paralegal Externship

4.0 Quarter Credit Hrs This course provides the student with the opportunity to directly apply the knowledge and skills learned in the program by working in a law office or other suitable location in which Paralegals are typically employed. Lec. Hrs: 00. Lab Hrs: 00. Other Hrs: 120 Hrs.

# PLAP 4483 Administrative Law

4.0 Quarter Credit Hrs Workers' Compensation and Social Security are examined in this course. The law regarding governmental agencies and their enforcement authority, with emphasis in the special problems of state administrative law, is discussed. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# POS 2041 American National Government

A study of the Constitutional structure and dynamics of the American Federal system; included is an examination of the current structure, organization, powers, and procedures of the American national government. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# POT 4064 Contemporary Political Theories

An examination of the various theoretical approaches to governing a modern state. Some of the forms covered are Fascism, Nazism, Communism, Socialism and Representative Democracy. Special attention will be focused on the changes brought to the democratic process by the Cold War and by the new role of the media. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# PSMP 2535 Introduction to Proprietary Education

4.0 Quarter Credit Hrs This course introduces the student to the area of proprietary education, and lays the foundation for a greater understanding of how each of the areas within this type of education work together for the success of the student. In this class, the student will learn about the history of proprietary education, differences between this type of education and traditional post secondary schools, and the impact of the internet on education in general. Lec Hrs: 40. Lab Hrs: 0. **PSMP 3105 Higher Education Regulatory Environment** 

This course focuses on the higher education regulatory environment and issues relating to it. Regulatory issues will be covered, and these include programmatic accreditation, readiness/compliance factors, self-studies, accreditation visits, and other factors as well. Lec Hrs: 40. Lab Hrs: 0.

# PSMP 3200 Student Services and Retention in Proprietary Education

This course focuses on the Student Services and retention issues within a proprietary education environment. Course content is focused on retention strategies for students, student services such as advising and handling complaints, value added services, and prevention of student problems with focus on student success. Lec Hrs: 40. Lab Hrs: 0.

# PSMP 3300 Admissions and Public Relations for Proprietary Education

4.0 Quarter Credit Hrs This course focuses on the Admissions department and its role within a college. Attention is paid toward the importance of the relationship of the college to the community, as well as effective interaction with the local and national media. Salesmanship is also reviewed as well as admissions management issues as they relate to ethical standards within the discipline. Lec Hrs: 40. Lab Hrs: 0.

# **PSMP 3400 Career Services in Proprietary Education**

4.0 Quarter Credit Hrs This course focuses on building relationships with the business community and successful student placement within these businesses. Additional attention is given to teaching mentoring skills to assist students in this process, job search techniques - both traditional and internet based, participation in job fairs in the local community, and other types of student support activities. # **PSMP 3510 Proprietary Education Financial Management**

This course focuses on financial operations and management within a proprietary school. This includes basic administration issues, campus budgetary concerns, student financing, AR management and program cost and pricing (tuition). Additional attention is paid toward financial assistance programs including private funding sources available to proprietary schools and students. Any fees and costs above and beyond tuition are also reviewed to include their impact on students in the short and long-term. Lec Hrs: 40. Lab Hrs: o.

### **PSMP 3600 Academic Affairs and Faculty Development** 4.0 Ouarter Credit Hrs This course focuses on core areas of academic affairs and faculty development in the college environment. Areas of concentration include faculty hiring and development, understanding the role of the Registrar's office, and student retention management. Additional attention is given to curriculum development and administration, regulatory compliance, and effective reporting. This course concludes with a review and application of academic oversight and the impact of Program Advisory Committees on academic quality. Lec Hrs: 40. Lab Hrs: 0. PSMP 4100 Finance and Investments in Proprietary Education

4.0 Quarter Credit Hrs This course focuses on finance and investment issues within the proprietary school environment. The role and history of for-profit education is reviewed as well as the historic view of investment within the proprietary education community. In addition, the financial needs and goals of a proprietary school are explored, as well as management issues relating to maintaining positive relations with both community members, and regulatory bodies. Lec Hrs: 40. Lab Hrs: 0.

