About Corinthian Schools, Inc.

This school is a part of Corinthian Schools, Inc. (CSI). CSI was formed in 1995 to own and operate schools across the nation that focus on high demand and specialized skills. CSI is continually seeking to provide the kind of training programs that will best serve the changing needs of students, business and industry.

With headquarters in Santa Ana, California and schools in various states, CSI provides job-oriented training in high-growth, high-technology areas of business and industry. The curricular focus is on allied health, business, and other programs that have been developed based on local employer needs. Students use modern equipment and facilities, similar to the kind they can expect to find on the job. By emphasizing focused training, CSI provides people entering or re-entering today's competitive market with practical, skill-specific training vital to their success.

Corinthian Schools, Inc. is dedicated to providing vocational and technical training which meets the current needs of business and industry. Under CSI ownership, the school will maintain its long-standing reputation for innovation and high-quality private vocational education.

School History and Description

The Bryman Schools were founded in 1960 by Mrs. Esther Bryman as the Los Angeles Colleges of Medical and Dental Assistants. The San Jose Campus opened in 1970. The Bryman Schools were acquired by National Education Corporation in 1975 and in 1983 the school name was changed to National Education Center® - Bryman Campus. In 1989, this school opened its doors as a branch facility of the San Jose Campus. The school was acquired in September, 1995 by Corinthian Schools, Inc. The school name was changed to Bryman College on June 30, 1996.

The school facility has been designed for training students in the health care field. The modern building is carpeted and air conditioned, with a fluorescent lighting system that provides a bright, well-lit learning environment.

The two story brick and glass facility has approximately 14,423 square feet containing six classrooms furnished with laboratory and office equipment, faculty and administrative offices, a library containing reference and reading materials related to the academic programs, a student lounge and restrooms. The student lounge serves as a gathering place for lunch and breaks. It is equipped with a variety of vending machines and provides a relaxing atmosphere for visiting or studying before and after class.

This institution, the facilities it occupies and the equipment it uses comply with all federal, state and local ordinances and regulations, including those related to fire safety, building safety and health.

The school is conveniently located near public transportation and is easily accessible from Interstate Highway 10. The downtown area, the French Quarter and the Superdome are within two miles of the school. Limited parking is available on campus.

Educational Philosophy

The Corinthian Schools, Inc. philosophy is to provide quality programs that are sound in concept, implemented by a competent and dedicated faculty, and geared to serve those seeking a solid foundation in knowledge and skills required to obtain employment in their chosen fields. The programs emphasize hands-on training, are relevant to employers' needs and focus on areas that offer strong long-term employment opportunities. To offer students the training and skills that will lead to successful employment, the schools will:

- Continually evaluate and update educational programs;

-
- Provide modern facilities and training equipment;
 - Select teachers with professional experience in the vocations they teach and the ability to motivate and develop students to their greatest potential; and
 - Promote self-discipline and motivation so that students may enjoy success on the job and in society.

Statement of Non-Discrimination

Corinthian Schools, Inc. does not discriminate on the basis of sex, age, physical handicap, race, creed or religion in its admission to or treatment in its programs and activities, including advertising, training, placement and employment. The school president is the coordinator of Title IX - the Educational Amendments Act of 1972, which prohibits discrimination on the basis of sex in any education program or activity receiving federal financial assistance. All inquiries or complaints under the sex discrimination provisions of Title IX should be directed to the school president. The school president must act equitably and promptly to resolve complaints and should provide a response within seven working days. Students who feel that the complaint has not been adequately addressed should contact the CSi Student Help Line, (800) 874-0255.

This campus is an equal opportunity employer/program. Auxiliary aids and services are available upon request to individuals with disabilities.

Accreditations, Approvals and Memberships

This school voluntarily undergoes periodic accrediting evaluations by teams of qualified examiners, including subject experts and specialists in occupational education and private school administration.

- Accredited by the Accrediting Commission of Career Schools and Colleges of Technology.
- Licensed by the Louisiana Department of Education.
- Eligible institution for Federal Perkins Loan, Federal Supplemental Educational Opportunity Grant (FSEOG), Federal Pell Grant and Federal Work Study (FWS) programs.
- Approved for the training of Veterans and eligible persons under the provisions of Title 38, United States Code.
- Member of the New Orleans Chamber of Commerce.
- Member of the New Orleans Better Business Bureau.
- Member of the National Association for Health Professionals.

School accreditations, approvals and memberships are displayed in the lobby. The school president can provide additional information.

Modular Programs

A Modular Program is a complete body of prescribed subjects or studies that is divided into periods of instruction approximately four to five weeks in length.

Dental Assisting Program

Diploma Program - 8 Months (Day) / 10 Months (Evening)

720 Clock Hours/47.0 Credit Units

DOT:

Dental Assistant

079-371.010

Dental assistants have become indispensable to the dental care field. Dentists have become more reliant on dental assistants to perform a wide range of patient procedures, and their responsibilities continue to expand as the need for their services grows.

The objective of the Dental Assisting Program is to provide graduates with the skills and knowledge that will enable them to qualify for entry-level positions as dental assistants. Since dental assistants are trained in clinical, radiographic and administrative procedures, their services are also sought by dental schools, dental supply manufacturers, hospital dental departments and insurance companies. Graduates are also capable of filling entry-level positions such as dental receptionist, dental insurance clerk, dental supply salesperson and administrative assistant. While it is not a prerequisite to employment as a dental assistant, the importance of becoming a Registered Dental Assistant is emphasized, and students become familiar with the types of practical and written exams they will encounter when they qualify to take the RDA exam.

This training program is divided into eight learning units called modules. Students must complete modules A through G first, starting with any module and continuing in any sequence until all seven modules are completed. Modules A through G stand alone as units of study and are not dependent upon previous training. If students do not complete any portion of one of these modules, the entire module must be repeated. Upon successful completion of modules A through G, students participate in a 160-clock-hour externship.

Upon successful completion of the Dental Assisting Program, students will receive a diploma.

