PRESIDENT'S MESSAGE

We would like to welcome you to Everest University, whose location provides a friendly, small-campus atmosphere where our dedicated staff can take a personal interest in the progress of each student. This caring attitude, combined with progressive curricula from diplomas to associate and bachelor's degrees to graduate-level programs, affords our students a meaningful higher education experience, as well as effective preparation for a wide variety of careers.

Obtaining a college education gives our graduates a competitive edge in their career field and will make the difference when they are considered for professional advancement. Our programs are designed for employment in the state of Florida as well as other progressive areas throughout the country.

Our goal is to provide our students with quality instruction, a sense of professional responsibility, a desire for lifelong learning, and the essential skills and abilities to qualify them for their chosen career.

Building on the traditions of Tampa College (the oldest business college in Florida, founded in 1890), we have made every effort to fulfill our obligations to those who have entrusted their educational and career goals to Everest University. Therefore, we invite all interested parties to visit our campus and review our wide variety of programs. Our experienced admissions officers will assist in the important process of identifying the program best suited for the candidate's special interests, talents, and goals.

Benjamin Franklin once said, "If a man empties his purse into his head, no man can take it away from him." An investment in knowledge always pays the best interest.

Sincerely,

ne

Sami Fanek Campus President

ABOUT EVEREST UNIVERSITY

CORINTHIAN COLLEGES, INC.

Everest Universities are a part of Corinthian Colleges, Inc. (CCi). CCi was formed in 1995 to own and operate colleges across the nation that focus on high-demand, specialized curricula. CCi is continually seeking to provide the kind of educational programs that will best serve the changing needs of students, business and industry.

With headquarters in Santa Ana, California, and colleges in various states, CCi provides job-oriented education and training in high-growth, high-technology areas of business and industry. The curricular focus is on allied health, business, and other programs that have been developed based on local employer needs. Students use modern equipment and facilities, similar to the kind they can expect to find on the job. CCi provides people entering or reentering today's competitive market with practical, skill-specific education vital to their success.

Corinthian Colleges, Inc. is dedicated to providing education and training that meets the current needs of business and industry. Under CCi ownership, the university maintains its long-standing reputation for innovation and high-quality private education.

MISSION

The mission of the institution is to provide a high-quality educational experience to qualified undergraduate and graduate students through the delivery of traditional and online career-oriented diploma, associate's, bachelor's and master's degree programs delivered through a personalized teaching and learning environment that is designed to support students' personal and professional career development.

In support of its mission, Everest has adopted the following goals:

- Academics To provide challenging and relevant accredited programs in a variety of career-oriented disciplines, incorporating effective educational methodologies, modern technology, and traditional and alternative instructional delivery systems, characterized by effective teaching and a student-centered atmosphere.
- Educational Support Services To provide a variety of programs and services that support its educational goals and purpose, are consistent with student needs, encourage student success, enhance diversity, and improve the quality of life for students.
- Enrollment To manage the controlled growth of a diverse student body through the use of effective and ethical recruitment and retention methods and initiatives, and to support the quality of educational opportunities for all students, while meeting the school's fiscal needs.
- Business and Finance To manage and increase resources in accordance with sound business practices, regulatory standards, and applicable laws.
- Physical Resources To ensure that the physical resources, including buildings and equipment, are adequate to serve the needs of the institution, support its purpose, and contribute to an atmosphere for effective learning.
- Continuous Improvement To continuously improve the quality of programs and services to meet the needs of its students, communities, and other key stakeholders.

SCHOOL HISTORY AND FACILITIES

The Largo campus was formerly known as Tampa College. Founded in 1890, Tampa College is the oldest business college in the state. It became Florida Metropolitan University in 1996 and ultimately Everest University in 2007. The Largo campus is located at 1199 East Bay Drive in Largo, Florida. The physical facility incorporates 42,000 square feet of classrooms, laboratories, a library, staff and faculty offices, a tutor room, student and employee lounges, storage areas, and a lobby. The parking lot is equipped with exterior lighting during evening hours. An alarm system provides security when the campus is closed.

Everest University, the facility it occupies and the equipment it uses comply with all federal, state and local ordinances and regulations, including those related to fire safety, building safety and health.

LIBRARY

The library is designed to support the programs offered at the campus. Students and faculty have access to a wide variety of resources such as books, periodicals, computers and on-line resources to support its curriculum. The library is staffed with trained professionals to assist in the research needs of students and faculty, and it is conveniently open to accommodate class schedules.

ACCREDITATION, LICENSURE AND APPROVALS

 Everest University is accredited by the Accrediting Council for Independent Colleges and Schools to award diplomas, associate's, bachelor's and master's degrees. The Accrediting Council for Independent Colleges and Schools (ACICS) is listed as a nationally recognized accrediting agency by the United States Department of Education and is recognized by the Council for Higher Education Accreditation. The Accrediting Council for Independent Colleges and Schools is located at 750 First Street, NE, Suite 980, Washington, D.C. 20002-4223; (202) 336-6780.

- The Medical Assistant diploma program at Everest University-Largo, FL, is accredited by the Commission on Accreditation of Allied Health Education Programs (<u>www.caahep.org</u>) upon the recommendation of the Medical Assisting Education Review Board (MAERB). The Commisson on Accreditation of Allied Health Education Programs is located at 1361 Park Street, Clearwater, FL 33756, (727) 210-2350. The program has been placed on Probationary Accreditation as of July 19, 2012.
- Everest University, Largo, main campus (License # 2626) is licensed by means of accreditation by the Commission for Independent Education, Florida Department of Education, 325 West Gaines Street, Suite 1414, Tallahassee, FL 32399-0400, toll free number (888)224-6684.
- Approved for the training of Veterans and eligible persons under the provisions of Title 38, United States Code.
- The Massage Therapy program is approved by the Florida Board of Massage Therapy.
- The Dental Assistant program is approved by the Florida Department of Health.
- The Pharmacy Technician program is accredited by the American Society of Health-System Pharmacists, 7272 Wisconsin Avenue, Bethesda, MD 20814, 301.657.3000, <u>www.ashp.org</u>.

MEMBERSHIPS

- This campus is a member of the Florida Association of Postsecondary Schools and Colleges.
- This campus is a member of the Association of Private Sector Colleges and Universities.

Note: Copies of accreditation, approval and membership documentation are available for inspection at the campus. Please contact the Campus President to review this material.

ADMISSIONS INFORMATION

All admissions materials, including program disclosures and enrollment agreements are presented in English only, since all programs are taught in English. Each admissions representative conducts interviews with prospective enrollees in English only as the method to determine that the prospective enrollee understands and can function in English. We do not make any accommodations to present materials or instruct courses in any other language. No English as a second language courses are offered by the campus.

REQUIREMENTS AND PROCEDURES (UNDERGRADUATE)

- High school diploma or a recognized equivalent such as the GED. Applicants will be required to sign an
 "Attestation Regarding High School Graduation or Equivalency" indicating they meet the school's
 requirements for admission unless they submit proof of high school graduation or a recognized equivalency
 certificate (GED) to the school by providing the school with the diploma, transcript confirming graduation,
 GED certificate or other equivalent documentation.
- High school seniors who are accepted on a conditional basis must sign an "Attestation Regarding High School Graduation or Equivalency" following graduation and prior to starting classes.
- Applicants are informed of their acceptance status shortly after all required information is received and the applicants' qualifications are reviewed.
- Upon acceptance into the school, applicants who are enrolling will complete an enrollment agreement.
- Students enrolling in Computer Information Science program will complete a Program Disclosure Form.
- Students may apply for entry at any time. Students are responsible for meeting the requirements of the catalog in effect at the time of enrollment.
- Re-entry students are subject to all program requirements, policies, and procedures as stated in the school catalog in effect at the time of re-entry. All re-entering students must sign a new enrollment agreement.

PROGRAM SPECIFIC ADMISSIONS REQUIREMENTS

Massage Therapy Diploma Program

- Applicants must reach 18 years of age on or prior to the expected date of graduation.
- Applicants must pass a criminal background check and complete a student disclosure form.

Pharmacy Technician Diploma Program

- Applicants must reach 18 years of age on or prior to the expected date of graduation.
- Students must meet with the Program Director in their first term.
- Applicants must pass a criminal background check

Associate in Science, Applied Management Program

• Applicants must have successfully completed a diploma or certificate program from an accredited postsecondary institution.

Bachelor of Science, Applied Management Program

Applicants must have successfully completed an accredited certificate, diploma, AS, or AAS degree in a field
of applied science from an accredited post-secondary institution.

Associate in Science, Criminal Justice Program

• Applicants must pass a criminal background check

Bachelor of Science, Criminal Justice Program

- Applicants must have completed 36.0 or more quarter (24.0 semester) transferable college credits.
- Students who do not have the requisite number of credits for direct admission into the bachelor's program may be admitted into the Criminal Justice Associate in Science program.
- Applicants must pass a criminal background check

CRIMINAL BACKGROUND CHECK

- Students enrolled in certain programs may be subject to a criminal background check prior to enrollment to
 ensure they are qualified to meet occupational or employment requirements, clinical or internship/externship
 placement requirements or licensure standards for many programs, including but not limited to those in the
 allied health or criminal justice fields.
- Enrollment for students may not be granted when the background check identifies a conviction, pending case, or unresolved deferral/diversion for any felonies or misdemeanors.
- A student's inability to obtain criminal background clearance may prohibit opportunities for program completion and job placement. It is the student's responsibility to contact the agency to verify conditions. The school cannot contact the background check agency.
- All students re-entering a program shall be required to complete a Criminal Background Attestation, attesting that they do not have a criminal background that would preclude them from obtaining licensure, externship or placement in their desired career field.

ACADEMIC SKILLS ASSESSMENT

All students are required to complete the institution's assessment test. Students may be exempt from the assessment test if they provide official composite score of at least 15 on the ACT, a combined score on reading and math of at least 700 on the SAT, or proof of successful completion of a minimum of 36.0 quarter hours or 24.0 semester hours of earned college credit at an accredited postsecondary institution.

ABILITY TO BENEFIT GRANDFATHERING POLICY

Effective July 1, 2012, the school has stopped enrolling new Ability to Benefit (ATB) students and all new students must have attained a high school diploma or equivalent for admission. The limited circumstances under which a continuing ATB student may establish eligibility on or after July 1, 2012 are outlined in the grandfathering policy below. Students wishing to establish eligibility may be required to submit documentation evidencing continuing ATB eligibility under the grandfathering provisions.

ATB Grandfathering Policy

Ability to Benefit students who were enrolled in an eligible educational program of study any time before July 1, 2012 may continue to be considered Title IV eligible under either the ATB test or credit hour standards if they meet the following two-part test set forth below:

- 1. The student attended, or was registered and scheduled to attend, a Title IV eligible program at an eligible institution prior to July 1, 2012; and
- 2. The student established qualification as an ATB student by documenting one of the two following ATB alternatives:
 - a. Passing an independently administered, Department of Education (DOE) approved ATB test; or
 - b. Successful completion of at least six credit hours, or the equivalent coursework (225 clock hours) that are applicable toward a certificate offered by the school.

Note: The number of students enrolled under the Ability to Benefit Provision is limited to only certain diploma programs offered. Please check with your admission representative regarding the programs that accept ATB students. The school reserves the right to reject applicants based on test scores and ability to benefit limitations, or as necessary to comply with any applicable local, state or federal laws, statutes or regulations.

Ability to Benefit Passing Test Scores

ATB students must achieve or exceed the minimum passing scores in all subtests at one administration. Minimum ATB qualifying scores for CPAt, COMPASS, ASSET, CPT/Accuplacer and the Wonderlic Basic Skills Test as defined in the table below.

ATB Test	CPAt	COMPASS	ASSET	CPT/Accuplacer	Wonderlic
Required Passing Scores:	Language: 42 Reading: 43 Numerical: 41	Writing: 32	Reading: 35 Writing: 35 Numerical: 33	Reading: 55 Sentence Skills: 60 Arithmetic: 34	Verbal: 200 Quantitative: 210

Former CCi ATB students re-entering on or after July 1, 2012, under the limited circumstances outlined above will not be required to retake and pass the ATB test if the official score sheet from the test publisher is in the student's academic file.

Students transferring from a non-CCi institution that previously qualified for Title IV eligibility via successfully passing an approved ATB exam at another institution will be required to re-take and pass an approved ATB-exam through CCi subject to Test Publisher's retest policies.

Ability to Benefit Advising

The school will provide academic support services necessary for the success of each student in the ATB program and to ensure that following completion of the program the student is ready for placement. All ATB students shall receive academic and career advising after each grading/evaluation period (i.e. term, module, phase, level, or quarter).

ONLINE COURSE REQUIREMENTS

Online courses are offered at the campus through the Online Division of CCi using the eCollege platform via the Internet. Online courses have the same course objectives and outcomes as courses taught on-ground, although more individual focus and initiative is required to successfully master the material. Online courses are designated on the class schedule so students register during the normal registration period. Students registering for an online course must obtain prior approval from their Program Director or the Academic Dean. To maximize success within the online courses, students must have available to them a computer with a system profile that meets or exceeds the following:

Windows Systems

Windows 7, XP, or Vista 56K modem or higher Sound Card & Speakers Firefox, Chrome, or Microsoft Internet Explorer

Mac Systems

Mac OS X or higher (in classic mode) 56K modem or higher Sound Card & Speakers Apple Safari, Chrome, Firefox

In addition, students taking online courses must:

- Check quarterly to make sure they are maintaining the correct systems profile;
- Have Internet access and an established email account;
- Verify email account/address with Online Coordinator at the time of registration each quarter;
- Commence online course work as soon as students have access to the courses;
- Participate in classes and complete learning and graded activities weekly throughout the course.

ACADEMIC POLICIES

EVEREST REGULATIONS

Each student is given the school catalog, which sets forth the policies and regulations under which the institution operates. It is the responsibility of the student to become familiar with these policies and regulations and to comply accordingly. Ignorance of or lack of familiarity with this information does not serve as an excuse for noncompliance or infractions.

Everest reserves the right to change instructors, textbooks, accreditation, schedules, or cancel a course or program for which there is insufficient enrollment. The student will receive a full refund for courses or programs that

are cancelled. The school also reserves the right to change course curricula, prerequisites and requirements upon approval by the school's accrediting agency and state licensing board.

DEFINITION OF CREDIT

Everest awards credit in the form of quarter credits. One quarter credit is equivalent to a minimum of 10.0 class hours of theory or lecture instruction a minimum of 20.0 hours of supervised laboratory instruction, or a minimum of 30.0 hours of externship practice. For online learning purposes, one quarter credit is equivalent to a minimum of 10 hours of online learning.

OUT OF CLASS ASSIGNMENTS

- Students in degree programs should plan to spend a minimum of up to two hours per day outside of class completing homework assignments as directed by the instructor
- Students in diploma programs will be expected to complete assigned homework and other out-of-class assignments in order to successfully meet course objectives as set forth in the course/program syllabi

TRANSFER OF CREDIT INTO EVEREST

Everest has constructed its transfer credit policy to recognize both traditional college credit and non-traditional learning. In general, Everest considers the following criteria when determining if transfer credit should be awarded:

- Accreditation of the institution;
- The comparability of the scope, depth and breadth of the course to be transferred; and
- The applicability of the course to be transferred to the student's desired program. This includes the grade and age of the previously earned credit.

If the learning was obtained outside a formal academic setting, through a nationally administered proficiency exam, an IT certificate exam or military training, Everest will evaluate and award transfer credit using professional judgment and the recommendations for credit issued by the American Council on Education (ACE).

Academic Time Limits

The following time limits apply to a course being considered for transfer credit:

- College Core and General Education course indefinite;
- Major Core course (except health science courses and Computer Information Science courses) within ten (10) years of completion; and
- Due to certain programmatic accreditation criteria, health science core courses are eligible for transfer within five (5) years of completion.
- Due to the pace of technology change, Computer Information Science courses are eligible for transfer within five (5) years of completion.
- Military training, proficiency exams (e.g. DANTES, AP, CLEP, Excelsior, etc.) and IT certificate exams the same academic time limits as College Core and General Education courses.

Required Grades

For diploma, associate's, and bachelor's degree programs, a letter grade of C (70%) or better is required for transfer credit to be awarded.

Maximum Transfer Credits Accepted

Students enrolled in a diploma, associate or bachelor's degree program must complete at least 25% of the
program in residency at the institution awarding the degree or diploma. The remaining 75% of the program
may be any combination of transfer credit, national proficiency credit, Everest developed proficiency credit or
prior learning credit.

Coursework Completed at Foreign Institutions

All coursework completed at a foreign institution must be evaluated by a member of the National Association of Credential Evaluation Services (NACES). An exception to this may be allowed for students transferring from Canada with prior approval from the Transfer Center.

Transfer Credit for Learning Assessment

Everest accepts appropriate credits transferred from the College Level Examination Program (CLEP), DANTES subject testing, and certain other professional certification examination programs. Contact the campus Academic Dean/Director of Education for the current list of approved exams and minimum scores required for transfer.

Transfer Credit for Proficiency Examination

Undergraduate students may attempt to challenge the requirement to certain selected courses by demonstrating a proficiency level based on special qualifications, skills, or knowledge obtained through work or other experience that is sufficient to warrant the granting of academic credit for a course through a Proficiency Examination. Similarly, Everest may award some credits toward undergraduate, associate, and diploma level courses for achievement of professional certifications such as CNE, MCSE, etc. For more information, please contact the Academic Dean or Director of Education.

Experiential Learning Portfolio

Students may earn credit for life experience through the Prior Learning Assessment program. This program is designed to translate personal and professional experiences into academic credit. Procedures for applying for credit through experiential learning are available in the Academic Dean's/Director of Education's office.

Notice Concerning Transferability of Credits and Credentials Earned at Our Institution

The transferability of credits earned at Everest is at the complete discretion of an institution to which a student may seek to transfer. Acceptance of the degree, diploma or certificate earned in the program in which the student is enrolling is also at the complete discretion of the institution to which a student may seek to transfer. If the credits or degree, diploma or certificate that was earned at this institution are not accepted at the institution to which a student seeks to transfer, the student may be required to repeat some or all of his/her coursework at that institution. For this reason, the student should make certain that attendance at this institution will meet his/her educational goals. This may include contacting an institution to which a student may seek to transfer after attending Everest to determine if the credits or degree, diploma or certificate will transfer.

Transfer to Other Everest Locations

Students in good standing may transfer to another Everest campus location. Transfer students are advised that they will be subject to the minimum residency requirements at the new campus for the program in which they are enrolled. Students may transfer applicable credits from Everest coursework in which a "C" or higher was earned; however, those credits will be treated as transfer credits and will not count toward fulfilling residency requirements at the new location.

Transfer to Participating Institutions in Florida's Statewide Course Numbering System (SCNS)

Everest University is a participating institution in the Florida Statewide Course Numbering System (SCNS). Please see the disclosure and explanation of the course numbering system and the benefits of this participation that are provided in the Florida's Statewide Course Numbering System section of the catalog.

Everest Consortium Agreement

The Everest Consortium Agreement enables students to attend a limited number of classes (a maximum of 49% of credit hours) at an Everest campus location other than their home campus. In addition, students nearing completion of their program of study may finish their degree at another Everest campus location through the Consortium Agreement (a minimum of 51% of credit hours must be completed at the Home campus). Complete details on the Everest Consortium Agreement are available in the Academic Dean's/Director of Education's office.

Articulation Agreements

Everest University has articulation agreements with the following institutions: CompuCollege, CDI College, Elmira Business Institute, Mountain State University, Nova Southeastern University and University of Phoenix. Students should contact their Everest University campus Academic Dean for additional information on articulation agreement transfer terms and conditions.

Transfer Center Assistance

Any questions regarding the transfer of credit into or from Everest should be directed to the CCi Transfer Center at (877)727-0058 or email transfercenter@cci.edu.

DIRECTED STUDY

- Students unable to take a specific required course due to work schedule conflicts, emergency situations, or course scheduling conflicts may request permission to complete a course through directed study.
- Associate degree students may apply a maximum of 8.0 quarter credit hours earned through directed study to the major core of study.
- Bachelor's degree students may apply a maximum of 16.0 quarter credits of directed study to the major core
 of study.
- Students may not take more than one directed study course in a single academic term.
- Diploma students are not eligible for Directed Study

GRADING SYSTEM AND PROGRESS REPORTS

The student's final grade for each course or module is determined by the average of the tests, homework, class participation, special assignments and any other criteria indicated in the grading section of the syllabus for the course or module. Final grades are reported at the completion of each grading term and are provided to each student. If mailed, they are sent to the student's home address. Failed courses must be repeated and are calculated as an attempt in Satisfactory Academic Progress calculations.

Grade	Point Value	Meaning	Percentage Scale			
A	4.0	Excellent	100-90			
В	3.0	Very Good	89-80			
C*	2.0	Good	79-70			
D**	1.0	Poor	69-60			
F***	0.0	Failing	59-0			
Fail	Not Calculated	Fail (for externship/internship)				
Pass	Not Calculated	Pass (for externship/internship)				
IP****	Not Calculated	In Progress (for linear externship/internship/modular clinic courses	Progress (for linear externship/internship/modular clinic courses or thesis courses only)			
L	Not Calculated	Leave of Absence (allowed in modular programs only)				
EL	Not Calculated	Experiential Learning				
PE	Not Calculated	oficiency Exam				
PF	Not Calculated	Preparatory Fail				
PP	Not Calculated	Preparatory Pass				
W	Not Calculated	Vithdrawal				
WZ	Not Calculated	Withdrawal for those students called to immediate active military duty. This grade indicates that the course will not be calculated for purposes of determining rate of progress				
TR	Not Calculated	ansfer Credit				

*The Dental Board requires a score of 75% to pass with a C.

**Not used in Allied Health Programs.

***For Dental Assistant program, F (Failing) is below 75%. For all other Allied Health Programs, F (Failing) is 69-0%.

****If the required linear externship/internship hours are not completed within one term, the student will receive an IP (In Progress) grade and a zero credit Externship/Internship Extension course will be scheduled in the following term. Once the required hours are completed, the student's grade will be entered in both courses.

Treatment of Grades in the Satisfactory Academic Progress/Rate of Progress Calculation					
Grade	Included in GPA calculation?	Counted as attempted credits?	Counted as earned credits?

EL	Ν	Y	Y		
PE	Ν	Y	Y		
PF	Ν	Ν	N		
PP	Ν	Ν	N		
W	Ν	Y	Ν		
WZ	N	Ν	N		
TR	Ν	Y	Y		

GPA AND CGPA CALCULATIONS

- The Grade Point Average (GPA) is calculated for all students. The GPA for each term and Cumulative Grade Point Average (CGPA) are calculated on courses taken in residence at Everest
- The Grade Point Average (GPA) is calculated at the end of each evaluation period by dividing the quality points earned by the total credits attempted for that evaluation period.
- The Cumulative Grade Point Average (CGPA) is calculated by dividing the total cumulative quality points earned by the total cumulative credits attempted for cumulative evaluation periods.
- The number of quality points awarded for each course is determined by multiplying the points listed for each letter grade by the number of credits of the course.

STANDARDS OF SATISFACTORY ACADEMIC PROGRESS (SAP)

Students must maintain satisfactory academic progress in order to remain eligible as regularly enrolled students and to continue receiving federal financial assistance. The accreditor and federal regulations require that all students progress at a reasonable rate toward the completion of their academic program. Satisfactory academic progress is measured by:

- The student's cumulative grade point average (CGPA)
- The student's rate of progress toward completion (ROP); and
- The maximum time frame (MTF) allowed to complete the academic program (150% for all programs).

For clock hour modular programs, students must also maintain a satisfactory rate of attendance. The student may not have absences in excess of 10% of the scheduled hours in a payment period, measured at the nearest full module. The maximum time frame allowed to complete is 150% of total number of weeks in the program of study (MTF).

Evaluation Periods for SAP

Satisfactory academic progress is measured for all students at the end of each grading period (i.e., at the end of each term, module, phase, level, quarter and payment period).

Rate of Progress Toward Completion

The school catalog contains a schedule designating the minimum percentage or amount of work that a student must successfully complete at the end of each evaluation period to complete their educational program within the maximum time frame (150%). Quantitative progress is determined by dividing the number of credit hours earned by the number of credit hours attempted. Credit hours attempted include completed hours, transfer credits, withdrawals, and repeated courses. Non-credit remedial courses have no effect on the student's ROP.

Maximum Time Frame to Complete

The maximum time frame for completion of all programs below the master's level is limited by federal regulation to 150% of the published length of the program. School shall calculate maximum time frame using credit hours attempted. All credit hours attempted, which include completed credits, transfer credits, withdrawals, and repeated classes, count toward the maximum number of credits allowed to complete the program. Non-credit remedial courses have no effect on the student's maximum time frame.

For clock hour modular programs, a student is not allowed to attempt more than 1.5 times or 150% of the weeks in the program.

Satisfactory Academic Progress Tables for Undergraduate Programs

48 Quarter Credit Hour Program. Total credits that may be attempted: 72 (150% of 48).

Application of Grades and Credits to SAP

- Grades A through F are included in the calculation of CGPA and are included in the Total Number of Credit Hours Attempted.
- Transfer credits (TR) are not included in the calculation of CGPA but are included in the Total Number of Credit Hours Attempted and Earned in order to determine the required levels for CGPA and rate of progress.
- Courses with grades of Pass, EL and PE are not included in the CGPA calculation but do count as credit hours successfully completed for the rate of progress calculation.
- For calculating rate of progress, F grades and W grades are counted as hours attempted but are not counted as hours successfully completed. Grades of IP will also be counted as hours attempted but not as hours successfully completed.
- When a course is repeated, the higher of the two grades is used in the calculation of CGPA, and the total credit hours for the original course and the repeated course are included in the Total Credit Hours Attempted (in the SAP charts) in order to determine the required rate of progress level. The credit hours for the original attempt are considered as not successfully completed.
- When a student returns from a leave of absence and completes the course from which the student withdrew, the hours for which the student receives a passing grade are counted as earned; the grade, hours, and attendance for the original attempt prior to the official leave of absence are not counted for purpose of the rate of progress toward completion calculation and the original grade is not counted in the CGPA calculation
- When a student transfers between programs, all attempts of courses common to both programs are included in the CGPA and ROP of the new program.
- Students graduating from one program and continuing on to another will have all successfully completed courses common to both programs included in the SAP calculations of the new program. Courses not in the new program, including grades of W or F, are excluded from all SAP calculations.
- Non-punitive grades are not used and non-credit and remedial courses are not offered.

SAP Advising

SAP Advising is the period of time during which a student is advised and monitored for progress for the remainder of the term. During the SAP advising period, the student is eligible for financial aid. Academic advising shall be documented using the **Academic Advising Form**. The form shall be kept in the student's academic file.

The Academic Dean/Director of Education (or designee) must provide a written notice of SAP Advising status. The following timelines apply for all students placed on SAP Advising status:

- For linear programs with an Add/Drop period:
 - Students must receive the notification by the first day of the term; and
 - Must be advised within fourteen (14) calendar days after the term start.

NOTE: For terms without a break week, students must receive the notification within seven (7) calendar days after the term start and be advised within twenty-one (21) calendar days after the term start.

- For modular programs:
- Students must receive the notification by the third (3) calendar day of the subsequent module; and
- o Must be advised within ten (10) calendar days after the module start.

Financial Aid Warning

SAP is evaluated at the end of each term and all students with a cumulative grade point average (CGPA) and/or rate of progress (ROP) below the required academic progress standards as stated in the school's catalog will move into SAP NOT MET status. Students not meeting SAP and with a previous SAP status: SAP MET or SAP ADVISING will be issued FA Warning letter and be advised that unless they improve their CGPA and/or rate of progress toward completion, they may be withdrawn from their program and lose eligibility for federal financial aid.

Notification of Financial Aid Warning

The Academic Dean/Director of Education (or designee) must provide the written notice of FA Warning status to all students with a previous SAP status: SAP Advising or SAP Met. The following timelines apply to all students receiving an FA Warning:

- For linear programs with an Add/Drop period:
 - Students must receive the notification by the first day of the term; and
 - Must be advised within fourteen (14) calendar days after the term start.

