# PRESIDENT'S MESSAGE

We would like to welcome you to Everest University, whose location provides a friendly, small-campus atmosphere where our dedicated staff can take a personal interest in the progress of each student. This caring attitude, combined with progressive curricula from diplomas to associate and bachelor's degrees to graduate-level programs, affords our students a meaningful higher education experience, as well as effective preparation for a wide variety of careers.

Obtaining a college education gives our graduates a competitive edge in their career field and will make the difference when they are considered for professional advancement. Our programs are designed for employment in the state of Florida as well as other progressive areas throughout the country.

Our goal is to provide our students with quality instruction, a sense of professional responsibility, a desire for lifelong learning, and the essential skills and abilities to qualify them for their chosen career.

Building on the traditions of Tampa College (the oldest business college in Florida, founded in 1890), we have made every effort to fulfill our obligations to those who have entrusted their educational and career goals to Everest University. Therefore, we invite all interested parties to visit our campus and review our wide variety of programs. Our experienced admissions officers will assist in the important process of identifying the program best suited for the candidate's special interests, talents, and goals.

Benjamin Franklin once said, "If a man empties his purse into his head, no man can take it away from him." An investment in knowledge always pays the best interest.

Sincerely,

Human M. Aalan

Thomas M. Barlow Campus President

# ABOUT EVEREST UNIVERSITY

# ZENITH EDUCATION GROUP

Everest University is part of the Zenith Education Group, a nonprofit provider of career school training. Above all, we are driven to promote the long-term success of our graduates—measured in strong program completion and job placement rates. As the largest nonprofit career college system in America, we are working to help our students access the high-quality education necessary to enter into prosperous and fulfilling careers.

# THE ZENITH COMMITMENT TO STUDENTS

At Zenith Education Group, we are committed to operating with integrity and complying with laws, regulations, accreditation standards, polices and our company values. Upholding these commitments is essential to fulfilling our mission to help students succeed in their pursuit of an educational experience that prepares them for the workforce.

We commit to:

- Tell the truth about
  - o Educational program content
  - o Instructor qualifications
  - Program enrollment requirements
  - Cost of education
  - o Educational program financing options and obligations
  - Program completion rates
  - Verifiable and accessible job placement and salary information
  - o Projected lifetime earnings versus the cost of the student's education
- Be transparent with our students, each other, our regulators and the public regarding our
  - o Ethical standards
  - Commitment to students
  - Program objectives and outcomes
  - o Marketing and student recruiting initiatives and materials
  - Ongoing support for students' educational goals
  - o Accreditation and regulatory compliance
- Provide marketing and recruiting information and materials that are
  - Clearly written and understandable
  - Focused on the prospective student's career goals
  - Presented to suitable student prospects
  - Honest about the student's responsibilities that lead to completion and placement
  - Respectful of competing schools' programs
- Be innovative through
  - Fostering an environment that supports creative educational approaches in support of program objectives and outcomes
  - Engaging our students and faculty in creating "learning laboratories" to test dynamic career education concepts
  - o Continually learning and improving upon our innovative approaches
  - o Reinvesting materially in enhancing student programs
  - o Providing the student an affordable education
- Develop transformative education models based on meaningful collaboration with
  - o Students
  - o Employees
  - o Employers
  - o Educators
  - Program Advisory Committees
  - o Thought Leaders, Foundations and other Engaged Communities

# MISSION

The mission of the institution is to provide a high-quality educational experience to qualified undergraduate and graduate students through the delivery of traditional and online career-oriented diploma, associate's, bachelor's and master's degree programs delivered through a personalized teaching and learning environment that is designed to support students' personal and professional career development.

In support of its mission, Everest has adopted the following goals:

- Academics To provide challenging and relevant accredited programs in a variety of career-oriented disciplines, incorporating effective educational methodologies, modern technology, and traditional and alternative instructional delivery systems, characterized by effective teaching and a student-centered atmosphere.
- Educational Support Services To provide a variety of programs and services that support its educational goals and purpose, are consistent with student needs, encourage student success, enhance diversity, and improve the quality of life for students.
- Enrollment To manage the controlled growth of a diverse student body through the use of effective and ethical recruitment and retention methods and initiatives, and to support the quality of educational opportunities for all students, while meeting the school's fiscal needs.
- Business and Finance To manage and increase resources in accordance with sound business practices, regulatory standards, and applicable laws.
- Physical Resources To ensure that the physical resources, including buildings and equipment, are adequate to serve the needs of the institution, support its purpose, and contribute to an atmosphere for effective learning.
- Continuous Improvement To continuously improve the quality of programs and services to meet the needs of its students, communities, and other key stakeholders.

# SCHOOL HISTORY AND FACILITIES

The Tampa campus was formerly known as Tampa College. Founded in 1890, Tampa College is the oldest business college in the state. It became Florida Metropolitan University in 1996 and ultimately Everest University in 2007. In February 2015, Zenith Education Group purchased the school from Corinthian Colleges, Inc. and transitioned it from a for-profit college into a dynamic nonprofit learning institution.

The Tampa campus, known as the West Building, is located at 3319 W. Hillsborough Ave, Tampa, FL, and across the street is its campus addition, known as the East Building, located at 3251 W. Hillsborough Ave., Tampa.

The two-story West Building is about 30,000 square feet, and the one-story campus addition is about 30,000 square feet. There are a total of 17 classrooms, 14 labs, a library, a career services suite, a bookstore, two student lounges, two reception areas, administrative offices and works spaces, and storage areas. Both locations are on major thoroughfares and are easily accessed by bus or car.

Everest University, the facilities it occupies and the equipment it uses comply with all federal, state and local ordinances and regulations, including those related to fire safety, building safety and health.

# LIBRARY

The library is designed to support the programs offered at the campus. Students and faculty have access to a wide variety of resources such as books, periodicals, computers and on-line resources to support its curriculum. The library is staffed with trained professionals to assist in the research needs of students and faculty, and it is conveniently open to accommodate class schedules.

# ACCREDITATION, LICENSURE AND APPROVALS

- Everest University is accredited by the Accrediting Council for Independent Colleges and Schools to award diplomas, associates, bachelors and masters degrees. The Accrediting Council for Independent Colleges and Schools (ACICS) is listed as a nationally recognized accrediting agency by the United States Department of Education and is recognized by the Council for Higher Education Accreditation. The Accrediting Council for Independent Colleges and Schools is located at 750 First Street, NE, Suite 980, Washington, D.C. 20002-4223; (202) 336-6780.
- The Electrician program is approved by the National Center for Construction Education and Research (NCCER), www.nccer.org.
- The Medical Assistant diploma program is accredited by the Commission on Accreditation of Allied Health Education Programs (<u>www.caahep.org</u>) upon the recommendation of the Medical Assisting Education Review Board (MAERB). The Commission on Accreditation of Allied Health Education Programs is located at 1361 Park Street, Clearwater, FL 33756, (727) 210-2350.
- The Pharmacy Technician program is accredited by the American Society of Health-System Pharmacists, 7272 Wisconsin Avenue, Bethesda, MD 20814, 301.657.3000, www.ashp.org.
- Assigned School by the National Certification Board of Therapeutic Massage & Bodywork (NCBTMB).
- The Massage Therapy program is approved by the Florida Board of Massage Therapy.
- Everest University, Tampa, an additional location of the North Orlando campus, is licensed by means of accreditation by the Commission for Independent Education, Florida Department of Education, 325 West Gaines Street, Suite 1414, Tallahassee, FL 32399-0400, toll free number (888) 224-6684 (License # 2603).
- Approved for the training of Veterans and eligible persons under the provisions of Title 38, United States Code.
- Authorized under federal law to enroll non-immigrant alien students.

#### **MEMBERSHIPS**

This campus is a member of the Florida Association of Postsecondary Schools and Colleges.

Copies of accreditation, approval and membership documentation are available for inspection at the campus. Please contact the Campus President to review this material.

#### GAINFUL EMPLOYMENT DISCLOSURES

For more information about our graduation rates, the median debt of students who completed the program and other important information, please visit our website at <u>www.everest.edu/disclosures</u>.

# **ADMISSIONS INFORMATION**

All admissions materials, including program disclosures and enrollment agreements are presented in English only, since all programs are taught in English. Each admissions representative conducts interviews with prospective enrollees in English only as the method to determine that the prospective enrollee understands and can function in English. We do not make any accommodations to present materials or instruct courses in any other language. Intensive English courses are offered at a cost separate from, and in addition to, the diploma and degree programs offered. No English as a second language courses are offered by the campus.

# **REQUIREMENTS AND PROCEDURES**

- High school diploma or a recognized equivalent such as the GED is required for admittance. Applicants will
  be required to sign an "Attestation Regarding High School Graduation or Equivalency" indicating they
  meet the school's requirements for admission.
- High school seniors who are accepted on a conditional basis must sign an "Attestation Regarding High School Graduation or Equivalency" following graduation and prior to starting classes.
- Applicants are informed of their acceptance status shortly after all required information is received and the applicants' qualifications are reviewed.
- Upon acceptance into the school, applicants who are enrolling will complete an enrollment agreement.
- Students may apply for entry at any time. Students are responsible for meeting the requirements of the catalog in effect at the time of enrollment.
- Re-entry students are subject to all program requirements, policies, and procedures as stated in the school catalog in effect at the time of re-entry. All re-entering students must sign a new enrollment agreement.
- All applicants will be required to submit one of the following:
  - 1) Completed Attestation regarding high school graduation or equivalency or
  - 2) Proof of High School graduation (POG) (i.e. copy of diploma or transcript) or
  - 3) Proof of a recognized equivalency certificate (GED) or other equivalent documentation.

# PROGRAM SPECIFIC ADMISSIONS REQUIREMENTS

# **CRIMINAL BACKGROUND CHECK**

- Students enrolled in certain programs may be subject to a criminal background check prior to enrollment to
  ensure they are qualified to meet occupational or employment requirements, clinical or internship/externship
  placement requirements or licensure standards for many programs, including but not limited to those in the
  allied health or criminal justice fields.
- Enrollment for students may not be granted when the background check identifies a conviction, pending case, or unresolved deferral/diversion for any felonies or misdemeanors.
- A student's inability to obtain criminal background clearance may prohibit opportunities for program completion and job placement. It is the student's responsibility to contact the agency to verify conditions. The school cannot contact the background check agency.
- All students re-entering a program requiring a criminal background check, shall be required to complete a Criminal Background Attestation, attesting that they do not have a criminal background that would preclude them from obtaining licensure, externship or placement in their desired career field.

# Massage Therapy Diploma Program

- Applicants must reach 18 years of age on or prior to the expected date of graduation.
- Applicants must pass a criminal background check and complete a student disclosure form.

# Associate in Science, Applied Management Program

 Applicants must have successfully completed a diploma or certificate program from an accredited postsecondary institution.

# Bachelor of Science, Applied Management Program

• Applicants must have successfully completed an accredited certificate, diploma, AS, or AAS degree in a field of applied science from an accredited post-secondary institution.

# **Bachelor of Science, Criminal Justice Program**

• Students who do not have the requisite number of credits for direct admission into the bachelor's program may be admitted into the Criminal Justice Associate in Science program.

# Pharmacy Technician Diploma Program

- Applicants must reach 18 years of age on or prior to the expected date of graduation.
- Students must meet with the Program Director during their first module.
- Applicants must pass a criminal background check and complete a student disclosure form.
- High School graduate or have a GED.

# ACADEMIC SKILLS ASSESSMENT

All students are required to go through the institution's assessment process. Students may be exempt from the assessment test if they provide official composite score of at least 15 on the ACT, a combined score on reading and math of at least 700 on the SAT, or proof of successful completion of a minimum of 36.0 quarter hours or 24.0 semester hours of earned college credit at an accredited postsecondary institution. As part of the enrollment process, assessment testing is required for students entering degree programs. Enrollees take the SLE assessment. If a student scores 12 or more, the student will proceed with standard coursework. If a student scores 9 to 11, it is recommended that the student attends math tutoring. If the score is 8 or below, it is recommended that the student attends tutoring to strengthen his/her skills in both English and Math.

# INTERNATIONAL STUDENTS ADMISSIONS REQUIREMENTS

- Provide a certified secondary school transcript or high school diploma as defined by the student's country of origin.
- Provide proof of English proficiency (if the student's first language is not English, an official test score on an approved English proficiency test is required).
- Proof of financial ability to meet expenses. Such evidence may be one of the following:
  - a) Bank letter verifying student's available funds (self-sponsoring).
  - b) Bank letter verifying sponsor's available funds if sponsor is not a citizen or a legal permanent resident of the U.S.
  - c) Form I-134 if sponsor is a citizen or legal permanent resident of the U.S.
  - d) If the applicant is sponsored by his/her home country, a statement of sponsorship.
- Be eligible for a student visa (F-1 or M-1).
- Enroll as a full time student (for undergraduates, at least 12 quarter credit hours; for graduate students at least 8 quarter credit hours; for Intensive English students and modular program students, at least 18 clock hours of attendance per week).
- Pay the required minimum tuition deposit.
- Pay the non-refundable SEVIS processing fee (if done through the school)
- International students must meet the same programmatic entrance requirements as domestic students.

Note: M-1 students may not enroll in online courses. F-1 students may enroll in no more than one (1) online course per term.

# English Proficiency

All international students whose first language is not English must provide proof of English proficiency. English proficiency may be established by providing documentation of one of the following:

- Passing score on an English skills assessment test (see below)
- Graduation from an American/International high school program where the curriculum is taught in English
- Graduation from a high school in the U.S. as an exchange student
- Graduation from a high school in a country where English is the official language

The acceptable skills assessment tests for **diploma and undergraduate programs** are the Test of English as a Foreign Language (TOEFL), the Michigan English Language Assessment Battery (MELAB), the International English

Language Testing System Exam (IELTS), and the English Language School Center (ELS) test. The required passing score on each test is as follows:

Test:	TOEFL	MELAB	IELTS	ELS
Score:	45 Internet Based 133 Computer Based 450 Paper Based	60	5.0	Completion of Level 107

# ACADEMIC POLICIES

# **EVEREST REGULATIONS**

Each student is given the school catalog, which sets forth the policies and regulations under which the institution operates. It is the responsibility of the student to become familiar with these policies and regulations and to comply accordingly. Ignorance of or lack of familiarity with this information does not serve as an excuse for noncompliance or infractions.

Everest reserves the right to change instructors, textbooks, accreditation, schedules, or cancel a course or program for which there is insufficient enrollment. The student will receive a full refund for courses or programs that are cancelled. The school also reserves the right to change course curricula, prerequisites and requirements upon approval by the school's accrediting agency and state licensing board.

# **DEFINITION OF CREDIT**

Everest awards credit in the form of quarter credits. One quarter credit is equivalent to a minimum of 10 class hours of theory or lecture instruction, a minimum of 20 hours of supervised laboratory instruction, or a minimum of 30 hours of externship practice. For online learning purposes, one quarter credit is equivalent to a minimum of 10 hours of online learning.

Financial aid is administered as a clock-hour program for Massage Therapy.

# **OUT OF CLASS ASSIGNMENTS**

- Students in degree programs should expect to spend approximately two hours outside of class completing homework for every hour of in class lecture
- Students in diploma programs will be expected to complete assigned homework and other out-of-class assignments in order to successfully meet course objectives as set forth in the course/program syllabi

# TRANSFER OF CREDIT INTO EVEREST

Everest has constructed its transfer credit policy to recognize both traditional college credit and non-traditional learning. In general, Everest considers the following criteria when determining if transfer credit should be awarded:

- Accreditation of the institution;
- The comparability of the scope, depth and breadth of the course to be transferred; and
- The applicability of the course to be transferred to the student's desired program. This includes the grade and age of the previously earned credit.

If the learning was obtained outside a formal academic setting, through a nationally administered proficiency

exam, an IT certificate exam or military training, Everest will evaluate and award transfer credit using professional judgment and the recommendations for credit issued by the American Council on Education (ACE).

# Academic Time Limits

The following time limits apply to a course being considered for transfer credit:

- College Core and General Education course indefinite;
- Major Core course (except health science course within ten (10) years of completion; and
- Military training, proficiency exams (e.g. DANTES, AP, CLEP, Excelsior, etc.) and IT certificate exams the same academic time limits as College Core, General Education and Major Core courses.

**NOTE:** Due to certain programmatic accreditation criteria, health science core courses are eligible for transfer within five (5) years of completion.

# **Required Grades**

For diploma, associate's, and bachelor's degree programs, a letter grade of "C" (70%) or better is required for transfer credit to be awarded.

# **Maximum Transfer Credits Accepted**

Students enrolled in a diploma, associate or bachelor's degree program must complete at least 25% of the

program in residency at the institution awarding the degree or diploma. The remaining 75% of the program may be any combination of transfer credit, national proficiency credit, Everest developed proficiency credit or prior learning credit.

#### **Coursework Completed at Foreign Institutions**

All coursework completed at a foreign institution must be evaluated by a member of the National Association of Credential Evaluation Services (NACES) or a member of the Association of International Credentials Evaluators (AICE). An exception to this may be allowed for students transferring from Canada with prior approval from the Transfer Center.

#### Transfer Credit for Learning Assessment

Everest accepts appropriate credits transferred from the College Level Examination Program (CLEP), DANTES subject testing, and certain other professional certification examination programs. Contact the campus Academic Dean/Director of Education for the current list of approved exams and minimum scores required for transfer.

#### **Transfer Credit for Proficiency Examination**

Undergraduate students may attempt to challenge the requirement to certain selected courses by demonstrating a proficiency level based on special qualifications, skills, or knowledge obtained through work or other experience that is sufficient to warrant the granting of academic credit for a course through a Proficiency Examination. Similarly, Everest may award some credits toward undergraduate, associate, and diploma level courses for achievement of professional certifications such as CNE, MCSE, etc. For more information, please contact the Academic Dean or Director of Education.

# **Experiential Learning Portfolio**

Students may earn credit for experiential learning through the Prior Learning Assessment program. This program is designed to translate personal and professional experiences into academic credit. Procedures for applying for credit through experiential learning are available in the Academic Dean's/Director of Education's office.

#### Notice Concerning Transferability of Credits and Credentials Earned at Our Institution

The transferability of credits earned at Everest is at the complete discretion of an institution to which a student may seek to transfer. Acceptance of the degree, diploma or certificate earned in the program in which the student is enrolling is also at the complete discretion of the institution to which a student may seek to transfer. If the credits or degree, diploma or certificate that was earned at this institution are not accepted at the institution to which a student seeks to transfer, the student may be required to repeat some or all of his/her coursework at that institution. For this reason, the student should make certain that attendance at this institution will meet his/her educational goals. This may include contacting an institution to which a student may seek to transfer after attending Everest to determine if the credits or degree, diploma or certificate will transfer.

# **Transfer to Other Everest Locations**

Students in good standing may transfer to another Everest campus location. Transfer students are advised that they will be subject to the minimum residency requirements at the new campus for the program in which they are enrolled. Students may transfer applicable credits from Everest coursework in which a "C" or higher was earned; however, those credits will be treated as transfer credits and will not count toward fulfilling residency requirements at the new location.

#### Transfer to Participating Institutions in Florida's Statewide Course Numbering System (SCNS)

Everest University is a participating institution in the Florida Statewide Course Numbering System (SCNS). Please see the disclosure and explanation of the course numbering system and the benefits of this participation that are provided in the Course Offering section of the catalog.

# **Everest Consortium Agreement**

The Everest Consortium Agreement enables students to attend a limited number of classes (a maximum of 49% of credit hours) at an Everest campus location other than their home campus. In addition, students nearing completion of their program of study may finish their degree at another Everest campus location through the Consortium Agreement (a minimum of 51% of credit hours must be completed at the Home campus). Complete details on the Everest Consortium Agreement are available in the Academic Dean's/Director of Education's office.

#### **Articulation Agreements**

Everest University has articulation agreements with the following institutions: CompuCollege, CDI College, Elmira Business Institute, Mountain State University, Nova Southeastern University and University of Phoenix.

Students should contact their Everest University campus Academic Dean for additional information on articulation agreement transfer terms and conditions.

# **Transfer Center Assistance**

Any questions regarding the transfer of credit into or from Everest should be directed to the Transfer Center at (877) 727-0058 or email transfercenter@zenith.org.

# **ONLINE COURSE REQUIREMENTS**

Online courses are offered at the campus through the Online Division of Zenith using the eCollege platform via the Internet. Online courses have the same course objectives and outcomes as courses taught on-ground, although more individual focus and initiative is required to successfully master the material. Online courses are designated on the class schedule so students register during the normal registration period. Students registering for an online course must obtain prior approval from their Program Director or the Academic Dean. To maximize success within the online courses, students must have available to them a computer with a system profile that meets or exceeds the following:

#### Windows Systems

Windows 7, 8, XP, or Vista 56K modem or higher Sound Cards & Speakers Firefox, Chrome, or Microsoft Internet Explorer 10 and 11

#### Mac Systems

Mac OS X 10.7 or higher (in classic mode) 56K modem or higher Sound Cards & Speakers Safari, Chrome or Firefox 31 and 32

In addition, students taking online courses must:

- Check quarterly to make sure they are maintaining the correct systems profile;
- Have Internet access and an established email account;
- Verify email account/address with Online Coordinator at the time of registration each quarter;
- Commence online course work as soon as students have access to the courses;
- Participate in classes and complete learning and graded activities weekly throughout the course.

# **DIRECTED STUDY**

- Students unable to take a specific required course due to work schedule conflicts, emergency situations, or course scheduling conflicts may request permission to complete a course through directed study.
- Associate's degree students may apply a maximum of 8.0 quarter credit hours earned through directed study to the major core of study.
- Bachelor's degree students may apply a maximum of 16.0 quarter credits of directed study to the major core of study.
- Students may not take more than one directed study course in a single academic term.
- Diploma students are not eligible for Directed Study

# **GRADING SYSTEM AND PROGRESS REPORTS**

The student's final grade for each course or module is determined by the average of the tests, homework, class participation, special assignments and any other criteria indicated in the grading section of the syllabus for the course or module. Final grades are reported at the completion of each grading term and are provided to each student. If mailed, they are sent to the student's home address. Failed courses must be repeated and are calculated as an attempt in Satisfactory Academic Progress calculations.

Grade	Point Value	Meaning Percentage Scale					
A	4.0	Excellent 100-90					
В	3.0	ery Good 89-80					
С	2.0	ood 79-70					
D*	1.0	Poor	69-60				
F**	0.0	Failing	59-0				
Fail	Not Calculated	Fail (for externship/internship)					
Pass	Not Calculated	Pass (for externship/internship)					
IP	Not Calculated	In Progress (for linear externship/internship/modular clinic courses or thesis courses only)					
L	Not Calculated	Leave of Absence (allowed in modular programs only)					
EL	Not Calculated	Experiential Learning					
PE	Not Calculated	Proficiency Exam					
PF	Not Calculated	Preparatory Fail					
PP	Not Calculated	Preparatory Pass					
W	Not Calculated	Withdrawal					
WZ	Not Calculated	d Withdrawal for those students called to immediate active military duty. This grade indicates that the course will not be calculated for purposes of determining rate of progress					
TR	Not Calculated						
	d in modular progra						

\*\*For modular programs, F (Failing) is 69-0%.

Treatment of Grades in the Satisfactory Academic Progress/Rate of Progress Calculation				
Grade	Included in GPA calculation?	Counted as attempted credits?	Counted as earned credits?	
Α	Y	Y	Y	
В	Y	Y	Y	
С	Y	Y	Y	
D	Y	Y	Y	
F	Y	Y	Ν	
Fail	Ν	Y	Ν	
Pass	Ν	Y	Y	
IP	Ν	Y	Ν	
L	Ν	N	Ν	
EL	Ν	Y	Y	
PE	Ν	Y	Y	
PF	Ν	N	Ν	
PP	Ν	N	Ν	
W	Ν	Y	Ν	
WZ	Ν	N	Ν	
TR	Ν	Y	Y	

# **GPA AND CGPA CALCULATIONS**

- The Grade Point Average (GPA) is calculated for all students. The GPA for each term and Cumulative Grade Point Average (CGPA) are calculated on courses taken in residence at Everest
- The Grade Point Average (GPA) is calculated at the end of each evaluation period by dividing the quality points earned by the total credits attempted for that evaluation period.
- The Cumulative Grade Point Average (CGPA) is calculated by dividing the total cumulative quality points earned by the total cumulative credits attempted for cumulative evaluation periods.
- The number of quality points awarded for each course is determined by multiplying the points listed for each letter grade by the number of credits of the course.

# STANDARDS OF SATISFACTORY ACADEMIC PROGRESS

Students must maintain satisfactory academic progress in order to remain eligible as regularly enrolled students and to continue receiving federal financial assistance. The accreditor and federal regulations require that all students progress at a reasonable rate toward the completion of their academic program. Satisfactory academic progress is measured by:

- The student's cumulative grade point average (CGPA)
- The student's rate of progress toward completion (ROP)
- The maximum time frame (MTF) allowed to complete the academic program (150% for all programs).

For clock hour modular programs, students must also maintain a satisfactory rate of attendance. The student may not have absences in excess of 10% of the scheduled hours in a payment period, measured at the nearest full module. The maximum time frame allowed to complete is 150% of total number of weeks in the program of study (MTF).

#### **Evaluation Periods for SAP**

Satisfactory academic progress is measured for all students at the end of each grading period (i.e., at the end of each term, module, phase, level, quarter and payment period).

# **Rate of Progress Toward Completion**

The school catalog contains a schedule designating the minimum percentage or amount of work that a student must successfully complete at the end of each evaluation period to complete their educational program within the maximum time frame (150%). Quantitative progress is determined by dividing the number of credit hours earned by the number of credit hours attempted. Credit hours attempted include completed hours, transfer credits, withdrawals, and repeated courses. Non-credit remedial courses have no effect on the student's ROP

#### **Maximum Time Frame to Complete**

The maximum time frame for completion of all programs below the master's level is limited by federal regulation to 150% of the published length of the program. School shall calculate maximum time frame using credit hours attempted. All credit hours attempted, which include completed credits, transfer credits, withdrawals, and repeated classes, count toward the maximum number of credits allowed to complete the program. Non-credit remedial courses have no effect on the student's maximum time frame.

For clock hour modular programs, a student is not allowed to attempt more than 1.5 times or 150% of the weeks in the program.

# Application of Grades and Credits to SAP

- Grades A through F are included in the calculation of CGPA and are included in the Total Number of Credit Hours Attempted.
- Transfer credits (TR) are not included in the calculation of CGPA but are included in the Total Number of Credit Hours Attempted and Earned in order to determine the required levels for CGPA and rate of progress.
- Courses with grades of Pass, EL and PE are not included in the CGPA calculation but do count as credit hours successfully completed for the rate of progress calculation.
- For calculating rate of progress, F grades and W grades are counted as hours attempted but are not counted as hours successfully completed. Grades of IP will also be counted as hours attempted but not as hours successfully completed.
- When a course is repeated, the higher of the two grades is used in the calculation of CGPA, and the total
  credit hours for the original course and the repeated course are included in the Total Credit Hours Attempted
  (in the SAP charts) in order to determine the required rate of progress level. The credit hours for the original
  attempt are considered as not successfully completed.
- When a student returns from a leave of absence and completes the course from which the student withdrew, the hours for which the student receives a passing grade are counted as earned; the grade, hours, and attendance for the original attempt prior to the official leave of absence are not counted for purpose of the rate of progress toward completion calculation and the original grade is not counted in the CGPA calculation.
- When a student transfers between programs, all attempts of courses common to both programs are included in the CGPA and ROP of the new program.

- Students graduating from one program and continuing on to another will have all successfully completed courses common to both programs included in the SAP calculations of the new program. Courses not in the new program, including grades of W or F, are excluded from all SAP calculations.
- Non-punitive grades are not used and non-credit and remedial courses do not factor into CGPA or ROP.

# SAP Advising

SAP Advising is the period of time during which a student is advised and monitored for progress for the remainder of the term. During the SAP advising period, the student is eligible for financial aid. Academic advising shall be documented using the **Academic Advising Form**. The form shall be kept in the student's academic file.

The Academic Dean/Director of Education (or designee) must provide a written notice of SAP Advising status. The following timelines apply for all students placed on SAP Advising status:

- For linear programs with an Add/Drop period:
  - Students must receive the notification by the first day of the term; and
  - o Must be advised within fourteen (14) calendar days after the term start.

NOTE: For terms without a break week, students must receive the notification within seven (7) calendar days after the term start and be advised within twenty-one (21) calendar days after the term start.

- For modular programs:
  - Students must receive the notification by the third (3) calendar day of the subsequent module; and
  - Must be advised within ten (10) calendar days after the module start. The (10) calendar days should exclude schedule breaks and Holidays.