Program Outline

Module Number	Module Title	Clock Hours	Credit Units
Module A	Administrative Procedures	80	6.0
Module B	Dental Radiography	80	6.0
Module C	Dental Sciences	80	6.0
Module D	Operative Dentistry	80	6.0
Module E	Laboratory Procedures	80	6.0
Module F	Dental Health	80	6.0
Module G	Dental Specialties	80	6.0
Module X	Externship	160	5.0
	Program Total	720	47.0

Major Equipment

Amalgamators
Autoclave
Automatic and Manual Processing Equipment
Dental Unit and Chairs
DXTTR and Typodont Manikins
Handpieces
Model Trimmers
Model Vibrators
Oral Evacuation Equipment
Oxygen Tank
Personal Computers
Ultrasonic Units
X-Ray Units

Module Descriptions

Module descriptions include the module number, title, synopsis, a listing of the lecture/theory hours, laboratory or externship hours and credit units. For example, the listing "40/40/6.0" indicates that the module consists of 40 hours of lecture/theory, 40 hours of laboratory work, and provides a total of 6.0 credit units.

Module A - Administrative Procedures

40/40/6.0

This module focuses on basic administrative procedures and receptionist-related duties performed in the dental office. Routine office procedures such as appointment scheduling, filing, mail handling, inventory control and telephone communication are included. Students are introduced to the legal and ethical responsibilities of the dentist and the dental staff. They become familiar with records management systems and learn how to take case histories and obtain information to complete dental records. They also work with a pegboard system to accomplish tasks in cash management and reconciliation. An introduction to dental insurance and coding and billing procedures is included. Students use computerized practice management software to complete dental insurance claims and patient records. Career development instruction focuses on identifying skills necessary for employment. Essential dental terminology is also studied.

Module B - Dental Radiography

40/40/6.0

Module B introduces the anatomy of the head and teeth in order to familiarize students with the structures involved in dental radiographs. Radiation protection and the hazards of X-ray radiation are studied. The coursework emphasizes maintaining radiation safety while obtaining the best possible diagnostic quality. Theory, laboratory skills and clinical practice meet California state guidelines for a Radiation Safety Certificate and comply with federal regulations for certifying radiographic operators. Students practice techniques of film exposure and mounting in equipped dental operatories with industry-approved structural and monitoring devices. Exposure techniques (including bitewing, bisecting and parallel) are performed on a patient simulator manikin (Typodont). Upon successful completion of practice, students produce radiographs on site for clinical patients as prescribed by a licensed dentist. Students process film using a fully equipped darkroom or automatic processor. Students are also required to mount processed radiographs and to evaluate the diagnostic quality. Professional responsibilities regarding the state Radiation Safety Certificate are introduced. Related dental terminology is also taught.

Module C - Dental Sciences

40/40/6.0

In this module, students are introduced to Occupational Safety and Health Administration (OSHA) standards for infection control and hazard communication. Topics include microbiology, contagious diseases, universal precautions, barrier techniques and hazardous chemicals. Students practice step-by-step instrument decontamination and operatory disinfection using approved sterilization agents and methods. They study cranial anatomy as it relates to anesthesia administration and pain control. Methods for taking and recording vital signs and blood pressure are introduced. Skills performed by the dental assistant in the specialty areas of oral surgery and endodontics (root canals), including administration of topical and local anesthetics, are presented. Students practice placing instruments and materials on Typodont manikins. Career development instruction focuses on interview techniques. Related dental terminology is studied.

Module D - Operative Dentistry

40/40/6.0

This module introduces students to chairside assisting duties and techniques practiced in general dentistry, with emphasis on sit-down, four-handed dentistry. Students learn how to handle and transfer dental instruments and place materials on models. Properties and manipulation of common dental materials (including amalgam, composites, glass ionomers and sealants) are presented. Students practice Registered Dental Assistant (RDA) procedures such as placement, wedging and removal of matrices, and the placement of cement bases and liners on Typodont manikins. Students learn basic concepts of psychology and communication, with emphasis on helping patients overcome anxieties related to dental treatment. Special considerations for disabled and abused patients are presented. Children's dentistry (pediatric dentistry) as a specialty is presented. Career development training concentrates on the self-directed job search. Students also study related dental terminology.

Module E - Laboratory Procedures

40/40/6.0

In this module, students receive hands-on training in taking impressions and constructing study and master casts. Students learn to use a variety of impression and gypsum materials. The casts are then used to practice dental procedures such as the fabrication of custom trays and temporary crowns. Students practice placement and removal of temporary sedative dressings on Typodont manikins according to RDA standards. Prosthodontics as a specialty is presented, with instruction in crown and bridge procedures and full and partial dentures. Students are introduced to dental implants and various mouth guards, such as night guards, sport guards and bleaching trays. Laboratory safety and infection control are presented. Instruction in career development focuses on starting a new job. Related dental terminology is studied.

Module F - Dental Health

40/40/6.0

In this module, students become proficient in charting pathological conditions and existing dental work. In addition, they chart oral conditions of students and patients in compliance with state guidelines for mouth mirror inspection. Oral cavity anatomy, tooth morphology and annotating methods relating to charting are presented. Specialty areas of oral pathology and periodontics are studied. Placement of periodontal surgical dressings according to RDA criteria is demonstrated and practiced on manikins. Preventive dentistry, and related areas of nutrition and fluorides, are emphasized. Students are taught how to prepare a resume and complete employment applications. Students also study related dental terminology.

Module G - Dental Specialties

40/40/6.0

This module focuses on orthodontics as a specialty. Students receive hands-on training in orthodontic measurements, placement of separators and sizing bands, and placing and ligating arch wires. Orthodontic assistant duties, office routine and malocclusion classifications are presented. Coronal polish theory and procedures are practiced on manikins and then on clinical patients under the direct supervision of a licensed dentist. Completion of coronal polish requirements will permit the assistant to perform the procedure after obtaining the RDA license. Students learn cardiopulmonary resuscitation according to American Heart Association or Red Cross standards. A study of dental emergencies, includes emergency equipment and prevention, causes and treatment of office emergencies. Related areas of pharmacology and oxygen administration are introduced. Career development training emphasizes dressing for success. Related dental terminology is studied.

Module X - Externship

0/160/5.0

Upon successful completion of classroom training, dental assisting students participate in a 160-hour externship. Serving an externship at an approved facility gives externs an opportunity to work with patients and apply the principles and practices learned in the classroom. Externs work under the direct supervision of qualified personnel in participating institutions and under general supervision of the school staff. Externs will be evaluated by supervisory personnel at 80- and 160-hour intervals. Completed evaluation forms are placed in the students' permanent record. Students must successfully complete their externship training in order to fulfill requirements for graduation.