NOTE: For terms without a break week, students must receive the notification within seven (7) calendar days after the term start and be advised within twenty-one (21) calendar days after the term start.

- For modular programs:
 - Students must receive the notification by the third (3) calendar day of the next module; and
 - Must be advised within ten (10) calendar days after the module start.

Financial Aid Probation

At the end of each term following a SAP evaluation, students with a previous SAP NOT MET status and who are still SAP NOT MET according to the academic progress standards stated in the school's catalog, will be notified with a SAP NOT MET letter indicating that they will be withdrawn unless they successfully appeal by written request within five (5) calendar days after the notification in accordance with the Academic Appeals Policy. Appeals shall only be granted for the following reasons: the death of a family member; an illness or injury suffered by the student; special circumstances of an unusual nature which are not likely to recur.

The Academic Dean/Director of Education (or designee) must provide written notice of all students placed on SAP NOT MET status:

- For linear programs with an Add/Drop period:
 - Students must receive the notification by the first day of the term;
 - If the student appeals this status and the appeal is approved, the student must receive an Academic Progress Plan within ten (10) calendar days after the appeal's approval.

NOTE: For terms without a break week, students must receive the notification within seven (7) calendar days after the term start.

- For modular programs:
 - Students must receive the notification by the third (3) calendar day of the next module;
 - If the student appeals this status and the appeal is approved, the student must receive an Academic Progress Plan within seven (7) calendar days after the appeal's approval.

Notification of Financial Aid Probation

FA Probation is the term for which the student's appeal has been accepted and progress is monitored under an Academic Progress Plan. Students must be notified in writing of their probationary status within three (3) calendar day of the change in status in the student information system. During the period of FA probation students will continue to be eligible for financial aid.

While on FA probation, unless students improve their CGPA and /or rate of progress toward completion, in accordance with their Academic Progress Plan, they will be withdrawn from their program and become ineligible for further financial aid. All students on FA probation must be placed on an Academic Progress Plan. A student will remain on FA probation as long as he or she is meeting the requirements of his or her Academic Progress Plan when evaluated at the end of each evaluation period on the Plan.

Academic Progress Plan

Students on FA Probation must agree to the requirements of an Academic Progress Plan (APP) as a condition of their FA probation. Each student shall receive a copy of his or her APP. A copy of each student's APP shall be kept in the student's permanent academic file.

The APP may extend over one (1) or multiple terms. At the end of the first evaluation period on the APP, the student will meet with the Academic Dean/Director of Education (or designee)/Online Designee for an evaluation of progress of the plan's requirements. If on a single-term plan and the student has met the requirement(s) of the plan, the student will move into SAP Advising or SAP Met status, and the student's APP shall be considered fulfilled and closed. If on a multi-term plan and the student has met the requirement(s) of the new

requirement will be set and the student will be placed on FA Probation status again and will continue to adhere to the requirements of the APP.

If at the end of any SAP evaluation period on the plan (APP) the student does not meet the plan's requirement(s), the student will receive a dismissal letter and will be dismissed from the program.

Students who have violated their FA Probation and have been dismissed from a program are not eligible for readmission to that program if they have exceeded, or may exceed, the maximum time frame of completion until they re-establish appropriate Satisfactory Academic Progress standing.

Evaluation of Progress

At the end of each evaluation period encompassed by the APP, the student will meet with the Academic Dean/Director of Education (or designee)/Online Designee for an evaluation of progress of the plan's requirements. Determination of the student's success at meeting APP requirement(s) must be completed no later than the second (2nd) calendar day of the module or term.

SAP Advising or SAP Met Status

If the student has met the requirements of a one-term plan, the student will move into a SAP Advising or SAP MET status and the student's APP shall be considered fulfilled and closed. The student will be provided with either a SAP Advising or Return to Academic Good Standing Letter. In the case of SAP Advising, the student will be advised with the Academic Advising form and will be FA eligible.

The Academic Dean/Director of Education (or designee) must provide a written notice of Return to Academic Good Standing or SAP Advising status. The following timelines apply for all students placed on SAP Advising status:

- For linear programs with an Add/Drop period:
 - Students must receive the notification by the first day of the term; and
 - Must complete the Evaluation of Progress form within fourteen (14) calendar days after the notification.

NOTE: For terms without a break week, students must receive the notification within seven (7) calendar days after the term start and must complete the Evaluation of Progress form within twenty-one (21) calendar days after the notification.

- For modular programs:
 - Students must receive the notification by the third (3) calendar day of the subsequent module; and
 - Must complete the Evaluation of Progress form within seven (7) calendar days after the notification.

SAP Not Met Status and/or Dismissal

If on a multi-term plan, it is likely the student will remain SAP NOT MET for the second (and ensuing) evaluation periods. At the end of each evaluation period, the student will be notified, evaluated for progress, and if the APP requirements are met, will remain in FA Probation and continue on the APP. New requirements for the second (or ensuing) evaluation period will be defined using the Evaluation of Progress form.

The Academic Dean/Director of Education (or designee) must provide a written notice of SAP NOT MET status. The following timelines apply for all students placed on SAP NOT MET status:

- For linear programs with an Add/Drop period:
 - Students must receive the notification by the first day of the term; and
 - Must complete the Evaluation of Progress form within fourteen (14) calendar days after the notification.

NOTE: For terms without a break week, students must receive the notification within seven (7) calendar days after the term start and must complete the Evaluation of Progress form within twenty-one (21) calendar days after the notification.

- For modular programs:
 - Students must receive the notification by the third (3) calendar day of the subsequent module; and
 - Must complete the Evaluation of Progress form within seven (7) calendar days after the notification.

If the student does not meet the Plan's requirements at the end of an evaluation period, the student will be dismissed from the program. If the student has not met the benchmark, the student must be dropped with the correct DOD (no later than second calendar day of module or term). The student must be notified of dismissal no later than the second calendar day of module or term.

Note: If the student has make-up work, and the campus is willing to accept it, it must be completed within four (4) calendar days of grades being entered (as long as this doesn't extend beyond ten (10) calendar days after mod- or term-end), or the student must be dropped with the correct DOD.

SAP Re-Entry

Students who have violated FA Probation and have been dismissed shall not be readmitted if they cannot complete the program within the maximum time frame or re-establish appropriate Satisfactory Academic Progress (SAP) standing.

Retaking Passed Coursework

Students may repeat coursework as long as such coursework does not include more than a single repetition of a previously passed course. Each attempt counts in the calculation of the students' rate of progress and successful completion percentages. All repeated courses will appear on the student's transcript, but only the highest grade earned will be included in the calculation of their cumulative grade point average.

Retaking Failed Coursework

For the purpose of improving academic standing and establishing institutional grade point average, students may repeat any failed coursework. Failed courses may be repeated more than twice, so long as repeating the coursework does not jeopardize the students' maximum time frame of completion. Each attempt counts in the calculation of the students' rate of progress and successful completion percentages. All repeated coursework will appear on the student's transcript, but only the highest grade earned will be included in the calculation of their cumulative grade point average.

ADD/DROP POLICY (LINEAR PROGRAMS ONLY)

Students may add or drop courses during the add/drop period without academic penalty. However, they must first obtain the permission of the Academic Dean/Director of Education (or designee) and the Director of Student Finance (or designee). Students are not permitted to add a course after the end of the add/drop period. Students who attend a course after the add/drop period shall be charged for the course pursuant to the refund policy as stated in this catalog. Students who drop a course after the add/drop period shall receive a grade of "W" (Withdraw) and be charged for the course pursuant to the refund policy as stated in this catalog.

Full Term Courses

The add/drop period for full term courses is the first fourteen (14) calendar days of the term, excluding holidays and regularly scheduled breaks. The taking of attendance of students who enroll during the add/drop period shall begin the first scheduled class session following the student's enrollment. Therefore, students who enroll in a full-term course during the add/drop period must attend class by the earlier of the 21st calendar day of the term or the 14th calendar day after enrollment, or be dropped from the course.

Mini-Term Courses

The registration period for second mini-term courses occurs well in advance prior to the start of the second miniterm. Continuing students, who are already enrolled in full term courses, should complete registration for upcoming second mini-term courses by the close of business on day twenty (20) of the full-term. Additionally, students must sign a Mini-Term Consent Form when registering for the upcoming second mini-term courses.

Once the mini-term has begun, the add/drop period for mini-term courses is the first seven (7) calendar days of the term, excluding holidays and regularly scheduled breaks. The taking of attendance of students who enroll during the add/drop period shall begin the first scheduled class session following the student's enrollment. Students who enroll in mini-term courses during the add/drop period must attend class by the 14th calendar day of the mini-term, or be dropped from the course.

Effects of Add/Drop on Financial Aid Calculation

Adding or dropping a course may affect a student's enrollment status, and therefore the amount of financial aid for which the student is eligible. The Director of Student Finance is responsible for advising a student of the financial consequences of a change in registration.

In order for second mini-term courses to be considered in the determination of a student's enrollment status for Pell grant purposes only, a student must register for the second mini-term courses by the close of business on day twenty (20) of the start of the full term, i.e. prior to the Census date.

ATTENDANCE POLICY

Attendance in class is critical to student academic success. This policy sets standards that provide for the withdrawal and dismissal of students whose absences exceed a set rate. Normally, a student is considered present if he or she is in the assigned classroom for the scheduled amount of time, i.e., neither late for class (tardy) nor leaving before the end of class (leave early). However, an instructor may consider a student present who does not attend the entire class session if (a) the criteria used to make the determination are stated in the course syllabus and (b) the amount of time missed does not exceed 50% of the class session.

In clock hour modular programs, the student is awarded one hour of attendance for each 50-minute academic hour attended (there is a 10-minute administrative grace period).

Establishing Attendance/Verifying Enrollment

• For programs with an add/drop period, the taking of attendance for a student enrolling during the add/drop period shall begin the first scheduled class session following the student's enrollment.

• In programs without an add/drop period, new students registered for a class shall attend by the second scheduled class session or be withdrawn.

Monitoring Student Attendance

Faculty shall monitor student attendance on the basis of both consecutive absences (the "Consecutive Absence Rule") and absences as a percentage of the hours (minus externship hours) in the term/program (the "Percentage Absence Rule"). A student may appeal an attendance dismissal pursuant to the Student Academic Appeals Policy.

Should an appeal be granted, the student is not dismissed, but shall be placed on probation and monitored with an advising plan. Should an appeal not be granted, the student shall be withdrawn from all courses and dismissed from school, and shall not be charged for attending while the appeal was pending. Students dismissed due to an attendance violation must reapply for admission to the school.

In clock hour modular programs, the "Percentage Absence Rule" (identifying attendance violations) measure absences as a percentage of the hours in a module/payment period.

Make-Up Attendance

In clock hour modular programs, students may choose to, or be required to, make-up attendance. Make-up attendance can occur only outside of regularly-scheduled class time, and the quantity of make-up attendance per module cannot exceed the quantity of absence in that module. Make-up attendance must be completed by 14 calendar days after mod end, and make-up work must be related to the module in which the absence occurred.

Make-up time will be measured in 30-minute blocks of time, and must be monitored by Academics staff and approved by the Director of Education/Academic Dean. Qualified make-up attendance activities include, but are not limited to, taking/re-taking quiz or test, facilitated review or study, group project, study group, hands-on practice, lab check-offs, and completion of assignments.

Consecutive Absence Rule

When a student is absent from school for fourteen (14) consecutive calendar days excluding holidays and scheduled breaks, the faculty shall notify the Academic Dean/Director of Education. The following guidelines shall be followed:

- All students who state they will not return to school shall be promptly withdrawn;
- All students who state they will return must:
 - 1. Attend their next scheduled class session;
 - 2. File an appeal within five (5) calendar days of the violation;
 - 3. Have perfect attendance while the appeal is pending; and
- Any student who has promised to return to school, but does not attend the next scheduled class session shall be withdrawn from all courses and dismissed from school.

Note: For linear programs, the consecutive absence rule is applied to days missed in a single term. For modular programs, the consecutive absence rule is applied to days missed in the total program.

Percentage Absence Rule (Credit Hour Modular Programs)

For students who have not previously violated the attendance policy:

Percentage	Action Taken
15% of the total classroom hours missed	Attendance warning letter sent
20% of the total classroom hours missed	Withdrawn from the module and dismissed from school

For students who **have** been dismissed for violating the attendance policy, or would have been dismissed but for a successful appeal, the following rule shall apply:

Percentage	Action Taken
15% of the remaining classroom hours missed	Attendance warning letter sent
20% of the remaining classroom hours missed	Withdrawn from the module and dismissed from school

Percentage Absence Rule (Clock Hour Modular Programs)

Percentage	Action Taken
10% of the scheduled hours in a module missed	Attendance warning letter sent, make-up attendance recommended
10% of the scheduled hours in a module missed – second occurrence	Attendance warning letter sent, make-up attendance required
10% of the scheduled hours in a module missed – third occurrence	Attendance dismissal letter sent, withdrawn from module and dismissed from school
10% of the scheduled hours in a payment period missed	Attendance dismissal letter sent, withdrawn from module and dismissed from school

Percentage Absence Rule (Linear Programs)

The following rule shall apply:

Percentage	Action Taken
25% of the total hours for all courses in a term	Attendance warning letter sent
40% of the total hours for all courses in a term	Withdrawn from all courses and dismissed from school

Should a student violate the applicable Percentage Absence Rule, the following guidelines shall be followed:

- All students who state they will not return to school shall be promptly withdrawn;
- All students who state they will return must:
 - 1. Attend class within five (5) calendar days of the violation;
 - 2. File an appeal within five (5) calendar days of the violation;
 - 3. Have perfect attendance while the appeal is pending; and
- Any student who has promised to return to school, but who does not return within five (5) calendar days of the violation shall be withdrawn from all courses and dismissed from school; quarter-based programs only

Date of Withdrawal

- When a student is withdrawn for consecutive absences within the term or module, the date of the student's withdrawal shall be the student's last date of attendance (LDA).
- When a student is withdrawn for violating the applicable percentage absence rule, the Date of Withdrawal shall be the date of the violation.

Note: The Date of Withdrawal shall be the earlier of a violation of the Consecutive Absence Rule or the Percentage Absence Rule.

Date of Determination (DOD)

The Date of Determination (DOD) shall be the date the school determined the student would not return to class. This is the date used to determine the timeliness of the refund. The DOD is the **earliest** of the following three (3) dates:

- The date the student notifies the school (verbally or in writing) that s/he is not returning to class;
- The date the student violates the published attendance policy; or
- No later than the 14th calendar day after the LDA; scheduled breaks are excluded when calculating the DOD.

Attendance Records

The computer attendance database is the official record of attendance. The official record may be challenged by filing an attendance appeal according to the Student Academic Appeal Policy. Without an appeal, after the 14th calendar day following the end of the term/module, the computer attendance database shall be considered final.

LEAVE OF ABSENCE POLICY (MODULAR PROGRAMS ONLY)

Everest permits students to request a leave of absence (LOA) as long as the leave does not exceed a total of 180 days during any 12-month period, starting from the first day of the first leave, and as long as there are documented, legitimate extenuating circumstances that require the students to interrupt their education. Students requesting an LOA must submit a <u>completed</u> Leave of Absence Request Form prior to the beginning date of the leave. If unforeseen circumstances prevent the student from submitting the request in advance, the leave may still be granted, but only if:

- a) the school documents the unforeseen circumstances, and
- b) the student submits a completed **Leave of Absence Request Form** by the tenth (10th) calendar day of the leave.

Note: Everest does not permit leaves of absence for students enrolled in quarter-based programs. Students experiencing circumstances that may make it necessary to interrupt their attendance temporarily should see the Academic Dean/Director of Education.

Re-Admission Following a Leave of Absence

- Upon return from leave, the student will be required to repeat the module, if it had been interrupted, and receive final grades.
- The student will not be charged any fee for the repeat of any module from which the student took leave or for re-entry from the leave of absence.
- The date the student returns to class is normally scheduled for the beginning of a module.
- When a student is enrolled in a modular program, the student may return at any appropriate module, not only the module from which the student withdrew.

Extension of Leave of Absence

A student on an approved LOA may submit a request to extend the LOA without returning to class. Such a request may be approved by the Academic Dean/Director of Education provided:

- The student submits a completed LOA Extension Request Form before the end date of the current leave.
- There is a reasonable expectation the student will return.
- The number of days in the leave as extended, when added to all other approved leaves, does not exceed 180 calendar days in any twelve (12) month period calculated from the first day of the student's first leave.
- Appropriate modules required for completion of the program will be available to the student on the date of return.

If the extension request is approved, the end date of the student's current leave will be changed in the official student information system to reflect the new end date. If the request is denied, the student will be withdrawn and the withdrawal date will be the student's last date of attendance (LDA).

Failure to Return from Leave of Absence

A student who fails to return from an LOA on or before the date indicated in the written request will be terminated from the program, and the institution will invoke the refund policy. As required by federal statute and regulations, the student's last date of attendance prior to the approved LOA will be used in order to determine the amount of funds the institution earned and make any refunds that may be required under federal, state, or institutional policy.

Possible Effects of Leave of Absence

Students who are contemplating an LOA should be cautioned that one or more of the following factors may affect the length of time it will take the student to graduate.

- Students returning from a LOA are not guaranteed that the module required to maintain the normal progress in their training program will be available at the time of reentry;
- They may have to wait for the appropriate module to be offered;
- Financial aid may be affected.

EXTERNSHIP TRAINING

Upon successful completion of all classroom requirements, students in programs that require an externship are expected to begin the externship portion of their programs within 14 calendar days (excluding holidays and regularly scheduled breaks). If a student does not begin externship training within 14 calendar days, he/she must be dropped from the program. A leave of absence (LOA) may only be approved if the student's reason meets the criteria of the LOA Policy. Students may only miss 14 consecutive calendar days once they start externship or they must be dropped from the program.

Each student has approximately 120 calendar days to complete their externship. Any modular student who does not complete externship training within 120 calendar days should meet with the Academic Dean/Director of Education to approve the time remaining to complete the externship.

Students who drop from externship either prior to starting or during externship and/or delay the completion of their externship for more than 30 days from the last days of attendance must have their skills evaluated by a program instructor or director/chair prior to re-entry to ensure they are still competent to perform skills safely in the externship setting.

In clock hour modular programs, students have up to 120 calendar days to complete externship. The quantity of weeks is determined by the number of weeks the student required to successfully complete the didactic portion of the program subtracted from 1.5 times the total weeks in the program. The number of hours per week will be unique to each student and may depend on the number of weeks available for completion within maximum time frame.

WITHDRAWAL PROCEDURES

- Students who intend to withdraw from school are requested to notify the Academic Dean/Director of Education by telephone, in person, by email or in writing to provide official notification of their intent to withdraw and the date of withdrawal.
- Timely notification by the student will result in the student being charged tuition and fees for only the portion of the payment period or period of enrollment that he/she attended as well as ensuring a timely return of federal funds and any other refunds that may be due.
- Students requesting a withdrawal from school must complete a financial aid exit interview.
- Students who have withdrawn from school may contact the school's Education Department about re-entry.

MAKE-UP WORK

At the instructor's discretion, make-up work may be provided to students who have missed class assignments or tests. Make-up work must be completed within ten (10) calendar days after the end of the term/module.

REQUIREMENTS FOR GRADUATION

- Successfully complete all courses in the program with a 2.0 cumulative grade point average within the maximum time frame for completion as stated in the school catalog.
- Successfully complete all externship requirements (if applicable).
- Meet any additional program specific requirements as stated in the catalog.

Commencement exercises are held at least once a year. Upon graduation, all students who are current with their financial obligation to the school shall receive their diploma.

VETERANS' EDUCATION BENEFITS

Prior Credit for Education and Training

All VA beneficiaries are required to disclose prior postsecondary school attendance, military education and training, and provide official transcripts for such education and training. The student is responsible for ensuring that all transcripts are submitted to the school. The school is responsible for evaluating official written transcripts of previous education and experience, granting credit where appropriate, notifying the student, and shortening the program certified accordingly.

Prior credit must be evaluated within the first two terms of the enrollment period. The VA will not pay VA education benefits past the third term of enrollment, if prior credit has not been evaluated.

Benefit Overpayments

Schools are required to promptly report changes in the enrollment status of all students receiving VA education benefits in order to minimize overpayments. Generally overpayments of VA benefits are the responsibility of the student. However, there are instances under the Post 9/11 GI Bill when an overpayment is created on a school and funds need to be returned to the VA.

Academic Standards for Students Receiving VA Benefits

Student receiving Veterans education benefits are subject to the same academic standards (e.g., SAP, attendance, etc.) applicable to all students at the schools. To receive VA education benefits, a student must maintain Satisfactory Academic Progress, attendance standards and adhere to the Code of Student Conduct.

Additional Requirements for Veteran Students

For Veteran students who **have not** previously been dismissed from the program for violating the attendance policy, the following rule shall apply:

Percentage	Action Taken
15% of the cumulative hours attempted	Attendance warning letter sent
20% of the cumulative hours attempted	Dismissed from the program

For Veteran students who **have** been dismissed for violating the attendance policy, or would have been dismissed but for a successful appeal, the following rule shall apply:

Percentage	Action Taken
15% of the remaining cumulative hours attempted	Attendance warning letter sent
20% of the remaining cumulative hours attempted	Dismissed from the program

The Veterans Administration (VA) requires that students receiving funds based on their enrollment in school complete their course of studies in the standard length of the program. In order to meet this requirement, students must attend class on a regular basis. The VA requires that it be notified when a veteran student's enrollment status changes; such notification may result in the termination of veteran benefits. All dismissals and successful appeals by students funded through the VA shall be reported to the VA by the certifying official for the school.

APPEALS POLICIES

Student Academic Appeals Policy

Academic appeals include those appeals related to Satisfactory Academic Progress violations, final grades, attendance violations, and academic or financial aid eligibility. In all instances, with the exception of SAP, Everest expects that initially every attempt will be made to resolve such disputes informally through discussions by all relevant parties prior to initiating formal appeals.

All formal academic appeals must be submitted in writing (or electronically via email for students enrolled in an online course) on an Academic Appeal Form to the Academic Dean/Director of Education within five (5) calendar days of the date the student has notice of the adverse academic decision:

- Notice of final grades:
 - Modular the date the grade(s) are mailed from the school
 - Linear first day of the subsequent term
 - Notice of Attendance violation is the date of the violation
- Notice of SAP violation (FA probation SAP Not Met 2nd consecutive term):
 - Modular third calendar day of the subsequent module
 - Linear first day of the subsequent term

Note: In the case of terms without a break week, the student must receive the notification within seven (7) calendar days of the term start.

The appeal must include:

- The specific academic decision at issue
- The date of the decision
- The reason(s) the student believes the decision was incorrect
- The informal steps taken to resolve the disagreement over the decision
- The resolution sought

The written appeal may be accompanied by any additional documentation (e.g., papers, doctor notes, tests, syllabi) the student believes supports the conclusion that the academic decision was incorrect.

Note: Once a formal appeal is filed, no action based on the adverse academic decision may be taken until the appeal process is complete. However, in cases involving financial aid eligibility, all financial aid disbursements shall be suspended until the matter is resolved.

Upon receipt of the Academic Appeal Form, the Academic Dean/Director of Education/Online Designee shall convene an Appeal Committee, which should at a minimum include the Department Chair, a member of the Student Services Staff, and a faculty member from another program. The Appeal Committee shall investigate the facts of the matter to the extent deemed appropriate under the circumstances. The Appeal Committee shall render a written decision within five (5) calendar days of the date the appeal was received, and shall forward the decision to the student and the instructor within five (5) calendar days thereafter. Copies of all documents relating to the appeal shall be placed in the student's academic file, and the decision of the Appeal Committee shall be noted in the official student information system within one (1) calendar day of the date of the decision. The decision of the Appeal Committee is final, and no further appeals are permitted.

Note: When an appeal is denied, the date of any suspension of financial aid or dismissal from the program shall be the date of the adverse academic decision. The student will not be charged for any attendance after the date of the adverse academic decision.

Assignments/Test Grades

Students who disagree with an assignment/test grade should discuss it with the instructor upon receipt of the grade. Assignments/test grades are reviewed at the instructor's discretion. If the instructor is not available, the matter should be discussed with the Program Director/Department Chair/Online Academic Designee. Only final course grades are eligible for appeal.

Final Course Grades

In modular programs, appeals of final course grades must be made by the fifth (5^{th}) calendar day after the date the grades are mailed from the school. In linear programs, appeals of final course grades must be made by the sixth (6^{th}) calendar day of the subsequent term. The Academic Dean/Director of Education/Online Academic Designee may direct a grade to be changed when it is determined by an Appeal Committee that a final grade was influenced by any of the following:

- 1. A personal bias or arbitrary rationale
- 2. Standards unreasonably different from those that were applied to other students
- 3. A substantial, unreasonable, or unannounced departure from previously articulated standards
- 4. The result of a clear and material mistake in calculating or recording grades or academic progress

Attendance Violations Appeals Policy

Appeals of attendance violations must be made within five (5) calendar days of the violation. In order for an attendance appeal to be considered, the student must:

- 1. Attend school:
 - The next scheduled class period (Consecutive Absence Rule violations)
 - Within five (5) calendar days of the violation (Percentage Absence Rule violations)
- 2. Have perfect attendance while the appeal is pending
- 3. Submit a written plan to improve attendance with the Appeal Form

Provided that no applicable state requirement would be violated by doing so, an attendance appeal may be granted if the student demonstrates that the absence was caused by:

- 1. The death of a family member
- 2. An illness or injury suffered by the student
- 3. Special circumstances of an unusual nature which are not likely to recur

The Appeal Committee may, as a condition of granting the appeal, require the student to make up assignments and develop an Academic Advising Plan in conjunction with his or her advisor.

For clock hour modular programs, as a condition of granting the appeal, the Committee may require the student to make-up attendance.

Satisfactory Academic Progress (SAP) Appeals Policy

In modular programs, SAP appeals must be made within five (5) calendar days of the notification, i.e., eight (8) calendar days of the subsequent module start. In linear programs, SAP appeals must be made by the sixth (6th) calendar day of the subsequent term.

Provided that the student can complete their program within the maximum time frame with the required minimum CGPA, a SAP appeal may be granted if the student demonstrates that s/he is sincerely committed to taking the steps required to succeed in his/her program and that his or her failure to maintain the required CGPA or ROP was caused by any of the following mitigating circumstances:

- 1. The death of a family member
- 2. An illness or injury suffered by the student
- 3. Special circumstances of an unusual nature which are not likely to recur

SAP violation/FA Probation appeals must include a detailed statement written by the student explaining the reason why he or she failed to make SAP, and what has changed in the student's situation that will allow him or her to demonstrate SAP at the next evaluation period. An appeal will be strengthened if supporting documentation is included (e.g., medical doctor's note, law enforcement report, etc.)

The Appeal Committee shall, as a condition of granting the appeal, require the student to develop an Academic Progress Plan in conjunction with the student's advisor and place the student on FA probation.

FINANCIAL INFORMATION

STATEMENT OF FINANCIAL OBLIGATION

A student who has applied, is accepted, and has begun classes at Everest assumes a definite financial obligation. Each student is legally responsible for his or her own educational expenses for the period of enrollment. A student who is enrolled and has made payments in full or completed other financial arrangements and is current with those obligations, is entitled to all the privileges of attending classes, taking examinations, receiving grade reports, securing course credit, being graduated, and using the Career Services Office.

Any student who is delinquent in a financial obligation to the school, or any educational financial obligation to any third party, including damage to school property, library fines, and payment of tuition and fees, is subject to exclusion from any or all of the usual privileges of the school. Everest may, in its sole discretion, take disciplinary action on this basis, including suspension or termination of enrollment.