# PSMP 4200 Proprietary Education Management and Leadership

4.0 Quarter Credit Hrs This course focuses on successful management issues as they relate to a proprietary school environment. Students will study the various aspects of the supervisor's job in the proprietary education environment, including work-planning, organizing, leadership, goal setting, decision-making, and effective communication. Supervising the functional departments in a proprietary school, including academic affairs, admissions, career services, and finance is also covered. Lec Hrs: 40. Lab Hrs: 0.

In this course, emphasis operations of pharmacies at differe communications and int luding ambulatory and institut harmacy. Prerequisite: None. Lec.

# 4.0 Quarter Credit Hrs

# PTN 1740 Externship

This 160-hour course is designed to provide the student with supervised, practical hands-on and observational experiences in the working pharmacy. Students will be expected to gain experiences in either a hospital pharmacy or a community (retail) pharmacy. Students will gain exposure to "on-the-job" experience and training in the pharmacy setting and practice of skills and gaining experiences in all aspects of drug preparation and distribution utilized by participating sites. Prerequisite: Completion of didactic program. Lec. Hrs. 000 Lab Hrs. 000 Other Hrs. 160

# PTN 1780C Administrative and Practical Aspects of Pharmacy Technology

4.0 Quarter Credit Hrs This course is designed to provide the student with an overall understanding of the administrative aspects and hands-on applications involved in working in a pharmacy. Included in this course is use of policy and procedures manuals, materials management of pharmaceuticals, the pharmacy formulary system, computer applications in drug-use control, receiving and processing medication orders and medications errors, preparation and utilization of patient profiles, handling medications, storage and delivery of drug products, records management and inventory control, and compensation and methods of payment for pharmacy services. Prerequisite: PTN 1702. Lec. Hrs. 030 Lab Hrs.020 Other Hrs. 000

# PTNP 1200 Home Infusion Pharmacy

This course will include a study of intravenous delivery of therapy in the home setting, as well as other therapies to include arterial, intraosseous, epidural, and intrathecal. It will focus on patients and their clinical needs, physician treatment plans, and the input of a variety of healthcare providers. The foundation of infusion therapy will be discussed, including anatomy, physiology, and infection control. Treatment modalities will include parenteral fluids, pharmacologic agents, nutritional solutions, and antineoplastic agents. Legal and ethical aspects of infusion practice will also be reviewed. Prerequisite: PTNP 2020, PTNP 2030. Lec Hrs: 020 Lab Hrs: 000 Other Hrs: 000

# PTNP 1300 Communication Skills in Pharmacy

This course is designed to provide the student with the foundation to define interpersonal communication and its various components. Student swill better understand the complex process involved in effective communication. This course will provide a strong focus on the practical application of communication skills in pharmacy practice. Lec Hrs: 040 Lab Hrs: 000 Other Hrs: 000

# PTNP 2020 Pharmacology I

4.0 Quarter Credit Hrs This course will include a study of the introduction to pharmacology, biological factors affecting the action of drugs, the various medications prescribed for treatment of illness and diseases; including uses, side effects, and precautions. The course is designed to include math review and dosage calculations, geriatric pharmacology, drug effects on the nervous system, skeletal muscle relaxants, local anesthetics, antipsychotics, antippileptics, antiparkinson agents, narcotic analgesics and anti-inflammatory drugs. Prerequisite: BSC 1086, HSC 1524, BSC 1085, PTN 1703. Lec Hrs: 040 Lab Hrs: 000 Other Hrs: 000