Medical Assisting Program

Diploma Program – 8 Months (Day)/10 Months (Evening)

720 Clock Hours/47.0 Credit Units

DOT:

Medical Assistant

079.367-010

In recent years the medical assisting profession has become indispensable to the health care field. Not only have physicians become more reliant on medical assistants, but their services are also being requested by hospitals, clinics and nursing homes, as well as medical supply businesses, home health agencies, insurance companies and pharmaceutical companies. Medical assistants have become an important part of the health care team and their responsibilities continue to expand as the need for their services grows.

The objective of the Medical Assisting Program is to provide graduates with the skills and knowledge that will enable them to qualify for entry-level positions as medical assistants. Since medical assistants are trained in both administrative and clinical procedures, they are capable of filling a variety of entry-level positions, including clinical or administrative assistant, medical receptionist and medical insurance biller.

This training program is divided into eight learning units called modules. Students must complete module Z first, then A through F, starting with any module and continuing in any sequence until all seven modules are completed. Modules A through F stand alone as units of study and are not dependent upon previous training. If students do not complete any portion of one of these modules, the entire module must be repeated. Upon successful completion of modules Z and A through F and the comprehensive written and laboratory skills examination, students participate in a 160-clock-hour externship.

Completion of the Medical Assisting Program is acknowledged by the awarding of a diploma.

Program Outline

Module Number	Module Title	Clock Hours	Credit Units
Module Z	Medical Assisting Foundation Skills	80	6
Module A	Patient Care and Communication	80	6
Module B	Clinical Assisting and Pharmacology	80	6
Module C	Medical Insurance, Bookkeeping and Health Sciences	80	6
Module D	Cardiopulmonary and Electrocardiography	80	6
Module E	Laboratory Procedures	80	6
Module F	Endocrinology and Reproduction	80	6
Module X	Externship	160	5
	Program Total	720	47

Major Equipment

Autoclave	Mayo Stands
Blood Chemistry Analyzer	Microscopes
Calculators	Personal Computers
Electrocardiography Machine	Sphygmomanometers
Electronic Typewriters	Stethoscopes
Examination Tables	Surgical Instruments
Hydrocollator	Teletrainer
Intermittent Traction Unit	TENS Unit
Training Manikins	

Module Descriptions

Module descriptions include the module number, title, synopsis, a listing of the lecture/theory hours, laboratory or externship hours and credit units. For example, the listing "40/40/6.0" indicates that the module consists of 40 hours of lecture/theory, 40 hours of laboratory work, and provides a total of 6.0 credit units.

Module Z – Medical Assisting Foundation Skills

40/40/6.0

In Module Z, students become familiar with basic medical office equipment and skills. The student will become familiar with basic OSHA standards and universal precautions. Students will be introduced to the concept of hazardous waste as part of the medical office and how it is handled. The students will also learn basic keyboarding and typing skills, as well as mathematical skills needed to convert dosage amounts. Basic medical terminology is also included in this module.

Module A – Patient Care and Communication

40/40/6.0

Module A emphasizes patient care, including the complete physical exam, positioning and draping. Anatomy and physiology of the sense organs and common diseases related to each are taught. Students learn how to interact and communicate effectively by exploring the fundamentals of interpersonal relations. Front-office skills performed by the health care professional are included. Students perform invasive procedures and check vital signs. Students develop basic keyboarding skills on the computer and study essential medical terminology. Students also become familiar with the self-directed job search.

Module B – Clinical Assisting and Pharmacology

40/40/6.0

Module B stresses the importance of asepsis and sterile technique in today's health care environment. Students learn about basic bacteriology and its relationship to infection and disease control. Anatomy, physiology and common diseases of the muscular system are included. Basic therapeutic drugs, their use, classification and effects on the body are covered. Students become familiar with the principles of administering medication. They perform invasive procedures and check vital signs. Students develop basic keyboarding skills on the computer and study essential medical terminology. Students also become familiar with the self-directed job search.

Module C – Medical Insurance, Bookkeeping and Health Sciences

40/40/6.0

Module C introduces students to office emergencies and first aid, including bandaging. Anatomy and physiology of the human digestive system are presented in conjunction with nutrition. Students study medical insurance, billing and coding, and essential bookkeeping procedures. Students perform invasive procedures and check vital signs. Students develop basic keyboarding skills on the computer and study essential medical terminology. Students also become familiar with the self-directed job search.

Module D – Cardiopulmonary and Electrocardiography

40/40/6.0

Module D examines the circulatory and respiratory systems, including the structure and function of the heart and lungs. Students learn about the electrical pathways of the heart muscle in preparation for connecting EKG leads and recording an electrocardiogram. A cardiopulmonary resuscitation (CPR) course enables students to respond to a cardiac emergency. Students perform invasive procedures and check vital signs. Students develop basic keyboarding skills on the computer and study essential medical terminology. Students also become familiar with the self-directed job search.

Module E – Laboratory Procedures

40/40/6.0

Module E introduces laboratory procedures commonly performed in a physician's office. Students learn specimen identification, collection, handling and transportation procedures, and practice venipuncture and routine diagnostic hematology. Maintenance and care of laboratory equipment and supplies are discussed. The renal system's anatomical structures, functions and common diseases are presented. Students perform invasive procedures and check vital signs. Students develop basic keyboarding skills on the computer and study essential medical terminology. Students also become familiar with the self-directed job search.

Module F – Endocrinology and Reproduction

40/40/6.0

In Module F, students learn to identify the basic structural components and functions of the skeletal, endocrine and reproductive systems. They learn about assisting in a pediatric office, and about child growth and development. Students perform invasive procedures and check vital signs. Students develop basic keyboarding skills on the computer, and study essential medical terminology. Students also become familiar with the self-directed job search.

Module X – Externship

0/160/5.0

Upon successful completion of classroom training, medical assisting students participate in a 160-hour externship. Serving an externship at an approved facility gives externs an opportunity to work with patients and apply the principles and practices learned in the classroom. Externs work under the direct supervision of qualified personnel in participating institutions and under general supervision of the school staff. Externs will be evaluated by supervisory personnel at 80 and 160-hour intervals. Completed evaluation forms are placed in the students' permanent record. Students must successfully complete their externship training in order to fulfill requirements for graduation.