# **Financial Aid Warning**

SAP is evaluated at the end of each term and all students with a cumulative grade point average (CGPA) and/or rate of progress (ROP) below the required academic progress standards as stated in the school's catalog will move into SAP NOT MET status. Students not meeting SAP and with a previous SAP status: SAP MET or SAP ADVISING will be issued FA Warning letter and be advised that unless they improve their CGPA and/or rate of progress toward completion, they may be withdrawn from their program and lose eligibility for federal financial aid.

# **Notification of Financial Aid Warning**

The Academic Dean/Director of Education (or designee) must provide the written notice of FA Warning status to all students with a previous SAP status: SAP Advising or SAP Met. The following timelines apply to all students receiving an FA Warning:

- For linear programs with an Add/Drop period:
  - o Students must receive the notification by the first day of the term; and
  - Must be advised within fourteen (14) calendar days after the term start.

# NOTE: For terms without a break week, students must receive the notification within seven (7) calendar days after the term start and be advised within twenty-one (21) calendar days after the term start.

- For modular programs:
  - o Students must receive the notification by the third (3) calendars day of the next module; and
  - Must be advised within ten (10) calendar days after the module start.

# **Financial Aid Probation**

At the end of each term following a SAP evaluation, students with an immediate SAP NOT MET status and who are SAP NOT MET again according to the academic progress standards stated in the school's catalog, will be notified with a SAP NOT MET letter indicating that they will be withdrawn unless they successfully appeal by written request within five (5) calendar days after the notification in accordance with the Academic Appeals Policy. Appeals shall only be granted for the following reasons: the death of a family member; an illness or injury suffered by the student; special circumstances of an unusual nature which are not likely to recur.

The Academic Dean/Director of Education (or designee) must provide written notice of all students placed on SAP NOT MET status:

- For linear programs with an Add/Drop period:
  - Students must receive the notification by the first day of the term;
  - If the student appeals this status and the appeal is approved, the student must receive an Academic Progress Plan within ten (10) calendar days after the appeal's approval.

# NOTE: For terms without a break week, students must receive the notification within seven (7) calendar days after the term start.

- For modular programs:
  - o Students must receive the notification by the third (3) calendar day of the next module;
  - If the student appeals this status and the appeal is approved, the student must receive an Academic Progress Plan within seven (7) calendar days after the appeal's approval.

# **Notification of Financial Aid Probation**

FA Probation is the term for which the student's appeal has been accepted and progress is monitored under an Academic Progress Plan. Students must be notified in writing of their probationary status within three (3) calendar days of the change in status in the student information system. During the period of FA probation students will continue to be eligible for financial aid.

While on FA probation, unless students improve their CGPA and /or rate of progress toward completion, in accordance with their Academic Progress Plan, they will be withdrawn from their program and become ineligible for further financial aid. All students on FA probation must be placed on an Academic Progress Plan. A student will remain on FA probation as long as he or she is meeting the requirements of his or her Academic Progress Plan when evaluated at the end of each evaluation period on the Plan.

#### Academic Progress Plan

Students on FA Probation must agree to the requirements of an Academic Progress Plan (APP) as a condition of their FA probation. Each student shall receive a copy of his or her APP. A copy of each student's APP shall be kept in the student's permanent academic file.

The APP may extend over one (1) or multiple terms, as defined at the initiation of the APP. At the end of the first evaluation period on the APP, the student will meet with the Academic Dean/Director of Education (or designee)/Online Designee for an evaluation of progress of the plan's requirements. If on a single-term plan and the student has met the requirement(s) of the plan, the student must be in SAP Advising or SAP Met status, and the student's APP shall be considered fulfilled and closed. If on a multi-term plan and the student has met the requirement(s) of the first evaluation period, then new requirement will be set and the student will be placed manually into SAP Meeting APP Status and will adhere to the subsequent term requirements of the APP.

If at the end of any SAP evaluation period on the plan (APP) the student does not meet the plan's requirement(s), the student will receive a dismissal letter and will be dismissed from the program. Additionally, a student is deemed to have not met the plan's requirements by earning a failing grade ("F") in any course while on the APP.

Students who have violated their FA Probation and have been dismissed from a program are not eligible for readmission to that program if they have exceeded, or may exceed, the maximum time frame of completion until they re-establish appropriate Satisfactory Academic Progress standing.

#### **Evaluation of Progress**

At the end of each evaluation period encompassed by the APP, the student will meet with the Academic Dean/Director of Education (or designee) for an evaluation of progress of the plan's requirements. Determination of the student's success at meeting APP requirement(s) must be completed no later than the second (2<sup>nd</sup>) calendar day of the module or term.

#### SAP Advising or SAP Met Status

If the student has met the requirements of a one-term plan, the student must be in SAP Advising or SAP MET status and the student's APP shall be considered fulfilled and closed. The student will be provided with either a SAP Advising or Return to Academic Good Standing Letter. In the case of SAP Advising, the student will be advised with the Academic Advising form and will be FA eligible.

The Academic Dean/Director of Education (or designee) must provide a written notice of Return to Academic Good Standing or SAP Advising status. The following timelines apply for all students placed on SAP Advising status:

- For linear programs with an Add/Drop period:
  - o Students must receive the notification by the first day of the term; and
  - Must complete the Evaluation of Progress form within fourteen (14) calendar days after the notification.

NOTE: For terms without a break week, students must receive the notification within seven (7) calendar days after the term start and must complete the Evaluation of Progress form within twenty-one (21) calendar days after the notification.

- For modular programs:
  - o Students must receive the notification by the third (3) calendar day of the subsequent module; and
- Must complete the Evaluation of Progress form within seven (7) calendar days after the notification.

#### SAP Not Met Status and/or Dismissal

If on a multi-term plan, it is likely the student will remain SAP NOT MET for the second (and ensuing) evaluation periods. At the end of each evaluation period, the student will be notified, evaluated for progress, and if the APP requirements are met, will be manually assigned SAP Meeting APP status and continue on the APP. New requirements for the second (or ensuing) evaluation period will be defined using the Evaluation of Progress form.

The Academic Dean/Director of Education (or designee) must provide a written notice of SAP NOT MET status. The following timelines apply for all students placed on SAP NOT MET status:

• For linear programs with an Add/Drop period:

- o Students must receive the notification by the first day of the term; and
- Must complete the Evaluation of Progress form within fourteen (14) calendar days after the notification.

NOTE: For terms without a break week, students must receive the notification within seven (7) calendar days after the term start and must complete the Evaluation of Progress form within twenty-one (21) calendar days after the notification.

- For modular programs:
- o Students must receive the notification by the third (3) calendar day of the subsequent module; and
- Must complete the Evaluation of Progress form within seven (7) calendar days after the notification.

If the student does not meet the Plan's requirements at the end of an evaluation period, the student will be dismissed from the program. If the student has not met the benchmark, the student must be dropped with the correct DOD (no later than second calendar day of module or term). The student must be notified of dismissal no later than the second calendar day of module or term.

NOTE: If the student has make-up work, and the campus is willing to accept it, it must be completed within four (4) calendar days of grades being entered (as long as this doesn't extend beyond ten (10) calendar days after mod- or term-end), or the student must be dropped with the correct DOD.

# SAP Re-Entry

Students who have violated FA Probation and have been dismissed shall not be readmitted if they cannot complete the program within the maximum time frame or re-establish appropriate Satisfactory Academic Progress (SAP) standing.

#### **Retaking Passed Coursework**

Students in non-modular programs may repeat coursework so long as such coursework does not include more than a single repetition of a previously passed course. Students in modular programs may not retake previously passed coursework unless the student has successfully completed all classroom modules. Each attempt counts in the calculation of the students' rate of progress and successful completion percentages. All repeated courses will appear on the student's transcript, but only the highest grade earned will be included in the calculation of their cumulative grade point average.

#### **Retaking Failed Coursework**

For the purpose of improving academic standing and establishing institutional grade point average, students must repeat any failed coursework. Failed courses may be repeated more than twice, so long as repeating the coursework does not jeopardize the students' maximum time frame of completion. Pre-requisite modules in diploma programs may not be repeated more than three (3) attempts. Each attempt counts in the calculation of the students' rate of progress and successful completion percentages. All repeated coursework will appear on the student's transcript, but only the highest grade earned will be included in the calculation of their cumulative grade point average. Attendance in successfully repeated classes/modules will also replace attendance in prior unsuccessful attempts.

# ADD/DROP POLICY (LINEAR PROGRAMS ONLY)

Students may add or drop courses during the add/drop period without academic penalty. However, they must first obtain the permission of the Academic Dean/Director of Education (or designee) and the Director of Student Finance (or designee). Students are not permitted to add a course after the end of the add/drop period. Students who attend a course after the add/drop period shall be charged for the course pursuant to the refund policy as stated in this catalog. Students who drop a course after the add/drop period shall receive a grade of "W" (Withdraw) and be charged for the course pursuant to the refund policy as stated in this catalog.

#### **Full Term Courses**

The add/drop period for full term courses is the first fourteen (14) calendar days of the term, excluding holidays and regularly scheduled breaks. The taking of attendance of students who enroll during the add/drop period shall begin the first scheduled class session following the student's enrollment. Therefore, students who enroll in a full-term course during the add/drop period must attend class by the earlier of the 21<sup>st</sup> calendar day of the term or the 14<sup>th</sup> calendar day after enrollment, or be dropped from the course.

#### Mini-Term Courses

The registration period for six-week 2 mini-term courses occurs well in advance prior to the start of the six-week 2 mini-term. Continuing students, who are already enrolled in full term courses, should complete registration for upcoming six-week 2 mini-term courses by the close of business on day twenty (20) of the full-term. Additionally, students must sign a Mini-Term Consent Form when registering for the upcoming six-week 2 mini-term courses.

Once the mini-term has begun, the add/drop period for mini-term courses is the first seven (7) calendar days of the term, excluding holidays and regularly scheduled breaks. The taking of attendance of students who enroll during

the add/drop period shall begin the first scheduled class session following the student's enrollment. Students who enroll in mini-term courses during the add/drop period must attend class by the 14<sup>th</sup> calendar day of the mini-term, or be dropped from the course.

# Effects of Add/Drop on Financial Aid Calculation

Adding or dropping a course may affect a student's enrollment status, and therefore the amount of financial aid for which the student is eligible. The Director of Student Finance (or Designee) is responsible for advising a student of the financial consequences of a change in registration.

In order for six-week 2 mini-term courses to be considered in the determination of a student's enrollment status for Pell grant purposes only, a student must register for the six-week 2 mini-term courses by the close of business on day twenty (20) of the start of the full term, i.e. prior to the Census date.

# ATTENDANCE POLICY

Attendance in class is critical to student academic success. This policy sets standards that provide for the withdrawal and dismissal of students whose absences exceed a set rate. Normally, a student is considered present if he or she is in the assigned classroom for the scheduled amount of time, i.e., neither late for class (tardy) nor leaving before the end of class (leave early). However, an instructor may consider a student present who does not attend the entire class session if (a) the criteria used to make the determination are stated in the course syllabus and (b) the amount of time missed does not exceed 50% of the class session.

**In clock hour modular programs**, the student is awarded one hour of attendance for each 50-minute academic hour attended (there is a 10-minute administrative grace period).

# **Establishing Attendance/ Verifying Enrollment**

- For programs with an add/drop period, the taking of attendance for a student enrolling during the add/drop period shall begin the first scheduled class session following the student's enrollment.
- In programs without an add/drop period, new students registered for a class shall attend by the second scheduled class session or be withdrawn.

# Monitoring Student Attendance

Faculty shall monitor student attendance on the basis of both consecutive absences (the "Consecutive Absence Rule") and absences as a percentage of the hours (minus externship hours) in the term/program (the "Percentage Absence Rule"). A student may appeal an attendance dismissal pursuant to the Student Academic Appeals Policy.

Should an appeal be granted, the student is not dismissed, but shall be placed on probation and monitored with an advising plan. Should an appeal not be granted, the student shall be withdrawn from all courses and dismissed from school, and shall not be charged for attending while the appeal was pending. Students dismissed due to an attendance violation must reapply for admission to the school.

# Make-Up Attendance

In clock hour modular programs, students may choose to, or be required to, make-up attendance. Make-up attendance can occur only outside of regularly-scheduled class time, and the quantity of make-up attendance per module cannot exceed the quantity of absence in that module. Make-up attendance must be completed by 14 calendar days after mod end, and make-up work must be related to the module in which the absence occurred.

Make-up time will be measured in 30-minute blocks of time, and must be monitored by Academics staff and approved by the Director of Education/Academic Dean. Qualified make-up attendance activities include, but are not limited to, taking/re-taking quiz or test, facilitated review or study, group project, study group, hands-on practice, lab check-offs, and completion of assignments.

# **Consecutive Absence Rule**

When a student is absent from school for fourteen (14) consecutive calendar days excluding holidays and scheduled breaks, the faculty shall notify the Academic Dean/Director of Education. The following guidelines shall be followed:

- All students who state they will not return to school shall be promptly withdrawn;
- All students who state they will return must:
  - 1. Attend their next scheduled class session;
  - 2. File an appeal within five (5) calendar days of the violation;
  - 3. Have perfect attendance while the appeal is pending; and
- Any student who has promised to return to school, but does not attend the next scheduled class session shall be withdrawn from all courses and dismissed from school.

**NOTE**: For linear programs, the consecutive absence rule is applied to days missed in a single term. For modular programs, the consecutive absence rule is applied to days missed in the total program.

# PERCENTAGE ABSENCE RULE (CREDIT HOUR MODULAR PROGRAMS)

For students who **have not** previously violated the attendance policy:

Percentage	Action Taken
15% of the total classroom hours missed	Attendance warning letter sent
20% of the total classroom hours missed	Withdrawn from the module and dismissed from school

For students who **have** been dismissed for violating the attendance policy, or would have been dismissed but for a successful appeal, the following rule shall apply:

Percentage	Action Taken
15% of the remaining classroom hours missed	Attendance warning letter sent
20% of the remaining classroom hours missed	Withdrawn from the module and dismissed from school

# PERCENTAGE ABSENCE RULE (CLOCK HOUR MODULAR PROGRAMS)

Percentage	Action Taken
10% of the total hours in each module – first occurrence in a payment period	Attendance warning letter sent
	Student is advised about the importance of making up attendance.
10% of the total hours in each module – second occurrence in a payment period	Attendance warning letter sent
	Student is advised and required to make up attendance
10% of the total hours in each module – third occurrence, and those that occur beyond the	Withdrawn from the module and dismissed from school.
third	Student has the opportunity to appeal the dismissal, and will be required to agree to an attendance plan that will define requirements for making up attendance
More than 10% of the total hours in each payment period – occurring prior to	Attendance warning letter sent
measurement of payment period completion for disbursement	Student is advised and required to make up attendance
More than 10% of the total hours in each payment period at the point of measurement of	Withdrawn from the module and dismissed from school.
payment period completion for disbursement	Student has the opportunity to appeal the dismissal and will be required to make up attendance - prior to the end of the first payment period, or outside of regularly-scheduled hours in the second payment period classes. Note: The appeal shall not be entered until remediation to below 10% of the total payment period hours absence has occurred.

# PERCENTAGE ABSENCE RULE (LINEAR PROGRAMS)

For students who *have not* previously violated the attendance policy:

Percentage	Action Taken
25% of the total hours for all courses in a term	Attendance warning letter sent
40% of the total hours for all courses in a term	Withdrawn from all courses and dismissed from school

For students who *have* been dismissed for violating the attendance policy, or would have been dismissed but for a successful appeal, the following rule shall apply:

Percentage	Action Taken
25% of the total remaining hours for all courses in a term	Attendance warning letter sent
40% of the total remaining hours for all courses in a term	Withdrawn from all courses and dismissed from school

Should a student violate the applicable Percentage Absence Rule, the following guidelines shall be followed:

- All students who state they will not return to school shall be promptly withdrawn;
- All students who state they will return must:
  - 1. Attend class within five (5) calendar days of the violation;

- 2. File an appeal within five (5) calendar days of the violation;
- 3. Have perfect attendance while the appeal is pending; and
- Any student who has promised to return to school, but who does not return within five (5) calendar days of the violation shall be withdrawn from all courses and dismissed from school.

# **Date of Withdrawal**

- When a student is withdrawn for consecutive absences within the term or module, the date of the student's withdrawal shall be the student's last date of attendance (LDA).
- When a student is withdrawn for violating the applicable percentage absence rule, the Date of Withdrawal shall be the date of the violation.

**NOTE**: The Date of Withdrawal shall be the earlier of a violation of the Consecutive Absence Rule or the Percentage Absence Rule.

# Date of Determination (DOD)

The Date of Determination (DOD) shall be the date the school determined the student would not return to class. This is the date used to determine the timeliness of the refund. The DOD is the **earliest** of the following three (3) dates:

- The date the student notifies the school (verbally or in writing) that s/he is not returning to class;
- The date the student violates the published attendance policy; or
- No later than the 14<sup>th</sup> calendar day after the LDA; scheduled breaks are excluded when calculating the DOD.

# **Attendance Records**

The computer attendance database is the official record of attendance. The official record may be challenged by filing an attendance appeal according to the Student Academic Appeal Policy. Without an appeal, after the 14th calendar day following the end of the term/module, the computer attendance database shall be considered final.

# LEAVE OF ABSENCE POLICY (MODULAR PROGRAMS ONLY)

Everest permits students to request a leave of absence (LOA) as long as the leave does not exceed a total of 180 days during any 12-month period, starting from the first day of the first leave, and as long as there are documented, legitimate extenuating circumstances that require the students to interrupt their education, including pregnancy (including childbirth, false pregnancy, termination of pregnancy, and recovery therefrom) or temporary disability. Students requesting an LOA must submit a <u>completed</u> Leave of Absence Request Form prior to the beginning date of the leave. If unforeseen circumstances prevent the student from submitting the request in advance, the leave may still be granted, but only if:

- a) the school documents the unforeseen circumstances, and
- b) the student submits a completed Leave of Absence Request Form by the tenth (10<sup>th</sup>) calendar day of the leave.

A student must return from a LOA on the first day of any appropriate module or prior to the expiration of his or her leave. A student who goes on leave prior to the end of a module shall receive a grade of "L" (leave) which shall remain on his or her transcript until the student returns from an LOA, retakes the entire module and earns a grade. The module with a grade of "L" shall not be included in the calculation of Rate of Progress (ROP), Maximum Time Frame (MTF) or attendance.

**NOTE**: Everest does not permit leaves of absence for students enrolled in quarter-based programs. Students experiencing circumstances that may make it necessary to interrupt their attendance temporarily should see the Academic Dean/Director of Education.

# **Re-Admission Following a Leave of Absence**

- Upon return from leave, the student will be required to repeat the module, if it had been interrupted, and receive final grades.
- The student will not be charged any fee for the repeat of any module from which the student took leave or for students returning from a leave of absence.
- The date the student returns to class is normally scheduled for the beginning of a module.
- When a student is enrolled in a modular program, the student may return at any appropriate module, not only the module from which the student withdrew.

# Extension of Leave of Absence

A student on an approved LOA may submit a request to extend the LOA without returning to class. Such a request may be approved by the Academic Dean/Director of Education provided:

- The student submits a <u>completed</u> LOA Extension Request Form before the end date of the current leave.
- There is a reasonable expectation the student will return.

- The number of days in the leave as extended, when added to all other approved leaves, does not exceed 180 calendar days in any twelve (12) month period calculated from the first day of the student's first leave.
- Appropriate modules required for completion of the program will be available to the student on the date of return.

If the extension request is approved, the end date of the student's current leave will be changed in the official student information system to reflect the new end date. If the request is denied, the student will be withdrawn and the withdrawal date will be the student's last date of attendance (LDA).

# Failure to Return From a Leave of Absence

A student who fails to return from an LOA on or before the date indicated in the written request will be terminated from the program, and the institution will invoke the refund policy. As required by federal statute and regulations, the student's last date of attendance prior to the approved LOA will be used in order to determine the amount of funds the institution earned and make any refunds that may be required under federal, state, or institutional policy.

The "L" grade in the LOA beginning module shall be changed to "W" (withdraw). The module with a grade of "W" shall be included as an attempt in the calculation of Rate of Progress and Maximum Time Frame.

# **Possible Effects of Leave of Absence**

Students who are contemplating an LOA should be cautioned that one or more of the following factors may affect the length of time it will take the student to graduate.

- Students returning from a LOA are not guaranteed that the module required to maintain the normal progress in their training program will be available at the time of reentry
- They may have to wait for the appropriate module to be offered
- Financial aid may be affected

# **EXTERNSHIP TRAINING**

Upon successful completion of all classroom requirements, students in programs that require an externship are expected to begin the externship portion of their programs within 14 calendar days (excluding holidays and regularly scheduled breaks). If a student does not begin externship training within 14 calendar days, he/she must be dropped from the program. A leave of absence (LOA) may only be approved if the student's reason meets the criteria of the LOA Policy. Students may only miss 14 consecutive calendar days once they start externship or they must be dropped from the program.

Each student has approximately 120 calendar days to complete their externship. Any modular student who does not complete externship training within 120 calendar days should meet with the Academic Dean/Director of Education to approve the time remaining to complete the externship.

Students who drop from externship either prior to starting or during externship and/or delay the completion of their externship for more than 30 days from the last days of attendance must have their skills evaluated by a program instructor or director/chair prior to re-entry to ensure they are still competent to perform skills safely in the externship setting.

# WITHDRAWAL PROCEDURES

- Students who intend to withdraw from school are requested to notify the Academic Dean/Director of Education by telephone, in person, by email or in writing to provide official notification of their intent to withdraw and the date of withdrawal.
- Timely notification by the student will result in the student being charged tuition and fees for only the portion of the payment period or period of enrollment that he/she attended as well as ensuring a timely return of federal funds and any other refunds that may be due.
- Students requesting a withdrawal from school must complete a financial aid exit interview.
- Students who have withdrawn from school may contact the school's Education Department about re-entry.

# **MAKE-UP WORK**

At the instructor's discretion, make-up work may be provided to students who have missed class assignments or tests. Make-up work must be completed within 10 calendar days after the end of the term/module.

# **REQUIREMENTS FOR GRADUATION**

- Successfully complete all courses in the program with a 2.0 (70%) cumulative grade point average within the maximum time frame for completion as stated in the school catalog.
- Successfully complete all externship requirements (if applicable).
- Meet any additional program specific requirements as stated in the catalog.

Commencement exercises are held at least once a year. Upon graduation, all students who are current with their financial obligation to the school shall receive their diploma.

# **VETERANS' EDUCATION BENEFITS**

#### Prior Credit for Education and Training

All VA beneficiaries are required to disclose prior postsecondary school attendance, military education and training, and provide official transcripts for such education and training. The student is responsible for ensuring that all transcripts are submitted to the school. The school is responsible for evaluating official written transcripts of previous education and experience, granting credit where appropriate, notifying the student, and shortening the program certified accordingly.

Prior credit must be evaluated within the first two terms of the enrollment period. The VA will not pay VA education benefits past the third term of enrollment, if prior credit has not been evaluated.

#### **Benefit Overpayments**

Schools are required to promptly report changes in the enrollment status of all students receiving VA education benefits in order to minimize overpayments. Generally overpayments of VA benefits are the responsibility of the student. However, there are instances under the Post 9/11 GI Bill when an overpayment is created on a school and funds need to be returned to the VA.

#### Academic Standards for Students Receiving VA Benefits

Students receiving Veterans education benefits are subject to the same academic standards applicable to all students at the school. To receive VA education benefits, a student must maintain Satisfactory Academic Progress, attendance standards and adhere to the Code of Student Conduct.

#### Additional Requirements for Veteran Students (Modular Programs Only)

For Veteran students who **have not** previously been dismissed from the program for violating the attendance policy, the following rule shall apply:

Percentage	Action Taken
15% of the cumulative hours attempted	Attendance warning letter sent
20% of the cumulative hours attempted	Dismissed from the program

For Veteran students who **have** been dismissed for violating the attendance policy, or would have been dismissed but for a successful appeal, the following rule shall apply:

Percentage	Action Taken
15% of the remaining cumulative hours attempted	Attendance warning letter sent
20% of the remaining cumulative hours attempted	Dismissed from the program

The Veterans Administration (VA) requires that students receiving funds based on their enrollment in school complete their course of studies in the standard length of the program. In order to meet this requirement, students must attend class on a regular basis. The VA requires that it be notified when a veteran student's enrollment status changes; such notification may result in the termination of veteran benefits. All dismissals and successful appeals by students funded through the VA shall be reported to the VA by the certifying official for the school.

# **APPEALS POLICIES**

# **Student Academic Appeals Policy**

Academic appeals include those appeals related to Satisfactory Academic Progress violations, final grades, attendance violations, and academic or financial aid eligibility. In all instances, with the exception of SAP, Everest expects that initially every attempt will be made to resolve such disputes informally through discussions by all relevant parties prior to initiating formal appeals.

All formal academic appeals must be submitted in writing (or electronically via email for students enrolled in an online course) on an Academic Appeal Form to the Academic Dean/Director of Education within five (5) calendar days of the date the student has notice of the adverse academic decision:

- Notice of final grades:
  - Modular the date the grade(s) are mailed from the school
  - Linear first day of the subsequent term
  - Notice of Attendance violation is the date of the violation
- Notice of SAP violation (FA probation SAP Not Met 2<sup>nd</sup> consecutive term):
  - Modular third calendar day of the subsequent module
  - Linear first day of the subsequent term

**NOTE**: In the case of terms without a break week, the student must receive the notification within seven (7) calendar days of the term start.

The appeal must include:

- The specific academic decision at issue
- The date of the decision
- The reason(s) the student believes the decision was incorrect
- The informal steps taken to resolve the disagreement over the decision
- The resolution sought

The written appeal may be accompanied by any additional documentation (e.g., papers, doctor notes, tests, syllabi) the student believes supports the conclusion that the academic decision was incorrect.

**NOTE**: Once a formal appeal is filed, no action based on the adverse academic decision may be taken until the appeal process is complete. However, in cases involving financial aid eligibility, all financial aid disbursements shall be suspended until the matter is resolved.

Upon receipt of the Academic Appeal Form, the Academic Dean/Director of Education/Online Designee shall convene an Appeal Committee, which should at a minimum include the Department Chair, a member of the Student Services Staff, and a faculty member from another program. The Appeal Committee shall investigate the facts of the matter to the extent deemed appropriate under the circumstances. The Appeal Committee shall render a written decision within five (5) calendar days of the date the appeal was received, and shall forward the decision to the student and the instructor within five (5) calendar days thereafter. Copies of all documents relating to the appeal shall be placed in the student's academic file, and the decision of the Appeal Committee shall be noted in the official student information system within one (1) calendar day of the date of the decision. The decision of the Appeal Committee is final, and no further appeals are permitted.

**NOTE**: When an appeal is denied, the date of any suspension of financial aid or dismissal from the program shall be the date of the adverse academic decision. The student will not be charged for any attendance after the date of the adverse academic decision.

# **Assignments/Test Grades**

Students who disagree with an assignment/test grade should discuss it with the instructor upon receipt of the grade. Assignments/test grades are reviewed at the instructor's discretion. If the instructor is not available, the matter should be discussed with the Program Director/Department Chair. Only final course grades are eligible for appeal.

# **Final Course Grades**

In modular programs, appeals of final course grades must be made by the fifth (5<sup>th</sup>) calendar day after the date the grades are mailed from the school. In linear programs, appeals of final course grades must be made by the sixth (6<sup>th</sup>) calendar day of the subsequent term. The Academic Dean/Director of Education/Online Academic Designee may direct a grade to be changed when it is determined by an Appeal Committee that a final grade was influenced by any of the following:

- 1. A personal bias or arbitrary rationale
- 2. Standards unreasonably different from those that were applied to other students
- 3. A substantial, unreasonable, or unannounced departure from previously articulated standards
- 4. The result of a clear and material mistake in calculating or recording grades or academic progress

# Attendance Violation Appeals Policy

Appeals of attendance violations must be made within five calendar days of the violation. In order for an attendance appeal to be considered, the student must:

- 1. Attend school:
  - The next scheduled class period (Consecutive Absence Rule violations)
  - Within five (5) calendar days of the violation (Percentage Absence Rule violations)
- 2. Have perfect attendance while the appeal is pending
- 3. Submit a written plan to improve attendance with the Appeal Form

Provided that no applicable state requirement would be violated by doing so, an attendance appeal may be granted if the student demonstrates that the absence was caused by:

- 1. The death of a family member
- 2. An illness or injury suffered by the student
- 3. Special circumstances of an unusual nature which are not likely to recur

The Appeal Committee may, as a condition of granting the appeal, require the student to make up assignments and develop an Academic Advising Plan in conjunction with his or her advisor.

# Satisfactory Academic Progress (SAP) Appeals Policy

In modular programs, SAP appeals must be made within five (5) calendar days of the notification, i.e., eight (8) calendar days of the subsequent module start. In linear programs, SAP appeals must be made by the sixth (6<sup>th</sup>) calendar day of the subsequent term.