# PTNP 2030 Pharmacology II

This course is designed to provide the student with an overall understanding and orientation of the variety of drugs and their effects on different systems, indications, adverse effects, and contraindications. This will include a study of antianginal drugs, pharmacology of vascular and renal systems, diuretics, antihypertensive drugs, anticoagulants, vitamins, minerals, hypolipidemic drugs, bile acid sequestrants, drugs that affect the respiratory system, therapy of gastrointestinal disorders, introduction to the endocrine system, antimicroorganism agents, and immunopharmacology, Prerequisite: BSC 1086, HSC 1524, BSC 1085, PTN 1703, PTNP 2020, Lec Hrs: 040 Lab Hrs: 000 Other Hrs: 000

# PTNP 2200 Pharmacy Technology Lab

This course is designed to provide students with practical hands-on experiences in the pharmacy lab. Designed for students to practice and acquire various skills learned in the pharmacy technician program, under the direct supervision of the pharmacy instructor. Students will be checked off of skills as they are mastered, including but not limited to receiving, interpreting and filling of prescriptions/medication orders for the inpatient and outpatient practice setting, I.V. Admixture of large volume and I.V. Piggyback, and syringe doses, using the laminar flow hood, inventory control systems, and patient information/profile systems. Skill competencies assigned by the instructor must be completed to pass the course. Prerequisite: BSC 1085, BSC 1086, HSC 1524, PTN 1780C, PTN 1703, PTN 1733C. Lec. Hrs. 000 Lab Hrs. 040 Other Hrs. 000

# QMB 5305 Statistics for Managers

4.0 Quarter Credit Hrs A comprehensive introduction to statistical business methods in decision making. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# QMB 5355 Quantitative Methods

4.0 Quarter Credit Hrs Statistical theory and problems relating to business and industry in supporting administrative decision making. Prerequisite: QMB 5305 or equivalent. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# **OMBP 3314 Ouantitative Methods**

Quantitative techniques and analysis are examined. Topics include matrix algebra, systems of equations, linear programming, inventory models, waiting and queuing lines and simulation. Prerequisite: STA 2014 or MAT 1033 or approval of Academic Advisor or Academic Dean. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# **RESP 3912 Research Methods**

An in-depth study of research methods designed to aid students in performing applied research in their major field of study in preparation for a research practicum. Research methodology and application as well as utilization of library systems and media are discussed in detail. Prerequisite: STA 2014 - may be taken concurrently with this course. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# **RTEP 1101: Introduction to Radiologic Technology**

This course is designed to provide students with an overall understanding and orientation to the field of radiologic technology. The discovery and uses of medical radiation; careers in radiology, function of health care units utilizing radiologic technology, medical ethics for radiologic technologists, sources of radiation, review of simple mathematics required for developing radiographic techniques, principles of protection and career development will all be presented and explored. 40 Lec Hrs / O Lab Hrs / O Clinical Hrs / No Prerequisite: MAT 1033

# **RTEP 1102: Radiologic Physics & Equipment**

5.0 Quarter Credit Units Understanding radiologic science and physics as it applies to the study of radiography, fluoroscopy and radiotherapy. The principles and function of X-ray circuits, interaction of ionizing radiation and radiation protection are presented. Equipment utilized in the field of radiology is identified by modality and examined. 30 Lec Hrs / 40 Lab Hrs / 0 Clinical Hrs / Prerequisite: RTEP 1101

# 4.0 Quarter Credit Hrs

# 2.0 Quarter Credit Hrs

# 4.0 Quarter Credit Hrs

4.0 Quarter Credit Hrs

4.0 Quarter Credit Units

# 5.0 Quarter Credit Hrs

# 4.0 Quarter Credit Hrs

# **RTEP 1103: Radiographic Anatomy & Positioning**

5.0 Quarter Credit Units Students learn the anatomy and positioning as it relates to radiography: extremities, thorax, vertebral column, pelvic & shoulder girdles, thoracic viscera, abdomen, gastrointestinal, biliary and genitourinary tracts. Hands-on positioning labs are included in this course. 30 Lec Hrs /40 Lab Hrs / 0 Clinical Hrs / Prerequisite: RTEP 1102