Admissions

Requirements and Procedures

Students should apply for admission as soon as possible in order to be officially accepted for a specific program and starting date. To apply, students should complete the application form and bring it to the school, or call for a priority appointment to visit the school and receive a tour of its facilities.

All applicants are required to complete a personal interview with an admissions representative. Parents and spouses are encouraged to attend. This gives applicants and their families an opportunity to see the school's equipment and facilities, meet the staff and faculty, and to ask questions relating to the campus, curriculum, and career objectives. Personal interviews also enable school administrators to determine whether an applicant is acceptable for enrollment into the program.

Once an applicant has completed and submitted the Enrollment Agreement, the school reviews the information and informs the applicant of its decision. If an applicant is not accepted, all fees paid to the school are refunded.

The school follows an open enrollment system. Individuals may apply up to one year in advance of a scheduled class start. The following items must be completed at the time of application:

- Administration and evaluation of applicable entrance examination;
- Enrollment Agreement (if applicant is under 18 years of age, it must be signed by parent or guardian);
- Financial aid forms (if applicant wishes to apply for financial aid); and
- Payment of registration fee.

The school reserves the right to reject students if the items listed above are not successfully completed.

This campus does not offer training in English as a Second Language.

Prospective students who have a high school diploma or a recognized equivalency certificate (GED) are required to:

1. Furnish proof by providing the school with the diploma, official transcript or GED certificate, a copy of which will be placed in the student file, and
2. Effective June 1, 1997 for applicants applying to begin classes after July 1, 1997, all applicants are required to achieve a passing score on a nationally normed, standardized test. This test measures an applicant's basic skills in reading and arithmetic. Applicants who fail the test can be retested using a different nationally normed, standardized test. The re-test(s) will be administered within the period specified by the test developer. Should the applicant fail the test a third time, one year or alternate training must take place before (s)he will be allowed to retest.

Applicants who do not have a high school diploma, official transcript or GED certificate may also apply. However, the number of students enrolled under the Ability to Benefit Provision is limited. The school reserves the right to reject applicants based on test scores and ability to benefit limitations, or as necessary to comply with any applicable local, state or federal laws, statutes or regulations.

Applicants enrolling under the Ability to Benefit provision are required to achieve a passing score on an independently administered, standardized, nationally recognized test which is approved by the U.S. Department of Education. This test is designed to measure prospective students' ability to benefit from the course of instruction. Applicants who pass this test have fulfilled the school's entrance test requirements. Applicants who fail the test can be retested using the test developer's guidelines. Students must begin classes within one year of their test date. Students who withdraw after starting school, or are terminated by the school and re-enter more than one year after their test date, must take the test again.

Allied Health Programs

Students entering an allied health program must also complete a Health Notice prior to the start of the training program. Health Notice forms are provided by the school.

Due to regulations regarding X-rays, applicants to the Dental Assisting Program must be at least 17 years old.

Credit for Previous Education or Training

The Education Department will evaluate previous education and training that may be applicable to an educational program. If the education and/or training meet the standards for transfer of credit, the program may be shortened and the tuition reduced accordingly. Students who request credit for previous education and training are required to provide the school with an official transcript from the educational institution.

Administration Policies

Academic Achievement

Grading

The progress and quality of students' work is measured by a system of letter grades and grade percentages. The meaning of each grade and its equivalent percentage is as follows:

Grade	Meaning	Percentage
A	Excellent	100-90
B	Very Good	89-80
C	Good	79-70
F	Failing	69-0

Student Awards

Awards for outstanding achievement are presented to deserving students based on performance and faculty recommendations. Graduates find these awards can be an asset when they seek future employment. The Education Department can provide information regarding the specific awards presented.

Graduation Requirements

Students on academic probation may qualify for graduation if, at the end of the probationary term, they meet the Satisfactory Academic Progress requirements.

To be eligible for graduation, students must:

- Complete all required classroom modules with a grade of at least 70 percent;
- Meet the grade requirements for the module components, if applicable;
- Successfully complete a total of 160 clock hours in an approved externship;
- Receive satisfactory evaluations from the externship facility; and
- Complete all program requirements.

Satisfactory Academic Progress

Requirements

Students must show satisfactory academic progress. In order to maintain satisfactory academic progress, students must:

- Achieve a cumulative grade percent average (GPA) of at least 70 percent (on a scale of 0-100 percent) or be on academic probation;
- Progress at a satisfactory rate toward completion of their programs; and
- Complete the training programs within 1 1/2 times the planned program length.

Students whose cumulative GPA falls below 70 percent are notified that they are being placed on academic probation, which will begin at the start of the next term. Students on academic probation are considered to be making satisfactory academic progress.

Academic Probation

The initial probationary period covers the module that starts immediately after students have been placed on academic probation. Students remain eligible for financial aid during this period. They are required to repeat the failed module during the probationary period unless the module is not offered at that time. In that case, the failed module must be repeated at the earliest possible date.

If, by the end of the probationary period, students achieve a cumulative GPA of at least 70 percent, they are notified that the probationary status is removed. If they have not achieved a cumulative GPA of at least 70 percent but have achieved a GPA of at least 70 percent for the module, students may continue their training programs for a second probationary period. Students who do not achieve a GPA of 70 percent for the module will be withdrawn from training by the school.

Students who continue their training for a second probationary period will remain eligible for financial aid. If they achieve a cumulative GPA of at least 70 percent by the end of the second probationary period, they are informed that they have been removed from probation. Students who do not achieve a cumulative GPA of 70 percent will be withdrawn from training by the school.

Reinstatement Policy

Students who have been terminated for failing to maintain satisfactory academic progress may be reinstated at the start of the next grading period through the appeal process. However, students will not be eligible for financial aid during the reinstatement term. If students achieve a cumulative GPA of at least 70 percent by the end of that term, they will be considered to be making satisfactory academic progress and will be eligible for financial aid consideration in subsequent terms.

Incompletes

An "Incomplete" cannot be given as a final grade. However, at the end of the term students may, with the instructor's approval, be granted a maximum extension of 14 calendar days to complete the required class work, assignments and tests. The extension cannot be used to make up accrued absences from class. If students do not complete the required class work, assignments and tests within the extension period, they will receive a failing grade of "F" or "zero" for the module. The "F" or "zero" will be averaged in with the students' other grades to determine the cumulative GPA.