Provided that the student can complete their program within the maximum time frame with the required minimum CGPA, a SAP appeal may be granted if the student demonstrates that s/he is sincerely committed to taking the steps required to succeed in his/her program and that his or her failure to maintain the required CGPA or ROP was caused by any of the following mitigating circumstances:

- 1. The death of a family member
- 2. An illness or injury suffered by the student
- 3. Special circumstances of an unusual nature which are not likely to recur

SAP violation/FA Probation appeals must include a detailed statement written by the student explaining the reason why he or she failed to make SAP, and what has changed in the student's situation that will allow him or her to demonstrate SAP at the next evaluation period. An appeal will be strengthened if supporting documentation is included (e.g., medical doctor's note, law enforcement report, etc.)

The Appeal Committee shall, as a condition of granting the appeal, require the student to develop an Academic Progress Plan in conjunction with the student's advisor and place the student on FA probation.

# **FINANCIAL INFORMATION**

#### STATEMENT OF FINANCIAL OBLIGATION

A student who has applied, is accepted, and has begun classes at Everest assumes a definite financial obligation. Each student is legally responsible for his or her own educational expenses for the period of enrollment. A student who is enrolled and has made payments in full or completed other financial arrangements and is current with those obligations, is entitled to all the privileges of attending classes, taking examinations, receiving grade reports, securing course credit, being graduated, and using the Career Services Office.

Any student who is delinquent in a financial obligation to the school, or any educational financial obligation to any third party, including damage to school property, library fines, and payment of tuition and fees, is subject to exclusion from any or all of the usual privileges of the school. Everest may, in its sole discretion, take disciplinary action on this basis, including suspension or termination of enrollment.

#### **TUITION AND FEES**

Tuition and fee information can be found in the "Tuition and Fees" section of the catalog. Modular programs are offered throughout the year on a schedule independent of the standard quarter calendar. When a student begins enrollment in a modular program, tuition will be charged in the full tuition amount, or in increments based on state policy, for each academic year.

Quarter-based programs will be charged for the student's first quarter (or mini-term quarter start) in attendance. Tuition and fees for subsequent quarters will be charged at the published rate in effect at the beginning of that quarter. The minimum full-time course load is 12 credits per quarter for undergraduate programs. Textbook costs per quarter are dependent upon the classes for which the student is registered. All credits for which a student is registered are charged at the current rate, including any courses being repeated. The student's total tuition for a given quarter is determined by multiplying the number of credit hours for which the student is registered at the current tuition rate for that number of credit hours.

Students' financial obligations will be calculated in accordance with the refund policy in the Enrollment Agreement and this school catalog. For modular programs, the Enrollment Agreement obligates the student and the school for the entire program of instruction. For quarter-based programs, the Enrollment Agreement obligates the student and the school for tuition by quarter.

Student may make payments by cash or by the following accepted credit cards: Visa, MasterCard or Discover.

#### **TEXTBOOKS AND EQUIPMENT**

Textbooks and workbooks are sold through the bookstore in accordance with Everest policies. At the time of issuance, textbooks become the responsibility of the students. Everest is not responsible for replacing lost textbooks; however, students may purchase replacements from the campus bookstore. Students are responsible for the cost of their textbooks and the cost of any shipping charges. In certain programs requiring specialized equipment, that equipment may be loaned to students for use during their enrollment. Students failing to return loaned equipment will be charged for its replacement.

# ADDITIONAL FEES AND EXPENSES

Charges for textbooks and equipment are separate from tuition. The institution does not charge for books, uniforms, and equipment until the student purchases and receives the items. Incidental supplies, such as paper and pencils, are to be furnished by students.

# **VOLUNTARY PRE-PAYMENT PLAN**

The university provides a voluntary prepayment plan to students and their families to help reduce the balance due upon entry. Details are available upon request from the Student Finance Office.

# **BUYER'S RIGHT TO CANCEL**

The applicant's signature on the Enrollment Agreement does not constitute admission into the school until the student has been accepted for admission by an official of the school. If the applicant is not accepted by the school, all monies paid will be refunded.

CANCELLATION POLICY: You may withdraw your enrollment agreement at any time within five business days from the date you sign the agreement, make an initial payment, or first visit the school, whichever is later. If you do so, all payments made by you or on your behalf will be refunded. Withdrawal can be effectuated by personally appearing at your school to withdraw, depositing a withdrawal letter in the mail to your school at the address provided on the first page of the agreement (in which case, the withdrawal will be considered effective as of the postmark date), sending an electronic message to <u>withdrawals@zenith.org</u>, or providing an oral withdrawal notice to phone number (888) 236-9614. In event of dispute over timely notice, the burden to prove service rests on the applicant.

- (a) The student applicant will also be returned all monies paid if:
  - (1) The school rejects the applicant;
  - (2) The enrollment of the student was procured as the result of any misrepresentation through advertising, promotional materials of the school, or representations by the owner or representative of the school;
  - (3) The school cancels the student's program.

#### **OFFICIAL WITHDRAWALS**

An official withdrawal is considered to have occurred on the date that the student provides to The School official notification of his or her intent to withdraw. Students who must withdraw from The School are requested to notify the office of the Academic Dean/Director of Education in writing to provide official notification, including the official date and reason, of their intent to withdraw.

When the student begins the process of withdrawal, the student or the office of the Academic Dean/Director of Education will complete the necessary form(s).

**Quarter-Based Programs:** After the cancellation period, students in quarter-based programs who officially withdraw from The School prior to the end of The School's official add/drop period will be dropped from enrollment, and all monies paid will be refunded.

**Modular Programs:** Although there is no add/drop period in modular programs, for students who officially withdraw within the first five class days (or for weekend classes within seven calendar days from the date they started class, including the day they started class), all monies paid will be refunded.

# DATE OF WITHDRAWAL VERSUS DATE OF DETERMINATION (DOD)

The date of withdrawal for students who officially withdraw is the same date as determined under official withdrawals above. If the student officially rescinds his or her official notification of withdrawal and then withdraws within the same quarter, the withdrawal date is the student's original withdrawal date from the previous official notification.

If the student ceases attendance without providing official notification due to circumstances beyond the student's control, the withdrawal date is as follows: If the withdrawal is due to circumstances beyond the student's control, the date of withdrawal is the date The School determines is related to the circumstance beyond the student's control; otherwise, the withdrawal date is the midpoint of the quarter or the last documented date of attendance at an academic activity, whichever is later.

For a student who officially withdraws, the DOD is the student's withdrawal date or date of notification, whichever is later. For a student who withdraws without notification, the DOD is the date that The School becomes aware that the student has ceased attendance. For a student who withdraws after rescinding an official withdrawal, the DOD is the date The School becomes aware that the student did not, or will not, complete the period of enrollment.

# FEDERAL FINANCIAL AID RETURN POLICY

#### Student Financial Aid (SFA)

The School is certified by the U.S. Department of Education as an eligible participant in the Federal Student Financial Aid (SFA) programs established under the Higher Education Act of 1965 (HEA), as amended (Title IV programs). The School is required to determine earned and unearned portions of Title IV aid for students who cancel, withdraw, drop out, are dismissed, or take a leave of absence prior to completing 60% of a payment period or term.

# **Return of Title IV Funds Calculation and Policy**

The Return of Title IV Funds calculation (Return calculation) is based on the percentage of earned aid using the following calculation:

Percentage of payment period or term completed equals the number of scheduled hours (clock-hour programs) or days (credit-hour programs) completed up to the withdrawal date divided by the total number of hours (clock-hour programs) or days (credit-hour programs) in the payment period or term. For credit-hour programs, any scheduled break of five days or more is not counted as part of the days in the term. This percentage is also the percentage of earned aid.

Funds are returned to the appropriate federal program based on the percentage of unearned aid using the following formula: Aid to be returned equals 100% of the aid that could be disbursed minus the percentage of earned aid, multiplied by the total dollar amount of aid that could have been disbursed during the payment period or term. The School must return the lesser of:

- 1. The amount of Title IV program funds that the student did not earn; or
- 2. The amount of institutional charges that the student incurred for the payment period or period of enrollment multiplied by the percentage of funds that were not earned.

The student (or parent, if a federal PLUS loan) must return or repay the amount by which the original overpayment amount exceeds 50% of the total grant funds received by the student for the payment period or period of enrollment, if the grant overpayment is greater than \$50. (Note: If the student cannot repay the grant overpayment in full, the student must make satisfactory arrangements with the U.S. Department of Education to repay any outstanding grant balances. The Student Financial Aid Department will be available to advise the student in the event that a student repayment obligation exists. The individual will be ineligible to receive additional student financial assistance in the future if the financial obligation(s) is not satisfied.)

The School must return the Title IV funds for which it is responsible in the following order:

- 1. Unsubsidized Direct Stafford Loans (other than PLUS loans)
- 2. Subsidized Direct Stafford Loans
- 3. Federal Perkins Loans
- 4. Direct PLUS Loans
- 5. Federal Pell Grants for which a return of funds is required
- 6. Academic Competiveness Grants for which a return of funds is required
- 7. National Smart Grants for which a return of funds is required
- 8. Federal Supplemental Educational Opportunity Grants (FSEOG) for which a return of funds is required

If a student withdraws after the 60% point-in-time, the student has earned all Title IV funds that he or she was scheduled to receive during the period and, thus, has no unearned funds; however, The School must still perform a Return calculation. If the student earned more aid than was disbursed to him or her, the institution would owe the student a post-withdrawal disbursement, which must be paid within 180 days of the DOD. If a student earned less aid than was disbursed, The School would be required to return a portion of the funds, and the student would be required to return a portion of the funds. Any outstanding student loans that remain are to be repaid by the student according to the terms of the student's promissory notes.

#### Title IV Credit Balances

After a Return calculation has been made and a state/institutional refund policy, if applicable, has been applied, any resulting credit balance (i.e. earned Title IV funds exceed institutional charges) must be paid within 14 days from the date that The School performs the Return calculation and will be paid in one of the following manners:

- 1. Pay authorized charges at the institution;
- 2. With the student's permission, reduce the student's Title IV loan debt (not limited to the student's loan debt for the period of enrollment);
- 3. Return to the student.

#### Effects of Leaves of Absence on Returns

If a student does not return from an approved leave of absence on the date indicated on the written request, the withdrawal date is the student's last day of attendance. For more information, see the Leave of Absence section in The School catalog.

#### Time Frame Within Which Institution Is to Return Unearned Title IV Funds

The School must return the amount of unearned Title IV funds for which it is responsible within 45 days after the DOD.

# **REFUND POLICIES**

#### Institutional Pro Rata Refund Calculation and Policy

When a student withdraws, The School must determine how much of the tuition and fees he or she is eligible to retain. The Pro Rata Refund Calculation and Policy is an institutional policy and is different from the Federal Financial

Aid Return Policy and Return calculation; therefore, after both calculations are applied, a student may owe a debit balance (i.e. the student incurred more charges than he or she earned in Title IV funds) to The School.

The School will perform the Pro Rata Refund Calculation for those students who terminate their training before completing the period of enrollment (i.e. students who receive a final grade of "W" or "WZ"). Under the Pro Rata Refund Calculation, The School is entitled to retain only the percentage of charges (tuition, room, board, etc.) proportional to the period of enrollment completed by the student. The period of enrollment for students enrolled in modular programs is the academic year. The period of enrollment for students enrolled in quarter-based programs is the quarter. The refund is calculated using the following steps:

- 1. Determine the total charges for the period of enrollment.
- 2. Divide this figure by the total number of calendar days in the period of enrollment.
- 3. The answer to the calculation in step 2 is the daily charge for instruction.
- 4. The amount owed by the student for the purposes of calculating a refund is derived by multiplying the total calendar days in the period as of the student's last date of attendance by the daily charge for instruction and adding in any book or equipment charges.
- 5. The refund shall be any amount in excess of the figure derived in step 4 that was paid by the student.

#### **Textbook and Equipment Return/Refund Policy**

A student who was charged for and paid for textbooks, uniforms or equipment may return the unmarked and unopened textbooks, unworn uniforms or new equipment within 30 days following the date of the student's cancellation, termination or withdrawal. The School shall then refund the charges paid by the student. Uniforms that have been worn cannot be returned because of health and sanitary reasons. If the student fails to return unmarked and unopened textbooks, unworn uniforms or new equipment within 30 days, the school may retain the cost of the items that has been paid by the student. The student may then retain the equipment without further financial obligation to The School.

#### Effects of Leaves of Absence on Refunds

If a student does not return from an approved leave of absence (where applicable) on the date indicated on the written request, monies will be refunded. The refund calculation will be based on the student's last date of attendance. The DOD is the date the student was scheduled to return.

#### Time Frame Within Which Institution Is to Issue Refunds

Refunds will be issued within 30 days of either the date of determination or from the date that the applicant was not accepted by The School, whichever is applicable.

# STUDENTS CALLED TO ACTIVE MILITARY DUTY

#### **Continuing Modular Diploma Students**

Continuing modular diploma students who have completed 50% or less of their program are entitled to a full refund of tuition, fees and other charges paid. Such students who have completed more than 50% of their program are entitled to a strict institutional pro rata refund.

#### **Continuing Quarter-Based Students**

If tuition and fees are collected in advance of the withdrawal, a strict institutional pro rata refund of any tuition, fees or other charges paid by the student for the program and a cancellation of any unpaid tuition, fees or other charges owed by the student for the portion of the program the student does not complete following withdrawal for active military service.

#### STUDENT FINANCING OPTIONS

Everest offers a variety of student financing options to help students finance their educational costs. Detailed information regarding financing options availability and the Financial Aid process can be obtained from the school's Student Financial Planning Literature. Information regarding other sources of financial assistance such as benefits available through the Bureau of Indian Affairs, Division of Vocational Rehabilitation, Veterans Assistance and State Programs can be obtained through those agencies.

#### Financial Assistance

Financial assistance (aid) in the form of grants and loans is available to eligible applicants who have the ability and desire to benefit from the specialized program/training offered at the school.

# **Student Eligibility**

- To receive financial assistance you must:
- 1. Usually, have financial need;

- 2. Be a U.S. citizen or eligible noncitizen;
- 3. Have a social security number;
- 4. If male, be registered with the Selective Service (if applicable);
- 5. If currently attending school, be making Satisfactory Academic Progress;
- 6. Be enrolled as a regular student in any of the school's eligible programs;
- 7. Not be in default on any federally-guaranteed loan;
- 8. Have a high school diploma or its equivalent, have completed homeschooling at the secondary level as defined by state law.

# Federal Financial Aid Programs

The following is a list of the Federal Financial Aid Programs available at the school. Additional information regarding these programs, eligibility requirements, the financial aid process and disbursement of aid can be obtained through the Student Financial Planning Literature, the Student Finance Office, and the U.S. Department of Education's Guide to Federal Student Aid, which provides a detailed description of these programs. The guide is available online at:

http://studentaid.ed.gov/students/publications/student\_guide/index.html

- Federal Pell Grant
- Federal Supplemental Educational Opportunity Grant (FSEOG)
- Federal Work Study (FWS)
- Federal Direct Stafford Loan (DL)
- Federal Direct Parent Loan for Undergraduate Students (PLUS)

# Alternative Loan Programs

If your primary financing option does not fully cover your program costs, alternative financing options can help bridge that financial gap. Private loan programs are convenient, affordable and easy to use.

- There are alternative loans provided by private lenders.
- The rate may be variable and the loan approved and origination fees may be based on credit
- Repayment terms may vary based on lender programs.
- Student may apply on their own or with a co-borrower.

Please see one of the Student Finance Planners for further information.

# **GRANTS AND SCHOLARSHIPS**

# Zenith American Dream Scholarship

The Zenith American Dream Scholarship is a multimillion-dollar institutional scholarship program for students who attend an Everest or WyoTech institution. New students who first enroll in an Everest or WyoTech institution on or after **August 24, 2015** and were referred by a leader in the local community are eligible to apply for the **Zenith American Dream Scholarship of \$5,000 per academic year**.

# To be eligible a student must:

- Obtain a written reference from a leader in the student's community
- Complete an essay or video answering the question "How will Everest (or WyoTech) Help Me Fulfill My American Dream" see guidelines
- Meet application guidelines and deadlines

The Zenith American Dream Scholarship may be used in order to cover the direct cost of attendance for the program in which the student is enrolled (tuition, books and fees).

# Scholarship winners

The Zenith American Dream Scholarship winners will be selected based on quality of the recommendation, originality, creativity, adherence to the theme and overall quality of the essay submission as noted below. Scholarships will be awarded based on selection criteria outlined in the guidelines on a monthly basis. Student scholarship winners will be notified within 45 days of the scholarship application submission date by the Campus President or other campus official.

Selection criteria will include:

- Written reference from a leader in the community
  - Examples of leaders of the community include but are not limited to: coaches, teachers, principals, counselors, advisors, pastors, doctors, employers, support service professionals, law enforcement officer etc.
- Review of the Written or Video Essay submitted

- Logical interpretation of the subject and adherence to topic
- o Originality, Innovation and Creativity
- o Adherence to overall guidelines and deadlines applicable

#### Obtaining scholarship funds

The scholarship will be credited on a student's account upon award of the scholarship. The scholarship is nontransferable and cannot be exchanged for cash. The scholarship can only be used to reduce the institutional direct cost of the program (tuition, books and fees) and cannot be utilized for indirect costs or living expenses.

#### Renewing the scholarship

Students may be eligible to retain the scholarship award in subsequent academic years. In order to remain eligible the student must maintain satisfactory progress and a grade point average of 2.0 or above.

# Zenith Student Grant

The Zenith Student Grant is a multimillion-dollar institutional grant program awarded on an annual basis to students of Everest and WyoTech schools owned by Zenith Education Group who demonstrate financial need. This institutional grant is available for new and continuing students enrolled on or after February 2, 2015 for current and future academic periods. The amount and source of the grant, which can be up to \$10,000 per academic year, may vary by student based on:

- The Expected Family Contribution (EFC) as calculated by the Free Application for Federal Student Aid (FAFSA) and reported to the student via the Student Aid Report (SAR)
- The demonstrated financial assistance needed
- Institutional grant funding availability

The grant may be used to cover any confirmed unmet financial need in excess of the student's EFC once Title IV and all other available funding sources have been exhausted up to the direct cost of attendance for the program in which the student is enrolled.

#### Eligibility

To be eligible, the student must:

- Apply each academic year
- Meet all application deadlines
- Maintain satisfactory academic progress throughout his/her course of study

#### Obtaining grant funds

The grant will automatically be credited to your account upon completion of the financial aid application processes and award confirmation. The grant is non-transferable and cannot be exchanged for cash.

#### Renewing the grant

Students must reapply each academic year by the institutional deadline and meet eligibility requirements in order to be considered for the Zenith Education Grant. The grant amount may change each year based on the student's:

- Determined financial need
- Enrollment
- Timeliness of his/her financial aid application
- Institutional grant funding availability

# Zenith Graduation Scholarship

The Zenith Graduation Scholarship is a multimillion-dollar, non-need-based institutional scholarship program awarded to students who graduate from Everest schools owned by Zenith Education Group and were actively enrolled in their current course of study prior to February 2, 2015. The amount of the scholarship, which could be up to \$10,000 per current and future academic period, may vary by student based on the number of modules, courses or credits remaining in order for the student to complete his/her program of study, and the time frame of application submission.

The scholarship provides a 20 percent tuition reduction, prorated for the student's remaining time in the program in which he/she was actively enrolled as of February 2, 2015 through his/her expected graduation date at the time he/she applies for the scholarship. For students who apply on or before May 2, 2015, the tuition reduction effective date is February 2, 2015. For students who apply after May 2, 2015, the tuition reduction effective date is the date the application is submitted.

Students who withdrew prior to February 2, 2015, but reenter prior to August 2, 2015, may also apply upon reentry and be eligible upon graduation for a supplemental graduation scholarship of up to \$5,000 for the purpose of covering any prior academic year balances incurred for the program that they reenter.

# Eligibility

To be eligible, the student must:

- Apply for the scholarship
- Meet all application deadlines
- Maintain satisfactory academic progress throughout the remainder of his/her program
- Graduate from the program for which he/she is enrolled at the time of applying for the scholarship

#### Obtaining scholarship funds

The scholarship amount will be applied to the student's account as a non-cash payment at the time of graduation to cover any outstanding tuition or fee expenses, and any credit balance that results will be resolved by:

- A payment to the government as reimbursement for payments received by Everest from the student's federal student loans to reduce his/her loan obligation.
- A payment to the lender as reimbursement for the payments from a private student loan that the lender directly disbursed to Everest.
- A payment to the student for any tuition he/she previously paid directly to Everest.
- The scholarship is non-transferable

# Workforce Scholarships and Grants, including Youth, Adult and Displaced Workers

This campus is recognized by many public and non-profit organizations as an approved institution to support state and local workforce education and employment initiatives. As educational benefit programs become available, the campuses seek eligibility with the funding organizations. Therefore, if you are unemployed, under employed, or otherwise eligible youth or adult, you may qualify for various workforce educational benefit programs. Eligibility criteria for workforce educational assistance and benefits available vary by state, community and school, so check with the funding organization to see whether you qualify.

# Florida Student Assistance Grant (FSAG)

The Florida Student Assistance Grant (FSAG) is available only to Florida residents demonstrating financial need and meeting certain academic requirements. The FSAG has an early application deadline and is not readily available to all. Students are advised when applications may be submitted. It is not available to any student who has received a Bachelor's degree.

# Florida Bright Futures Scholarship Program

The Florida Bright Futures Scholarship Program establishes a lottery-funded scholarship to reward any Florida high school graduate who merits recognition of high academic achievement and who enrolls in an eligible Florida public or private post-secondary educational institution within three years of high school graduation. The program affects high school graduates as well as current award recipients who are now attending a post-secondary institution in Florida.

The Florida Bright Futures Scholarship Program is comprised of the following three awards:

- 1. Florida Academic Scholars (FAS) award
- a. Including Academic Top Scholars (ATS) award
- 2. Florida Medallion Scholars (FMS) award
- 3. Florida Gold Seal Vocational Scholars (GSV) award

Eligibility criteria for the scholarship awards vary based on cumulative high school grade point average and SAT or ACT scores. Applications are distributed to potential applicants by high school guidance counselors or by contacting the Technical Assistance Unit of the Florida Department of Education at (888) 827-2004.

The award amount under each program varies depending on the institution that the student attends and the number of credit hours enrolled. The student should contact the Student Finance Department for information pertaining to the award amounts and additional eligibility requirements.

# Florida Association of Proprietary Schools and Colleges (FAPSC) Scholarship

Scholarships are available for graduating high school seniors and GED recipients. Applicants must complete an application, maintain a cumulative GPA of 2.0 or higher, and submit a 300-word essay answering three specific questions pertaining to the career field and institution they have chosen. Applicants may apply for no more than three scholarships at any single institution. Awarding of the scholarships is done through an evaluation committee assembled by FAPSC. Please contact the Student Finance Office for further details.

# Veteran's Assistance Programs

For information about U.S. Department of Veterans Affairs (VA) education benefits for veterans and their families, call (888)-GI-BILL-1 (888-442-4551) or visit <u>www.gibill.va.gov</u>. Each of the major benefits programs is described in detail in its own section of the VA's site.

- The Montgomery GI Bill–Active Duty: <u>http://www.gibill.va.gov/pamphlets/ch30/ch30\_pamphlet.pdf</u>

# ADMINISTRATIVE POLICIES

# STATEMENT OF NON-DISCRIMINATION

Everest does not and will not discriminate on the basis of race, color, religion, age, disability, sex, pregnancy (including childbirth, false pregnancy, termination of pregnancy, and recovery therefrom), sexual orientation, national origin, citizenship status, gender identity or status, veteran status, actual or potential parental, family or marital status in the administration of its educational and admissions policies, scholarship and loan programs, or other school-administered programs. For information on discrimination-related grievances, please see the Discrimination Grievance Procedures section.

# DISABILITY

Everest complies with federal laws including Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990, as amended. The Campus President has been designated the Section 504/ADA Coordinator and will coordinate the efforts of Everest to comply with all relevant disability laws. Inquiries should be directed to this person at the campus contact information located in this catalog.

# DISABILITY ACCOMMODATION PROCEDURE

Everest's disability accommodation procedure is a collaborative and interactive process between the student and the Section 504/ADA Coordinator. The student will meet with the Section 504/ADA Coordinator on campus to request and submit an Accommodation Request form and discuss disability related needs. The Section 504/ADA Coordinator is available to the student to assist with questions and provide assistance in filling out the Accommodations Request form. The student will provide a completed Accommodations Request form and documentation of their medical condition to the Section 504/ADA Coordinator for review. The documentation of a medical condition may be from a licensed medical doctor, psychologist, audiologist, speech pathologist, registered nurse, licensed clinical social worker, marriage and family therapist, rehabilitation counselor, physical therapist, learning disability specialist, or other appropriate health professional. This documentation is denied, the student is informed of their right to appeal the decision and the necessary steps to file an appeal.

To file an appeal the student should supply documentation and/or other evidence to substantiate the need for the denied accommodation(s). The evidence is submitted to the Section 504/ADA Coordinator with a new accommodation form marked appeal.

# DISCRIMINATION GRIEVANCE PROCEDURES

A student initiates the Discrimination Grievance Procedure by contacting the Section 504/ADA Coordinator for disability-related complaints, or the Campus President for all other complaints alleging discrimination carried out by employees, other students, or third parties. The Section 504/ADA Coordinator and Campus President can be reached at the campus contact information located in this catalog. A student's participation in any informal resolution

procedures is voluntary and he/she may pursue this formal grievance procedure at any time. The Section 504/ADA Coordinator or Campus President or his/her designee will explain the complaint procedures and assist the student in filing a complaint. The complaint need only be a written letter containing allegations that specifically identify the discriminatory conduct, the person(s) who did it, and all witnesses the student believes can support the allegations. A complaint should be made as soon as the student believes he/she has been discriminated against, but no later than within 180 days of the date that the alleged discrimination occurred, or the date on which the student could reasonably have learned of the discrimination.

When a complaint is filed, the Section 504/ADA Coordinator or Campus President or his/her designee begins an investigation within 14 days. The student, the accused, and any witnesses they identify are interviewed. Any relevant documents identified by these persons are reviewed. Within 45 days of the complaint, the Section 504/ADA Coordinator or Campus President or his/her designee will inform the student and accused in writing of sufficient or insufficient evidence to confirm the student's allegations, state the key facts, reasons why that conclusion was reached, and outline any proposed resolution or corrective action if applicable, subject to any applicable privacy constraints. The student is also notified of the right to appeal the investigation conclusion. An appeal must be made in writing to the Zenith Director of Academic Services, who may be reached at the Student Help Line number or email address below within 15 days of receiving notice about the investigation conclusion. Within 15 days of receiving the appeal, the Zenith Director of Academic Services will review the matter and provide a decision in writing.

Complaints are investigated in a manner that protects the privacy and confidentiality of the parties to the extent possible. No employee or agent of the School may intimidate, threaten, coerce or otherwise discriminate or retaliate against any individual because he or she has filed a complaint or participated in the complaint resolution process. If a student believes any such retaliation has occurred, a complaint of retaliation should be filed according to the procedure described above. Everest makes every effort to prevent recurrence of any finding of discrimination and corrects any discriminatory effects on the grievant and others, if appropriate.

If the 504/ADA Coordinator or Campus President is the subject of the grievance, the student should contact the Student Services Manager at the Student Help Line at (800) 874-0255 or via email at <u>StudentServices@zenith.org</u>. The Student Helpline in consultation with the appropriate Academic Services team member(s) will provide guidance to the student for initiating and submitting their grievance in writing to <u>StudentServices@zenith.org</u>.

#### Student Code of Conduct

Everest students have an obligation to foster an atmosphere of mutual respect and high regard for the life and property of the school. It is expected that you will share respect for the law, our campus rules and adhere to the highest ethical standards of conduct, whether you are in class, on campus, at off-campus sponsored activities or events, and housing.

This Student Code of Conduct is designed to maintain a learning environment that ensures the safety and wellbeing of everyone on campus, encourages students in the practice of good citizenship and self-discipline, and protects the school's property and equipment by promoting integrity, academic achievement, and personal responsibility. Questions and concerns may be reported by calling 855-218-6009.