TUITION AND FEES

Tuition and fee information can be found in "Tuition and Fees" section of the catalog. Modular programs are offered throughout the year on a schedule independent of the standard quarter calendar. When a student begins enrollment in a modular program, tuition will be charged in the full tuition amount, or in increments based on state policy, for each academic year.

Quarter-based programs will be charged for the student's first quarter (or mini-term quarter start) in attendance. Tuition and fees for subsequent quarters will be charged at the published rate in effect at the beginning of that quarter. The minimum full-time course load is 12 credits per quarter for undergraduate programs. Textbook costs per quarter are dependent upon the classes for which the student is registered. All credits for which a student is registered are charged at the current rate, including any courses being repeated. The student's total tuition for a given quarter is determined by multiplying the number of credit hours for which the student is registered at the current tuition rate for that number of credit hours.

Students' financial obligations will be calculated in accordance with the refund policy in the Enrollment Agreement and this school catalog. For modular programs, the Enrollment Agreement obligates the student and the school for the entire program of instruction. For quarter-based programs, the Enrollment Agreement obligates the student and the school for tuition by quarter.

Student may make payments by cash or by the following accepted credit cards: Visa, MasterCard or Discover.

TUITION CHARGES FOR RE-ENTRY

- Students re-entering a linear program will be charged tuition at the current cost per credit/quarter.
- Students re-entering a modular program within 180 days will be charged tuition at the original tuition rate reflected on the original enrollment agreement. Students re-entering a modular program outside of 180 days will be charge current tuition rate.
- If the student is entering into a modular program that charges tuition by the academic year and is re-entering in the second academic year, no tuition increase is applied to the first academic year, since that year has already been completed. The tuition increase will be calculated for the second academic year as follows:
 - Tuition increase divided by the number of academic credits in the program equals to cost per credit. Cost per credit multiplied by the number of credits in the second academic year equals the amount of tuition increase.

Note: Any student who has a prior unpaid balance or account that has been referred to a collection agency will not be eligible for re-entry until the unpaid balance has been resolved.

ADDITIONAL FEES AND EXPENSES

Charges for textbooks and equipment are separate from tuition. The institution does not charge for books and equipment until the student purchases and receives the items. Incidental supplies, such as paper and pencils, are to be furnished by students.

VOLUNTARY PRE-PAYMENT PLAN

The school provides a voluntary prepayment plan to students and their families to help reduce the balance due upon entry. Details are available upon request from the Student Finance Office.

TEXTBOOKS

Textbooks and workbooks are sold through the bookstore in accordance with Everest policies. At the time of issuance, textbooks become the responsibility of the students. Everest is not responsible for replacing lost textbooks; however, students may purchase replacements from the campus bookstore. Students are responsible for the cost of their textbooks and the cost of any shipping charges.

BUYER'S RIGHT TO CANCEL

The applicant's signature on the Enrollment Agreement (Agreement) does not constitute admission into the school until the student has been accepted for admission by an official of the school. If the applicant is not accepted, all monies paid will be refunded.

After the applicant has signed the Agreement, the applicant may request cancellation by submitting a written notice either prior to the start of the first scheduled class or by midnight of the third business day following the signing of the Agreement, whichever is later, and the applicant will receive a full refund of all monies paid. Applicants who have signed the Agreement but have not yet visited the school may also cancel within three business days following either the school's regularly scheduled orientation procedures or a tour of the school's facilities and inspection of equipment, where training and services are provided.

Cancellation will occur when the student gives a signed and dated written notice of cancellation to the Director of Admissions or President at the address shown on the Agreement. The written notice of cancellation need not take any particular form and, however expressed, is effective if signed and dated by the student and states that the student no longer wishes to be bound by the Agreement. A notice of cancellation may be given by mail or hand

delivery. The notice of cancellation, if sent by mail, is effective when deposited in the mail, properly addressed, with postage prepaid.

OFFICIAL WITHDRAWALS

An official withdrawal is considered to have occurred on the date that the student provides to the school official notification of his or her intent to withdraw. Students who must withdraw from the school are requested to notify the office of the Academic Dean/Director of Education in writing to provide official notification, including the official date and reason, of their intent to withdraw. When the student begins the process of withdrawal, the student or the office of the Academic Dean/Director of Education will complete the necessary form(s).

Quarter-based Programs: After the cancellation period, students in quarter-based programs who officially withdraw from the school prior to the end of the school's official add/drop period will be dropped from enrollment, and all monies paid will be refunded.

Modular Programs: Although there is no add/drop period in modular programs, for students who officially withdraw within the first five class days (or for weekend classes within seven calendar days from the date they started class, including the day they started class), all monies paid will be refunded.

DATE OF WITHDRAWAL VERSUS DATE OF DETERMINATION (DOD)

The date of withdrawal for students who officially withdraw is the same date as determined under official withdrawals above. If the student officially rescinds his or her official notification of withdrawal and then withdraws within the same quarter, the withdrawal date is the student's original withdrawal date from the previous official notification.

If the student ceases attendance without providing official notification due to circumstances beyond the student's control, the withdrawal date is as follows: If the withdrawal is due to circumstances beyond the student's control, the date of withdrawal is the date the school determines is related to the circumstance beyond the student's control; otherwise, the withdrawal date is the midpoint of the quarter or the last documented date of attendance at an academic activity, whichever is later.

For a student who officially withdraws, the DOD is the student's withdrawal date or date of notification, whichever is later. For a student who withdraws without notification, the DOD is the date that the school becomes aware that the student has ceased attendance. For a student who withdraws after rescinding an official withdrawal, the DOD is the date the school becomes aware that the student did not, or will not, complete the period of enrollment.

FEDERAL FINANCIAL AID RETURN POLICY

Student Financial Aid (SFA)

The school is certified by the U.S. Department of Education as an eligible participant in the Federal Student Financial Aid (SFA) programs established under the Higher Education Act of 1965 (HEA), as amended (Title IV programs). The school is required to determine earned and unearned portions of Title IV aid for students who cancel, withdraw, drop out, are dismissed, or take a leave of absence prior to completing 60% of a payment period or term.

Return of Title IV Funds Calculation and Policy

The Return of Title IV Funds calculation (Return calculation) is based on the percentage of earned aid using the following calculation: Percentage of payment period or term completed equals the number of scheduled hours (clock-hour programs) or days (credit-hour programs) completed up to the withdrawal date divided by the total number of hours (clock-hour programs) or days (credit-hour programs) in the payment period or term. For credit-hour programs, any scheduled break of five days or more is not counted as part of the days in the term. This percentage is also the percentage of earned aid.

Funds are returned to the appropriate federal program based on the percentage of unearned aid using the following formula: Aid to be returned equals (100% of the aid that could be disbursed minus the percentage of earned aid) multiplied by the total dollar amount of aid that could have been disbursed during the payment period or term.

The school must return the lesser of:

- 1. The amount of Title IV program funds that the student did not earn; or
- 2. The amount of institutional charges that the student incurred for the payment period or period of enrollment multiplied by the percentage of funds that were not earned.

The student (or parent, if a federal PLUS loan) must return or repay the amount by which the original overpayment amount exceeds 50% of the total grant funds received by the student for the payment period or period of enrollment, if the grant overpayment is greater than \$50. (Note: If the student cannot repay the grant overpayment in full, the student must make satisfactory arrangements with the U.S. Department of Education to repay any outstanding grant balances. The Student Financial Aid Department will be available to advise the student in the event that a student repayment obligation exists. The individual will be ineligible to receive additional student financial assistance in the future if the financial obligation(s) is not satisfied).

The school must return the Title IV funds for which it is responsible in the following order:

- 1. Unsubsidized Direct Stafford Loans (other than PLUS loans)
- 2. Subsidized Direct Stafford Loans
- 3. Federal Perkins Loans
- 4. Direct PLUS Loans
- 5. Federal Pell Grants for which a return of funds is required
- 6. Academic Competiveness Grants for which a return of funds is required
- 7. National Smart Grants for which a return of funds is required
- 8. Federal Supplemental Educational Opportunity Grants (FSEOG) for which a return of funds is required

If a student withdraws after the 60% point-in-time, the student has earned all Title IV funds that he/she was scheduled to receive during the period and, thus, has no unearned funds; however, the school must still perform a Return calculation. If the student earned more aid than was disbursed to him/her, the institution would owe the student a post-withdrawal disbursement, which must be paid within 180 days of the DOD. If a student earned less aid than was disbursed, the school would be required to return a portion of the funds. Any outstanding student loans that remain are to be repaid by the student according to the terms of the student's promissory notes.

Title IV Credit Balances

After a Return calculation has been made and a state/institutional refund policy, if applicable, has been applied, any resulting credit balance (i.e. earned Title IV funds exceed institutional charges) must be paid within 14 days from the date that the school performs the Return calculation and will be paid in one of the following manners:

- 1. Pay authorized charges at the institution;
- 2. With the student's permission, reduce the student's Title IV loan debt (not limited to the student's loan debt for the period of enrollment);
- 3. Return to the student.

Effects of Leaves of Absence on Returns

If a student does not return from an approved leave of absence on the date indicated on the written request, the withdrawal date is the student's last day of attendance. For more information, see the Leave of Absence section in the school catalog.

Time Frame within which Institution is to Return Unearned Title IV Funds

The school must return the amount of unearned Title IV funds for which it is responsible within 45 days after the DOD.

REFUND POLICIES

Institutional Pro Rata Refund Calculation and Policy

When a student withdraws, the school must determine how much of the tuition and fees he/she is eligible to retain. The Pro Rata Refund Calculation and Policy is an institutional policy and is different from the Federal Financial Aid Return Policy and Return calculation; therefore, after both calculations are applied, a student may owe a debit balance (i.e. the student incurred more charges than he/she earned Title IV funds) to the school.

The school will perform the Pro Rata Refund Calculation for students who terminate their training before completing the period of enrollment. Under the Pro Rata Refund Calculation, the school is entitled to retain only the percentage of charges (tuition, room, board, etc.) proportional to the period of enrollment completed by the student. The period of enrollment completed by the student is calculated by dividing the total number of calendar days in the period of enrollment into the calendar days in the period as of the student's last date of attendance. The period of enrollment for students enrolled in modular programs is the academic year. The period of enrollment for students enrolled in guarter-based programs is the guarter. The refund is calculated using the following steps:

- 1. Determine the total charges for the period of enrollment.
- 2. Divide this figure by the total number of calendar days in the period of enrollment.
- 3. The answer to the calculation in step 2 is the daily charge for instruction.
- 4. The amount owed by the student for the purposes of calculating a refund is derived by multiplying the total calendar days in the period as of the student's last date of attendance by the daily charge for instruction and adding in any book or equipment charges.
- 5. The refund shall be any amount in excess of the figure derived in step 4 that was paid by the student.

TEXTBOOK AND EQUIPMENT RETURN/REFUND POLICY

A student who was charged for and paid for textbooks, uniforms or equipment may return the unmarked and unopened textbooks, unworn uniforms or new equipment within 30 days following the date of the student's cancellation, termination or withdrawal. The school shall then refund the charges paid by the student. Uniforms that

have been worn cannot be returned because of health and sanitary reasons. If the student fails to return unmarked and unopened textbooks, unworn uniforms or new equipment within 30 days, the school may retain the cost of the items that has been paid by the student. The student may then retain the equipment without further financial obligation to the school.

EFFECTS OF LEAVES OF ABSENCE ON REFUNDS

If a student does not return from an approved leave of absence (where applicable) on the date indicated on the written request, monies will be refunded. The refund calculation will be based on the student's last date of attendance. The DOD is the date the student was scheduled to return.

TIME FRAME WITHIN WHICH INSTITUTION IS TO ISSUE REFUNDS

Refunds will be issued within 30 days of either the date of determination or from the date that the applicant was not accepted by the school, whichever is applicable.

STUDENTS CALLED TO ACTIVE MILITARY DUTY

Continuing Modular Diploma Students

Continuing modular diploma students who have completed 50% or less of their program are entitled to a full refund of tuition, fees, and other charges paid. Such students who have completed more than 50% of their program are entitled to a strict institutional pro rata refund.

Continuing Quarter-Based Students

If tuition and fees are collected in advance of the withdrawal, a strict institutional pro rata refund of any tuition, fees, or other charges paid by the student for the program and a cancellation of any unpaid tuition, fees, or other charges owed by the student for the portion of the program the student does not complete following withdrawal for active military service.

STUDENT FINANCING OPTIONS

Everest offers a variety of student financing options to help students finance their educational costs. Detailed information regarding financing options availability and the Student Financial Planning process can be obtained from the school's Student Financial Planning Brochure. Information regarding other sources of financial assistance such as benefits available through the Bureau of Indian Affairs, Division of Vocational Rehabilitation, Veterans Assistance and State Programs can be obtained through those agencies.

Financial Assistance

Financial assistance (aid) in the form of grants and loans is available to eligible applicants who have the ability and desire to benefit from the specialized program/training offered at the school.

Student Eligibility

To receive financial assistance you must:

- 1. Usually, have financial need;
- 2. Be a U.S. citizen or eligible noncitizen;
- 3. Have a social security number;
- 4. If male, be registered with the Selective Service (if applicable);
- 5. If currently attending school, be making Satisfactory Academic Progress;
- 6. Be enrolled as a regular student in any of the school's eligible programs;
- 7. Not be in default on any federally-guaranteed loan;
- 8. Have a high school diploma or its equivalent, have completed homeschooling at the secondary level as defined by state law or qualify for admission under the Ability to Benefit Grandfathering Policy.

Federal Financial Aid Programs

The following is a list of the Federal Financial Aid Programs available at the school. Additional information regarding these programs, eligibility requirements, the financial aid process and disbursement of aid can be obtained through the Student Financial Planning Brochure, the Student Finance Office, and the U.S. Department of Education's Guide to Federal Student Aid, which provides a detailed description of these programs. The guide is available online at:

http://studentaid.ed.gov/students/publications/student_guide/index.html

- Federal Pell Grant
- Federal Supplemental Educational Opportunity Grant (FSEOG)
- Federal Work Study (FWS)
- Federal Direct Stafford Loan (DL)
- Federal Direct Parent Loan for Undergraduate Students (PLUS)

Alternative Loan Programs

If your primary financing option does not fully cover your program costs, alternative financing options can help bridge that financial gap. Private loan programs are convenient, affordable and easy to use.

- There are alternative loans provided by private lenders.
- The interest rate may be variable and the loan approved and origination fees may be based on credit.
- Repayment terms may vary based on lender programs.
- Student may apply on their own or with a co-borrower.

Please see one of the Student Finance Planners for further information.

GRANTS AND SCHOLARSHIPS

Workforce Scholarships and Grants, including Youth, Adult and Displaced Workers

Everest is recognized by many public and non-profit organizations as an approved institution to support state and local workforce education and employment initiatives. Therefore, if you are unemployed, under employed, or an otherwise eligible youth or adult, you may qualify for various workforce educational benefit programs. Eligibility criteria for workforce educational assistance and benefits available vary by state, community and school, so check with the funding organization to see if you qualify.

Florida Student Assistance Grant (FSAG)

The Florida Student Assistance Grant (FSAG) is available only to Florida residents demonstrating financial need and meeting certain academic requirements. The FSAG has an early application deadline and is not readily available to all. Students are advised when applications may be submitted. It is not available to any student who has received a Bachelor's degree.

2012 Graduate Opportunity Scholarship

Students enrolled as of June 30, 2012 in any modular program who ultimately graduate from those programs are entitled to receive a \$3,500, non-transferrable scholarship to be used as a tuition credit for any Everest Institute or Everest University program in the State of Florida in which such student enrolls and starts within one year following his or her graduation from such original modular program. Students should speak to their financial aid representative during the enrollment process to determine eligibility

Dream Award Program and Scholarships

Graduates of any Corinthian Colleges, Inc. (CCi) school may be nominated for the CCi-sponsored Dream Award program. Scholarship awards must be used within two years of the award and they are not transferrable nor can they be exchanged for cash.

Campus Dream Award: Each campus will nominate one recent graduate from the campus to represent the campus in the award competition. Nominations are accepted from April 1 to June 30 each year. Selection of the nominee is based on a review of recent graduates within the past three years by the Campus Selection Committee. The selected nominee should be a graduate whose life story could have gone in any direction, but whose decision to attend a CCi school was a turning point for them. The selected nominee should be an inspiration and motivation to other students. Each Campus Dream Award recipient will receive:

- 1. A scholarship worth \$2,500 that may be used at any CCi campus for training that is more advanced than the one from which the nominee has graduated, and
- 2. A plaque
- 3. \$100 Visa gift card

Regional & National Dream Award: Following the close of the nomination period for the Campus Dream Award, the regional and national recipients will be selected from the campus nominees by the divisional leadership and the executive management team.

The regional winners will be selected from the pool of campus winners and will receive:

- 1. A regional trophy
- 2. \$1,000 Visa gift card

The national award will be given to the nominee with the most compelling story and highest level of achievement. The award will be announced to the winner by the end of August and will be presented at the Fall CCi Presidents' Meeting. The award will include:

1. A full scholarship that may be used at any CCi campus for training that is more advanced than the program

from which the recipient has graduated,

- 2. An all-expense paid trip to the Fall Presidents' Meeting,
- 3. \$2,500 Visa gift card,
- 4. A trophy,
- 5. A letter of recognition, and
- 6. A nomination to the Association of Private Sector Colleges and Universities (APSCU) Great Award.

Additional information regarding this award and scholarship program may be requested from the Campus President.

Florida Bright Futures Scholarship Program

The Florida Bright Futures Scholarship Program establishes a lottery-funded scholarship to reward any Florida high school graduate who merits recognition of high academic achievement and who enrolls in an eligible Florida public or private post-secondary educational institution within three years of high school graduation. The program affects high school graduates as well as current award recipients who are now attending a post-secondary institution in Florida.

Eligibility criteria for the scholarship awards vary based on cumulative high school grade point average and SAT or ACT scores. Applications are distributed to potential applicants by high school guidance counselors or by contacting the Technical Assistance Unit of the Florida Department of Education at (888) 827-2004.

The award levels for the three types of scholarships are as follows:

- Florida Academic Scholars Award—An award equal to the amount required to pay tuition, fees and \$600 annually (prorated if part time) for college-related expenses. The award may cover up to 45.0 semester or 67.0 quarter credit hours per academic year. A 3.0 cumulative GPA is required for renewal of the award each year. If a student receiving the award fails to achieve a 3.0 GPA but makes a 2.75 or higher, he or she will automatically be transferred to the Florida Merit Scholars Award level for the remainder of the college career.
- Florida Merit Scholars Award—An award equal to the amount required to pay 75% of tuition and fees for up to 45.0 semester or 67.0 quarter credit hours per year. A 2.75 cumulative GPA is required for renewal of the award each year.
- Florida Gold Seal Vocational Scholars Award—An award equal to the amount required to pay 75% of tuition and fees. This is a two-year scholarship. A student may use the scholarship for up to 90.0 semester or 135.0 Quarter Credit Hours. However, a recipient may become eligible to continue to a four-year degree by transferring to a Merit Scholars award upon being accepted into an upper division program and having maintained a 2.75 or higher GPA. A Gold Seal Vocational Scholar may not transfer to an Academic Scholars award. A 2.75 cumulative GPA is also required for renewal of the Gold Seal award each year.

High School Scholarships

Everest University will make high school scholarships available to graduating seniors. Scholarships will be awarded annually. They are not transferable nor can they be exchanged for cash. Awards are determined by an independent panel. The application deadline for high school scholarships is no later than 30 days prior to the day that the student plans to commence his/her education. In addition, the student must apply within six months of graduation from high school to be eligible. Please review the current Everest University Scholarship Guidelines for further details (including application and testing deadlines) and conditions of this program. Scholarships will be awarded in the following circumstances:

Florida High School Principal Scholarships

Each of the campus locations of Everest University will award three High School Principal Scholarships of \$2000 each. The principals of participating Florida high schools are invited to recommend a senior whose academic achievements and personal career goals have been recognized and would be enhanced by scholarship assistance. Recommended seniors must complete the application procedures, provide letters of recommendation, and submit an essay.

Other High School Scholarships

- Everest University will award high school scholarships to graduating seniors, as follows:
- Some scholarships are valued at \$2000 each,
- Some scholarships are valued at \$500 each.

High school seniors may obtain scholarship applications and guidelines from a participating high school guidance department, or they may call Everest University for an application. Students complete the application procedures, provide letters of recommendation and submit an essay. If a recipient chooses not to accept the award, the next qualified student, as determined by an independent panel, will receive the scholarship.

Everest University Annual Scholarships

Each Everest University campus annually awards honor scholarships at the end of each fall term. These honor scholarships consist of a \$750 and a \$500 tuition credit for two sophomores, two juniors and two seniors (annual scholarship awards total \$1,250 per category). To be eligible for one of the scholarships, the student must:

- 1. Be a full-time student (minimum 36.0 credit hours per academic year)
- 2. Have earned a cumulative grade point average of 3.5 or better at the end of the summer term
- 3. Have completed an application for scholarship
- 4. Have been in attendance at the awarding campus for a minimum of two successive terms
- 5. Provide two letters of recommendation from faculty (one of the letters must be from a faculty member within the program of study)
- 6. Write an essay of 100 words minimum on why the applicant is deserving of the scholarship
- 7. Be enrolled in the subsequent winter quarter to qualify for the scholarship to be awarded. Applications are available in the Academic Dean's Office. Application deadline is December 15.

Sophomore Honor Scholarship

Applicants must have completed 48.0 credit hours.

- 1. A tuition credit of \$750 is awarded to the highest qualified full-time sophomore student who has been selected based on meeting the described eligibility requirements during the freshman year at the University.
- 2. A tuition credit of \$500 is awarded to the second highest qualified full-time sophomore student who has been selected based on meeting the described eligibility requirements during the freshman year at the University.

Junior Honor Scholarship

Applicants must have completed 96.0 credit hours.

- 1. A tuition credit of \$750 is awarded to the highest qualified full-time junior student who has been selected based on meeting the described eligibility requirements during the sophomore year at the University.
- A tuition credit of \$500 is awarded to the second highest qualified full-time junior student who has been selected based on meeting the described eligibility requirements during the sophomore year at the University.

Senior Honor Scholarship

Applicants must have completed 144.0 credit hours.

- 1. A tuition credit of \$750 is awarded to the highest qualified full-time senior student who has been selected based on meeting the described eligibility requirements during the junior year at the University.
- 2. A tuition credit of \$500 is awarded to the second highest qualified full-time senior student who has been selected based on meeting the described eligibility requirements during the junior year at the University.

Imagine America Scholarship

The campus participates in the Imagine America scholarship program administered by the Imagine America Foundation. The Imagine America scholarships are valued at \$1000 each and may be awarded to graduating seniors from participating high schools. Applicants must graduate high school with a GPA of 2.5 or above and may be requested to demonstrate commitment to community service and/or demonstrate financial need. The high school principal select the students of their choice to receive the award. Certificates have to be signed by the counselor and principal to be valid.

Applicants may apply for this scholarship online at <u>www.imagine-america.org</u>. Applicants may apply for this scholarship beginning January 1st of the year in which they graduate and scholarship certificates will be accepted until December 31st of the year in which they are awarded.

Imagine America scholarship certificates are to be given to the Student Finance Office prior to class commencement and are non-transferable and cannot be exchanged for cash. The scholarship cannot be used in conjunction with any of the other scholarships offered at the campus.

Veteran's Assistance Programs

For information about U.S. Department of Veterans Affairs (VA) education benefits for veterans and their families, call (888)-GI-BILL-1 (888-442-4551) or visit www.gibill.va.gov. Each of the major benefits programs is described in detail in its own section of the VA's site.

ADMINISTRATIVE POLICIES

STATEMENT OF NON-DISCRIMINATION

Everest does not discriminate on the basis of race, color, religion, age, disability, sex, sexual orientation, national origin, citizenship status, gender identity or status, veteran or marital status in the administration of its educational and admissions policies, scholarship and loan programs, or other school-administered programs. In compliance with the Americans with Disabilities Act of 1990, as amended and Section 504, Everest provides qualified applicants and students who have disabilities with reasonable accommodations that do not impose undue hardship.

DISABILITY

Everest complies with federal laws including Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990, as amended. The Campus President has been designated the Section 504/ADA Coordinator and will coordinate the efforts of Everest to comply with all relevant disability laws. Inquiries should be directed to this person at the campus contact information located in this catalog.

DISABILITY ACCOMMODATION PROCEDURE

Everest's disability accommodation procedure is a collaborative and interactive process between the student and the Section 504/ADA Coordinator. The student will meet with the Section 504/ADA Coordinator on campus to request and submit an Accommodation Request form and discuss disability related needs. The Section 504/ADA Coordinator is available to the student to assist with questions and provide assistance in filling out the Accommodations Request form. The student will provide a completed Accommodations Request form and documentation of their medical condition to the Section 504/ADA Coordinator for review. The documentation of a medical condition may be from a licensed medical doctor, psychologist, audiologist, speech pathologist, registered nurse, licensed clinical social worker, marriage and family therapist, rehabilitation counselor, physical therapist, learning disability specialist, or other appropriate health professional. This documentation is denied, the student is informed of their right to appeal the decision and the necessary steps to file an appeal.

To file an appeal the student should supply documentation and/or other evidence to substantiate the need for the denied accommodation(s). The evidence is submitted to the Section 504/ADA Coordinator with a new accommodation form marked appeal.

DISABILITY GRIEVANCE PROCEDURE

A student initiates the Disability Grievance Procedure by contacting the Section 504/ADA Coordinator. The Section 504/ADA Coordinator will explain the complaint procedures and assist the student in filing a complaint. The complaint need only be a written letter containing allegations that specifically identify the discriminatory conduct, the person(s) who did it, and all witnesses the student believes can support the allegations. A complaint should be made as soon as the student believes he/she has been discriminated against, but no later than within 180 days of the date that the alleged discrimination occurred, or the date on which the student could reasonably have learned of the discrimination.

When a complaint is filed, the Section 504/ADA Coordinator begins an investigation within 14 days. The student, the accused, and any witnesses they identify are interviewed. Any relevant documents identified by these persons are reviewed. Within 45 days of the complaint, the Section 504/ADA Coordinator informs the student and accused in writing of sufficient or insufficient evidence to confirm the student's allegations, states the key facts, reasons why that conclusion was reached, and outlines any proposed resolution or corrective action if applicable. The student is also notified of the right to appeal the investigation conclusion. An appeal must be made in writing to the CCi Director of

Academic Services, who may be reached at the Student Help Line number or email address below within 15 days of receiving notice about the investigation conclusion. Within 15 days of receiving the appeal, the CCi Director of Academic Services reviews the matter and provides a decision in writing.

Complaints are investigated in a manner that protects the privacy and confidentiality of the parties to the extent possible. No employee or agent of the school may intimidate, threaten, coerce or otherwise discriminate or retaliate against any individual because he or she has filed a complaint or participated in the complaint resolution process. If a student believes any such retaliation has occurred, a complaint of retaliation should be filed according to the procedure described above.

If the 504/ADA Coordinator is the subject of the grievance, the student should contact the Student Help Line at (800) 874-0255 or via email at <u>StudentServices@cci.edu</u>. The Student Helpline in consultation with the appropriate Academic Services team member(s) will provide guidance to the student for initiating and submitting their grievance in writing to <u>StudentServices@cci.edu</u>.

CODE OF STUDENT CONDUCT

The Code of Student Conduct applies at all times to all students. As used in this Code, a student is any individual who has been accepted or is enrolled in school. Student status lasts until an individual graduates, is withdrawn, or is otherwise not in attendance for more than 180 consecutive calendar days.

Everest seeks to create an environment that promotes integrity, academic achievement, and personal responsibility. All schools should be free from violence, threats and intimidation, and the rights, opportunities, and welfare of students must be protected at all times.

To this end, the following Code of Student Conduct sets forth the standards of behavior expected of students as well as the process that must be followed when a student is accused of violating those standards. Reasonable deviations from the procedures contained herein will not invalidate a decision or proceeding unless, in the sole discretion of the school, the deviation(s) significantly prejudice the student. The Campus President (or designee) is responsible for appropriately recording and enforcing the outcome of all disciplinary matters.