Withdrawals

Week One

When students withdraw from a module during the first five school days of the module, their names will cease to appear on any class roster or grade report and grades will not be recorded. Students who wish to

withdraw from a module during this time frame must request approval from the instructor or department head. The withdrawal request must then be approved by either the department head or education director. If a request for withdrawal is approved, the status of "Withdrawal" (W) is recorded but will not have an impact on the module grade or cumulative GPA.

Week Two through the End of the Module

To withdraw from a module after the first week, students must request approval from the instructor. Requests for withdrawal must then be approved by the department head and education director. Extreme academic or personal hardship is considered the only justification for withdrawal.

If a request for withdrawal is approved, the status of "Withdrawal Passing" (WP) or "Withdrawal Failing" (WF) is assigned. "WP" indicates that a student was passing the module (at least 70 percent) as of the last day of attendance. "WF" indicates that a student was not passing the module (less than 70 percent) as of the last day of class attendance.

Withdrawal status remains on record until students complete the module from which they withdrew. It will have no effect on the module grade or cumulative GPA.

Students who are contemplating withdrawing from a module should be cautioned that:

- The entire scheduled length of the module of study they are currently enrolled in is counted in their maximum program completion time;
- They may have to wait for the appropriate module to be offered;
- They must repeat the entire module from which they elected to withdraw prior to receiving a final grade; and
- Financial aid and/or tuition costs may be affected.

Exit Interviews

Students who want to discontinue their training for any reason are required to schedule an exit interview with a school official. This meeting can help the school correct any problems and may assist students with their plans. In many cases, the problem hindering successful completion of the educational objective can be resolved during an exit interview.

Repeat Policy

Students who fail a module must retake that module. The failing grade will be averaged into their GPA at the end of the module and remain in effect until the module is repeated and a new grade is earned. Students may repeat a failed module only once. If repeating the training is required, the length of the program must not exceed 1 1/2 times the planned program length.

When students repeat a module, the last grade received for that module replaces the original grade on the transcript (even if the original grade was higher), and this new grade is used to calculate the cumulative GPA. The attendance for the repeated module will replace the attendance for the original module.

Students who receive a passing grade for a module but wish to repeat the module may do so (subject to seat availability), but they may repeat a completed module only once.

NOTE: This campus does not permit students to make up absences that accrue on their attendance record during the classroom training modules. However, students must make up absences that occur during the externship to ensure that the required extern hours are completed prior to graduation.

Maximum Program Completion Time

Classroom Training

Students are expected to complete their program within the defined maximum program completion time, which should not exceed 1 1/2 times the normal time frame. This campus defines the normal time frame as the length of time it would take a student to complete the total program credit hours/units according to the Enrollment Agreement.

In order to complete the training within the specified time, students must maintain a satisfactory rate of progress as defined below.

Students who have reached the halfway point of their maximum program completion time must have successfully completed 60 percent of the clock or credit hours/units attempted.

Students who have reached 75 percent of their maximum program completion time must have successfully completed 65 percent of the clock or credit hours/units attempted.

Measuring the rate of progress ensures that students will complete enough of the program at the end of each measurement point to finish the entire program within the maximum allowable time. The maximum completion time and satisfactory rate of progress for each program can be obtained from the Education Department.

If students exceed the maximum allowable program length or do not progress at a sufficient rate, their training program will be interrupted. No probationary status is allowed.

Externship Training

Upon successful completion of all classroom requirements, students are expected to begin the externship portion of their program. The required number of externship clock and credit hours/units must be successfully completed within three months from the date students begin their externship. Students must complete at least 15 clock hours, but no more than 40 clock hours per week at an approved externship site. This campus recommends that students complete at least 20 clock hours per week. Students must make up absences that occur during the externship to ensure that the required extern hours are completed prior to graduation. All students must be available for externship assignment during daytime hours.

Students who interrupt their externship training for more than 10 days will be dropped from the program by the school. If a student has been officially dropped by the school, and permitted to re-enter the program, the time elapsed is not included in the calculation of the student's maximum program completion time.

Students who will not complete their externship training within the required three-month completion time will also be dropped from the program by the school. Students who have been dropped may appeal their termination if extenuating circumstances have occurred near the end of the externship that make it impractical to complete the training within the required completion time. Extenuating circumstances include prolonged illness or accident, death in the family, or other events that make it impractical to complete the externship within the required completion time. Student appeals must include written documentation of the extenuating circumstances, submitted to the education director and approved by the school president. Students may only be reinstated once due to extenuating circumstances.

Additional Information on Satisfactory Academic Progress

Additional information on satisfactory academic progress and its application to specific circumstances is available upon request from the education director.

Student Appeal Process

Students whose training programs are terminated by the school will be informed of the right to appeal that decision. Students must initiate the process by submitting a written request for re-admittance to the school president.

Students will not be entitled to appeal if they are terminated for the following reasons:

- Exceeding the maximum program completion time.
- Violating the attendance policy without successfully completing at least 66 percent of the program of study.

Required Study Time

In order to complete the required class assignments, students are expected to spend outside time studying. The amount of time will vary according to individual student abilities. Students are responsible for reading all study materials issued by their instructors and must turn in assignments at the designated time.

Unit of Credit

Academic

A clock hour is a class period of 50 to 60 minutes of instruction. Clock hours are converted into credit units to allow for comparison with other postsecondary schools. Students earn one quarter credit unit for each 10 clock hours of lecture, 20 hours of laboratory or 30 hours of externship.

Class Size

To provide meaningful instruction and training, classes are limited in size. Standard lecture classes average 20 students for the Dental Assisting Program and 40 students for the Medical Assisting Program. The maximum class size is 24 students for the Dental Assisting Program and 48 students for the Medical Assisting Program.

Laboratory classes enable students to receive hands on training using equipment similar to that used by business and industry. To ensure that students receive the necessary time and attention to build experience and confidence, typical laboratory classes average 20 students. The maximum class size for laboratory classes is 24 students.

Attendance Requirements

Regular attendance and punctuality will help students develop good habits necessary for successful careers. Satisfactory attendance is established when students are present in the assigned classroom for the scheduled amount of time.