# **RTEP 1104: Radiation Protection & Safety**

5.0 Quarter Credit Units Examination of the radiosensitivity of tissues and organs, the cell theory of human biology, parts and functions of the human cell, mitosis, meiosis and molecular composition of the human body. Laboratory experiments are included in this course. 40 Lec Hrs / 20 Lab Hrs / O Clinical Hrs / Prerequisite: RTEP 1103

# **RTEP 1105: Patient Care & Management Fundamentals**

5.0 Quarter Credit Units Skills that are imperative to quality patient care are studied: safety, transfer, positioning, infectious control, patient assessment, diagnostic ECG, professional organizations, administrative/management duties and responsibilities, scope of ASRT practice standards, and career development. Hands-on labs are included in this course. 40 Lec Hrs / 20 Lab Hrs / 0 Clinical Hrs / Prerequisite: RTEP 1104

# **RTEP1106: Clinical Practice I**

Practical instruction is acquired during clinical rotation in the radiology department of a hospital. During this rotation students will experience supervised hands-on practical and observational experience. Students will have the opportunity to rotate through all the modalities within the radiology department, including the operating and emergency room. O Lec Hrs / O Lab Hrs / 90 Clinical Hrs / Prerequisite: RTEP 1105

# **RTEP 1107: Radiographic Pathology**

3.0 Quarter Credit Units Students learn the basic principles of pathology and the radiographic appearance of diseases and injuries that are likely to be associated with imaging. 30 Lec Hrs / 0 Lab Hrs / 0 Clinical Hrs / Prerequisite: RTEP 1106

# **RTEP 1108: Advanced Imaging Procedures**

Students learn the basic elements of digital radiography, principles of computed tomography, magnetic resonance imaging, pediatric imaging, and Picture Archive and Communication Systems (PACS). Students learn cardiac, digestive tract, and vascular anatomy pertaining to contrast studies. These are covered in a relevant manner, keeping in mind to cover only those aspects which are necessary in performing contrast studies in the work environment. Types of contrast are defined and dangers and contraindications of contrast studies are provided. A discussion of anaphylactic shock and its treatment is reviewed. Hands-on labs included. 40 Lec Hrs / 10 Lab Hrs / 0 Clinical Hrs / Prerequisite: RTEP 1107

# **RTEP1109: Clinical Practice II**

3.0 Quarter Credit Units Practical instruction is acquired during clinical rotation in the radiology department of a hospital. During this rotation students will experience supervised hands-on practical and observational experience. Students will have the opportunity to rotate through all the modalities within the radiology department, including the operating and emergency room. O Lec Hrs / O Lab Hrs / 90 Clinical Hrs / Prerequisite: RTEP 1108

# **RTEP1110: Clinical Practice III**

14.0 Quarter Credit Units Practical instruction is acquired during clinical rotation in the radiology department of a hospital. During this rotation students will experience supervised hands-on practical and observational experience. Students will have the opportunity to rotate through all the modalities within the radiology department, including the operating and emergency room. O Lec Hrs / O Lab Hrs / 420 Clinical Hrs / Prerequisite: RTEP 1109

# RTEP 1111: Film Critique I

3.0 Quarter Credit Units Students learn the characteristics of a diagnostic film, and how to distinguish the difference between an acceptable and unacceptable image. The students will study the four elements of radiographic quality; radiographic density, radiographic contrast, radiographic definition and radiographic distortion. Students are responsible for providing demonstration films for critique sessions. 30 Lec Hrs / o Lab Hrs / o Clinical Hrs / Prerequisite: RTEP 1110

# **RTEP1112: Clinical Practice IV**

Practical instruction is acquired during clinical rotation in the radiology department of a hospital. During this rotation students will experience supervised hands-on practical and observational experience. Students will have the opportunity to rotate through all the modalities within the radiology department, including the operating and emergency room. O Lec Hrs / O Lab Hrs / 420 Clinical Hrs / Prerequisite: RTEP 1111