# Conduct Affecting On-Campus Safety

Everest will take all appropriate actions to protect the safety and security of our campus community. Every student has the right to fair and reasonable treatment. No one may be excluded on the basis of disability, race, ethnicity, national origin, creed, gender, age, sexual orientation, economic status, or other protected status. A student whose conduct threatens property or the health/safety of any person may be immediately suspended. Examples of such conduct may include:

- Possessing alcohol or other intoxicants, drugs, firearms or other weapons, explosives, dangerous devices, or dangerous chemicals on school premises
- Theft
- Vandalism or misuse of the school's or another's property
- Harassment or intimidation of others, including bullying or cyberbullying
- Endangering yourself or others, infliction of physical harm
- Any other behavior deemed inappropriate by the school

# Conduct Affecting Student Learning

Disciplinary action, including suspension/dismissal, may be initiated against any student based upon reasonable suspicion of involvement to commit any of the following:

- Cheating, plagiarism, fabrication or other forms of academic dishonesty
- Falsifying, or altering documents; misusing documents, funds, or school property
- Disruptive actions, including:
  - Use of cell phones or other electronic devices for voice or text communication in the classroom, unless permitted by the instructor
  - Use of any device to make an audio, video, or photographic record of any person while in class, on campus, at off-campus sponsored activities or events, and housing without that person's prior

#### permission

- Failure to comply with school policies or directives
- Any action that interferes with the learning environment or the rights of others

While students have the right to freedom of expression, including the right to dissent, protest, or articulate exception to the material and assessments offered in any course, this expression cannot interfere with the rights of others, hinder instruction, or disrupt the process of the school. Students have a responsibility to express ideas in a safe and respectful manner.

Note: This list is not exhaustive, but rather offers examples of unacceptable behavior which may result in disciplinary action.

#### Limitations on Students with Pending Disciplinary Matters

- Any student with a pending disciplinary matter shall not be allowed to:
- Graduate or participate in graduation ceremonies; or
- Engage in any other school-related activities determined by the school

Additionally, if a student withdraws from school at any point during the disciplinary process, the student is not eligible for readmission or transfer to another campus prior to resolving the outstanding disciplinary issue. Disciplinary matters are addressed in accordance with written policies and procedures and follow accreditor standards and expectations.

# Inquiry by the Campus President

If the Campus President (or designee), in his or her sole discretion, has reason to believe that a student has violated the Code of Student Conduct, the Campus President (or designee) shall conduct a reasonable inquiry and determine an appropriate course of action. If the Campus President (or designee) determines that a violation has not occurred, no further action shall be taken.

#### Conduct that does not Result in Suspension or Dismissal

If the school determines that the student's behavior may have violated this Code, but does not warrant a suspension or dismissal, the school will promptly provide the student with a written warning. Multiple written warnings may result in a suspension or dismissal.

#### **Conduct Resulting in Suspension or Dismissal**

If the school determines that a student's behavior should result in a suspension or dismissal, the school will promptly provide the student with a written notice of:

- The conduct resulting in the suspension or dismissal;
- The specific penalty being imposed;
- The student's right to submit a written appeal within five calendar days following the date of the school's suspension or dismissal determination

# ANTIHAZING POLICY

Everest Florida Colleges, Institutes and Universities (collectively "the Schools") have adopted the following policy:

Hazing, whether conducted on campus or off campus, is strictly prohibited by the Schools. Violation of this policy by a student may subject the student to fines, the withholding of diplomas or transcripts pending compliance with the rules or pending payment of fines, probation, suspension, or dismissal. Violation of this policy by an organization may subject the organization to rescission of permission for it to operate at the Schools.

For purposes of this policy, "hazing" means any action or situation that recklessly or intentionally endangers the mental or physical health or safety of a student for purposes including, but not limited to, initiation or admission into or affiliation with any organization operating under the sanction of a postsecondary institution. "Hazing" includes, but is not limited to, pressuring or coercing the student into violating state or federal law, any brutality of a physical nature, such as whipping, beating, branding, exposure to the elements, forced consumption of any food, liquor, drug, or other substance, or other forced physical activity that could adversely affect the physical health or safety of the student, and also includes any activity that would subject the student to extreme mental stress, such as sleep deprivation, forced exclusion from social contact, forced conduct that could result in extreme embarrassment, or other forced activity that could adversely affect the mental health or dignity of the student. Hazing does not include customary athletic events or other similar contests or competitions or any activity or conduct that furthers a legal and legitimate objective.

The Schools do not accept as defenses to a hazing charge against a student or organization that: (1) consent of the victim has been obtained; (2) the hazing was not part of an official organizational event or was not otherwise sanctioned or approved by the organization; or (3) the hazing was not done as a condition of membership to an organization.

# ALCOHOL AND SUBSTANCE ABUSE STATEMENT

Everest does not permit or condone the use or possession of marijuana, alcohol or any other illegal drug, narcotic or controlled substance by students. Possession of these substances on campus is cause for dismissal.

# STUDENT USE OF INFORMATION TECHNOLOGY RESOURCES POLICY

IT resources may only be used for legitimate purposes, and may not be used for any other purpose which is illegal, unethical, dishonest, damaging to the reputation of the school, or likely to subject the school to liability. Impermissible uses include, but are not limited to:

- Harassment;
- Libel or slander;
- Fraud or misrepresentation;
- Any use that violates local, state/provincial, or federal law and regulation;
- Disruption or unauthorized monitoring of electronic communications;
- Disruption or unauthorized changes to the configuration of antivirus software or any other security monitoring software;
- Unauthorized copying, downloading, file sharing, or transmission of copyright-protected material, including music;
- Violations of licensing agreements;
- Accessing another person's account without permission;
- Introducing computer viruses, worms, Trojan Horses, or other programs that are harmful to computer systems, computers, or software;
- The use of restricted access computer resources or electronic information without or beyond a user's level of authorization;
- Providing information about or lists of Zenith or Everest users or students to parties outside Zenith or Everest without expressed written permission;
- Downloading or storing company or student private information on portable computers or mobile storage devices;
- Making computing resources available to any person or entity not affiliated with the school;
- Posting, downloading, viewing, or sending obscene, pornographic, sexually explicit, hate related, or other offensive material;
- Academic dishonesty as defined in the Code of Student Conduct;
- Use of Zenith or Everest logos, trademarks, or copyrights without prior approval;
- Use for private business or commercial purposes.

# **COPYRIGHT POLICY**

It is the intention of Everest to strictly enforce a policy of zero tolerance for copyright violations and to comply with all applicable laws and regulations. Any student who engages in the unauthorized distribution of copyrighted material, including unauthorized peer-to-peer file sharing, is subject to disciplinary actions by the school, or any applicable actions in conjunction with federal and state law.

# SEXUAL HARASSMENT POLICY

Everest strives to provide and maintain an environment free of all forms of harassment. Behavior toward any student by a member of the staff, faculty or student body that constitutes unwelcome sexual advances will be dealt with quickly and vigorously and will result in disciplinary action up to and including dismissal. Any student who believes that he or she is a victim of sexual harassment should immediately notify the office of the Campus President. The Campus President will conduct an investigation of all allegations. Information surrounding all complaints will be documented and kept strictly confidential.

#### SANCTIONS

Sanctions should be commensurate with the nature of the student's conduct. All sanctions imposed should be designed to discourage the student from engaging in future misconduct and whenever possible should draw upon educational resources to bring about a lasting and reasoned change in behavior.

**Suspension** – A sanction by which the student is not allowed to attend class for a specific period of time. Satisfactory completion of certain conditions may be required prior to the student's return at the end of the suspension period. During a period of suspension, a student shall not be admitted to any other CCi school.

**NOTE:** Student absences resulting from a suspension shall remain in the attendance record regardless of the outcome of any disciplinary investigation or the decision of the Student Conduct Committee.

**Dismissal** – A sanction by which the student is withdrawn from school. Such students may only reapply for admission with the approval of the Campus President. Students dismissed from the school remain responsible for any outstanding balance owed to the school.

### **APPEAL PROCESS**

Students are entitled to appeal any sanction which results in suspension or dismissal. The appeal must be in writing and filed within five (5) calendar days of the date of the written notice. If the student files a timely appeal, the Campus President (or designee) shall convene a Student Conduct Committee to conduct the hearing. The Committee shall generally include the Campus President the Academic Dean/Director of Education, a Program or Department Chair, the Student Services Coordinator, or a faculty member. The members of the Committee shall select a Chair. If the alleged violation involves allegations of sexual misconduct committee against faculty or staff, the Committee must include a representative from Corporate or Division Human Resources.

The Committee Chair shall timely schedule a hearing date, and provide written notice to the student. The notice must be mailed or otherwise delivered to the student at least two (2) calendar days prior to the scheduled hearing date, and include notice that the student may:

- Appear in person, but is not required to appear
- Submit a written statement
- Respond to evidence and question the statements of others
- Invite relevant witnesses to testify on his/her behalf
- Submit written statements signed by relevant witnesses

Attendance at the hearing is limited to those directly involved or those requested to appear. Hearings are not open to the public and are not recorded.

The Student Conduct Committee shall:

- Provide the student a full and reasonable opportunity to explain his/her conduct
- Invite relevant witnesses to testify or submit signed statements
- Reach a decision based upon the information submitted prior to the hearing and the testimony and information of the student and witnesses at the hearing
- If the student does not appear, or elects not to appear, the Committee may proceed in the student's absence and the decision will have the same force and effect as if the student had been present

The Student Conduct Committee shall issue a written decision to the student within five (5) calendar days of the date of the hearing which may:

- Affirm the finding and sanction imposed by the Campus President (or designee)
- Affirm the finding and modify the sanction. Sanctions may only be reduced if found to be grossly disproportionate to the offense
- Disagree with the previous finding and sanction and dismiss the matter. A matter may be dismissed only if the original finding is found to be arbitrary and capricious

The decision of the Student Conduct Committee is final, and no further appeal is permitted.

### **RECORD OF DISCIPLINARY MATTER**

All disciplinary files shall be kept separate from the student academic files until resolved. Disciplinary files for students who have violated the Code of Student Conduct shall be retained as part of the student's academic file and considered "education records" as appropriate, pursuant to the Family Educational Rights and Privacy Act (FERPA). Disciplinary records shall be retained in the student's academic file permanently and a note shall be included in the official student information system indicating the date of the disciplinary decision and the sanction imposed.

When circumstances warrant, disciplinary matters shall be referred to the appropriate law enforcement authorities. Additionally, disciplinary records shall be reported to third parties as applicable (e.g. Veteran's Administration).

### **Student Grievance Procedure**

You may bring a complaint against the School and initiate the School's Internal Dispute Resolution procedure by filing a written complaint with your academic advisor. The academic advisor will attempt to respond to your complaint within 15 days. If you are not satisfied with your academic advisor's resolution of your complaint, you may appeal his/her decision to the President of the School. You may then appeal the President's decision to the Provost of Zenith Education Group. If you are not satisfied with the outcome of the internal dispute procedure, you have the option of submitting your claim to arbitration pursuant to the School's Dispute Resolution Policy that was provided at the time of enrollment. You may also obtain a copy of the Internal Dispute Resolution Policy from your academic advisor.

If a student feels that the School has not adequately addressed a complaint or concern, the student may also consider contacting the Accrediting Council for Independent Colleges and School. All complaints considered by the Council must be in written form, with permission from the complainant(s) for the Council to forward a copy of the complaint to the school for a response. The complainant(s) will be kept informed as to the status of the complaint as well as the final resolution by the Council. Please direct all inquiries to:

### Accrediting Council for Independent Colleges and School 750 1<sup>st</sup> Street NE, Suite 980 Washington, DC 20002 (202) 336-6780, (202) 842-2593 (fax)

Students may also contact and file a complaint with the state's agency and the Florida Attorney General's Office at the following mailing address:

The Commission for Independent Education Florida Department of Education 325 West Gaines Street, Suite #1414 Tallahassee, FL 32399-0400 Toll free number (888) 224-6684 Office of the Attorney General PL-01 The Capitol Tallahassee, FL 32399-1050 Ph: 850-414-3990 Toll Free within Florida: 866-966-7226 Website: http://myfloridalegal.com

### DRESS CODE

Students must adhere to the campus dress code standards and are expected to dress in a manner that would not be construed as detrimental to the student body, the educational process or wear any clothing which has expressed or implied offensive symbols or language. Students should always be cognizant of the first impression of proper dress code and grooming, and note that Everest promotes a professional atmosphere. In addition, students may be required to wear uniforms that present a professional appearance.

### NOTIFICATION OF RIGHTS UNDER FERPA

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights include:

1. The right to inspect and review the student's education records within 45 days of the day the institution receives a request for access.

A student should submit to the Registrar's Office a written request that identifies the record(s) the student wishes to inspect. The Registrar will make arrangements for access and will notify the student of the time and place where the records may be inspected. If the records are not maintained by the Registrar, the Registrar shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student's education records that the student believes are inaccurate, misleading or otherwise in violation of the student's privacy rights under FERPA.

A student who wishes to ask the institution to amend a record should write to the Registrar, clearly identify the part of the record the student wants changed, and specify why it should be changed. If the institution decides not to amend the record as requested, the institution will notify the student in writing of the decision and the student's right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to provide written consent before the institution discloses personally identifiable information from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

The institution discloses education records without a student's prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interests. A school official is a person employed by the institution in an administrative, supervisory, academic or research, or support staff position; a person or company with whom the institution has contracted as its agent to provide a service instead of using institution employees or officials (such as an attorney, auditor, collection agent, campus security personnel and a health provider); a person serving the institution in an advisory capacity; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks, or an accreditor or an official of the state's department of education. Please note that in certain circumstances, such as with an infectious disease health threat or security threat, the school may disclose individually identifiable information without notice.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for the institution.

Upon request, the institution also discloses education records without consent to officials of another school in which a student seeks or intends to enroll.

Everest is committed to the protection of student education information. While Everest does not publish a student directory, from time to time the school publishes communications, such as graduation and honor roll lists, that include Everest-designated directory information. Everest expressly limits its designated directory information to students' names, graduation dates, programs of study, degrees, diplomas, certificates and honors/awards received. A student who wishes not to be included in the campus publications referenced above must obtain an Opt-Out form from the Registrar's Office and submit the completed form to the Registrar.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the institution to comply with the requirements of FERPA. The name and address of the office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C. 20202

### **STUDENT RECORDS**

All student academic records are retained, secured, and disposed of in accordance with local, state, and federal regulations. Everest maintains complete records for each student, including grades, attendance, prior education and training, placement, financial aid and awards received. Student records should be maintained on campus for five years.

### TRANSCRIPT AND DIPLOMA RELEASE

Student academic transcripts are available upon written request by the student. Student records may be released only to the student or his/her designee as directed by the Family Educational Rights and Privacy Act of 1974.

Transcript and diploma requests must be made in writing to the Office of the Registrar. Official transcripts will be released to students who are current with their financial obligation to the school. Diplomas will be released to students who are current with their financial obligation upon completion of their school program.

### CAMPUS SECURITY AND CRIME AWARENESS POLICIES

As required by Public Law 101-542, as amended by Public Law 102-325, Title II, Crime Awareness and Campus Security Act of 1990, Section 294, Policy and Statistical Disclosures, Everest has established policies regarding campus security.

Everest strives to provide its students with a secure and safe environment. Classrooms and laboratories comply with the requirements of the various federal, state and local building codes, with the Board of Health and Fire Marshal regulations. Most campuses are equipped with alarm systems to prevent unauthorized entry. Facilities are opened each morning and closed each evening by administrative personnel.

In emergency situations, students should call 911 for an immediate response from the local law enforcement agency. Thereafter, the crime should be reported to the Campus President (or designee). In non-emergency situations, the crime should be reported as soon as possible to the Campus President (or designee) and the local law enforcement agency. All students are encouraged to report all crimes and public safety incidents to the Campus President (or designee) in a timely manner. The Campus President (or designee) shall document each incident reported and determine an appropriate response based on the nature of the incident. All victims of crime that occur on campus shall be provided with the opportunity to report the incidents to the local law enforcement authority.

Students are responsible for their own security and safety both on-campus and off-campus and must be considerate of the security and safety of others. The school has no responsibility or obligation for any personal belongings that are lost, stolen or damaged, whether on or off school premises or during any school activities.

On May 17, 1996, the President of the United States signed Megan's Law into federal law. As a result, local law enforcement agencies in all 50 states must notify schools, day care centers, and parents about the presence of dangerous offenders in their area. Students are advised that the best source of information on the registered sex offenders in the community is the local sheriff's office or police department. The following link will provide you with a list of the most recent updated online information regarding registered sex offenders by state and county: http://www.fbi.gov/hg/cid/cac/registry.htm.

### DRUG-FREE SCHOOLS POLICY

The Drug-Free Schools and Communities Act of 1989, Public Law 101-226, requires institutions receiving financial assistance to implement and enforce drug prevention programs and policies. Students shall receive a copy of the Drug-Free Schools/Drug-Free Workplace Annual Disclosure upon enrollment, and thereafter no later than January 31<sup>st</sup> of each calendar year they are enrolled. The information and referral line that directs callers to treatment centers in the local community is available through Student Services.

Everest prohibits the manufacture and unlawful possession, use or distribution of illicit drugs or alcohol by students on its property and at any school activity. If students suspect someone to be under the influence of any drug

or alcohol, they should immediately bring this concern to the attention of the Academic Dean/Director of Education or Campus President. Students who violate the school's prohibitions against alcohol, controlled substances, and drugs are subject to disciplinary action up to and including dismissal from the school. Information on the disciplinary process may be found in the school catalog. When circumstances warrant, a violation of this policy may also be referred to the appropriate law enforcement authorities.

In certain cases, students may be referred to counseling sources or substance abuse centers. If such a referral is made, continued enrollment is subject to successful completion of any prescribed counseling or treatment program.

### STATISTICAL INFORMATION

Everest is required to report to students the occurrence of various criminal offenses on an annual basis. On or before October 1<sup>st</sup> of each year, the school will distribute a security report to students containing the required statistical information on campus crimes committed during the previous three years. A copy of this report is available to prospective students upon request.

### **CAMPUS COMPLETION RATE REPORTS**

Under the Student Right to Know Act (20 U.S.C. § 1092(a)), Everest is required to annually prepare completion or graduation rate data respecting the institution's first-time, full-time undergraduate students (34 CFR 668.45(a)(1)). Everest is required to make this completion or graduation rate data readily available to students approximately 12 months after the 150% point for program completion or graduation for a particular cohort of students. This completion rate report is available to students and prospective students upon request.

# **STUDENT SERVICES**

### ORIENTATION

New students participate in an orientation program prior to beginning classes. This program is designed to acquaint students with the policies of the school and introduce them to staff and faculty members who will play an important part in the students' academic progress.

### **HEALTH SERVICES**

Everest does not provide health services.

### HOUSING

Everest does not provide on-campus housing; however, it does assist students in locating suitable housing off campus. For a list of available housing, students should contact the Academic Department.

### STUDENT ADVISING

Academic advising is coordinated by the Academic Dean/Director of Education and includes satisfactory academic progress and attendance. The Registrar and Academic Program Directors serve as advisors and assist students in course selection and registration, dropping and adding courses, change of major, and meeting graduation requirements.

### EVEREST CARE PROGRAM

The Everest CARE Student Assistance Program is a free personal-support program for our students and their families. This program provides enrolled students direct and confidential access to professional counseling. For more information, please visit the website <u>http://www.everestcares.com</u> or call (888) 852-6238.

### PLACEMENT ASSISTANCE

Everest maintains an active Career Services Office to assist graduates in locating entry-level, educationally related career opportunities. The Career Services Office works directly with business, industry, and advisory board members to assist all students with access to the marketplace. Everest does not, in any way, guarantee employment. It is the goal of the Career Services Office to help all students realize a high degree of personal and professional development and successful employment. Specific information on job opportunities and basic criteria applicable to all students and graduates utilizing placement services is available by contacting the Career Services Office.

# **PROGRAMS OFFERED**

Program	Credential
Electrician	Diploma
Heating, Ventilation and Air Conditioning	Diploma
Massage Therapy	Diploma
Medical Assistant	Diploma
Medical Insurance Billing and Coding	Diploma
Pharmacy Technician	Diploma
Accounting	Associate in Science
Applied Management	Associate in Science
Business	Associate in Science
Computer Information Science	Associate in Science
Criminal Justice*	Associate in Science
Medical Insurance Billing and Coding*	Associate in Science
Paralegal	Associate in Science
Accounting	Bachelor of Science
Applied Management	Bachelor of Science
Business	Bachelor of Science
Computer Information Science	Bachelor of Science
Criminal Justice	Bachelor of Science
Paralegal	Bachelor of Science
Business Administration	Master of Business Administration

\* No longer enrolling new students

# MODULAR PROGRAMS

**ELECTRICIAN** Diploma Program 36 weeks - 720 clock hours, 59 credits

The commercial and residential electrical industries are constantly evolving as new industry demands require increased skill sets for electricians. Graduates need the necessary core and specialty skills to successfully meet electrician standards and be embraced by the marketplace. Through the Electrician diploma program, students will learn skills of electrical safety, tools and theory, the National Electrical Code (NEC), conduit bending, residential and commercial wiring, power distribution, advanced code concepts and motors, industrial controls, Programmable Logic Controllers (PLCs), personal development, jobsite management, fire and security alarms, voice, data, TV, signaling systems and fiber optics. Laboratory experience is an integral part of the program.

Graduates of the Electrician diploma program are qualified for entry-level apprentice or trainee positions with employers of commercial and residential electricians, preventive maintenance electricians, production electricians, bench electricians, repair electricians, industrial maintenance electricians, programming electricians, maintenance technicians, field service electricians, installation electricians, and any manufacturing industry or market sector employer that has a need for electricians.

Upon successful completion of all program modules, students will be awarded a diploma.

Course Number	Course Title	Clock Hours	Quarter Credit Hours
EEV N031	Electrical Theory	80	8.0
EEV N176	NEC/Safety/Hand Tools and Conduit Bending	80	6.0
EEV N174	Residential, Commercial and NEC Requirements	80	6.0
EEV N271	Transformer Principles and Test Equipment	80	6.0
EEV N208	Power Distribution	80	7.0
EEV N193	Hazardous Locations and Renewable Energy	80	7.0
EEV N034	Motor Concepts	80	7.0
EEV N038	Advanced Industrial Controls	80	6.0
EEV N039	Solid State Controls and Industrial Automation	80	6.0
	Total	720	59.0

### **EEV N031 - Electrical Theory**

### 8 Quarter Credits

V 1 0

This course introduces students to fundamentals of algebra, electrical theory, Ohm's Law, magnetism, voltage, resistance, inductance, capacitance, units of electrical measurement and basic electrical math. Students will learn concepts of energy, Kirchoff's law, Norton's and Thevenin's theorems, basic trigonometry, inductance, capacitance, series and parallel circuits, power and power factor, electrical efficiency, direct current (DC) and alternating current (AC) circuits, and personal development topics. Students will also learn techniques for studying and test -taking. Outof -class activities will be assigned and assessed as part of this module. Prerequisite: None. Lecture hours: 80. Lab hours: 0.

### EEV N176 - NEC/Safety/Hand Tools and Conduit Bending

6 Quarter Credits This course introduces students to definitions, terms and organization of the National Electrical Code (NEC), and conduit bending by calculation. Students will learn NEC requirements for residential, raceway types, boxes and fittings, commercial, industrial installations, materials, motorized tools, digging techniques, Material Safety Data Sheets (MSDS) and first aid. Students will develop math and layout techniques required to accurately and efficiently bend conduit. Students will also be introduced to the importance of safety, and common hand and power tools. Outof-class activities will be assigned and assessed as part of this module. Prerequisite: None. Lecture hours: 40. Lab hours: 40.

### EEV N174 - Residential/Commercial and NEC Requirements

Students will learn wiring and protection methods, conductor installation, raceway fill, ambient temperature, voltage drops, blueprint reading, electrical installation, connections, markings, enclosures, boxes and fittings, junction boxes, gutters, flexible cord, underground feeder and branch circuits, cables, supported and open wiring, residential/commercial wiring, signaling circuits, smoke detectors, ground fault circuit interrupters (GFCIs), doorbells, and service changes. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: None. Lecture hours: 40. Lab hours: 40.

**6 Quarter Credits** 

**6 Quarter Credits** 

7 Quarter Credits

7 Quarter Credits

**7 Quarter Credits** 

**6 Quarter Credits** 

### EEV N271 - Transformer Principles and Test Equipment

Students will learn about meters, test equipment, harmonics, grounding, single-phase, three-phase, auto and specialty transformer principles, cable and generator testing, measuring devices, high-voltage cables, insulators and test equipment. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: EEV N031. Lecture hours: 40. Lab hours: 40.

### EEV N208 - Power Distribution

Students will learn about hazardous locations, health care facilities, intermediate and advanced grounding, overcurrent protection, load calculations, balancing phases and neutrals, surge arrestors, transient voltage surge suppression (TVSS), color codes, circuit identification, panel rating, phase converters, capacitors, and single-phase and three-phase power distribution concepts. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: EEV N176. Lecture hours: 60. Lab hours: 20.

### EEV N193 - Hazardous Locations & Renewable Energy

Students will learn about power conditioning and emergency systems, generators, battery systems, fan controllers, lighting concepts, uninterruptible power supply (UPS), transfer switches, dimmer systems, voice-data-TV, computer cabling, structured wiring, fiber optics, special equipment, fire alarms, security alarms, signaling, rigging, and renewable energy. Out -of-class activities will be assigned and assessed as part of this module. Prerequisite: EEV N174. Lecture hours: 60. Lab hours: 20.

### **EEV N034 - Motor Concepts**

Students will learn National Electrical Code (NEC) motor concepts, construction, rotor windings, starting configuration, megohmmeter, insulation testing, squirrel cage motor, single-phase and three-phase motors, AC/DC motor concepts, applications, mechanical clutches, magnetic drives, pulleys, direct drives, offset drives, and jobsite management. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: EEV N271. Lecture hours: 60. Lab hours: 20.

### **EEV N038 - Advanced Industrial Controls**

Students will learn solid state relays, timing relays, variable frequency drives, programmable solid state relays, pneumatic timers, solid state motor control, dynamic braking, NFPA 79, control transformers, HVAC controls, and starting methods. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: EEV N271. Lecture hours: 40. Lab hours: 40.

### EEV N039 - Solid State Controls and Industrial Automation

**6 Quarter Credits** Students will learn solid state devices, semiconductors, digital logic, industrial automation, programmable logic controller (PLC), hardware, applications, HMI, binary, octal, hexadecimal, grey code and PLC operation. Out -of-class activities will be assigned and assessed as part of this module. Prerequisite: EEV N271. Lecture hours: 40. Lab hours: 40.

### HEATING, VENTILATION AND AIR CONDITIONING (HVAC) Diploma Program

36 Weeks - 720 Clock Hours, 55 Quarter Credits

V 3.0

The Heating, Ventilation and Air Conditioning (HVAC) program provides students the skills required to specialize in the field of residential heating and air conditioning service and repair. Most areas of the world require some residential climate control, therefore basic construction, basic electricity, air conditioning, fuel-heating systems, heat pumps, air distribution, system application and design, system controls, and HVAC diagnostics are taught in the program.

The HVAC program consists of nine modules. Upon successful completion of all modules of the program, students will be awarded a diploma.

Graduates of the program can seek employment as entry-level technicians in the heating, ventilation and air conditioning field, including Preventative Maintenance Technician, Entry-Level Installation Helper, Entry-Level Service and Repair Helper. Intermediate and advanced positions include Heating, Ventilation & Air Conditioning Installer, Heating, Ventilation & Air Conditioning Technician, Air Balancing Technician, Energy Management Controls Installer and or Technician.

Module Code	Modular Title	Clock Hours	Credit Hours
Module 1			
CON 101N	Basic Construction	80	7.0
Module 2			
ACR 101N	Basic Electricity	80	6.0
Module 3			
ACR 106N	Air Conditioning	80	6.0
Module 4			
ACR 111N	Fuel Heating Systems	80	6.0
Module 5			
ACR 116N	Air Distribution	80	6.0
Module 6			
ACR 201N	Systems Controls	80	6.0
Module 7			
ACR 206N	Heat Pumps	80	6.0
Module 8			
ACR 211N	System Application and Design	80	6.0
Module 9			
ACR 216N	HVAC Diagnostics	80	6.0
	Total	720	55.0

### **CON 101N - Basic Construction**

7 Quarter Credits

This course introduces students to the construction field. The course of instruction will cover basic job safety concepts and regulatory requirements, basic math used in the construction trades, the use of common hand and power tools, and an introduction to blueprint reading, basic rigging, communication and employability skills. Students will also learn techniques for studying and test-taking. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: None. Lecture Hours: 60. Lab Hours: 20.

### ACR 101N - Basic Electricity

6 Quarter Credits This course of instruction will cover basic job safety concepts, history of electricity, electrical theory, electrical power, electrical measuring, applications and electrical components. Power sources, component operation and circuit diagrams are studied. Students use this theory, integrated with objective specific hands-on lab exercises to practice typical equipment manufacturer's diagnostic techniques. Testing instruments and wiring diagrams are used for systems problem-solving projects. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: None. Lecture Hours: 40. Lab Hours: 40.

### ACR 106N - Air Conditioning

### 6 Quarter Credits

This course of instruction will cover basic safety for pressures, temperatures, and refrigerants, basic laws of physics and cooling theory, terms, definitions, air conditioning cycles, component operations, mechanical and electrical diagrams, standard and high efficiency air conditioning systems. Pressure/temperature charts, refrigerant piping specifications and installation will also be covered. Usages of various tools are covered. Structured lab projects allow students to learn industry-approved diagnostics, service and repair procedures. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: None. Lecture Hours: 40. Lab Hours: 40.