Students are expected to be in the assigned classroom for at least 80 percent of the scheduled time of any course, module or quarter. Absences will include tardies or early departures. Students who are not in attendance for at least 51 percent of the scheduled class time will be considered absent for the day. Students who have been absent from all of their scheduled classes for 10 consecutive school days, not including scheduled school holidays, will be dropped from the training program.

Students who miss more than 20 percent of the total classroom hours scheduled for the program will be dropped. If they have successfully completed at least 66 percent of the scheduled classroom hours, they will first be notified of the school's intention to drop them. These students must successfully appeal their termination within three school days in order to continue their training. If their termination is not successfully appealed, they will be dropped from the program.

This campus does not permit students to make up absences that accrue on their attendance record. However, students must make up absences that occur during the externship to ensure that the required extern hours are completed prior to graduation.

Students are encouraged to schedule medical or dental appointments after school hours and should notify the school if they plan to be absent.

Tardiness/Early Departure

Students who arrive for class after the scheduled start time will receive a tardy on their attendance record. Students who depart from class before the scheduled completion time will receive an early departure on their attendance record. Students who accumulate a total of four tardies and/or early departures will accrue one day of absence on their attendance record.

Reentry Policy

Students who have been terminated for violating the attendance policy may be reentered through the appeal process. To be eligible to reenter students must have been dismissed for one complete module/quarter. Students reentered after violating the attendance policy may not be absent more than 20% of the total of the remaining classroom hours. Normally approval for reentry will be granted only once, however, in those instances where extenuating circumstances exist a student may be allowed to reenter more than once with appropriate documentation and the approval of the School President.

Make-up Work

Students are required to make up all assignments and work missed as a result of absence. The instructor may assign additional outside make-up work to be completed for each absence. Arrangements to take any tests missed because of an absence must be made with the instructor and approved by the school administration.

Leave of Absence Policy

Students may be granted one leave of absence (LOA) per 12-month period for certain specific and acceptable purposes.

The leave, and any extension, may not exceed 60 calendar days.

Written requests for a leave of absence – properly approved, dated and signed by the student and either the school president, education director or appropriate department head – will be maintained in the student's file.

A student who fails to return from the leave on the date indicated in the written request will be terminated from the training program.

Effects of Leave of Absence on Satisfactory Academic Progress

Students who are contemplating a leave of absence should be cautioned that one or more of the following factors may affect their eligibility to graduate within the maximum program completion time:

- o Students returning from a leave of absence are not guaranteed that the module required to maintain the normal progression in their training program will be available at the time of re-entry.
- o They may have to wait for the appropriate module to be offered.
- o They may be required to repeat the entire module from which they elected to withdraw prior to receiving a final grade.
- o Financial aid and/or tuition costs may be affected.

Weather Emergencies

The school reserves the right to close during weather emergencies or other "acts of God." Under these conditions, students will not be considered absent. Instructors will cover any missed material to ensure completion of the entire program.

Clothing and Personal Property

All personal property is the sole responsibility of the student, and the school does not assume liability for any loss or damage. Clothing and other small items should be marked clearly with the student's name and address. Vehicles should always be locked to avoid theft.

Code of Conduct

Students are required to follow standards of conduct that are typical of the working world. Students may be placed on probation or terminated for violation of the school's personal conduct standards. Violations include dishonesty, unprofessional conduct, use of profanity, insubordination, noncompliance with safety rules, use of alcohol or drugs on school property, and vandalism of school property or equipment. Students will be placed on probation for a maximum of 90 days. If, in the opinion of the school president, they demonstrate adherence to the personal conduct rules, the probation period may be shortened. If terminated, students may re-enter the following term with permission of the school president.

Dress Code

Students enrolled in allied health programs are required to wear the standard medical uniform and shoes with a closed heel and toe as described in the school's dress code policy. Uniforms are not included in the tuition price and should be ordered as soon as possible after acceptance into the program. Students should review the established dress and appearance guidelines for details. This information will be available upon enrollment.

Academic Advisement and Tutoring

Students' educational objectives, grades, attendance and conduct are reviewed on a regular basis. Students will be notified if their academic standing or conduct is unacceptable. Failure to improve academic standing or behavior may result in further action. Tutorial programs and academic advisement are provided for students who are experiencing difficulties with their classwork. Students are encouraged to seek academic assistance through the Education Department.

Disabled Students

Disabled students should make arrangements to meet with the school president prior to the start of class to review facilities and required accommodations.

Health/Medical Care

Students must take proper care of their health so that they can do their best in school. This means regular hours, plenty of sleep, sufficient exercise and nutritious food. Students who become seriously ill or contract a communicable disease should stay home and recover, but remember to notify the school immediately. All medical and dental appointments should be made after school hours.

The school will not be responsible for rendering any medical assistance but will refer students to the proper medical facility upon request.

Termination Procedures

Students may be terminated by the school for cause. Examples include, but are not limited to, the following:

- o Violation of the school's attendance policy.
- o Failure to maintain satisfactory academic progress.
- o Violation of personal conduct standards.
- o Inability to meet financial obligations to the school.

Students to be terminated are notified in writing and may appeal to the school president.

Transferability of Credits

The school president's office provides information on schools that may accept this campus' course credits toward their programs. However, this school does not guarantee transferability of credits to any other college, university or institution, and it should not be assumed that any courses or programs described in this catalog can be transferred to another institution. Any decision on the comparability, appropriateness and applicability of credits and whether they may be accepted is the decision of the receiving institution.

Comparability of Programs

Students who want information regarding how tuition, fees and program length compare to other institutions should contact the Accrediting Commission of Career Schools and Colleges of Technology, 2101 Wilson Boulevard, Suite 302, Arlington, Virginia 22201, (703) 247-4212.

Student Complaint/Grievance Procedure

Persons seeking to resolve problems or complaints should first contact their instructor. Unresolved complaints should be made to the education director. Students who feel that the complaint has not been adequately addressed should contact the school president. Written responses will be given to the student within seven working days. If the problem remains unresolved, students may contact the CSi Student Help Line at (800) 874-0255.