# **RTEP 1113: Film Critique II**

Students learn the characteristics of a diagnostic film, and how to distinguish the difference between an acceptable and unacceptable image. The students will study the four elements of radiographic quality: radiographic density, radiographic contrast, radiographic definition and radiographic distortion. Students are responsible for providing demonstration films for critique sessions. 30 Lec Hrs / o Lab Hrs / o Clinical Hrs / Prerequisite: RTEP 1112

# **RTEP1114: Clinical Practice V**

14.0 Quarter Credit Units Practical instruction is acquired during clinical rotation in the radiology department of a hospital. During this rotation students will experience supervised hands-on practical and observational experience. Students will have the opportunity to rotate through all the modalities within the radiology department, including the operating and emergency room. O Lec Hrs / O Lab Hrs / 420 Clinical Hrs / Prerequisite: RTEP 1113

# RTEP 1115: Film Critique III

3.0 Quarter Credit Units Students learn the characteristics of a diagnostic film, and how to distinguish the difference between an acceptable and unacceptable image. The students will study the four elements of radiographic quality: radiographic density, radiographic contrast, radiographic definition and radiographic distortion. Students are responsible for providing demonstration films for critique sessions. 30 Lec Hrs / o Lab Hrs / o Clinical Hrs / Prerequisite: RTEP 1114

# **RTEP1116: Clinical Practice VI**

Practical instruction is acquired during clinical rotation in the radiology department of a hospital. During this rotation students will experience supervised hands-on practical and observational experience. Students will have the opportunity to rotate through all the modalities within the radiology department, including the operating and emergency room. O Lec Hrs / O Lab Hrs / 420 Clinical Hrs / Prerequisite: RTEP 1115

# This course examines the various aspects of starting, acquiring, and operating a small business enterprise. It is a comprehensive discussion of problems encountered by small businesses. A study of management principles and procedures provides methods of resolving these problems. Prerequisite: None. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 SCC 1102 Business & Ethics for Security Specialists This course introduces the student to business management, organizational leadership and business ethics. Topics will include corporate structure and values, strategic management, leadership, ethical values, and models of ethical decision making. Additional topics include leadership strategies, team development, corporate compliance issues, and ethical scenarios. Application projects will emphasize how business knowledge will help a Homeland Security Specialist. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# SLS 1105 Strategies for Success

This course is designed to equip students for transitions in their education and life. Includes introduction to the University and its resources, study skills, and personal resource management skills. Students will be actively involved in learning and integrating practical applications to promote success. Prerequisite: None. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# SLS 1321 Career Skills

A course designed to assist students with personal and professional development for successful employment with a concentration on developing a positive self-image, assessing competitiveness strengths, career expectations, learning job search techniques, in addition to written skills and current resume preparation. Prerequisite: None. Lec. Hrs. 020 Lab Hrs. 000 Other Hrs. 000

# SLS 1392 Workplace Relationships

This course provides students the opportunity to study the building of appropriate interpersonal business relationships with coworkers, supervisors, and customers. Specific focus will be on developing and practicing effective customer service principles for building successful business networks. Lec. Hrs. 020 Lab Hrs. 000 Other Hrs. 000

# SLS 1505 Basic Critical Thinking

This course introduces the students to the concepts of critical thinking. Topics covered include self critique and understanding, fairminded thinking, the levels of thinking, the parts and standards for thinking, and developing ethical and strategic thinking. Students will examine effective ways to think more critically, and will apply these tools in course assignments. Prerequisite: None. Lec. Hrs. 020 Lab Hrs. 000 Other Hrs. 000

# SLSP 3130 Principles and Applications of Adult Learning

4.0 Quarter Credit Hrs This course offers an exploration of the principles and applications of adult learning theory, including goal-directed orientations to learning, participation factors for adult learners, and adult learner demographics. The course also addresses the connection between memory, cognition, and the brain, as they relate to the adult learning process. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 4.0 Quarter Credit Hrs