Conduct Affecting the Safety of the Campus Community

Everest reserves the right to take all necessary and appropriate action to protect the safety and well-being of the campus community. The Campus President (or designee) may immediately suspend any student whose conduct threatens the health and/or safety of any person(s) or property. The suspension shall remain in effect until the matter is resolved through the disciplinary process. Such conduct includes, but is not limited to:

- Possessing alcohol or other intoxicants, drugs, firearms, explosives, weapons, dangerous devices, or dangerous chemicals on school premises
- Theft
- Vandalism or misuse of school or another's property
- Harassment or intimidation of others
- Endangerment, assault, or infliction of physical harm

Other Prohibited Conduct

Additionally, disciplinary action may be initiated against any student(s) based upon reasonable suspicion of attempting to commit, or assisting in the commission of any of the following prohibited forms of conduct:

- Cheating, plagiarism, or other forms of academic dishonesty
- Forgery, falsification, alteration or misuse of documents, funds, or property
- Any disruptive or obstructive actions, including:
 - The use of cell phones or other electronic devices for voice or text communication in the classroom, unless permitted by the instructor
 - The inappropriate use of electronic or other devices to make an audio, video, or photographic record of any person while on school premises without his/her prior knowledge or effective consent
- Failure to comply with school policies or directives
- Any other action(s) that interfere with the learning environment or the rights of others
- Violations of local, state, provincial, or federal law

Note: This list is not exhaustive, but rather offers examples of unacceptable behavior which may result in disciplinary action.

Limitations on Students with Pending Disciplinary Matters

Any student with a pending disciplinary matter shall not be allowed to:

- Enroll or attend classes at another Corinthian Colleges Inc. (CCi) school
- Graduate or participate in graduation ceremonies; or
- Engage in any other activities proscribed by the Campus President

Additionally, if a student withdraws from school at any point during the disciplinary process, the student is not eligible for readmission to any CCi school prior to resolving the outstanding disciplinary issue.

Inquiry by the Campus President

If the Campus President (or designee), in his or her sole discretion, has reason to believe that a student has violated the Code of Student Conduct, the Campus President (or designee) shall conduct a reasonable inquiry and determine an appropriate course of action. If the Campus President (or designee) determines that a violation has not occurred, no further action shall be taken.

Conduct Which Does Not Warrant a Suspension or Dismissal

If the Campus President (or designee), in his or her sole discretion, determines that the student's behavior may have violated this Code but does not warrant a suspension or dismissal, the Campus President (or designee) shall promptly provide the student with a written warning. Multiple written warnings may result in a suspension or dismissal.

Conduct Which Warrants a Suspension or Dismissal

If the Campus President (or designee), in his or her sole discretion, determines that the student's behavior warrants a suspension or dismissal, the Campus President (or designee) shall promptly provide the student with a written notice of the following:

- The conduct for which the sanction is being imposed;
- The specific sanction being imposed; and
- The right to appeal if a written request is filed by the student within (5) calendar days of the date of the written notice.

ALCOHOL AND SUBSTANCE ABUSE STATEMENT

Everest does not permit or condone the use or possession of marijuana, alcohol or any other illegal drug, narcotic or controlled substance by students. Possession of these substances on campus is cause for dismissal.

STUDENT USE OF INFORMATION TECHNOLOGY RESOURCES POLICY

IT resources may only be used for legitimate purposes, and may not be used for any other purpose which is illegal, unethical, dishonest, damaging to the reputation of the school, or likely to subject the school to liability. Impermissible uses include, but are not limited to:

- Harassment;
- Libel or slander;
- Fraud or misrepresentation;
- Any use that violates local, state/provincial, or federal law and regulation;
- Disruption or unauthorized monitoring of electronic communications;
- Disruption or unauthorized changes to the configuration of antivirus software or any other security monitoring software;
- Unauthorized copying, downloading, file sharing, or transmission of copyright-protected material, including music;
- Violations of licensing agreements;
- Accessing another person's account without permission;
- Introducing computer viruses, worms, Trojan Horses, or other programs that are harmful to computer systems, computers, or software;
- The use of restricted access computer resources or electronic information without or beyond a user's level of authorization;
- Providing information about or lists of CCi users or students to parties outside CCi without expressed written permission;
- Downloading or storing company or student private information on portable computers or mobile storage devices;
- Making computing resources available to any person or entity not affiliated with the school;
- Posting, downloading, viewing, or sending obscene, pornographic, sexually explicit, hate related, or other offensive material;
- Academic dishonesty as defined in the Code of Student Code;
- Use of CCi logos, trademarks, or copyrights without prior approval;
- Use for private business or commercial purposes.

COPYRIGHT POLICY

It is the intention of Everest to strictly enforce a policy of zero tolerance for copyright violations and to comply with all applicable laws and regulations. Any student who engages in the unauthorized distribution of copyrighted material, including unauthorized peer-to-peer file sharing, is subject to disciplinary actions by the school, or any applicable actions in conjunction with federal and state law.

SEXUAL HARASSMENT POLICY

Everest strives to provide and maintain an environment free of all forms of harassment. Behavior toward any student by a member of the staff, faculty or student body that constitutes unwelcome sexual advances will be dealt with quickly and vigorously and will result in disciplinary action up to and including dismissal. Any student who believes that he or she is a victim of sexual harassment should immediately notify the office of the Campus President. The Campus President will conduct an investigation of all allegations. Information surrounding all complaints will be documented and kept strictly confidential.

SANCTIONS

Sanctions should be commensurate with the nature of the student's conduct. All sanctions imposed should be designed to discourage the student from engaging in future misconduct and whenever possible should draw upon educational resources to bring about a lasting and reasoned change in behavior.

Suspension – A sanction by which the student is not allowed to attend class for a specific period of time. Satisfactory completion of certain conditions may be required prior to the student's return at the end of the suspension period. During a period of suspension, a student shall not be admitted to any other CCi school.

Note: Student absences resulting from a suspension shall remain in the attendance record regardless of the outcome of any disciplinary investigation or the decision of the Student Conduct Committee.

Dismissal – A sanction by which the student is withdrawn from school. Such students may only reapply for admission with the approval of the Campus President. Students dismissed from the school remain responsible for any outstanding balance owed to the school.

APPEAL PROCESS

Students are entitled to appeal any sanction which results in suspension or dismissal. The appeal must be in writing and filed within five (5) calendar days of the date of the written notice. If the student files a timely appeal, the Campus President (or designee) shall convene a Student Conduct Committee to conduct the hearing. The Committee shall generally include the Campus President, the Academic Dean/Director of Education, a Program or Department Chair, the Student Services Coordinator, or a faculty member. The members of the Committee shall select a Chair. If the alleged violation involves allegations of sexual misconduct committee against faculty or staff, the Committee must include a representative from Corporate or Division Human Resources.

The Committee Chair shall timely schedule a hearing date, and provide written notice to the student. The notice must be mailed or otherwise delivered to the student at least two (2) calendar days prior to the scheduled hearing date, and include notice that the student may:

- Appear in person, but is not required to appear
- Submit a written statement
- Respond to evidence and question the statements of others
- Invite relevant witnesses to testify on his/her behalf
- Submit written statements signed by relevant witnesses

Attendance at the hearing is limited to those directly involved or those requested to appear. Hearings are not open to the public and are not recorded.

The Student Conduct Committee shall:

- Provide the student a full and reasonable opportunity to explain his/her conduct
- Invite relevant witnesses to testify or submit signed statements
- Reach a decision based upon the information submitted prior to the hearing and the testimony and information of the student and witnesses at the hearing
- If the student does not appear, or elects not to appear, the Committee may proceed in the student's absence and the decision will have the same force and effect as if the student had been present

The Student Conduct Committee shall issue a written decision to the student within five (5) calendar days of the date of the hearing which may:

- Affirm the finding and sanction imposed by the Campus President (or designee)
- Affirm the finding and modify the sanction. Sanctions may only be reduced if found to be grossly disproportionate to the offense
- Disagree with the previous finding and sanction and dismiss the matter. A matter may be dismissed only if the original finding is found to be arbitrary and capricious

The decision of the Student Conduct Committee is final, and no further appeal is permitted.

RECORD OF DISCIPLINARY MATTER

All disciplinary files shall be kept separate from the student academic files until resolved. Disciplinary files for students who have violated the Code of Student Conduct shall be retained as part of the student's academic file and considered "education records" as appropriate, pursuant to the Family Educational Rights and Privacy Act (FERPA). Disciplinary records shall be retained in the student's academic file permanently and a note shall be included in the official student information system indicating the date of the disciplinary decision and the sanction imposed.

When circumstances warrant, disciplinary matters shall be referred to the appropriate law enforcement authorities. Additionally, disciplinary records shall be reported to third parties as applicable (e.g. Veteran's Administration).

STUDENT COMPLAINT PROCEDURE

Complaints are defined as any student concern regarding school programs, services, or staff not addressed by other school policies. Students have the right to file a complaint with the school at any time. Students are encouraged to first attempt to informally resolve their complaint with the instructor or staff member in the department most directly connected with their complaint. Students who are unable to resolve their complaint informally should submit their complaint in writing to the School President. The President will meet with the student to discuss the complaint and provide the student with a written response within seven (7) calendar days of the meeting. Students who are not satisfied with the response of the President may contact the Student Help Line at (800) 874-0255 or email at studentservices@cci.edu.

If a student feels that the school has not adequately addressed a complaint or concern, the student may consider contacting the Accrediting Council for Independent Colleges and Schools. All complaints considered by the Council must be in written form, with permission from the complainant(s) for the Council to forward a copy of the complaint to the school for a response. The complainant(s) will be kept informed as to the status of the complaint as well as the final resolution by the Council. Please direct all inquiries to:

Accrediting Council for Independent Colleges and School 750 1st Street NE, Suite 980 Washington, DC 20002 (202) 336-6780, (202) 842-2593 (fax)

Students may also contact and file a complaint with the state's agency and the state's Attorney General's office at the following mailing addresses:

The Commission for Independent Education Florida Department of Education 325 West Gaines Street, Suite #1414 Tallahassee, FL 32399-0400 Toll free number (888) 224-6684 Office of the Attorney General PL-01 The Capitol Tallahassee, FL 32399-1050 Ph: 850-414-3990 Toll Free within Florida: 866-966-7226 Website: http://myfloridalegal.com

DRESS CODE

Students must adhere to the campus dress code standards and are expected to dress in a manner that would not be construed as detrimental to the student body, the educational process or wear any clothing which has expressed or implied offensive symbols or language. Students should always be cognizant of the first impression of proper dress code and grooming, and note that Everest promotes a business atmosphere where instructors and guests are professionals and potential employers. In addition, students may be required to wear uniforms that present a professional appearance.

NOTIFICATION OF RIGHTS UNDER FERPA

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records*. These rights include:

1. The right to inspect and review the student's education records within 45 days of the day the institution receives a request for access.

A student should submit to the Registrar's Office a written request that identifies the record(s) the student wishes to inspect. The Registrar will make arrangements for access and will notify the student of the time and place where the records may be inspected. If the records are not maintained by the Registrar, the Registrar shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student's education records that the student believes are inaccurate, misleading or otherwise in violation of the student's privacy rights under FERPA.

A student who wishes to ask the institution to amend a record should write to the Registrar, clearly identify the part of the record the student wants changed, and specify why it should be changed.

If the institution decides not to amend the record as requested, the institution will notify the student in writing of the decision and the student's right to a hearing regarding the request for amendment. Additional

information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to provide written consent before the institution discloses personally identifiable information from the student's education records, except to the extent that FERPA authorizes disclosure without consent. The institution discloses education records without a student's prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interests. A school official is a person employed by the institution in an administrative, supervisory, academic or research, or support staff position; a person or company with whom the institution has contracted as its agent to provide a service instead of using institution employees or officials (such as an attorney, auditor, collection agent, campus security personnel and a health provider); a person serving the institution in an advisory capacity; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks, or an accreditor or an official of the state's department of education. Please note that in certain circumstances, such as with an infectious disease health threat or security threat, the school may disclose individually identifiable information without notice.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for the institution.

Upon request, the institution also discloses education records without consent to officials of another school in which a student seeks or intends to enroll.

From time to time the institution publishes communications, such as graduation and honor roll lists that include students' names and programs of study. A student who wishes not to be included should put that request in writing to the Registrar.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the institution to comply with the requirements of FERPA. The name and address of the office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C. 20202

*The school does not publish a directory of education records.

STUDENT RECORDS

All student academic records are retained, secured, and disposed of in accordance with local, state, and federal regulations. Everest maintains complete records for each student, including grades, attendance, prior education and training, placement, financial aid and awards received. Student records should be maintained on campus for five years.

TRANSCRIPT AND DIPLOMA RELEASE

Student academic transcripts are available upon written request by the student. Student records may be released only to the student or his/her designee as directed by the Family Educational Rights and Privacy Act of 1974.

Transcript and diploma requests must be made in writing to the Office of the Registrar. Official transcripts will be released to students who are current with their financial obligation to the school. Diplomas will be released to students who are current with their financial obligation upon completion of their school program.

CAMPUS SECURITY AND CRIME AWARENESS POLICIES

As required by Public Law 101-542, as amended by Public Law 102-325, Title II, Crime Awareness and Campus Security Act of 1990, Section 294, Policy and Statistical Disclosures, Everest has established policies regarding campus security.

Everest strives to provide its students with a secure and safe environment. Classrooms and laboratories comply with the requirements of the various federal, state and local building codes, with the Board of Health and Fire Marshal regulations. Most campuses are equipped with alarm systems to prevent unauthorized entry. Facilities are opened each morning and closed each evening by administrative personnel.

In emergency situations, students should call 911 for an immediate response from the local law enforcement agency. Thereafter, the crime should be reported to the Campus President (or designee). In non-emergency situations, the crime should be reported as soon as possible to the Campus President (or designee) and the local law enforcement agency. All students are encouraged to report all crimes and public safety incidents to the Campus President (or designee) in a timely manner. The Campus President (or designee) shall document each incident reported and determine an appropriate response based on the nature of the incident. All victims of crime that occur on campus shall be provided with the opportunity to report the incidents to the local law enforcement authority.

Students are responsible for their own security and safety both on-campus and off-campus and must be considerate of the security and safety of others. The school has no responsibility or obligation for any personal belongings that are lost, stolen or damaged, whether on or off school premises or during any school activities.

On May 17, 1996, the President of the United States signed Megan's Law into federal law. As a result, local law enforcement agencies in all 50 states must notify schools, day care centers, and parents about the presence of dangerous offenders in their area. Students are advised that the best source of information on the registered sex offenders in the community is the local sheriff's office or police department. The following link will provide you with a list of the most recent updated online information regarding registered sex offenders by state and county: http://www.fbi.gov/hg/cid/cac/registry.htm.

DRUG-FREE SCHOOLS POLICY

The Drug-Free Schools and Communities Act of 1989, Public Law 101-226, requires institutions receiving financial assistance to implement and enforce drug prevention programs and policies. Students shall receive a copy of the Drug-Free Schools/Drug-Free Workplace Annual Disclosure upon enrollment, and thereafter no later than January 31st of each calendar year they are enrolled. The information and referral line that directs callers to treatment centers in the local community is available through Student Services.

Everest prohibits the manufacture and unlawful possession, use or distribution of illicit drugs or alcohol by students on its property and at any school activity. If students suspect someone to be under the influence of any drug or alcohol, they should immediately bring this concern to the attention of the Academic Dean/Director of Education or Campus President. Students who violate the school's prohibitions against alcohol, controlled substances, and drugs are subject to disciplinary action up to and including dismissal from the school. Information on the disciplinary process may be found in the school catalog. When circumstances warrant, a violation of this policy may also be referred to the appropriate law enforcement authorities.

In certain cases, students may be referred to counseling sources or substance abuse centers. If such a referral is made, continued enrollment is subject to successful completion of any prescribed counseling or treatment program.

STATISTICAL INFORMATION

Everest is required to report to students the occurrence of various criminal offenses on an annual basis. On or before October 1st of each year, the school will distribute a security report to students containing the required statistical information on campus crimes committed during the previous three years. A copy of this report is available to prospective students upon request.

CAMPUS COMPLETION RATE REPORTS

Under the Student Right to Know Act (20 U.S.C. § 1092(a)), Everest is required to annually prepare completion or graduation rate data respecting the institution's first-time, full-time undergraduate students (34 CFR 668.45(a)(1)). Everest is required to make this completion or graduation rate data readily available to students approximately 12 months after the 150% point for program completion or graduation for a particular cohort of students. This completion rate report is available to students and prospective students upon request.

STUDENT SERVICES

ORIENTATION

New students participate in an orientation program prior to beginning classes. This program is designed to acquaint students with the policies of the school and introduce them to staff and faculty members who will play an important part in the students' academic progress.

HEALTH SERVICES

Everest does not provide health services.

HOUSING

Everest does not provide on-campus housing; however, it does assist students in locating suitable housing off campus. For a list of available housing, students should contact the Student Services Department.

STUDENT ADVISING

Academic advising is coordinated by the Academic Dean/Director of Education and includes Satisfactory Academic Progress and attendance. The Registrar and Academic Program Directors serve as advisors and assist students in course selection and registration, dropping and adding courses, change of major, and meeting graduation requirements.

EVEREST CARE PROGRAM

The Everest CARE Student Assistance Program is a free personal-support program for our students and their families. This program provides enrolled students direct and confidential access to professional counseling. For more information, please visit the website <u>http://www.everestcares.com</u> or call (888) 852-6238.

PLACEMENT ASSISTANCE

Everest maintains an active Career Services Office to assist graduates in locating entry-level, educationally related career opportunities. The Career Services Office works directly with business, industry, and advisory board members to assist all students with access to the marketplace. Everest does not, in any way, guarantee employment. It is the goal of the Career Services Office to help all students realize a high degree of personal and professional development and successful employment. Specific information on job opportunities and basic criteria applicable to all students and graduates utilizing placement services is available in the Career Services Office.

DENTAL ASSISTANT

Diploma Program 33 Weeks – 760 Hours, 48 Credit Units

V 1.0

Dental assistants have become indispensable to the dental care field, and dentists have become more reliant upon the dental assistant to perform a wide range of patient procedures. And, as the need for their services continue to grow, the role and responsibilities of the dental assistant also continue to expand.

The goal of the Dental Assistant Program is to provide graduates with the skills and knowledge that will enable them to qualify for entry-level positions as dental assistants. Since they are trained in clinical and radiographic procedures, their services are also sought by general dentists and dental offices and facilities specializing in pedodontics, orthodontics, endodontics and other specialties, dental schools, dental supply manufacturers, hospital dental departments, dental laboratories, and insurance companies.

The objective of the Dental Assistant program is to provide the student with the appropriate didactic theory and hands-on skills required and necessary to prepare them for entry-level positions as dental assistants in today's modern health and dental care offices, dental clinics, and facilities. Students will study diagnostic and procedural terminology as it relates to the accurate completion of dental examinations, procedures, and daily tasks.

The combination of introduced skills taught in this program will prepare students for the ever-changing field of dentistry and orthodontics. Students study dental radiography, dental sciences, operatory dentistry, laboratory procedures, dental anatomy and orthodontics, and dental health.

Completion of the Dental Assistant Program, including the classroom training and externship, is acknowledged by the awarding of a diploma.

Module Code	Modular Title	Contact Hours	Quarter Credit Units

	Total	760	48

Module A – Dental Office Emergencies and Compliance

6 Quarter Credit Units

In this module, students are introduced to Occupational Safety and Health Administration (OSHA) Standards for infection control and hazard communication. Topics include microbiology, contagious diseases concerning the dental team, universal precautions, barrier techniques, and handling hazardous chemicals. Students practice stepby-step instrument decontamination using approved sterilization agents and methods. Students learn operatory disinfection using approved agents and methods. Methods for taking and recording vital signs and blood pressure are introduced. Students also learn about CPR for the health care provider and how to manage emergencies that may occur in the dental office. Dental practice act and administrative code are studied. Related dental terminology is studied. Basic concepts of psychology and communication are discussed with emphasis on helping dental patients overcome anxieties related to dental treatment. Special considerations for the medically and physically compromised patients are presented. Students are introduced to front office procedures utilizing related front office software. Career development skills are also taught. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: None. Lec Hrs: 040 Lab Hrs: 040 Other Hrs: 000. Outside hours: 20

Module B – Dental Radiography

6 Quarter Credit Units

In this module students are introduced to the basic anatomy of the head and teeth in order to familiarize students with the anatomical structures involved in dental radiographs. Radiation protection and the hazards of X-ray radiation are studied. Emphasis is placed on maintaining radiation safety while obtaining the best possible diagnostic quality on dental radiographs. Students are also introduced to digital radiography. Theory, laboratory skills, and clinical practice meet state guidelines for a Radiation Safety Certificate and comply with federal regulations for certifying radiographic operators. Students practice techniques of film exposure and mounting in equipped dental operatories with industry-approved structural and monitoring devices. Exposure techniques include bitewing, bisecting, and parallel techniques and are performed on a patient simulator manikin. Upon successful completion of practice, students produce radiographs on site for clinical patients as prescribed by a licensed dentist. Students process film using a fully equipped darkroom or automatic processor. Students are also required to mount processed radiographs and to evaluate the diagnostic quality according to established criteria. Students retake non-diagnostic films. Professional responsibilities regarding the state radiation safety certificate are introduced as well as

quality assurance and infection control. Students are introduced to front office procedures utilizing related front office software. Related dental terminology is also taught. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: None. Lec Hrs: 040 Lab Hrs: 040 Other Hrs: 000. Outside hours: 20

Module C – Dental Specialties

6 Quarter Credit Units

In this module, students study cranial anatomy as it relates to anesthesia administration and pain control. Methods for taking and recording vital signs and blood pressure are introduced. Skills performed by the dental assistant in the specialty areas of Oral Surgery and Endodontics (root canals) are presented, including procedures for the administration of topical and local anesthetics. Students assist with the administration of nitrous oxide analoesia in simulation manikins. Students practice acquired skills on training manikins (Typodonts), placing instruments and materials. Children's dentistry (Pedodontics) as a specialty is presented. Students are introduced to front office procedures utilizing related front office software. Related dental terminology is studied. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: None. Lec Hrs: 040 Lab Hrs: 040 Other Hrs: 000. Outside hours: 20

Module D – Operatory Dentistry

This module introduces students to chair-side assisting duties and techniques practiced in general dentistry with emphasis on sit-down, four-handed dentistry. Students learn how to handle and transfer dental instruments and place materials on models. Properties and manipulation of common dental materials, including amalgam, composites, glass ionomers, and sealants, are presented. Students practice required procedures such as placement, wedging and removal of matrices, placement of cement bases and liners, and placement of temporary sedative dressing on typodont manikins. Basic concepts of psychology and communication are discussed with emphasis on helping dental patients overcome anxieties related to dental treatment. Students are introduced to front office procedures utilizing related front office software. Students also study related dental terminology. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: None. Lec Hrs: 040 Lab Hrs: 040 Other Hrs: 000. Outside hours: 20

Module E – Laboratory Procedures

In this module, students receive hands-on training in taking impressions and constructing study and master casts. Students are exposed to a variety of impression and gypsum materials and procedures for their use. The casts are then used to practice dental procedures such as the fabrication of custom trays and temporary crowns. Prosthodontics as a specialty is presented with instruction in crown and bridge procedures and full and partial dentures. Students are introduced to dental implants and the various types of mouth guards such as night guards, sports guards, and bleaching trays. Laboratory safety and infection control are presented. Students are introduced to front office procedures utilizing related front office software. Related dental terminology is studied. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: None. Lec Hrs: 040 Lab Hrs: 040 Other Hrs: 000. Outside hours: 20

Module F – Dental Anatomy and Orthodontics

This module focuses on orthodontics as a specialty. Students receive hands-on training in practicing orthodontic measurements, placement of separators, sizing bands and placement and ligation of arch wires. Theory on orthodontic assistant duties, office routine and malocclusion classifications are presented. In addition, students learn to chart the oral conditions of patients in compliance with state guidelines for mouth mirror inspection. Introduction of tooth morphology, oral structures, and oral pathology are presented. Students are introduced to front office procedures utilizing related front office software. Related spelling and terminology is studied throughout the module. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: None. Lec Hrs: 040 Lab Hrs: 040 Other Hrs: 000. Outside hours: 20

Module G – Dental Health

6 Quarter Credit Units

6 Quarter Credit Units

Specialty areas of oral pathology and periodontics are studied. Placement of periodontal surgical dressings is demonstrated and practiced on manikins according to state criteria. Preventive dentistry is emphasized. Related areas of nutrition and fluorides are presented. Students also study related dental terminology. Students will learn pit and fissure sealants. Theory, laboratory skills, and clinical practice meet state guidelines for a Pit and Fissure Sealant and comply with programmatic regulations. Coronal polish theory and procedures are taught and practiced on manikins and then on clinical patients under the direct supervision of a licensed dentist. Completion of Coronal Polish and Pit and Fissure Sealants requirements will permit the assistant to perform the procedure after obtaining Diploma of completion. Students are introduced to front office procedures utilizing related front office software. Students are introduced to Related terminology is studied. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: None. Lec Hrs: 040 Lab Hrs: 040 Other Hrs: 000. Outside hours: 20

Module X – Dental Assistant Externship

6 Quarter Credit Units This module is 200 hours of unpaid, supervised, practical in-service in a dental office or clinic in which the student practices direct application of all administrative and clinical functions of dental assisting. Externs work under the direct supervision of gualified personnel and under general supervision of the school staff. Supervisory personnel will evaluate externs at 80, 160 and 200-hour intervals. Completed evaluation forms are placed in the students' permanent records. Students must successfully complete their externship training in order to fulfill requirements for graduation. Prerequisite: Completion of Modules A-G. Lec Hrs: 0.0 Lab Hrs: 0.0 Other Hrs: 200

6 Quarter Credit Units

6 Quarter Credit Units

MASSAGE THERAPY

Diploma Program 36 Weeks – 750 Hours, 55 Credit Units

V 3.0

The Massage Therapy program is designed to provide the student with the necessary tools required to successfully enter the massage industry. Whether it is a day spa, physician's office, health club, or resort, graduates of this program will have acquired all the tools needed to thrive in this exciting new career.

This 750-hour program consists of one pre-requisite course, eight self-contained units of learning called modules, and a 30-hour clinic, which the student must complete before they graduate. Each student must successfully complete the pre-requisite course before moving on to any one of the remaining modules in the program. Included in this program are 225 hours of Anatomy and Physiology, as well as introduction to principles and practices of massage therapy, massage fundamentals, massage and bodywork, pathology, business and success skills, and health and wellness. Upon the successful completion of this program, graduates will have received the education necessary to attain a career in one of the most engaging and exciting fields today. The graduate may work in an entry-level position as a massage therapist in a variety of health care facilities, including, but not limited to, a massage clinic, hospital, chiropractic office, nursing home, health club, spa, resort, or in private practice. Massage therapists may be employed in urban, suburban, and rural areas.

In order to practice massage therapy in the state of Florida, students must pass the National Certification Exam for Therapeutic Massage and Bodywork (NCBTMB), National Certification Exam for Therapeutic Massage (NCETM), or the Massage and Bodywork Licensing Exam (MBLEx). In addition, students must apply for licensing through the state of Florida, which includes passing a criminal background check.