### ACR 111N - Fuel Heating Systems

This course of instruction will cover combustion and various hydrocarbon fuels. Appliance heaters and warm air furnaces will be covered. Operation of controls, testing and servicing equipment, installation and operation are also covered. Fuel heating system diagnosis and wiring diagrams are explored. Structured lab projects allow students to learn industry-approved diagnostics, service and repair procedures. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: None, Lecture Hours: 40, Lab Hours: 40.

### ACR 116N - Air Distribution

6 Quarter Credits

6 Quarter Credits

Students in this course of study will learn to read blueprints, use shop math, perform load calculations, indoor air quality, and system air balancing and apply the fundamentals of air distribution to system design. In structured lab projects, students will use the tools and equipment necessary to assemble and disassemble pre-fabricated HVAC air distribution systems. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: None. Lecture Hours: 40. Lab Hours: 40.

### ACR 201N - System Controls

This course presents electrical and electronics theory, terms, definitions, symbols, circuits, laws and formulas. Power sources, component operation and circuit diagrams are studied. Students use this theory, integrated with objective specific hands-on lab exercises to practice typical equipment manufacturers' diagnostic techniques. Testing instruments and wiring diagrams are used for systems problem-solving projects. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: ACR 101N. Lecture Hours: 40. Lab Hours: 40.

### ACR 206N - Heat Pumps

### 6 Quarter Credits

Air properties related to HVAC and heat pump systems design are studied in this course. Component operation, systems diagrams and industry approved troubleshooting techniques are discussed and reinforced with structured lab exercises. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: ACR 101N and ACR 106N. Lecture Hours: 40. Lab Hours: 40.

### ACR 211N - System Application and Design

6 Quarter Credits This course introduces students to various HVAC system applications. Various HVAC designs, joining and sizing of various types of piping and tubing, system charging, load calculations, wiring, safety and proper diagnostics procedures, EPA Section 608 and R-410A, refrigerant handling and containment (recovery, recycling and reclaiming) and certification requirements are discussed in this course. Students will participate in structured lab exercises including inspection, diagnostics, service, troubleshooting and repair of residential gas heating systems. Out-of-class activities will be assigned and assessed as part of this module. Prerequisites: ACR 101N, ACR 106N, ACR 116N and ACR 201N. Lecture Hours: 40. Lab Hours: 40.

### ACR 216N - HVAC Diagnostics

### 6 Quarter Credits

This course introduces students to HVAC diagnostic fundamentals. Emphasis is placed on testing equipment, gas identifiers, wiring diagrams, refrigerant schematics, systems testing, load distribution and controls operation. Mechanical components, gas pipe sizing, wiring, safety and proper diagnostic procedures are taught. Students will participate in structured lab exercises including inspection, diagnostics, service, troubleshooting and repair of HVAC systems. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: ACR 101N, ACR 106N, ACR 116N and ACR 201N. Lecture Hours: 40. Lab Hours: 40.

### 6 Quarter Credits

MASSAGE THERAPY Diploma Program 36 Weeks – 750 Hours, 55 Credits

V 3.0

The Massage Therapy program is designed to provide the student with the necessary tools required to successfully enter the massage industry. Whether it is a day spa, physician's office, health club, or resort, graduates of this program will have acquired all the tools needed to thrive in this exciting new career.

This <u>750</u>-hour program consists of one pre-requisite course, eight self-contained units of learning called modules, and a 30 hour clinic, which the student must complete before they graduate. Each student must successfully complete the pre-requisite course before moving on to any one of the remaining modules in the program. Included in this program are <u>225</u> hours of Anatomy and Physiology, as well as introduction to principles and practices of massage therapy, massage fundamentals, massage and bodywork, pathology, business and success skills, and health and wellness. Upon the successful completion of this program, graduates will have received the education necessary to attain a career in one of the most engaging and exciting fields today. The graduate may work in an entry-level position as a Massage Therapist in a variety of health care facilities, including, but not limited to, a massage clinic, hospital, chiropractic office, nursing home, health club, spa, resort, or in private practice. Massage Therapists may be employed in urban, suburban, and rural areas.

Module Number	Module Title	Contact Hours	Quarter Credits
	Prerequisite Course		·
MTD100	Introduction to Massage Therapy	80	6.0
	Modular Courses		
MTD201	Business and Ethics	80	6.0
MTD237	Swedish Massage, Pre-Natal, Post-Natal and Infant, & Elder/Geriatric Massage	80	6.0
MTD263	Eastern Theory and Practice	80	6.0
MTD220	Energy & Non-Traditional Therapies, Wellness & CPR	80	6.0
MTD282	Deep Tissue, Myofascial Release & Pin and Stretch	80	6.0
MTD214	Neuromuscular/Trigger Point and Muscle Energy Techniques	80	6.0
MTD246	Clinical and Sports Massage	80	6.0
MTD295	Health and Wellness	80	6.0
MTD278	Massage Therapy Clinic	30	1.0
	Total	750	55.0

### \* Massage Therapy Clinic hours are to be scheduled throughout the last three modules of training. Courses comply with the requirements of the Florida Board of Massage Therapy.

# MTD100 – Introduction to Massage Therapy 6.0 Quarter Credits This course is designed to prepare the student for future course work in more advanced modalities presented in the program. The topics covered in this course are Joint Classification, Range of Motion of the Shoulder, Western Theory & History, the Benefits of Massage Therapy on the Body Systems, Classification of Massage Movements, Draping Procedures, The Client Consultation, Procedures for a Complete Body Massage, The Skeletal System, The Muscular System, General Structural Plan of the Body, Movement and Directional Terms, and Indications/Contraindications for Massage Therapy. Out-of-class activities will be assigned and assessed as part of this module. Lecture Hours: 40

### MTD201 – Business and Ethics

This module is designed to provide students with an understanding of the job opportunities in the massage industry, while building core computer and business skills. Professionalism, ethical practice, and the law as it relates to massage and communication are discussed. Clinical practice in Swedish massage, chair massage, and integrated techniques continue to build the massage therapists practical skills. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite MTD100 Lecture Hours: 40 Lab Hours: 40

MTD237 – Swedish Massage, Pre-Natal, Post-Natal and Infant, & Elder/Geriatric Massage 6.0 Quarter Credits This module is designed to provide the student with the theory and hands-on skills involved in practicing Swedish massage. Also covered in this module is range of motion for hip, pre-natal, post-natal, infant, and elder/geriatric massage. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite MTD100 Lecture Hours: 40 Lab Hours: 40

### MTD263 – Eastern Theory and Practice

### 6.0 Quarter Credits

6.0 Quarter Credits

This module is designed to provide the student with the understanding and knowledge of Eastern theory and practice as used within different styles of Asian bodywork. The student will also learn the immune and lymphatic systems. For specific musculature covered in this module please refer to the anatomy and physiology outline. Out-of-class

activities will be assigned and assessed as part of this module. Prerequisite MTD100 Lecture Hours: 40 Lab Hours: 40
MTD220 – Energy & Non-Traditional Therapies, Wellness & CPR 6.0 Quarter Credits
This module is designed to provide the student with the theory and hands-on skills involved in introducing
fundamental energy based modalities including polarity and beginning Reiki hand-placements. The student will be
introduced to basic health and wellness concepts including CPR. This module will also provide the student with the
understanding of the integumentary system and musculature of the forearms and hands. Out-of-class activities will
be assigned and assessed as part of this module. Prerequisite MTD100 Lecture Hours: 40 Lab Hours: 40
MTD282 – Deep Tissue, Myofascial Release & Pin and Stretch 6.0 Quarter Credits
This module is designed to provide students with an understanding of myofascial, deep tissue and pin and stretch
techniques. These techniques will be incorporated into a Swedish massage to better address individual client needs.
Students will use basic assessment skills to identify muscular holding patterns and develop treatment plans. The
indications and contraindications of these techniques will be discussed as will specific sights of caution for deep
tissue. In addition students will develop an understanding of the digestive system, urinary system and the muscles of
the anterior neck. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite MTD100
Lecture Hours: 40 Lab Hours: 40
MTD214 – Neuromuscular/Trigger Point and Muscle Energy Techniques 6.0 Quarter Credits
This module is designed to provide the student with understanding and knowledge of neuromuscular therapy
(NMT)/trigger point therapy and muscle energy techniques (MET) along with the assessment skills necessary for
these modalities. The student will also learn about the structure and function of the nervous system and review the
muscles of the shoulder. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite
MTD100 Lecture Hours: 40 Lab Hours: 40
MTD246 – Clinical and Sports Massage 6.0 Quarter Credits
This module is designed to provide the student with the understanding and knowledge of clinical and sports massage
techniques and the assessment skills necessary for these modalities. The student will also learn the assessment
skills, charting/documentation, clinical applications and focus within the endocrine system with a review or the
nervous system (CNS/PNS). For specific musculature covered for this module please refer to the anatomy and
physiology outline. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite MTD100
Lecture Hours: 40 Lab Hours: 40
MTD295 – Health and Wellness 6.0 Quarter Credits
This module is designed to provide the student with an overall understanding of the skills involved in working in spa
services and in working with specific strategies to enhance good health and wellness. Out-of-class activities will be
assigned and assessed as part of this module. Prerequisite MTD100 Lecture Hours: 40 Lab Hours: 40
MTD278 – Massage Therapy Clinic 1.0 Quarter Credit
This course is designed to provide the student with a realistic hands-on view and experience of working in the field by
participating in a real massage therapy clinic or 'mock' clinic environment. The clinic provides the students an
opportunity to enhance skills learned and practiced from instruction. This course is a continuation of supervised
clinical practice integrating the principles of Swedish massage, chair massage and adjunctive therapeutic modalities.
Students are afforded the opportunity to practice their massage and evaluation skills on a diverse group of subjects.
Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: Successful completion of 6
of the 9 modules and instructor approval. With Instructor approval, students may be allowed to begin their clinic
hours earlier than the 7th module. Lecture Hours: 0 Lab Hours: 0 Other Hours: 30

Diploma Program 41 Weeks – 920 Hours, 60 Credits

V 2.0

In recent years, the medical assisting profession has become indispensable to the health care field. Physicians have become more reliant on medical assistants for their front and back office skills. Medical offices and ambulatory care providers, clinics, urgent care centers and insurance providers are seeking their services.

The Medical Assistant diploma program is designed to prepare students for entry-level positions as medical assistants in a variety of health care settings. Students learn the structure and function of the major body systems in conjunction with medical terminology, diagnostic and therapeutic procedures, computer skills, administrative processes, bookkeeping and accounting practices, and the processing of medical insurance forms and claims.

The goal of the Medical Assistant diploma program is to prepare competent entry-level medical assistants in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains required and necessary to prepare them for entry level positions such as clinical or administrative assistant, medical receptionist, and medical insurance biller.

**Note:** Graduates from a Medical Assistant program that is accredited by either ABHES (Accrediting Bureau of Health Education Schools) or CAAHEP/MAERB (Commission on Accreditation of Allied Health Education Programs/Medical Assisting Education Review Board) are immediately eligible to sit for the RMA Exam (Registered Medical Assistant), CMA Exam (Certified Medical Assistant), NCMA Exam (National Certified Medical Assistant) and CCMA Exam (Certified Clinical Medical Assistant) exams. Candidates who pass the exam are considered Registered Medical Assistants (RMA), Certified Medical Assistants (CMA), National Certified Medical Assistants (NCMA), or Certified Clinical Medical Assistants (CCMA) depending on which certification exam they take.

Graduates of campuses where the Medical Assistant program is not accredited by either ABHES or CAAHEP/MAERB, but are institutionally accredited are immediately eligible to sit for the RMA Exam (Registered Medical Assistant), NCMA Exam (National Certified Medical Assistant) and CCMA Exam (Certified Clinical Medical Assistant) exams.

Course Number	Course Title	Clock Hours	Quarter Credit Units
Module MAINTRO	Introduction to Medical Assisting	80	6.0
Module A	Integumentary, Sensory, and Nervous Systems, Patient Care and Communication	80	6.0
Module B	Muscular System, Infection Control, Minor Office Surgery, and Pharmacology	80	6.0
Module C	Digestive System, Nutrition, Financial Management, and First Aid	80	6.0
Module D	Cardiopulmonary Systems, Vital Signs, Electrocardiography, and CPR	80	6.0
Module E	Urinary, Blood, Lymphatic, and Immune Systems and Laboratory Procedures	80	6.0
Module F	Endocrine, Skeletal, and Reproductive Systems, Pediatrics, and Geriatrics	80	6.0
Module G	Medical Law and Ethics, Psychology, and Therapeutic Procedures	80	6.0
Module H	Health Insurance Basics, Claims Processing, and Computerized Billing	80	6.0
Module X	Medical Assistant Diploma Program Externship	200	6.0
	Total	920	60.0

### Module MAINTRO - Introduction to Medical Assisting

### 6.0 Quarter Credits

Module MAINTRO introduces students to the medical assisting profession, medical terminology, interpersonal skills, study techniques, and basic clinical skills. Students are introduced to the rules needed to build, spell, and pronounce health care terms, basic prefixes, suffixes, word roots, combining forms, and terms associated with body structure and directional terminology. Students study the professional qualities and professional personal appearance of a medical assistant. They learn about the administrative and clinical duties performed by a medical assistant. Additionally, students study the purpose of accreditation and the significance of becoming credentialed professional. Students also study the importance of interpersonal skills and the application of these skills with patients and fellow employees. Students will gain knowledge of basic medical insurance billing, coding concepts, and the use of coding reference books. Students are introduced to the basic clinical skills of obtaining vital signs, drawing and processing blood samples, and preparing and administering injections—procedures that they will continue to practice throughout the remaining modules. Students learn how to use knowledge of multiple intelligences to enhance studying and learning and how to make their personality type work for them. Successful note-taking and listening skills are reviewed, as well as techniques for remembering. Students also gain knowledge of test-taking strategies, including methods that can be used for reducing test anxiety. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: None Lecture Hours: 40 Lab Hours: 40

### Module A - Integumentary, Sensory, and Nervous Systems, Patient Care and Communication

### 6.0 Quarter Credits

Module A emphasizes patient care, including physical examinations and procedures related to the eyes and ears, the nervous system, and the integumentary system. Students will have an opportunity to work with and review patient charts and perform front office skills related to records management, appointment scheduling, and bookkeeping. Students gain skills in communication (verbal and nonverbal) when working with patients both on the phone and in person. Students develop working knowledge of basic anatomy and physiology of the special senses (eyes and ears), nervous and integumentary system, common diseases and disorders, and medical terminology related to these systems. Students check vital signs, obtain blood samples, and prepare and administer injections. Also introduced are strategies for dealing with change, setting goals, and getting motivated. Students learn how to prepare an attractive business letter, along with demonstrating increasing speed and accuracy on the computer keyboard and in medical transcription. Students build on their keyboarding and word processing skills related to word processing and spreadsheet programs, with acceptable progress through the identified text(s). Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: MAINTRO Lecture Hours: 40 Clinical Lab Hours: 30 Computer Lab Hours: 10

Module B - Muscular System, Infection Control, Minor Office Surgery, and Pharmacology 6.0 Quarter Credits Module B stresses the importance of asepsis and sterile technique in today's health care environment, along with the proper use of personal protective equipment. Students learn about basic bacteriology and its relationship to infection and disease control. Students identify the purpose and expectations of the Occupational Health and Safety Administration (OSHA) and the Clinical Laboratory Improvement Amendments (CLIA) regarding disease transmission in the medical facility. Students study basic math concepts to prepare for medication dosage calculations. Students learn the principles and various methods of administering medication. Basic pharmacology and the uses, inventory, classification, and effects of therapeutic drugs are included. Students participate in the positioning and draping of patients for various examinations and prepare for assisting with minor office surgical procedures. Students gain knowledge of basic anatomy and physiology of the muscular system, common diseases and disorders, and medical terminology related to this system. Students check vital signs, obtain blood samples, and prepare and administer injections. Also introduced are strategies for setting and accomplishing personal goals, along with how to succeed in accomplishing these goals. Students describe how to handle numbers, symbols, and abbreviations in transcribed material and demonstrate increasing speed and accuracy on the computer keyboard and in medical transcription. Students build on their keyboarding and word processing skills related to word processing and spreadsheet programs, with acceptable progress through the identified text(s). Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: MAINTRO Lecture Hours: 40 Clinical Lab Hours: 30 Computer Lab 10

Module C - Digestive System, Nutrition, Financial Management, and First Aid 6.0 Quarter Credits Module C introduces students to the health care environment, office emergencies, and first aid, with an emphasis on bandaging techniques for wounds and injuries. Students will discuss types of disasters and the medical assistant's role in emergency preparedness and assisting during and after a disaster. Students learn bookkeeping procedures, accounts receivable and payable, financial management, banking, and check-writing procedures essential to the successful operation of the medical office. Students study the administrative and clinical uses of the electronic health record. Students develop working knowledge of good health, nutrition, weight control, and strategies in promoting good health in patients. They acquire knowledge of basic anatomy and physiology, common diseases and disorders, and medical terminology of the digestive system. Students check vital signs, obtain blood samples, and prepare and administer injections. They are introduced to strategies for building active reading and comprehension skills, along with techniques for managing time. Students practice transcribing accurate medical record notes and correcting erroneous entries, along with demonstrating increasing speed and accuracy on the computer keyboard and in medical transcription. Students build on their keyboarding and word processing skills related to word processing and spreadsheet programs, with acceptable progress through the identified text(s). Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: MAINTRO Lecture Hours: 40 Clinical Lab Hours: 30 Computer Lab Hours: 10

Module D - Cardiopulmonary Systems, Vital Signs, Electrocardiography, and CPR 6.0 Quarter Credits Module D examines the circulatory and respiratory systems, including the structure and function of the heart and lungs, along with diseases, disorders, diagnostic tests, anatomy and physiology, and medical terminology associated with these systems. Students apply knowledge of the electrical pathways of the heart muscle in preparation for applying electrocardiography leads and recording a 12-lead electrocardiogram (ECG). Students receive instruction in cardiopulmonary resuscitation (CPR) and the use of an automated external defibrillator (AED), which enables them to respond to cardiac emergencies. Students check vital signs and differentiate between normal values for pediatric and adult patients. Students obtain blood samples and prepare and administer injections. Students will discuss how to apply critical and creative thinking skills to analyzing and problem solving in the workplace and everyday life. Students study the preparation of a History and Physical examination report, along with demonstrating increasing speed and accuracy on the computer keyboard and in medical transcription. Students build on their keyboarding and word processing skills related to word processing and spreadsheet programs, with acceptable progress through the identified text(s). Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: MAINTRO Lecture Hours: 40 Clinical Lab Hours: 30 Computer Lab Hours: 10

**Module E - Urinary, Blood, Lymphatic, and Immune Systems and Laboratory Procedures 6.0 Quarter Credits** Module E introduces microbiology and laboratory procedures commonly performed in a physician's office or medical clinic. Students learn specimen identification, collection, handling and transportation procedures and practice venipuncture and routine diagnostic hematology. Maintenance and care of laboratory equipment and supplies are discussed. Students gain working knowledge of radiology and nuclear medicine, in addition to various radiological examinations and patient preparation for these exams. Anatomy and physiology of the urinary system and the body's immunity, including the structure and functions, as well as common diagnostic exams and disorders related to these systems, is presented. Students perform common laboratory tests, check vital signs, and perform selected invasive procedures. Students learn essential medical terminology related to the body systems and topics introduced in the module. Students learn the skills involved in organizing and writing a paper. Students transcribe miscellaneous medical reports, along with demonstrating increasing speed and accuracy on the computer keyboard and in medical transcription. Students build on their keyboarding and word processing skills related to word processing and spreadsheet programs, with acceptable progress through the identified text(s). Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: MAINTRO Lecture Hours: 40 Clinical Lab Hours: 30 Computer Lab Hours: 10

Module F - Endocrine, Skeletal and Reproductive Systems, Pediatrics, and Geriatrics 6.0 Quarter Credits Module F covers general anatomy and physiology, including an overview of the study of biology and the various body structures and systems. This module also examines the anatomy, physiology, and functions of the skeletal, endocrine, and reproductive systems, along with medical terminology associated with these systems. Students learn about child growth and development. They develop working knowledge of the skills necessary to assist in a pediatrician's office and learn the important differences that are specific to the pediatric field. Some of the skills students learn in this area are height and weight measurements and restraining techniques used for infants and children. They check vital signs, assist with diagnostic examinations and laboratory tests, and instruct patients regarding health promotion practices. Students gain knowledge of signs and symptoms of possible child abuse or neglect. Students also become familiar with human development across the life span. They will discuss normal and abnormal changes that are part of the aging process and the medical assistant's responsibilities related to the older person. Students check vital signs, obtain blood samples, and prepare and administer injections. Students discuss the importance of the ability to compose business documents and reports and practice composing business documents and e-mails. Students demonstrate increasing speed and accuracy on the computer keyboard and in medical transcription. Students build on their keyboarding and word processing skills related to word processing and spreadsheet programs, with acceptable progress through the identified text(s). Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: MAINTRO Lecture Hours: 40 Clinical Lab Hours: 30 Computer Lab Hours: 10

### Module G - Medical Law and Ethics, Psychology, and Therapeutic Procedures 6.0 Quarter Credits

Module G covers the history and science of the medical field, as well as the medical assisting profession. Students gain working knowledge of concepts related to patient reception in the medical office and preparing for the day. They discuss the importance of professional behavior in the workplace. Students learn what it takes to become an office manager and the responsibilities an office manager has to the office, the staff, and the physician. Students are introduced to medical office safety, security, and emergency provisions. They study how to maintain equipment and inventory. The functions of computers in the medical office are discussed. Students also talk about the role ergonomics plays in the health of the staff and patients. Students learn how to provide mobility assistance and support to patients with special physical and emotional needs, and various physical therapy modalities are discussed. Also introduced are the basic principles of psychology, psychological disorders, diseases, available treatments, and medical terminology related to mental and behavioral health. Medical law and ethics in relation to health care are discussed. Skills and attitudes necessary for success in the workforce are introduced, along with how to create a résumé, and follow through with the job search. Students check vital signs, obtain blood samples, and prepare and administer injections. Students demonstrate increasing speed and accuracy on the computer keyboard and build on their keyboarding and word processing skills related to word processing and spreadsheet programs, with acceptable progress through the identified text(s). Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: None Lecture Hours: 40 Clinical Lab Hours: 30 Computer Lab Hours: 10

### Module H – Health Insurance Basics, Claims Processing, and Computerized Insurance Billing

### 6.0 Quarter Credits

Module H introduces students to insurance billing and provides an in-depth exposure to diagnostic and procedural coding. Students gain working knowledge of the major medical insurances and claims form processing. They are introduced to types and sources of insurance, health insurance basics, traditional insurance plans, managed care, Medicare, Medicaid, military carriers, and Worker's Compensation and Disability insurance. This module covers the format of the ICD-9-CM manual, the CPT-4 and HCPCS manuals, and their relationship to the process of insurance claims submission. Patient expectations of the medical practice in regard to billing and collections and patient confidentiality are covered. Students gain knowledge of how to enter patient information and schedule appointments electronically, along with processing insurance claims both manually and electronically. Students continue to develop basic clinical skills by taking vital signs, obtaining blood samples, and preparing and administering injections. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: MAINTRO Lecture Hours: 40 Clinical Lab Hours: 30 Computer Lab Hours: 10

## Module X - Medical Assistant Diploma Program Externship

### 6.0 Quarter Credits

Upon successful completion of all modules, medical assisting students participate in a 200-hour externship at an approved facility. The externship provides the student an opportunity to apply principles and practices learned in the program and utilize entry-level medical assisting skills in working with patients. Medical Assisting Diploma Program externs work under the direct supervision of qualified personnel at the participating externship sites, and under general supervision of the school staff. Supervisory personnel at the site evaluate externs at 100- and 200-hour intervals. Completed evaluation forms are placed in the students' permanent records. Students must successfully complete their externship experience in order to fulfill requirements for graduation. Prerequisite: MAINTRO, Modules A-H Lecture Hours: 0 Lab Hours: 0 Extern 200

MEDICAL INSURANCE BILLING AND CODING Diploma Program

33 Weeks – 760 Hours, 48 Credit Units

V 2.0

Medical Insurance Billing and Coding professionals perform a variety of administrative health information functions, including those associated with organizing, analyzing, and technically evaluating health insurance claim forms and coding diseases, surgeries, medical procedures, and other therapies for billing and collection.

The objective of the Medical Insurance Billing and Coding program is to provide the student with the appropriate didactic theory and hands-on skills necessary to prepare them for entry-level positions as medical insurance billers and coders in today's health care offices, clinics, and facilities. Students will learn diagnostic and procedural terminology as it relates to the accurate completion of medical insurance claims. Utilizing a format of medical specialties, relevant terms will also be introduced and studied.