# SOP 4005 Social Psychology

Many aspects of human interaction are investigated in this course, including topics such as aggression, attraction and love, conformity, sexual behavior, and group dynamics. Prerequisite: PSY 2012. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# **SPC 2016 Oral Communications**

This course is designed to develop students' ability to communicate effectively. Emphasis is placed upon the basic elements of communication in order to strengthen students' interpersonal and professional speaking skills. Prerequisite: None. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# SPC 360 Advanced Speech

A professional communication course emphasizing application and criticism appropriate for examining and changing communicative interaction in professional situations. Prerequisites: ENC 1102 and SPC 2016. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# SPC 4451 Conference Techniques

Designed to teach students how to effectively facilitate team interaction, this course explores both the logistics of planning and developing conferences and meetings. This course also teaches the skills needed to get effective results from group meetings. Leadership traits and group dynamic skills are analyzed and applied in simulated classroom experience. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# SPCP 2300 Fundamentals of Interpersonal Communication

4.0 Quarter Credit Hrs The dynamics of interaction between people in personal, social and workplace situations are explored to better understand how interpersonal communication shapes relationships. Exploration will occur through readings, discussion, and application exercises. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 4.0 Quarter Credit Hrs

# **STA 2014 Statistics**

This course introduces students to statistical techniques. Methods of describing, summarizing, and analyzing data are presented. Prerequisite: MAT 1033. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000 4.0 Quarter Credit Hrs

# STS 1001 Principles and Practices of Surgical Technology

This course is designed to provide students with an overall understanding and orientation to the field of surgical technology. Included in this course are professional responsibilities and relations, interpersonal relationships and communication skills, legal and ethical responsibilities, the operating room environment, and safety. Prerequisite: None. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# **RTEP 1117: Film Critique IV**

Students learn the characteristics of a diagnostic film, and how to distinguish the difference between an acceptable and unacceptable image. The students will study the four elements of radiographic quality: radiographic density, radiographic contrast, radiographic definition and radiographic distortion. Students are responsible for providing demonstration films for critique sessions. 30 Lec Hrs / o Lab Hrs / o Clinical Hrs / Prerequisite: RTEP 1116

# **RTEP1118: Radiology Certification Review**

**1.0 Quarter Credit Units** Students gain an understanding of the requirements for the certification examination given by the American Registry of Radiologic Technologist, and the subject breakdown of questions on the exam. A complete program review is offered to prepare students for the certification examination. 10 Lec Hrs / O Lab Hrs / O Clinical Hrs / Prerequisite: RTEP 1117

# SBM 2000 Small Business Management

4.0 Quarter Credit Hrs

4.0 Quarter Credit Hrs

# 2.0 Quarter Credit Hrs

2.0 Ouarter Credit Hrs

# 4.0 Quarter Credit Hrs

# 2.0 Quarter Credit Hrs

# 3.0 Quarter Credit Units

# STS 2007 Surgical Pharmacology

This course is designed to provide students with an overall understanding of the theory and the hands-on applications involved in surgical pharmacology. Prerequisite: MAT 1033. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# STS 2171C Surgical Technology I

This course is designed to provide students with an overall understanding and the hands-on skills involved in following medical and surgical aseptic techniques and in providing basic pre-operative care to the surgical patient. Prerequisite: None. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# STS 2172C Surgical Technology II

This course is designed to provide students with an overall understanding of the theory and the hands-on applications involved in the use and maintenance of surgical instruments and equipment. Prerequisite: STS 2171C. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000 6.0 Quarter Credit Hrs

# STS 2173C Surgical Procedures I

This course is designed to provide students with the overall understanding of the theory and hands-on applications involved in general surgery, as well as specific surgical procedures involving the gastrointestinal system, the reproductive system and obstetrics, and the genitourinary system. Prerequisite: BSC 1085, BSC 1086 and HSC 1524. Lec. Hrs. 040 Lab Hrs. 040 Other Hrs. 000