Requests for further action should be made to:

Proprietary School Bureau
Louisiana Department of Education
Post Office Box 94064
Baton Rouge, Louisiana 70804-9064
(504) 342-3543

Schools accredited by the Accrediting Commission of Career Schools and Colleges of Technology must have a procedure and operational plan for handling student complaints. If a student feels that the school has not adequately addressed a complaint or concern, the student may consider contacting the Accrediting Commission. All complaints considered by the Commission must be in written form, with permission from the complainant(s) for the Commission to forward a copy of the complaint to the school for a response. The complainant(s) will be kept informed as to the status of the complaint as well as the final resolution by the Commission. A copy of the Commission's Complaint Form is available at the school and may be obtained by contacting the school president. Please direct all inquiries to:

Accrediting Commission of Career Schools and Colleges of Technology
2101 Wilson Boulevard, Suite 302 - Arlington, Virginia 22201
(703) 247-4212

Policy and Program Changes

The school catalog is current as of the time of printing. CSi reserves the right to make changes in organizational structure, policy and procedures as circumstances dictate. This campus reserves the right to make changes in equipment and materials and modify curriculum as it deems necessary. When size and curriculum permit, classes may be combined to provide meaningful instruction and training and contribute to the level of interaction among students. Students are expected to be familiar with the information presented in this school catalog.

Financial Information

Tuition and Fees

The Enrollment Agreement obligates the student and the school for the entire program of instruction. Students' financial obligations will be calculated in accordance with the refund policy in the contract and this school catalog. Each program consists of the number of terms listed below. The content and schedule for the programs and academic terms are described in this catalog.

Program	Program	Credit	Registration	Tuition
----------------	----------------	---------------	---------------------	----------------

	Length	Units	Fee	Effective 01/01/97
Dental Assisting	8 Mods	47	\$25	\$6,165
Medical Assisting	8 Mods	47	\$25	\$6,165

Registration fees will also be included in the final program price entered in the Enrollment Agreement.

Voluntary Prepayment Plan

The school provides a voluntary prepayment plan to students and their families to help reduce the balance due upon entry. Details are available upon request from the Financial Aid Office.

Cancellation/Refund Policy

Cancellations

When students enroll in a program of study, they reserve places that cannot be made available to other students. The Enrollment Agreement does not constitute a contract until it has been approved by an official of the school. If the agreement is not accepted by the school, all monies will be refunded.

Students have the right to cancel the Enrollment Agreement at any time. Cancellation will occur when they give written notice of cancellation at the school address shown on the front page of the Enrollment Agreement. Notice of cancellation may be given by mail, hand delivery or telegram. The notice of cancellation, if sent by mail, is effective when deposited in the mail, properly addressed with postage prepaid. The written notice of cancellation need not take any particular form and, however expressed, is effective if it states that a student no longer wishes to be bound by the Enrollment Agreement. Students will not be penalized if they fail to cancel their enrollment in writing.

If a student cancels within three business days of executing the Enrollment Agreement and before the start of classes, all monies paid, including the registration fee, will be refunded. If a student cancels more than three business days after executing the Enrollment Agreement and before the start of classes, the school will retain the registration fee and refund any other monies paid.

Students will not be charged tuition if they begin their training program and withdraw prior to midnight of the fifth business day following their first scheduled class session. However, they must pay the registration fee stated on the Enrollment Agreement.

Students who withdraw as described above must return all training materials included in the cost of tuition within five business days from the date of withdrawal. They will be charged for materials that are not returned in good condition. Students enrolled in a program that requires them to purchase training materials will be subject to the school's textbook return policy.

Students who have not visited the school prior to enrollment may withdraw without penalty within three days following either the regularly scheduled orientation procedures or a tour of the school and inspection of equipment.

Refunds

This campus participates in the U.S. Department of Education's student aid programs and is required to comply with the Higher Education Amendments of 1992. This legislation requires the school to offer a refund policy that will provide the most beneficial refund to the students.

A refund is the difference of the amount the student paid to the school (including financial aid) and the amount the school can retain as prescribed by the appropriate refund policy.

Refund calculations are based on one of the following policies:

- o The federal pro rata calculation defined by the Higher Education Amendments of 1992 (The student must be attending the school for the first time and may not have completed more than 60 percent of their first enrollment period.)
- o If applicable, the refund requirements specified by the State of Louisiana Department of Education.

Refund Policies

Any monies due applicants or students will be refunded within 30 days of cancellation, failure to appear on or before the first day of class, withdrawal, or termination. If a student has financed all or part of the program with a third-party or government fund, refunds will be paid or credited to the student's account. Refund computations will be based on the last date of attendance.

If students do not return following a leave of absence (not to exceed 60 calendar days) on the date indicated in the written request, refunds will be made within 30 days from the end of the leave of absence.

In case of prolonged illness or accident, death in the family, or other circumstances that make it impractical to complete the program, the school will make a settlement that is reasonable and fair to both parties.

Federal Pro Rata Calculation

The school will perform a pro rata refund calculation for students who are attending this campus for the first time and terminate their training before completing more than 60 percent of their first enrollment period (academic year).

Under a pro rata refund calculation, the school is entitled to retain only the percentage of school charges (tuition, fees, room, board, etc.) proportional to the period of enrollment completed by the student.

The period of enrollment completed by the student is calculated by dividing the total number of weeks in the enrollment period into the number of weeks completed in that period (as of the last recorded day of attendance by the student).

The percentage of weeks attended is rounded up to the nearest 10 percent and multiplied by the school charges for the period of enrollment. This amount, plus an administrative fee (which cannot exceed the lesser of \$100 or 5 percent of the tuition, fees, room and board, and other charges assessed the student), may be retained by the school.

The school may retain the entire contract price of the period of enrollment – including tuition, fees and other charges – if the student terminates the training after completing more than 60 percent of the enrollment period.

Louisiana Department of Education Refund Requirements

Refunds for students who withdraw after starting school or are terminated by the school will be computed as follows:

Time of Withdrawal	Amount Student Pays
During first week of program	100% of registration fee
After first week and up until the next three weeks of program are completed	25% of total tuition price plus registration fee
After first four weeks and up until 25% of program is completed	45% of total tuition price plus registration fee
After 25% and up until 50% of program is completed	70% of total tuition price plus registration fee
After 50% of program is completed	100% of total tuition price plus registration fee

Program completion percentages are computed on the basis of clock hours.

Textbook Policy

All textbooks are included in the cost of tuition. Allied health uniforms and incidental supplies, such as paper and pencils, are to be furnished by students. The estimated cost of these items is \$200.