	Total	750	55

*Massage Therapy Clinic hours are to be scheduled throughout the last three modules of training. Courses comply with the requirements of the Florida Board of Massage Therapy:

MTD100 – Introduction to Massage Therapy

6 Quarter Credit Hours

This course is designed to prepare the student for future course work in more advanced modalities presented in the program. The topics covered in this course are joint classification, range of motion of the shoulder, Western theory and history, the benefits of massage therapy on the body systems, classification of massage movements, draping procedures, the client consultation, procedures for a complete body massage, the skeletal system, the muscular system, general structural plan of the body, movement and directional terms, and indications/contraindications for massage therapy. Out-of-class activities will be assigned and assessed as part of this module. *Prerequisites: None* Lecture Hours: 40.0 Lab Hours: 40.0 Outside Hours: 20.0

MTD201 – Business and Ethics

6 Quarter Credit Hours

This module is designed to provide students with an understanding of the job opportunities in the massage industry, while building core computer and business skills. Professionalism, ethical practice, and the law as it relates to massage and communication are discussed. Also covered are clinical practice in Swedish massage and chair massage. Out-of-class activities will be assigned and assessed as part of this module. *Prerequisites: MTD100* Lecture Hours: 40.0 Lab Hours: 40.0 Outside Hours: 20.0

MTD237 - Swedish Massage, Pre-Natal, Post-Natal and Infant, & Elder/Geriatric Massage

6 Quarter Credit Hours This module is designed to provide the student with the theory and hands-on skills involved in practicing Swedish massage. Also covered in this module is range-of-motion for hip, pre-natal, post-natal, infant, and elder/geriatric massage. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: MTD100 Lecture Hours: 40.0 Lab Hours: 40.0 Outside Hours: 20.0

MTD263 – Eastern Theory and Practice

6 Quarter Credit Hours

6 Quarter Credit Hours

This module is designed to provide the student with the understanding and knowledge of Eastern theory and practice as used within different styles of Asian bodywork. The student will also learn the immune and lymphatic systems. For specific musculature covered in this module please refer to the anatomy and physiology outline. Outof-class activities will be assigned and assessed as part of this module. *Prerequisites: MTD100* Lecture Hours: 40.0 Lab Hours: 40.0 Outside Hours: 20.0

MTD220 – Energy & Non-Traditional Therapies, Wellness & CPR

This module is designed to provide the student with the theory and hands-on skills involved in introducing fundamental energy-based modalities including polarity and beginning Reiki hand placements. The student will be introduced to basic health and wellness concepts including CPR. This module will also provide the student with the understanding of the integumentary system and musculature of the forearms and hands. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: MTD100 Lecture Hours: 40.0 Lab Hours: 40.0 Outside Hours: 20.0

MTD282 – Deep Tissue, Myofascial Release & Pin and Stretch

This module is designed to provide students with an understanding of myofascial, deep tissue, and pin and stretch techniques. These techniques will be incorporated into a Swedish massage to better address individual client needs. Students will use basic assessment skills to identify muscular holding patterns and develop treatment plans. The indications and contraindications of these techniques will be discussed as will specific sights of caution for deep tissue massage. In addition, students will develop an understanding of the digestive system, urinary system, and the anterior neck muscles. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: MTD100 Lecture Hours: 40.0 Lab Hours: 40.0 Outside Hours: 20.0

MTD214 - Neuromuscular/Trigger Point and Muscle Energy Techniques,

This module is designed to provide the student with understanding and knowledge of neuromuscular therapy (NMT)/trigger point therapy and muscle energy techniques (MET) along with the assessment skills necessary for these modalities. The student will also learn about the structure and function of the nervous system and review the muscles of the shoulder. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: MTD100 Lecture Hours: 40.0 Lab Hours: 40.0 Outside Hours: 20.0

MTD246 – Clinical and Sports Massage

6 Quarter Credit Hours This module is designed to provide the student with the understanding and knowledge of clinical and sports massage techniques and the assessment skills necessary for these modalities. The student will also learn the assessment skills, charting/documentation, clinical applications, and focus within the endocrine system with a review of the nervous system (CNS/PNS). For specific musculature covered for this module please refer to the anatomy and physiology outline. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: MTD100 Lecture Hours: 40.0 Lab Hours: 40.0 Outside Hours: 20.0 6 Quarter Credit Hours

MTD295 – Health and Wellness

This module is designed to provide the student with an overall understanding of the skills involved in working in spa services and in working with specific strategies to enhance good health and wellness. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: MTD100 Lecture Hours: 40.0 Lab Hours: 40.0 Outside Hours: 20.0

MTD278 – Massage Therapy Clinic

1 Quarter Credit Hour

This course is designed to provide the student with a realistic, hands-on view and experience of working in the field by participating in a real massage therapy clinic or 'mock' clinic environment. The clinic provides the students an opportunity to enhance skills learned and practiced from instruction. This course is a continuation of supervised clinical practice integrating the principles of Swedish massage, chair massage, and adjunctive therapeutic modalities. Students are afforded the opportunity to practice their massage and evaluation skills on a diverse group of subjects. Prerequisites: Successful Completion of 6 Modules Lecture Hours: 00.0 Lab Hours: 30.0 Other Hours: 00.0

6 Quarter Credit Hours

6 Quarter Credit Hours

MEDICAL ADMINISTRATIVE ASSISTANT Diploma Program

33 Weeks – 760 Hours, 48 Credit Units

The objective of the Medical Administrative Assistant program is designed to prepare students for entry-level positions as medical administrative assistants in a variety of health care settings. Students study various administrative procedures related to the medical office. Students will learn accounting functions essential to a medical environment, set up patient records and maintain all filing and record keeping, basics of coding with CPT and ICD-9 codes, preparation and processing insurance claims, dictation and transcription, correspondence and mail processing and computerized practice management. In addition to acquiring manual and hands-on administrative skills, the program is designed to teach students computer and keyboarding skills which enables them to become familiar with the computerized technology that is becoming more visible in the twenty-first century medical office environment.

Module Code	Modular Title	Contact Hours	Quarter Credit Units
Module A	Office Finance	80	6
Module B	Patient Processing and Assisting	80	6
Module C	Medical Insurance	80	6
Module D	Insurance Plans and Collections	80	6
Module E	Office Procedures	80	6
Module F	Patient Care and Computerized Practice Management	80	6
Module G	Dental Administrative Procedures	80	6
Module X	Medical Administrative Assistant Externship	200	6
	Total	760	48

Module A—Office Finance

6 Quarter Credit Hours

V 1.0

Module A introduces accounting functions essential to a medical environment. Students learn basic bookkeeping procedures and apply them to a bookkeeping project and accounting system. Students will also complete assignments writing payroll checks and keeping check registers. Patient billing is an integral portion of the module, including tracing delinquent claims and insurance problem solving. Students study essential medical terminology, build on keyboarding and word processing skills, and become familiar with the self-directed job search process by learning how to cultivate the right on-the-job attitude, assembling a working wardrobe and identifying the strategies it takes to become the best in your new job so that you can advance in your career. They also become familiar with essential medical terminology Out-of-class activities will be assigned and assessed as part of this module. *Prerequisites: None* Lecture Hours: 40.0; Lab Hours: 40.0 Outside Hours: 20.0

Module B—Patient Processing and Assisting

6 Quarter Credit Hours

In Module B, students learn to set up patient records and maintain and organize them manually and electronically. Students become familiar with records management systems and develop skills in alphabetic filing and indexing, and appointment scheduling. The basics of health insurance are introduced, as well the basic of coding with CPT and ICD-9 codes. Students are trained in vital signs, and a cardiopulmonary resuscitation (CPR) course is taught. Students study essential medical terminology, build on keyboarding and word processing skills, and become familiar with the self-directed job search process by identifying their personal career objective. Out-of-class activities will be assigned and assessed as part of this module. *Prerequisites: None* Lecture Hours: 40.0; Lab Hours: 40.0 Outside Hours: 20.0

Module C—Medical Insurance

6 Quarter Credit Hours

Module C develops student proficiency in preparing and processing insurance claims. Students study insurance programs, including HMOs, PPOs, and worker's compensation plans. National coding systems used for claims processing are studied. Students learn to obtain information from patient charts and ledgers to complete insurance forms accurately. Students are given hypothetical insurance billing situations and select appropriate forms, codes, and procedures to process insurance claims for optimal reimbursement. Office & insurance collection strategies are also included. Students study essential medical terminology, build on keyboarding and word processing skills, and become familiar with the self-directed job search process by developing career networking techniques that will assist you in being successful in the medical field. Out-of-class activities will be assigned and assessed as part of this module. *Prerequisites: None* Lecture Hours: 40.0; Lab Hours: 40.0 Outside Hours: 20.0

Module D—Insurance Plans and Collections	6 Quarter Credit Hours
Module D develops student proficiency in preparing and processing insurance cl	aims. The Medicaid, Medicare,
TRICARE, and CHAMPVA programs are discussed. Students learn to obtain info	ormation from patient charts and
ledgers to complete insurance forms accurately. They also focus on important a	spects of the collection process
including collection letters, telephone calls, and collection servicing agencie	
Occupational Safety and Health Administration (OSHA) standards and the use	
medical office. Medical ethics and law are also included. Students study essenti	
keyboarding and word processing skills, and become familiar with the self-d	
identifying and demonstrating what a successful job interview contains and how	
questions accurately. Out-of-class activities will be assigned and assessed as pa	
None Lecture Hours: 40.0; Lab Hours: 40.0 Outside Hours: 20.0	
Module E—Office Procedures	6 Quarter Credit Hours
In Module E, students are introduced to dictation and transcription. Emphasis is	
and mail processing, health information management and the medical facility e	
become familiar with disability income insurance and legal issues affecting insural	
learn about the Health Insurance Accountability and Portability Act (HIPAA). St	
terminology, build on keyboarding and word processing skills, and become fail	
search by learning how to set their own career goals. Out-of-class activities will be	
of this module. <i>Prerequisites: None</i> Lecture Hours: 40.0; Lab Hours: 40.0 Outside	
Module F—Patient Care and Computerized Practice Management	6 Quarter Credit Hours
Module F emphasizes computerized practice management, including file	
bookkeeping and insurance. Students will learn the health insurance claim for	
Hospital billing is introduced this module. Students will also learn about the histor	
the Medical Assisting Profession. In addition, students learn basic techniques for t	
learn OSHA standards and the use of universal precautions in the medical of	
medical terminology, build on keyboarding and word processing skills, and becor	
job search process. Out-of-class activities will be assigned and assessed as pa	
None Lecture Hours: 40.0; Lab Hours: 40.0 Outside Hours: 20.0	,
Module G—Dental Administrative Procedures	6 Quarter Credit Hours
Module G focuses on basic administrative procedures performed in the dental off	fice. Students are introduced to
the dental health team with emphasis on the tasks performed by the administrative	e support staff. Students will be
exposed to Electronic Health Records software applications used within the health	hcare setting in both ambulatory
and hospital environments. Specialized procedures including appointment so	cheduling, bookkeeping, dental
charting, processing patients, insurance billing and coding, and law and ethics ar	
given an introduction to radiography and radiation safety. Students will do vital sig	gns. They discuss interpersonal
skills and human relations, telephone techniques, and patient reception t	
keyboarding and word processing skills, become familiar with essential dental te	rminology, and become familiar
with the self-directed job search process by learning how to dress for success	
assigned and assessed as part of this module. Prerequisites: None Lecture	
Outside Hours: 20.0	·
Module X – Medical Administrative Assistant Externship	6 Quarter Credit Hours
This course is 200 hours of supervised practical in-service experience in a med	tical office or clinic in which the

This course is 200 hours of supervised, practical in-service experience in a medical office or clinic in which the student practices direct application of all administrative functions of the medical administrative assistant. *Prerequisites: Completion of Modules A-G.* Lecture Hours: 00.0; Lab Hours: 00.0; Other Hours: 200.0

MEDICAL ASSISTANT

100.00	
	_
	_

Diploma Program 41 Weeks – 920 Hours, 60 Credit Units

In recent years, the medical assisting profession has become indispensable to the health care field, Physicians have become more reliant on medical assistants for their front and back office skills. Medical offices and ambulatory care providers, clinics, urgent care centers and insurance providers are seeking their services.

The Medical Assistant diploma program is designed to prepare students for entry-level positions as medical assistants in a variety of health care settings. Students learn the structure and function of the major body systems in conjunction with medical terminology, diagnostic and therapeutic procedures, computer skills, administrative processes, bookkeeping and accounting practices, and the processing of medical insurance forms and claims.

The goal of the Medical Assistant Diploma Program is to prepare competent entry-level medical assistants in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains required and necessary to prepare them for entry level positions such as clinical or administrative assistant, medical receptionist, and medical insurance biller.

Note: Medical Assistant graduates are immediately eligible to sit for the Registered Medical Assistant Examination. Candidates who pass the exam are considered Registered Medical Assistants (RMA).

MODULE MAINTRO - Introduction to Medical Assisting

6 Quarter Credit Units

Module MAINTRO introduces students to the medical assistant profession, medical terminology, interpersonal skills, study techniques, and basic clinical skills. Students are introduced to the rules needed to build, spell, and pronounce health care terms, basic prefixes, suffixes, word roots, combining forms, and terms associated with body structure and directional terminology. Students study the professional qualities and professional personal appearance of a medical assistant. They learn about the administrative and clinical duties performed by a medical assistant. Additionally, students study the purpose of accreditation and the significance of becoming credentialed professional. Students also study the importance of interpersonal skills and the application of these skills with patients and fellow employees. Students will gain knowledge of basic medical insurance billing, coding concepts, and the use of coding reference books. Students are introduced to the basic clinical skills of obtaining vital signs, drawing and processing blood samples, and preparing and administering injections - procedures that they will continue to practice throughout the remaining modules. Students learn how to use knowledge of multiple intelligences to enhance studying and learning and how to make their personality type work for them. Successful note-taking and listening skills are reviewed, as well as techniques for remembering. Students also gain knowledge of test-taking strategies, including methods that can be used for reducing test anxiety. Out-of-class activities will be assigned and assessed as part of this module. Lecture Hours: 40 Clinical Lab Hours: 40 Outside Hours: 20 Prerequisite: None

V 2.0

MODULE A - Integumentary, Sensory, and Nervous Systems, Patient Care and Communication

6 Quarter Credit Units

Module A emphasizes patient care, including physical examinations and procedures related to the eyes and ears, the nervous system, and the integumentary system. Students will have an opportunity to work with and review patient charts and perform front office skills related to records management, appointment scheduling, and bookkeeping. Students gain skills in communication (verbal and nonverbal) when working with patients both on the phone and in person. Students develop working knowledge of basic anatomy and physiology of the special senses (eyes and ears), nervous and integumentary system, common diseases and disorders, and medical terminology related to these systems. Students check vital signs, obtain blood samples, and prepare and administer injections. Also introduced are strategies for dealing with change, setting goals, and getting motivated. Students learn how to prepare an attractive business letter, along with demonstrating increasing speed and accuracy on the computer keyboard and in medical transcription. Students build on their keyboarding and word processing skills related to word processing and spreadsheet programs, with acceptable progress through the identified text(s). Out-of-class activities will be assigned and assessed as part of this module. Lecture Hours: 40 Clinical Lab Hours: 30 Computer Lab Hours: 10 Outside Hours: 20 Prerequisite: MAINTRO

MODULE B - Muscular System, Infection Control, Minor Office Surgery, and Pharmacology

6 Quarter Credit Units

Module B stresses the importance of asepsis and sterile technique in today's health care environment, along with the proper use of personal protective equipment. Students learn about basic bacteriology and its relationship to infection and disease control. Students identify the purpose and expectations of the Occupational Health and Safety Administration (OSHA) and the Clinical Laboratory Improvement Amendments (CLIA) regarding disease transmission in the medical facility. Students study basic math concepts to prepare for medication dosage calculations. Students learn the principles and various methods of administering medication. Basic pharmacology and the uses, inventory, classification, and effects of therapeutic drugs are included. Students participate in the positioning and draping of patients for various examinations and prepare for assisting with minor office surgical procedures. Students gain knowledge of basic anatomy and physiology of the muscular system, common diseases and disorders, and medical terminology related to this system. Students check vital signs, obtain blood samples, and prepare and administer injections. Also introduced are strategies for setting and accomplishing personal goals, along with how to succeed in accomplishing these goals. Students describe how to handle numbers, symbols, and abbreviations in transcribed material and demonstrate increasing speed and accuracy on the computer keyboard and in medical transcription. Students build on their keyboarding and word processing skills related to word processing and spreadsheet programs, with acceptable progress through the identified text(s). Out-of-class activities will be assigned and assessed as part of this module. Lecture Hours: 40 Clinical Lab Hours: 30 Computer Lab Hours: 10 Outside Hours: 20 Prerequisite: MAINTRO

MODULE C - Digestive System, Nutrition, Financial Management, and First Aid 6 Quarter Credit Units Module C introduces students to the health care environment, office emergencies, and first aid, with an emphasis on bandaging techniques for wounds and injuries. Students will discuss types of disasters and the medical assistant's role in emergency preparedness and assisting during and after a disaster. Students learn bookkeeping procedures, accounts receivable and payable, financial management, banking, and check-writing procedures essential to the successful operation of the medical office. Students study the administrative and clinical uses of the electronic health record. Students develop working knowledge of good health, nutrition, weight control, and strategies in promoting good health in patients. They acquire knowledge of basic anatomy and physiology, common diseases and disorders, and medical terminology of the digestive system. Students check vital signs, obtain blood samples, and prepare and administer injections. They are introduced to strategies for building active reading and comprehension skills, along with techniques for managing time. Students practice transcribing accurate medical record notes and correcting erroneous entries, along with demonstrating increasing speed and accuracy on the computer keyboard and in medical transcription. Students build on their keyboarding and word processing skills related to word processing and spreadsheet programs, with acceptable progress through the identified text(s). Out-of-class activities will be assigned and assessed as part of this module. Lecture Hours: 40 Clinical Lab Hours: 30 Computer Lab Hours: 10 Outside Hours: 20 Prerequisite: MAINTRO

MODULE D - Cardiopulmonary Systems, Vital Signs, Electrocardiography, and CPR

6 Quarter Credit Units

Module D examines the circulatory and respiratory systems, including the structure and function of the heart and lungs, along with diseases, disorders, diagnostic tests, anatomy and physiology, and medical terminology associated with these systems. Students apply knowledge of the electrical pathways of the heart muscle in preparation for applying electrocardiography leads and recording a 12-lead electrocardiogram (ECG). Students receive instruction in cardiopulmonary resuscitation (CPR) and the use of an automated external defibrillator (AED), which enables them to respond to cardiac emergencies. Students check vital signs and differentiate between normal values for pediatric and adult patients. Students obtain blood samples and prepare and administer injections. Students will discuss how to apply critical and creative thinking skills to analyzing and problem solving in the workplace and everyday life. Students study the preparation of a History and Physical examination report, along with demonstrating increasing speed and accuracy on the computer keyboard and in

medical transcription. Students build on their keyboarding and word processing skills related to word processing and spreadsheet programs, with acceptable progress through the identified text(s). Out-of-class activities will be assigned and assessed as part of this module. Lecture Hours: 40 Clinical Lab Hours: 30 Computer Lab Hours: 10 Outside Hours: 20 Prerequisite: MAINTRO

MODULE E - Urinary, Blood, Lymphatic, and Immune Systems and Laboratory Procedures

6 Quarter Credit Units

Module E introduces microbiology and laboratory procedures commonly performed in a physician's office or medical clinic. Students learn specimen identification, collection, handling and transportation procedures and practice venipuncture and routine diagnostic hematology. Maintenance and care of laboratory equipment and supplies are discussed. Students gain working knowledge of radiology and nuclear medicine, in addition to various radiological examinations and patient preparation for these exams. Anatomy and physiology of the urinary system and the body's immunity, including the structure and functions, as well as common diagnostic exams and disorders related to these systems, is presented. Students perform common laboratory tests, check vital signs, and perform selected invasive procedures. Students learn the skills involved in organizing and writing a paper. Students transcribe miscellaneous medical reports, along with demonstrating increasing speed and accuracy on the computer keyboard and in medical transcription. Students build on their keyboarding and word processing skills related to word processing and spreadsheet programs, with acceptable progress through the identified text(s). Out-of-class activities will be assigned and assessed as part of this module. Lecture Hours: 40 Clinical Lab Hours: 30 Computer Lab Hours: 10 Outside Hours: 20 Prerequisite: MAINTRO

MODULE F - Endocrine, Skeletal, and Reproductive Systems, Pediatrics, and Geriatrics

6 Quarter Credit Units

Module F covers general anatomy and physiology, including an overview of the study of biology and the various body structures and systems. This module also examines the anatomy, physiology, and functions of the skeletal, endocrine, and reproductive systems, along with medical terminology associated with these systems. Students learn about child growth and development. They develop working knowledge of the skills necessary to assist in a pediatrician's office and learn the important differences that are specific to the pediatric field. Some of the skills students learn in this area are height and weight measurements and restraining techniques used for infants and children. They check vital signs, assist with diagnostic examinations and laboratory tests, and instruct patients regarding health promotion practices. Students gain knowledge of signs and symptoms of possible child abuse or neglect. Students also become familiar with human development across the life span. They will discuss normal and abnormal changes that are part of the aging process and the medical assistant's responsibilities related to the older person. Students check vital signs, obtain blood samples, and prepare and administer injections. Students discuss the importance of the ability to compose business documents and reports and practice composing business documents and e-mails. Students demonstrate increasing speed and accuracy on the computer keyboard and in medical transcription. Students build on their keyboarding and word processing skills related to word processing and spreadsheet programs, with acceptable progress through the identified text(s). Out-of-class activities will be assigned and assessed as part of this module. Lecture Hours: 40 Clinical Lab Hours: 30 Computer Lab Hours: 10 Outside Hours: 20 Prerequisite: MAINTRO

MODULE G - Medical Law, and Ethics, Psychology, and Therapeutic Procedures **6 Quarter Credit Units** Module G covers the history and science of the medical field, as well as the medical assisting profession. Students gain working knowledge of concepts related to patient reception in the medical office and preparing for the day. They discuss the importance of professional behavior in the workplace. Students learn what it takes to become an office manager and the responsibilities an office manager has to the office, the staff, and the physician. Students are introduced to medical office safety, security, and emergency provisions. They study how to maintain equipment and inventory. The functions of computers in the medical office are discussed. Students also talk about the role ergonomics plays in the health of the staff and patients. Students learn how to provide mobility assistance and support to patients with special physical and emotional needs, and various physical therapy modalities are discussed. Also introduced are the basic principles of psychology, psychological disorders, diseases, available treatments, and medical terminology related to mental and behavioral health. Medical law and ethics in relation to health care are discussed. Skills and attitudes necessary for success in the workforce are introduced, along with how to create a résumé, and follow through with the job search. Students check vital signs, obtain blood samples, and prepare and administer injections. Students demonstrate increasing speed and accuracy on the computer keyboard and build on their keyboarding and word processing skills related to word processing and spreadsheet programs, with acceptable progress through the identified text(s). Out-of-class activities will be assigned and assessed as part of this module. Lecture Hours: 40 Clinical Lab Hours: 30 Computer Lab Hours: 10 Outside Hours: 20 Prerequisite: MAINTRO

MODULE H – Health Insurance Basics, Claims Processing, and Computerized Insurance Billing

6 Quarter Credit Units

Module H introduces students to insurance billing and provides an in-depth exposure to diagnostic and procedural coding. Students gain working knowledge of the major medical insurances and claims form processing. They are introduced to types and sources of insurance, health insurance basics, traditional insurance plans, managed care, Medicare, Medicaid, military carriers, and Worker's Compensation and Disability insurance. This module covers the format of the ICD-9-CM manual, the CPT-4 and HCPCS manuals, and their relationship to the process of insurance claims submission. Patient expectations of the medical practice in regard to billing and collections and patient confidentiality are covered. Students gain knowledge of how to enter patient information and schedule appointments electronically, along with processing insurance claims both manually and electronically. Students continue to develop basic clinical skills by taking vital signs, obtaining blood samples, and preparing and administering injections. Out-of-class activities will be assigned and assessed as part of this module. Lecture Hours: 40 Clinical Lab Hours: 30 Computer Lab Hours: 10 Outside Hours: 20 Prerequisite: MAINTRO

MODULE X - Medical Assistant Diploma Program Externship6 Quarter Credit UnitsUpon successful completion of all modules, medical assisting students participate in a 200-hour externship at an
approved facility. The externship provides the student an opportunity to apply principles and practices learned in
the program and utilize entry-level medical assisting skills in working with patients. Medical Assisting Diploma
Program externs work under the direct supervision of qualified personnel at the participating externship sites, and
under general supervision of the school staff. Supervisory personnel at the site evaluate externs at 100- and 200-
hour intervals. Completed evaluation forms are placed in the students' permanent records. Students must
successfully complete their externship experience in order to fulfill requirements for graduation. Lecture Hours: 00
Lab Hours: 00 Hrs

MEDICAL INSURANCE BILLING AND CODING

Diploma Program 33 Weeks – 760 Hours – 48 Credits

V 2.0

Medical Insurance Billing and Coding professionals perform a variety of administrative health information functions, including those associated with organizing, analyzing, and technically evaluating health insurance claim forms and coding diseases, surgeries, medical procedures, and other therapies for billing and collection.

The objective of the Medical Insurance Billing and Coding Program is to provide the student with the appropriate didactic theory and hands-on skills necessary to prepare them for entry-level positions as medical insurance billers and coders in today's health care offices, clinics, and facilities. Students will learn diagnostic and procedural terminology as it relates to the accurate completion of medical insurance claims. Utilizing a format of medical specialties, relevant terms will also be introduced and studied.

The Medical Insurance Billing and Coding program is a 760 clock hour/48.0 credit unit course of study, consisting of seven individual learning units, called modules. Students are required to complete all modules, starting with Module MEDINTRO and continuing in any sequence until all seven modules have been completed. After the MEDINTRO Introductory Module is completed, the remaining six modules stand alone as units of study. If students do not complete any portion of one of these modules, the entire module must be repeated. Upon successful completion all modules, students participate in an externship. This consists of 200 clock hours of hands-on experience working either in a tutorial classroom setting called a practicum or in an outside facility in the field of medical insurance billing and coding.