Course Number	Course Title	Clock Hours	Credit Units
MEDINTRO	Introduction to Medical Terminology, Keyboarding, Word Processing, Basic Math, Insurance Coding, and Administrative Duties of Medical Personnel	80	6.0
MIBCL	Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding of the Cardiovascular and Lymphatic Systems	80	6.0
MIBGU	Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding of the Genitorurinary System	80	6.0
MIBIE	Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding of the Integumentary and Endocrine Systems, and Pathology	80	6.0
MIBMS	Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding of the Musculoskeletal System	80	6.0
MIBRG	Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding of the Respiratory and Gastrointestinal Systems	80	6.0
MIBSN	Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding of the Sensory and Nervous Systems, and Psychology	80	6.0
MIBPC	Practicum	200	6.0
OR			
MIBXT	Externship	200	6.0
	Total	760	48.0

Module MEDINTRO - Introduction to Medical Terminology, Keyboarding, Word Processing, Basic Math, Insurance Coding, and Administrative Duties of Medical Personnel 6.0 Quarter Credits

This module presents basic prefixes, suffixes, word roots, combining forms, special endings, plural forms, abbreviations, and symbols. Also covered is medical jurisprudence and medical ethics. Legal aspects of office procedure are covered, including a discussion of various medical/ethical issues in today's medical environment. Students will learn basic computer skills and acquire knowledge of basic medical insurance billing and coding. Students are provided exposure to computer software applications used in the health care environment including basic keyboarding, Word and Excel. In addition, basic guidelines and coding conventions in ICD-9 and CPT are covered with focus on the professional (outpatient) guidelines, as well as an introduction to the use of the coding reference books. Basic math is introduced. Career skills and development of proper study and homework habits are introduced as well as professionalism needed in the healthcare environment. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: None Lecture Hours: 40 Lab Hours: 40

### Module MIBCL - Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding of the Cardiovascular and Lymphatic Systems 6.0 Quarter Credits

This module presents a study of basic medical terminology focused on the cardiovascular system and the lymphatic system. A word-building systems approach is used to learn word parts for constructing or analyzing new terms. Emphasis is placed on spelling, definition, usage, and pronunciation. Abbreviations are introduced as related terms are presented within the module. A study of the human body's diseases and disorders, including signs, symptoms, etiology, diagnosis, and treatment, is accomplished following the modular subject areas. Students are provided exposure to computer software applications used in the health care environment, including medical billing software, Word and Excel. The major medical insurances and claims form processing is presented in an ongoing approach to build this skill set. It will include information on national and other common insurance plans as well as claim form completion and ICD and CPT coding. Problem solving and managed care systems will also be discussed. Daily

financial practices to include patient fee determining, credit arrangements and bookkeeping and bank-keeping procedures will be discussed. Computer use in the ambulatory environment will also be taught. Basic and advanced guidelines and coding conventions in CPT will be taught with focus on the professional (outpatient) guidelines. The evaluation and management documentation guidelines will be discussed, as well as the proper use of modifiers. Basic guidelines and coding conventions in ICD-9-CM diagnosis coding and medical necessity with CPT pairing will be stressed, as well as the use of a natural language encoder program. Various aspects of pharmacology will be discussed including a study of the medications prescribed for the treatment of illnesses and diseases within the modular subject area. Included in this are drug actions and medication uses in relation to body systems and medical terminology. To prepare the student to comprehend the complexity of the health care system and the life cycle of a medical practice, areas that will be discussed include personnel management, compliance, technology, and the many roles of office management. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: MEDINTRO Lecture Hours: 40

### Module MIBGU – Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding of the Genitourinary System 6.0 Quarter Credits

This module presents a study of basic medical terminology focused on the genitourinary system. A word-building systems approach is used to learn word parts for constructing or analyzing new terms. Emphasis is placed on spelling, definition, usage, and pronunciation. Abbreviations are introduced as related terms are presented within the module. A study of the human body's diseases and disorders, including signs, symptoms, etiology, diagnosis, and treatment, is accomplished following the modular subject areas. Students are provided exposure to computer software applications used in the health care environment, including medical billing software, Word and Excel. The major medical insurances and claims form processing is presented in an ongoing approach to build this skill set. It will include information on national and other common insurance plans as well as claim form completion and ICD and CPT coding. Problem solving and managed care systems will also be discussed. Daily financial practices to include patient fee determining, credit arrangements and bookkeeping and bank-keeping procedures will be discussed. Computer use in the ambulatory environment will also be taught. Basic and advanced guidelines and coding conventions in CPT will be taught with focus on the professional (outpatient) guidelines. The evaluation and management documentation guidelines will be discussed, as well as the proper use of modifiers. Basic guidelines and coding conventions in ICD-9-CM diagnosis coding and medical necessity with CPT pairing will be stressed, as well as the use of a natural language encoder program. Various aspects of pharmacology will be discussed including a study of the medications prescribed for the treatment of illnesses and diseases within the modular subject area. Included in this are drug actions and medication uses in relation to body systems and medical terminology. To prepare the student to comprehend the complexity of the health care system and the life cycle of a medical practice, areas that will be discussed include personnel management, compliance, technology, and the many roles of office management. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: MEDINTRO Lecture Hours: 40 Lab Hours: 40

### Module MIBIE – Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding of the Integumentary and Endocrine Systems, and Pathology 6.0 Quarter Credits

This module presents a study of basic medical terminology focused on the integumentary system, the endocrine system, and pathology. A word-building systems approach is used to learn word parts for constructing or analyzing new terms. Emphasis is placed on spelling, definition, usage, and pronunciation. Abbreviations are introduced as related terms are presented within the module. A study of the human body's diseases and disorders, including signs, symptoms, etiology, diagnosis, and treatment, is accomplished following the modular subject areas. Students are provided exposure to computer software applications used in the health care environment, including medical billing software, Word and Excel. The major medical insurances and claims form processing is presented in an ongoing approach to build this skill set. It will include information on national and other common insurance plans as well as claim form completion and ICD and CPT coding. Problem solving and managed care systems will also be discussed. Daily financial practices to include patient fee determining, credit arrangements and bookkeeping and bank-keeping procedures will be discussed. Computer use in the ambulatory environment will also be taught. Basic and advanced guidelines and coding conventions in CPT will be taught with focus on the professional (outpatient) guidelines. The evaluation and management documentation guidelines will be discussed, as well as the proper use of modifiers. Basic guidelines and coding conventions in ICD-9-CM diagnosis coding and medical necessity with CPT pairing will be stressed, as well as the use of a natural language encoder program. Various aspects of pharmacology will be discussed including a study of the medications prescribed for the treatment of illnesses and diseases within the modular subject area. Included in this are drug actions and medication uses in relation to body systems and medical terminology. To prepare the student to comprehend the complexity of the health care system and the life cycle of a medical practice, areas that will be discussed include personnel management, compliance, technology, and the many roles of office management. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: MEDINTRO Lecture Hours: 40 Lab Hours: 40

# Module MIBMS – Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding

of the Musculoskeletal System 6.0 Quarter Credits This module presents a study of basic medical terminology focused on the musculoskeletal system. A word-building systems approach is used to learn word parts for constructing or analyzing new terms. Emphasis is placed on spelling, definition, usage, and pronunciation. Abbreviations are introduced as related terms are presented within the module. A study of the human body's diseases and disorders, including signs, symptoms, etiology, diagnosis, and treatment, is accomplished following the modular subject areas. Students are provided exposure to computer software applications used in the health care environment, including medical billing software, Word and Excel. The major medical insurances and claims form processing is presented in an ongoing approach to build this skill set. It will include information on national and other common insurance plans as well as claim form completion and ICD and CPT coding. Problem solving and managed care systems will also be discussed. Daily financial practices to include patient fee determining, credit arrangements and bookkeeping and bank-keeping procedures will be discussed. Computer use in the ambulatory environment will also be taught. Basic and advanced guidelines and coding conventions in CPT will be taught with focus on the professional (outpatient) guidelines. The evaluation and management documentation guidelines will be discussed, as well as the proper use of modifiers. Basic guidelines and coding conventions in ICD-9-CM diagnosis coding and medical necessity with CPT pairing will be stressed, as well as the use of a natural language encoder program. Various aspects of pharmacology will be discussed including a study of the medications prescribed for the treatment of illnesses and diseases within the modular subject area. Included in this are drug actions and medication uses in relation to body systems and medical terminology. To prepare the student to comprehend the complexity of the health care system and the life cycle of a medical practice, areas that will be discussed include personnel management, compliance, technology, and the many roles of office management. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: MEDINTRO Lecture Hours: 40 Lab Hours: 40

### Module MIBRG – Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding of the Respiratory and Gastrointestinal Systems 6.0 Quarter Credits

This module presents a study of basic medical terminology focused on the respiratory system and the gastrointestinal system. A word-building systems approach is used to learn word parts for constructing or analyzing new terms. Emphasis is placed on spelling, definition, usage, and pronunciation. Abbreviations are introduced as related terms are presented within the module. A study of the human body's diseases and disorders, including signs, symptoms, etiology, diagnosis, and treatment, is accomplished following the modular subject areas. Students are provided exposure to computer software applications used in the health care environment, including medical billing software, Word and Excel. The major medical insurances and claims form processing is presented in an ongoing approach to build this skill set. It will include information on national and other common insurance plans as well as claim form completion and ICD and CPT coding. Problem solving and managed care systems will also be discussed. Daily financial practices to include patient fee determining, credit arrangements and bookkeeping and bank-keeping procedures will be discussed. Computer use in the ambulatory environment will also be taught. Basic and advanced guidelines and coding conventions in CPT will be taught with focus on the professional (outpatient) guidelines. The evaluation and management documentation guidelines will be discussed, as well as the proper use of modifiers. Basic guidelines and coding conventions in ICD-9-CM diagnosis coding and medical necessity with CPT pairing will be stressed, as well as the use of a natural language encoder program. Various aspects of pharmacology will be discussed including a study of the medications prescribed for the treatment of illnesses and diseases within the modular subject area. Included in this are drug actions and medication uses in relation to body systems and medical terminology. To prepare the student to comprehend the complexity of the health care system and the life cycle of a medical practice, areas that will be discussed include personnel management, compliance, technology, and the many roles of office management. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: MEDINTRO Lecture Hours: 40 Lab Hours: 40

### Module MIBSN – Anatomy & Physiology, Medical Terminology, Diagnostic and Procedural Coding of the Sensory and Nervous Systems and Psychology 6.0 Quarter Credits

This module presents a study of basic medical terminology focused on the sensory system, the nervous system, and psychology. A word-building systems approach is used to learn word parts for constructing or analyzing new terms. Emphasis is placed on spelling, definition, usage, and pronunciation. Abbreviations are introduced as related terms are presented within the module. A study of the human body's diseases and disorders, including signs, symptoms, etiology, diagnosis, and treatment, is accomplished following the modular subject areas. Students are provided exposure to computer software applications used in the health care environment, including medical billing software, Word and Excel. The major medical insurances and claims form processing is presented in an ongoing approach to build this skill set. It will include information on national and other common insurance plans as well as claim form completion and ICD and CPT coding. Problem solving and managed care systems will also be discussed. Daily financial practices to include patient fee determining, credit arrangements and bookkeeping and bank-keeping procedures will be discussed. Computer use in the ambulatory environment will also be taught. Basic and advanced guidelines and coding conventions in CPT will be taught with focus on the professional (outpatient) guidelines. The evaluation and management documentation guidelines will be discussed, as well as the proper use of modifiers. Basic guidelines and coding conventions in ICD-9-CM diagnosis coding and medical necessity with CPT pairing will be stressed, as well as the use of a natural language encoder program. Various aspects of pharmacology will be discussed including a study of the medications prescribed for the treatment of illnesses and diseases within the modular subject area. Included in this are drug actions and medication uses in relation to body systems and medical terminology. To prepare the student to comprehend the complexity of the health care system and the life cycle of a medical practice, areas that will be discussed include personnel management, compliance, technology, and the many roles of office management. Prerequisite: MEDINTRO Lecture Hours: 40 Lab Hours: 40

Once a student has completed all modules, he or she will be placed in their final module of training, as chosen by the school administration, in an on-campus practicum experience or out in the field in an approved externship facility.

### Module MIBPC – Practicum

6.0 Quarter Credits

Upon successful completion of Modules MIBINTRO, MIBCL, MIBGU, MIBIE, MIBMS, MIBRG, and MIBSN, Medical Insurance Billing and Coding students participate in a 200 hour practicum on-campus. The practicum provides the student an opportunity to apply principles and practices learned in the program and utilize entry-level skills in working with insurance companies and processing claims. Medical insurance billing and coding students work under the direct supervision of the school staff. Students are evaluated by an instructor or Department Chair at 100 and 200 hour intervals. Completed evaluation forms are placed in the students permanent records. Students must successfully complete their practicum experience in order to fulfill requirements for graduation. Prerequisite: Successful completion of Modules MIBINTRO, MIBCL, MIBGU, MIBIE, MIBMS, MIBRG, and MIBSN. Lecture Hours: 0 Lab Hours: 0 Other Hours: 200

### Module MIBXT – Externship

### 6.0 Quarter Credits

Upon successful completion of Modules MIBINTRO, MIBCL, MIBGU, MIBIE, MIBMS, MIBRG, and MIBSN, medical insurance billing/coding students participate in a 200-hour unpaid externship. Students are expected to work a full-time (40 hours per week) schedule if possible. Serving in an externship at an approved facility gives externs an opportunity to work with the principles and practices learned in the classroom. Externs work under the direct supervision of qualified personnel in participating institutions and under general supervision of the school staff. Supervisory personnel will evaluate externs at 100 and 200-hour intervals. Completed evaluation forms are placed in the students' permanent records. Students must successfully complete their externship training in order to fulfill requirements for graduation. Prerequisite: Successful completion of Modules MIBINTRO, MIBCL, MIBGU, MIBIE, MIBMS, MIBRG, and MIBSN. Lecture Hours: 0 Lab Hours: 0 Other Hours: 200

PHARMACY TECHNICIAN

Diploma Program 33 Weeks – 760 Hours, 48 Credits

V 1.0

The Pharmacy Technician diploma program provides both technical and practical training which will enable the technician, upon certification, licensure or registration, to function as a competent entry-level pharmacy technician to the licensed pharmacist. The program provides the student with the basic knowledge of and practice in pharmacy calculations, drug distribution systems, and preparation of sterile dosage forms. Computer skills necessary in pharmacy practice will be utilized and both pharmaceutical and medical terminology and anatomy and physiology, are also covered. The program emphasizes theory, as well as hands-on practice, followed by an externship which prepares the student for the actual work setting. Upon completion of this program, the graduate will be eligible to take the national pharmacy technician certification exam offered by the Pharmacy Technician Certification Board (PTCB).

Pharmacy services have expanded and grown at an accelerated rate. Pharmacy Technicians play a major role in pharmacy operations and in the overall healthcare work force. As pharmacy services continue to grow, with new services being offered, new drugs entering the market, and as comprehensive drug information becomes a necessity, the need for highly-trained pharmacy technicians increases.

Many of the traditional pharmacy functions, once performed by pharmacists, are now being performed by pharmacy technicians. Today's pharmacy technician has assumed a position which supports and enhances the progressive direction taken by pharmacy. The technician has also become the key person in assuring the smooth uninterrupted functioning of traditional pharmacy services.

Pharmacy is a dynamic field requiring an ongoing learning process. Graduates from this training program will become active participants in this growing field by exhibiting competence through knowledge and skills learned through the college.

Module Code	Modular Title	Contact Hours	Quarter Credits
Module A	Administration of Medications and Pharmacology of the Endocrine/Lymphatic Systems	80	6.0
Module B	Aspects of Retail Pharmacy and Pharmacology of the Nervous System	80	6.0
Module C	History and Ethics of Pharmacy and Pharmacology of the Respiratory System and Oncology Pharmacy Practice	80	6.0
Module D	Infection Control, Medication Errors and Alternative Medicine and Pharmacology of the Integumentary System and Senses	80	6.0
Module E	Administrative Aspects of the Pharmacy Technician & Pharmacology of the G.I. and Muscular System	80	6.0
Module F	Aspects of Hospital Pharmacy and Pharmacology of the Urinary and Reproductive System	80	6.0
Module G	Home Health Care, Pharmacy Operations and Pharmacology of the Cardiovascular, Circulatory and Skeletal System	80	6.0
Module X	Clinical Externship	200	6.0
	Total	760	48.0

Note: In order to be employed as a pharmacy technician in the state of Florida, registration with the Florida Board of Pharmacy is required.

# Module A - Administration of Medications and Pharmacology of the Endocrine and Lymphatic Systems

**6.0 Quarter Credits** This module is designed to provide the student with an overall understanding of medication administration, safety and quality assurance. Included in this course is an overview and historical development of pharmacy. Body systems are covered in this module which includes the Endocrine and Lymphatic systems, and medications used to treat conditions of the endocrine system. Repackaging and compounding will be discussed and performed. Included in this course is use of policy and procedure manuals, materials management of pharmaceuticals, the pharmacy formulary system, computer applications in drug-use control, receiving and processing medication orders. Preparation and utilization of patient profiles, handling medications, storage and delivery of drug products, records management and inventory control, and compensation and methods of payment for pharmacy services are discussed. Conversions and calculations used by pharmacy technicians will be discussed along with drug dosages in units and working with compounds, admixtures, and parenteral and IV medications. Hands-on skills in the laboratory practice setting are performed. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: None Lecture Hours: 40 Lab Hours: 40

**Module B - Aspects of Retail Pharmacy and Pharmacology of the Nervous System** 6.0 Quarter Credits This module is designed to provide the student with responsibilities of a technician filling prescriptions, including the information required to fill prescription and typing the prescription label. This module also covers how to read a drug label. Medications for the Respiratory and Nervous system are covered including a study of medications for neurological conditions, mental disorders and a discussion on muscle relaxants. This module will include C.P.R. certification. Hands-on skills in the laboratory practice setting are performed. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: None Lecture Hours: 40 Lab Hours: 40

### Module C - History and Ethics of Pharmacy and Pharmacology of the Respiratory System and Oncology Pharmacy Practice

### 6.0 Quarter Credits

This module is designed to introduce the student to the professional aspects of working in pharmacy technology. Subjects covered include a history of and changing roles of pharmacists and pharmacy technicians. This module covers the Law and Ethics of Pharmacy which includes the Food and Drug Act, the 1970 Comprehensive Drug Abuse Prevention and Control Act, and other modern-day drug legislation. The respiratory system is discussed along with medications for respiratory tract disorders. Oncology agents are covered in this module along with HIV/AIDS. Calculations and dimensional analysis of drug dosages are covered. Hands-on skills in the laboratory practice setting are performed. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: None Lecture Hours: 40 Lab Hours: 40

### Module D - Infection Control, Medication Errors and Alternative Medicine and Pharmacology of the Integumentary System and Senses 6.0 Quarter Credits

This module covers pharmacy technician registration and certification, including professionalism and communication in the pharmacy setting. Over-the-Counter medications, vitamins and skin care products are discussed in this module. Medications for the integumentary system are covered along with a discussion on medication calculations for the elderly. Also covered in this module are medications used for disorders of the eyes and ears. Students learn the most common medication errors, alternative medication and food & drug interactions. Hands-on skills in the laboratory practice setting are performed. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: None Lecture Hours: 40 Lab Hours: 40

### Module E - Administrative Aspects of the Pharmacy Technician & Pharmacology of the G.I. and Muscular System 6.0 Quarter Credits

In this module, emphasis is placed on the role and responsibilities of the pharmacy technician regarding parenteral dosages, including using proportion in calculating drug dosages for pediatrics. This module is designed to provide the student with an overall understanding of the administrative aspects and hands-on applications involved in working in a pharmacy. Medications for the G.I. and Musculoskeletal System are covered along with medications for disorders of the musculoskeletal system, as well as a study of general operations of pharmacies at different settings. Subjects covered include safety in the workplace, using computers in the pharmacy, communications and interpersonal relations within the pharmacy. Students will learn about migraine headaches, analgesics and drugs for NSAID. Use of computers in the pharmacy practice setting are covered. Hands-on skills in the laboratory practice setting are performed. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: None Lecture Hours: 40 Lab Hours: 40

# Module F - Aspects of Hospital Pharmacy and Pharmacology of the Urinary and Reproductive System

### 6.0 Quarter Credits

This module is designed to provide the student with an overall understanding of anatomy and physiology as it relates to the Urinary and Reproductive Systems. Students will learn common tasks performed by pharmacy technicians in the hospital practice setting, including policies and procedures, responsibilities of the inpatient pharmacy technician, and specific State requirements regulating the use of pharmacy technicians in various States. Students will familiarize themselves with intravenous flow rates of large volume and small volume IV, infusion of IV Piggybacks, and the use of a Heparin lock. Critical Care flow rates and automated medication dispensing systems are discussed and calculated. Hands-on skills in the laboratory practice setting are performed. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: None Lecture Hours: 40 Lab Hours: 40

### Module G - Home Health Care, Pharmacy Operations and Pharmacology of the Cardiovascular, Circulatory and Skeletal System 6.0 Quarter Credits

This module is designed to familiarize the student with all aspects of home health care, mail order pharmacy/E-Pharmacy, and long term care pharmacy. Also covered in this module is drug distribution systems utilized in the pharmacy to include pharmacy stocking and billing, inventory and purchasing. This module will provide students with the understanding of the cardiovascular, circulatory and skeletal system and discuss medications for circulatory disorders and medications for the skeletal system. Hands-on skills in the laboratory practice setting are performed. Out-of-class activities will be assigned and assessed as part of this module. Prerequisite: None Lecture Hours: 40

### Module X - Clinical Externship

### 6.0 Quarter Credits

This 200-hour module is designed to provide the student with supervised, practical hands-on and observational experiences in the working pharmacy. Students will be expected to gain experiences in either a hospital pharmacy or a community (retail) pharmacy. Students will gain exposure to "on-the-job" experiences and training in the pharmacy setting and practice of skills, gaining experiences in all aspects of drug preparation, and distribution utilized by participating sites. Prerequisite: Completion of Didactic Program - Student must complete all modules prior to externship placement Lecture Hours: 0 Lab Hours: 0 Other Hours: 200

# **ASSOCIATE'S DEGREE PROGRAMS**

ACCOUNTING, ASSOCIATE IN SCIENCE DEGREE 24 Months – 96.0 Credit Units

V 1.0

Accounting is the language of business and accounting procedures and records are the basic ingredients that provide students with a broad and diverse background in professional accounting, making a variety of entry-level positions in business, industry, and governmental accounting fields available to graduates of this program.

# **BUSINESS, ASSOCIATE IN SCIENCE DEGREE**

24 Months – 96.0 Credit Units

V 2.0

The Associate in Science in Business program is offered for those students whose career goals require a broad knowledge of the functional areas of business. All students will take coursework in the areas of accounting, general business, management, marketing, human resources, computer applications, and business law. In addition, students will choose an area of concentration that will comprise the balance of the courses in the major. The following describes each area of concentration.

### **Business Administration**

The Business Administration concentration focuses on the structure, function, and procedures of standard business operations. The program prepares students for a variety of entry-level positions in areas such as sales, office supervision, and small business management.

### Management

The Management concentration focuses on the fundamental business management principles utilized by today's businesses. The graduates of this program will be prepared for entry-level positions in supervisory roles in business, industry and government.

### Marketing

The concentration in Marketing is designed to provide students with a basic marketing background to prepare them for entry-level positions in business, industry and government.

### **COMPUTER INFORMATION SCIENCE, ASSOCIATE IN SCIENCE DEGREE**

24 Months – 96.0 Credit Units

V 2.0

The Associate in Science Degree in Computer Information Science is designed to provide the student with hands-on training in the latest data communications and computer operations technologies. Students in this program must complete the required coursework in the major core from one of the listed areas of concentration. The following describes each area of concentration.

### Programming

This concentration provides coursework in computer programming and systems development, computer hardware and operating systems, as well as accounting and business courses that complement the businessoriented applications graduates will encounter in the work place. The graduate will be familiar with microcomputer applications, programming applications, and design in a programming language. This concentration prepares an individual to enter the information technology industry in a variety of job roles, including entry level programmer.

### Network Administration

The Network Administration concentration enables students to build a solid foundation in the key technologies that drive many of today's corporate networks. Students in this concentration will gain hands-on experience with the hardware and software used in personal computers, learn to manage and direct network traffic, and will develop system support skills that focus on installing, administering, and troubleshooting commonly used network hardware and software. This concentration helps prepare graduates for careers as Network Administrators, Network Security Administrators, Database Administrators, Network Technicians, Help Desk Technicians, PC Support Specialists, Database Support Specialists, Technical Support Representatives, and more.

### Web Design (Online Only)

The Web Design concentration covers the essential topics necessary to gain a complete understanding of the latest Internet and web site development technologies. Students learn all aspects of implementing an Internet and/or Intranet web site, including site planning and design, and will practice programming interactive web sites using the latest scripting languages and editing software. Graduates will develop a portfolio of their work and will have the opportunity to enter the job market as entry level web designers in a variety of related positions and job titles.

# **CRIMINAL JUSTICE, ASSOCIATE IN SCIENCE DEGREE**

24 Months – 96.0 Credit Units

V 1.0

The Criminal Justice program includes a comprehensive study of the national criminal justice system, correctional organizations, and law enforcement agencies. Students learn the nature and extent of crime and delinquency and the cause and explanation of criminal behavior. Additional areas of study include rules of evidence, basic investigative techniques and the philosophy of criminal law. The Criminal Justice program is designed to prepare graduates for entry-level career opportunities in probation, corrections, law enforcement and/or security.

# MEDICAL INSURANCE BILLING AND CODING, ASSOCIATE IN SCIENCE DEGREE 24 Months – 96.0 Credit Units

V 2.0

The Medical Insurance Billing and Coding Associate program is designed to provide comprehensive skills in the administrative, insurance billing, and coding area of study. The program will take the student beyond the basic information adding depth in the many speciality areas of the Medical Insurance Billing industry. The hands on practical approach will give the student the experience and confidence needed to succeed in this highly specialized field. The degree prepares the graduate to be an entry-level professional in medical offices, clinics, hospitals, and associated medical facilities.

This program consists of 96.0 quarter credit hours including college core requirements, major core requirements, and general education requirements. In addition to completion of all didactic and hands-on courses, students are also required to participate in a 120-hour externship prior to graduation from the program.

# PARALEGAL, ASSOCIATE IN SCIENCE DEGREE

24 Months – 96.0 Credit Units

V 1.0

Graduates of the Paralegal program are prepared, under the direction of an attorney, to interview, gather, review, and analyze factual situations; research the law; prepare and interpret legal documents; and conduct day-to-day operations of a legal office. Graduates of the program may find employment in legal offices, state and federal government agencies, corporate legal departments, consumer groups, insurance companies, banks, title companies, and legal aid societies. The Paralegal program is a terminal degree in that it trains individuals for entry-level positions and is not a preparatory curriculum for law school.

# **BACHELOR'S DEGREE PROGRAMS**

ACCOUNTING, BACHELOR OF SCIENCE DEGREE

48 Months – 192.0 Credit Units

V 1.0

Accounting is the language of business and accounting procedures and records are the basic ingredients that provide students with a broad and diverse background in professional accounting, making a variety of entry-level positions in business industry and governmental accounting fields available to graduates of this program.

The Bachelor of Science in Accounting program prepares students to measure and communicate the financial position of an enterprise, to provide advice on taxation and management services, and to perform analysis of information systems.

# APPLIED MANAGEMENT, BACHELOR OF SCIENCE DEGREE

48 Months – 192.0 Credit Units

V 1.0

The Bachelor of Science in Applied Management program integrates the technical knowledge gained through a diploma program or applied science degree with coursework designed to prepare the student for leadership roles in their chosen field. The curriculum emphasizes the critical thinking and analytical skills necessary to solve problems in today's complex work environment. The program is open to those who have earned an approved certificate, diploma, AS, or AAS degree in a field of applied science.

### \*Course not offered online.

\*\*Additional Major Core: Credit will be applied from the student's previously completed certificate, diploma, or associates program. Students who have fewer than 40.0 transferable major core credits will be required to select additional courses from the business and management areas.

\*\*\*General Education Requirements: In addition to the courses specified in the General Education section of the program outline, students must complete a total of 24.0 credits from the following subject areas, with a minimum of 4.0 credits taken from each area:

- □ Communications/Humanities
  - -may include ENC 3211, AML 2000
- □ Social Sciences
- -may include SYG 2001, SOP 4005, CPO 4003, AMH 2030, POS 2041, ECO 3007, ECO 3028
- $\hfill\square$  Mathematics and Science
  - -may include: STA 2014

In the event that a student transfers more than 40.0 major core credits, the Elective requirement may be reduced by an equivalent number of major core credits above the 40.0 credit requirement. For example, a student who transfers 50.0 major core credits may have his/her Elective requirement reduced by 10.0 credits.

**Upper Division Requirement:** Students must complete a minimum of 60.0 Quarter Credit Hours in upper division coursework. The major core requires 36.0 credits of upper division, thus the remainder may come from the General Education and Elective areas. Upon admittance to the program, the student will work with an Academic Advisor to develop an approved plan to complete all requirements for the degree within the required time limits. This plan will be periodically evaluated and updated by the student and Academic Advisor.

### **BUSINESS, BACHELOR OF SCIENCE DEGREE**

48 Months – 192.0 Credit Units

V 2.0

The Bachelor of Science in Business program is offered for those students whose career goals require a broad knowledge of the functional areas of business. All students will take coursework in the areas of accounting, general business, management, marketing, human resources, computer applications, and business law. In addition, students will choose an area of concentration that will comprise the balance of the courses in the major. The following describes each area of concentration.

### **Business Administration**

The Bachelor of Science in Business with Business Administration concentration offers additional coursework in finance and investments, management, strategic planning, and other advanced topics that will prepare the graduate of this program for entry- to mid-level positions in business and government.

### Management

The Bachelor of Science in Business with Management concentration offers advanced coursework in management and related topics, helping to develop the diversity of knowledge and skills necessary to attain success in the business management field. Graduates of this program will be prepared for entry- to mid-level supervisory and management positions in business and government.

### Marketing

The Bachelor of Science in Business with Marketing concentration offers additional studies in such areas as marketing research, consumer behavior, promotional strategies, and international marketing. The graduate of this program will be prepared for entry- to mid-level marketing positions in business, industry and government.

#### **COMPUTER INFORMATION SCIENCE, BACHELOR OF SCIENCE DEGREE** 48 Months – 192.0 Credit Units

V 2.0

The Bachelor of Science degree in Computer Information Science offers graduates special training in the analysis, design, implementation, maintenance, and use of computer information systems and data base systems. The program focuses on the concepts, principles, goals, functions, and management of information-driven organizations, stressing the development of computer-based applications through the use of programming languages. To ensure graduation with the minimum number of courses, students should choose the CIS Programming concentration for their lower division studies.

## **CRIMINAL JUSTICE, BACHELOR OF SCIENCE DEGREE**

48 Months – 192.0 Credit Units

V 2.0

The Criminal Justice program provides a broad understanding of the criminal justice system and prepares graduates for entry-level and middle management positions in probation, corrections, immigration, law enforcement, and/or security. The program is offered for students who have 36.0 or more transferable quarter (24.0 semester) credits. Students who have earned an approved Associate of Arts degree may be enrolled with junior standing and can complete the Bachelors with an additional 96.0 credits. Students also have the option to pursue a concentration in Criminal Investigations or Homeland Security. See next section for details. The Criminal Justice program is not a training program for law enforcement officers.

**Associate's Transfer Students:** Students who enroll with an approved Associate's degree will have 96.0 transfer credits applied to the overall degree requirement of 192.0 quarter credits. Approval is based upon the degree being earned at an accredited institution, and includes a minimum of 36.0 semester or 54.0 quarter credits of general education coursework. Transfer students in this category have satisfied all elective and general education requirements, with the exception of SLSP 3130 - Principles and Applications of Adult Learning. Students successfully completing the remaining 96.0 credits in the program will fulfill all course requirements for the bachelor's degree.

#### All other students admitted to program: must complete the degree requirements as described below.

**Credits requirements for degree:** students must complete a minimum of 192.0 credits in the major core, general education, and elective categories.

- \*\*General Education Requirements: In addition to the courses specified in the general education section of the program outline, students must complete a total of 24.0 credits from the following subject areas, with a minimum
  - of 4.0 credits taken from each area:
  - □ Communications/Humanities
    - -may include ENC 3211, AML 2000
  - □ Social Sciences

-may include SYG 2001, SOP 4005, CPO 4003, AMH 2030, POS 2041, ECO 3007, ECO 3028

Mathematics and Science -may include: STA 2014

**Elective Requirements:** Students may fulfill the balance of the credit requirements for the degree by taking up to 46.0 credits in the electives category.