# STS 2174C Surgical Procedures II

This course is designed to provide students with an overall understanding of the theory and hands-on applications involved in surgical procedures of the ear, nose, and throat, ophthalmic surgery, plastic surgery, orthopedic surgery, surgery of the nervous system, thoracic surgery, and cardiovascular and peripheral vascular surgery. Prerequisite: STS 2173C. Lec. Hrs. 040 Lab Hrs. 040 Other Hrs. 000

# STS 2175C Clinical Rotation I

5.0 Quarter Credit Hrs This 150-hour course is designed to provide the student with supervised, practical hands-on and observational experiences in the clinical area. As part of the experience, students may rotate throughout various departments within the clinical area. (Student must complete STS 2171C, STS 2173C, and MCB 2000 prior to taking this course). Prerequisite: STS 2171C, STS 2173C, MCB 2000. Lec. Hrs. 000 Lab Hrs. 150 Other Hrs. 000

# STS 2176C Clinical Rotation II

11.0 Quarter Credit Hrs This course is a continuation of the skills practiced in STS 2175C with continued supervised, practical hands-on and observational experiences in the clinical area. During this rotation, students will rotate throughout the operating room, as well as other surgical and non-surgical departments, including the obstetrics delivery room, emergency room, and outpatient surgery department. Prerequisites: STS 2175C. Lec. Hrs. 000 Lab Hrs. 350 Other Hrs. 000

# SYG 2000 Principles of Sociology

4.0 Quarter Credit Hrs A study of cultural heritage, of the cultural influence of human nature and personality, and of social interaction. Prerequisite: None. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# SYGP 2550 Addictions

4.0 Quarter Credit Hrs An analysis of addictive behaviors concerning all relevant bio-psychosocial elements. This course will examine the commonalties of the abuse of alcohol, tobacco, food and drugs, and the therapeutic process instigated by community clinicians and their commitment to change. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# SYP 2742 Death and Dving

This course examines the issues related to death and dying. Beliefs, rituals, and behaviors of a variety of cultures (past and present) will be examined. Special emphasis will be placed on current topics such as euthanasia, cryogenics and other individual options. Prerequisite: None. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# SYPP 3530 Crime and Delinguency

4.0 Quarter Credit Hrs A study of such pertinent issues as social movements, drug abuse, interpersonal violence, sexual deviance, and poverty, with particular reference to the juvenile population. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# TAX 2000 Tax Accounting

4.0 Quarter Credit Hrs This is a survey course covering the laws, procedures, returns, and subsidiary schedules involved in the preparation of Federal personal tax returns. Prerequisite: None. Lec. Hrs. 030 Lab Hrs. 020 Other Hrs. 000

# TAX 4001 Federal Taxation I

A thorough study of federal income tax law and its application to individuals, partnerships, and corporations. Taxable income and deductible expenditures are given special emphasis. Sample returns and problems are used in the development of skills needed to prepare tax returns, particularly individual tax returns. Prerequisite: APA 2161. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

 TAX 4011 Federal Taxation II
 4.0 Quarter Credit Hrs

 A thorough study of federal income tax law and its application to corporations and other business entities. Special topics include

 property transactions, alternative minimum tax, accounting periods and methods, and international aspects of taxation. Prerequisite: TAX 4001. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# TAX 6065 Tax Research and Planning

4.0 Quarter Credit Hrs A study of the legislative, administrative, and judicial sources of federal tax law. Emphasis on the use of tax research tools in locating, interpreting, and communicating tax law and on the complementary relationship between legal research and quantitative decision making. Prerequisite: TAX 4011. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# WOH 2022 World History

This course provides an understanding of the major historical events, which have contributed to the development of today's civilization. Course content will also include a study of the philosophical, religious, and political traditions of Western civilization. Lec. Hrs. 040 Lab Hrs. 000 Other Hrs. 000

# 4.0 Quarter Credit Hrs