Module	Modular Title	Total Contact Hours	Quarter Credit Units
MEDINTRO	Introduction to Medical Terminology, Keyboarding, Word Processing, Basic Math, Insurance Coding, and Administrative Duties of Medical Personnel	80	6
MIBCL	Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding of the Cardiovascular and Lymphatic Systems	80	6
MIBGU	Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding of the Genitourinary System	80	6
MIBIE	Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding of the Integumentary and Endocrine Systems, and Pathology	80	6
MIBMS	Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding of the Musculoskeletal System	80	6
MIBRG	Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding of the Respiratory and Gastrointestinal Systems	80	6
MIBSN	Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding of the Sensory and Nervous Systems, and Psychology	80	6
MIBPC	MIBP Practicum -OR-	200	6
MIBXT	Externship	200	6
	Total	760	48

 Module MEDINTRO - Introduction to Medical Terminology, Keyboarding, Word Processing, Basic Math,

 Insurance Coding, and Administrative Duties of Medical Personnel
 6 Quarter Credit Units

 This module presents basic prefixes, suffixes, word roots, combining forms, special endings, plural forms, abbreviations, and symbols. Also covered is medical jurisprudence and medical ethics. Legal aspects of office procedure are covered, including a discussion of various medical/ethical issues in today's medical environment. Students will learn basic computer skills and acquire knowledge of basic medical insurance billing and coding. Students are provided exposure to computer software applications used in the health care environment including basic keyboarding, Word and Excel. In addition, basic guidelines and coding conventions in ICD-9 and CPT with focus on the professional (outpatient) guidelines, as well as an introduction to the use of the coding reference books. Basic math is introduced. Career skills and development of proper study and homework habits are introduced as well as professionalism needed in the healthcare environment. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: None Lecture Hours: 40 Lab Hours: 40 Outside Hours: 20

Module MIBCL – Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding of the Cardiovascular and Lymphatic Systems 6 Quarter Credit Units

This module presents a study of basic medical terminology focused on the cardiovascular system, and the lymphatic system. A word-building systems approach is used to learn word parts for constructing or analyzing new terms. Emphasis is placed on spelling, definition, usage, and pronunciation. Abbreviations are introduced as related terms are presented within the module. A study of the human body's diseases and disorders, including signs, symptoms, etiology, diagnosis, and treatment is accomplished following the modular subject areas. Students are provided exposure to computer software applications used in the health care environment including medical billing software, Word and Excel. The major medical insurances and claims form processing is presented in an ongoing approach to build this skill set. It will include information on national and other common insurance plans as well as claim form completion and ICD and CPT coding. Problem solving and managed care systems will also be discussed. Daily financial practices to include patient fee determining, credit arrangements and bookkeeping and bank-keeping procedures will be discussed. Computer use in the ambulatory environment will also be taught. Basic and advanced guidelines and coding conventions in CPT will be taught with focus on the professional (outpatient) guidelines. The evaluation and management documentation guidelines will be discussed, as well as, the proper use of modifiers. Basic guidelines and coding conventions in ICD-9-CM diagnosis coding and medical necessity with CPT pairing will be stressed, as well as the use of a natural language encoder program. Various aspects of pharmacology will be discussed including a study of the medications prescribed for the treatment of illnesses and diseases within the modular subject area. Included in this are drug actions, and medication uses in relation to body systems and medical terminology. To prepare the student to comprehend the complexity of the health care system and the life cycle of a medical practice, areas that will be discussed include personnel management, compliance, technology, and the many roles of office management. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: MEDINTRO Lecture Hours: 40 Lab Hours: 40 Outside Hours: 20

Module MIBGU – Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding of the Genitourinary System 6 Quarter Credit Units

This module presents a study of basic medical terminology focused on the genitourinary system. A word-building systems approach is used to learn word parts for constructing or analyzing new terms. Emphasis is placed on spelling, definition, usage, and pronunciation. Abbreviations are introduced as related terms presented within the module. A study of the human body's diseases and disorders, including signs, symptoms, etiology, diagnosis, and treatment is accomplished following the modular subject areas. Students are provided exposure to computer software applications used in the health care environment including medical billing software, Word, and Excel. The major medical insurances and claims form processing is presented in an ongoing approach to build this skill set. It will include information on national and other common insurance plans as well as claim form completion and ICD and CPT coding. Problem solving and managed care systems will also be discussed. Daily financial practices to include patient fee determining, credit arrangements, and bookkeeping and bank-keeping procedures will be discussed. Computer use in the ambulatory environment will also be taught. Basic and advanced guidelines and coding conventions in CPT will be taught with focus on the professional (outpatient) guidelines. The evaluation and management documentation guidelines will be discussed, as well as the proper use of modifiers. Basic guidelines and coding conventions in ICD-9-CM diagnosis coding and medical necessity with CPT pairing will be stressed, as well as the use of a natural language encoder program. Various aspects of pharmacology will be discussed including a study of the medications prescribed for the treatment of illnesses and diseases within the modular subject area. Included in this are drug actions, and medication uses in relation to body systems and medical terminology. To prepare the student to comprehend the complexity of the health care system and the life cycle of a medical practice, areas that will be discussed include personnel management, compliance, technology, and the many roles of office management. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: MEDINTRO Lecture Hours: 40 Lab Hours: 40 Outside Hours: 20

Module MIBIE – Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding of the Integumentary and Endocrine Systems, and Pathology 6 Quarter Credit Units

This module presents a study of basic medical terminology focused on the genitourinary system. A word-building systems approach is used to learn word parts for constructing or analyzing new terms. Emphasis is placed on spelling, definition, usage, and pronunciation. Abbreviations are introduced as related terms presented within the module. A study of the human body's diseases and disorders, including signs, symptoms, etiology, diagnosis, and treatment is accomplished following the modular subject areas. Students are provided exposure to computer software applications used in the health care environment including medical billing software, Word, and Excel. The major medical insurances and claims form processing is presented in an ongoing approach to build this skill set. It will include information on national and other common insurance plans as well as claim form completion and ICD and CPT coding. Problem solving and managed care systems will also be discussed. Daily financial practices to include patient fee determining, credit arrangements and bookkeeping and bank-keeping procedures will be discussed. Computer use in the ambulatory environment will also be taught. Basic and advanced guidelines and coding conventions in CPT will be taught with focus on the professional (outpatient) guidelines. The evaluation and management documentation guidelines will be discussed, as well as the proper use of modifiers. Basic guidelines and coding conventions in ICD-9-CM diagnosis coding and medical necessity with CPT pairing will be stressed, as

well as the use of a natural language encoder program. Various aspects of pharmacology will be discussed including a study of the medications prescribed for the treatment of illnesses and diseases within the modular subject area. Included in this are drug actions, and medication uses in relation to body systems and medical terminology. To prepare the student to comprehend the complexity of the health care system and the life cycle of a medical practice, areas that will be discussed include personnel management, compliance, technology, and the many roles of office management. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: MEDINTRO Lecture Hours: 40 Lab Hours: 40 Outside Hours: 20

Module MIBMS – Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding of the Musculoskeletal System 6 Quarter Credit Units

This module presents a study of basic medical terminology focused on the musculoskeletal system. A word-building systems approach is used to learn word parts for constructing or analyzing new terms. Emphasis is placed on spelling, definition, usage, and pronunciation. Abbreviations are introduced as related terms are presented within the module. A study of the human body's diseases and disorders, including signs, symptoms, etiology, diagnosis, and treatment is accomplished following the modular subject areas. Students are provided exposure to computer software applications used in the health care environment including medical billing software, Word and Excel. The major medical insurances and claims form processing is presented in an ongoing approach to build this skill set. It will include information on national and other common insurance plans as well as claim form completion and ICD and CPT coding. Problem solving and managed care systems will also be discussed. Daily financial practices to include patient fee determining, credit arrangements and bookkeeping and bank-keeping procedures will be discussed. Computer use in the ambulatory environment will also be taught. Basic and advanced guidelines and coding conventions in CPT will be taught with focus on the professional (outpatient) guidelines. The evaluation and management documentation guidelines will be discussed, as well as, the proper use of modifiers. Basic guidelines and coding conventions in ICD-9-CM diagnosis coding and medical necessity with CPT pairing will be stressed, as well as the use of a natural language encoder program. Various aspects of pharmacology will be discussed including a study of the medications prescribed for the treatment of illnesses and diseases within the modular subject area. Included in this are drug actions, and medication uses in relation to body systems and medical terminology. To prepare the student to comprehend the complexity of the health care system and the life cycle of a medical practice, areas that will be discussed include personnel management, compliance, technology, and the many roles of office management. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: MEDINTRO Lecture Hours: 40 Lab Hours: 40 Outside Hours: 20

Module MIBRG – Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding of the Respiratory and Gastrointestinal Systems 6 Quarter Credit Units

This module presents a study of basic medical terminology focused on the respiratory system and the gastrointestinal system. A word-building systems approach is used to learn word parts for constructing or analyzing new terms. Emphasis is placed on spelling, definition, usage, and pronunciation. Abbreviations are introduced as related terms are presented within the module. A study of the human body's diseases and disorders, including signs, symptoms, etiology, diagnosis, and treatment is accomplished following the modular subject areas. Students are provided exposure to computer software applications used in the health care environment including medical billing software, Word and Excel. The major medical insurances and claims form processing is presented in an ongoing approach to build this skill set. It will include information on national and other common insurance plans as well as claim form completion and ICD and CPT coding. Problem solving and managed care systems will also be discussed. Daily financial practices to include patient fee determining, credit arrangements and bookkeeping and bank-keeping procedures will be discussed. Computer use in the ambulatory environment will also be taught. Basic and advanced guidelines and coding conventions in CPT will be taught with focus on the professional (outpatient) guidelines. The evaluation and management documentation guidelines will be discussed, as well as, the proper use of modifiers. Basic guidelines and coding conventions in ICD-9-CM diagnosis coding and medical necessity with CPT pairing will be stressed, as well as the use of a natural language encoder program. Various aspects of pharmacology will be discussed including a study of the medications prescribed for the treatment of illnesses and diseases within the modular subject area. Included in this are drug actions, and medication uses in relation to body systems and medical terminology. To prepare the student to comprehend the complexity of the health care system and the life cycle of a medical practice, areas that will be discussed include personnel management, compliance, technology, and the many roles of office management. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: MEDINTRO Lecture Hours: 40 Lab Hours: 40 Outside Hours: 20

 Module MIBSN – Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding

 of the Sensory and Nervous Systems, and Psychology
 6 Quarter Credit Units

This module presents a study of basic medical terminology focused on the sensory system, the nervous system, and psychology. A word-building systems approach is used to learn word parts for constructing or analyzing new terms. Emphasis is placed on spelling, definition, usage, and pronunciation. Abbreviations are introduced as related terms are presented within the module. A study of the human body's diseases and disorders, including signs, symptoms, etiology, diagnosis, and treatment is accomplished following the modular subject areas. Students are provided exposure to computer software applications used in the health care environment including medical billing software, Word and Excel. The major medical insurances and claims form processing is presented in an ongoing

approach to build this skill set. It will include information on national and other common insurance plans as well as claim form completion and ICD and CPT coding. Problem solving and managed care systems will also be discussed. Daily financial practices to include patient fee determining, credit arrangements and bookkeeping and bank-keeping procedures will be discussed. Computer use in the ambulatory environment will also be taught. Basic and advanced guidelines and coding conventions in CPT will be taught with focus on the professional (outpatient) guidelines. The evaluation and management documentation guidelines will be discussed, as well as, the proper use of modifiers. Basic guidelines and coding conventions in ICD-9-CM diagnosis coding and medical necessity with CPT pairing will be stressed, as well as the use of a natural language encoder program. Various aspects of pharmacology will be discussed including a study of the medications prescribed for the treatment of illnesses and diseases within the modular subject area. Included in this are drug actions, and medication uses in relation to body systems and medical terminology. To prepare the student to comprehend the complexity of the health care system and the life cycle of a medical practice, areas that will be discussed include personnel management, compliance, technology, and the many roles of office management. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: MEDINTRO Lecture Hours: 40 Lab Hours: 40 Outside Hours: 20

Once a student has completed all modules, he or she will be placed in their final module of training, as chosen by the school administration, in an on-campus practicum experience or out in the field in an approved externship facility.

Module MIBPC – Practicum

6 Quarter Credit Units

Upon successful completion of Modules MEDINTRO, MIBCL, MIBGU, MIBIE, MIBMS, MIBRG, and MIBSN, medical insurance billing and coding students participate in a 200-hour practicum on-campus. The practicum provides the student an opportunity to apply principles and practices learned in the program and utilize entry-level skills in working with insurance companies and processing claims. Medical insurance billing and coding students work under the direct supervision of the school staff. An instructor or department chair evaluates students at 100 and 200 hour intervals. Completed evaluation forms are placed in the students' permanent records. Students must successfully complete their practicum experience in order to fulfill requirements for graduation. Prerequisite: All classes in the Medical Insurance Billing and Coding diploma program must be completed prior to enrollment. Lecture Hours: 00 Lab Hours: 00 Other Hours: 200

Module MIBXT – Externship

6 Quarter Credit Units

Upon successful completion of Modules MEDINTRO, MIBCL, MIBGU, MIBIE, MIBMS, MIBRG, and MIBSN, medical insurance billing/coding students participate in a 200-hour externship. Students are expected to work a fulltime (40 hours per week) schedule if possible. Serving in an externship at an approved facility gives externs an opportunity to work with the principles and practices learned in the classroom. Externs work under the direct supervision of qualified personnel in participating institutions and under general supervision of the school staff. Supervisory personnel will evaluate externs at 100- and 200-hour intervals. Completed evaluation forms are placed in the students' permanent records. Students must successfully complete their externship training in order to fulfill requirements for graduation. Prerequisite: All classes in the Medical Insurance Billing and Coding diploma program must be completed prior to enrollment. Lecture Hours: 00 Lab Hours: 00 Other Hours: 200

PHARMACY TECHNICIAN

Diploma Program 33 Weeks – 760 Hours, 48 Credit Units

V 1.0

Pharmacy services have expanded and grown at an accelerated rate. Pharmacy Technicians play a major role in pharmacy operations and in the overall healthcare work force. As pharmacy services continue to grow, with new services being offered, new drugs entering the market, and as comprehensive drug information becomes a necessity, the need for highly-trained pharmacy technicians increases. Many of the traditional pharmacy functions, once performed by pharmacists, are now being performed by pharmacy technicians. Today's pharmacy technician has assumed a position which supports and enhances the progressive direction taken by pharmacy. The technician has also become the key person in assuring the smooth uninterrupted functioning of traditional pharmacy services.

The Pharmacy Technician diploma program provides both technical and practical training which will enable the graduate, upon certification, licensure, or registration, to function as a competent entry-level pharmacy technician to the licensed pharmacist. The program provides the student with the basic knowledge of and practice in pharmacy calculations, drug distribution systems, and preparation of sterile dosage forms. Computer skills necessary in pharmacy practice will be utilized and both pharmaceutical and medical terminology and anatomy and physiology, are also covered. The program emphasizes theory, as well as hands-on practice, followed by an externship which prepares the student for the actual work setting. Upon completion of this program, the graduate will be prepared to take the national pharmacy technician certification exam offered by the Pharmacy Technician Certification Board (PTCB).

Pharmacy is a dynamic field requiring an ongoing learning process. Graduates from this training program will become active participants in this growing field by exhibiting competence through knowledge and skills learned through the college.

Note: In order to be employed as a pharmacy technician in the state of Florida, registration with the Florida Board of Pharmacy is required.

Module Code	Modular Title	Contact Hours	Quarter Credit Units
Module A	Administration of Medications and Pharmacology of the Endocrine/Lymphatic Systems	80	6
Module B	Aspects of Retail Pharmacy and Pharmacology of the Nervous System	80	6
Module C	History and Ethics of Pharmacy and Pharmacology of the Respiratory System & Nuclear and Oncology Pharmacy Practice	80	6
Module D	Infection Control, Medication Errors and Alternative Medicine and Pharmacology of the Integumentary System and Senses	80	6
Module E	Administrative Aspects of the Pharmacy Technician & Pharmacology of the G.I. and Muscular System	80	6
Module F	Aspects of Hospital Pharmacy and Pharmacology of the Urinary and Reproductive System	80	6
Module G	Home Health Care, Pharmacy Operations and Pharmacology of the Cardiovascular, Circulatory and Skeletal System	80	6
Module X	Clinical Externship	200	6
	Total	760	48

Module A - Administration of Medications and Pharmacology of the Endocrine and Lymphatic Systems 6 Quarter Credit Hours

This module is designed to provide the student with an overall understanding of medication administration, safety and quality assurance. Included in this course is an overview and historical development of pharmacy. Body systems are covered in this module which includes the endocrine and lymphatic systems, and medications used to treat conditions of the endocrine system. Repackaging and compounding will be discussed and performed. Included in this course is use of policy and procedure manuals, materials management of pharmaceuticals, the pharmacy formulary system, computer applications in drug use control, receiving and processing medication orders. Preparation and utilization of patient profiles, handling medications, storage and delivery of drug products, records management and inventory control, and compensation and methods of payment for pharmacy services are discussed. Conversions and calculations used by pharmacy technicians will be discussed along with drug dosages in units and working with compounds, admixtures, and parenteral and IV medications. Hands-on skills in the laboratory practice setting are performed. Out-of-class activities will be assigned and assessed as part of this module. *Prerequisites: None* Lecture Hours: 40.0 Lab Hours: 40.0 Outside Hours: 20.0

Module B - Aspects of Retail Pharmacy and Pharmacology of the Nervous System This module is designed to provide the student with responsibilities of a technician filling prescriptions, including the information required to fill prescription and typing the prescription label. This module also covers how to read a drug label. Medications for the respiratory and nervous system are covered including a study of medications for neurological conditions, mental disorders and a discussion on muscle relaxants. This module will include CPR certification. Hands-on skills in the laboratory practice setting are performed. Out-of-class activities will be assigned and assessed as part of this module. *Prerequisites: None* Lecture Hours: 40.0 Lab Hours: 40.0 Outside Hours: 20.0

Module C - History and Ethics of Pharmacy and Pharmacology of the Respiratory System & Nuclear and Oncology Pharmacy Practice 6 Quarter Credit Hours

This module is designed to introduce the student to the professional aspects of working in pharmacy technology. Subjects covered include the history and changing roles of pharmacists and pharmacy technicians. This module covers the laws and ethics of pharmacy, which includes the Food and Drug Act, the 1970 Comprehensive Drug Abuse Prevention and Control Act, and other modern-day drug legislation. The respiratory system is discussed along with medications for respiratory tract disorders. Oncology agents are covered in this module along with HIV/AIDS. Calculations and dimensional analysis of drug dosages are covered. Hands-on skills in the laboratory practice setting are performed. Out-of-class activities will be assigned and assessed as part of this module. *Prerequisites: None* Lecture Hours: 40.0 Lab Hours: 40.0 Outside Hours: 20.0

Module D - Infection Control, Medication Errors and Alternative Medicine and Pharmacology of the
Integumentary System and Senses6 Quarter Credit Hours

This module covers pharmacy technician registration and certification, including professionalism and communication in the pharmacy setting. Over-the-counter medications, vitamins, and skin-care products are discussed in this module. Medications for the integumentary system are covered, along with a discussion on medication calculations for the elderly. Also covered in this module are medications used for disorders of the eyes and ears. Students learn the most common medication errors, alternative medication, and food and drug interactions. Hands-on skills in the laboratory practice setting are performed. Out-of-class activities will be assigned and assessed as part of this module. *Prerequisites: None* Lecture Hours: 40.0 Lab Hours: 40.0 Outside Hours: 20.0

Module E - Administrative Aspects of the Pharmacy Technician & Pharmacology of the G.I. and Muscular System 6 Quarter Credit Hours

In this module, emphasis is placed on the role and responsibilities of the pharmacy technician regarding parenteral dosages, including using proportions in calculating drug dosages for pediatrics. This module is designed to provide the student with an overall understanding of the administrative aspects and hands-on applications involved in working in a pharmacy. Medications for the G.I. and musculoskeletal systems are covered, along with medications for disorders of the musculoskeletal system, as well as a study of general operations of pharmacies at different settings. Subjects covered include safety in the workplace, using computers in the pharmacy, communications and interpersonal relations within the pharmacy. Students will learn about migraine headaches, analgesics, and drugs for NSAID. Use of computers in the pharmacy practice setting is covered. Hands-on skills in the laboratory practice setting are performed. Out-of-class activities will be assigned and assessed as part of this module. *Prerequisites: None* Lecture Hours: 40.0 Lab Hours: 40.0 Outside Hours: 20.0

Module F - Aspects of Hospital Pharmacy and Pharmacology of the Urinary and Reproductive System 6 Quarter Credit Hours

This module is designed to provide the student with an overall understanding of anatomy and physiology as it relates to the urinary and reproductive systems. Students will learn common tasks performed by pharmacy technicians in the hospital practice setting, including policies and procedures, responsibilities of the inpatient pharmacy technician, and specific state requirements regulating the use of pharmacy technicians in various states. Students will familiarize themselves with intravenous flow rates of large volume and small volume IV, infusion of IV piggybacks, and the use of a heparin lock. Critical care flow rates and automated medication dispensing systems are discussed and calculated. Hands-on skills in the laboratory practice setting are performed. Out-of-class activities will be assigned and assessed as part of this module. *Prerequisites: None* Lecture Hours: 40.0 Lab Hours: 40.0 Outside Hours: 20.0

Module G - Home Health Care, Pharmacy Operations and Pharmacology of the Cardiovascular, Circulatory and Skeletal System 6 Quarter Credit Hours

This module is designed to familiarize the student with all aspects of home health care, mail order pharmacy/ePharmacy, and long-term care pharmacy. Also covered in this module is drug distribution systems utilized in the pharmacy to include pharmacy stocking and billing, inventory, and purchasing. This module will provide students with the understanding of the cardiovascular, circulatory, and skeletal systems and discuss medications for circulatory disorders and medications for the skeletal system. Hands-on skills in the laboratory practice setting are performed. Out-of-class activities will be assigned and assessed as part of this module. *Prerequisites: None* Lecture Hours: 40.0 Lab Hours: 40.0 Outside Hours: 20.0

Module X - Clinical Externship

6 Quarter Credit Hours

This 200-hour module is designed to provide the student with supervised, practical, hands-on, and observational experiences in the working pharmacy. Students will be expected to gain experiences in either a hospital pharmacy or a community (retail) pharmacy. Students will gain exposure to "on-the-job" experiences and training in the pharmacy setting and practice of skills, gaining experiences in all aspects of drug preparation and distribution utilized by participating sites. *Prerequisite: Completion of Didactic Program. Student must complete all modules prior to externship placement.* Lecture Hours: 0.0 Lab Hours: 0.0 Other Hours: 200.0.

ASSOCIATE'S DEGREE PROGRAMS

ACCOUNTING, ASSOCIATE IN SCIENCE DEGREE

24 Months – 96.0 Credit Units

V 1.0

Accounting is the language of business, and accounting procedures and records are the basic ingredients that provide students with a broad and diverse background in professional accounting, making a variety of entry-level positions in business, industry, and governmental accounting fields available to graduates of this program.

APPLIED MANAGEMENT, ASSOCIATE IN SCIENCE DEGREE

24 Months - 96.0 Credit Units

V 1.0

The Associate in Science in Applied Management program is offered for those students who have completed a diploma program from an accredited post-secondary institution and whose career goals require a broad knowledge of the functional areas of business. All students will take coursework in the areas of accounting, general business, management, marketing, computer applications, and business law. The program prepares students for a variety of entry-level positions in areas such as sales, office supervision, and small business management.

BUSINESS, ASSOCIATE IN SCIENCE DEGREE

24 Months – 96.0 Credit Units

V 2.0

The Associate in Science in Business program is offered for those students whose career goals require a broad knowledge of the functional areas of business. All students will take coursework in the areas of accounting, general business, management, marketing, human resources, computer applications, and business law. In addition, students will choose an area of concentration that will comprise the balance of the courses in the major. The following describes each area of concentration.

BUSINESS ADMINISTRATION

The Business Administration concentration focuses on the structure, function, and procedures of standard business operations. The program prepares students for a variety of entry-level positions in areas such as sales, office supervision, and small business management.

MANAGEMENT

The Management concentration focuses on the fundamental business management principles utilized by today's businesses. The graduates of this program will be prepared for entry-level positions in supervisory roles in business and government.

MARKETING (CONCENTRATION COURSES MAY BE AVAILABLE ONLY ONLINE)

The concentration in Marketing is designed to provide students with a basic marketing background to prepare them for entry-level positions in business and government.

INTERNATIONAL BUSINESS (CONCENTRATION COURSES MAY BE AVAILABLE ONLY ONLINE)

International business is an important aspect of the business world today. This concentration equips graduates for employment in entry-level positions with companies engaged in international commerce.

COMPUTER INFORMATION SCIENCE, ASSOCIATE IN SCIENCE DEGREE

24 Months - 96.0 Credit Units

V 2.0

The Associate in Science Degree in Computer Information Science is designed to provide the student with hands-on training in the latest data communications and computer operations technologies. Students in this program must complete the required coursework in the major core from one of the listed areas of concentration. The following describes each area of concentration.

Programming

This concentration provides coursework in computer programming and systems development, computer hardware and operating systems, as well as accounting and business courses that complement the businessoriented applications graduates will encounter in the work place. The graduate will be familiar with microcomputer applications, programming applications, and design in a programming language. This concentration prepares an individual to enter the information technology industry in a variety of job roles, including entry level programmer.

Network Administration

The Network Administration concentration enables students to build a solid foundation in the key technologies that drive many of today's corporate networks. Students in this concentration will gain hands-on experience with the hardware and software used in personal computers, learn to manage and direct network traffic, and will develop system support skills that focus on installing, administering, and troubleshooting commonly used network hardware and software. This concentration helps prepare graduates for careers as Network Administrators, Network Security Administrators, Database Administrators, Network Technicians, Help Desk Technicians, PC Support Specialists, Database Support Specialists, Technical Support Representatives, and more.

CRIMINAL JUSTICE, ASSOCIATE IN SCIENCE DEGREE

24 Months – 96.0 Credit Units

V 1.0

The Criminal Justice program includes a comprehensive study of the national criminal justice system, correctional organizations, and low enforcement agencies. Students learn the nature and extent of crime and delinquency and the cause and explanation of criminal behavior. Additional areas of study include rules of evidence, basic investigative techniques and the philosophy of criminal law. The program is designed to prepare graduates for entry-level career opportunities in probation, corrections, law enforcement and/or security.

MEDICAL INSURANCE BILLING AND CODING, ASSOCIATE IN SCIENCE DEGREE 24 Months – 96.0 Credit Units

V 2.0

The Medical Insurance Billing and Coding Associate program is designed to provide comprehensive skills in the administrative, insurance billing, and coding area of study. The program will take the student beyond the basic information adding depth in the many speciality areas of the Medical Insurance Billing industry. The hands on practical approach will give the student the experience and confidence needed to succeed in this highly specialized field. The degree prepares the graduate to be an entry-level professional in medical offices, clinics, hospitals, and associated medical facilities.

This program consists of 96.0 quarter credit hours including college core requirements, major core requirements, and general education requirements. In addition to completion of all didactic and hands-on courses, students are also required to participate in a 120-hour externship prior to graduation from the program.

APPLIED MANAGEMENT, BACHELOR OF SCIENCE DEGREE

48 Months - 192.0 Credit Units

V 1.0

The Bachelor of Science in Applied Management program integrates the technical knowledge gained through a diploma program or applied science degree with coursework designed to prepare the student for leadership roles in their chosen field. The curriculum emphasizes the critical thinking and analytical skills necessary to solve problems in today's complex work environment. The program is open to those who have earned an approved certificate, diploma, AS, or AAS degree in a field of applied science.

	TOTAL GENERAL EDUCATION CREDIT HOURS:	54.0
	ELECTIVE REQUIREMENT**	40.0
	TOTAL PROGRAM CREDIT HOURS	192.0

*This course is not offered online.

**Additional Major Core: Credit will be applied from the student's previously completed certificate, diploma, or associates program. Students who have fewer than 40.0 transferable major core credits will be required to select additional courses from the business and management areas. In the event that a student transfers more than 40.0 major core credits, the Elective requirement may be reduced by an equivalent number of major core credits above the 40.0 credit requirement. For example, a student who transfers 50.0 major core credits may have his/her Elective requirement reduced by 10.0 credits.

***General Education Requirements: In addition to the courses specified in the General Education section of the program outline, students must complete a total of 24.0 credits from the following subject areas, with a minimum of 4.0 credits taken from each area:

- Communications/Humanities
- -may include ENC 3211, AML 2000
- Social Sciences
- -may include SYG 2001, SOP 4005, CPO 4003, AMH 2030, POS 2041, ECO 3007, ECO 3028
- Mathematics and Science
- -may include: STA 2014

Upper Division Requirement: Students must complete a minimum of 60.0 Quarter Credit Hours in upper division coursework. The major core requires 36.0 credits of upper division, thus the remainder may come from the General Education and Elective areas. Upon admittance to the program, the student will work with an Academic Advisor to develop an approved plan to complete all requirements for the degree within the required time limits. This plan will be periodically evaluated and updated by the student and Academic Advisor.

BUSINESS, BACHELOR OF SCIENCE DEGREE 48 Months – 192.0 Credit Units

V 2.0

The Bachelor of Science in Business program is offered for those students whose career goals require a broad knowledge of the functional areas of business. All students will take coursework in the areas of accounting, general business, management, marketing, human resources, computer applications, and business law. In addition, students will choose an area of concentration that will comprise the balance of the courses in the major. The following describes each area of concentration.

BUSINESS ADMINISTRATION

The Bachelor of Science in Business with Business Administration concentration offers additional coursework in finance and investments, management, strategic planning, and other advanced topics that will prepare the graduate of this program for entry- to mid-level positions in business and government.

MANAGEMENT

The Bachelor of Science in Business with Management concentration offers advanced coursework in management and related topics, helping to develop the diversity of knowledge and skills necessary to attain success in the business management field. Graduates of this program will be prepared for entry- to mid-level supervisory and management positions in business and government.