## PARALEGAL, BACHELOR OF SCIENCE DEGREE

48 Months - 192 Credit Units

V 2.0

Graduates of the Paralegal program are prepared, under the direction of an attorney, to interview, gather, review and analyze factual situations; research the law; prepare and interpret legal documents, and conduct day to day operations of a legal office. Graduates of the program may find employment in legal offices, state and federal government agencies, corporate legal departments, consumer groups, insurance companies, banks, title companies, and legal aid societies.

The Bachelor of Science degree in Paralegal enhances the study of law and legal research to permit graduates to further their legal knowledge while enhancing their opportunity for career advancement. The program is offered for students who have 36.0 or more transferable quarter (24.0 semester) credits. Students who have earned an approved Associate of Arts degree may be enrolled with Junior standing and can complete the bachelors with an additional 96.0 credits.

The Paralegal program is a terminal degree in that it trains individuals for entry-level positions and is not a preparatory curriculum for law school.

# MASTER'S DEGREE PROGRAMS

The admissions procedures, program regulations, transfer policies, graduation requirements, degree objectives, program requirements and course descriptions specific to the Master of Business Administration Degree program have been consolidated into a separate section of the catalog as described below. The policies and procedures applicable to all Everest University students, as stated in the catalog, are also applicable to students enrolled in graduate degree programs.

### ADMISSIONS REQUIREMENTS

#### **GRADUATE PROGRAM ADMISSIONS REQUIREMENTS**

- Applicants must have successfully completed a bachelor's degree program from an accredited college or university. Official transcripts must be provided.
- Certain prerequisite courses are necessary for the pursuit of many courses offered at the graduate level. Such prerequisites must have been completed before entrance into a specific course.

#### Prerequisite Requirements for Graduate Programs

Applicants whose undergraduate degrees are in fields outside the program area are invited to apply, but foundation work will be required before certain higher level courses may be taken. All graduate students must meet certain prerequisite requirements prior to enrolling in Managerial Economics, International Economic Systems, Quantitative Methods, Financial Management, and certain graduate-level accounting courses.

#### Graduate Categories of Enrollment

Applicants to the graduate programs may be classified in one of two categories: Regular Graduate Student or Provisional Graduate Student.

#### • Regular Graduate Students

Applicants must have achieved a cumulative grade point average of not less than 3.0 for all undergraduate upper-level division work; or must score not less than 470 on the Graduate Management Admission Test (GMAT); or must achieve a comparable score on the Graduate Record Examination (GRE) to become a candidate for a master's degree.

#### Provisional Graduate Students

Applicants who do not meet the requirements to be classified as a Regular Graduate Student may enroll and matriculate as a Provisional Graduate Student by having achieved a grade point average of not less than 2.0 for all undergraduate upper division work. The provisional status will remain in effect until the student has earned a score of not less than 470 on the GMAT, a comparable score on the GRE, or has satisfactorily completed 16.0 credits of graduate course work at the University with a grade point average that meets the minimum standards of progress for the graduate program.

#### INTERNATIONAL GRADUATE STUDENTS ADMISSIONS REQUIREMENTS

Applicants must have successfully completed a bachelor's degree program from an accredited college or university or the equivalent of a U.S. bachelor's degree if the degree was earned from a foreign institution confirmed by the CSC Transfer Center. All coursework completed at a foreign institution must be evaluated by a member of the National Association of Credential Evaluation Services (NACES) or Association of International Credentials Evaluators (AICE). An exception to this may be allowed for students transferring from Canada with prior approval from the Transfer Center. Official transcripts must be provided.

- Provide proof of English proficiency (if the student's first language is not English, an official test score on an approved English proficiency test is required).
- Proof of financial ability to meet expenses. Such evidence may be one of the following:
  - a) Bank letter verifying student's available funds (self-sponsoring).
  - b) Bank letter verifying sponsor's available funds if sponsor is not a citizen or a legal permanent resident of the U.S.
  - c) Form I-134 if sponsor is a citizen or legal permanent resident of the U.S.
  - d) If the applicant is sponsored by his/her home country, a statement of sponsorship.
- Be eligible for a student visa (F-1 or M-1).

- Enroll as a full time student (for undergraduates, at least 12 quarter credit hours; for graduate students at least 8 quarter credit hours; for Intensive English students and modular program students, at least 18 clock hours of attendance per week).
- Pay the required minimum tuition deposit.
- Pay the non-refundable SEVIS processing fee (if done through the school).
- International students must meet the same programmatic entrance requirements as domestic students.

Note: M-1 students may not enroll in online courses. F-1 students may enroll in no more than one (1) online course per term.

#### **English Proficiency**

All international students whose first language is not English must provide proof of English proficiency. English proficiency may be established by providing documentation of one of the following:

- Passing score on an English skills assessment test (see below)
- Graduation from an American/International high school program where the curriculum is taught in English
- Graduation from a high school in the U.S. as an exchange student
- Graduation from a high school in a country where English is the official language

The acceptable skills assessment tests for **graduate programs** are the TOEFL, the MELAB, and the IELTS. The required passing score on each test is as follows:

Test:	TOEFL	MELAB	IELTS
Score:	79 Internet Based 213 Computer Based 550 Paper Based	78	6.0

#### Admission Requirements for Provisional International Graduate Students

Students who have not achieved the minimum TOEFL or IELTS score may be evaluated for equivalent English proficiency by the Graduate Academic Committee. Those students who successfully pass the evaluation may be granted Provisional Student admissions status.

For international students admitted with Provisional Graduate Student status by the Graduate Academic Committee, the status will remain in effect until the student has earned the required minimum score on one of the tests described above or has satisfactorily completed 16.0 credits of graduate course work at the school with a minimum GPA of 3.0. Failure to reach Regular Graduate Student status within 16.0 credits of graduate work at the school will result in the student being dismissed from the school. Students admitted on a provisional basis will be admitted as Regular Graduate Student status only upon evaluation and favorable action by the Committee on Admissions for the graduate program.

#### **GRADUATE PROGRAM ACADEMIC POLICIES AND REGULATIONS**

#### **ONLINE COURSE REQUIREMENTS**

Online courses are offered at the campus through the Online Division of Zenith using the eCollege platform via the Internet. Online courses have the same course objectives and outcomes as courses taught on-ground, although more individual focus and initiative is required to successfully master the material. Online courses are designated on the class schedule so students register during the normal registration period. Students registering for an online course must obtain prior approval from their Program Director or the Academic Dean. To maximize success within the online courses, students must have available to them a computer with a system profile that meets or exceeds the following:

#### Windows Systems

Windows 7, 8, XP, or Vista 56K modem or higher Sound Cards & Speakers Firefox, Chrome, or Microsoft Internet Explorer 10 and 11

#### Mac Systems

Mac OS X 10.7 or higher (in classic mode) 56K modem or higher Sound Cards & Speakers Safari, Chrome or Firefox 31 and 32 In addition, students taking online courses must:

- Check quarterly to make sure they are maintaining the correct systems profile;
- Have Internet access and an established email account;
- Verify email account/address with Online Coordinator at the time of registration each quarter;
- Commence online course work as soon as students have access to the courses;
- Participate in classes and complete learning and graded activities weekly throughout the course.

#### **DIRECTED STUDY**

- Students unable to take a specific required course due to work schedule conflicts, emergency situations, or course scheduling conflicts may request permission to complete a course through directed study.
- Graduate students may complete a maximum of one course (4.0 quarter credits) through directed study.
- Students may not take more than one directed study course in a single academic term.

#### STANDARDS OF SATISFACTORY ACADEMIC PROGRESS FOR GRADUATE PROGRAMS

Accreditor and federal regulations for receiving title IV financial assistance require that students enrolled in a graduate program meet certain qualitative and quantitative standards in order to continue their studies. The qualitative and quantitative standards must be cumulative and must include all periods of the student's enrollment regardless of whether or not financial aid was received. Completion of prerequisite requirements for admission to a master's program does not count toward the credit requirement for a master's degree. Therefore, these credits do not count toward meeting SAP requirements.

#### **Evaluation Periods**

School shall evaluate academic progress for all graduate students at the end of each academic term.

#### Satisfactory Academic Progress Requirements

Graduate students must maintain a minimum CGPA of 3.0. When a student repeats a course, the student's CGPA will be recalculated based on the higher of the two grades earned. Withdrawals and transfer credits have no effect on the student's CGPA.

#### **Rate of Progress Toward Completion**

Graduate students must maintain a minimum cumulative completion rate of two-thirds of credits attempted (67%). ROP is determined by dividing the number of credit hours earned by the number of credit hours attempted. Credit hours attempted include completed credits, transfer credits, withdrawals, and repeated courses.

#### Maximum Time Frame

The maximum time frame for completion of all graduate programs is limited to 150% of the published length of the program. Additionally, all requirements for graduate degrees must be completed within five (5) calendar years from the start of the initial term of enrollment.

#### Satisfactory Academic Progress Table for Graduate Program

GRAD	<b>GRADUATE DEGREES – QUARTER CREDITS</b>					
Total	SAP	SAP Not	SAP	SAP Not		
Credits	Advising	Met if	Advising if	Met if rate		
Attempted*	if CGPA is	CGPA is	rate of	of progress		
	below	below	progress is	is below		
			below			
1 - 16	3.0	N/A	66.66%	N/A		
17 – 27	3.0	2.75	66.66%	50%		
28 – 39	3.0	2.9	66.66%	60%		
40 - 84	3.0	3.0	66.66%	65%		

#### Transfer Credits Policy

In addition to the transfer policies stated in the Academic Policies section of the catalog, the following applies to individuals enrolled in graduate level programs:

#### Maximum Transfer Credits Accepted

A student attempting to transfer a graduate-level course from another accredited institution must provide evidence that the course is related in content to the program of study at the school. The school will accept no more

than 24.0 graduate-level hours in transfer, and no graduate-level course may be transferred in which the student received a grade below a "B."

#### **REQUIREMENTS FOR GRADUATION**

- Successfully complete all courses in the program with a 3.0 CGPA within the maximum time frame for completion as stated in the school catalog.
- Meet any additional program specific requirements as stated in the catalog.

#### **TUITION, FEES AND FINANCIAL AID**

Quarter-based programs will be charged for the student's first quarter (or mini-term quarter start) in attendance. Tuition and fees for subsequent quarters will be charged at the published rate in effect at the beginning of that quarter. The minimum full-time course load is 8 credits per quarter for graduate programs. MBA students taking undergraduate courses as pre-requisites for graduate-level courses are ineligible to receive Title IV funding for those courses. Additional tuition and fee information may be found in "Tuition and Fees" section of the catalog. Additional Financial Aid information may be found in the "Financial Information" section of the catalog.

#### **GRADUATE DEGREE OBJECTIVES AND PROGRAM OUTLINE**

Business Administration, Master of Business Administration Degree

24 Months - 56.0 Credit Units

V 1.0

The Master of Business Administration program enhances the students' effectiveness in business and industry through the continued acquisition and refinement of knowledge and skills. The MBA program emphasizes the development of critical thinking, initiative, independence, and responsibility necessary to achieve the heightened self-discipline, skill, and reasoning to become valued leaders in the business community. In addition, a graduate student may include an area of concentration by completing four courses, from any one concentration category listed: Accounting, Human Resources Management General Management.

Applicants whose undergraduate degrees are in a field outside the program areas are encouraged to apply.

**Note**: Prerequisite foundation work may be required before selected higher-level coursework may be attempted. All graduate students must meet certain prerequisite requirements prior to enrolling in Managerial Economics, International Economic Systems, Quantitative Methods, Financial Management, and certain graduate-level accounting courses. Previous coursework in these areas at either the undergraduate or graduate level may be acceptable to suffice the prerequisite requirement following review of official transcripts. Course descriptions for the undergraduate courses in the table below may be found in the *Course Descriptions - Undergraduate Degree Programs* section that begins on page 87. Undergraduate courses are those that have a Course Level Code of "4" or below. Undergraduate courses may not be taken as an elective as part of the Master of Business Administration Degree program.

# FLORIDA'S STATEWIDE COURSE NUMBERING SYSTEM

Courses in this catalog are identified by prefixes and numbers that were assigned by Florida's Statewide Course Numbering System (SCNS). This numbering system is used by all public postsecondary institutions in Florida and by participating nonpublic institutions. The major purpose of this system is to facilitate the transfer of courses between participating institutions. Students and administrators can use the online SCNS to obtain course descriptions and specific information about course transfer between participating Florida institutions. This information is at the SCNS website at <a href="http://scns.fldoe.org">http://scns.fldoe.org</a>.

Each participating institution controls the title, credit, and content of its own courses and recommends the first digit of the course number to indicate the level at which students normally take the course. Course prefixes and the last three digits of the course numbers are assigned by members of faculty discipline committees appointed for that purpose by the Florida Department of Education in Tallahassee. Individuals nominated to serve on these committees are selected to maintain a representative balance as to type of institution and discipline field or specialization.

The course prefix and each digit in the course number have a meaning in the SCNS. The listing of prefixes and associated courses is referred to as the "SCNS taxonomy." Descriptions of the content of courses are referred to as "statewide course profiles."

Prefix	Level Code	Century Digit	Decade Digit	Unit Digit	Lab Code
	(first digit)	(second digit)	(third digit)	(fourth digit)	
ENC	1	1	0	1	
English	Lower (Freshman)	Freshman	Freshman	Freshman	No laboratory
Composition	Level at this	Composition	Composition	Composition	component in
	institution		Skills	Skills I	this course

#### **EXAMPLE OF COURSE IDENTIFIER**

#### GENERAL RULE FOR COURSE EQUIVALENCIES

Equivalent courses at different institutions are identified by the same prefixes and same last three digits of the course number and are guaranteed to be transferable between participating institutions that offer the course, with a few exceptions, as listed below in *Exceptions to the General Rule for Equivalency*.

For example, a freshman composition skills course is offered by 84 different public and nonpublic postsecondary institutions. Each institution uses "ENC\_101" to identify its freshman composition skills course. The level code is the first digit and represents the year in which students normally take the course at a specific institution. In the SCNS taxonomy, "ENC" means "English Composition," the century digit "1" represents "Freshman Composition," the decade digit "0" represents "Freshman Composition Skills," and the unit digit "1" represents "Freshman Composition Skills I."

In the sciences and certain other areas, a "C" or "L" after the course number is known as a lab indicator. The "C" represents a combined lecture and laboratory course that meets in the same place at the same time. The "L" represents a laboratory course or the laboratory part of a course that has the same prefix and course number but meets at a different time or place.

Transfer of any successfully completed course from one participating institution to another is guaranteed in cases where the course to be transferred is equivalent to one offered by the receiving institution. Equivalencies are established by the same prefix and last three digits and comparable faculty credentials at both institutions. For example, ENC 1101 is offered at a community college. The same course is offered at a state university as ENC 2101. A student who has successfully completed ENC 1101 at a Florida College System institution is guaranteed to receive transfer credit for ENC 2101 at the state university if the student transfers. The student cannot be required to take ENC 2101 again since ENC 1101 is equivalent to ENC 2101. Transfer credit must be awarded for successfully completed equivalent courses and used by the receiving institution to determine satisfaction of requirements by transfer students on the same basis as credit awarded to the native students. It is the prerogative of the receiving institution, however, to offer transfer credit for courses successfully completed that have not been designated as equivalent. **NOTE**: Credit generated at institutions on the quarter-term system may not transfer the equivalent number of credits to institutions on the semester-term system. For example, 4.0 quarter hours often transfers as 2.67 semester hours.

#### THE COURSE PREFIX

The course prefix is a three-letter designator for a major division of an academic discipline, subject matter area, or subcategory of knowledge. The prefix is not intended to identify the department in which a course is offered. Rather, the content of a course determines the assigned prefix to identify the course.

#### AUTHORITY FOR ACCEPTANCE OF EQUIVALENT COURSES

Section 1007.24(7), Florida Statutes, states:

Any student who transfers among postsecondary institutions that are fully accredited by a regional or national accrediting agency recognized by the United States Department of Education and that participate in the statewide course numbering system shall be awarded credit by the receiving institution for courses satisfactorily completed by the student at the previous institutions. Credit shall be awarded if the courses are judged by the appropriate statewide course numbering system faculty committees representing school districts, public postsecondary educational institutions, and participating nonpublic postsecondary educational institutions to be academically equivalent to courses offered at the receiving institution, including equivalency of faculty credentials, regardless of the public or nonpublic control of the previous institution. The Department of Education shall ensure that credits to be accepted by a receiving institution are generated in courses for which the faculty possess credentials that are comparable to those required by the accrediting association of the receiving institution. The award of credit may be limited to courses that are entered in the statewide course numbering system. Credits awarded pursuant to this subsection shall satisfy institutional requirements on the same basis as credits awarded to native students.

#### EXCEPTIONS TO THE GENERAL RULE FOR EQUIVALENCY

Since the initial implementation of the SCNS, specific disciplines or types of courses have been excepted from the guarantee of transfer for equivalent courses. These include courses that must be evaluated individually or courses in which the student must be evaluated for mastery of skill and technique. The following courses are exceptions to the general rule for course equivalencies and may not transfer. Transferability is at the discretion of the receiving institution.

- A. Courses not offered by the receiving institution.
- B. For courses at nonregionally accredited institutions, courses offered prior to the established transfer date of the course in question.
- C. Courses in the \_900-999 series are not automatically transferable, and must be evaluated individually. These include such courses as Special Topics, Internships, Apprenticeships, Practica, Study Abroad, Theses, and Dissertations.
- D. Applied academics for adult education courses.
- E. Graduate courses.
- F. Internships, apprenticeships, practica, clinical experiences, and study abroad courses with numbers other than those ranging from 900-999.
- G. Applied courses in the performing arts (Art, Dance, Interior Design, Music, and Theatre) and skills courses in Criminal Justice (academy certificate courses) are not guaranteed as transferable. These courses need evidence of achievement (e.g., portfolio, audition, interview, etc.).

#### COURSES AT NONREGIONALLY ACCREDITED INSTITUTIONS

The SCNS makes available on its home page (http://scns.fldoe.org) a report entitled "Courses at Nonregionally Accredited Institutions" that contains a comprehensive listing of all nonpublic institution courses in the SCNS inventory, as well as each course's transfer level and transfer effective date. This report is updated monthly.

Questions about the SCNS and appeals regarding course credit transfer decisions should be directed to **Tinamarie Aguilar in the Transfer Center (877) 727-0058** in the **Zenith Education Group Corporate office located at 5 Hutton Centre Drive, Suite 500, Santa Ana, CA 92707** or to the Florida Department of Education, Office of Articulation, 1401 Turlington Building, Tallahassee, Florida 32399-0400. Special reports and technical information may be requested by calling the SCNS office at (850) 245-0427 or at http://scns.fldoe.org.

# **COURSE DESCRIPTIONS – UNDERGRADUATE DEGREE PROGRAMS**

Courses in the degree programs are offered on-ground at the campus or online unless otherwise specified in the catalog. Courses that are not offered online are specified in each program outline in the catalog. During the course of a student's program, a class may not be offered on-ground during a given term, but students have the option to take the course online. Tutoring and support services are provided at the campus to students taking online courses and computers are available for their use in the library during library hours and in the computer labs when classes are not in session.

ACG2021 - Introduction to Corporate Accounting 4.0 Quarter Credits
This course defines financial accounting objectives and their relationship to business. Students learn about the
fundamental principles of accounting and the accounting cycle as it applies to corporations. Prerequisites:
APA2121 Lecture Hours: 40; Lab Hours: 0; Other Hours: 0
ACG2178 - Financial Statement Analysis 4.0 Quarter Credits
This course covers the basics of financial statement analysis in directing a firm's operations. Students will gain an
understanding of how funds are acquired in financial markets and the criteria used by investors in deciding where
to place their funds. <i>Prerequisites: None</i> . Lecture Hours: 40, Lab Hours: 0, Other Hours: 0
ACG2551 - Non-Profit Accounting 4.0 Quarter Credits
In this course the student explores accounting systems unique to non-profit organizations. Accounting principles
for hospitals and educational organizations are examined. <i>Prerequisites: ACG2021</i> Lecture Hours: 40; Lab Hours:
0; Other Hours: 0
ACG3073 - Accounting for Managers 4.0 Quarter Credits
This course teaches the student how to use and interpret Accounting information in day to day management.
Emphasis is placed on the general knowledge and decision making practices used by managers when addressing
issues in service, financial, not for-Profit and manufacturing companies. Prerequisites: None Lecture Hours: 40;
Lab Hours: 0; Other Hours: 0
ACG3103 - Intermediate Accounting I 4.0 Quarter Credits
This is an upper Level course for the serious accounting student. It is a continuation and comprehensive study of
financial accounting concepts, applications, and the presentation of information in financial statements. Emphasis
is placed on review of the value of money and accounting for cash and receivables. Prerequisites: APA2161
Lecture Hours: 40; Lab Hours: 0; Other Hours: 0
ACG3113 - Intermediate Accounting II 4.0 Quarter Credits
This is a continuation and comprehensive study of financial accounting theory and applications. Emphasis is
placed on accounting for inventories, long-term assets and liabilities, and stockholders' equity. Prerequisites:
ACG3103 Lecture Hours: 40; Lab Hours: 0; Other Hours: 0
ACG3123 - Intermediate Accounting III 4.0 Quarter Credits
This is a continuation and comprehensive study of financial accounting concepts, applications, and the
presentation of information in financial statements. Emphasis is placed on special topics in income determination
and financial reporting. Concepts of revenue recognition, leases, pensions, accounting for income taxes and
earnings per share are among the subjects to be studied. <i>Prerequisites: ACG3113</i> Lecture Hours: 40; Lab Hours:
0; Other Hours: 0
ACG3341 - Cost Accounting I 4.0 Quarter Credits
This course examines the development and operation of cost accounting systems. Topics include basic cost
accounting concepts and product costing techniques. <i>Prerequisites: APA2161</i> Lecture Hours: 40; Lab Hours: 0;
Other Hours: 0
ACG3351 - Cost Accounting II 4.0 Quarter Credits
This is a continuation of Cost Accounting I and includes in-depth studies of techniques and issues surrounding cost
allocation methods, cost and variance analysis, and complex accounting problems. Prerequisites: ACG3341
Lecture Hours: 40; Lab Hours: 0; Other Hours: 0
ACG4201 - Consolidation Accounting 4.0 Quarter Credits
In this course students will study the major areas of emphasis in consolidation accounting which include business
combinations, consolidation procedures, and foreign currency accounting. <i>Prerequisites: None</i> Lecture Hours: 40;
Lab Hours: 0; Other Hours: 0
ACGP4632 - Auditing I 4.0 Quarter Credits
This course is an overview of financial statement auditing concepts and standards. It is an introduction to the
principles and presedures that enable the suditor to express on apinion on the fairness and reliability of financial

This course is an overview of financial statement auditing concepts and standards. It is an introduction to the principles and procedures that enable the auditor to express an opinion on the fairness and reliability of financial statements. *Prerequisites: ACG3123* Lecture Hours: 40; Lab Hours: 0; Other Hours: 0

ACO1806 - Payroll Accounting	4.0 Quarter Credits
This course provides students with a working knowledge of pay	
systems. Students gain hands-on experience performing the payr	
Hours: 30; Lab Hours: 20; Other Hours: 0	
AMH2030 - 20th Century American History	4.0 Quarter Credits
A survey of the events of the modern era of American history. The o	
the watershed of the 20th Century, and covers the political, social	
Populist movement, World War I, the Treaty of Versailles, the Jaz	
World War II, the Atomic Age, the Cold War, the Korean and Vietnar	
feminism. Prerequisites: None Lecture Hours: 40; Lab Hours: 0; Oth	
AML2000 - Introduction to American Literature	4.0 Quarter Credits
This course concentrates on the major writers of modern American I	iterature. Prerequisites: None Lecture Hours:
40; Lab Hours: 0; Other Hours: 0	
APA2111 - Principles of Accounting I	4.0 Quarter Credits
This course emphasizes accrual accounting based upon generally	
income statement procedures, computerized accounting application	
Prerequisites: None Lecture Hours: 40; Lab Hours: 0; Other Hours: 0	
APA2121 - Principles of Accounting II	4.0 Quarter Credits
This course emphasizes accounting theory and applications as they	
are explored in depth including cash analysis, bad debt, accounts re	
and payroll, notes payable, inventory cost flow methods and fixed as	
resources. Prerequisites: APA2111 Lecture Hours: 40; Lab Hours: (	
APA2141 - Computerized Accounting	4.0 Quarter Credits
This course emphasizes the practical application of fundamenta	al accounting principles through the use of
automated accounting software. Students will gain experience in in	tegrated software designed to handle general
ledger, accounts payable, accounts receivable, financial statement a	analysis, fixed assets, sales order processing,
inventory, and payroll. Prerequisites: APA2121 Lecture Hours: 30; L	ab Hours: 20; Other Hours: 0
APA2161 - Introductory Cost/Managerial Accounting	4.0 Quarter Credits
This course examines the development and operation of cost a	ccounting systems. Topics include basic cost
concepts and product costing techniques including job-order, proces	s costing, and standard costing with emphasis
on managerial application. Prerequisites: APA2121 Lecture Hours: 4	
BSC1085 - Anatomy and Physiology I	4.0 Quarter Credits
This course is a scientific study of the structure of the human be	ody and its parts including relationships and
functions of the integumentary, skeletal, muscular, nervous system	
Prerequisites: HSC1527 (Except for nursing students) Lecture Hours	
BSC1086 - Anatomy and Physiology II	4.0 Quarter Credits
This course is a study of the structure of the human body and its pa	rts including relationships and functions of the
cardiovascular, lymphatic, respiratory, digestive, urinary and repro	
Lecture Hours: 40; Lab Hours: 0; Other Hours: 0	
BSC2080 - Anatomy and Physiology of the Body Systems	4.0 Quarter Credits
This course is the study of basic anatomy and physiology for the stud	
sciences. This course will provide the background science information	
and physiology. The content of this class begins with a description	
various organ systems. Prerequisites: HSC1527 Lecture Hours: 40;

This course provides the foundation for Web site design and Web page cre	
developers to design, implement and manage a Web site. The course include	des Web design concepts, site
development and management techniques, and basic Web technology concepts.	Students will develop basic Web
pages containing text, graphics, hyperlinks, tables, and frames using population	ular software production tools.
Prerequisites: None Lecture Hours: 30; Lab Hours: 20; Other Hours: 0	-
CGS1821C - Web Content Development	4.0 Quarter Credits
This course covers the essential topics and tools web designers use to develop	
and a graphical user interface (GUI) editor, students will learn to create web pa	
graphics, tables, forms and frames. Cascading Style Sheets (CSS) and the basics	
Language (XHTML) will also be covered. <i>Prerequisites:</i> CGS1800C Lecture H	
Hours: 0	
CGS2060C - Computer Applications	4.0 Quarter Credits
This course introduces the essential concepts necessary to make effective use of	
an understanding of what a computer can do, how it works, and how it can be u	
word processing and spreadsheet applications for personal and business use.	Frerequisites. None Lecture
Hours: 30; Lab Hours: 20; Other Hours: 0	
CGS2177C - E-Commerce Systems Administration	4.0 Quarter Credits
This course provides an overview of how to conduct business online, as well as	
associated with constructing an e-commerce Web site. Student will explore	
between traditional commerce and e-commerce, and will identify e-commerce te	
sophistication. Prerequisites: None Lecture Hours: 30; Lab Hours: 20; Other Hour	
CGS2501C - Applied Word Processing	4.0 Quarter Credits
This course covers the various techniques used in intermediate to advanced wo	
placed on using and creating templates, developing multi-page documents, buildin	
and diagrams. In addition, students will learn document collaboration techniques	and customization with macros.
Prerequisites: CGS2060C Lecture Hours: 30; Lab Hours: 20; Other Hours: 0	
CGS2573C - Annlied Spreadeboote	
CGS2573C - Applied Spreadsheets	4.0 Quarter Credits
This course covers the various techniques used in developing spreadsheet appli	cations for business information
This course covers the various techniques used in developing spreadsheet appli tracking and analysis. Course topics include using formulas, employing creativ	cations for business information re formatting, and using charts.
This course covers the various techniques used in developing spreadsheet appli tracking and analysis. Course topics include using formulas, employing creativ Additional skills coverage includes use of graphics, developing pivot tables, and	cations for business information re formatting, and using charts.
This course covers the various techniques used in developing spreadsheet appli tracking and analysis. Course topics include using formulas, employing creativ	cations for business information re formatting, and using charts. d managing lists. <i>Prerequisites:</i>