Financial Assistance

This Campus offers students several options for payment of tuition. Those able to pay tuition are given a plan to help reduce their fees upon entry. On the other hand, the school recognizes that many students lack the resources to begin their educational training. The campus participates in several types of federal, state and institutional financial aid programs, most of which are based on financial need.

Students seeking financial assistance must first complete the Free Application for Federal Student Aid. The school's financial aid representative uses this form to determine students' needs and assist them in deciding what resources are best suited to their circumstances.

If students withdraw from school, an adjustment in the amount they owe may be made, subject to the refund policy of the school. If they received financial aid in excess of what they owe the institution, these funds must be restored to the federal fund account, or to the lender if they received a federal loan.

The priority for returning funds is as follows: 1) Unsubsidized FSL, 2) Subsidized FSL, 3) FPLUS, 4) Perkins, 5) Pell, 6) FSEOG, 7) Other programs, 8) Student/Parent.

The following is a description of the financial aid programs available at this school. Additional information can be obtained through the Financial Aid Office. Information regarding benefits available from the Bureau of Indian Affairs or the Vocational Rehabilitation Program can be obtained through those agencies.

Federal Pell Grant

The Federal Pell Grant Program is the largest federal student aid program. For many students, these grants provide a foundation of financial assistance that may be supplemented by other resources. Eligibility for the Federal Pell Grant Program is determined by a standard formula that is revised and approved every year by the federal government. Unlike loans, grants do not have to be paid back.

Federal Supplemental Educational Opportunity Grant (FSEOG)

Students who are unable to continue their education without additional assistance may qualify for this program. Grants are based on the funds available and do not have to be repaid. Need is determined by the financial resources of the student and parents, and the cost of attending the school.

Federal Perkins Loan

Previously known as the National Direct Student Loan, this low-interest loan is available to qualified students who need financial assistance to meet educational expenses. Repayment of the loan begins nine months after graduation or termination of training.

Federal Work Study (FWS)

The purpose of the Federal Work-Study (FWS) Program - formerly called the College Work-Study (CWS) Program - is to give part-time employment to students who need the income to help meet the costs of postsecondary education and to encourage FWS recipients to participate in community service activities. Funds under this program are limited.

Scholarships

Three \$4,000 scholarships are awarded to graduating high school seniors, age 17 or older. Winners may choose any of the curricula offered by the school.

High school seniors may obtain scholarship applications from a participating high school guidance department or they may call the school for an application. Students must fill out the application completely and obtain the signature of a counselor or teacher.

All applicants must take the Career Programs Assessment Test (CPAt), which measures competency in reading, language and mathematics. The top 10 scorers will become the finalists. All finalists are required to write an essay on an assigned topic.

A panel of public school officials and representatives of local employers interviews finalists about their personal and career goals, accomplishments and extracurricular activities. This panel will select winners by consensus vote and rank all applicants. In the event that scholarships are offered but not accepted, alternates may be selected according to rank established by the panel.

Scholarships will be awarded annually. They are not transferrable nor can they be exchanged for cash. Scholarships are good for up to two months after the award date.

Student Services

Placement Assistance

Graduate

The school encourages students to maintain satisfactory attendance, conduct and academic progress so they may be viewed favorably by prospective employers. While the school cannot guarantee employment, it has been successful in placing the majority of its graduates in their field of training. All graduating students participate in the following placement assistance activities:

- o Preparation of resumes and letters of introduction – an important step in a well-planned job search.
- o Interviewing techniques. Students acquire effective interviewing skills through practice exercises.
- o Job referral by Placement Department. The Placement Department compiles job openings from employers in the area.

All students are expected to participate in the placement assistance program and failure to do so may jeopardize these privileges. Graduates may continue to utilize the school's placement assistance program for a reasonable time following the completion of the program at no additional cost.

Student Activities

Throughout the school year, activities that encourage school spirit and develop student leadership may be offered. The school believes that participation in these activities is an important part of the educational process, and student involvement is encouraged.

Transportation Assistance

The school maintains information on public transportation and a list of students interested in car pooling.

Field Trips

This campus believes that training is enriched by observing real-life applications. When appropriate, visits are arranged to industrial or professional locations.

Special Lectures

Guest lecturers are invited to speak to students about career opportunities and current industry applications of educational programs.

Drug Abuse Prevention

Information on drug abuse prevention is available at the school for all students and employees.

Housing Assistance

Although the school does not maintain dormitory facilities, students who are relocating and must arrange their own housing may request additional assistance from the Student Services Department.

Parking

On-campus parking is limited. Students are encouraged to carpool and to arrive with sufficient time before class to find on-street parking if the parking garage is full. Students with handicapped license plates must notify the parking garage attendant if they wish to reserve a handicapped parking space. Visitors with financial aid or admissions appointments may park in the garage. Drivers who violate the parking rules will be fined.

Advising

The school provides advising to students on issues involving education and academics. For personal problems that may require professional advising or counseling, the school has information available on community resources that address these types of problems.

Family Educational Rights and Privacy Act of 1974, As Amended

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They are:

1. The right to inspect and review the student's education records within 45 days of the day the Institution receives a request for access. - Students should submit to the Institution President written requests that identify the record(s) they wish to inspect. The Institution official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the Institution official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
2. The right to request the amendment of the student's education records that the student believes are inaccurate or misleading. - Students may ask the Institution to amend a record that they believe is inaccurate or misleading. They should write the Institution official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the Institution decides not to amend the record as requested by the student, the Institution will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. - One exception which permits disclosure without consent is disclosure to institution officials with legitimate educational interests. An institution official is a person employed by the Institution in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the Institution has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another institution official in performing his or her tasks. An institution official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the Institution discloses education records without consent to officials of another institution in which a student seeks or intends to enroll.

Directory information is information that may be unconditionally released to third parties by the school without the consent of the student unless the student specifically requests that the information not be released. The school requires students to present such requests in writing within 10 days of the date of enrollment. Directory information includes the student's name, address(es), telephone number(s), birth date and place, program undertaken, dates of attendance and certificate or diploma awarded.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the Institution to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
Department of Education
600 Independence Avenue, SW
Washington, DC 20202-4605

Additional FERPA information is available from the Institution's Business Office.

Corinthian Schools