MARKETING (CONCENTRATION COURSES MAY BE AVAILABLE ONLY ONLINE)

The Bachelor of Science in Business with Marketing concentration offers additional studies in such areas as marketing research, consumer behavior, promotional strategies, and international marketing. The graduate of this program will be prepared for entry- to mid-level marketing positions in business and government.

INTERNATIONAL BUSINESS (CONCENTRATION COURSES MAY BE AVAILABLE ONLY ONLINE)

The Bachelor of Science in Business with concentration in International Business provides students with business tools for understanding and dealing in foreign markets. The graduate of this program will be prepared for entry-level and middle-management positions in companies involved in international business.

COMPUTER INFORMATION SCIENCE, BACHELOR OF SCIENCE DEGREE

48 Months - 192.0 Credit Units

V 2.0

The Bachelor of Science Degree in Computer Information Science offers graduates special training in the analysis, design, implementation, maintenance, and use of computer information systems and data base systems. The program focuses on the concepts, principles, goals, functions, and management of information-driven organizations, stressing the development of computer-based applications through the use of programming languages.

CRIMINAL JUSTICE, BACHELOR OF SCIENCE DEGREE

48 Months – 192.0 Credit Units

V 2.0

The Criminal Justice program provides a broad understanding of the criminal justice system and prepares graduates for entry-level and middle management positions in probation, corrections, immigration, law enforcement, and/or security. The program is offered for students who have 36.0 or more transferable quarter (24.0 semester) credits. Students who have earned an approved Associate of Arts degree may be enrolled with junior standing and can complete the Bachelors with an additional 96.0 credits. Students also have the option to pursue a concentration in Criminal Investigations or Homeland Security. See next section for details. The Criminal Justice program is not a training program for law enforcement officers.

	TOTAL PROGRAM CREDIT HOURS	192.0

* This course is not offered online.

****Elective Requirements:** Students may fulfill the balance of the credit requirements for the degree by taking up to 46.0 credits in the electives category.

- *** General Education Requirements***: In addition to the courses specified in the general education section of the program outline, students must complete a total of 24.0 credits from the following subject areas, with a minimum of 4.0 credits taken from each area:
 - Communications/Humanities
 - -may include ENC 3211, AML 2000
 - Social Sciences
 - -may include SYG 2001, SOP 4005, CPO 4003, AMH 2030, POS 2041, ECO 3007, ECO 3028
 - Mathematics and Science
 - -may include: STA 2014

Associate's Degree Transfer Students: Students who enroll with an approved Associate's degree will have 96.0 transfer credits applied to the overall degree requirement of 192.0 quarter credits. Approval is based upon the degree being earned at an accredited institution, and includes a minimum of 36.0 semester or 54.0 quarter credits of general education coursework. Transfer students in this category have satisfied all elective and general education requirements, with the exception of SLSP 3130 - Principles and Applications of Adult Learning. Students successfully completing the remaining 96.0 credits in the program will fulfill all course requirements for the Bachelor's degree.

CONCENTRATION IN INVESTIGATIONS

Students completing the following courses as part of the degree will receive a concentration in Criminal Investigations. These courses may be taken to fulfill a portion of the elective requirement.

• These courses may be available only online.

CJE 2678	Crime Scene Dynamics I	4.0
CJE 2679	Crime Scene Dynamics II	4.0

MASTER OF SCIENCE IN CRIMINAL JUSTICE BRIDGE PROGRAM (COURSES OFFERED ONLINE ONLY)

The Criminal Justice Department offers eligible students the opportunity to accelerate the completion of both a Bachelor of Science in Criminal Justice and a Master's of Science in Criminal Justice. The Bridge Program is designed to improve access to graduate education and is intended to decrease the repetition of material learned in the undergraduate program. It provides students the opportunity to take graduate level coursework while pursuing the baccalaureate degree. Up to twelve graduate credits may be used toward the completion of the undergraduate degree.

Students with a CGPA of 3.0 or better are eligible to apply to this program in their junior year. Qualified students in the program may take Masters-level courses during their senior undergraduate year. Students may apply by submitting a written request to their Department Chair. The approval of the Academic Dean is required.

An articulation of course equivalents ensures that prerequisite requirements are met. Students are assigned faculty advisors to facilitate entrance into the program. Upon completion of the baccalaureate degree and successful completion of the Bridge Program, students will be granted advanced placement within the Masters of Science Program.

Bridge Program - Replace following BS coursework with related MS Coursework

PARALEGAL, BACHELOR OF SCIENCE DEGREE 48 months – 192 Credit Units

V 2.0

Graduates of the Paralegal program are prepared, under the direction of an attorney, to interview, gather, review and analyze factual situations; research the law; prepare and interpret legal documents, and conduct day to day operations of a legal office. Graduates of the program may find employment in legal offices, state and federal government agencies, corporate legal departments, consumer groups, insurance companies, banks, title companies, and legal aid societies.

The Bachelor of Science degree in Paralegal enhances the study of law and legal research to permit graduates to further their legal knowledge while enhancing their opportunity for career advancement. The program is offered for students who have 36.0 or more transferable quarter (24.0 semester) credits. Students who have earned an approved Associate of Arts degree may be enrolled with Junior standing and can complete the bachelors with an additional 96.0 credits.

The Paralegal program is a terminal degree in that it trains individuals for entry-level positions and is not a preparatory curriculum for law school.

Must include at least one course from each of the following subject areas:	
Communications/Humanities	
Math/Science	
Social Science	
TOTAL GENERAL EDUCATION CREDIT HOURS:	54.0
APPROVED ELECTIVE REQUIREMENT**	46.0
TOTAL QUARTER CREDIT HOURS REQUIRED FOR GRADUATION:	192.0

*This course is not offered online.

**Elective Requirements: Students may fulfill the balance of the credit requirements for the degree by taking up to 46.0 credits in the electives category.

***General Education Requirements: To include a minimum of 54.0 quarter credits of general education coursework taken from the Humanities, Social Sciences and Math/Science categories. In addition to the courses specified in the general education section of the program outline, students must complete a total of 24.0 credits from the following subject areas, with a minimum of 4.0 credits taken from each area:

- Communications/Humanities
 -may include ENCP 3211, AML 2000
- Social Sciences
 may include SYG 2001, SOP 4005, CPO 4003, AMH 2030, POS 2041, ECO 3007, ECO 3028
 Mathematica and Science
- Mathematics and Science -may include: STA 2014

Associate's Degree Transfer Students: Students who enroll with an approved Associate's degree will have 96.0 transfer credits applied to the overall degree requirement of 192.0 quarter credits. Approval is based upon the degree being earned at an accredited institution, and includes a minimum of 36.0 semester or 54.0 quarter credits of general education coursework. Transfer students in this category have satisfied all elective and general education requirements, with the exception of SLSP 3130—Principles and Applications of Adult Learning. Students successfully completing the remaining 96.0 credits in the program will fulfill all course requirements for the bachelor's degree.

MASTER'S DEGREE PROGRAMS

The admissions procedures, program regulations, transfer policies, graduation requirements, degree objectives, program requirements and course descriptions specific to the Master of Business Administration degree program are described in the following section. The policies and procedures applicable to all Everest University students, as stated in the catalog, are also applicable to students enrolled in graduate degree programs.

ADMISSIONS REQUIREMENTS

GRADUATE PROGRAM ADMISSIONS REQUIREMENTS

- Applicants must have successfully completed a bachelor's degree program from an accredited college or university. Official transcripts must be provided.
- Applicants are informed of their acceptance status shortly after all required information is received and the applicants' qualifications are reviewed.
- Upon acceptance into the school, applicants who are enrolling will complete an enrollment agreement.
- Students may apply for entry at any time. Students are responsible for meeting the requirements of the catalog in effect at the time of enrollment.
- Re-entry students are subject to all program requirements, policies, and procedures as stated in the school catalog in effect at the time of re-entry. All re-entering students must sign a new enrollment agreement.
- Certain prerequisite courses are necessary for the pursuit of many courses offered at the graduate level. Such prerequisites must have been completed before entrance into a specific course.

Prerequisite Requirements for Graduate Programs

Applicants whose undergraduate degrees are in fields outside the program area are invited to apply, but foundation work will be required before certain higher level courses may be taken. All graduate students must meet certain prerequisite requirements prior to enrolling in Managerial Economics, International Economic Systems, Quantitative Methods, Financial Management, and certain graduate-level accounting courses.

Graduate Categories of Enrollment

Applicants to the graduate programs may be classified in one of two categories: Regular Graduate Student or Provisional Graduate Student.

Regular Graduate Students

Applicants must have achieved a cumulative grade point average of not less than 3.0 for all undergraduate upper-level division work; or must score not less than 470 on the Graduate Management Admission Test (GMAT); or must achieve a comparable score on the Graduate Record Examination (GRE) to become a candidate for a master's degree.

Provisional Graduate Students

Applicants who do not meet the requirements to be classified as a Regular Graduate Student may enroll and matriculate as a Provisional Graduate Student by having achieved a grade point average of not less than 2.0 for all undergraduate upper division work. The provisional status will remain in effect until the student has earned a score of not less than 470 on the GMAT, a comparable score on the GRE, or has satisfactorily completed 16.0 credits of graduate course work at the University with a grade point average that meets the minimum standards of progress for the graduate program.

ONLINE COURSE REQUIREMENTS

Online courses are offered at the campus through the Online Division of CCi using the eCollege platform via the Internet. Online courses have the same course objectives and outcomes as courses taught on-ground, although more individual focus and initiative is required to successfully master the material. Online courses are designated on the class schedule so students register during the normal registration period. Students registering for an online course must obtain prior approval from their Program Director or the Academic Dean. To maximize success within the online courses, students must have available to them a computer with a system profile that meets or exceeds the following:

Windows Systems

Windows 7, XP, or Vista 56K modem or higher Sound Cards & Speakers Firefox, Chrome, or Microsoft Internet Explorer

Mac Systems

Mac OS X or higher (in classic mode) 56K modem or higher Sound Cards & Speakers Apple Safari, Chrome, Firefox

In addition, students taking online courses must:

- Check quarterly to make sure they are maintaining the correct systems profile;
- Have Internet access and an established email account;
- Verify email account/address with Online Coordinator at the time of registration each quarter;
- Commence online course work as soon as students have access to the courses;
- Participate in classes and complete learning and graded activities weekly throughout the course.

ACADEMIC POLICIES

DIRECTED STUDY

- Students unable to take a specific required course due to work schedule conflicts, emergency situations, or course scheduling conflicts may request permission to complete a course through directed study.
- Graduate students may complete a maximum of one course (4.0 quarter credits) through directed study.
- Students may not take more than one directed study course in a single academic term.

STANDARDS OF SATISFACTORY ACADEMIC PROGRESS FOR GRADUATE PROGRAMS

Accreditor and federal regulations for receiving title IV financial assistance require that students enrolled in a graduate program meet certain qualitative and quantitative standards in order to continue their studies. The qualitative and quantitative standards must be cumulative and must include all periods of the student's enrollment regardless of whether or not financial aid was received. Completion of prerequisite requirements for admission to a master's program does not count toward the credit requirement for a master's degree. Therefore, these credits do not count toward meeting SAP requirements.

Evaluation Periods

School shall evaluate academic progress for all graduate students at the end of each academic term.

Satisfactory Academic Progress Requirements

Graduate students must maintain a minimum CGPA of 3.0. When a student repeats a course, the student's CGPA will be recalculated based on the higher of the two grades earned. Withdrawals and transfer credits have no effect on the student's CGPA.

Rate of Progress Toward Completion

Graduate students must maintain a minimum cumulative completion rate of two-thirds of credits attempted (67%). ROP is determined by dividing the number of credit hours earned by the number of credit hours attempted. Credit hours attempted include completed credits, transfer credits, withdrawals, and repeated courses.

Maximum Time Frame

The maximum time frame for completion of all graduate programs is limited to 150% of the published length of the program. Additionally, all requirements for graduate degrees must be completed within five (5) calendar years from the start of the initial term of enrollment.

Satisfactory Academic Progress Table for Graduate Programs

GRADUATE DEGREES – QUARTER CREDITS						
Total	SAP	SAP Not	SAP	SAP Not		
Credits	Advising	Met if	Advising if	Met if rate		
Attempted*	if CGPA	CGPA is	rate of	of		
	is below	below	progress is	progress		
			below	is below		
1 - 16	3.0	N/A	66.66%	N/A		
17 – 27	3.0	2.75	66.66%	50%		
28 – 39	3.0	2.9	66.66%	60%		
40 - 84	3.0	3.0	66.66%	65%		

TRANSFER CREDITS

In addition to the transfer policies stated in the Academic Policies section of the catalog, the following applies to individuals enrolled in graduate level programs:

Maximum Transfer Credits Accepted

 A student attempting to transfer a graduate-level course from another accredited institution must provide evidence that the course is related in content to the program of study at the school. The school will accept no more than 24.0 graduate-level hours in transfer, and no graduate-level course may be transferred in which the student received a grade below a "B."

Requirements for Graduation

- Successfully complete all courses in the program with a 3.0 CGPA within the maximum time frame for completion as stated in the school catalog.
- Meet any additional program specific requirements as stated in the catalog.

TUITION, FEES AND FINANCIAL AID

Quarter-based programs will be charged for the student's first quarter (or mini-term quarter start) in attendance. Tuition and fees for subsequent quarters will be charged at the published rate in effect at the beginning of that quarter. The minimum full-time course load is 8 credits per quarter for graduate programs. MBA students taking undergraduate courses as pre-requisites for graduate-level courses are ineligible to receive Title IV funding for those courses. Additional tuition and fee information may be found in "Tuition and Fees" section of the catalog. Additional Financial Aid information may be found in the "Financial Information" section of the catalog.

DEGREE OBJECTIVES AND PROGRAM OUTLINE

Business Administration, Master of Business Administration Degree

56.0 Credit Units

V 1.0

The Master of Business Administration program enhances the students' effectiveness in business and industry through the continued acquisition and refinement of knowledge and skills. The MBA program emphasizes the development of critical thinking, initiative, independence, and responsibility necessary to achieve the heightened self-discipline, skill, and reasoning to become valued leaders in the business community. In addition, a graduate student may include an area of concentration by completing four courses, from any one concentration category listed: Accounting, Human Resources Management, International Business (Online Only) or General Management.

Applicants whose undergraduate degrees are in a field outside the program areas are encouraged to apply.

NOTE: Prerequisite foundation work may be required before selected higher-level coursework may be attempted. All graduate students must meet certain prerequisite requirements prior to enrolling in Managerial Economics, International Economic Systems, Quantitative Methods, Financial Management, and certain graduate-level accounting courses. Previous transcripted coursework in these areas at either the undergraduate or graduate level may be acceptable to suffice the prerequisite requirement.

Quantitative methods theory and problems relating to business and industry in sur	porting administrative decision
making. Prerequisites: QMB5305 or equivalent Lecture Hours: 40.0; Lab Hours: 00	
STA2014 – Statistics	4.0 Quarter Credit Hours
This course introduces students to statistical techniques. Methods of describing, su	immarizing, and analyzing data
are presented. Prerequisites: MAT1033 Lecture Hours: 40.0; Lab Hours: 00.0; Othe	
TAX6065 - Tax Research and Planning	4.0 Quarter Credit Hours
A study of the legislative, administrative, and judicial sources of federal tax law	. Emphasis on the use of tax
research tools in locating, interpreting, and communicating tax law and on the comp	
legal research and quantitative decision making. Prerequisites: TAX4011 Lecture	
Other Hours: 00.0	

FLORIDA'S STATEWIDE COURSE NUMBERING SYSTEM

Courses in this catalog are identified by prefixes and numbers that were assigned by Florida's Statewide Course Numbering System (SCNS). This numbering system is used by all public postsecondary institutions in Florida and 27 participating nonpublic institutions. The major purpose of this system is to facilitate the transfer of courses between participating institutions. Students and administrators can use the online SCNS to obtain course descriptions and specific information about course transfer between participating Florida institutions. This information is at the SCNS website at http://scns.fldoe.org.

Each participating institution controls the title, credit, and content of its own courses and recommends the first digit of the course number to indicate the level at which students normally take the course. Course prefixes and the last three digits of the course numbers are assigned by members of faculty discipline committees appointed for that purpose by the Florida Department of Education in Tallahassee. Individuals nominated to serve on these committees are selected to maintain a representative balance as to type of institution and discipline field or specialization.

The course prefix and each digit in the course number have a meaning in the SCNS. The listing of prefixes and associated courses is referred to as the "SCNS taxonomy." Descriptions of the content of courses are referred to as "statewide course profiles."

Prefix	Level Code	Century Digit	Decade Digit	Unit Digit	Lab Code
	(first digit)	(second digit)	(third digit)	(fourth digit)	
ENC	1	1	0	1	
English	Lower (Freshman)	Freshman	Freshman	Freshman	No laboratory
Composition	Level at this	Composition	Composition	Composition	component in
	institution		Skills	Skills I	this course
	institution		Skills	Skills I	t

Example of Course Identifier

General Rule for Course Equivalencies

Equivalent courses at different institutions are identified by the same prefixes and same last three digits of the course number and are guaranteed to be transferable between participating institutions that offer the course, with a few exceptions, as listed below in *Exception to the General Rule for Equivalency*.

For example, a freshman composition skills course is offered by 59 different postsecondary institutions. Each institution uses "ENC_101" to identify its freshman composition skills course. The level code is the first digit and represents the year in which students normally take the course at a specific institution. In the SCNS taxonomy, "ENC" means "English Composition," the century digit "1" represents "Freshman Composition," the decade digit "0" represents "Freshman Composition Skills," and the unit digit "1" represents "Freshman Composition Skills I."

In the sciences and certain other areas, a "C" or "L" after the course number is known as a lab indicator. The "C" represents a combined lecture and laboratory course that meets in the same place at the same time. The "L" represents a laboratory course or the laboratory part of a course that has the same prefix and course number but meets at a different time or place.

Transfer of any successfully completed course from one participating institution to another is guaranteed in cases where the course to be transferred is equivalent to one offered by the receiving institution. Equivalencies are established by the same prefix and last three digits and comparable faculty credentials at both institutions. For example, ENC 1101 is offered at a community college. The same course is offered at a state university as ENC 2101. A student who has successfully completed ENC 1101 at a Florida College System institution is guaranteed to receive transfer credit for ENC 2101 at the state university if the student transfers. The student cannot be required to take ENC 2101 again since ENC 1101 is equivalent to ENC 2101. Transfer credit must be awarded for successfully completed equivalent courses and used by the receiving institution to determine satisfaction of requirements by transfer students on the same basis as credit awarded to the native students. It is the prerogative of the receiving institution, however, to offer transfer credit for courses successfully completed that have not been designated as equivalent. **NOTE**: Credit generated at institutions on the quarter-term system may not transfer the equivalent number of credits to institutions on the semester-term system. For example, 4.0 quarter hours often transfers as 2.67 semester hours.

The Course Prefix

The course prefix is a three-letter designator for a major division of an academic discipline, subject matter area, or subcategory of knowledge. The prefix is not intended to identify the department in which a course is offered. Rather, the content of a course determines the assigned prefix to identify the course.

Authority for Acceptance of Equivalent Courses

Section 1007.24(7), Florida Statutes, states:

Any student who transfers among postsecondary institutions that are fully accredited by a regional or national accrediting agency recognized by the United States Department of Education and that participate in the statewide course numbering system shall be awarded credit by the receiving institution for courses satisfactorily completed by the student at the previous institutions. Credit shall be awarded if the courses are judged by the appropriate statewide course numbering system faculty committees representing school districts, public postsecondary educational institutions, and participating nonpublic postsecondary educational institutions to be academically equivalent to courses offered at the receiving institution, including equivalency of faculty credentials, regardless of the public or nonpublic control of the previous institution. The Department of Education shall ensure that credits to be accepted by a receiving institution are generated in courses for which the faculty possess credentials that are comparable to those required by the accrediting association of the receiving institution. The award of credit may be limited to courses that are entered in the statewide course numbering system. Credits awarded pursuant to this subsection shall satisfy institutional requirements on the same basis as credits awarded to native students.

Exceptions to the General Rule for Equivalency

Since the initial implementation of the SCNS, specific disciplines or types of courses have been excepted from the guarantee of transfer for equivalent courses. These include courses that must be evaluated individually or courses in which the student must be evaluated for mastery of skill and technique. The following courses are exceptions to the general rule for course equivalencies and may not transfer. Transferability is at the discretion of the receiving institution.

- A. Courses not offered by the receiving institution.
- B. For courses at non-regionally accredited institutions, courses offered prior to the established transfer date of the course in question.
- C. Courses in the _900-999 series are not automatically transferable, and must be evaluated individually. These include such courses as Special Topics, Internships, Apprenticeships, Practica, Study Abroad, Theses, and Dissertations.
- D. College preparatory and vocational preparatory courses.
- E. Graduate courses.
- F. Internships, apprenticeships, practica, clinical experiences, and study abroad courses with numbers other than those ranging from 900-999.
- G. Applied courses in the performing arts (Art, Dance, Interior Design, Music, and Theatre) and skills courses in Criminal Justice (academy certificate courses) are not guaranteed as transferable. These courses need evidence of achievement (e.g., portfolio, audition, interview, etc.).

Courses at Nonregionally Accredited Institutions

The SCNS makes available on its home page (http://scns.fldoe.org) a report entitled "Courses at Nonregionally Accredited Institutions" that contains a comprehensive listing of all nonpublic institution courses in the SCNS inventory, as well as each course's transfer level and transfer effective date. This report is updated monthly.

Questions about the SCNS and appeals regarding course credit transfer decisions should be directed to Tinamarie Aguilar at the Transfer Center (877) 727-0058, or to the Florida Department of Education, Office of Articulation, 1401 Turlington Building, Tallahassee, Florida 32399-0400. Special reports and technical information may be requested by calling the SCNS office at (850) 245-0427 or at http://scns.fldoe.org.

COURSE DESCRIPTIONS – ASSOCIATE'S & BACHELOR'S DEGREE PROGRAMS

ACG2021 - Introduction to Corporate Accounting 4.0 Quarter Credit Hours
This course defines financial accounting objectives and their relationship to business. Students learn about the
fundamental principles of accounting and the accounting cycle as it applies to corporations. Prerequisites: APA212
Lecture Hours: 40.0; Lab Hours: 00.0; Other Hours: 00.0
ACG2178 - Financial Statement Analysis 4.0 Quarter Credit Hours
This course covers the basics of financial statement analysis in directing a firm's operations. Students will gain an
understanding of how funds are acquired in financial markets and the criteria used by investors in deciding where
to place their funds. <i>Prerequisites: None</i> . Lecture Hours: 40.0; Lab Hours: 00.0; Other Hours: 00.0
ACG2551 - Non-Profit Accounting 4.0 Quarter Credit Hours
In this course the student explores accounting systems unique to non-profit organizations. Accounting principles for
hospitals and educational organizations are examined. <i>Prerequisites:</i> ACG2021 Lecture Hours: 40.0; Lab Hours: 00.0
Other Hours: 00.0
ACG3073 - Accounting for Managers 4.0 Quarter Credit Hours
This course teaches the student how to use and interpret accounting information in day to day management
Emphasis is placed on the general knowledge and decision making practices used by managers when addressing
issues in service, financial, not-for-profit and manufacturing companies. Prerequisites: None Lecture Hours: 40.0
Lab Hours: 00.0; Other Hours: 00.0
ACG3103 - Intermediate Accounting I 4.0 Quarter Credit Hours
This is an upper Level course for the serious accounting student. It is a continuation and comprehensive study of
financial accounting concepts, applications, and the presentation of information in financial statements. Emphasis
is placed on review of the value of money and accounting for cash and receivables. Prerequisites: APA2161 Lecture
Hours: 40.0; Lab Hours: 00.0; Other Hours: 00.0
ACG3113 - Intermediate Accounting II 4.0 Quarter Credit Hours
This is a continuation and comprehensive study of financial accounting theory and applications. Emphasis is placed
on accounting for inventories, long-term assets and liabilities, and stockholders' equity. Prerequisites: ACG310.
Lecture Hours: 40.0; Lab Hours: 00.0; Other Hours: 00.0
ACG3123 - Intermediate Accounting III 4.0 Quarter Credit Hours
This is a continuation and comprehensive study of financial accounting concepts, applications, and the
presentation of information in financial statements. Emphasis is placed on special topics in income determination
and financial reporting. Concepts of revenue recognition, leases, pensions, accounting for income taxes and
earnings per share are among the subjects to be studied. <i>Prerequisites: ACG3113</i> Lecture Hours: 40.0; Lab Hours
00.0; Other Hours: 00.0
ACG3341 - Cost Accounting I 4.0 Quarter Credit Hours
This course examines the development and operation of cost accounting systems. Topics include basic cost
accounting concepts and product costing techniques. Prerequisites: APA2161 Lecture Hours: 40.0; Lab Hours: 00.0
Other Hours: 00.0
ACG3351 - Cost Accounting II 4.0 Quarter Credit Hours
This is a continuation of Cost Accounting I and includes in-depth studies of techniques and issues surrounding cost
allocation methods, cost and variance analysis, and complex accounting problems. Prerequisites: ACG334
Lecture Hours: 40.0; Lab Hours: 00.0; Other Hours: 00.0
ACG4201 - Consolidation Accounting 4.0 Quarter Credit Hours
In this course students will study the major areas of emphasis in consolidation accounting which include business
combinations, consolidation procedures, and foreign currency accounting. Prerequisites: None Lecture Hours: 40.0
Lab Hours: 00.0; Other Hours: 00.0
ACGP4632 - Auditing I 4.0 Quarter Credit Hours
This course is an overview of financial statement auditing concepts and standards. It is an introduction to the
principles and procedures that enable the auditor to express an opinion on the fairness and reliability of financia
statements. Prerequisites: ACG3123 Lecture Hours: 40.0; Lab Hours: 00.0; Other Hours: 00.0
ACO1806 - Payroll Accounting 4.0 Quarter Credit Hours
This course provides students with a working knowledge of payroll laws, principles, practices, methods and
systems. Students gain hands-on experience performing the payroll function. <i>Prerequisites: APA2111</i> Lecture
Hours: 30.0; Lab Hours: 20.0; Other Hours: 00.0
AMH2030 - 20th Century American History 4.0 Quarter Credit Hours
A survey of the events of the modern era of American history. This course begins with the Spanish American War
the watershed of the 20th Century, and covers the political, social and diplomatic developments including the
populist movement, World War I, the Treaty of Versailles, the Jazz Age, the Great Depression, the New Deal
World War II, the Atomic Age, the Cold War, the Korean and Vietnam conflicts, the information age, civil rights and
feminism. Prerequisites: None. Lecture Hours: 40.0; Lab Hours: 00.0; Other Hours: 00.0

AMI 2000 Introduction to American Literature	
AML2000 - Introduction to American Literature	4.0 Quarter Credit Hours
This course concentrates on the major writers of modern American literature. 40.0; Lab Hours: 00.0; Other Hours: 00.0	Prerequisites: None Lecture Hours:
APA2111 - Principles of Accounting I	4.0 Quarter Credit Hours
This course emphasizes accrual accounting based upon generally accepted	
income statement procedures, computerized accounting applications, and the	e accounting cycle are nighlighted.
Prerequisites: None Lecture Hours: 40.0; Lab Hours: 00.0; Other Hours: 00.0	4.0 Overter Credit Hours