Hours: 0	· · ·
CIS3345 - Database Concepts I	4.0 Quarter Credits
This course presents the basic information system management concepts	
information delivery systems. Concepts of data modeling, data manage	
technology in the corporation are also addressed. Prerequisites: CIS2321	Lecture Hours: 40; Lab Hours: 0; Other
Hours: 0	
CIS3615 - Designing Secure Software	4.0 Quarter Credits
This course presents perspectives and techniques to help ensure the securi	ity of essential software. It emphasizes
methodologies and principles that reduce security risk early in the develop	ment life cvcle. Implementation- Level
issues are discussed and applied through code samples. Secure software	
testing are covered. Prerequisites: CIS3303 and COP2171C or COP2228C	
Hours: 40; Lab Hours: 0; Other Hours: 0	
	1.0 Overter Credite
CIS4328C - Senior Project: Systems Implementation and Integration	4.0 Quarter Credits
This course is the second of two capstone courses that will involve student	
the systems development process. Through real-world clients or case stud	
system for delivery and implementation. Higher- Level programming language	
will be used. <i>Prerequisites: CIS3303C and Senior Standing</i> Lecture Hours:	30; Lab Hours: 20; Other Hours: 0
CIS4329C - Senior Project: Systems Analysis and Design	4.0 Quarter Credits
This course is the first of two capstone courses that will involve students in	the preparation and application of the
systems development process. Through real-world clients or case studies,	
design and develop a prototype system. Systems concepts of the Systems I	
applied. The client systems will be developed through application of the	methodologies and tools of systems
development. Prerequisites: CIS3303C and Senior Standing Lecture Hours	
CISP2475C - Designing Network Security	4.0 Quarter Credits
This course builds on the fundamentals of security in networks and focuses of	
the design of security features and strategies. Students learn how to des	sign a secure network infrastructure to
meet business requirements via lecture and hands-on labs. Topics include a	assembling the design team, modeling
threats, and analyzing security risks. Prerequisites: CTS2303C, CTS2383C	
Hours: 20; Other Hours: 0	-,
CISP3150C - Current Information Technology Topics 4.0 Quarter	ar Credits
Designed to provide opportunities through reading, lecture, discussions, a	
their proficiency as information technology professionals. Course may be re	
same topic more than once. Prerequisites: Approval of Program Directo	or Lecture Hours: 30; Lab Hours: 20;
Other Hours: 0	
CJC2000 - Introduction to Corrections	4.0 Quarter Credits
This secure will exercise or succession of the life of the first of the second se	shment in America with a review of the

Upon su crime so	<b>0 Crime Scene Photography I</b> ccessful completion of the course, the students will be able to understand the role of a photographer in a
	ene. The students will become familiar with the history of photography and comprehend fundamental
applicati	of general camera use. The students will also be able to apply photography concepts and practical ons to vehicular accidents, vehicle examinations, and crimes against property. Lecture Hours: 40 Lab
	Other Hours: 0
Upon su crime so photogra and spe	2 Crime Scene Photography II       4.0 Quarter Credits         ccessful completion of the course the students will be able to understand the role of a photographer in a ene. The students will comprehend fundamental concepts of general camera use and be able to apply phic concepts and protocols to crimes against persons such as assault and homicide scenes, autopsy, ial issues covering arson, alternative light sources, and SMAT (Scars, Marks, and Tattoos). Prerequisite:         0. Lecture Hours: 40 Lab Hours: 0 Other Hours: 0
CJE210	- Policing in America 4.0 Quarter Credits
English enforcer subcultu and prot <i>Prerequ</i>	rse provides a solid foundation by tracking the historical development of policing in America from its oots to the first organized municipal police departments in the 1830s. It describes various federal law ent organizations and how they relate to state and local police. There is examination of the police e, explanation of the manner in which police agencies are organized and managed, community policing lem solving, patrol and criminal investigations, impact of technology on police and discussion of the future. <i>Sites: CCJ1020</i> Lecture Hours: 40; Lab Hours: 0; Other Hours: 0
	- Introduction to Interviews and Interrogations 4.0 Quarter Credits
criminal apply sp on a va	s and interrogation focuses on techniques and philosophies of conducting human communication in a ustice or legal environment in which the goal is to obtain accurate information. Students will learn and ecialized techniques and approaches to interviews and interrogations as well as legal implications based iety of situations. Obtaining eyewitness information in an investigative environment is also discussed. <i>sites: None</i> Lecture Hours: 40; Lab Hours: 0; Other Hours: 0
	- Graphics & Documentation II 4.0 Quarter Credits
This co understa introduc	rse is a continuation of Graphics & Documentation I and will provide the students with a further nding of the procedures of crime scene observation, note taking and documentation. Students will also be d to the preparation of visual exhibits for court presentation. <i>Prerequisites: None</i> Lecture Hours: 40; Lab Other Hours: 0
	- Introduction to Forensics 4.0 Quarter Credits
This cou investiga	rse will explore and explain the application of applied science to those criminal and civil matters that are ted by various agencies. <i>Prerequisites: CCJ1020</i> Lecture Hours: 40; Lab Hours: 0; Other Hours: 0
	- Fingerprints Classification & Latents I 4.0 Quarter Credits
science Henry C	ccessful completion of the course, the students will be able to understand the historical background of the of fingerprints and legal aspects. The students will learn and be able to classify fingerprint cards using the assification System, to recognize fingerprint patterns and sections of the hand, terminology, obtain ten d major case prints, and to understand the New Automated Fingerprint Identification Systems. The
students	will also be able to individualize one fingerprint card from another. <i>Prerequisites: None</i> Lecture Hours: fours: 0; Other Hours: 0
	- Fingerprints Classification & Latents II 4.0 Quarter Credits
science Classific Fingerpr and to c	ccessful completion of the course, the students will be able to understand the historical background of the of fingerprints. The students will learn and be able to classify fingerprint cards using the Henry ation System, to recognize fingerprint patterns, terminology, and to understand the New Automated nt Identification Systems. The students will also be able to individualize one fingerprint card from another emonstrate the ability to locate, process, and recover latent prints in the field and lab. <i>Prerequisites:</i> Lecture Hours: 40; Lab Hours: 0
	- Graphics & Documentation I 4.0 Quarter Credits
	rse will provide the students with an understanding of the procedures of crime scene observation, note
	notography, and report writing. Prerequisites: None Lecture Hours: 40; Lab Hours: 0; Other Hours: 0
	6 Biological Evidence I 4.0 Quarter Credits
This intr	ductory course will introduce the students to the types of biological evidence commonly found at crime
	nd how to collect it. Specific biological evidence discussed includes blood, semen, saliva, urine, feces,
	fingernails. Additional topics include autopsy, the basic departments of the crime laboratory, toxicology, entomology, and uncollectible biological evidence. Lecture Hours: 40 Lab Hours: 0 Other Hours: 0

# CJE2678 – Crime Scene Dynamics I

This course is designed to introduce the investigative concepts involved in the "Crime Scene Dynamics" of processing the aftermath of a criminal incident. The students will be exposed to how to respond to crime scenes, and examine the multitude of responsibilities involved such as: evidence must be identified and preserved, witnesses must be isolated and interviewed, the scene must be isolated and protected, fingerprints must be developed, and suspects must be identified and located. Prerequisites: None Lecture Hours: 40: Lab Hours: 0: Other Hours: 0

#### CJE 2679 Crime Scene Dynamics II

This course continues the introduction to the investigative concepts involved in the "Crime Scene Dynamics" of processing the aftermath of a criminal incident. The students will be exposed to how to respond to crime scenes, and examine the multitude of responsibilities involved, such as: the evidence must be identified and preserved, witnesses, must be isolated and interviewed, the scene must be isolated and protected, fingerprints must be developed, and suspects. must be identified and located. Prerequisites: CJE2673 Lecture Hours: 40; Lab Hours: 0; Other Hours: 0

#### CJE 2682 Biological Evidence II

This course will continue to discuss the biological evidence commonly found at crime scenes. Packaging, preservation, and care of biological evidence will be discussed. Chain of custody will be explained. Additional topics include DNA, case studies, courtroom testimony, and exhibits for the courtroom. Students will participate in a moot court and a mock crime scene. Prerequisite: CJE2676. Lecture Hours: 40 Lab Hours: 0 Other Hours: 0

#### CJE2690 – Technology Crimes I

4.0 Quarter Credits At the conclusion of this course, the students will have an understanding of technology-based crimes as they apply to modern criminal acts such as identity theft, extortion, intellectual property crimes, fraud, Internet pornography, and online gambling. Students will also examine issues of evidence involving crime scene management, chain of custody issues, and accepted investigative practices. Prerequisites: None Lecture Hours: 40; Lab Hours: 0; Other Hours: 0

#### CJE2691 – Technology Crimes II

At the conclusion of this course, the students will have an understanding of procedural law issues, investigative issues and techniques, forensics, and communications skills required to describe technology-based crimes. Students will also be able to compare and contrast the roles and responsibilities of local, state, and federal agencies responsible for investigating technology based crimes. Prerequisites: CJE2690 Lecture Hours: 40; Lab Hours: 0; Other Hours: 0

#### CJE4668 - Computer Crime

4.0 Quarter Credits This course focuses on the use of the computer in committing crimes, both within organizations and among private entities. It will also examine the justice system's response to this new form of deviance. Prerequisites: CCJ1020 -or- CGS2060C (for non Criminal Justice majors) Lecture Hours: 40; Lab Hours: 0; Other Hours: 0 4.0 Quarter Credits

#### CJL2130 - Criminal Evidence

This course focuses on the nature of evidence as it relates to the pretrial and trial process, including: witnesses, hearsay, admissions and confessions, and the exclusionary rule. Emphasis is placed on specific types of evidence: circumstantial, documentary, physical, documentary and recorded. Prerequisites: CCJ1020 Lecture Hours: 40; Lab Hours: 0; Other Hours: 0

#### CJL2134 - Criminal Procedure and the Constitution

There will be a discussion of the Constitutional aspects of criminal procedure. The student will learn procedural aspects of the criminal system from arrest or summons through pretrial motions, trial, post-conviction and appellate processes. A study of the Constitution at work in the court system with current applications. Prerequisites: None Lecture Hours: 40; Lab Hours: 0; Other Hours: 0

#### CJL2614 – Collecting and Presenting Audio & Visual Evidence

This course is designed to introduce the concepts involved in collecting and presenting audio and visual evidence. The students will also be introduced to the documentation methods for preserving visual evidence. This course will allow the students to understand the courtroom technology available for presentation methods utilizing audio and visual means. These disciplines will include digital photography, film photography, video, voice and audio recordings. Prerequisites: None Lecture Hours: 40 Lab Hours: 0 Other Hours: 0

#### CJL3215 - Concepts of Criminal Law

4.0 Quarter Credits This course covers the historical development and philosophy of criminal law. Discussion includes definitions, legal classifications of crimes, Constitutional provisions, legal research, study of case law, and significance of law as a social force. Prerequisites: CCJ1020 (CJL1100 for Homeland Security Major; PLA1003 for Paralegal major) Lecture Hours: 40; Lab Hours: 0; Other Hours: 0

#### CLP3005 – Marriage and the Family

This course, through reading, discussions, and presentations, explores the institution of marriage and the family as a system. Lec Hours 40 Lab Hours 0 Other Hours 0

CLPP3004 – Adult Psychology	4.0 Quarter Credits
This course deals with the human life span as a whole and attempt	is to acquaint students with the processes of
maturation, aging, and death. <i>Prerequisites: None</i> Lecture Hours: 40	Lab Hours: 0 Other Hours: 0
CNT1003C - Computer Networking Fundamentals	4.0 Quarter Credits
This course provides an overview of the field of local area networking	
to the terminology, operating systems, hardware, and administra	
network, including network topology, TCP/IP, the OSI reference r	
Students also learn and perform basic end-user functions and introduced	uctory administration operations of a network.
<i>Prerequisites: None</i> Lecture Hours: 30; Lab Hours: 20; Other Hours:	0
CNT2400C - Network Security Fundamentals	4.0 Quarter Credits
This course is an introduction to the components of network securi	
security and provides an organized view of the field, including the t	
network data. Prerequisites: CNT1003C Lecture Hours: 30; Lab Hou	
COP2000C - Programming Concepts	4.0 Quarter Credits
This course provides the student with an introduction to the funda-	amentals of computer problems solving and
programming. Students are introduced to structured and object-original	ented programming concepts in a language-
independent manner. Basic programming concepts, specific control	
explored. Prerequisites: None Lecture Hours: 40; Lab Hours: 0; Othe	
COP2170C - Computer Programming - Visual Basic I	4.0 Quarter Credits
This course provides an introduction to the Visual Basic programm	
programs that utilize an interactive graphical-user interface in	the Windows environment. <i>Prerequisites:</i>
COP2505C Lecture Hours: 30; Lab Hours: 20; Other Hours: 0	
COP2171C - Computer Programming - Visual Basic II	4.0 Quarter Credits
This course is a continuation of COP2170C. It provides advanced	concepts of the Visual Basic programming
language, including the Windows API/Messaging System, OLE au	
Prerequisites: COP2170C Lecture Hours: 30; Lab Hours: 20; Other H	· · ·
COP2224C - Computer Programming - C++ I	4.0 Quarter Credits
This course emphasizes programming with C++ functions, array	
substantial applications that process lists and tables of data in arra	
sorting data, and displaying graphical representations of data. The	e course presents a thorough discussion of
pointers, including pointer-based string processing and passing	data between functions using pointers.
Prerequisites: COP2505C Lecture Hours: 30; Lab Hours: 20; Other H	
COP2228C - Computer Programming - C++ II	4.0 Quarter Credits
This course is a continuation of COP2224C, emphasizing C++'s	
This course is a continuation of COT 22240, emphasizing C++ s	
programming (OOD) Students focus on programming with prodefin	
programming (OOP). Students focus on programming with predefine	ed classes and extending the language by

COP3764C - Structured Query Language	4.0 Quarter Credits
This course introduces the student to the basic operations of the Structure Qu	
creation, single table queries, multi-table queries, database restrictions, and	d using SQL with high- Level
programming languages are discussed. Prerequisites: CIS3345 Lecture Hours: 3	0; Lab Hours: 20; Other Hours: 0
COP4724C - Database Application Development	4.0 Quarter Credits
This course is an introduction to applications program development in a databas	
loading, modifying, and querying the database using a host language. Prerequisit	
COPP2281 or COP2171C Lecture Hours: 30; Lab Hours: 20; Other Hours: 0	
COPP2280C - Computer Programming – C# I	4.0 Quarter Credits
This course teaches basic computer software development using the C# program	
principles and techniques of object-oriented programming and explains the	concepts as they relate to C#.
Prerequisites: COP2505C Lecture Hours: 30; Lab Hours: 20; Other Hours: 0	
COPP2281C - Computer Programming – C# II	4.0 Quarter Credits
This course is a continuation of COPP2280C, emphasizing C#'s features and	
programming (OOP). Students focus on programming with common library classe	
creating new classes. Prerequisites: COPP2280C Lecture Hours: 30; Lab Hours:	20; Other Hours: 0
CPO4003 - Global Politics	4.0 Quarter Credits
A study of the classical concepts and dynamic factors of international politics, and	
institutions, and processes of contemporary international relations. Particular att	
interest, diplomacy, sovereignty, foreign policy formulation, alliances, war and	
ideological and economic factors. <i>Prerequisites: None</i> Lecture Hours: 40; Lab Ho	
CRW3010 – Creative Writing	4.0 Quarter Credits
The purpose of this course is to develop writing and language skills needed for inc	invidual expression in literary
forms. <i>Prerequisites: ENC1102</i> Lecture Hours: 40; Lab Hours: 0; Other Hours: 0	
CTS1110C - Computer Operating Systems	4.0 Quarter Credits
This course focuses on the software operating systems that run today's persor	
placed on commands, functions, and terminology through practical instruction in t	he installation, configuration, and
upgrade of operating systems. Prerequisites: None Lecture Hours: 30; Lab Hours	s: 20; Other Hours: 0
CTS1327C - Network Operating Systems – Client	4.0 Quarter Credits
This course covers the essential topics necessary to enable students to set up	and support the client side of a
network operating system. Students build real world support skills by working v	
gain practical experience with installing, administering, and troubleshooting a ne	
environment. <i>Prerequisites: CNT1003C</i> Lecture Hours: 30; Lab Hours: 20; Other	
CTS1334C - Network Operating Systems – Server	4.0 Quarter Credits
This course covers the essential topics necessary to enable students to set up	
network operating system. Students build real world support skills by working v	
gain practical experience with installing, administering and troubleshooting a	network server. Prerequisites:
CNT1003C Lecture Hours: 30; Lab Hours: 20; Other Hours: 0	
CTS2303C - Network Directory Services	4.0 Quarter Credits
This course provides the students with the steps necessary to plan, configure, ar	
infrastructure. Topics include management methods for a large-scale network	
directory replication, and database maintenance. Prerequisites: CNT1003C Le	cture Hours: 30; Lab Hours: 20;
Other Hours: 0	
CTS2304C - Network Directory Design 4.0 Quarter Cr	edits; Total Hours: 50.0
This course discusses the planning, issues, and options available to the network	
Windows Directory Services infrastructure. Key topics include the network	
administration, naming standards, and migration issues. <i>Prerequisites: CTS23</i>	
Hours: 20; Other Hours: 0	
	adite: Total Hours: FO O
CTS2313C - Internet Security and Acceleration (ISA) Server 4.0 Quarter Cr	
This course teaches students the basic concepts of proxy servers and firewalls.	Students will learn how to install

CTS2386C - Network Infrastructure	4.0 Quarter Credits
This course covers the topics necessary for students to be able	
to organizations utilizing Microsoft network operating systems.	
learn how to install, manage, and troubleshoot the network proto	
system. Prerequisites: CNT1003C Lecture Hours: 30; Lab Hour	s: 20; Other Hours: 0
CTS4107 - Survey of Operating Systems	4.0 Quarter Credits
This course provides a study of operating systems that include	s memory management, processor management,
disk management, scheduling, and resource retention. It addre	
mainframe computer operating systems viewpoint. Prerequisite	es: CTS1110C Lecture Hours: 40; Lab Hours: 0;
Other Hours: 0	
DEPP3305 – Adolescent Psychology	4.0 Quarter Credits
This course examines the characteristics, needs, and probl	ems of adolescents. The course examines the
adolescent experience across cultures as well as adolescent	
None Lec Hours 40 Lab Hours 0 Other Hours 0	
DSC2002 - Introduction to Terrorism	4.0 Quarter Credits
Students in this course gain a valuable overview of terrorism:	ts history, current activities, and projected future.
Topics include: domestic and international terrorism, terrorist	
against terrorism, legal aspects, and the impact of the media. F	
0; Other Hours: 0	
DSC3214 - Catastrophic Event Response Planning	4.0 Quarter Credits
This course examines the response protocol, logistics, responsi	
end planning involved in preparation for a catastrophic event. St	
Emergency Response Plan that will include concepts such a	
safety (LACES); training; and various agency relationships. Pre

This course is designed to provide students with an understanding of the general principles of theories underlying modern psychology. <i>Prerequisites: None</i> Lecture Hours: 40; Lab Hours: 0; Other States and Sta	
PTN1702 - Administration of Medication and the History of Pharmacy 4.0 Quarter This course is designed to provide the student with an overall understanding and orientation pharmacy technology. Included in this course is an overview and historical development of pharm care, organizational structure and function of the hospital, an introduction to home health care and an overview of regulatory standards in pharmacy practice, and law and ethics as it relates to th pharmacy. A brief overview of pharmacy calculations are covered and an overview of Requirements for prescription processing and over-the-counter medications are explained. In a technique, pharmacy stock and billing and professional organizations are reviewed. <i>Prerequisites</i> Hours: 40; Lab Hours: 0; Other Hours: 0	a to the field of nacy and health long-term care, he profession of body systems. addition, aseptic s: None Lecture
PTN1703 - Pharmaceutical Calculations 4.0 Quarter In this course, students will be introduced to pharmaceutical calculations. Subjects covered incl	ude systems of
measurements and conversions between each, actual pharmaceutical calculations of drug dosage with compounds, admixtures, and parenteral and IV medications. <i>Prerequisites: PTN1704</i> Lecture Hours: 20; Other Hours: 0	
PTN1704 - Professional Aspects of Pharmacy Technology 4.0 Quarter	er Credits
This course is designed to introduce the student to the professional aspects of working in pharm Students will learn about the Ambulatory, Institutional and Home Care practice settings. Students	acy technology.
pharmaceutical terminology, medical abbreviations, pharmaceutical dosage forms, and calculations. Students are introduced to basic biopharmaceutics, pharmacokinetics, phar understanding physiology, drug classifications and pharmacologic actions. Aseptic technique, steril and intravenous admixture is discussed. Students will discuss medication errors and what can be	pharmaceutical rmacodynamics, e compounding,

This 160-hour course is designed to provide the student with supervised, practical hands-on and observational experience in the working pharmacy. Students will be expected to gain experiences in either a hospital pharmacy or a community (retail) pharmacy. Students will gain exposure to "on-the-job" experience and training in the pharmacy setting and practice of skills and gaining experiences in all aspects of drug preparation and distribution utilized by participating sites. Prerequisites: Completion of didactic program Lecture Hours: 0; Lab Hours: 0; Other Hours: 160 PTN1780C - Administrative and Practical Aspects of Pharmacy Technology 4.0 Quarter Credits This course is designed to provide the student with an overall understanding of the practical aspects and hands-on applications involved in working in a pharmacy. Included in this course are practical aspects of pharmacy

dispensing including reading and interpreting prescription and medication orders, labeling dispensed products, handling controlled substances, setting beyond-use dates for both manufactured and compounded products, patient consultation and drug utilization review, and general pharmaceutical calculations. As so reviewed in this course is the pharmacy formulary system, computer applications in drug-use control, receiving and processing medication orders and medication errors, preparation and utilization of patient profiles, handling medications, storage and delivery of drug products, records management and inventory control. This course emphasis in on pharmaceutical compounding including dosage forms and their usage instructions with a review of description of ingredients, calculations, procedures, compatibility and stability evaluations, quality control procedures, and patient consultations. Prerequisites: PTN1702 Lecture Hours: 30; Lab Hours: 20; Other Hours: 0 2.0 Quarter Credits

# PTNP1200 - Home Infusion Pharmacy

PTN1740 - Externship

This course will include a study of intravenous delivery of therapy in the home setting, as well as other therapies to include arterial, intraosseous, epidural, and intrathecal. It will focus on patients and their clinical needs, physician treatment plans, and the input of a variety of healthcare providers. The foundation of infusion therapy will be discussed, including anatomy, physiology, and infection control. Treatment modalities will include parenteral fluids, pharmacologic agents, nutritional solutions, and antineoplastic agents, Legal and ethical aspects of infusion practice will also be reviewed. Prerequisites: PTNP2020, PTNP2030 Lecture Hours: 20; Lab Hours: 0; Other Hours: 0

## PTNP1300 - Communication Skills in Pharmacy

This course is designed to provide the student with the foundation to define interpersonal communication and its various components. Students will better understand the complex process involved in effective communication. This course will provide a strong focus on the practical application of communication skills in pharmacy practice. Prerequisites: None Lecture Hours: 40; Lab Hours: 0; Other Hours: 0

## PTNP2020 - Pharmacology I

This course will include a study of the introduction to pharmacology, biological factors affecting the action of drugs, the various medications prescribed for treatment of illness and diseases; including uses, side effects, and precautions. The course is designed to include math review and dosage calculations, geriatric pharmacology, drug effects on the nervous system, skeletal muscle relaxants, local anesthetics, antipsychotics, antiepileptics, antiparkinson agents, narcotic analgesics and anti-inflammatory drugs. Prerequisites: BSC1086, HSC1527, BSC1085, PTN1703 Lecture Hours: 40; Lab Hours: 0; Other Hours: 0

## PTNP2030 - Pharmacology II

4.0 Quarter Credits This course is designed to provide the student with an overall understanding and orientation of the variety of drugs and their effects on different systems, indications, adverse effects, and contraindications. This will include a study of antianginal drugs, pharmacology of vascular and renal systems, diuretics, antihypertensive drugs, anticoagulants, vitamins, minerals, hypolipidemic drugs, bile acid sequestrants, drugs that affect the respiratory system, therapy of gastrointestinal disorders, introduction to the endocrine system, antimicroorganism agents, and immunopharmacology. Prerequisites: BSC1086, HSC1527, BSC1085, PTN1703, PTNP2020 Lecture Hours: 40; Lab Hours: 0; Other Hours: 0

## PTNP2200 - Pharmacy Technology Lab

This course is designed to provide students with practical hands-on experiences in the pharmacy lab. Designed for students to practice and acquire various skills learned in the pharmacy technician program, under the direct supervision of the pharmacy instructor. Students will be checked off of skills as they are mastered, including but not limited to receiving, interpreting and filling of prescriptions/medication orders for the inpatient and outpatient practice setting, I.V. Admixture of large volume and I.V. Piggyback, and syringe doses, using the laminar flow hood, inventory control systems, and patient information/profile systems. Skill competencies assigned by the instructor must be completed to pass the course. Prerequisites: HSC1527, PTN 1702, PTN 1703, PTN1780C Lecture Hours: 0; Lab Hours: 40; Other Hours: 0

## SBM2000 - Small Business Management

This course examines the various aspects of starting, acquiring, and operating a small business enterprise. It is a comprehensive discussion of problems encountered by small businesses. A study of management principles and procedures provides methods of resolving these problems. Prerequisites: None Lecture Hours: 40; Lab Hours: 0; Other Hours: 0

## INTENSIVE ENGLISH COURSES (TOTAL TUITION PER LEVEL)

Intensive English Studies I-IV	\$2,198
Intensive English Studies I-IV (Mini Term)	\$1,099
Intensive English V Capstone \$2,332	

### These modular and Quarter Based tuition tier flat-rate tuition tables only apply to:

- 1. **New enrolling students.** A new student is defined as a student who has never attended a Zenith Education Group school or has graduated and enrolled in a new program; or
- 2. Re-entering students who have withdrawn and are re-entering greater than 180 days from their withdrawal date (The withdrawn time period is calculated from the student's withdrawal date to the new module or term start date.)

**Note:** Students re-entering the same program version within 180 days from their NSLDS withdrawal date will be charged at the cost per credit/quarter reflected on the enrollment agreement from the most recent prior period of enrollment.

### For students who have withdrawn and are re-entering within 180 days, the following tuition charges apply:

Same Program (Same / New Program Version):

Will be charged tuition at the original tuition rate reflected on the original enrollment agreement less the amount charged on the prior period of enrollment (Charges plus or minus any tuition adjustments). Same Program (New Program Version of Different Credits / Length of Program):

Will be charged tuition at the current catalog rate for the program of enrollment less the amount charged on the prior period of enrollment (Charges plus or minus any tuition adjustments).

Different / New Program (Program Change)

Will be charged tuition at the current catalog rate for the program of enrollment. A tuition credit will be determined for the student's prior period of enrollment.

### FLAT TERM RATE TABLE

Students enrolled in 8+ credit hours will be charged a flat-term rate as set forth below. Students enrolled in less than 8 credit hours will be charged per credit and total tuition for a given quarter is determined by multiplying the number of credit hours for which the student is registered for and attends within the term by the then current tuition rate.

Associate Programs			
Number of Credits Enrolled In	Credit Load	Cost Per Credit	Cost Per Quarter
	20	\$272.00	\$5440.00

# FLORIDA PHARMACY TECHNICIAN DISCLOSURE

This disclosure includes important information for students enrolling in Everest's Pharmacy Technician program. Pharmacy technicians are required to be registered with and be certified by the Florida Board of Pharmacy prior to obtaining employment as a pharmacy technician in the state of Florida. This disclosure provides information on registration requirements. Please review this information and be sure that you understand it. If you have any questions, please contact Everest or the Florida Board of Pharmacy for additional information. If you plan to seek employment in a state other than Florida, please contact that state's board of pharmacy, or equivalent agency, for any relevant licensure or registration requirements. The Pharmacy Technician program at Everest meets requirements as a recognized course of training by the Florida State Board of Pharmacy. In addition to statemandated minimum requirements, Everest's Pharmacy Technician curriculum includes a variety of additional skills focused subjects, as well as coursework in Pharmacology.

Pharmacy Technicians must be registered with the Florida Board of Pharmacy. To gain registration, a pharmacy technician must complete a training program approved by the Board of Pharmacy.

The board shall register each applicant who is at least 17 years of age, has completed a pharmacy technician training program approved by the Board of Pharmacy, completed the application form, and has remitted a registration fee set by the board at \$105. The fee is composed of the following: a non-refundable application processing fee of \$50; initial registration fee of \$50 and unlicensed activity fee of \$5.00. Checks are to be made payable to the "Department of Health" and applications will be reviewed within 30 days.

As a condition of biennial registration renewal, a registered pharmacy technician shall submit a \$55 renewal fee and complete 20 hours of continuing education courses approved by the board or the Accreditation Council for Pharmacy Education, of which 4 hours must be via live presentation and 2 hours must be related to the prevention of medication errors and pharmacy law. Additionally, for the first renewal of registration a registered pharmacy technician must complete 1 hour of continuing education on the topic of HIV/AIDS.

Applications must be completed online through the Florida Board of Pharmacy website: <u>http://www.doh.state.fl.us/mga/pharmacy</u>.