This course is an overview of contemporary non-institutional methods of corr correctional system. <i>Prerequisites: CCJ1020</i> Lecture Hours: 40.0; Lab Hours: 00.0; Ot	rection utilized by the American ther Hours: 00.0
CCJ3450 - Criminal Justice Management	4.0 Quarter Credit Hours
An examination of front-line supervision, executive development, administrative lear research in criminal justice management. <i>Prerequisites: CCJ1020</i> Lecture Hours: 44 00.0	
CCJ3644 - Methodology of Economic Crimes This course will explore current trends in economic crimes and the investigative t offenses. Relationships between victims and offenders will be examined. Stude common methods of operation associated with economic crimes. <i>Prerequisites:</i> Hours: 00.0; Other Hours: 00.0	ents will understand motives and
CCJ3666 – Victimology	4.0 Quarter Credit Hours
This course examines criminal victimization in the United States. Topics covered in victims of crime, the character and extent of modern criminal victimization, experience, victim treatment at the hands of the justice system, and reforms imply system response to victimization. <i>Prerequisites: CCJ1020</i> . Lecture Hours: 40.0; Lab I	nclude the historical treatment of the nature of the victimization emented to enhance the justice-
CCJ3670 - Women, Crime, and Criminal Justice	4.0 Quarter Credit Hours
This course provides an examination of the role women play as perpetrator professionals working in the criminal justice system. In addition, theories of fen social forces influencing the treatment of women as offenders, victims, and justi <i>Prerequisites: CCJ1020.</i> Lecture Hours: 40.0; Lab Hours: 00.0; Other Hours: 00.0	male criminality and the general
CCJ4054 - Criminal Justice Ethics and Liability	4.0 Quarter Credit Hours
The various forms of corruption, misconduct and abuse of authority that exist with	in the criminal justice system will
be identified and analyzed. Areas of negligence, which lead to liability, will be ex Lecture Hours: 40.0; Lab Hours: 00.0; Other Hours: 00.0	xplored. Prerequisites: CCJ1020.
CCJ4127 - Criminal Justice in the Community	4.0 Quarter Credit Hours
This course explores the interrelationships and role expectations among the var practitioners, their agencies and the public. Principal emphasis will be placed upor system of justice administration and the development of positive relationships betw the public. <i>Prerequisites: CCJ1020</i> Lecture Hours: 40.0; Lab Hours: 00.0; Other Hours	on the professional image of the veen members of the system and
CCJ4129 - Cultural Diversity for Criminal Justice Professional	4.0 Quarter Credit Hours
This course focuses on understanding various cultural perspectives and appropri	
pertains to diverse cultural expectations. <i>Prerequisites: CCJ1020 (PLA1003 for Para Lab Hours: 00.0; Other Hours: 00.0</i>	
CCJ4656 - Gang Activity and Drug Operations	4.0 Quarter Credit Hours
This course focuses on the establishment of gangs, organizational structure, beha	avior patterns, and recruitment of
members. The course also examines the criminal justice response to gang-relat	
and drug trafficking. <i>Prerequisites: CCJ1020</i> Lecture Hours: 40.0; Lab Hours: 00.0; O CCJ5489 - Ethics in Criminal Justice	
An overview of ethical theory, doctrines, and controversies in the field of criminal	-
upon the dilemmas faced by criminal justice practitioners seeking to make ap decisions. <i>Prerequisites: None</i> Lecture Hours: 40.0; Lab Hours: 00.0; Other Hours: 00	propriate ethical judgments and
CCJ5665 - Victimology	4.0 Quarter Credit Hours
Although most criminal justice courses are oriented around issues associated w examine issues related to victimization. These topics include the historical role of v justice process, the nature and extent of modern criminal victimization, the participation in the justice system, and recent trends in transforming the role of t	vith the offender, this course will victims in the formal and informal victimization experience, victim
Prerequisites: None Lecture Hours: 40.0; Lab Hours: 00.0; Other Hours: 00.0	

CCJ5672 - Women, Crime, and Criminal Justice

This course provides an examination of the role women play as perpetrators of crime, crime victims, and professionals working in the criminal justice system. Theories of female criminality and the social forces influencing the treatment of women as offenders and victims will be covered. The continuing emergence of women in justicerelated occupations will also be discussed. Prerequisites: None Lecture Hours: 40.0: Lab Hours: 00.0: Other Hours: 00.0

CCJP2288 - Spanish for the Criminal Justice Professional

This course provides criminal justice professionals with a fundamental communication skill set in the Spanish language. Students will address Spanish phrases and terms that will enhance the ability to respond to emergencies and function in other justice related environments. Prerequisites: None. Lecture Hours: 40.0; Lab Hours: 00.0; Other Hours: 00.0

CCJP4400 - Criminal Justice Senior Capstone Experience

4.0 Quarter Credit Hours The Senior Capstone course is designed to: (1) help seniors integrate the knowledge gained from their other required criminal justice courses, (2) assist them in developing analytical thinking skills through focusing on selected topics using a seminar approach, and (3) to support them in gaining a better understanding of the criminal justice profession and the role they may play in it. The capstone course will support students in learning to pose significant questions grounded in existing theory and inquiry, select and use methods appropriate to the question and research context, produce appropriate evidence, subject the evidence to analysis, respond to critiques and provide advice and comments for other's research, organize oral and written presentations in response to fair and open critiques. Prerequisites: The student must be in good standing as stated in the Standards of Satisfactory Academic Progress and be in the last 24 credits of their program and/or have approval of the Department Chair. Lecture Hours: 40.0; Lab Hours: 00.0; Other Hours: 00.0

CCJP4550 - Criminal Justice Externship

This course provides the student with the opportunity to directly apply the knowledge and skills learned in the program by working in a criminal justice agency or other suitable location for 120.0 Hours. Prerequisites: The student must be in good standing as stated in the Standards of Satisfactory Academic Progress and be in the last 24 credits of their program and/or have approval of the Department Chair. Lecture Hours: 00.0; Lab Hours: 00.0; Other Hours: 120.0

CEN1056 - Project Development

This course prepares students to administer and participate in effective project development. Emphasis will be on people, planning, processes, and communication. Students will work in teams to define project objectives, schedule, budget, and accomplish project objectives on time and within budget. Prerequisites: None Lecture Hours: 20.0; Lab Hours: 00.0; Other Hours: 00.0

CENP2345C - Network Security

This course covers the fundamentals of security in networks and focuses on the implementation of security strategies and the configuration, maintenance, monitoring and troubleshooting of the available security features. Through a combination of lecture and hands-on labs, students learn how to plan and deploy secure communications for wireless networks, and remote applications, Prerequisites: CTS2303C, CTS2383C, CNT2400C Lecture Hours: 30.0; Lab Hours: 20.0; Other Hours: 00.0

CENP2420C - Implementing and Administering Databases

This course covers essential topics necessary to enable students to set up and support a database server. Students build real world support skills by working via lessons and hands-on labs to gain practical experience with installing, administering and troubleshooting a database server. Prerequisites: CTS1327C, CTS1334C Lecture Hours: 30.0; Lab Hours: 20.0; Other Hours: 00.0

CENP2450C - Database Design

4.0 Quarter Credit Hours This course builds on the fundamentals of database installation and administration and focuses upon the database objects present within a scalable database server. Students will become familiar with the programming objects available within a database and learn how to plan, design, create and manipulate the objects within a database. Prerequisites: CTS1327C, CTS1334C Lecture Hours: 30.0, Lab Hours: 20.0, Other Hours: 00.0

CET1605C - Network Routing I

4.0 Quarter Credit Hours This course introduces students to internetworking using software and hardware developed by Cisco Systems Inc. Through a combination of lecture and hands-on labs, students will learn about a variety of topics related to network computing. Network architecture, network protocols, IP addressing, subnetting, the Cisco Router User Interface, switching technologies and the IP routing process are covered. Prerequisites: CNT1003C Lecture Hours: 30.0; Lab Hours: 20.0; Other Hours: 00.0

CET2607C - Network Routing II

4.0 Quarter Credit Hours This course expands upon the topics covered in Network Routing I to enable the student to gain knowledge and experience with the design, installation, and configuration of networks in a business environment. Topics to be covered include Virtual LANs, WAN protocols, and managing a Cisco internetwork. Prerequisites: CET1605C Lecture Hours: 30.0; Lab Hours: 20.0; Other Hours: 00.0

CGS1280C - Computer Hardware Concepts	4.0 Quarter Credit Hours
Students will be introduced to a variety of hardware components and their relate	d functions in personal computers.
Topics included are installing, diagnosing, troubleshooting, and repairing PC ha	
students should have the ability to build a fully functional personal computer fron	
repair malfunctions in an existing machine. Prerequisites: None. Lecture Hours:	
CGS 2060C - Computer Applications	4.0 Quarter Credit Hours
This course introduces the essential concepts necessary to make effective use	
an understanding of what a computer can do, how it works, and how it can be	
word processing and spreadsheet applications for personal and business use.	Prerequisites: None Lecture Hours:
30.0; Lab Hours: 20.0; Other Hours: 00.0	
CGS2501C - Applied Word Processing	4.0 Quarter Credit Hours
This course covers the various techniques used in intermediate to advanced w	vord processing. Emphasis will be
placed on using and creating templates, developing multi-page documents, build	
and diagrams. In addition, students will learn document collaboration technique	
Prerequisites: CGS2060C Lecture Hours: 30.0; Lab Hours: 20.0; Other Hours: 00.0	
CGS2573C - Applied Spreadsheets	4.0 Quarter Credit Hours
This course covers the various techniques used in developing spreadsheet ap	
tracking and analysis. Course topics include using formulas, employing creat	
Additional skills coverage includes use of graphics, developing pivot tables, and	nd managing lists. Prerequisites:
CGS2060C Lecture Hours: 30.0; Lab Hours: 20.0; Other Hours: 00.0	
CIS2321 - Introduction to the Systems Development Life Cycle	4.0 Quarter Credit Hours
This course presents an overview of the System Development Life Cycle	(SDLC). It begins with problem
identification and proceeds through feasibility analysis, requirements analysis,	design, implementation, operation
and maintenance. Prerequisites: None Lecture Hours: 40.0; Lab Hours: 00.0; Other	
CIS3303C - Object-Oriented Analysis and Design	4.0 Quarter Credit Hours
This course analyzes the concepts and methods used in object-oriented sys	
object-oriented concepts, tools, the development life cycle, modeling, analysis

I appreciate a provide light on the field of law. Trains include an interduction to extend and shift law, constitution	
present a new challenge in the field of law. Topics include an introduction to criminal and civil law, constitu	
law, search and seizure, and a discussion of employment law and liability. As the ever-growing number of ag	
become involved in legal issues, it is important that the student be aware of the basis of the laws and regulat	
order to prepare for changes in these areas. <i>Prerequisites: None</i> Lecture Hours: 40.0; Lab Hours: 00.0; Other	Hours:
00.0	
CJL2130 - Criminal Evidence 4.0 Quarter Credit I	Hours
This course focuses on the nature of evidence as it relates to the pretrial and trial process, including: with	esses,
hearsay, admissions and confessions, and the exclusionary rule. Emphasis is placed on specific types of evid	dence:
circumstantial, documentary, physical, documentary and recorded. Prerequisites: CCJ1020 Lecture Hours: 40	
Hours: 00.0; Other Hours: 00.0	.0, 200
CJL2134 - Criminal Procedure and the Constitution 4.0 Quarter Credit I	Hours
There will be a discussion of the Constitutional aspects of criminal procedure. The student will learn proc	
aspects of the criminal system from arrest or summons through pretrial motions, trial, post-conviction and app	
processes. A study of the Constitution at work in the court system with current applications. Prerequisites	: None
Lecture Hours: 40.0; Lab Hours: 00.0; Other Hours: 00.0	
CJL3215 - Concepts of Criminal Law 4.0 Quarter Credit I	
This course covers the historical development and philosophy of criminal law. Discussion includes definitions	
classifications of crimes, Constitutional provisions, legal research, study of case law, and significance of law	<i>N</i> as a
social force. <i>Prerequisites: CCJ1020</i> . Lecture Hours: 40.0; Lab Hours: 00.0; Other Hours: 00.0	
CNT1003C - Computer Networking Fundamentals 4.0 Quarter Credit I	Hours
This course provides an overview of the field of local area networking and internetworking. Students are intro	duced
to the terminology, operating systems, hardware, and administration of various components of a computer ne	
including network topology, TCP/IP, the OSI reference model, and network security, among others. Student	
learn and perform basic end-user functions and introductory administration operations of a network. Prerequ	
None. Lecture Hours: 30.0; Lab Hours: 20.0; Other Hours: 00.0	aloncoo.
CNT2400C - Network Security Fundamentals 4.0 Quarter Credit I	Houre
This course is an introduction to the components of network security. It takes a comprehensive look at network	
security and provides an organized view of the field, including the tools and techniques necessary to safe	eguaro
network data. Prerequisites: CNT1003C Lecture Hours: 30.0; Lab Hours: 20.0; Other Hours: 00.0	
COP2000C - Programming Concepts 4.0 Quarter Credit	
This course provides the student with an introduction to the fundamentals of computer problems solvin	
programming. Students are introduced to structured and object-oriented programming concepts in a lang	juage-
independent manner. Basic programming concepts, specific control structures, and object-oriented desig	gn are
explored. Prerequisites: None Lecture Hours: 40.0; Lab Hours: 00.0; Other Hours: 00.0	
COP2170C - Computer Programming - Visual Basic I 4.0 Quarter Credit	Hours
This course provides an introduction to the Visual Basic programming language. Students develop exec	
programs that utilize an interactive graphical-user interface in the Windows environment. <i>Prerequisites: COP</i>	
Lecture Hours: 30.0; Lab Hours: 20.0; Other Hours: 00.0	20000
COP2171C - Computer Programming - Visual Basic II 4.0 Quarter Credit	Hours
This course is a continuation of COP2170C. It provides advanced concepts of the Visual Basic program	
language, including the Windows API/Messaging System, OLE automation, and Internet-enabled application	auons.
Prerequisites: COP2170C Lecture Hours: 30.0; Lab Hours: 20.0; Other Hours: 00.0	

4.0 Quarter Credit Hours

COP2224C - Computer Programming - C++ I 4.0 This course emphasizes programming with C++ functions, arrays, pointers and stri substantial applications that process lists and tables of data in arrays—performing tasks and sorting data, and displaying graphical representations of data. The course present of pointers, including pointer-based string processing and passing data between fun <i>Prerequisites: COP2505C</i> Lecture Hours: 30.0; Lab Hours: 20.0; Other Hours: 00.0	such as searching s a thorough discussion
This course is a continuation of COP2224C, emphasizing C++'s features and capabil	ending the language by olymorphism, and using
This course teaches basic computer software development using the Java programming the principles and techniques of object-oriented programming and explains the concepts <i>Prerequisites: COP2505C</i> Lecture Hours: 30.0; Lab Hours: 20.0; Other Hours: 00.0	
COP2505C - Fundamental Programming Techniques 4.0 This course provides an introduction to programming using a primary programming langu practice, students will develop simple working programs. The course emphasizes fun concepts, algorithmic thinking, problem-solving techniques, pseudo code, diagramming alg students to the object-oriented programming methodology. <i>Prerequisites: COP2000C L</i> Hours: 20.0; Other Hours: 00.0	damental programming gorithms, and introduces
COP2805C - Programming Languages - Java II 4.0 This course is a continuation of COP2250C. It covers advanced Java programming topics an emphasis on the graphical user environment. It also demonstrates how to provide more solutions to Web server-side applications. <i>Prerequisites: COP2250C</i> Lecture Hours: 30.0 Hours: 00.0	extensible and portable ; Lab Hours: 20.0; Other
COP3764C - Structured Query Language 4.0 This course introduces the student to the basic operations of the Structure Query Langurer creation, single table queries, multi-table queries, database restrictions, and using programming languages are discussed. <i>Prerequisites: CIS3345</i> Lecture Hours: 30.0; Lab H 00.0	SQL with high- Level
COP4724C - Database Application Development4.0This course is an introduction to applications program development in a database environloading, modifying, and querying the database using a host language. Prerequisites: COPCOPP2281 or COP2171CLecture Hours: 30.0; Lab Hours: 20.0; Other Hours: 00.0	
This course teaches basic computer software development using the C# programming lan principles and techniques of object-oriented programming and explains the concepts <i>Prerequisites: COP2505C</i> Lecture Hours: 30.0; Lab Hours: 20.0; Other Hours: 00.0	
This course is a continuation of COPP2280C, emphasizing C#'s features and capabil programming (OOP). Students focus on programming with common library classes and ext creating new classes. <i>Prerequisites: COPP2280C</i> Lecture Hours: 30.0; Lab Hours: 20.0; Other	tending the language by r Hours: 00.0
A study of the classical concepts and dynamic factors of international politics, and their refinstitutions, and processes of contemporary international relations. Particular attention is interest, diplomacy, sovereignty, foreign policy formulation, alliances, war and peace, ideological and economic factors. <i>Prerequisites: None</i> Lecture Hours: 40.0; Lab Hours: 00.0; Contemporary international relations.	paid to power, national and the importance of Other Hours: 00.0
This course focuses on the software operating systems that run today's personal comp placed on commands, functions, and terminology through practical instruction in the installa upgrade of operating systems. <i>Prerequisites: None</i> Lecture Hours: 30.0; Lab Hours: 20.0; Oth	ation, configuration, and her Hours: 00.0
CTS1327C - Network Operating Systems – Client 4.0 This course covers the essential topics necessary to enable students to set up and sup network operating system. Students build real world support skills by working via lesson gain practical experience with installing, administering, and troubleshooting a network op environment. <i>Prerequisites: CNT1003C</i> Lecture Hours: 30.0; Lab Hours: 20.0; Other Hours: 00	s and hands-on labs to perating system desktop

CTC4224C Natural Operation Systems Contains	4.0 Ouerter Credit Heure
CTS1334C - Network Operating Systems – Server	4.0 Quarter Credit Hours
This course covers the essential topics necessary to enable students to set u	
network operating system. Students build real world support skills by workin	
gain practical experience with installing, administering and troubleshooting	a network server. Prerequisites:
CNT1003C Lecture Hours: 30.0; Lab Hours: 20.0; Other Hours: 00.0	
CTS2303C - Network Directory Services	4.0 Quarter Credit Hours
This course provides the students with the steps necessary to plan, configure,	
infrastructure. Topics include management methods for a large-scale networ	
directory replication, and database maintenance. Prerequisites: CNT1003C Le	ecture Hours: 30.0; Lab Hours: 20.0;
Other Hours: 00.0	
CTS2321C - Linux Administration	4.0 Quarter Credit Hours
This course enables students to gain an understanding of the Linux operatin	
operating system, Linux has found a place among computer professionals as	
variety of networking applications. Students learn about desktop environme	nts that make it easy for them to
configure Linux features and programs. Prerequisite: none. Lecture Hours: 30.0; L	ab Hours: 20.0; Other Hours: 00.0
CTS2304C - Network Directory Design	4.0 Quarter Credit Hours
This course discusses the planning, issues, and options available to the network	rk administrator who is designing a
Windows Directory Services infrastructure. Key topics include the netwo	ork's physical topology, security,
administration, naming standards, and migration issues. Prerequisites: CTS230	3C Lecture Hours: 30.0; Lab Hours:
20.0; Other Hours: 00.0	
CTS2313C - Internet Security and Acceleration Server	4.0 Quarter Credit Hours
This course teaches students the basic concepts of proxy servers and firewalls	s. Students will learn how to install
the Microsoft Internet Security and Acceleration (ISA) Server, setup access ru	
VPN access points and configure intrusion detection. Prerequisite: CTS 1334C. L	
Other Hours: 00.0	
CTS2330C - Implementing and Supporting Email Services	4.0 Quarter Credit Hours
This course provides students the ability to set up and support network e-mail	services. Working via lessons and
hands-on labs, students gain practical experience installing, administering, and	
server software. Prerequisite: CTS 1334C. Lecture Hours: 30.0; Lab Hours: 20.0; Ot	
CTS2383C - Network Management	4.0 Quarter Credit Hours
Students will gain a basic understanding of the steps necessary to implement,	
network and server environments. Students will focus on performing des	
configuration tasks, as well as network and operating system management	
environment. Prerequisites: CTS2303C, CTS2386C Lecture Hours: 30.0; Lab Hour	
CTS2386C - Network Infrastructure	4.0 Quarter Credit Hours
This course covers the topics necessary for students to be able to deliver secu	-
to organizations utilizing Microsoft network operating systems. Working via les	
learn how to install, manage, and troubleshoot the network protocols and servic	
system. <i>Prerequisites: CNT1003C</i> Lecture Hours: 30.0; Lab Hours: 20.0; Other Hou	
CTS4107 - Survey of Operating Systems	4.0 Quarter Credit Hours
This course provides a study of operating systems that includes memory man	
i disk management scheduling and resource retention. It addresses these toni	
disk management, scheduling, and resource retention. It addresses these topi	ics from a workstation, server, and

EVS1001 - Environmental Science	4.0 Quarter Credit Hours

FIN1103 - Introduction to Finance	4.0 Quarter Credit Hours
This course is a survey of the financial considerations encountered during life, including	
taxes, insurance, investments, retirement and estate planning. Prerequisites: None Lea	cture Hours: 40.0; Lab Hours:
00.0; Other Hours: 00.0	
FIN3005 - Principles of Finance	4.0 Quarter Credit Hours
This course examines the financial decisions that impact management and corporate fin	nancial officers. It is also an
introduction to financial theory, principles and terminology. Prerequisites: MAN2021. Let	
00.0; Other Hours: 00.0	
FIN3501 - Investments	4.0 Quarter Credit Hours
This course is a study of securities and securities markets; analysis of various catego	
public securities, and other investments; types of risks and taxes that affect investment	
investment values. <i>Prerequisites: FIN1103.</i> Lecture Hours: 40.0; Lab Hours: 00.0; Other Ho	
FIN4602 - International Business and Finance	4.0 Quarter Credit Hours
This course is a study of financing international trade, the transfer of international pays	
trade and payment restrictions, foreign exchange rates and investments. A survey	
Community and developing nations with particular attention to the Caribbean and Sou	
	In America is also included.
Prerequisites: FIN3005. Lecture Hours: 40.0; Lab Hours: 00.0; Other Hours: 00.0	
GEB2353 - International Competitiveness	4.0 Quarter Credit Hours
A special study of international business with emphasis on cultural diversity and an over	
and differences among developing and developed countries. Prerequisites: None. Leo	ture Hours: 40.0; Lab Hours:
00.0; Other Hours: 00.0	
GEB4352 - International and Comparative Industrial Relations	4.0 Quarter Credit Hours
This course examines the various aspects of globalization, acquiring, and operating a si	
in a global environment. It is a comprehensive discussion of problems encountered	
global management principles and procedures provides methods of resolving these pr	oblems. Prerequisites: None.
Lecture Hours: 40.0; Lab Hours: 00.0; Other Hours: 00.0	
GEB4361 - Management of International Business	4.0 Quarter Credit Hours
This course is a study of the characteristics, operation, and function of business in the	global market. The following
topics are included in the course; political economy, political culture, international trade	and investment, the global
monetary system, and management and business structures for the internation	nal business environment.
Prerequisites: MAN1030 or MAN2021 Lecture Hours: 40.0; Lab Hours: 00.0; Other Hours: 0

APPENDIX A: PROGRAM DISCLOSURES

Everest University, Largo

The following program disclosures are provided pursuant to federal law.

"Occupation" data reflects the type of occupations the program generally prepares students to enter. (For government data regarding occupations, please navigate to <u>www.onetonline.org</u>.) To the extent permitted under the standards of the applicable accrediting agency or state agency, the placement rates reported below may reflect students who completed the program and obtained employment in one of the occupations listed in the standard occupational titles below or other occupations that utilize the core skills taught in the program.

"On-Time Completion Rate" reflects the percent of graduates between July 1, 2010, and June 30, 2011, who completed their program within 100 percent of the normal time frame as described in the school catalog or enrollment agreement.

"Costs to Students" reflects the costs of the academic program for students completing the program on time, including tuition and fees, estimated books and supplies, and if applicable, room and board. Costs do not reflect potential increases and are current as of the publication date of this disclosure.

"Placement Rates" reflects the percent of graduates securing employment as calculated pursuant to the required calculation methodologies and time frames of the applicable state agencies, institutional accrediting agencies or programmatic accrediting agencies. Each agency has different criteria in determining what constitutes a placement, and these placements may or may not be listed in the standard occupations listed below. (For more information about calculations and time frames, refer to the descriptions at the end of this disclosure.)

"Median Loan Debt" reflects the median loan debt incurred by students who completed the program, between July 1, 2011, and June 30, 2012, including Title IV program loans, private educational loans and institutional financing plans.

Unless otherwise noted below, the data included in this disclosure are for the entire educational institution as defined by the Department of Education, which may include a number of individual campus locations (even in different states) and both online and physical delivery modalities. See footnotes for a list of the campuses included in the institution. In many cases, the on-time completion rate, the cost to students, the placement rate and the median loan debt may differ (often significantly) between these physical locations and delivery modalities. The data below reflect averages for all students in all locations and delivery modalities (or, in the case of program cost, the ranges of program costs) across all locations and delivery modalities.

Footnotes:

Institutional Accreditor - ACICS uses the following formula to calculate placement for accredited institutions: placed in a field of study plus placed in a field related to study divided by the number of graduates and completers minus those unavailable for work. Placed in a field of study involves the direct use of the skills taught in the program. Placed in a field related to study involves an indirect use of the skills taught in the program. Time Frame: July 1, 2009 through June 30, 2010.

Programmatic Accreditor - ABHES uses the following formula to calculate placement for accredited institutions: graduates placed in a field of study plus placed in a field related to study divided by the number of graduates and completers minus those unavailable for work. Time Frame: July 1, 2009 through June 30, 2010.

Programmatic Accreditor - CAAHEP/MAERB uses the following formula to calculate placement for accredited institutions: number of graduates employed full or part-time in a related field, as well as those continuing their education or serving in the military, divided by number of graduates. Time Frame: July 1, 2009 through June 30, 2010.

State - Commission on Independent Education calculation for placement rate: number of graduates placed divided by number of graduates less employed in military or continuing education. Time Frame: July 1, 2010 through June 30, 2011.

Placement Rate N/A - There is no data to disclose because this program is too new or is not required to be calculated. On-Time Completion N/A - Per Education Department guidance, data not provided due to fewer than ten completers or program is too new.

Median Load Debt N/A - Per Education Department guidance, data not provided due to fewer than ten completers or program is too new.

This Institution Includes:

- Everest University, Jacksonville
- Everest University, Lakeland
- Everest University, Largo

FLORIDA PHARMACY TECHNICIAN DISCLOSURE

This disclosure includes important information for students enrolling in Everest's Pharmacy Technician program. Pharmacy technicians are required to be registered with and be certified by the Florida Board of Pharmacy prior to obtaining employment as a pharmacy technician in the state of Florida. This disclosure provides information on registration requirements. Please review this information and be sure that you understand it. If you have any questions, please contact Everest or the Florida Board of Pharmacy for additional information. If you plan to seek employment in a state other than Florida, please contact that state's board of pharmacy, or equivalent agency, for any relevant licensure or registration requirements. The Pharmacy Technician program at Everest meets requirements as a recognized course of training by the Florida State Board of Pharmacy. In addition to statemandated minimum requirements, Everest's Pharmacy Technician curriculum includes a variety of additional skills focused subjects, as well as coursework in Pharmacology.

Pharmacy Technicians must be registered with the Florida Board of Pharmacy. To gain registration a pharmacy technician must complete a training program approved by the Board of Pharmacy.

The board shall register each applicant who is at least 17 years of age, has completed a pharmacy technician training program approved by the Board of Pharmacy, completed the application form, and has remitted a registration fee set by the board at \$105. The fee is composed of the following: a non-refundable application processing fee of \$50; initial registration fee of \$50 and unlicensed activity fee of \$5.00. Checks are to be made payable to the "Department of Health" and applications will be reviewed within 30 days.

As a condition of biennial registration renewal, a registered pharmacy technician shall submit a \$55 renewal fee and complete 20 hours of continuing education courses approved by the board or the Accreditation Council for Pharmacy Education, of which 4 hours must be via live presentation and 2 hours must be related to the prevention of medication errors and pharmacy law. Additionally, for the first renewal of registration a registered pharmacy technician must complete 1 hour of continuing education on the topic of HIV/AIDS.

Applications must be completed online through the Florida Board of Pharmacy website: <u>http://www.doh.state.fl.us/mga/pharmacy</u>.
